

MINUTES
SPECIAL CITY COUNCIL MEETING
INDUCTION CEREMONY
DECEMBER 2, 2014, AT 7:00 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Special Meeting of the City Council of the City of Neptune Beach was held December 2, 2014, at 7:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

The following Council members and staff were in attendance:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Karla Strait, CMC

**Call to Order & Pledge
of Allegiance**

Mayor Pruette called the special meeting to order at 7:00 p.m. and led the Pledge of Allegiance.

Oaths of Office

OATHS OF OFFICE:

City Clerk Karla Strait administered the Oath of Office to Councilor Richard Arthur and Vice Mayor John Jolly, whereupon they each, respectively, reassumed the duties of their elected office.

**Presentation of
Certificate of Election**

PRESENTATION OF CERTIFICATE OF ELECTION: City Clerk Strait presented a Certificate of Election to Councilor Arthur for Seat 4 and Vice Mayor Jolly for Seat 5.

Council Comments

Vice Mayor Jolly stated it has been a pleasure to serve on the Council for the past four years. He is looking forward to continuing to serve the citizens of Neptune Beach for the next four years.

Councilor Tucker stated she has enjoyed working with the present Council and felt they have worked hard these past four years. She would like Council to continue to work hard for the citizens of Neptune Beach.

Councilor Arthur stated a lot has changed for him personally during the past four years which gives him a deeper prospective on serving the City and the community. He expressed this year's election process brought a lot of important community issues to the forefront which he felt was good for the City.

Councilor Wiley congratulated Vice Mayor Jolly and Councilor Arthur on their reelection. He stated it has been a pleasure to work with the Council, City Manager and City Attorney over the past four years. He also is looking forward to continuing to serve on the Council for the next four years.

Mayor Pruetto congratulated Vice Mayor Jolly and Councilor Arthur on their reelection. She stated she is also looking forward to working with this Council during her last two years serving as Mayor. She also thanked the City Manager and City Attorney for working well with the Council these past years. She felt Neptune Beach is a wonderful community and it takes the Council, City Attorney and City Manager working together to keep Neptune Beach a great place to live.

Appointment of
Vice- Mayor

ELECTION OF VICE-MAYOR: Pursuant to Section 2.04(b), City Charter, Mayor Pruetto opened the floor for nominations for Vice Mayor.

Vice Mayor Jolly stated he has enjoyed being Vice Mayor for the past two years but felt the title should be passed to Councilor Arthur. He nominated Councilor Arthur to serve as Vice Mayor. Councilor Arthur stated it would be an honor to serve as Vice Mayor and he accepted the nomination.

Councilor Tucker nominated Councilor Wiley to serve as Vice Mayor. Councilor Wiley also accepted the nomination to serve as Vice Mayor.

There being no further nominations, Mayor Pruetto asked City Clerk Strait for a roll call vote. She asked each council member to state who they choose to serve as Vice Mayor when their name was called.

Roll Call Vote:

Councilor Arthur	3 – Arthur, Jolly, Pruetto
Councilor Wiley	2 – Tucker, Wiley

Results: **COUNCILOR ARTHUR WILL SERVE AS VICE MAYOR.**

Vice Mayor Arthur thanked the Council for selecting him to serve as Vice Mayor.

Mayor Pruetto invited everyone to attend the reception immediately following adjournment of the meeting.

Adjournment

There being no further business, the meeting adjourned at 7:21 p.m.

WORKSHOP CITY COUNCIL MEETING
DECEMBER 1, 2014 AT 6:00 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held December 1, 2014 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager James Jarboe
City Clerk Karla Strait, CMC

Community Development Director Amanda Askew
Director of Public Safety David Sembach

**Call to Order &
Pledge of
Allegiance**

Mayor Pruette called the special meeting to order at 6:00 p.m. and asked Vice Mayor Jolly to lead the Pledge of Allegiance.

**Res. No. 2014-13
FDOT**

RESOLUTION NO. 2014-13: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA REQUESTING THE FLORIDA DEPARTMENT OF TRANSPORTATION FUND A BEAUTIFICATION PROJECT ON STATE ROAD A1A (THIRD STREET) IN NEPTUNE BEACH.

Councilor Tucker explained she has been working with the Ish Brant Beautification Committee and State Representative Janet Adkins in regards to obtaining funding for the beautification of Third Street / A1A. The first stage of the process is for Council to adopt a Resolution agreeing to maintain the landscaping.

Mayor Pruette stated in the past when the City has requested funding from the State the City was required to have a plan in place to present to them.

City Manager Jarboe explained the Florida Department of Transportation funded a similar beautification project on Atlantic Boulevard for the Mayport Flyover about fifteen or twenty years ago. He felt the Ish Brant Beautification Committee and the City needed to find out how much it would cost for the maintenance of the landscaping, including the lighting before accepting the funding for the project.

Councilor Wiley asked how much funding was available and what the City would need to do to speed up the process.

Josh Messenger, 220 Hopkins Street, IBBC Member, explained the Ish Brant Beautification Committee has been in contact with State Representative Janet Adkins. Her office advised them in order to begin the process the City would need to adopt a Resolution showing intent. The Florida Department of Transportation would provide the cost analysis, the design and implementation of the project. The City would be required to maintain the improvements. It would be best for the City to adopt the Resolution before the first of the year, which is when the funding will become available.

Councilor Wiley asked if the City would have the opportunity to review and approve the plans for the project before making a commitment. Mr. Messenger replied "yes."

Councilor Arthur felt it was a great idea and asked when the grant would be available. Mr. Messenger advised the grant would become available the first of the year. He added that State Representative Adkins has a very positive outlook and felt the City has a good opportunity to obtain the funding.

Councilor Arthur asked if the City would need to fill out a grant application. Councilor Tucker replied it was her understanding if the City adopted the Resolution showing intent, Representative Adkins would move forward with it on behalf of the City.

Mayor Pruette stated she would support the Resolution.

Vice Mayor Jolly felt the Resolution for the grant was a great idea. He would like to find out more about the cost of maintenance before the City makes a commitment.

Consensus: **FORWARD THE RESOLUTION TO THE FOLLOWING REGULAR MEETING.**

City Manager Jarboe advised an additional "whereas" should be added to the Resolution regarding the cost of maintenance.

City Manager
Evaluation

CITY MANAGER PERFORMANCE EVALUATION PROCESS: Councilor Tucker felt after having gone through the performance evaluation process for the City Clerk, Council should also conduct a performance evaluation on the City Manager. She understood according to the City Manager's contract that Council had to give the City Manager 180 days notice in order to amend his contract.

Mayor Pruette stated Council needed to decide whether or not they wanted to amend the City Manager's contract to add in a performance evaluation process. She asked City Attorney Krechowski to advise Council of their options.

City Attorney Krechowski advised Council had two options: 1) They could amend the contract if both parties agree, or 2) notify the City Manager that they did not want to extend the contract for an additional 180 days.

The current contract will automatically extend on January 16th. The language in the contract dated in February 2004, required Council to set up a performance evaluation process by a certain date, that did not happen and that provision of the contract is no longer valid. Back in July of this year Council discussed some goals and objectives for the City Manager which is still a valid part of the contract, but there is a question regarding a specific performance evaluation process.

Councilor Tucker stated she would prefer not to renew the current contract and instead draw up a new contract that would include a performance evaluation process.

Vice Mayor Jolly stated amending the contract was a negotiation process on both sides. He felt the contract has worked for a number of years. He would prefer Council identify goals and objectives they expect of the City Manager and evaluate him based on those achievements at the end of the year.

Councilor Arthur stated he would be interested in amending the contract to reinsert a performance evaluation process.

Councilor Arthur asked if the same performance evaluation process used for the City Clerk could be used for the City Manager. City Attorney Krechowski stated whatever process the Council decided to use, the contract would have to be amended and both parties would have to agree to the amendment.

Councilor Arthur stated he would be interested in amending the current contract to establish a performance evaluation or allowing the current contract to expire and inserting language to establish one into a new contract.

Councilor Wiley asked when the City Manager's contract expired. City Attorney Krechowski replied the contract was signed in 2004 and was originally valid for a five year period, but automatically extends every 180 days. The five year contract actually expired in 2009. Councilor Wiley asked when the current 180 day extension expires. City Attorney Krechowski replied the current 180 day extension will automatically renew again on January 16, 2015, if Council does not give notice to take action.

City Manager Jarboe stated the current 180 extension period actually expires in July because Council is required to give him 180 days notice before amending or not extending the contract.

City Attorney Krechowski advised he would recalculate the expiration date of the current 180 day period. Council is required to give 180 days notice prior to the extension of the contract if they want to amend it.

City Manager Jarboe recommended that he meet with the City Attorney and come up with an agreeable amendment to the contract.

Mayor Pruette stated Council needed to decide tonight if they want to mutually work with the City Manager to extend the contract for an additional 180 days, make an amendment, or not renew the contract at all.

Councilor Wiley stated if Council continued to allow the contract to renew for another 180 days it would allow them time to discuss an evaluation process. Mayor Pruette stated Council cannot conduct a performance evaluation without first amending the contract.

City Attorney Krechowski advised that is correct, under the current contract Council could not conduct a performance evaluation without an amendment. The paragraph of the contract that contained the language to conduct a performance evaluation was never complied with and therefore expired on February 16, 2009.

Mayor Pruette asked the City Manager if he would be willing to mutually agree to amend the contract to add a performance evaluation process. City Manager Jarboe suggested that he and the City Attorney meet and come up with something agreeable to bring to Council in January.

Mayor Pruette stated it is obvious Council would like to conduct a performance evaluation on the City Manager.

City Attorney Krechowski advised if Council wished to conduct a performance evaluation on the City Manager they would have to give the City Manager 180 days notice that they wanted to amend his contract to include the language. They would need to direct the City Manager and City Attorney work together to arrive at something agreeable to present to Council, or Council could give the City Manager 180 days notice that they did not want the contract to automatically extend.

Mayor Pruette asked each council member what they would like to do.

City Attorney Krechowski stated he was hearing a consensus that Council would like to include a performance evaluation component in the current contract.

Councilor Tucker, Councilor Wiley, and Councilor Arthur all agreed they would like to reinsert the performance evaluation language into the City Manager's contract. Councilor Arthur stated if it did not happen within the 180 days, he would not want to renew the contract.

Vice Mayor Jolly stated he was not in favor of amending the City Manager's contract. He would like to let the contract automatically renew, give the City Manager some objectives and evaluate him at the end of the year based on those objectives.

Consensus: **TO HAVE THE CITY ATTORNEY AND CITY MANAGER MEET AND BRING SOMETHING BACK TO THE COUNCIL IN JANUARY.**

Town Center
Christmas Tree
Lighting

TOWN CENTER CHRISTMAS TREE LIGHTING: City Manager Jarboe stated Town Center has hosted a Christmas Tree Lighting Event in previous years without approval from the City. He met with Kendra Robertson, Property Manager for 200 First Street, and she asked that Neptune Beach sponsor the event so it would be covered under the City's insurance. The City cannot indemnify another party or we would lose our sovereign immunity. He explained that normally when private events are held on City property the City requires the event host to indemnify the City. If Council chooses they can waive that requirement.

City Attorney Krechowski advised the City's insurance did not provide coverage for other parties. Council had the option of adding a separate rider to the City policy if they so chose.

City Manager Jarboe stated if the City added a separate rider we could lose our sovereign immunity.

Mayor Pruette asked City Manager Jarboe if he recommended allowing the Town Center event to occur the same as it has in the past. City Manager Jarboe replied "yes."

Mayor Pruette asked if Town Center had time to obtain and provide proof of insurance to the City before Saturday. Ms. Robertson replied possibly.

Councilor Arthur asked if Town Center was doing anything differently this year that they have not done in the past. Ms. Robertson replied the event will be the same. The only difference is that they were asking the City to officially sponsor the event. They have never asked the City for permission to host the event in the past. She felt it was automatically approved because the City of Atlantic Beach has traditionally coordinated the purchase, setting up and decorating of the tree, and makes arrangements for Santa, the sleigh, the hayride, and police patrol. The Mayport Middle School Band marches down the street followed by Santa. They have also previously worked with the Neptune Beach Public Services employees for set up and clean up. She was never aware they needed approval from the City.

City Manager Jarboe explained before today he was not even aware that our public services employees had been working the event. The supervisor must have taken it upon himself to allow the employees to work the overtime. He added that employee's do not have the authority to approve special events.

City Manager Jarboe stated if Council wishes to sponsor the event and make it an official City event, Town Center would still be required to provide insurance coverage.

Mayor Pruette voiced concern that the event was scheduled to take place in four days and this is just now coming before the Council. She felt this should have been brought to the attention of the City sooner. City Manager Jarboe replied he just found out about the event as well.

City Manager Jarboe explained normally when a private event is held on public property the City requires the responsible party to have an insurance rider that indemnifies the City. In this case it has slipped through in previous years.

City Manager Jarboe stated if Council wants the City to sponsor the event they must approve it. If Council did not want the City to sponsor the event he has the authority to approve it with the condition that they provide insurance indemnifying the City.

Vice Mayor Jolly voiced concern regarding the City not being notified of recent events until the last minute. He felt there needed to be better communication between the City and events hosts. Mayor Pruette suggested Town Center appoint a liaison to work with the City in the future.

Councilor Tucker felt the city needed to be consistent regarding insurance requirements for events.

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette asked Chief Sembach to give a brief report on the Pete's Bar Thanksgiving Day event. Chief Sembach reported the event began at 9:00 a.m. The ebb and flow was constant all day. He estimated the crowd was around 3,000 people. There were no incidents of drunks, arguing or fighting.

Mayor Pruette reminded everyone Christmas in the Park is this Friday, December 5th at 6:00 p.m.

Councilor Arthur asked what time the Thanksgiving Day event ended. Chief Sembach responded the streets were cleared and traffic was moving before 2:00 p.m. He suggested shutting down the event at 1:00 p.m. next year.

City Manager Jarboe stated parking for the event was overwhelming for some residential areas. All of the parking spaces in the parking lots were full as well as the parking spaces up and down the residential streets. Mayor Pruette added parking and traffic was really bad at Atlantic Boulevard and Third Street. Chief Sembach reported there was one complaint from a resident east of Third Street.

City Clerk Strait stated she is working on putting a new calendar on the website. She is also updating the webpage's for the City Clerk and Boards.

City Manager Jarboe stated revenue for building permits has increased 5% during the first two months of this fiscal year. The building department is busier than usual with plan reviews and inspections.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- The Bal Harbour project was 70% complete.
- Water meters are on back order but they should all be changed out by the summer.

Councilor Arthur voiced concern regarding cracks in streets that have just recently been repaved. He asked if there was a warranty or guarantee from the contractor on the paving. City Manager Jarboe responded the streets in the Bal Harbour area are extremely low and it is difficult to keep water out. Councilor Arthur asked the City Manager to ensure that the vendor for the new paving process clearly defines the warranty and guarantees for the paving materials. He also asked the City Manager to ensure the City was receiving warranties for repairs. City Manager Jarboe stated the cracks can be sealed.

COMMENTS FROM THE PUBLIC

Chris Gidden, 220 Hopkins Street, Ish Brant Beautification Committee member, presented plans for the IBBC for 2015. Their main goal for the Butterfly Garden is to winterize it by covering everything up and planting some herbs that will add nutrients to the ground. In the spring the herbs will be removed and replaced with low maintenance plants. The committee will submit plans to Council in February.

The committee received permission from the Florida Department of Transportation to place a welcome sign on Atlantic Boulevard before the Mayport Flyover. Mr. Gidden thanked Mr. Kerry Chin for designing the sign. He will present the plan for the welcome sign to Council for approval before it is installed.

Mr. Gidden stated the committee is also working on a project to beautify the median at Seagate Avenue and Hopkins Street using their own money. They would like to add some low maintenance grass, palm trees, and install a new smaller welcome sign. Mayor Pruette asked Mr. Gidden to present the plans to the Council once they are completed.

VARIANCES

V14-13 V14-13, VARIANCE REQUEST / 1223 ATLANTIC BOULEVARD / PENMAN PLAZA
1223 Atlantic Blvd ASSOCIATES, LLLP: Mayor Pruette stated Penman Plaza Associates are requesting a total of nine variances for their development order. The Community Development Board approved variances 1 through 8 without conditions and variance 9 with conditions. She recommended Council approve variances 1 through 8 as recommended by the Board and discuss number 9 relating to the stormwater drainage.

Moved by Tucker, seconded by Jolly.

Motion: **TO APPROVE VARIANCE 2014-13 1 THROUGH 8 AS RECOMMENDED BY THE COMMUNITY DEVELOPMENT REVIEW BOARD.**

Roll Call Vote:

Ayes: 4 – Jolly, Tucker, Wiley, Pruette

Noes: 1 – Arthur

MOTION CARRIED

2014-13 V14-13, VARIANCE REQUEST # 9 / 1223 ATLANTIC BOULEVARD / PENMAN PLAZA
Variance Request ASSOCIATES, LLLP: Mayor Pruette stated the Community Development Review Board recommended approving variance request number 9, to Section 27-519(e)(f), with the following conditions:
#9

- 1) The new submittal for plans will be signed and sealed and on the front page shall have this statement: "The St. Johns River Water Management District and the City of Neptune Beach requirement as approved by this variance for drainage has been met as demonstrated by the calculations contained herein and thus meeting the requirement of Section 27-519(i)."
- 2) Within this plan they shall demonstrate calculations with the new site and show on the site plan that there is a net improvement for the stormwater attenuation and a net improvement for floodplain volume.

Mayor Pruetto opened the public hearing.

Paul Eakin, 599 Atlantic Boulevard, Suite 6, Atlantic Beach, Florida, Attorney for the owner of Penman Plaza, thanked the Community Development Board and Chairman Chin for their efforts to review and approve the plans. He added the plans and specs regarding the calculations for variance number 9, including the improvements for stormwater and a net improvement for flood plain volume have been submitted as requested by the Board. He understood because the plans were not submitted to the City until the Wednesday before the Thanksgiving Day holiday, the City was considering tabling the approval of variance number 9 until January to allow the staff time to review the calculations. He added if variance number 9 is deferred until January it would place his client and Mr. Proctor, at a disadvantage because he would not be able to close on the property and begin construction within the timeframe. He asked Council to take that into consideration. He stated the owner of the property and the engineers for the project were all present if Council had any questions.

Mayor Pruetto asked City Attorney Krechowski to give his opinion regarding variance number 9.

City Attorney Krechowski stated the language provided by the Community Development Board was very clear that the calculations for the stormwater was a fundamental part of this particular variance. He added that because the plans were not received until the Wednesday prior to the Thanksgiving Day holiday, staff has not had the time to review them. He advised Council, if they wanted to approve variance number 9, to include instructions in the motion that no construction of the pond commence until the calculations are reviewed and approved by the city staff.

Community Development Director Askew added that staff needed time to review the calculations and to ensure they have met the requirements for the net improvement for the stormwater and floodplain volume as required by the Community Development Board.

Mayor Pruetto asked how long it would take staff to review the plans and report back to Council with an answer regarding the calculations.

Mrs. Askew replied the city engineer is also having a third party engineer review the plans. They should be finished by this coming Wednesday. City Manager Jarboe added if the engineers began reviewing them today, we should have an answer before Friday.

Councilor Tucker stated she would support approval of the variance request, with the condition that no work begin on the pond until after the calculations were approved by the engineers.

Vice Mayor Jolly stated he supported the Board recommendation.

Councilor Arthur also agreed with the Board. He had an issue regarding the property having a hardship because the property had a lot of space. He was also concerned that approving the variance would place a hardship on other businesses.

Councilor Wiley stated he attended the Community Development Board meeting. He felt the Board covered a lot of areas and did a good job reviewing the plans. Councilor Wiley asked if the variance was approved with the condition that no work begin on the pond, would the owner be required to come back before Council for approval.

Mayor Pruette stated it was her understanding if Council approved the variance with the condition it would not place a burden on the developer. City Manager Jarboe agreed it would not.

City Manager Jarboe stated if Council approves the Development Order the owner could close on the property. He was concerned, what would happen, if the engineer did not approve the calculations. City Attorney Krechowski advised Council needs to decide what they would like staff to do if the calculations do not meet the requirements of the Board.

Vice Mayor Jolly asked Community Development Director Askew if plans were submitted for the project at an earlier date that did not require a variance. Mrs. Askew replied "yes" the plans for the preliminary development order showed the pond at a size that would not require a variance.

Vice Mayor Jolly stated he would like to defer approval of variance number 9 and hold a special meeting to approve it once the calculations were approved by staff.

Steve Proctor, 2312 Pine Island Court, explained if the variance is not approved it would cause complications with his financing because he cannot get financing without the survey which showed the size of the pond. If he cannot get financing he cannot begin construction. He was concerned that if the construction did not begin soon he would not be able to move to the property before his current lease expired. He was concerned about the location and size of the pond due to the loading and unloading of freight. He explained he would like to close on the property this Friday.

Mayor Pruette closed the public hearing.

City Attorney Krechowski advised the motion should be "to approve the recommendation of the Board as stated including that no work commence on the pond until staff verifies the calculations submitted satisfies the terms of the Community Development Board recommendation."

City Manager Jarboe suggested holding a special meeting next Monday, if staff did not approve of the calculations

For the Record Councilor Arthur asked Community Development Director Askew, for the record, if it is going to be difficult for staff to review the calculations. Mrs. Askew replied the engineers need to approve that the plans meet the requirements of the Board and that they are signed and sealed by the engineer.

Councilor Arthur asked Mrs. Askew what has changed regarding Hopkins Creek and water retention. Mrs. Askew explained Council recently passed a new stormwater ordinance that was created to help new developments and not burden existing stormwater pathways and retention areas.

Vice Mayor Jolly asked if this variance requirement would meet the requirements of the ordinance recently passed. Mrs. Askew replied if the plans show the correct calculations and that no water is leaving the site, it should meet the requirements of the new ordinance.

Vice Mayor Jolly asked if there is currently a pond on the site. Mrs. Askew replied "yes" there is an existing pond on the site. Vice Mayor Jolly asked if this variance is passed, would the existing pond be larger or smaller. Mrs. Askew replied if the variance is passed the pond will remain the same size, if the variance is not passed the pond will need to be larger.

