DUVAL COUNTY SUPERVISOR OF ELECTIONS

A Message from the **SUPERVISOR OF ELECTIONS**

Dear Friends,

The State of Florida is the nation's largest battleground state in terms of elections. My team and I are fully aware of our voters' concerns about Election fraud. We want you to know we have committed the resources to be prepared for any cyber security attack. Because we know these attacks will continue to be an ongoing and evolving threat to election security we must always be standing guard.

For the last three (3) years we have improved our cybersecurity defenses. We have partnered with state and federal agencies including the Department of Homeland Security (DHS) and the Federal Bureau of Investigation (FBI). Our collective focus has been and will continue to be on prevention, mitigation, and rapid response to both physical and cyber threats.

It is undeniable there was interference and meddling during the 2016 election cycle by various groups. These "bad guys" had three goals. First, they sought to erode voter confidence. Second, they attempted to delegitimize the winner of the election. Third, they tried to polarize the American electorate.

Many of their goals were accomplished through fake Twitter and Facebook accounts and by spending millions of dollars in advertising meant to influence social media users. For example, over 72,000 Americans RSVP'd to a fake political rally, which was created through a bogus Facebook account originating in another country. In creating and using fake Facebook and Twitter accounts, these perpetrators planted seeds of propaganda, untruth, and rhetoric that millions of American voters watered and fertilized through "re-tweets," "shares," or "likes."

Last year, in the 2018 General Election cycle, my staff received reports from voters who had been contacted via text message. The text messages informed them they had not returned their vote-by-mail ballots or their ballots were faulty. In investigating these cases, we found many of these voters had not even requested a vote-by-mail ballot, while other voters had already mailed their ballots to our office. This situation was deeply concerning to voters and caused further erosion of voter confidence.

The continued misuse and manipulation of social media is a significant concern as we move into the upcoming 2020 election cycle. I implore you to make it a matter of concern to you and your loved ones as well. Please think before you "like," "share," or "retweet" election-related content on social media. Do your research and verify whether the information is accurate and reliable information.

If you are in doubt as to the truth of election-related information in Duval County, Florida, please contact my office. We will research and confirm the accuracy or inaccuracy of the information. Additionally, if you receive an unsolicited text message regarding your voter status or your Vote-by-Mail ballot, please verify your information with us at www.duval elections.com or call us at 904-630-1414.

While the Founding Fathers of the United States welcomed debate and public discourse, let us be united in the core belief that election meddling and interference are not acceptable. Please join me in being mindful of what we read, post, or share on social media.

My staff and I are only a click or phone call away, and we stand ready to assist you, the voters of Duval County.

Sincerely,

Mike Hogan
Duval County Supervisor of Elections

VOTER REGISTRATION INFORMATION

Who May Register and Vote

To vote in Florida, a person must be 18 years of age, a citizen of the United States of America, a legal resident of Florida, and a registered voter in the county where he or she intends to vote. A person who is otherwise qualified may pre-register on or after that person's 16th birthday and may vote in any election held on or after that person's 18th birthday.

Persons Not Entitled to Register or Vote

- Persons who have been found by a court in this or another state to be mentally incapacitated with respect to voting and who have not had their right to vote restored
- Persons who have been convicted of any felony in any court and who have not had their right to vote restored
- Any person who is not a citizen of the United States of America

How to Register to Vote

To register to vote, a person must fill out a voter registration application. Voter registration applications are available at the Duval County Supervisor of Elections Office, 105 East Monroe Street. Applications are also available online at www.duvalelections.com, driver license offices, state agencies that provide public assistance, state agencies that serve persons with disabilities, public libraries, and many other public locations. A person may also register to vote online at www.RegistertoVoteFlorida.gov.

Citizens are offered the opportunity to apply to register to vote or change their voter registration when they obtain their driver license, when they apply for public assistance at state agencies, when they apply for services at state agencies that serve persons with disabilities, and when they obtain services at

an armed forces recruitment office.

Applications may be submitted in person at any Florida supervisor of elections office or by mail to the Duval County Supervisor of Elections Office, 105 East Monroe Street, Jacksonville, Florida 32202.

A voter registration application is complete if it contains:

- The voter's name
- The voter's legal residence address
- The voter's date of birth
- The voter's valid Florida driver license number, Florida identification card number, or the last four digits of the voter's Social Security number
- Affirmation that the voter is a citizen of the United States of America
- Affirmation that the voter has not been convicted of a felony or that, if convicted, the voter's civil rights have been restored
- Affirmation that the voter has not been adjudicated mentally incapacitated with respect to voting or that, if so adjudicated, the voter's right to vote has been restored
- The voter's original signature (the voter must sign the oath printed on the form swearing or affirming under the penalty for false swearing that the information contained in the registration application is true)

Note: An applicant who does not designate a political party affiliation will be registered with no party affiliation (NPA).

When a Person May Register to Vote

Citizens may apply to register to vote at any time either by mail, in person, or online. However, an individual must be registered by the 29th day prior to any election in order to vote in that election. The date a complete voter registration application is postmarked or hand delivered to the Supervisor of Elections

Office will be the registration date. If an application is complete and the applicant is qualified as a voter, then a voter information card will be mailed to the newly registered voter.