Moved by Tucker, seconded by Wiley.

Motion: **TO APPROVE THE RECOMMENDATION OF THE COMMUNITY DEVELOPMENT BOARD AS TO VARIANCE NUMBER 9 INCLUDING THAT NO WORK COMMENCE ON THE SUBJECT POND UNTIL STAFF VERIFIES THE CALCULATIONS AS SUBMITTED BY THE APPLICANT SATISFIES THE TERMS AND REQUIREMENTS OF THE COMMUNITY DEVELOPMENT BOARD RECOMMENDATION STATED IN THEIR MOTION AS TO V14-13 # 9.**

Town Center
Tree Lighting

TOWN CENTER CHRISTMAS TREE LIGHTING: City Manager Jarboe stated Council did not need to approve the event unless they wanted to sponsor it and make it an official city event.

Consensus: **NO COUNCIL ACTION NECESSARY.**

COUNCIL COMMENTS

Councilor Arthur asked City Clerk Strait to create a list of events approved by the Council for 2014, and locate the contact telephone number of the sponsor. He felt the City should reach out to event coordinators for communications prior to events.

Councilor Arthur asked City Manager Jarboe if there was option for flex time in the Building Department. City Manager Jarboe responded the department has a licensed building inspector to help with inspections. He added any extra revenue from building permits had to stay within the building department and could not be used for zoning or anything else per State law.

Councilor Wiley asked when the new part time code enforcement officer would be hired. City Manager Jarboe stated he would introduce the new code enforcement officer to the Council in January.

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Wiley to lead the Pledge of Allegiance.

PRESENTATIONS / NONE

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- A really bad storm took down approximately 15 trees this week. He received a number of telephone calls from citizens thanking the public works department for their assistance in cleaning up and removing the fallen trees and debris.
- Using the new repaving process will allow the city to repave almost seven miles of roads which is more than double of what the normal process would allow. The first step of the new process is sealing all the existing cracks in the roadways, once that has time to settle the overlay and sealing process will begin. After the roads have been sealed the new coating will be placed on top.

Councilor Arthur questioned if this new road paving process had been done in Duval County or anywhere locally. City Manager Jarboe responded the process has been done in Clay County and St. Johns County as well as a number of other places throughout the State. Some of the streets in Queens Harbour subdivision of Jacksonville have also been repaved using this process.

Councilor Wiley asked if the City Manager had heard anything from the City of Jacksonville regarding tipping fees. City Manager Jarboe responded he has not heard from the City of Jacksonville. Mayor Pruette stated she spoke with City of Jacksonville Mayor Brown at the Veterans Day event and he did not relay any information to her at that time. City Attorney Krechowski added he sent a letter to the City of Jacksonville General Counsel four weeks ago and has not heard back.

CITY CLERK'S CONSENSUS LIST

Acting City Clerk Strait stated the only unfinished business on the consensus list is "nonconforming lots" and "nonconforming signs." The list was created by former City Clerk Volpe to help keep track of upcoming agenda items. Ms. Strait stated she has been keeping track of agenda items using "meeting recaps" which she felt was easier for her. She asked Council if they would like for her to continue using the consensus list or begin using the recaps to help keep track of agenda items.

Mayor Pruette stated she felt the "meeting recaps" were easier to read because it showed Council actions all on one page and made it simple to understand. She would support it over the consensus list. Her concern was being able to keep track of agenda items without them being left off or forgotten.

Councilor Tucker also liked the "meeting recaps." She would still like to maintain something similar to the consensus list that would keep track of all Council actions completed throughout the year. She felt using both systems would be good a cross reference.

Councilor Wiley also felt both sources were sufficient. He added he would be placing nonconforming signs on the January workshop meeting.

Councilor Arthur stated he was okay with a system that showed all open action items as well as completed actions.

Consensus: **CONTINUE USING BOTH SYSTEMS FOR KEEPING TRACK OF OPEN AGENDA ITEMS AND COMPLETED ACTIONS.**

PUBLIC COMMENTS

Jere Geis, 1603 First Street, opposed relocating parking spaces from the west side of First Street to the east side. She voiced concern in regard to drivers pulling onto First Street out of the alleyways not being able to see pedestrians, bicyclists, and skateboarders around the parked cars. She felt the safety of residents outweighed the need for a few more parking spaces.

Rory Diamond, 120 Davis Street, agreed with Ms. Geis's comments about how moving the parking from the west side to the east side would affect drivers coming out of the alleyways onto First Street. He was also concerned about strangers parking in front of houses that had families with small children that may be out playing in their front yards. He felt there was more of a

downside than an upside to relocating the parking.

Ginny Stephens, 910 Fifth Street, stated she initiated the petition for speed humps on Fifth Street and 55% of the residents signed the petition in favor of the speed humps. She also felt there should be 25 mile per hour speed limit signs on Fifth Street.

Kirby Johnson, 2700-C University Blvd. W., Jacksonville, Alexander Law Practice, stated he was representing Land Trust, the owners of two parcels of land on Poinciana Road. He explained the property was purchased by the owners in 2007 at a tax deed sale. The owners put the property on the market and received an offer for \$55,000. While the real estate transaction was in process, the third party developer was informed by the City that prior to developing the property the entire road would have to be paved. The estimated cost to pave the road ranges from \$50,000 to \$500,000 and the third party buyer did not complete the real estate transaction. He questioned the City Manager's authority to force a private citizen to pave a public road under Section 27-473 and 27-474 of the Code. It was his contention that the interpretation of Section 27-473 and 27-474 was unconstitutional and creates an inordinate burden on the property owner which violates the Bert Harris Act.

Mayor Pruette advised Mr. Johnson to meet with City Attorney Krechowski and City Manager Jarboe to discuss the issue.

Lynda Padrta, 1113 First Street, opposed moving the parking on First Street from the west side to the east side citing safety concerns.

Acting City Clerk Strait advised Council she received a letter late this afternoon from Bob and Lynn Shimp, 1109 First Street, opposing moving the parking on First Street. She also received a telephone call for Councilor Arthur from Charlotte Molinaro, 133 Myrtle Street, in opposition of the parking changes.

PROPOSED ORDINANCES / NONE

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Town Center
Directional Signs

TOWN CENTER DIRECTIONAL SIGNS: City Manager Jarboe explained he has the authority to approve the directional signs but he wanted to inform Council before making that decision, especially since this applies to the Town Center area.

Mayor Pruette stated the Town Center Agency has talked about having directional signs for a long time. She felt they would help the Town Center merchants. She stated she would support them but she would have liked them to have more of a beachy theme.

Councilor Wiley did not have a problem supporting the directional signs as long as Town Center was paying for and maintaining them. He was concerned about the number of signs and felt there was not a need for seven of them. He also voiced concern regarding the number of "no parking" and "tow away zone" signs in the Town Center area.

Greg Kupperman, representative for Beaches Town Center Agency, explained they are proposing a total of six directional signs, four to be placed in Neptune Beach

and two in Atlantic Beach. They hired a professional company to design the signs and they actually recommended more signs than they proposed but their budget would only allow for six.

Councilor Arthur was also concerned about the number of signs.

A discussion ensued regarding the number and locations of the directional signs.

Susan Barrett, Harbinger Signs, explained Harbinger Signs manufactured the signs. Mayor Pruette asked Ms. Barrett if the signs had already been manufactured. Ms. Barrett replied the materials have been purchased and the deposit was made but they were waiting on the approval and permitting process to go through. Mayor Pruette and City Manager Jarboe stated they were informed that the signs had already been purchased.

Councilor Tucker stated she supported the concept and design but was also concerned about the number.

Councilor Wiley questioned which merchants would be represented on the signs. Mr. Kupperman replied the merchants that are members and pay dues to the Town Center Merchants Association would be the ones represented on the directional signage. The signs will be updated each year.

City Manager Jarboe advised Council if the City agrees to accept the signs they would become the property of the City. He would discuss the number of signs with the representatives.

Consensus: **TO ALLOW CITY MANAGER JARBOE TO DETERMINE THE SIZE AND NUMBER OF THE TOWN CENTER DIRECTIONAL SIGNS.**

Speed Humps
Fifth St.

SPEED HUMP REQUEST / FIFTH STREET: City Manager Jarboe explained the speed hump petition and request was correctly submitted. If the residents agree to purchase the material the City can provide the labor to install them. This would only cost the residents \$300 or \$350, depending on the market. The residents would not be charged for the labor.

Mayor Pruette stated she would support the speed humps as long as the residents were willing to pay the cost. City Manager Jarboe explained a private company would normally charge up to \$1,100 to install them.

Councilor Wiley also agreed to support the speed humps if the residents paid for the materials.

Councilor Arthur and Councilor Tucker also both agreed.

Consensus: **FORWARD TO THE DECEMEBER REGULAR MEETING CONSENT AGENDA.**

Food Truck /
Christmas in the
Park

FOOD TRUCK / CHRISTMAS IN THE PARK: City Manager Jarboe explained Leslie Lyne, Senior Activities Center Director and organizer and planner for Christmas in the Park, has requested two food trucks be allowed at the event. She felt it would be a great idea for parents to feed their children before the event, without them having to go home and cook.

Council members stated they would support allowing food trucks at the event.

City Manager asked Council to allow up to three food trucks.

Consensus: **FORWARD TO THE DECEMBER REGULAR MEETING
CONSENT AGENDA.**

First Street
Parking

FIRST STREET PARKING: Mayor Pruette thanked Chief Sembach and Community Development Direct Askew for taking the time to count all of the parking spaces on First Street. She understood the opposition for relocating the parking on First Street to the east side of the street due to the narrow alleys and safety concerns. She felt relocating the parking to the east side would be more of a liability to the City.

Councilor Wiley stated parking on First Street has been located on the west side of the street for as long as he could remember. He counted approximately 38 driveways on the east side and 44 driveways on the west side. Taking into account the alleys, the utility boxes, and fire hydrants, he felt there would be fewer parking spaces if they were relocated.

City Manager Jarboe explained there has always been the question of how many legal parking spaces were on each side of First Street. He added that this is not a proposal to relocate the parking spaces. He was just bringing forward the idea so that if Council wanted to do it, it could be done before the repaving.

Councilor Wiley felt the parking should remain on the west side of First Street with no striping. He also felt the curb should be painted yellow at the end of the streets so there would be no parking spaces before stop signs.

Mayor Pruette agreed the parking should remain on the west side. She felt there should be a stripe down the middle of street to show awareness.

Councilor Arthur and Councilor Tucker also agreed to keep the parking on First Street like it is.

Consensus: **TO KEEP THE PARKING ON FIRST STREET ON THE WEST
SIDE OF THE STREET.**

Slider's
Fundraising Event

REPORT FROM CHIEF SEMBACH / SLIDER'S FUNDRAISING EVENT: Chief Sembach explained two officers were present during the event. They reported back to him that there were no problems related to the fundraising event and everything went fine. He had no problem if they wanted to have more in the future.

Councilor Tucker stated she attended the event and they did a good job making sure everything went well and everyone was safe.

City Clerk Position

CITY CLERK POSITION: City Manager Jarboe stated the Resolution in the agenda packet was prepared by himself and the city attorney. He felt it took an unusual person with a lot of experience to fill the city clerk position. Normally Council would have to place an advertisement in the newspaper to solicit applications for the position and go through the interviewing process. He stated Deputy City Clerk Karla Strait has 15 years experience and is certified by the Florida Association of City Clerks. She has also completed the first level of the Master Municipal Clerk's Program. He recommended appointing Deputy City Clerk Karla Strait for the City Clerk position.

Mayor Pruette stated she would support the resolution. She added that she has been impressed with the energy Ms. Strait has exhibited as "Acting City Clerk." This

will also save the City a lot of money that could be used in other areas. City Manager Jarboe stated this will save the City approximately \$40,000.

Mayor Pruette asked Acting City Clerk Strait if she had any comments.

Acting City Clerk Strait stated she did not have a problem with any of the language in the resolution. She added that she would appreciate the opportunity to serve the City and the Council in the role of City Clerk.

Mayor Pruette asked Ms. Strait to explain the council member handbook she was working on. Ms. Strait replied she was currently working on preparing a handbook for new city council members. This was one of the areas on the city clerk's evaluation that was graded poorly and needed improvement. She would be sending the draft around to city employees and council members for advice and recommendations. She is also working on a city calendar and other areas for improvements.

Councilor Tucker stated she spoke with Ms. Strait earlier in the day in regards to the calendar and check list. She felt Ms. Strait has done well as Acting City Clerk during this transition period and thanked her for always being approachable for Council. She added that she would not be opposed to advertising the position.

Councilor Arthur asked if the same guidelines would be used to evaluate Ms. Strait at the end of the six month probation period that Council used to evaluate City Clerk Volpe. City Attorney Krechowski and City Manager Jarboe both replied "yes."

Councilor Arthur questioned if a part time person were hired to help the city clerk who that person would report to. City Manager Jarboe replied the part time employee would be hired by and report to the city clerk.

Mayor Pruette stated a part time person might not be needed for 25 hours every week. Acting City Clerk Strait explained she would like to see how the office runs without a part time person and report back if she felt a part time person was necessary.

City Manager Jarboe stated the resolution would allow the City Clerk the option of hiring someone to fill a part time position.

Councilor Wiley stated he had confidence in Ms. Strait's ability to perform the job.

Councilor Wiley asked if Ms. Strait would still be the recording secretary for the Police Officer's Pension Board. Ms. Strait replied "yes." Currently Piper Turner, the Assistant to the Building Official, records the Community Development Board and the Code Enforcement Special Magistrate meetings.

Consensus: **FORWARD TO THE FOLLOWING SPECIAL MEETING.**

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, felt it would be helpful to mark the parking spaces on First Street. She also thought having striping to designate the middle of the road would be helpful.

Ginny Stephens, 910 Fifth Street, asked the city manager to explain the cost of the speed humps. City Manager Jarboe replied he would meet with her after the meeting.

Chief Sembach, 200 Lemon Street, stated speed humps are used as a traffic calming device. His department conducted a study to see if speed humps were necessary on Fifth Street. The study concluded speed humps were not needed on Fifth Street. He did not want the City to get into the position that just because residents could afford to install speed humps they would be allowed to have them. He did not recommend speed humps to be placed on Fifth Street. City Manager Jarboe stated this is a decision of himself and the Council. He would discuss the matter with the chief later.

COUNCIL COMMENTS

Councilor Tucker stated the City Manager's contract renews in January. She would like to place the City Manager evaluation on the December workshop meeting.

Councilor Wiley asked when the newly elected council members would be sworn in. Acting City Clerk Strait responded the ceremony for the swearing in and induction of the new council members will be held Tuesday, December 2, 2014 at 7:00 p.m.

Mayor Pruette stated Neptune Beach is a small town and the residents used to know all the police officer's. She felt Council should be advised of the swearing in of new police officers so they could meet them and welcome them to the City. City Manager Jarboe replied he has spoken with the Police Department and will make arrangements for Council to be informed in the future.

Councilor Tucker agreed Council should be informed of the swearing in of new police officers. She also felt Council should be informed of other events that effect the City. She stated a huge tree fell on Penman Road at the five way intersection last week and Council was never contacted. City Manager Jarboe replied he was also not informed of the fallen tree. The fallen tree has been taken care of.

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette reminded everyone tomorrow is election day and it would be nice to see everyone get out and vote.

City Attorney Krechowski advised he had written a letter to the City of Jacksonville General Counsel about two and half weeks ago and still has not received a response. He emailed them this week and received a response that they were "waiting to hear back from Mayor Brown's office."

Acting City Clerk Strait wished both candidates for Seat 4 the best of luck in the election tomorrow.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- The Bal Harbour project is now two-thirds complete. The project is having a great affect on the reduction of infiltration at the sewer plant. He felt it would improve even more once the work on Fourth Street and Fifth Street is completed.
- He felt the new road paving material was a great product and would save the City a great deal of money. It will also allow us to repave more streets this year. The new paving material will also look better and last longer.
- Street sweeping usually slows down this time of year due to all the falling leaves. It will pick back up once all the leaves stop falling.
- Political signs illegally placed in the city's rights-of-way will be collected tomorrow morning.

COMMENTS FROM THE PUBLIC

Kerry Chin, 227 Margaret Street, stated there are a lot of opinions that Pete's Turkey Day event is a family tradition. He felt after a certain hour of the day the event becomes more profiteering for businesses and the City should receive a return on the investment to use toward City improvements.

Lynda Padrta, 1113 First Street, thanked Council for proposing to adopt a resolution opposing seismic air-gun testing in the Atlantic Ocean. She stated the Pete's Turkey Day event received a lot of free publicity through the media due to their waffling back and forth about the event being canceled this year. They were informed of the requirements by the City in the previous years and they knew what to expect this year. She also voiced concern regarding the large number of children attending the Halloween Parade and Festival this year put on by 200 First Street. She felt the vehicles and folding chairs they used for barricading the streets were inadequate for security. She asked if the festival was required to have liability insurance. She hoped that next year the event would be better organized and provide better security for the children.

CONSENT AGENDA

- Res. No. 2014-10 RESOLUTION NO. 2014-10: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA, OPPOSING SEISMIC AIR-GUN TESTING IN THE ATLANTIC OCEAN.
- Res. No. 2014-11 RESOLUTION NO. 2014-11: A RESOLUTION AMENDING THE OPERATING BUDGET FOR THE CITY OF NEPTUNE BEACH, FLORIDA, FOR FISCAL YEAR 2014, BEGINNING OCTOBER 1, 2013 AND ENDING SEPTEMBER 30, 2014.

Moved by Tucker, seconded by Arthur.

Motion: **TO APPROVE THE CONSENT AGENDA.**

NEW BUSINESS

Pete's
Thanksgiving Day

PETE'S THANKSGIVING DAY EVENT: Mayor Pruette stated she spoke with Tom Whittingslow, Representative for Pete's Bar, and he informed her they would do whatever was necessary in order for the event to take place this year. She also spoke with Chief Sembach and was informed barricades still needed to be ordered. All preparations that took place last year will be in place this year.

Moved by Pruette, seconded by Tucker.

Motion: **TO APPROVE THE PETE'S TURKEY DAY EVENT BASED ON THE OCTOBER 7TH AGREEMENT BETWEEN THE CITY OF NEPTUNE BEACH AND MR. TOM WHITTINGSLOW, REPRESENTATIVE FOR PETE'S BAR.**

COUNCIL COMMENTS

Mayor Pruette stated next year the Thanksgiving Day event needed to be approached differently. The past three or four years there have been issues involving the event that upset the community. She felt next year these issues needed to be resolved before the final days of the event.

Adjournment

There being no further business, the meeting adjourned at 6:12 p.m.

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Vice Mayor Jolly to lead the Pledge of Allegiance.

PRESENTATIONS

ISH BRANT BEAUTIFICATION COMMITTEE: Seth Joyner, Chairman of the Beautification Committee, reported on the committee's accomplishments over the past the year. The accomplishments included new landscaping on the City Hall property, continuing the Yard of the Month designation, the Arbor Day celebration, maintaining the Tree City status and the 501(c)(3) non-profit status. They are also in the process of creating a facebook page.

The committee is looking into improving the Neptune Beach welcome sign on the south side of Atlantic Boulevard. They are also considering purchasing liability insurance for the 501(c)(3) status. This insurance will enable them to be eligible for grants as well as protect the committee members.

The committee is aware the Butterfly Garden in Jarboe Park is in need of attention. The family that was maintaining the garden can no longer continue the "Adopt an Area" agreement due to personal issues.

Mayor Pruette recommended the committee defer improvements to the Butterfly Garden until early spring.

Mayor Pruette questioned how many members are currently on the committee. Mr. Joyner replied there are currently eight active members. Some members are not available to attend all the meetings, but they correspond through emails.

Mayor Pruette asked if the committee had received any money from Green Market contributions. City Manager Jarboe explained the city is holding the contributions in a special fund for the committee. The amount in the fund will not be sufficient for use for at least six months. If necessary, Council could approve a loan to the committee using the reserve fund and replace the money at the end of the year.

Mr. Joyner stated the committee is committed to improving the Butterfly Garden and would like to come up with an improvement plan to present to Council.

Councilor Arthur asked Mr. Joyner for the committee to identify the improvements they would like for the Butterfly Garden, by the first of the next quarter, so they could begin the improvements in the spring.

Councilor Arthur questioned the process the committee needed to follow in order to receive the Green Market contributions. City Manager Jarboe advised the committee would need to present a budget along with the proposed project for Council approval. It would be best to establish an annual plan to present to Council.

Councilor Arthur asked if the committee had raised any funds on its own. Mr. Joyner replied they have raised approximately \$1,500.

Councilor Wiley felt the main focus this year should be the Butterfly Garden. He questioned how the committee raised the \$1,500. Mr. Joyner stated Mary Stutts, one of the committee members, secured part of the money from her job. The remainder was through donations.

Mr. Joyner indicated he would meet with the committee and report back to the Council with a plan to improve the Butterfly Garden.

Councilor Tucker stated it was a pleasure working with Mr. Joyner on the City Hall landscaping project. She felt it would take the city and the committee working together to improve the Butterfly Garden.

Mayor Pruette indicated the city would support the Ish Brant Beatification Committee with man power and finances as much as possible.

City Manager Jarboe asked Mr. Joyner to appoint a committee member to work with him on the tree fund. Mr. Joyner replied he would appoint a member to work with the city manager on the tree fund.

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There is a new process being used by Clay County and St. Johns County for road improvements called "micro surfacing." This process consists of sealing cracks in roads and offers different types of glass particles that provide a hard base to the road. The process is guaranteed up to seven years. He added that if we were to use this product it would allow us to double or triple the amount of road improvements. He is going to look into whether or not we can piggyback off the St. Johns County contract and report the information back to Council.

- The Bal Harbour project is 50% completed. Once completed, the total amount of the project may be under budget. This would leave approximately \$800,000 to \$1,000,000 to use for improvements to the water and sewer on Fourth Street and Fifth Street. He hopes to begin that project this coming spring.

Councilor Arthur asked what the life expectancy is for the normal way the city has been repaving roads. City Manager Jarboe replied the life expectancy is seven to ten years depending on the level and flow of ground water.

City Manager Jarboe stated he would be placing the issue of micro surfacing, restriping, and parking on First Street on the November workshop meeting.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe stated the only unfinished business on the consensus list is Pete's Thanksgiving Day event which will be on the November regular meeting.

Mayor Pruette requested proposed ordinances and resolutions being considered at meetings be placed in the rear of the Council Chambers along with the meeting agendas.

PUBLIC COMMENTS

Lee MacDonald, 1140 Florida Boulevard, asked Council to consider discussing the tree ordinance, yard setback requirements and variances on a future workshop to review and consider amending.

PROPOSED ORDINANCES / NONE

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Food Truck

FOOD TRUCK SERVICE FOR SLIDER'S SEAFOOD GRILL / SPECIAL EVENT: City Manager Jarboe explained Valerie Pickett, Slider's Seafood Grill, has requested permission of Council to hold a special fund raising event for the Donna Foundation. She will also be requesting approval for three food trucks for the event. The three food trucks being considered have met all insurance and State requirements.

Mayor Pruette asked where the food trucks would be located on the property and how long the event would last. Valerie Pickett, Slider's Seafood Grill, explained the event would be held from 4:00 pm to 9:00 pm. on Saturday, October 25th. A letter from City Manager Jarboe indicated they could begin setting up for the event at 2:00 pm. and must be closed down completely by 9:30 pm.

Vice Mayor Jolly questioned how many parking spaces the food trucks would require. Ms. Pickett replied the trucks would take up the entire rear parking lot. City Manager Jarboe added there were about 15 parking spaces total.

Mayor Pruette asked Ms. Pickett why her restaurant would not be preparing the food for the event. Ms. Pickett responded she wanted the event to be something new and different in order to attract a younger market.

Councilor Wiley inquired about the availability of parking for other businesses during the event. Ms. Pickett stated most other businesses would be closed with the exception of Dance Trance. She indicated that Slider's was the only restaurant on that side of Town

Center.

Councilor Arthur asked how many food trucks would be at the event. Ms. Pickett stated she originally asked to have four food trucks but they have been reduced to three. She explained Slider's would be paying the trucks a set amount of money and tickets would be sold to patrons for \$10.00. Each ticket would be good to purchase food from two of the three trucks. All profits will be donated to the Donna Foundation.

Councilor Arthur asked if the event would leave any parking spaces available for Dance Trance customers. Ms. Pickett replied the parking spaces on the street would be available.

Councilor Arthur was concerned the event may interfere with the Annual Halloween Parade. Ms. Pickett responded the Halloween Parade will end at 1:00 pm. before the start of the fund raiser.

Councilor Arthur was also concerned about noise created by food truck generators. He asked Ms. Pickett to be aware of the city's noise ordinance.

Councilor Tucker felt the event was a great idea to bring in the younger crowd. She questioned how the seating arrangement would be setup for patrons. Ms. Pickett explained she planned to have tables running through the middle of the parking lot with food trucks on each side.

Vice Mayor Jolly asked if alcohol would be sold from food trucks. Ms. Pickett responded "no." The restaurant would be selling alcoholic beverages. City Manager Jarboe explained the restaurant had to have a special permit in order to sell alcohol outside of her building.

Vice Mayor Jolly felt this was a good foundation for introducing food trucks in the area. He asked Chief Sembach to report the details of the event at the next workshop.

Consensus: **FORWARD TO THE FOLLOWING SPECIAL MEETING FOR APPROVAL.**

Code
Enforcement
Officer

CODE ENFORCEMENT OFFICER: City Manager Jarboe stated during the budget process Council approved funding to hire a part time code enforcement officer to work 15 hours per week. He needed Council to decide how the hours would be divided into the workweek.

Councilor Tucker asked how many hours the building official currently spent dealing with code enforcement. City Manager Jarboe replied he spent approximately 25% of his time on code enforcement. It varies depending on the building inspection workload.

Vice Mayor Jolly suggested half of the 15 hours be worked on the weekend and the other half during regular working hours.

Mayor Pruette agreed with Vice Mayor Jolly's suggestion.

Councilor Arthur felt the building official could spend more time on construction sites if the part time code enforcement officer worked during regular weekday hours. He suggested the part time code enforcement hours be set at five hours a day, three days a week.

Councilor Wiley felt the part time code enforcement officer also needed direction from Council regarding which code violations should be considered priorities.

Councilor Tucker asked if the city had any particular person they were considering for the position and how that person would be trained. City Manager Jarboe responded the city was considering a few people that are retired and have prior experience with code enforcement.

Mayor Pruette stated she would agree with the hours being set at 5 hours per day, 3 days a week.

Councilor Tucker also agreed with the hours being set at 5 hours per day, 3 days a week.

Vice Mayor Jolly disagreed with a 3 day 5 hour per day work week. He felt the city manager should be responsible for reviewing the work load and making the decision of how the 15 hours should be spent.

Councilor Arthur asked if it would be appropriate for the new part time code enforcement officer to be introduced at a Council meeting.

Consensus: **TO HAVE THE CITY MANAGER SET THE WORK HOURS OF THE CODE ENFORCEMENT OFFICER.**

Res. No. 2014-11 **RESOLUTION NO. 2014-11: A RESOLUTION AMENDING THE OPERATING BUDGET FOR THE CITY OF NEPTUNE BEACH, FLORIDA, FOR FISCAL YEAR 2014, BEGINNING OCTOBER 1, 2013 AND ENDING SEPTEMBER 30, 2014.**

City Manager Jarboe explained this resolution amends the budget to appropriate revenue the city received that was not budgeted and the related expenses.

Consensus: **FORWARD TO THE NOVEMBER 3RD REGULAR MEETING CONSENT AGENDA.**

Res. No. 2014-10 **RESOLUTION NO. 2014-10: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA, OPPOSING SEISMIC AIR-GUN TESTING IN THE ATLANTIC OCEAN.**

Mayor Pruette explained she felt there would be no harm to notify the government that Neptune Beach opposed seismic air-gun testing.

Councilor Arthur felt it was important. He added that other communities have passed resolutions of opposition. He felt the last "whereas" should be amended to delete "City of Neptune Beach" and add "State of Florida."

Councilor Wiley agreed.

Vice Mayor Jolly agreed with Councilor Arthur's amendment.

Consensus: **AMEND THE RESOLUTION AS SUGGESTED AND FORWARD TO THE NOVEMBER 3RD REGULAR MEETING CONSENT AGENDA.**

City Clerk
Evaluation

CITY CLERK EVALUATION: City Attorney Krechowski explained Council is operating in the sunshine and any decision of the Council regarding the city clerk's evaluation has to be discussed in a public meeting. He met with the city clerk several weeks ago and discussed the process and potential outcome. She indicated at that time that she wished to proceed with the evaluation process. Each Council Member has completed their evaluation forms which are included in the agenda packet.

Mayor Pruette stated each Council Member has met with the city clerk individually and completed the performance evaluation form. Ms. Volpe has been counseled several times during the past months regarding mistakes and not keeping abreast of her job. She felt the scores shown on the evaluations indicate the city clerk falls below the minimum level of Council expectations. The city clerk has had plenty of opportunity to improve over the last several months and she has failed to do so. She asked Council to consider the fact that

there was a mistake in tonight's agenda packet which was also placed on the website. She found it unacceptable that incorrect information was going out to the public. Candidate finance reports also appeared to have discrepancies. She felt these mistakes reflected poorly on Neptune Beach and were a disservice to the community and Council. She stated dealing with this decision has been one of the most difficult for Council.

Councilor Tucker stated this is the first evaluation that has ever been conducted on the city clerk. It was her opinion that Council should demonstrate a good faith effort to correct her performance. The city clerk is now aware of what Council expects. She felt a performance improvement plan should be put in place.

Vice Mayor Jolly stated out of the six individuals that completed evaluations, the three that have the closest interactions with the city clerk are the ones that gave the lowest scores and he gave that consideration a lot of weight. He agreed the evaluation process began six months ago and the city clerk has not demonstrated any effort to improve her job performance.

Councilor Arthur stated his scores were based on the experience he has witnessed in the past several months since the process was initiated. He felt some of the mistakes put the city at risk. He felt this is a difficult situation to discuss in a public environment. His scores and reasoning for his scores are listed on his evaluation form.

Councilor Wiley mentioned performance evaluations are public record and open for everyone to review. He felt there are areas that need improvement and the city clerk is now aware of Council expectations. He would encourage both the city clerk and deputy city clerk to attend conferences and receive additional training.

City Attorney Krechowski explained he interacts with the city clerk's office on a regular basis. He has been the city attorney for Neptune Beach for the past three and half years. The only thing he sees that is consistent is "mistakes and sloppiness." He did not find the performance of the city clerk reliable and had no confidence in her work. That is the reason for his scoring.

City Clerk Volpe stated the only interaction she has with the city attorney is based on ordinances. She did not deal with the city attorney on a regular basis. City Attorney Krechowski responded he considered the fact that he and the city clerk communicate on a regular basis regarding legislation, ordinances and public record requests. All of those things should be communicated and that communication is lacking.

City Clerk Volpe failed to see why the city attorney had an opportunity to evaluate her job performance. The city attorney has not had an evaluation and she has not had the opportunity to evaluate his job performance.

City Clerk Volpe replied to the following concerns brought up in her performance evaluation reports:

- There was a question of why a list of request for public records had not been maintained. She responded when a person asks for a public record we are not allowed by the State to ask for information regarding their name, address, or phone numbers.
- It was also brought up why the minutes took so long to complete. She answered that the minutes are usually completed the Wednesday or Thursday after the Monday night meeting, depending on the length of the meeting. They are not sent out to Council until hand deliveries go out the following Friday.
- Another question was in regard to Municode and why it is not updated on a regular basis. She responded Municode is normally updated once a year because of the

expense. The cost is between \$3,000 and \$5,000 for each edition. She has begun placing ordinances after have been adopted on the front page of Municode. The cost is \$60.00 per ordinance. If you click on an ordinance you will be directed to the applied section of the code. At the end of the year all adopted ordinances are codified and the process begins again.

- There was also a question as to information being left out of the minutes. She replied minutes are not done verbatim. She tries to include as much information in the minutes as possible. If something is stated "for the record" it is written verbatim. She has not been notified in the past of any misinformation in the minutes by anyone other than the Mayor. The Mayor sometimes offers changes before the minutes are copied out. She added the minutes are always sent out for review before they are placed in the agenda packet for final approval.

Mayor Pruette stated it was a decade before the Code was updated relating to the duties of the city clerk.

City Clerk Volpe responded there are many ordinances in the Code that need to be updated. There were a lot of written concerns in the evaluation that had never been brought to her attention and she met with each council member at least once before they conducted their evaluation.

- There was a written comment regarding her attendance at board meetings. She explained the Community Development Board meetings are attended by the assistant to building official and the community development director. The assistant to the building official records and types the minutes for that board. The Police Retirement Board meetings are attended by Deputy Clerk Strait and she records and prepares the minutes for those meetings. All minutes of board meetings are maintained in the city clerk's office.

City Clerk Volpe stated she had not had a performance evaluation the entire 15 years she has been the city clerk. This is the first time she has ever received any feedback from Council regarding her performance. She felt Council was doing the city a great disservice if they came to conclusions after one evaluation. She pointed out that are other appointed city officials that have not had evaluations.

Ms. Volpe added that she is the most highly educated city clerk in the area and the lowest paid. She has a Master's in public administration and she has never asked for a raise.

Ms. Volpe felt she had been bullied by the city attorney when he met with her in her office and asked her to resign. He informed her if she did not resign she would be fired. She felt after serving the city for the past 20 years she should be allowed the time to improve her job performance.

Councilor Wiley felt now that the city clerk was aware of what to expect, it would be fair to give her the opportunity to improve.

Mayor Pruette stated she had counseled City Clerk Volpe several times over the past months and she has not improved. The city paid the city clerk \$71,000 per year including benefits, and the city deserves better.

Consensus: **FORWARD TO THE FOLLOWING SPECIAL MEETING.**

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, asked if there would be a limit on how many tickets would be sold at Slider's special fund raising event. She was concerned about how many people and the number of vehicles the event would bring to Town Center on a busy Saturday night. She also voiced concern regarding placement of tree trimmings and yard waste being placed in rights-of-way that wash into the storm water system and block drainage flow. She felt that should not be allowed.

COUNCIL COMMENTS / NONE

Adjournment

SPECIAL CITY COUNCIL MEETING
OCTOBER 20, 2014 AT 7:25 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Special Meeting of the City Council of the City of Neptune Beach was held October 20, 2014 at 7:25 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach
Assistant Chief Tony Carrillo
Deputy City Clerk Karla Strait, CMC

Order Call

Mayor Pruette called the special meeting to order at 7:25 pm.

**Food Truck
Service Event**

APPROVAL OF FOOD TRUCK SERVICE FOR SLIDER'S SEAFOOD GRILL / SPECIAL EVENT: Council agreed to forward this special fund raising event to this special meeting for approval.

Moved by Tucker, seconded by Wiley.

Motion: **TO APPROVE SLIDER'S SEAFOOD SPECIAL EVENT FOR THE DONNA FOUNDATION ALLOWING THREE FOOD TRUCKS.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette
Noes: 0

MOTION CARRIED

City Clerk

CITY CLERK EVALUATION: City Attorney Krechowski gave the following advice to Council: Florida is a right to work State. The city clerk's position is not a union position and she does not have a contract with the City. Therefore, the city clerk is appointed at the will of the City Council.

Mayor Pruette stated each council member has met individually with City Clerk Volpe and have each completed their evaluation form.

Moved by Pruette, seconded by Arthur.

Motion: **TO PROVIDE 90 DAYS SEVERENCE PAY AND BENEFITS AND TERMINATE THE SERVICES OF THE CITY CLERK TONIGHT.**

Moved by Wiley, seconded by Tucker.

Substitute Motion: **TO PLACE THE CITY CLERK ON SIX MONTHS PROBATION AND RE-EVALUATE HER PERFORMANCE, USING THE SAME PROCESS, AT THE END OF THE SIX MONTH PERIOD.**

Mayor Pruette questioned which of the two motions took precedence. City Manager Jarboe replied the substitute motion on the floor took precedence.

Mayor Pruette stated this process began in April and City Clerk Volpe has had from April until now to improve her work performance and she has not showed any effort. As the Mayor she has lost all confidence in the city clerk to provide a work product that is error free and she has been reluctant to sign off on any documents prepared by the city clerk.

Roll Call Vote On The Substitute Motion:

Ayes: 2 – Wiley, Tucker
Noes: 3 – Arthur, Jolly, Pruette

WORKSHOP CITY COUNCIL MEETING
OCTOBER 6, 2014 AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held October 6, 2014, at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach

Call to Order &
Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Arthur to lead the Pledge of Allegiance.

Res. No. 2014-10

RESOLUTION NO. 2014-10: A RESOLUTION AMENDING THE PERSONNEL POLICY OF THE CITY OF NEPTUNE BEACH, FLORIDA.

City Manager Jarboe explained salary ranges for non-union employees needed to be adjusted in the personnel policy. The personnel policy also needed to be amended to ensure that managers earn 5% more income than their highest paid employee.

Consensus: **FORWARD TO THE FOLLOWING REGULAR MEETING CONSENT AGENDA.**

Ord. No. 2014-18
Food Trucks

ORDINANCE NO. 2014-18, AMENDING CHAPTER 17, SECTION 17-48, FOOD TRUCKS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 17, SALES, ADDING SECTION 17-48 FOOD TRUCKS AT SPECIAL EVENTS WHICH ALLOWS FOR FOOD TRUCKS TO BE PERMITTED AT SPECIAL EVENTS UPON APPROVAL BY THE CITY MANAGER AND AMENDING CHAPTER 12, TAXATION, SECTION 12-32, LOCAL BUSINESS TAX RECEIPT SCHEDULE, PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the issue of "food trucks" was brought up a few weeks ago when the library wanted to provide a food truck at an event. The Code currently allows food trucks in residential and business districts as a catering option.

City Attorney Krechowski stated he would like to amend number 10 as follows: A private special event shall be defined as an occasional or periodic gathering ~~hosted or sponsored~~ hosted, sponsored, or authorized by a property owner.

Councilor Wiley stated it was his understanding that a food truck owner would not be allowed to provide individual sales. The property owner would have to hire and pay for the food truck at special events that are catered. City Attorney Krechowski stated that was correct.

Councilor Arthur stated at the last meeting it was discussed that the property owner pay the food truck vendor directly for use as a catering service. City Attorney Krechowski replied that is correct.

Councilor Arthur asked if property owners in residential districts would need to provide insurance. City Attorney Krechowski replied the food truck owner would have to provide insurance.

Vice Mayor Jolly stated the proposed ordinance allowed the city manager to determine a "special event." He felt Council needed to define "special event" in the ordinance as well as place a limit on the number of events allowable per year. He would suggest allowing three per year.

Councilor Tucker asked if the proposed ordinance would allow food trucks in the Central Business District. City Attorney Krechowski stated the proposed ordinance would not allow food trucks in the Central Business District, even as a catered event.

Councilor Tucker suggested amending the proposed ordinance to allow food trucks in the Central Business District for special events.

Mayor Pruette felt allowing food trucks in the Central Business District would worsen the parking situation in Town Center. She added that one food truck would take up five to six parking spaces. She would be open to discussing the idea further at a workshop meeting where the Town Center business owners could voice their opinion. She knew of several business owners that did not want food trucks in Town Center.

Mayor Pruette suggested adopting the ordinance on second read tonight and bringing it back up at a future workshop meeting to discuss allowing food trucks in Town Center and also to determine the number of special events to allow per year.

Councilor Wiley felt for the time being, the city manager could determine the number of special events allowed per year. He agreed there were several things in the ordinance that could be brought up for discussion at a future workshop.

Councilor Arthur stated he was okay with allowing the city manager to determine the number of events allowed per year. He asked the city attorney if Council should add the definition of a "special event." City Attorney Krechowski stated there was not a consensus of the Council at the last meeting so he left it up to the city manager to determine a special event and how many to allow per year.

Mayor Pruette stated the proposed ordinance currently states "A private special event shall be defined as an occasional or periodic gathering hosted or sponsored by a property owner." City Attorney Krechowski stated he recommended earlier in the meeting to amend the definition as follows: "A private special event shall be defined as an occasional or periodic gathering hosted, sponsored or authorized by a property owner."

Councilor Wiley felt there should be a workshop meeting as soon as possible to address the issues before a problem arises.

Councilor Tucker agreed with having a workshop meeting as soon as possible. She added the Town Center Merchants Association needed to be notified of the workshop meeting so they could attend and voice their opinions.

Consensus: **TO MAKE THE CHANGES RECOMMENDED BY THE CITY ATTORNEY AND FORWARD TO THE FOLLOWING REGULAR MEETING FOR SECOND READ AND A WORKSHOP MEETING AS SOON AS POSSIBLE.**

Adjournment

There being no further business, the meeting adjourned at 6:15: p.m.

COMMUNICATIONS & CORRESPONDENCE

City Clerk Volpe reminded everyone that elections are on November 4th. She asked everyone to advise citizens there are a lot of races on the ballot and Neptune Beach candidates will be listed on the back after the amendments.

Mayor Pruette stated she received telephone calls regarding campaign treasurer's reports not being available on the website. City Clerk Volpe stated she had not received any phone calls or concerns regarding the reports. They were not put on the website because the addresses of the contributor's were on them.

Vice Mayor Jolly and Councilor's Tucker, Arthur, and Wiley all agreed the reports should be on the website.

Consensus: **TO PLACE THE CAMPAIGN TREASURER REPORTS ON THE WEBSITE.**

City Clerk Volpe reminded Council and the City Attorney that her performance evaluations needed to be completed and returned to the city clerk's office by Friday of this week so they could be in the agenda packet for the October 20th workshop meeting.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- There was a complaint regarding the condition of a property on Margaret Street this week. It has been taken care of by Public Works.
- Grass and bushes have been growing faster due to all the recent rains. There are only four or five employees at Public Works that are responsible for cutting and mowing. Once the growing season is over we can get everything back in shape.
- The Bal Harbour project is moving forward.
- The City will need to consider installing a box culvert on Fifth Street sometime in the future.
- Due to the recent rains a lot of nitrogen from yard fertilizer has been flowing into the sewer system. The nitrogen level is now starting to recede.

Councilor Arthur voiced concern about heavy rains that can leave up to a foot of standing water in some parking spaces in Town Center. He asked the city manager to look into improving the drainage using the Street Improvement Fund. City Manager Jarboe stated he would look into it but there is not enough money in the Street Improvement Fund to refit the entire drainage system.

Mayor Pruette added there are two parking spaces in particular where the water does not recede for days. She asked the city manager to find a way to improve the drainage. City Manager Jarboe stated he would look into it, but it would not be an easy fix.

COMMENTS FROM THE PUBLIC

Valerie Pickett, 218 First Street, Sliders Seafood Grill, stated she was not aware that food trucks were not allowed in the Central Business District. She was concerned because she planned to host a fund raising event for the Donna Foundation on Saturday, October 25th. She felt food trucks should be allowed in the Central Business District.

Niall Falloon, 110 First Street, Mezza Luna Restaurant & Bar, asked Council to consider exactly what they wanted regarding food trucks in the Central Business District. He felt the ordinance needed to be well thought out before it was adopted.

David Shields, One Independent Drive, representative for Southcoast Capital, felt the ordinance needed more language clarification and definitions. He did not like the idea of adopting an ordinance with flaws that would need to be tweaked in the future.

MaryAnn Padrta, 1030 Second Street, stated she was denied a permit to add a bathroom to her house. She requested a report detailing all the building applications including which ones were approved and which ones were denied.

Ginny Stephens, 910 First Street, stated after her complaint regarding speeding and people running stop signs on Fifth Street the police showed a presence for a while, wrote tickets and then disappeared. She felt the speeding and running of stop signs remains a problem and there needs to be a solution. She will be turning in a request for a speed hump on Fifth Street once her application and petition are completed.

CONSENT AGENDA

LEGAL SERVICE AGREEMENT: Amended legal service agreement for City Attorney Patrick Krechowski.