When the registration books are closed for an election, new voter registration and party changes will be accepted, but only for the purpose of subsequent elections.

Updating a Signature

It is very important that a voter's registration record contain a current signature. If the voter's signature has changed, he or she may update it by submitting a new voter registration application. To obtain a Florida Voter Registration Application, a person may visit www.duvalelections.com, call the Duval County Supervisor of Elections Office at (904) 630-1414, or visit the Duval County Supervisor of Elections Office.

Placement on Inactive Voter Rolls and Removal

If the Supervisor of Elections receives information from the United States Postal Service or another governmental agency source that the voter might have changed his or her legal address within Florida, his or her registration record will be automatically changed to reflect that new address. The Supervisor of Elections Office will send the voter an address change notice. Contact your supervisor of elections if the changed address is incorrect.

If the Supervisor of Elections receives information from the United States Postal Service or another governmental agency source that the voter might have changed his or her legal address outside Florida, the Supervisor of Elections Office will send the voter an address confirmation final notice.

The voter must respond within 30 days or his or her registration status will be changed to inactive. As an inactive voter, the voter is still registered and may vote. The inactive status will revert to active status if the voter updates his or her voter registration record, votes, or requests a vote-by-mail ballot. However, if the voter does not take any of these actions within two general (federal) elections from the date the voter was made first inactive, the voter's name will be removed from the registration system. The voter must then re-register in order to vote.

Registration is Public Record

In Florida, voter registration records are open to the public and may be examined or copied by any person. However, the following registration information is confidential: location of voter's place of registration, location of place of registration update, Social Security number, Florida driver license number, and Florida identification number. A voter's signature may be viewed but not copied.

ELECTION DAY INFORMATION

The polls are open on Election Day from 7:00 A.M. to 7:00 P.M.

To determine his or her polling location, a voter may check his or her current voter information card, visit www.duvalelections.com, or call the Duval County Supervisor of Elections Office at (904) 630-1414.

On Election Day, voters will check in with poll workers to determine their eligibility to vote and make sure they are at the correct polling location.

Note: On Election Day, in order for a registered voter's vote to count, he or she must vote in the precinct in which he or she resides.

Poll Workers

Poll workers are selected by the Supervisor of Elections at least 20 days prior to an election. Poll workers make up the election board. The election board is required to arrive at the voting precinct by 6:00 A.M. on Election Day. Poll workers who meet the training criteria are paid at the set rate for their service. Anyone interested in working at the polls may visit www.duval elections.com for additional information.

Types of Identification Accepted

Current and valid photo and signature identification are required to vote at the polls and during Early Voting. A voter who fails to show photo and signature identification has the option to vote a provisional ballot. Acceptable forms of identification include

- Florida driver license
- Florida identification card issued by the Department of Highway Safety and Motor Vehicles
- United States passport
- Debit or credit card
- Military identification
- Student identification
- Retirement center identification
- Neighborhood association identification
- Public assistance identification
- License to carry a concealed weapon or firearm
- Veteran Health Identification Card issued by US Department of Veterans Affairs
- Employee identification card issued by any branch, department, agency, or entity of the federal government, state, a county, or a municipality

Assistance in Voting

Upon request to the Supervisor of Elections, a need for assistance at the polls may be designated on a voter's registration record.

The voter may designate someone of his or her own choice other than the person's employer or an officer or agent of the person's union. Two elections officials may also provide assistance. It is illegal for someone to solicit a voter at a polling place, at an early voting site, at any location where vote-by-mail ballots are printed or distributed, or within 150 feet of such locations. It is also illegal to attempt to influence the choices of a voter while providing that voter with assistance casting his or her ballot. Persons assisting a voter, except for elections officials, must subscribe to an oath. Only one voter may occupy a voting booth at a time, and he or she may not speak with anyone while casting his or her ballot except as authorized by an elections official.

Voters with Disabilities

Duval County also has at least one AutoMARK available at each polling place and early voting location to assist persons with disabilities. This ballot marking device uses a digital scan ballot and allows voters with disabilities the option of a touchscreen or an audio headset function to mark their ballot. The screen has a large-print capability and adjustable screen contrast for better viewing.

Poll Watchers

Each political party, candidate, and political committee formed for the specific purpose of expressly advocating the passage or defeat of an issue on the ballot may have one poll watcher in each polling room on Election Day or in early voting sites during the designated early voting window at any one time during an election. Poll watchers must be registered voters in the county and may not be candidates or law enforcement officers. In order to request the placement of poll watchers, each political party, candidate, and political committee must designate the names of such poll watchers for

each precinct on the form approved by the Division of Elections.

VOTING BY MAIL

Who May Vote by Mail

All qualified voters are permitted to vote by mail under Florida law.