RESOLUTION NO. 2014: A RESOLUTION AMENDING THE PERSONNEL POLICY OF THE CITY OF NEPTUNE BEACH, FLORIDA.

Moved by Tucker, seconded by Jolly.

Motion: **TO APPROVE THE CONSENT AGENDA.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

ORDINANCES

Ord. No. 2014-15 ORDINANCE NO. 2014-15, AMENDING CHAPTER 27, LAND USE, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, ARTICLE IV. LAND USE. SECTION 27-243(C)(4) PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS, AND PROVIDING AN EFFECTIVE DATE.

City Attorney Krechowski advised there have been no changes to this ordinance since the previous workshop.

Mayor Pruette read Ordinance No. 2014-15 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Arthur.

Motion: **TO ADOPT ORDINANCE NO. 2014-15 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 3 – Arthur, Jolly, Pruette
Noes: 2 – Tucker, Wiley

MOTION CARRIED

Ord. No. 2014-18 **ORDINANCE NO. 2014-18, AMENDING CHAPTER 17, SECTION 17-48, FOOD TRUCKS, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 17, SALES ADDING SECTION 17-48 FOOD TRUCKS AT SPECIAL EVENTS WHICH ALLOWS FOR FOOD TRUCKS TO BE PERMITTED AT SPECIAL EVENTS UPON APPROVAL BY THE CITY MANAGER AND AMENDING CHAPTER 21, TAXATION, SECTION 21-32 LOCAL BUSINESS TAX RECEIPT SCHEDULE, PROVIDING AN EFFECTIVE DATE.**

Mayor Pruette read Ordinance No. 2014-18 by title only and opened the public hearing.

Lynda Padrta, 1113 First Street, supported food trucks but questioned why a restaurant needed a food truck to serve food at a restaurant. She was concerned about the food truck seating arrangements for Slider's event, the generating of a lot more traffic and adding to the parking problem in Town Center.

There being no further comments from the public, the public hearing was closed.

City Attorney Krechowski asked Council to include the following amendment that was agreed upon at the workshop meeting: A private special event shall be defined as an occasional or periodic gathering ~~hosted or sponsored~~ hosted, sponsored, or authorized by a property owner.

City Clerk Volpe stated because the ordinance was changed since the first reading the motion should state "as amended."

Moved by Tucker, seconded by Pruette.

City Manager Jarboe explained anytime there is an application for a fund raising event the applicant must meet all requirements of the Code. Any restaurant would not meet that requirement. The event would be required to be sponsored by the entity receiving the funds which were being raised.

Motion: **TO ADOPT ORDINANCE NO. 2014-18 ON SECOND READ AS AMENDED.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette
Noes: 0

MOTION CARRIED

Mayor Pruette stated this Ordinance would be brought back to a workshop meeting.

OLD BUSINESS / NONE

NEW BUSINESS

Thanksgiving Day **THANKSGIVING DAY UPDATE:** Chief Sembach explained last year there was an issue between the Town Center businesses and Pete's Bar as to who was going to host the Thanksgiving Day Event and who would be paying for security, barricades, port-o-lets, and overtime for public works employees to set up and break down the barricades.

In order for the event to occur last year the city agreed to pay for the barricades, overtime for police officers to provide security, and overtime for city workers to set up and take down the barricades. It was understood this was a one time occurrence for the City to pay these expenses. The City did not pay for private security or portable toilets.

Chief Sembach stated he sent certified letters to Pete's Bar, Lilly's Coffee Shop and Slider's Seafood Grill on September 22nd asking them if they were going to participate in the event this year. He also advised them to meet with him and provide the city with a plan, the businesses that were going to participate and who would be responsible for the barricades, security, and the setting up and breaking down of the barricades this year. The Lemon Bar and Island Girl Cigar Bar will be open as usual. They are allowed to be open and participate in the event as long as they do not allow alcoholic beverages beyond their premises.

Mayor Pruette asked how much money the city spent on the event last year. City Manager Jarboe stated Council authorized the city to spend \$2,500 for the event. The amount totaled approximately \$2,000, most of which was overtime salaries for city workers and off duty police officers. Chief Sembach added the event lasted until 2:00 p.m. last year and city employees worked until 4:00 p.m. This year they planned to start breaking down the event at 1:00 p.m.

Vice Mayor Jolly was concerned that the information pertaining to the event has not been provided to the city. It had to be approved by Council and there was only one more meeting left before Thanksgiving Day. Chief Sembach replied he gave them nine weeks advance notice via certified letter. City Manager Jarboe added Town Center was notified a year ago the city would not be monetarily contributing to the event in the future and Town Center would have to be responsible for all costs because they were would be profiting from the event.

Tom Whittingslow, representative for Pete's Bar, stated they intended to do the same thing this year as last year. He asked what information the city needed.

City Manager Jarboe suggested that Mr. Whittingslow and Chief Sembach meet with him this week to determine the details of the event and put it in writing for Council to consider at the next Council meeting.

COUNCIL COMMENTS / NONE

WORKSHOP CITY COUNCIL MEETING
SEPTEMBER 22, 2014 AT 6:40 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held September 22, 2014, at 6:40 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Manager Jim Jarboe
City Attorney Patrick Krechowski
City Clerk Lisa Volpe, CMC

Director for Finance Steve Ramsey
Director of Public Safety David Sembach

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:40 p.m.

PRESENTATIONS / NONE

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The Bal Harbour project is 45% complete. The project has already shown improvements at the sewer plant.
- The new bridge in Jarboe Park is being installed this week, new culvert is going into the ditch that runs along Florida Boulevard next to the park and additional work is being done at where the two ditches come together. This will increase the width so there is no blockage. These three projects will help the water flow east of Third Street. The pipes underneath Fifth Street and Florida Boulevard will need to be addressed within the next five or six years.
- Before the paving and striping of First Street begins, the Council needs to decide which side of the street will be designated for parking. He suggested parking spaces be located on the east side of the street to make it safer for beach goers.

Vice Mayor Jolly asked about the ant situation on the crosswalks. City Manager Jarboe replied the ants are also covering private property next to the crosswalks so it will be difficult to treat. He will continue with the treatments and notify the property owners to take action.

Councilor Arthur questioned if the website's citizen portal identified the types of complaints. City Manager Jarboe responded the way the system was set up it would not identify the purpose of each complaint. Councilor Arthur asked if the City had constant communication with the citizen filing the complaint. City Manager Jarboe replied "yes" except in some cases where they are anonymous.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe stated Mr. Jim LePetrie had met with staff and solved the issue with the balcony. Everything else on the list has been keeping up.

City Attorney Krechowski reminded Council, he and the city manager will be meeting with the City of Jacksonville on Wednesday to discuss tipping fees.

PUBLIC COMMENTS

Richard Keene, 733 Bay Street, complimented the contractor doing the work on the Bal Harbour project. The staff is polite and they have the roads cleaned up and cleared for residents by 4:00 p.m. He suggested the City look into replacing the culvert on Seventh Street.

Lynda Padrta, 1113 First Street, felt the city attorney did an excellent job and she appreciated his willingness to speak up to the Council.

Alan Martin, 1113 First Street, suggested the striping of First Street include a certain amount of distance for parking. He also suggested the police department look into obtaining a grant to purchase cameras for officers to wear while they were on patrol.

Joshua Messinger, 220 Davis Street, stated the flooding on First Street is becoming an issue and needs to be addressed before it gets worse.

PROPOSED ORDINANCES

Ord. No. 2014-18 ORDINANCE NO. 2014-18, AMENDING CHAPTER 17, SECTION 17-48, FOOD TRUCKS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 17, SALES, ADDING SECTION 17-48, FOOD TRUCKS AT SPECIAL EVENTS WHICH ALLOWS FOR FOOD TRUCKS TO BE PERMITTED AT SPECIAL EVENTS UPON APPROVAL BY THE CITY MANAGER AND AMENDING CHAPTER 21, TAXATION, SECTION 21-32, LOCAL BUSINESS TAX RECEIPT SCHEDULE, PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated this Ordinance was discussed and voted on at the previous special meeting.

CONTRACTS / AGREEMENTS

City Attorney LEGAL SERVICE AGREEMENT / CITY ATTORNEY PATRICK KRECHOWSKI: City Attorney Krechowski explained he provided a draft contract in the agenda packet that has been amended based on Council discussions from previous meetings.

Mayor Pruette stated she was pleased with the work the city attorney has provided and is happy that he speaks up.

City Manager Jarboe added the contract in the packet is a reflection of the meetings between himself, Finance Director Steve Ramsey and the city attorney. It also replicates the discussion at the previous Council meeting.

Councilor Wiley stated he supported the contract.

Councilor Arthur asked if Council were to decline an extension of the contract and gave 90 days notice to terminate, would the services of the firm expire after that 90 day period. City Attorney Krechowski replied "yes."

Vice Mayor Jolly stated the contract reflects all the changes and defines what Council expects. He felt it was a great contract and he supported it.

Councilor Tucker also supported the new agreement.

Consensus: **FORWARD TO THE OCTOBER CONSENT AGENDA.**

ISSUE DEVELOPMENT

Board Member
Appts.

BOARD MEMBER APPOINTMENTS: Councilor Tucker explained there have been recent issues regarding board member appointments and their term expirations dates.

City Attorney Krechowski explained the Code is clear in that it allows terms to extend beyond their expiration date until a new member is located and appointed.

Vice Mayor Jolly pointed out there were two board members whose beginning term dates were both on November 5th and they each expired on different days. One of the terms expires on November 4th and the other term expires on November 5th. City Clerk Volpe explained that was a typo and it would be corrected.

Councilor Wiley suggested the city clerk give Council a 90 day notice of an upcoming board vacancy.

Mayor Pruette stated Section 2-169 of the Code states the duties of the city clerk is to notify the appointing authority of the impending expiration of terms of office of any board or commission member at least 30 days before the expiration. This has not been done and that is why board member terms have been overlapping. She added the process of appointing board members is they are appointed by the Mayor and confirmed by Resolution of the Council.

Councilor Wiley asked if the Code would need to be amended if the clerk was asked to give Council 90 days' notices. City Attorney Krechowski replied Council could direct notice without having to amend the Code.

City Clerk Volpe explained there was some difficulty appointing members on time in the past. She has decided to put the expiration dates on a calendar that will notify her of impending term expirations. The length of time for the notice to Council could be determined by Council. Mayor Pruette stated she had people ready to be appointed to a board. She only needed 30 days notice. City Clerk Volpe replied she would give Council a 30 day notice of impending board member term expiration dates.

Councilor Arthur questioned if all the members on the Community Development Board were appointed at the same time when the board was established, or if the dates extended from

the Planning and Development Board term appointment dates. City Clerk Volpe responded the term dates reset and started over with the new board. The only original members currently serving on the board were, Kerry Chin, Richard Keene, and Connie Green. The terms would not all expire at the same time.

Vice Mayor Jolly asked the city clerk to remove the Code Enforcement Board from the list. He asked if he could receive a copy of the list on a quarterly basis. He also asked the city clerk to add the board members occupation to the list because the Code requires a certain amount of architects, engineers, etc.

Mayor Pruette stated she has always encouraged council members to make recommendations or nominate citizens to serve on boards.

Mayor Pruette stated Tony Mazzolla was reappointed as an alternate on the Community Development Board and he has not yet been notified. She asked City Clerk Volpe to write a letter to notify him of his new term.

City Clerk Report

CITY CLERK ANNUAL REPORT: City Clerk Volpe stated she was on vacation and was unsure why the annual report was on the agenda. She was under the impression the report would be written and distributed to Council to use for the performance evaluation in October. She has prepared a written report and attached a copy of the performance evaluation form. She asked if Council had any questions. She could read it to Council if they wanted.

Mayor Pruette stated Council was to have the report one month prior to the evaluation date. City Clerk Volpe replied today would be one month before the evaluation at the October 20th workshop meeting.

Mayor Pruette stated the performance evaluation forms needed to be completed by Council and returned to the clerk on October 10th for the October 20th agenda packet preparation. City Clerk Volpe stated the performance evaluation form is included in her report.

Mayor Pruette stated the city clerk's performance evaluation will be discussed at the October 20th workshop meeting.

Vice Mayor Jolly requested a spreadsheet be available at the council workshop meeting with a list of the items to be rated across the top and the name of each evaluator on the side rows in order to average the ratings. City Clerk Volpe replied she would have the deputy city clerk prepare a spreadsheet.

City Clerk Volpe asked if the city attorney would be completing a performance evaluation sheet, because he was not supervising or overseeing her office as he had proposed in his original draft.

Mayor Pruette stated the city attorney sees more of the city clerk's performance than the council members and it was a consensus of the Council that he also completes a performance evaluation on the city clerk.

PUBLIC COMMENTS

Richard Keene, 733 Bay Street, stated there is currently one active attorney on the Community Development Board, one retired attorney and one attorney that is an alternate. One of the members is a construction contractor and some of the members are very liberal and allow more than others. He felt the board was very well rounded.

COUNCIL COMMENTS / NONE

Adjournment

There being no further business, the meeting adjourned at 7:15 p.m.

DRAFT

MINUTES
SPECIAL CITY COUNCIL MEETING
SEPTEMBER 22, 2014 AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Special Meeting of the City Council of the City of Neptune Beach was held September 22, 2014 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

Director of Finance Steve Ramsey
Director of Public Safety David Sembach

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m. and asked Vice Mayor Jolly to lead the pledge of allegiance.

Consensus: **TO ADD PLEDGE OF ALLEGIANCE TO ALL COUNCIL MEETINGS.**

Ord. No. 2014-16

ORDINANCE NO. 2014-16, ADOPTING THE FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2014, AND ENDING SEPTEMBER 30, 2015; SETTING FORTH CERTAIN INFORMATION REGARDING "ROLLED-BACK-RATES"; DIRECTING THE CITY MANAGER TO ADJUST THE ADOPTED MILLAGE RATES IN THE EVENT OF CHANGES IN THE ASSESSMENT ROLL AND TAXABLE VALUE; PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read Ordinance No. 2014-16 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Tucker, seconded by Wiley.

Motion: **TO ADOPT ORDINANCE NO. 2014-16 ON SECOND READ AND PUBLIC HEARING.**

Councilor Arthur asked for conformation on the hiring of a part-time code enforcement officer, which would help reduce the hours the building official is currently spending on code enforcement. City Manager Jarboe explained he was under the impression the part-time

code enforcement officer would be hired to work on the weekends which would not reduce the hours the building official spends on code enforcement.

Councilor Wiley stated the money for a part-time code enforcement officer was designated and approved in the budget but Council had not yet confirmed the position or the hours.

Mayor Pruette suggested Council determine the details for hiring a part-time code enforcement officer at a future workshop meeting.

Councilor Tucker agreed the details needed to be ironed out at a workshop meeting.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

MOTION CARRIED

Ord. No. 2014-17

ORDINANCE NO. 2014-17, ADOPTING A FINAL BUDGET, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING A FINAL BUDGET AND APPROPRIATING FUNDS FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2014, AND ENDING SEPTEMBER 30, 2015; PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read Ordinance No. 2014-17 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Tucker, seconded by Arthur.

Motion: **TO ADOPT ORDINANCE NO. 2014-17 ON SECOND READ AND PUBLIC HEARING.**

Vice Mayor Jolly stated Exhibit A, Schedule of the Budget, was included with the ordinance in the previous agenda packet but was not included in this agenda packet. He stated it would be nice if it had been provided.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

MOTION CARRIED

Ord. No. 2014-15

ORDINANCE NO. 2014-15, AMENDING CHAPTER 27, LAND USE. PUBLIC HEARING ONLY: AN ORDINANCE OF THE CITY OF NEPTUNE, BEACH AMENDING CHAPTER 27, ARTICLE IV. LAND USE. SECTION 27-243(C)(4) PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS, AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated due to the changes in the original proposed ordinance that was introduced by Councilor Wiley, he has withdrawn his sponsorship. She has agreed to sponsor the ordinance as it was amended.

Mayor Pruette explained this ordinance is on the agenda for a public hearing only. The second public hearing will be held before the second reading at the regular meeting in October.

Mayor Pruette read Ordinance No. 2014-15 by title only and opened the public hearing.

Richard Keene, 733 Bay Street, suggested copies of all proposed ordinances be available to the public at council meetings. City Clerk Volpe stated the ordinance was on the city website. Mayor Pruette replied the ordinance that was on the website was not the corrected ordinance.

There being no further comments from the public, the public hearing was closed.

Consensus: **FORWARD TO SECOND READ IN OCTOBER WITH A WORKSHOP BEFORE THE REGULAR MEETING.**

Ord. No. 2014-18

ORDINANCE NO. 2014-18, AMENDING CHAPTER 17, SECTION 17-48, FOOD TRUCKS, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 17, SALES, ADDING SECTION 17-48 FOOD TRUCKS AT SPECIAL EVENTS WHICH ALLOWS FOR FOOD TRUCKS TO BE PERMITTED AT SPECIAL EVENTS UPON APPROVAL BY THE CITY MANAGER AND AMENDING CHAPTER 21, TAXATION, SECTION 21-32, LOCAL BUSINESS TAX RECEIPT SCHEDULE, PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read Ordinance No. 2014-18 by title only.

City Manager Jarboe explained an issue arose regarding "food trucks" when the Friends of the Beaches Library advertised that a food truck would be provided at an upcoming event. They were then informed by the City that food trucks are not allowed. At that time, Mayor Pruette asked City Attorney Krechowski to draft an ordinance which would allow food trucks in commercial districts. If approved, this will allow food trucks to apply for a permit to provide food at special events.

Mayor Pruette recommended Council discuss the proposed ordinance, vote on the first read and forward it to the October workshop meeting for further discussion.

Consensus: **TO DISCUSS THE PROPOSED ORDINANCE AND VOTE ON THE FIRST READ.**

Councilor Tucker felt food trucks should be able to participate at special events and cater at different locations within the City. She questioned how much the permit would cost and if the permit would be good for one year. City Manager Jarboe replied the permit would be the same cost as a home occupation business, which is currently \$65.00 per year and it would also be good for one year.

Vice Mayor Jolly stated Richard Keene, member of the Community Development Board, also drafted a proposed ordinance. His version suggested identifying the term "special events."

Councilor Wiley voiced concern about Mr. Keene's proposed ordinance stating that "food trucks should be allowed to operate within residential districts only as catering vehicles, subject to the rules here and above." His concern was that those rules indicated the residential property owners would have to obtain large insurance policies.

Richard Keene, 733 Bay Street, explained in his proposed ordinance the insurance requirement would be applicable to the property owner if the event owner did not supply the insurance. However, he felt the food truck owners should provide the insurance policy since it is a commercial activity and they are the ones benefiting.

City Manager Jarboe stated currently the City does not require insurance for catering. Mr. Keene suggested adding the provision that insurance policies be provided by the food truck

operators.

Councilor Arthur agreed the residential property owner should not be required to provide insurance. He felt the hours of operation for the special event should include a time period for setup and breakdown of food trucks. City Manager Jarboe stated the hours of operation would be indicated in the special event permit and he could allow time for setups and breakdowns.

City Attorney Krechowski felt the draft ordinance in the agenda packet covered all the concerns. The only concern not addressed in the ordinance is "identifying and/or limiting "special events" which he could add. The only other issue is the hours for setup and breakdown, which could be included in the permit at the discretion of the city manager.

Mayor Pruette suggested limiting "special events" to two per property. City Attorney Krechowski stated the number of special events allowed per property could also be at the discretion of the city manager.

City Manager Jarboe added the ordinance would not allow "food trucks" at special events located on city property, such as the Green Market. He added he currently approves and sets the rules for all special events. Councilor Wiley asked if Council could review the city manager's "special event permit" at a workshop meeting to discuss if they would like to make any amendments.

Mayor Pruette stated it was her understanding Council wanted to move forward with the proposed ordinance in the agenda packet instead of the one provided by Mr. Keene.

City Attorney Krechowski questioned if Council wanted to limit food trucks at special events to one per month or leave it to the discretion of the city manager. Councilor Tucker felt there should not be a limit.

Vice Mayor Jolly questioned the definition of a "special event." He was concerned it could be interpreted differently. City Manager Jarboe stated "special events" are determined by the city manager.

City Attorney Krechowski asked if Council would like to include Mr. Keene's definition of "special events" in the proposed ordinance.

Mayor Pruette stated she would like the city attorney to amend Mr. Keene's definition of "special events" and add it to the proposed ordinance for a workshop meeting.

Mayor Pruette opened the public hearing.

Amy O'Grady, 13129 Annadale Drive South, Jacksonville, President of Jax Truckies, questioned if this ordinance is only for "special events" would the Council be considering an ordinance for regular food truck operation in the future. Mayor Pruette replied this ordinance would allow open sales for food trucks during special events.

Lynda Padrta, 1113 First Street, felt it was not unreasonable to limit the number of special events on one property because it could be disruptive to the neighborhood.

There being no further comments from the public, the public hearing was closed.

Moved by Tucker, seconded by Arthur.

Motion: **TO PASS ORDINANCE NO. 2014-18 ON FIRST READ THE WAY IT IS CURRENTLY WRITTEN AND HAVE THE CITY ATTORNEY MAKE THE**

City Attorney Patrick Krechowski
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

Director of Finance Steve Ramsey
Director of Public Safety David Sembach

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m.

Ord. No. 2014-16

ORDINANCE NO. 2014-16, ADOPTING THE FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2014, AND ENDING SEPTEMBER 30, 2015; SETTING FORTH CERTAIN INFORMATION REGARDING "ROLLED-BACK-RATES"; DIRECTING THE CITY MANAGER TO ADJUST THE ADOPTED MILLAGE RATES IN THE EVENT OF CHANGES IN THE ASSESSMENT ROLL AND TAXABLE VALUE; PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the City of Neptune only receives \$17 for every \$100 that goes to the county. With a working partnership with the council we have been able to work with the lower revenue and we are up to \$300,000 less than what we were spending in 2006. That speaks loudly about the Council and the budget process goes smoother than some of the surrounding cities. He thanked the Council for working with the City and making this a positive process for everyone involved.

Mayor Pruette read for the record the TRIM, Truth in Millage notice. This is the millage public hearing for the City of Neptune Beach, Florida. The "Rolled-back" rate for the City of Neptune is 3.2418 mills. The rate to be adopted reflects a 3.82% increase over the "Rolled back" rate due to increased insurance costs and the needed replacement of police vehicles. The rate that is to be levied in this Ordinance by the City Council is 3.3656. Slightly lower than last year's rate. The rate on the TRIM notice you received in the mail was 3.5000, which is higher than the rate that is being levied tonight.

Mayor Pruette read Ordinance No. 2014-16 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Tucker, seconded by Arthur.

Mayor Pruette thanked staff for all of the hard work they put into preparing the Millage and Budget.

Motion: **TO ADOPT ORDINANCE NO. 2014-16 ON FIRST READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m. and recognized the presence of a Seventh Grade Civics Class from Fletcher Middle School and thanked them for their attendance.

**City Attorney
Service Proposal**

CITY ATTORNEY'S SERVICE PROPOSAL: Mayor Pruette stated the Council needed to come to a consensus tonight regarding the City Attorney's Service Proposal because the budget needed to be approved.

City Attorney Krechowski explained he made some changes to the proposal based on discussion from the previous council meeting. He would be happy to answer any questions.

City Manager Jarboe stated both the City of Atlantic Beach and the Town of Orange Park pay their city attorney an \$8,000 per month retainer plus \$200.00 per hour for litigation outside of the retainer. He compared these two cities because they were similar in size and located in metropolitan areas. He did not compare with the City of Jacksonville Beach because their city is bigger and they have an electric authority.

City Manager Jarboe added he received a letter from the city's employee health insurance carrier stating they would be giving us a rebate of slightly over \$15,000 and there is also the \$25,000 in the emergency fund. If Council wished to approve the proposal these funds could be used for the expense.

City Manager Jarboe explained the three options facing the Council: 1) stay status quo, 2) add the expanded retainer, or 3) add the expanded services.

Councilor Wiley stated based on the existing contract, the current hourly rate for the city attorney is \$150.00. City Attorney Krechowski stated that was only for litigation and did not include the retainer.

Councilor Wiley stated the current retainer for the city attorney is \$2,832.50. City Attorney Krechowski stated that was correct.

Councilor Wiley confirmed that the \$150.00 per hour was for extra legal services outside of the retainer. City Attorney Krechowski explained the \$150.00 per hour was for litigation and monitoring of the city's civil liability cases.

Councilor Wiley stated the average this year for litigation and monitoring of the city's civil liability cases was 8.2 hours per month. City Attorney Krechowski replied yes, that is the average, the hours vary from month to month.

Councilor Wiley asked what the city's annual expense for the city attorney fees were for this year. Finance Director Ramsey replied the total expense for city attorney fees so far for year 2014 is approximately \$75,000.

Councilor Wiley asked based on the new proposal how much would the annual expense be for the city attorney. City Attorney Krechowski advised the only variable would be the hourly charge which is based on litigation and varied monthly, and the additional proposed services.

Councilor Wiley asked, using the new hourly rate based on last year's hours, what that would translate to annually. City Attorney Krechowski replied the total would be whatever increase you offer as the hourly rate multiplied by an average of 8.2 hours.

Councilor Arthur asked the City Manager if he had received a response from Alan Jensen, Atlantic Beach City Attorney regarding his question. Mr. Jarboe replied he did not receive a response this afternoon. City Manager Jarboe advised Mr. Jensen was offered health insurance, from the City of Atlantic Beach, for him and his family, in lieu of some fees.

Councilor Arthur questioned if the hours spent on litigation fees this year were for code enforcement and special magistrate cases. City Attorney Krechowski advised the hours were also spent on civil litigation cases, code enforcement, administrative appeals, etc.

Councilor Arthur stated since 2006 the City has eliminated 15 positions. He felt the City needed to rebuild on some of those positions prior to paying for additional services. He would consider increasing the litigation services to \$200.00 per hour. He did not support the additional services because the budget would have to be increased and taxes would have to be raised. He also did not support the two year term.

City Attorney Krechowski stated the two year term has been removed from the proposal. He appreciated the impact of the budget and the limited resources of the City. He stated he was at the service of the Council and whatever he could do he would do it.

Mayor Pruette asked Councilor Arthur if he supported the additional services proposed. Councilor Arthur replied "no," not at this time.

Vice Mayor Jolly asked City Attorney Krechowski what he anticipated his hours to be based on the original monthly retainer three and a half years ago. Mr. Krechowski replied he did not anticipate more than 15 hours per month.

Vice Mayor Jolly asked what the new monthly retainer would be based on the proposal. Finance Director Ramsey advised without the additional legal services the annual amount would increase \$23,123. With the additional services it would increase \$32,123.

Vice Mayor Jolly felt the city had received nearly twice as much work for the retainer if he has averaged 22 hours in lieu of 10 to 12. He supported the increase in the retainer and the increase in the hourly fee to \$200.00 for litigation and civil liability litigation.

Mayor Pruette asked Vice Mayor Jolly if he supported the \$200 hourly fee, the \$235 hourly fee and the additional services. Vice Mayor Jolly replied "yes" he supported the proposal.

Councilor Tucker asked if the city attorney would be attending all community development board meetings. Mr. Krechowski replied he would only be attending the meetings if he was needed. Councilor Tucker asked how many meetings he had attended in the past three and half years. Mr. Krechowski replied not many. City Manager Jarboe added he was not sure if the city attorney's retainer included him having to attend the Community Development Board meetings. The city attorney was required to provide training for the board members.

Councilor Tucker stated she supported the additional hourly fee for the code enforcement cases. She still had concerns regarding other portions of the proposal. She did not agree with the two year term. She was concerned about using the \$25,000 emergency and contingency fund to pay the costs.

Mayor Pruette asked Councilor Tucker if she supported the \$200.00 per hour litigation fee. Councilor Tucker replied "yes," she supported the \$200.00 hourly fee but did not support the additional services.

Councilor Wiley asked if the city attorney's proposal would deplete the \$25,000 emergency and contingency fund and the employee health insurance rebate check of \$15,000. Mr. Ramsey replied the total would probably be in the low \$20,000 to \$23,500.

City Attorney Krechowski stated it would be more practical to keep the hourly rate at \$200.00 across the board.

Councilor Wiley added if the City returned to a Code Enforcement Board in lieu of paying hourly rates to the Special Magistrate for code enforcement cases it would save the city \$6,000 to \$7,000 per year.

Councilor Wiley asked if the City Attorney would also receive the 3% salary increase that all other employees were going to receive on top of his proposal. City Manager Jarboe stated the proposal did not include an additional 3%.

Councilor Wiley stated he favored the \$200.00 hourly fee across the board. He did not favor the additional services or the two year term.

Mayor Pruette felt the additional services were needed. She stated when the Code Enforcement Board was in place the City paid an attorney to represent them and it was not fair to the City not to have an attorney represent the board. The Community Development Board definitely needed education, the Code needed to be modernized, and review of staffing, budgetary and other needs of the city clerk's office needed to be managed. She felt that council management of the city clerk's office was not working and Council did not give the city clerk's office enough of their attention. She supported trying the additional services for one year to see if it would work.

Councilor Arthur stated he did not support the additional services at this time. The City Attorney should provide training for the Board as his agreement currently states. He felt the Council should review how the city clerk's office was being managed before adding the additional costs to the city budget.

Mayor Pruette suggested placing "Managing the City Clerk's Office" on the October workshop agenda because she felt it was needed.

Councilor Arthur stated he would like the City to hire a part time code enforcement officer to work 20 hours per week.

Mayor Pruette added that if the City continued to use a special magistrate for code enforcement, in lieu of the Code Enforcement Board, it would cost even more now because the State has changed the policy that if the City wins the case the code violator no longer has to reimburse the City for the costs of the special magistrate.

Councilor Arthur stated modernizing the Code would be a great project and extra training for the board would be good but he was more concerned with rebuilding the loss of staff.

Mayor Pruette felt the board could use more training, the better educated the members are the better off they are.

Vice Mayor Jolly felt it would be a benefit to have the City represented at code enforcement cases. That is why he supported the additional services.

Councilor Tucker felt twice a year training for board members was adequate. She asked the city attorney why he felt it would benefit the City for him to attend staff meetings. Mr. Krechowski replied it would inform him what was happening in the city and allow him to be proactive. Mr. Krechowski added that he was not here to argue the position he was here to offer the services. He was aware that positions had been cut but also the Code had been neglected for at least ten years.

Councilor Arthur stated he would like the City to have the additional services but the overall proposal was a 53% increase in the city attorney's current salary agreement. He felt the modernization of the Code was important but it would be a lot to do in one year. Mr. Krechowski replied modernizing the Code would take time due to space allowable on council agendas and ordinances required two readings.

City Manager Jarboe stated it took the City from the late 1990's to 2006 to update Chapter 27 of the Code. It takes a lot of time and research to update codes, because changing one part of the Code may affect other parts of the Code.

Mayor Pruette asked Community Development Director Askew to give her opinion regarding modernizing the Code. Mrs. Askew explained the Community Development Board tries to recognize trends in variance requests when considering changes to the Code. She added there was always room for improvements.

Vice Mayor Jolly asked Community Development Director Askew how Chapter 27 related to the city's Comprehensive Plan. Mrs. Askew explained City ordinances could not conflict with the city's Comprehensive Plan. The major issue is not increasing the density due to flood zones and hurricane evacuation times. The Comprehensive Plan is the guideline and overall map before ordinances are implied. City Manager Jarboe added the Comprehensive Plan ruled regardless of the Code. If ordinances are not consistent with the Comprehensive Plan they will not stand up in court.

Councilor Wiley asked Community Development Director Askew if there have been issues in the past where the Community Development Board needed legal advice during a meeting that could not wait until the following day. Mrs. Askew replied every now and then something would arise. She recently had two cases that were appealing the decision of the city attorney.

Councilor Wiley asked City Attorney Krechowski if he would be willing to attend community development board meetings on an as needed basis if asked by the City, for his hourly fee of \$200.00. Mr. Krechowski responded "yes."

Mayor Pruette asked Council for a consensus.

City Manager Jarboe stated there had to be a consensus tonight in order to move forward with the budget. The proposed budget had to be placed on the website by Friday at the latest. He understood from the discussion Council supported \$200.00 an hour outside of the retainer but there is no consensus on the retainer fee. The proposed retainer fee is \$3,000 less than that of Atlantic Beach and Orange Park.

Mayor Pruette stated she supported the entire proposal.

Councilor Arthur stated going from \$150.00 an hour to \$200.00 an hour for litigation was a 25% increase.

Councilor Wiley asked if the current retainer was \$2,832.50 per month. Finance Director Ramsey replied that was correct. Councilor Wiley asked what the monthly retainer fee would be if the city attorney were given the same 3% raise that is to be given to all employees. Mr. Ramsey responded the increase would be approximately \$85.00 per month.

Councilor Arthur stated he would support the 25% increase in the hourly rate for litigation services. He did not support the additional services or the two year term.

Vice Mayor Jolly asked if the City could get by with paying a part time code enforcement officer \$15,000 per year. Mr. Ramsey replied the salary for a part time code enforcement officer could be "whatever Council wanted."

Vice Mayor Jolly suggested staff work out the numbers and return to Council with the final proposal.

Mayor Pruette felt that was a good idea.

City Manager Jarboe asked if Council wanted to add the money to the budget and then figure out how it would be dispersed later.

Finance Director Ramsey asked if he should place \$28,000 in legal services and put what was left over from the combination of the \$25,000 Contingency Fund and the \$15,000 rebate from the employee health insurance company (approximately \$12,000) in the budget for the salary for a part time code enforcement officer.

City Manager Jarboe explained this would put the money in the budget and Council could either add to or subtract the money if needed.

Consensus: **TO PLACE \$28,000 IN THE BUDGET FOR LEGAL SERVICES AND THE REMAINDER OF THE MONEY FROM THE COMBINED EMERGENCY FUND AND THE REBATE CHECK IN THE BUDGET FOR A PART TIME CODE ENFORCMENT OFFICER.**

Budget 2014/2015 BUDGET / GENERAL FUND / UTILITIES / SPECIAL REVENUE FUND: Director of Finance Steve Ramsey explained last year the millage rate was 3.3756. This year it is 3.3656 which is slightly lower. The budget is \$5,500 less than it was last year. He asked Council if they had any questions.

City Manager Jarboe stated Council spent a lot of time individually with himself and the finance director, reviewing the budget.

Councilor Tucker asked if the changes made to the city attorney service proposal would raise the millage rate. Mr. Ramsey replied "no."

Councilor Wiley asked if the money put into the budget for the part time code enforcement officer had to be used to hire one. Mr. Ramsey replied "no," Council would have to authorize the position. The money could be moved to a different account.

Councilor Arthur asked how many hours a part time code enforcement officer would have to work for the \$12,000 allotted. Mr. Ramsey replied it would amount to approximately 15 hours per week.

Councilor Arthur asked what the Special Revenue Street Improvement Fund could be used for. Mr. Ramsey responded the Street Improvement Fund was used to repair sidewalks, streets, curb and gutter.

Councilor Arthur asked what the \$2,500 Town Center Expenditure Fund were used for. Mr. Ramsey replied the \$2,500 in the Town Center Expenditure Fund will be used for landscaping, sprinkler repairs, irrigation, palm tree trimming, electric and water. These expenses are split between us and the City of Atlantic Beach.

City Manager Jarboe and Mayor Pruette thanked Finance Director Steve Ramsey for doing a great job on the budget and for helping to keep the taxes low.

Consensus: **TO FORWARD THE BUDGET TO FIRST READ AND PUBLIC HEARING.**

Adjournment There being no further business, the meeting adjourned at 7:00 p.m.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette voiced concern regarding the meeting not being changed on the website from Monday night to Tuesday night. She asked in the future when meeting nights are changed due to holidays or special events that it be noticed on the website. City Clerk Volpe replied she could notice meeting changes on the website.

Councilor Wiley stated there was a nice article in the Times Union about Mayor Pruette. He asked if some of the photographs taken by Mayor Pruette could be placed on the website.

Mayor Pruette thanked City Clerk Volpe for arranging to have the city seal placed on Council emails.

City Clerk Volpe reminded Council that any emails sent from personal computers regarding city business needed to be copied to her office for public record. The website has been changed to add agendas, minutes and audio for all board meetings. Resolutions are also going to be added to the website. She will be taking vacation from September 15th to September 19th.

Mayor Pruette asked Ms. Volpe if the software could be updated to automatically forward council emails to their personal computers. Ms. Volpe explained council members and employees can sign in to the city webpage and access their email directly from the page. She would be happy to show her how to access her emails directly from anywhere.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- The Bal Harbour project was close to 40% complete.
- A water line will have to be replaced across Penman Road. A total of six houses will be affected and they will be sent boil water notices.
- Public Works is continuing to change out water meters. One third of the meters have already been replaced. This will be a two year process. Revenue should increase because the new meters will be more accurate.
- AT&T is working on an area on Third Street near Florida Boulevard.
- There was an accident recently at the Shell Gas Station on Atlantic Boulevard that caused a small fire when a vehicle hit a pump. The station manager was able to hit the kill switch to avoid a large blowup.
- He has received several telephone calls regarding the size of the new speed humps in Summer Sands that were installed by the homeowners association. The president of the association was present and will speak during public comments.

Vice Mayor Jolly asked what the \$500.00 in the education budget for council was for. Mr. Ramsey advised this year the State passed a mandatory ethics training requirement for council members. The \$500.00 is budgeted for online ethics training courses.

City Attorney Krechowski advised based on Council instructions, he wrote a letter to the City of Jacksonville General Counsel requesting a meeting regarding tipping fees. They responded immediately and a meeting is scheduled for September 24th. He asked if Council had any questions to advise him in advance of the 24th.

Councilor Wiley asked if it would be appropriate for Council to attend the meeting. City Manager Jarboe stated Council is usually not included in those types of meetings.

Councilor Arthur asked if the mediation regarding tipping fees between the City of Atlantic Beach and the City of Jacksonville was completed. Mr. Krechowski replied they have not reached a settlement agreement and are still in mediation.

COMMENTS FROM THE PUBLIC

Robert Shimp, 1109 First Street, felt the city should not adopt ordinances if they did not intend to enforce them. He also felt the budget meeting should have been held after the regular meeting so citizens would not have wait for the regular meeting to begin.

Joe Romanella, 1453 Spindrift Circle East, addressed concerns regarding the speed humps recently installed in Summer Sands. He advised there was an issue with the projection of the humps. The vendor is going to widen them and reduce the height along with adding stripping and signs. There will be a homeowner's association meeting this week in regards to the issue.

Michael Aston, 1523 Summer Sands Drive, asked Council to keep in mind that the complaints the City is receiving regarding the speed humps in Summer Sands are from property owners that do not live on Summer Sands Drive. The complainants live in the cul-de-sacs off of Summer Sands Drive and are not as familiar with the speeding situation as the residents living on Summer Sands Drive. He felt the speed humps should be left in place once they are widened and the height is reduced.

Lynda Padrta, 1113 First Street, questioned why the City's millage rate was lower but her taxes were higher. She was concerned that the Beaches Chapel was not complying with the drainage specifications required by their permit.

Ginny Stephens, 910 Fifth Street, voiced concern regarding vehicles not stopping at the stop sign at Pine Street and Fifth Street. She asked Council to consider installing a speed hump to slow traffic.

CONSENT AGENDA / NONE**VARIANCES/NONE****ORDINANCES**

Ord. No. 2014-15 **ORDINANCE NO. 2014-15, AMENDING CHAPTER 27, SECTION 27-243(C) PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS, FIRST READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA, CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV LAND USE SECTION 27-243(C)(4) PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS, AND PROVIDING AN EFFECTIVE DATE.**

Moved by Pruette, seconded by Jolly.

Motion: **TO APPROVE THE RECOMMENDATION BY THE PLANNING AND DEVELOPMENT REVIEW BOARD, LEAVING THE DOCKS FOUR FEET WITH THE CONDITION THAT A SINGLE TERMINAL PLATFORM OF ANY DOCK SHALL BE A MAXIMUM OF 200 SQUARE FEET AND SHALL BE BUILT ONLY AT THE TERMINAL END PORTION FURTHEREST FROM THE SHORELINE. BOARDS USED TO CONSTRUCT THE SURFACE OF THE DOCK AND TERMINAL PLATFORM SHOULD NOT EXCEED 8 INCHES IN WIDTH AND SHALL BE SPACED AT ½ INCH APART.**

Mayor Pruette asked Community Development Director Askew to come forward and explain the board's recommendation.

Ms. Askew explained the recommendation of the Board is to keep the current four foot width walkway for docks with the conditions in the motion made by the Mayor.

Mayor Pruette asked Ms. Askew what other options the Board considered. Ms. Askew stated the Board reviewed the recommendation of Vice Mayor Jolly to allow five foot walkways with the extra footage being deleted from the platform.

Councilor Arthur asked Director of the Community Development Board Kerry Chin to approach the Council podium. Councilor Arthur asked Mr. Chin if the Board discussed the impact of the marsh in relation to conservation. Mr. Chin replied the Board was concerned with conservation principles. The Board felt the waters were worth protecting and if the property underneath the waterways had not been deeded over to the adjacent property owners the State probably would have declared the waterways an aquatic preserve. In the interest of conservation principles the Board felt keeping the dock walkways at the four foot width would be the prudent measure and allowing five feet walkways was not warranted.

Councilor Wiley stated he listened to the audio of the Community Development Board meeting on the website, there was a lot of discussion and the Board did a very good job. He felt the Board's discussion was based on the waterway being designated an aquatic preserve, yet it has not been given that designation. Mr. Chin stated the previous Council used the designation of an aquatic preserve as a model when they adopted the original ordinance.

Councilor Wiley stated there was not much discussion about the area not being designated an aquatic preserve by the Department of Environmental Protection and that areas not designated an aquatic preserve allowed dock walkways to be up to six foot in width. He added that Jacksonville Beach, Atlantic Beach, and the City of Jacksonville all allowed five feet and five feet is the standard. He did not feel the extra foot in width would have an impact on the preservation of the waterways.

Councilor Tucker stated she had no further questions.

Vice Mayor Jolly agreed the limit for the dock walkways should remain at four feet in width.

Mayor Pruette felt the Board had made the right decision for the sensitive area of the community. She explained the State allowed higher building height limits but Council chose to limit the height to 35 feet. The City should do the same in this situation and further limit the dock walkways to four feet.

Mayor Pruette asked Ms. Askew to explain other suggestions the Board discussed as a compromise.

Ms. Askew stated the two following suggestions were also discussed.

"The access walkway of a dock shall be a maximum of five feet in width, the terminal platform of docks including sitting areas, floating docks and boat storages shall be a maximum of 160 square feet, boards used to construct the surface and the dock should not exceed eight inches in width and shall be spaced at least one half inch apart."

"The access walkway of a dock shall be a maximum of five feet in width, the terminal platform of docks including sitting areas, floating docks and boat storages shall be a maximum of 200 square feet however for access walkways that are greater than four feet

in width the terminal platform size including sitting areas, floating docks, and boat storages shall be reduced by the number of additional square footage of the access walkway beyond that of a four feet walkway for the same length."

Councilor Arthur asked Mrs. Askew if the area was designated a conservation area in 2007 when the original Ordinance was adopted. Mrs. Askew replied the area has been a conservation area since the 90's. The conservation area encompasses all of the Intracoastal and the Hopkins Creek area.

Roll Call Vote:

Ayes: 3 – Arthur, Jolly, Pruette

Noes: 2 – Tucker, Wiley

MOTION CARRIED

Councilor Tucker questioned how the motion would affect the Ordinance. City Attorney Krechowski explained the Ordinance would be amended to reflect the motion.

Mayor Pruette stated the Ordinance should have been placed on a workshop meeting for discussion prior to this regular meeting. She requested in the future that Ordinances be discussed at a workshop meeting before regular meetings.