How to Vote by Mail

A voter, or, if directly instructed by the voter, a member of the voter's immediate family or the voter's legal guardian, may request a ballot from the Supervisor of Elections in person, by mail, by telephone, or via the web. One request may cover all elections through the next two general elections. The person requesting a ballot must disclose

- The name of the voter for whom the ballot is requested
- The voter's address
- The voter's date of birth
- The requestor's name
- The requestor's address
- The requestor's relationship to the voter
- The requestor's driver license number, if available
- The requestor's signature (written request only)

A request for a ballot to be mailed must be received by the Supervisor of Elections Office no later than 5:00 P.M. on the tenth day before any election. The last day the Supervisor of Elections may mail a ballot is eight days before an election.

A voter may pick up a vote-by-mail ballot through Election Day.

Beginning nine days prior to the election, a designee may pick up a vote-by-mail ballot for a voter. A designee must have written authorization from the voter with the voter's

name, date of birth, address, signature, and name of the designee. Additionally, the designee must present his or her own picture identification and must sign an affidavit. A non-family member designee is limited to picking up two blank vote-by-mail ballots for other voters, not counting his or her own ballot or ballots for members of his or her immediate family.

Vote-by-mail ballots must be mailed, delivered in person to the Supervisor of Elections Office, or dropped off during voting hours at early voting site drop boxes provided by the Supervisor of Elections Office. Whether hand delivered or mailed, the deadline for vote-by-mail ballots to be received at the Supervisor of Elections Office is 7:00 P.M. on the day of the election.

EARLY VOTING

As a convenience to the voter, the Supervisor of Elections will provide early voting at designated early voting sites.

Early voting differs from Election Day in that any elector residing in Duval County shall be allowed to vote at any active early voting location.

Early Voting Times and Locations

Early voting sites will be open 14 days, with days and hours to be designated by the Supervisor of Elections. Early voting locations will be determined no later than 30 days prior to an election. Locations and times will be publicized at www.duval elections.com and in the local media prior to an election.

CHANGES IN A VOTER'S ADDRESS, NAME, OR PARTY

When a Voter Moves

When a voter moves from one address to another within Florida, the voter must notify the Supervisor of Elections Office by signed written notice, by phone, or by electronic means directly to the supervisor of elections office in the county of the new residence. If the Supervisor of Elections changes the polling location for a voter, then the voter will be notified by receiving a new voter information card in the mail with the new name and address of the voter's polling location.

No person shall be permitted to vote in any precinct other than the one in which he or she legally resides and is registered. However, a person temporarily residing outside his or her home county may apply to be registered and may vote in the precinct that contains the main office of the Supervisor of Elections. These voters will not be permitted to vote in municipal elections.

A registered voter who moves his or her permanent residence from Florida to another state after the registration books in that state have closed shall be permitted to vote by mail in the county of his or her former Florida residence for the offices of president and vice president of the United States.

When a Voter Changes Name or Party Affiliation

If a voter changes his or her name by marriage or other legal process, or if a voter wants to change his or her party affiliation, the voter must notify the Supervisor of Elections Office by completing a Florida Voter Registration Application or by other written means. The notice must be signed and contain the

person's date of birth or voter registration number. The voter registration application or the written and signed notice may be mailed or delivered to the Supervisor of Elections Office, 105 East Monroe Street, Jacksonville, Florida 32202.

Note: The deadline to change party affiliation is 29 days prior to any primary election at which point the registration books close.

PROVISIONAL BALLOTS

The Supervisor of Elections is required to provide a provisional ballot in certain voting situations, including when

- A person fails to provide the required current photo and signature identification
- A voter claims to be registered properly in the state and eligible to vote at the precinct but whose eligibility cannot be verified
- A person's right to vote is challenged by any voter or poll watcher
- A person votes in an election after regular poll-closing time pursuant to a court or other order extending the statutory polling hours

TYPES OF ELECTIONS

General Election

A general election is held on the first Tuesday after the first Monday in November of each even-numbered year to choose a successor to any federal, state, county, or district officer whose term will expire before the next general election. All voters in the applicable districts are eligible to vote in a general election regardless of party affiliation.

Nonpartisan Judicial Election

Candidates for the Florida Supreme Court and district courts of appeal will appear on the ballot in the general election only for a vote on their retention. Candidates for circuit and county court judge will appear on the primary and if necessary on the general election ballot.

Primary Election

Florida is a closed primary state. Only voters who are registered members of a party may vote for that party's candidates in a primary election. Voters without such party affiliation are not eligible to vote for party candidates in a primary election except in a universal primary contest.

Nonpartisan judicial and school board offices, nonpartisan special districts, and local amendment and referendum questions are included in some primary elections. All registered voters living in applicable districts are entitled to vote in these races regardless of party affiliation.

Universal Primary Contest

Article VI, Section 5(b), *Florida Constitution*, provides that if all candidates have the same party affiliation and the winner will have no opposition in the general election, then all qualified voters, regardless of party affiliation, may vote in the primary election for that office.

CONSOLIDATED GOVERNMENT ELECTION

Unitary Election

The offices of Jacksonville's consolidated government are filled by unitary elections. Under the unitary election system, the first election is held with a single ballot for all voters within each electoral district, regardless

of political party affiliation. Candidates appear on the ballot with party labels and campaign as party candidates. Any candidate winning a majority of votes in the first election is elected; if no candidate for a position wins a majority, then the general election serves as a runoff between the top two winners regardless of party affiliation.