Councilor Wiley voiced concern that the Ordinance on the agenda was to increase the dock walkway but the motion was accept the Board recommendation. City Attorney Krechowski explained this is what is called a "substitute motion." Councilor Wiley stated the Ordinance had been discussed at a previous workshop meeting. He felt the procedure should have been to vote to approve or not approve the Ordinance and that would have accomplished the same result. City Attorney Krechowski advised it would be appropriate to add the language to the proposed Ordinance.

OLD BUSINESS / NONE

NEW BUSINESS

Res. No. 2014-09 RESOLUTION NO. 2014-09: A RESOLUTION APPOINTING MEMBERS TO THE COMMUNITY DEVELOPMENT BOARD.

Mayor Pruette stated she had an issue with the appointment dates. The dates on the Resolution were for the term to begin on 04-01-14 and end on 04-01-15. She was concerned about the overlap in the term of the previous appointment. City Clerk Volpe explained his term actually ended on 04-01-14. Mayor Pruette stated she disagreed because the time overlap was not caused by any action of the board member and she felt the term should begin 09-02-14 and end 09-02-15. She added that Council is supposed to be notified 30 days in advance of term expirations. She requested in the future that Council be notified 30 days in advance of board member term expirations and be advised of board members attendance record before they are reappointed.

Councilor Tucker stated she has requested the subject of "Board Member Appointments" to be placed on a workshop agenda for discussion.

City Attorney Krechowski advised the Code allows for board members to serve beyond the original term until Council fills the vacancy. He had no issues changing the term to begin on 09-02-14 and end on 09-02-15, provided there is confirmation of the Council.

Vice Mayor Jolly, Councilor Tucker, Councilor Arthur and Councilor Wiley all agreed to amend the term period to begin on 09-02-14 and end on 09-02-15.

City Clerk Volpe advised the issue will be on the October workshop meeting agenda for discussion.

Mayor Pruette requested the 30 day notice for expiration of board member term limits include; 1) if this will be the members second term, and 2) provide an attendance record of the board members.

Moved by Tucker, seconded by Arthur.

Motion: **TO APPROVE RESOLUTION 2014-09.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

MOTION CARRIED

COUNCIL COMMENTS

Councilor Wiley asked if the issue regarding the balcony located at 110 Cherry Street has been resolved. Ms. Askew replied Mr. and Mrs. LePetrie were issued a revised building permit deeming the balcony a repair.

City Manager Jarboe stated the meeting for second read to finalize the Budget will be held on September 22nd.

Councilor Arthur asked if other board member terms were current. City Clerk Volpe replied "yes" the terms are all current.

Adjournment

There being no further business, the meeting adjourned at 8:00 p.m.

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The Bal Harbour project is close to 37% complete.
- He will be working with the Ish Brant Beautification Committee on a plan to present to the City of Jacksonville General Counsel regarding a \$30,000 grant for adding and replacing trees.
- A specialist has given a proposal of \$200.00 per treatment to exterminate the ants in the beach crosswalks.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe stated the property abandonment for Paul West was postponed because he was out of town. City Manager Jarboe explained Mr. West was also waiting on a Power of Attorney from his mother, so that he could act on her behalf.

City Clerk Volpe explained the September regular meeting would be held on Tuesday, September 2nd at 6:00 p.m. The meeting for the first read of the budget and millage will be held on Monday, September 8th. The September workshop and special meeting for second read on the budget and millage will be held on Monday, September 22nd.

PUBLIC COMMENTS

Ramzy Bakkar, 320 North First Street, Jacksonville Beach, asked Council to consider removing Item (5) violations and civil penalties from the sign ordinance.

Beth Breeding, 10175 Fortune Parkway #1005, Jacksonville, 32256, asked Council to add an appeal option to the sign ordinance.

PROPOSED ORDINANCES

Nonconforming Signs

ORDINANCE NO. 2014-14, AMENDING CHAPTER 27, NONCONFORMING SIGNS: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA, CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XV ADVERTISING SECTION 27-592 NONCONFORMING SIGNS AND ARTICLE XVII NONCONFORMING LOTS, STRUCTURES, USES AND SIGNS, SECTION 27-707 NONCONFORMING SIGNS AND PROVIDING AN EFFECTIVE DATE.

Councilor Wiley stated the questions remaining were the definition of "branding" and the amount of the fines for violations. He hoped the questions had been answered and the ordinance would be forwarded to first read.

Councilor Arthur stated the ordinance would be presented to the Community Development Board this week. He had questions concerning the definitions of "replacement" and "abandonment." City Attorney Krechowski stated the Community Development Board would be making recommendations to the Council for the definition of "abandonment" and "branding."

Councilor Arthur also stated he would like clarification of definitions for "abandon signs" and "repairs" verses "replacements."

Vice Mayor Jolly stated the proposed ordinance was inconsistent in the two sections regarding the word "branding." He added that the Code Enforcement Board was not removed from the Code. He suggested the ordinance should state that appeals should be heard by whichever was effective at the time be it the Special Magistrate or the Code Enforcement Board.

Councilor Tucker stated she agreed with the fines, wanted more clarification on the definitions of "branding", abandonment" and "replacements." She questioned the cost of the sign permit. Community Development Director Askew stated the cost for a sign permit was based on the cost of the construction and was typically around \$75.00.

Mayor Pruette felt "residential zoning districts" should remain in (5), the violation should be clarified as a citation or a penalty. She agreed with amounts of the fines.

Councilor Wiley stated the triggers for replacing signs had been in place for ten years and have worked without a problem. He suggested leaving "branding" as it was because it has worked. He stated "residential zoning districts" could remain in (5) and he agreed with the amounts for the fines.

Mayor Pruette suggested extending the deadline for another 180 days to allow time for the Community Development Board's recommendation and time to work on answers to other questions.

Councilor Wiley stated the same questions being asked tonight were addressed at the last meeting. He was under the impression that those questions had been answered before tonight. It was a consensus at the last meeting to forward this ordinance to this workshop meeting for discussion and to hold a special meeting immediately following this workshop specifically for first read on this ordinance.

City Attorney Krechowski stated there are still unanswered questions and the deadline was approaching. The original options were 1) to remove the ten year limit, 2) to keep the ten year limit, or 3) extend it. He recommended extending the deadline another 180 days to allow time for the Community Development Board to make recommendations and to address the other issues.

Vice Mayor Jolly stated he still had questions and would agree to extend the ordinance another 180 days.

Councilor Tucker stated she was ready to call for a vote on the ordinance.

Councilor Arthur wanted to wait for the Community Development Board's recommendations.

Consensus: **TO VOTE ON EXTENDING THE SIGN ORDINANCE DEADLINE FOR ANOTHER 180 DAYS AT THE FOLLOWING SPECIAL MEETING.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Budget

BUDGET / GENERAL FUND / WATER AND SEWER FUND: City Manager Jarboe stated he and Finance Director Steve Ramsey have met with each Council member individually to review and discuss the budget. Finance Director Ramsey would be presenting the budget publicly and answer any questions from the Council.

General Fund

GENERAL FUND: Finance Director Ramsey explained Property Tax Revenue increased 3.8% this year. Telecommunications Tax and 911 Tax decreased but Sales Tax had a healthy increase. Overall revenues increased \$10,000 over the prior year.

City Manager Jarboe explained the budget is divided into three sections: 1) the General Fund, which is for the city's normal operations, 2) the Utilities Fund, which is the water, sewer, stormwater and sanitation and, 3) the Special Revenue Fund which is limited to special items.

Mr. Ramsey stated the City has had to substantially tighten the budget over the years. This budget is \$300,000 less than the budget in 2006. The good thing about this budget is employee health care insurance only increased 12%.

Mr. Ramsey asked Council if there were any questions regarding this budget.

Councilor Arthur stated there was a list of possible additions that would increase the budget \$123,000 and require an increase in the millage rate. He suggested looking into saving money in other areas of the budget to add the possible additions without increasing the millage. For example, using the \$25,000 line item for Emergencies and Contingencies Fund or to divide some staff duties.

Possible Additions to the Budget

Possible Additions	<u>Addition</u>	<u>Cost</u>	<u>Millage Addition</u>
	Enhanced Legal Services	48,000	.08 mills
	Additional Laborer for Public Works	35,000	.06 mills
	Part-time Code Enforcement Officer	20,000	.035 mills
	<u>Part-time Animal Control Officer</u>	<u>20,000</u>	<u>.035 mills</u>
	Required Increase	123,000	3.5718 Rate

Councilor Arthur stated he would also like to break down the cost of the additional legal service fees to see where we could fit them into the budget without having to increase the millage rate.

City Manager Jarboe explained if there is not an Emergency and Contingency Fund money would have to be taken from the Reserve Fund if there was an emergency.

Councilor Arthur asked how much money was currently in the Reserve Fund. Mr. Ramsey stated the balance in the Reserve Fund is 1.9 million. Mayor Pruette stated when she became Mayor the Reserve Fund was low and the auditor advised the Council to increase the Reserve Fund over the years and it has been increasing since.

Councilor Arthur stated he would like to see the proposed additions added to the budget without increasing the millage rate.

City Manager Jarboe stated in order to revise the budget there would have to be at least three votes.

Mayor Pruette asked Mr. Ramsey to consider adding the proposed additions without increasing the budget and bring the figures back to council.

City Manager Jarboe stated if Council wanted to workshop the budget again it would have to be scheduled before September 8th because that is when the final millage rate had to be set.

Councilor Wiley stated Council has discussed hiring a part-time Code Enforcement Officer, he would like to see some figures, but he was not prepared to make the decision tonight. He agreed with keeping the Emergency and Contingency Fund. He did not want to have to use the Reserve Fund in case of an emergency.

Mayor Pruette stated she would also like to see some figures brought back.

Councilor Tucker stated she would also like to see some figures brought back to Council for review.

Vice Mayor Jolly stated he was not in favor of having \$25,000 in an Emergency and Contingency Fund. He felt that money could be used for some of the proposed additions that have been identified. He added that it all comes down to whether or not Council wants to raise the millage.

Mayor Pruette stated Council has discussed adding a part-time Code Enforcement Officer and she understood why it was a possible addition to the budget, but Council had not discussed the other possible additions.

City Manager Jarboe explained the City Manager presents the budget to the Council for review and consideration and amendments. The Public Works Department had been hit hard with a lot of budget cuts in the past years. The department is behind and they need a new full-time employee.

Councilor Wiley questioned how much money the City has spent on a Special Magistrate. Mr. Ramsey stated to date this year the City has spent \$6,000. There are still invoices pending. The City can no longer be reimbursed for the cost of the magistrate by the code violator.

Mayor Pruette stated Council needed to consider reinstating the Code Enforcement Board.

Councilor Wiley stated he was going to bring up reinstating the Code Enforcement Board. Overall he was pleased with the budget presented.

Mr. Ramsey stated a line item for the amount of \$25,000 has been added to the budget for holiday security.

Councilor Arthur asked how much money the City spent last year on emergencies and contingencies. Mr. Ramsey replied to date the City has spent \$20,000. That was for the cost of the mule and the new audio sound equipment in the Council Chambers.

Councilor Tucker asked what fund the income from permits goes into. Mr. Ramsey replied the income from permits goes into the General Fund.

Councilor Tucker asked how many vehicles the Police Department had. Chief Sembach replied the department has 22 vehicles. Mr. Ramsey added since 2006 the City has not had to use money from the General Fund to purchase vehicles. The department has used grant money the last few years.

Councilor Tucker questioned employee classifications and salaries. Mr. Ramsey explained portions of some employee salaries are allocated outside their department. There are multiple employee salaries paid from different departments.

Mayor Pruette thanked Mr. Ramsey and added she hoped the City would not have to raise taxes.

Special Revenue SPECIAL REVENUE FUND: Mr. Ramsey explained the Special Revenue Funds are designated by State Statute what they can be used for.

The Police Education Fund comes from a small portion of speeding tickets written by our police department.

The Community Development Block Grant Fund decreased this year and Senior Center Director Lyne will have to raise \$4,000 to help run the center.

The Convention Development Tax can only be used for recreational purposes. The City has been purchasing playground equipment. This year the City is going to improve and repair the beach crossovers.

The Local Option Gas Tax is used for street repairs.

The Radio Communication Trust Fund helps fund communication costs.

The Better Jacksonville ½ Cent Sales Tax Fund will be used for \$300,000 in additional paving.

The Holiday/Special Events Fund is money that is donated from Waste Pro to help with holiday decorations and events.

Councilor Tucker asked how many Neptune Beach residents used the Senior Activities Center. Mr. Ramsey stated he did not know the percentage of the seniors that live in Neptune Beach.

Mayor Pruette asked if there was a line item for the Green Market income. Mr. Ramsey explained that was included in the General Fund.

Councilor Arthur asked if the Street Improvement Fund could be used to add more parking in the Town Center area. Mr. Ramsey replied the fund is used mostly for maintenance. He would look at the State Statute to find out if it could be used for adding parking.

Enterprise Funds ENTERPRISE FUNDS / WATER, SEWER, STORMWATER AND SANITATION: Mr. Ramsey asked if there were any questions regarding the Enterprise Funds.

Councilor Arthur asked if the 75% / 25% grant for the Bal Harbour project was included in the budget. Mr. Ramsey replied the grant is not reflected in the budget because it is part of the normal operations in the Water and Sewer Fund.

Councilor Arthur asked if the 25% match was used for employee time and labor. Mr. Ramsey replied "yes."

Attorney Services ATTORNEY SERVICES PROPOSAL / CITY ATTORNEY PATRICK KRECHOWSKI: City Attorney Krechowski explained he drafted this new proposal for attorney services based on an increase in his duties involving the City. He stated this was only a proposal, it was not an ultimatum. He added there are things Council has identified that need attention that were not getting attention based on time constraints. The bullet points of the proposal were in addition to his current duties and some of the bullet points were entirely new duties.

When he began with the city over 3 and ½ years ago his monthly average was about 15 hours per month. It has now increased to over 20 hours per month.

One of the new bullet points is "prosecution of code enforcement matters" before the Special Magistrate. The City is much more efficient when code enforcement cases are presented by an attorney. To hire outside counsel costs the City an hourly rate of \$250. Bringing it in house and having him take over the duties of code enforcement would reduce that cost, be more efficient, and save the City money.

The proposal did not have anything to do in regards to his new position with Gray/Robinson Law Firm.

Vice Mayor Jolly stated the proposal added a lot of duties the City Attorney has been doing that were not included in his original agreement. He felt it would be positive for the City to have more of the City Attorney's time.

Councilor Tucker stated she would like to see a written comparison breaking down the costs the City currently pays for duties such as the Special Magistrate as to the costs of the proposal. City Attorney Krechowski responded the retaining counsel and the Special Magistrate for code enforcement both charge an hourly rate in excess of what he is proposing.

Councilor Tucker was unsure about having the City Attorney supervise the City Clerk's office. City Attorney Krechowski replied the City Clerk's memorandum in the agenda packet is accurate in regards to the City Charter. The Charter does state "the City Clerk is to be appointed, duties determined, and supervised by the City Council." He felt the word "supervision" was not the correct word to use and the word "oversight" or "management" would be more accurate. He added this was an attempt to gain more efficiency and a better work product out of the City Clerk's office and also to evaluate the resources in the City Clerk's office. He stated these things were asked of him while Council was going through the evaluation process. He felt it was appropriate for the City Clerk to answer directly to the Council.

Councilor Wiley stated some of the proposed services bullet points were good but he would like to take time to compare and review them. He felt it would be nice to have the city represented at the Community Development Board meetings in case the board members had questions. He disagreed about the Special Magistrate. He was not sure that having a Special Magistrate in lieu of a Code Enforcement Board was working out for the City. He had reservations about the City Attorney attending staff meetings and modernizing the City Code. He felt the City itself could modernize the Code section by section with help from the Community Development Board. He felt there were pro and cons regarding the proposed agreement and questioned where the extra money would come from. The budget would have to increase to include the additional salary. He would be willing to discuss the proposal further at another workshop meeting.

Councilor Arthur agreed some of the bullet point's added value, but given the current financial state of the City and the budget, the millage would have to be raised .08 mills to accommodate the proposed salary. He felt some of the bullet points could be prolonged until the City was in better position financially. He agreed it would save time and be more efficient to have in house counsel for code enforcement. He felt "overall supervision of the City Clerk's office" should be handled by the Council. He did not feel the City should pay additional cost to the City Attorney to oversee the City Clerk's office. He questioned the reasoning for the City Attorney's presence at the Community Development Board meetings. City Attorney Krechowski explained he generally comments when the Community Development Director asks questions regarding the Code. Councilor Arthur felt the City Attorney's attendance monthly at a staff meeting could add value. He felt overall it would be helpful to review the bullet points and remove the city attorney's current duties from the description in 2011 and review the remaining proposal to get a better understanding of the proposed extra expenses.

City Attorney Krechowski explained it would be difficult to guess how much work it would actually take over the course of the year to modernize the Code, a lot of the other bullet points are already in his contract per the 2011 Resolution.

Councilor Arthur asked if the City Attorney could breakdown the cost of the duties to see if some of the things could be put into the budget. City Attorney Krechowski stated he would need to know what duties the Council wanted him to breakdown.

Mayor Pruette suggesting forwarding the proposal to another workshop meeting for further discussion. City Manager Jarboe reminded Council the millage rate had to be set on September 8th. If Council wanted to increase the millage to add to the City Attorney's salary they needed to act before the 8th.

Mayor Pruette thought Council should seriously consider some of the bullet points. For example, the City can no longer be reimbursed the costs for the Special Magistrate by the code violator if the City wins the case. The City is also seeing more lawsuits. She added that the Council does supervise the City Clerk however, she felt that was not working very well. She questioned why the City Clerk's office needed two employees verses one. She

asked the City Manager, Finance Director and City Attorney to work out the figures and bring back to the Council.

Vice Mayor Jolly stated there have been a lot of questions regarding the Special Magistrate verses a Code Enforcement Board. He suggested reviewing the costs for the Special Magistrate for the past two and half years, and looking at the costs of the Code Enforcement Board for the two and half years prior to that, and take a look at the cost difference. This would help to establish whether or not a Special Magistrate is more cost effective than a Code Enforcement Board.

City Attorney Krechowski asked if Council wanted an analysis of the efficiency of the Special Magistrate verses having a Code Enforcement Board or an analysis of having the City Attorney prosecute the code enforcement cases.

Vice Mayor Jolly stated when he served on the Code Enforcement Board the City was not represented by an attorney. City Attorney Krechowski stated he would provide the information for discussion of whether or not to revert back to having a Code Enforcement Board verses a Special Magistrate.

Mayor Pruette brought up that the City also has the unresolved issue of tipping fees and would need an attorney to represent the City during the litigation.

City Attorney Krechowski stated per the direction of Council he would break out his current duties from the new proposal, some bullet points that would be nice to have, and identify bullet points that can possibly be added in the future, for discussion.

Finance Director Ramsey stated if this is going to affect the budget he would need to know as soon as possible to prepare the budget before September 8th.

City Manager Jarboe added Council would have to meet no later than Monday of next week.

City Clerk Volpe suggested holding a Special Workshop meeting before the September 2, 2014 regular meeting to discuss the City Attorney's Service Proposal.

Mayor Pruette suggested everyone meet with the City Manager and Finance Director before the 2nd in order to save time.

Consensus: **TO HOLD A SPECIAL WORKSHOP MEETING BEFORE THE REGULAR MEETING ON SEPTEMBER 2, 2014.**

Tipping Fees

TIPPING FEES / CITY OF JACKSONVILLE: City Attorney Krechowski stated the City of Jacksonville has asked for mediation regarding tipping fees. The City of Atlantic Beach was going to mediation on Friday and the City of Jacksonville wants us to do the same. The City of Jacksonville selected the mediator for the City of Atlantic Beach and they would like for us to use the same mediator. He is concerned the mediator they selected may be bias because he is local. He suggested using Carlos Alveraz, a mediator from Tallahassee who is familiar with local government and has experience dealing with garbage. The mediation would cost approximately \$5,000 and would be divided between the two cities. He asked the City of Jacksonville to meet face to face before going to mediation but they indicated they were not interested.

Mayor Pruette asked City Attorney Krechowski what he would suggest. City Attorney Krechowski stated he would first like to try again to meet with the City of Jacksonville administration. If it does go to mediation he would like to push the City of Jacksonville into using Carlos Alveraz as the mediator.

Mayor Pruette agreed the City Attorney should try to meet with them one last time before going to mediation. She was also concerned about the mediator chosen by the City of Jacksonville and would like to use Carlos Alveraz. She wanted to bring up the Interlocal Agreement and the fact that the City of Jacksonville is suppose to be handling animal control services for Neptune Beach and they have not been doing it.

Vice Mayor Jolly agreed the City Attorney should try to meet with the City of Jacksonville administration. If they did not agree, we would know the results of the mediation between them and the City of Atlantic Beach and make a decision at the next Council meeting.

Councilor Tucker and Councilor Arthur agreed with Vice Mayor Jolly.

Councilor Wiley stated the tipping fee issue has been going on for five years and he has not seen any proof from the City of Jacksonville that we owed them money for tipping fees. City Attorney Krechowski stated that was correct, they have not proved we owe tipping fees. Councilor Wiley felt that by going to mediation the City was agreeing that we owed them tipping fees. He added the City of Jacksonville raised our millage rates 14% and the city did not receive anything for it. He felt it was unheard of for the City of Jacksonville to refuse to meet with us. He felt the City Attorney should try to meet with them again and then we would move forward from there.

Mayor Pruette agreed we should try to meet with them again and make a final decision from there.

Councilor Wiley asked if the City of Jacksonville charged tipping fees to the City of Baldwin. Mayor Pruette replied the City of Jacksonville did not charge tipping fees to the City of Baldwin or the City of Jacksonville Beach.

Mayor Pruette stated we should send the City of Jacksonville a bill for animal control services.

Consensus: **FOR CITY ATTORNEY KRECHOWSKI TO TRY TO SET UP A MEETING WITH THE CITY OF JACKSONVILLE AND LET THE COUNCIL KNOW THE RESULTS.**

110 Cherry St.

110 CHERRY STREET / JIM & HEATHER LEPETRIE / BALCONY REPAIR VERSES REPLACEMENT:

Building Official Don Ford explained on July 14, Council received an email from Mr. LePetrie, complaining that he was not being allowed to build a structure attached to his house at 110 Cherry Street. This project was permitted as a replacement of joist hangers on the balcony, which are hangers that hold the floor and beams of the balcony in place. He responded to a complaint stating the project had been completely torn down and was not simply the joist replacement project that was originally permitted. After receiving the complaint he went by the house and verified that the entire structure had been completely torn down. At that time he contacted Mr. LePetrie and put a stop work order on the project. Mr. Ford added there was agreement in the property file dated September 27, 1989 that allowed a porch to be built on the city property. The agreement was called an "Irrevocable License for Encroachment." The last sentence of the agreement stated "in the event the existing improvements on the benefitted property were removed and the existing encroachment no longer exists then the license granted herein shall terminate and be of no other force and affect. Mr. LePetrie is now seeking relief from the Council.

Mr. LePetrie, 110 Cherry Street, explained his structural engineer was not in agreement with Mr. Ford's decision that the balcony was completely removed. He handed out pictures

of the property that were taken prior to the commencement of construction. When he purchased the house the condition of the hangers on the balcony was very poor. He pointed out an example shown in the pictures he presented of the settlement of the front crossbeams. He felt it was state of emergency and needed to be fixed quickly. They removed the beams and the joists but did not remove the entire structure contrary to Mr. Ford's decision. All that was removed was the second floor balcony beams, joist and decking. There was also some old plywood the previous owner had used for a ceiling that he decided to dispose of. They also replaced the decking and the trim. They were not increasing the footprint of the structure. They were putting everything back in the exact same spot that was in. He asked the Council for relief from the decision of Mr. Ford that this was a total replacement and not a repair of the structure.

Mayor Pruette asked if the vertical posts remained in place. Mr. LePetrie responded "yes."

Vice Mayor Jolly asked Mr. Ford to read the last sentence of the Irrevocable License Agreement. Mr. Ford read aloud "In the event the existing improvements on the benefited property are removed and the existing encroachment no longer exists then the license granted herein shall terminate and be of no further force and effect." Mr. Ford added that is a nonconforming property and the Code does not allow a structure to be rebuilt if is torn down on a nonconforming property.

Mayor Pruette asked if the part on the City easement was removed. Mr. Ford replied the three white posts were the only things left of the balcony. Mr. LePetrie stated that was "untrue" there is a ground porch that remained in place that matches the footprint of the balcony.

Councilor Tucker stated she went by to look at the property and felt the balcony should be considered a repair in lieu of a replacement. She added that the City should take into consideration that people are trying to improve older homes in the community.

Councilor Arthur asked if the specific nonconformity was on the city easement. Mr. Ford replied "yes", it is eight inches on the city right of way, basically in the street. Arthur asked if the other conformities were within the setback to which Mr. Ford also replied "yes."

Mr. Ford explained there are three issues dealing with the property: 1) it is nonconforming and does not meet the setback requirements, 2) the permit was for a repair and the scope of work went beyond a repair, which falls under the Florida Building Code, and 3) the Irrevocable License Agreement. The major issue he has is that the property owner went beyond the scope of the permit.

City Attorney Krechowski cautioned the Council that this was not within their jurisdiction and they had very little authority in this situation. Mr. Ford mentioned there are Florida Building Code issues and that has to be handled at the State level. If Mr. LePetrie felt the administrative decision made by Building Official Ford there is an appeal process for that. He would need to further investigate the issue of the Irrevocable License Agreement. If the porch or lower portion of the deck remains there is still an encroachment and the agreement would remain in effect.

Mayor Pruette felt it was good for the Council to hear the situation and be aware of some of the things that may need to be addressed in the Land Development Regulations.

Councilor Arthur suggested placing land use issues on a future workshop meeting agenda. City Manager Jarboe stated after the budget hearings the Council could start to workshop land uses and nonconformities in general.

City Attorney Krechowski advised his view of the encroachment issue is that if the bottom portion of the balcony remained then the encroachment remains and the agreement is still effect. The property owner can appeal Mr. Ford's decision that the project was a "replacement" verses a "repair." If the Board determines it to be a "replacement then the property owner can apply for a variance if it is determined that the balcony was replaced.

Councilor Wiley stated in his opinion it was a "repair."

Mr. LePetrie stated he had an issue with being accused of going above and beyond the scope of the permit. The permit was to "replace structural connectors" which is exactly what they did.

Mayor Pruette asked the LePetrie's to meet with the Community Development Director and decide which action they would like to take.

Heather LePetrie, 110 Cherry Street, stated they never received anything in writing regarding the issue. Mr. Ford asked them to stop work and they did however, there is nothing writing to explain what they were actually doing wrong.

Mr. Ford explained the building department always tries to work with people before putting anything in writing. Once they start a written record they would have to take them to the Code Enforcement Board. He tried to work with them, six month went by and nothing had happened. That is how we got where we are today.

City Attorney Krechowski stated the decision needed to be in writing otherwise Mr. LePetrie has nothing to appeal. Mr. Ford replied it was all voluntary.

City Manager Jarboe stated there was a voluntary stop work order. If they start the work again Mr. Ford will file a stop work order in writing and they can appeal it.

Mayor Pruette suggested the City Attorney, City Manager and Building Official met with the LePetrie's to let them know how to they can facilitate the problem.

City Manager Jarboe stated the LePetrie's thought the Council could make the decision. They will meet with him to over the options.

Mr. LePetrie stated after Mr. Ford stopped work on the project they set up a meeting and discussed it. He also requested a pre-permit application meeting, by email, but there was no response.

MINUTES
SPECIAL CITY COUNCIL MEETING
AUGUST 18, 2014 AT 8:10 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Special Meeting of the City Council of the City of Neptune Beach was held August 18, 2014 at 8:10 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

Assistant Chief Tony Carrillo
Director for Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Services Leon Smith
Community Development Director Amanda Askew

Order Call

Mayor Pruette called the special meeting to order at 8:10 p.m.

Ord. No. 2014-14

ORDINANCE NO. 2014-14, AMENDING CHAPTER 27, NONCONFORMING SIGNS, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA, CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XV ADVERTISING SECTION 27-592 NONCONFORMING SIGNS AND ARTICLE XVII NONCONFORMING LOTS, STRUCTURES, USES AND SIGNS, SECTION 27-707 NONCONFORMING SIGNS AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated the consensus was to extend the deadline mandating monument signs for an additional 180 days.

City Attorney Krechowski explained the ordinance for the April 3, 2014 deadline was suspended for up to 180 days. The suspension of the ordinance was extended for another 180 days. To extend the suspension for an additional 180 days there must be a majority four out of five vote of the council.

Councilor Wiley stated based on the consensus he would withdraw the ordinance for first read and have council vote on the extension.

Moved by Councilor Wiley, seconded by Tucker

Motion: **TO EXTEND THE SIGN AGREEMENT FOR SIX MONTHS FROM THE DATE OF SEPTEMBER 3RD.**

City Attorney Krechowski stated this would extend the suspension of the ordinance for an additional 180 days from September 3rd.

Councilor Wiley asked when the ordinance would be before the Community Development Board. City Clerk Volpe replied Wednesday, August 20th.

Mayor Pruette asked City Clerk Volpe to make a list of questions and concerns for the board.

City Attorney Krechowski stated when the recommendations are received from the board he would make the changes to the ordinance for council consideration.

Vice Mayor Jolly voiced concern regarding the advertising requirements. City Attorney Krechowski advised the requirement had been met.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

Councilor Arthur asked what the dates were for the September meetings. City Clerk Volpe replied a budget workshop meeting and regular meeting will be held on September 2nd. A special meeting to pass the millage and the budget on first read will be on September 8th. The second and final read of the millage and budget meeting will be on September 22nd along with the September workshop meeting.

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette stated there were still ants on the beach crosswalks. City Manager Jarboe replied Atlantic Beach does not exterminate for ants because the ants do not bite. They also kill the fire ants. He has applied more pesticide.

City Clerk Volpe advised the audio for the Council meetings were now on the website. They are located on both the agenda page and the minutes' page.

Vice Mayor Jolly questioned the dates for the September meetings. City Clerk Volpe stated the September meetings would be held on September 8th and 22nd.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- There was an issue with a refrigerator that was in the marsh, it has since been removed.
- The budget was in process and the meetings for the public hearings would be September 8th and 22nd. The budget will be on the August workshop meeting agenda for review of the General Fund and the Water and Sewer Fund.
- He passed out a form showing the complaints received through the website portal and the dates in which they were closed.

Mayor Pruette asked City Manager Jarboe to put a better description of the code violation on the report for the citizen portal.

Councilor Wiley also requested that more details of the code violation be noted in the report.

City Manager Jarboe advised he would add more information regarding the code violation. The system is still in the learning process.

Councilor Arthur questioned the process of the construction on the new office building located in Town Center on the corner of Second Street and Atlantic Boulevard. City Manager Jarboe stated construction should begin this month. The owner speculates the project will be completed before the end of this year.

Councilor Arthur asked if there has been any response to the Mayor's letter to Rad Lovett regarding additional parking in Town Center. City Manager Jarboe responded "no" he has not received a response.

City Attorney Krechowski advised he has not been contacted by the City of Jacksonville Office of the General Counsel regarding the tipping fee issue.

COMMENTS FROM THE PUBLIC

Rory Diamond, 120 Davis Street, voiced concern that "Veteran Status" was not on the City's employment applications and asked Council to consider adding the status to the application.

MOTION CARRIED

VARIANCES

V14-04
107 North Street

VARIANCE APPEAL, V14-04, 107 NORTH STREET, BRYAN AND WENDY MCDONALD:
Mayor Pruette explained the variance request of Bryan and Wendy McDonald, 107 North Street, was approved by the Community Development Board at their June 11, 2014 meeting. The approval of the variance is being appealed by their neighbors, John and Susan Wittingslow, 109 North Street.

Mayor Pruette, Councilor Arthur, Councilor Tucker, and Council Wiley all declared they had ex parte communication with Bryan McDonald. Vice Mayor Jolly stated he went by the property but did not speak with the property owners.

City Attorney read aloud Section 27-153(c) of the Code for the benefit of Council: "The City Council shall review the hearing conducted by the community development board. No new evidence may be presented unless it pertains to events or circumstances which have substantially changed since the community development board decision. The city council shall uphold the decision of the community development board. No new evidence may be presented unless it pertains to events or circumstances, which have substantially changed since the community development board decision. The city council shall uphold the decision of the community development board unless the council finds that: 1) Defects in notice of procedural due process are alleged and proven; or 2) The decision of the community development board is not supported by competent substantial evidence and testimony produced at the public hearing; or 3) New evidence is available because of substantial changes in circumstance. (d) The city council must affirm, modify, or reverse, each appeal of a variance."

City Attorney Krechowski then stated the City Council had 3 options: 1) affirm the decision of the Board, 2) modify the decision or 3) reverse the decision.

Mayor Pruette asked each Council Member how they felt about the appeal.

Councilor Tucker, Councilor Wiley, Councilor Arthur and Vice Mayor Jolly stated they all agreed with the board's decision and affirmed the action of the board.

Mayor Pruette also agreed with the board's decision and affirmed the action of the board.

Moved by Pruette, seconded by Tucker.

Motion: **TO AFFIRM THE COMMUNITY DEVELOPMENT BOARD'S DECISION AS STATED IN THEIR ENTIRE MOTION.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

ORDINANCES

Ord. No. 2014-14 ORDINANCE NO. 2014-14, AMENDING CHAPTER 27, NONCONFORMING SIGNS, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA, CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XV ADVERTISING SECTION 27-592 NONCONFORMING SIGNS AND ARTICLE XVII NONCONFORMING LOTS, STRUCTURES, USES AND SIGNS, SECTION 27-707 NONCONFORMING SIGNS AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read Ordinance No. 2014-14 by title only.

City Manager Jarboe explained this Ordinance allows the ten year deadline for monument sign compliance that was adopted in April 2004 and should have expired April 2014, but was extended 180 days, to be lifted.

City Attorney Krechowski stated he revised the last edition of the proposed ordinance to add the changes from previous Council meeting discussions. The ten year deadline would be eliminated and Section 27-592(3) would be the trigger for having to come into compliance. He did not receive any feedback from Council regarding the fines for violations other than making it high enough to sting. He proposed the following fines for violations: first offense \$500, second offense \$1,000 and the third and subsequent offense would be \$1,500. He also made a change in Section 27-592(5) changing the word "Chapter" to "Section."

City Manager Jarboe stated the limited fines for code violations are \$250.00 and \$500.00. He asked if that would have an effect on the fines for this violation. City Attorney Krechowski explained those fines were per day, this would be a onetime fine citation.

City Manager Jarboe suggested adding: "A civil citation may be issued by the City Manager or his designee." He would like to evaluate the situation before a citation is issued.

City Attorney Krechowski requested this Ordinance be reviewed by the Community Development Board in August. The 180 day extension to comply expires in September.

Mayor Pruette opened the public hearing, there being no comments from the public, the public was closed.

Moved by Wiley, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2014-14 ON FIRST READ.**

Councilor Wiley state he was satisfied with the fines being set at \$500.00, \$1,000.00 and \$1,500.

City Manager Jarboe asked if the Council planned on discussion this further at a workshop meeting. Mayor Pruette stated that was one of the questions she had.

Councilor Arthur suggested adding a clearer definition of "abandoned signs."

City Attorney Krechowski asked to have input from the Community Development Board regarding the definition of "abandoned signs."

Councilor Arthur questioned if someone were issued a civil citation for a first violation and had to come into compliance why would there be a need for a second and third violation.

City Attorney Krechowski explained the second and third offense fines were for a repeat of unpermitted activities to the sign. For example, one could install a sign without obtaining a permit and receive a \$500.00 citation, then they could obtain a permit and construct the sign beyond the scope of the permit and therefore they would receive a fine for the second violation and any other subsequent violation.

Mayor Pruette reminded the Council this was not a workshop meeting. She suggested placing it on the August workshop and if needed call a special meeting immediately after the workshop meeting for first read.

Councilor Wiley withdrew his motion

Councilor Tucker was concerned how this would be communicated to the businesses in a business friendly matter, and how it would be enforced. City Attorney Krechowski replied it would be enforced by the Code Enforcement Board.

Vice Mayor Jolly stated he had a lot of problems he would like to discuss and agreed with discussing the ordinance further at the August workshop. He added the he had requested at the last meeting to include a clear definition of "branding" and that was not put into this proposed ordinance. He asked that the definition be included in the August workshop edition.

City Attorney Krechowski cautioned against opening the entire section up again because the decision had to be made by September the 3rd.

Councilor Wiley concluded this proposed Ordinance amended the original Section 27-592(1)(2)(3) and (4) to remain the same, (5) was removed, and adding fines for violations. During this discussion Council would like to add the definition of "abandoned signs" and "branding." He felt no other changes should be discussed at the August workshop meeting.

Consensus: **FORWARD TO THE COMMUNITY DEVELOPMENT BOARD FOR THEIR INPUT AND FORWARD TO THE AUGUST WORKSHOP MEETING AND HOLD A SPECIAL MEETING IMMEDIATELY FOLLOWING THE WORKSHOP MEETING TO VOTE ON FIRST READ.**

OLD BUSINESS / NONE

NEW BUSINESS

Performance
Evaluations

PERFORMANCE EVALUATION FORM & PROCESS FOR CITY CLERK:

Mayor Pruette asked if everyone had met with the City Clerk as indicated at the July workshop meeting. City Attorney Krechowski advised he had not met with the City Clerk.

Mayor Pruette stated at this meeting she would like Council to approve, disapprove or modify the evaluation form. She added that City Clerk Volpe had prepared a memorandum and placed it before them tonight regarding information and feedback that she received during the individual meetings with Council. Mayor Pruette was not prepared to review the memorandum because it was just given to her tonight.

Vice Mayor Jolly stated the City Clerk's memorandum provided information he suggested to her that he felt should be added to the form. There is a section on the evaluation form called "recording and training" that states: "The City Clerk is to provide an annual report to Council on status of office, including budget and resources needs or overages; provide public records training and introduction to City Clerk office to any and all new Council members and board members." He would like the City Clerk to prepare that annual report one month before the date of the evaluation.

City Attorney Krechowski asked Vice Mayor Jolly if he was saying the City Clerk should provide an annual report to Council one month prior to the evaluation. Vice Mayor Jolly responded the Council is supposed to evaluate the City Clerk based on the report, therefore they need to have the report before they can complete an evaluation.

Councilor Arthur asked once the evaluation is completed this year if this procedure is expected to be conducted once per year. Mayor Pruette stated the memorandum from the City Attorney provided that the performance schedule could be amended by the Council at any time.

Councilor Arthur asked if the hours and attendance were included in the contract. City Clerk Volpe responded she did not have an employment contract. Councilor Arthur asked if the City Clerk's hours were documented anywhere. City Attorney Krechowski advised that would fall under full time employees. City Manager Jarboe added that each employee's hours varied based on the position. He added there is not a policy and traditionally the hours of the City Clerk are nine to five.

Mayor Pruette stated the Council should already be aware of the hours of the City Clerk. She felt it was the City Clerk's duty to provide that information to the Council and it has not been provided to them. She stated it was time for the Council to know what was going on.

City Attorney Krechowski asked if Council wanted to determine a number rating system as suggested in the City Clerk's memorandum. Councilor Arthur stated each duty in the job evaluation should have a number assigned so the numbers could be averaged and finalized. City Attorney Krechowski stated he would add a number rating system to the form.

Mayor Pruette asked if Council wanted to have the City Attorney incorporate the items on the memorandum from the City Clerk for the August workshop meeting, have Council complete the forms and include them in the agenda packet for discussion at the October workshop meeting.

City Attorney Krechowski asked Council members if they had an issue with any of the items listed in memorandum to make him aware, otherwise he will incorporate them in the form.

Mayor Pruette stated Council needed to determine the date of the annual evaluation. Councilor Wiley suggested the performance review be completed by Council based on the fiscal year. It may be better to conduct the evaluation annually in August.

Vice Mayor Jolly stated he would prefer to conduct the evaluation in October of this year after the report is received from the City Clerk a month before the evaluation.

City Attorney Krechowski concluded the City Clerk would provide a report in October after the fiscal year is completed based on the course of the year and be evaluated in October based on the report.

City Attorney Krechowski suggested placing the completed evaluation forms in the October workshop agenda packet for Council discussion.

VARIANCE APPEAL, V14-04, 107 NORTH STREET, BRYAN AND WENDY MCDONALD:
Mayor Pruette explained the variance request of Bryan and Wendy McDonald, 107 North Street, was approved by the Community Development Board at their June 11, 2014 meeting. The approval of the variance is being appealed by their neighbors, John and Susan Wittingslow, 109 North Street.

Mayor Pruette, Councilor Arthur, Councilor Tucker, and Council Wiley all declared they had ex parte communication with Bryan McDonald. Vice Mayor Jolly stated he went by the property but did not speak with the property owners.

City Attorney read aloud Section 27-153(c) of the Code for the benefit of Council: "The City Council shall review the hearing conducted by the community development board. No new evidence may be presented unless it pertains to events or circumstances which have substantially changed since the community development board decision. The city council shall uphold the decision of the community development board. No new evidence may be presented unless it pertains to events or circumstances, which have substantially changed since the community development board decision. The city council shall uphold the decision of the community development board unless the council finds that: 1) Defects in notice of procedural due process are alleged and proven; or 2) The decision of the community development board is not supported by competent substantial evidence and testimony produced at the public hearing; or 3) New evidence is available because of substantial changes in circumstance. (d) The city council must affirm, modify, or reverse, each appeal of a variance."

City Attorney Krechowski then stated the City Council had 3 options: 1) affirm the decision of the Board, 2) modify the decision or 3) reverse the decision.

Mayor Pruette asked each Council Member how they felt about the appeal.

Councilor Tucker, Councilor Wiley, Councilor Arthur and Vice Mayor Jolly stated they all agreed with the board's decision and affirmed the action of the board.

Mayor Pruette also agreed with the board's decision and affirmed the action of the board.

Moved by Pruette, seconded by Tucker.

Motion: **TO AFFIRM THE COMMUNITY DEVELOPMENT BOARD'S DECISION AS STATED IN THEIR ENTIRE MOTION.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

MOTION CARRIED

ORDINANCES

Ord. No. 2014-14 ORDINANCE NO. 2014-14, AMENDING CHAPTER 27, NONCONFORMING SIGNS, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA, CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XV ADVERTISING SECTION 27-592 NONCONFORMING SIGNS AND ARTICLE XVII NONCONFORMING LOTS, STRUCTURES, USES AND SIGNS, SECTION 27-707 NONCONFORMING SIGNS AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read Ordinance No. 2014-14 by title only.

City Manager Jarboe explained this Ordinance allows the ten year deadline for monument sign compliance that was adopted in April 2004 and should have expired April 2014, but was extended 180 days, to be lifted.

City Attorney Krechowski stated he revised the last edition of the proposed ordinance to add the changes from previous Council meeting discussions. The ten year deadline would be eliminated and Section 27-592(3) would be the trigger for having to come into compliance. He did not receive any feedback from Council regarding the fines for violations other than making it high enough to sting. He proposed the following fines for violations: first offense \$500, second offense \$1,000 and the third and subsequent offense would be \$1,500. He also made a change in Section 27-592(5) changing the word "Chapter" to "Section."

City Manager Jarboe stated the limited fines for code violations are \$250.00 and \$500.00. He asked if that would have an effect on the fines for this violation. City Attorney Krechowski explained those fines were per day, this would be a onetime fine citation.

City Manager Jarboe suggested adding: "A civil citation may be issued by the City Manager or his designee." He would like to evaluate the situation before a citation is issued.

City Attorney Krechowski requested this Ordinance be reviewed by the Community Development Board in August. The 180 day extension to comply expires in September.

Mayor Pruette opened the public hearing, there being no comments from the public, the public was closed.

Moved by Wiley, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2014-14 ON FIRST READ.**

Councilor Wiley state he was satisfied with the fines being set at \$500.00, \$1,000.00 and \$1,500.

City Manager Jarboe asked if the Council planned on discussion this further at a workshop meeting. Mayor Pruette stated that was one of the questions she had.

Councilor Arthur suggested adding a clearer definition of "abandoned signs."

City Attorney Krechowski asked to have input from the Community Development Board regarding the definition of "abandoned signs."

Councilor Arthur questioned if someone were issued a civil citation for a first violation and had to come into compliance why would there be a need for a second and third violation.

City Attorney Krechowski explained the second and third offense fines were for a repeat of unpermitted activities to the sign. For example, one could install a sign without obtaining a permit and receive a \$500.00 citation, then they could obtain a permit and construct the sign beyond the scope of the permit and therefore they would receive a fine for the second violation and any other subsequent violation.

Mayor Pruette reminded the Council this was not a workshop meeting. She suggested placing it on the August workshop and if needed call a special meeting immediately after the workshop meeting for first read.

Councilor Wiley withdrew his motion

Councilor Tucker was concerned how this would be communicated to the businesses in a business friendly matter, and how it would be enforced. City Attorney Krechowski replied it would be enforced by the Code Enforcement Board.

Vice Mayor Jolly stated he had a lot of problems he would like to discuss and agreed with discussing the ordinance further at the August workshop. He added the he had requested at the last meeting to include a clear definition of "branding" and that was not put into this proposed ordinance. He asked that the definition be included in the August workshop edition.

City Attorney Krechowski cautioned against opening the entire section up again because the decision had to be made by September the 3rd.

Councilor Wiley concluded this proposed Ordinance amended the original Section 27-592(1)(2)(3) and (4) to remain the same, (5) was removed, and adding fines for violations. During this discussion Council would like to add the definition of "abandoned signs" and "branding." He felt no other changes should be discussed at the August workshop meeting.

Consensus: **FORWARD TO THE COMMUNITY DEVELOPMENT BOARD FOR THEIR INPUT AND FORWARD TO THE AUGUST WORKSHOP MEETING AND HOLD A SPECIAL MEETING IMMEDIATELY FOLLOWING THE WORKSHOP MEETING TO VOTE ON FIRST READ.**

Performance
Evaluations

PERFORMANCE EVALUATION FORM & PROCESS FOR CITY CLERK:

Mayor Pruette asked if everyone had met with the City Clerk as indicated at the July workshop meeting. City Attorney Krechowski advised he had not met with the City Clerk.

Mayor Pruette stated at this meeting she would like Council to approve, disapprove or modify the evaluation form. She added that City Clerk Volpe had prepared a memorandum and placed it before them tonight regarding information and feedback that she received during the individual meetings with Council. Mayor Pruette was not prepared to review the memorandum because it was just given to her tonight.

Vice Mayor Jolly stated the City Clerk's memorandum provided information he suggested to her that he felt should be added to the form. There is a section on the evaluation form called "recording and training" that states: "The City Clerk is to provide an annual report to Council on status of office, including budget and resources needs or overages; provide public records training and introduction to City Clerk office to any and all new Council members and board members." He would like the City Clerk to prepare that annual report one month before the date of the evaluation.

City Attorney Krechowski asked Vice Mayor Jolly if he was saying the City Clerk should provide an annual report to Council one month prior to the evaluation. Vice Mayor Jolly responded the Council is supposed to evaluate the City Clerk based on the report, therefore they need to have the report before they can complete an evaluation.

Councilor Arthur asked once the evaluation is completed this year if this procedure is expected to be conducted once per year. Mayor Pruette stated the memorandum from the City Attorney provided that the performance schedule could be amended by the Council at any time.

Councilor Arthur asked if the hours and attendance were included in the contract. City Clerk Volpe responded she did not have an employment contract. Councilor Arthur asked if the City Clerk's hours were documented anywhere. City Attorney Krechowski advised that would fall under full time employees. City Manager Jarboe added that each employee's hours varied based on the position. He added there is not a policy and traditionally the hours of the City Clerk are nine to five.

Mayor Pruette stated the Council should already be aware of the hours of the City Clerk. She felt it was the City Clerk's duty to provide that information to the Council and it has not been provided to them. She stated it was time for the Council to know what was going on.

City Attorney Krechowski asked if Council wanted to determine a number rating system as suggested in the City Clerk's memorandum. Councilor Arthur stated each duty in the job evaluation should have a number assigned so the numbers could be averaged and finalized. City Attorney Krechowski stated he would add a number rating system to the form.

Mayor Pruette asked if Council wanted to have the City Attorney incorporate the items on the memorandum from the City Clerk for the August workshop meeting, have Council complete the forms and include them in the agenda packet for discussion at the October workshop meeting.

City Attorney Krechowski asked Council members if they had an issue with any of the items listed in memorandum to make him aware, otherwise he will incorporate them in the form.

Mayor Pruette stated Council needed to determine the date of the annual evaluation. Councilor Wiley suggested the performance review be completed by Council based on the fiscal year. It may be better to conduct the evaluation annually in August.

Vice Mayor Jolly stated he would prefer to conduct the evaluation in October of this year after the report is received from the City Clerk a month before the evaluation.

City Attorney Krechowski concluded the City Clerk would provide a report in October after the fiscal year is completed based on the course of the year and be evaluated in October based on the report.

City Attorney Krechowski suggested placing the completed evaluation forms in the October workshop agenda packet for Council discussion.

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette stated there were still ants on the beach crosswalks. City Manager Jarboe replied Atlantic Beach does not exterminate for ants because the ants do not bite. They also kill the fire ants. He has applied more pesticide.

City Clerk Volpe advised the audio for the Council meetings were now on the website. They are located on both the agenda page and the minutes' page.

Vice Mayor Jolly questioned the dates for the September meetings. City Clerk Volpe stated the September meetings would be held on September 8th and 22nd.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- There was an issue with a refrigerator that was in the marsh, it has since been removed.
- The budget was in process and the meetings for the public hearings would be September 8th and 22nd. The budget will be on the August workshop meeting agenda for review of the General Fund and the Water and Sewer Fund.
- He passed out a form showing the complaints received through the website portal and the dates in which they were closed.

Mayor Pruette asked City Manager Jarboe to put a better description of the code violation on the report for the citizen portal.

Councilor Wiley also requested that more details of the code violation be noted in the report.

City Manager Jarboe advised he would add more information regarding the code violation. The system is still in the learning process.

Councilor Arthur questioned the process of the construction on the new office building located in Town Center on the corner of Second Street and Atlantic Boulevard. City Manager Jarboe stated construction should begin this month. The owner speculates the project will be completed before the end of this year.

Councilor Arthur asked if there has been any response to the Mayor's letter to Rad Lovett regarding additional parking in Town Center. City Manager Jarboe responded "no" he has not received a response.

City Attorney Krechowski advised he has not been contacted by the City of Jacksonville Office of the General Counsel regarding the tipping fee issue.

COMMENTS FROM THE PUBLIC

Rory Diamond, 120 Davis Street, voiced concern that "Veteran Status" was not on the City's employment applications and asked Council to consider adding the status to the application.

VARIANCES

V14-04
107 North Street

VARIANCE APPEAL, V14-04, 107 NORTH STREET, BRYAN AND WENDY MCDONALD:
Mayor Pruette explained the variance request of Bryan and Wendy McDonald, 107 North Street, was approved by the Community Development Board at their June 11, 2014 meeting. The approval of the variance is being appealed by their neighbors, John and Susan Wittingslow, 109 North Street.

Mayor Pruette, Councilor Arthur, Councilor Tucker, and Council Wiley all declared they had ex parte communication with Bryan McDonald. Vice Mayor Jolly stated he went by the property but did not speak with the property owners.

City Attorney read aloud Section 27-153(c) of the Code for the benefit of Council: "The City Council shall review the hearing conducted by the community development board. No new evidence may be presented unless it pertains to events or circumstances which have substantially changed since the community development board decision. The city council shall uphold the decision of the community development board. No new evidence may be presented unless it pertains to events or circumstances, which have substantially changed since the community development board decision. The city council shall uphold the decision of the community development board unless the council finds that: 1) Defects in notice of procedural due process are alleged and proven; or 2) The decision of the community development board is not supported by competent substantial evidence and testimony produced at the public hearing; or 3) New evidence is available because of substantial changes in circumstance. (d) The city council must affirm, modify, or reverse, each appeal of a variance."

City Attorney Krechowski then stated the City Council had 3 options: 1) affirm the decision of the Board, 2) modify the decision or 3) reverse the decision.

Mayor Pruette asked each Council Member how they felt about the appeal.

Councilor Tucker, Councilor Wiley, Councilor Arthur and Vice Mayor Jolly stated they all agreed with the board's decision and affirmed the action of the board.

Mayor Pruette also agreed with the board's decision and affirmed the action of the board.

Moved by Pruette, seconded by Tucker.

Motion: **TO AFFIRM THE COMMUNITY DEVELOPMENT BOARD'S DECISION AS STATED IN THEIR ENTIRE MOTION.**

ORDINANCES

Ord. No. 2014-14 ORDINANCE NO. 2014-14, AMENDING CHAPTER 27, NONCONFORMING SIGNS, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA, CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XV ADVERTISING SECTION 27-592 NONCONFORMING SIGNS AND ARTICLE XVII NONCONFORMING LOTS, STRUCTURES, USES AND SIGNS, SECTION 27-707 NONCONFORMING SIGNS AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read Ordinance No. 2014-14 by title only.

City Manager Jarboe explained this Ordinance allows the ten year deadline for monument sign compliance that was adopted in April 2004 and should have expired April 2014, but was extended 180 days, to be lifted.

City Attorney Krechowski stated he revised the last edition of the proposed ordinance to add the changes from previous Council meeting discussions. The ten year deadline would be eliminated and Section 27-592(3) would be the trigger for having to come into compliance. He did not receive any feedback from Council regarding the fines for violations other than making it high enough to sting. He proposed the following fines for violations: first offense \$500, second offense \$1,000 and the third and subsequent offense would be \$1,500. He also made a change in Section 27-592(5) changing the word "Chapter" to "Section."

City Manager Jarboe stated the limited fines for code violations are \$250.00 and \$500.00. He asked if that would have an effect on the fines for this violation. City Attorney Krechowski explained those fines were per day, this would be a onetime fine citation.

City Manager Jarboe suggested adding: "A civil citation may be issued by the City Manager or his designee." He would like to evaluate the situation before a citation is issued.

City Attorney Krechowski requested this Ordinance be reviewed by the Community Development Board in August. The 180 day extension to comply expires in September.

Mayor Pruette opened the public hearing, there being no comments from the public, the public was closed.

Moved by Wiley, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2014-14 ON FIRST READ.**

Councilor Wiley state he was satisfied with the fines being set at \$500.00, \$1,000.00 and \$1,500.

City Manager Jarboe asked if the Council planned on discussion this further at a workshop meeting. Mayor Pruette stated that was one of the questions she had.

Councilor Arthur suggested adding a clearer definition of "abandoned signs."

City Attorney Krechowski asked to have input from the Community Development Board regarding the definition of "abandoned signs."

Councilor Arthur questioned if someone were issued a civil citation for a first violation and had to come into compliance why would there be a need for a second and third violation.

City Attorney Krechowski explained the second and third offense fines were for a repeat of unpermitted activities to the sign. For example, one could install a sign without obtaining a permit and receive a \$500.00 citation, then they could obtain a permit and construct the sign beyond the scope of the permit and therefore they would receive a fine for the second violation and any other subsequent violation.

Mayor Pruette reminded the Council this was not a workshop meeting. She suggested placing it on the August workshop and if needed call a special meeting immediately after the workshop meeting for first read.

Councilor Wiley withdrew his motion

Councilor Tucker was concerned how this would be communicated to the businesses in a business friendly matter, and how it would be enforced. City Attorney Krechowski replied it would be enforced by the Code Enforcement Board.

Vice Mayor Jolly stated he had a lot of problems he would like to discuss and agreed with discussing the ordinance further at the August workshop. He added the he had requested at the last meeting to include a clear definition of "branding" and that was not put into this proposed ordinance. He asked that the definition be included in the August workshop edition.

City Attorney Krechowski cautioned against opening the entire section up again because the decision had to be made by September the 3rd.

Councilor Wiley concluded this proposed Ordinance amended the original Section 27-592(1)(2)(3) and (4) to remain the same, (5) was removed, and adding fines for violations. During this discussion Council would like to add the definition of "abandoned signs" and "branding." He felt no other changes should be discussed at the August workshop meeting.

Consensus: **FORWARD TO THE COMMUNITY DEVELOPMENT BOARD FOR THEIR INPUT AND FORWARD TO THE AUGUST WORKSHOP MEETING AND HOLD A SPECIAL MEETING IMMEDIATELY FOLLOWING THE WORKSHOP MEETING TO VOTE ON FIRST READ.**

Performance
Evaluations

PERFORMANCE EVALUATION FORM & PROCESS FOR CITY CLERK:

Mayor Pruette asked if everyone had met with the City Clerk as indicated at the July workshop meeting. City Attorney Krechowski advised he had not met with the City Clerk.

Mayor Pruette stated at this meeting she would like Council to approve, disapprove or modify the evaluation form. She added that City Clerk Volpe had prepared a memorandum and placed it before them tonight regarding information and feedback that she received during the individual meetings with Council. Mayor Pruette was not prepared to review the memorandum because it was just given to her tonight.

Vice Mayor Jolly stated the City Clerk's memorandum provided information he suggested to her that he felt should be added to the form. There is a section on the evaluation form called "recording and training" that states: "The City Clerk is to provide an annual report to Council on status of office, including budget and resources needs or overages; provide public records training and introduction to City Clerk office to any and all new Council members and board members." He would like the City Clerk to prepare that annual report one month before the date of the evaluation.

City Attorney Krechowski asked Vice Mayor Jolly if he was saying the City Clerk should provide an annual report to Council one month prior to the evaluation. Vice Mayor Jolly responded the Council is supposed to evaluate the City Clerk based on the report, therefore they need to have the report before they can complete an evaluation.

Councilor Arthur asked once the evaluation is completed this year if this procedure is expected to be conducted once per year. Mayor Pruette stated the memorandum from the City Attorney provided that the performance schedule could be amended by the Council at any time.

Councilor Arthur asked if the hours and attendance were included in the contract. City Clerk Volpe responded she did not have an employment contract. Councilor Arthur asked if the City Clerk's hours were documented anywhere. City Attorney Krechowski advised that would fall under full time employees. City Manager Jarboe added that each employee's hours varied based on the position. He added there is not a policy and traditionally the hours of the City Clerk are nine to five.

Mayor Pruette stated the Council should already be aware of the hours of the City Clerk. She felt it was the City Clerk's duty to provide that information to the Council and it has not been provided to them. She stated it was time for the Council to know what was going on.

City Attorney Krechowski asked if Council wanted to determine a number rating system as suggested in the City Clerk's memorandum. Councilor Arthur stated each duty in the job evaluation should have a number assigned so the numbers could be averaged and finalized. City Attorney Krechowski stated he would add a number rating system to the form.

Mayor Pruette asked if Council wanted to have the City Attorney incorporate the items on the memorandum from the City Clerk for the August workshop meeting, have Council complete the forms and include them in the agenda packet for discussion at the October workshop meeting.

City Attorney Krechowski asked Council members if they had an issue with any of the items listed in memorandum to make him aware, otherwise he will incorporate them in the form.

Mayor Pruette stated Council needed to determine the date of the annual evaluation. Councilor Wiley suggested the performance review be completed by Council based on the fiscal year. It may be better to conduct the evaluation annually in August.

Vice Mayor Jolly stated he would prefer to conduct the evaluation in October of this year after the report is received from the City Clerk a month before the evaluation.

City Attorney Krechowski concluded the City Clerk would provide a report in October after the fiscal year is completed based on the course of the year and be evaluated in October based on the report.

City Attorney Krechowski suggested placing the completed evaluation forms in the October workshop agenda packet for Council discussion.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- He will be taking vacation starting Wednesday, July 23, 2014, and will return Friday, August 1, 2014.
- The Bal Harbour project is close to 25% completed. Progress was slowed due to the recent rainy weather.

Mayor Pruette stated the ants are still invading the beach crosswalks. City Manager Jarboe advised he would have more granules placed at the crosswalks.

Councilor Arthur questioned how many citizens have taken advantage of using the new website portal. City Manager Jarboe replied a total of six citizens have used the portal. There have not been enough complaints to categorize them.

Mayor Pruette asked if there was any new information regarding tipping fees. City Attorney Krechowski advised he will speaking with an attorney at the Jacksonville General Counsel Office. He expected they would ask us to participate in mediation. He will notify the Council after he hears from them.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe stated the consensus list seems to be working and nothing has been accidentally left off the agendas. The new recording system is up and running. The webmaster is working on placing the audio of the meetings on our website.

PUBLIC COMMENTS

Jim Lepetrie, 110 Cherry Street, stated he is in the process of making repairs on his balcony. He disagrees with the Building Official who has interpreted that the balcony is being replaced when in fact it is a repair that needs to be undertaken before the balcony collapses.

Mayor Pruette stated she would place the issue on the August workshop meeting for discussion.

Consensus: **TO PLACE THE BALCONY LOCATED AT 110 CHERRY STREET ON THE AUGUST WORKSHOP AGENDA FOR COUNCIL DISCUSSION.**

Leslie Britt, 1594 Ibis Drive, Orange Park, asked Council to consider withdrawing the proposed Ordinance to ban paragliders on the beach or allow additional time for the paragliders to prove their self regulation guidelines are effective.

Lynda Padrta, 1113 First Street, opposed the proposed ordinance to widen docks. She supported the ordinance to ban paragliding on the beach. She felt improvements to some properties were given an appearance of non-uniformity.

PROPOSED ORDINANCES

Chapter 27
Signs

ORDINANCE NO. 2014-XX: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XV ADVERTISING SECTION 27-592 NONCONFORMING SIGNS AND ARTICLE XVII NONCONFORMING LOTS, STRUCTURES, USES, AND SIGNS, SECTION 27-707 NONCONFORMING SIGNS AND PROVIDING AN EFFECTIVE DATE.

Councilor Wiley stated in 2004 Council adopted an ordinance mandating all pole signs be replaced with monument signs within ten years. The ten year period expired in April 2014, and was extended 180 days with the option to extend the time period for another 180 days. That extended 180 day period expires in September. He recommended removing the following: Section 27-592(5) Notwithstanding the preceding provisions of subsections (1) through (4) above, all signs permitted within commercial and residential zoning districts, pursuant to this article, shall be made to conform with the provisions of this article, as may be amended, ~~within ten (10) years of the initial effective date these regulations as enacted by Ordinance number 2004-01, which date shall be April 5, 2004.~~ His intent is to eliminate the sunset but to leave in the language that requires pole signs to be replaced with monument signs when they are triggered by damages or in need of repairs. This will bring all signs into compliance over a period of time.

City Attorney Krechowski suggested if Council wanted to strike the 10 year period, the best way to do that would be to strike the entire 27-592(5) and leave the language in 27-592(3) regarding non-conforming signs.

Councilor Arthur felt having to replace new signs or signs that are not in need of repairs made no sense. He supported moving the dates to replace signs when they are damaged or in need of repairs.

Councilor Tucker supported deleting 27-592(5). She recommended clarifying what 50% damage was by adding the following language that is used in the City of Jacksonville Beach's Ordinance: Section 27-592(6) If a legal, nonconforming sign is damaged or destroyed by any means to the extent of fifty (50) percent of its replacement value at the time of the damage, the sign may not be rebuilt or used thereafter unless it conforms to all of the provisions of this division. In the event the damage or destruction is less than fifty (50) percent of its replacement value at the time, the sign may be rebuilt to its original condition.

City Manager Jarboe stated staff needed to have a stronger definition of "branding."

City Manager Jarboe added there is the problem of businesses changing out signs without obtaining a permit. He suggested adding the condition that if a permit is not obtained to replace a damaged sign that the property owner must immediately come into compliance of a monument sign.

Councilor Tucker pointed out the extension of the deadline expires in September and something needs to be in place before it expires.

City Attorney Krechowski advised there are three options; 1) have everyone come into compliance with a monument sign, 2) vote to extend the deadline for another 180 days, or 3) change the code.

Vice Mayor Jolly was concerned about fairness to those that have already complied with the monument signs. He agreed that language should be established for those who replace a sign without a permit to have to immediately come into compliance. He also agreed "branding" needed to be better defined. He suggested postponing extending the deadline another 180 days while working on this new ordinance.

Mayor Pruette stated the ordinance was originally adopted to clean up the sign pollution. She agreed there is the issue of fairness, however, she stated no one has approached her regarding the matter. She asked City Attorney Krechowski to make the changes and bring the ordinance back to workshop.

Councilor Wiley questioned how many people have actually come in to obtain a monument sign permit to replace a pole sign because the deadline was approaching. He believed most of them have complied due to the stipulations requirements set forth in 27-592(3).

City Attorney suggested removing Section 27-592(5) for the time being and further workshop the remainder of the language in the ordinance. This will create more time to discuss the contents of the ordinance.

Vice Mayor Jolly asked City Attorney Krechowski to add a penalty for people who do not obtain a sign permit.

Consensus: **TO STRIKE SECTION 27-592(5) AND ADD PENALTY A FOR NOT OBTAINING A PERMIT AND FORWARD TO THE AUGUST REGULAR MEETING FOR FIRST READ.**

Councilor Wiley explained he met with a group of paragliders and some residents who were concerned about the noise and safety of paragliding on the beach. The paragliding pilots are now aware of the complaints and feel they can self regulate with the guidelines they have created. He recommended tabling the proposed ordinance at this time to see if the self regulating guidelines are effective.

Consensus: **TABLE THE PROPOSED ORDINANCE AND SEE HOW IT GOES WITH THE PILOTS SELF REGULATING.**

Environmental
Sensitive Lands

ORDINANCE NO. 2014-XX: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, ARTICLE IV. LAND USE, SECTION 27-243(C)(4) PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS, AND PROVIDING AN EFFECTIVE DATE.

Councilor Wiley explained the Department of Environmental Protection are the keepers of our waterways. Our current ordinance allows for a four foot wide walkway with no handrails to a dock but the Department of Environmental Protection allows a minimum of four foot up to five foot walkways for docks. He recommended amending our ordinance to coincide with the Department of Environmental Protection.

Vice Mayor Jolly stated he is the only Council Member that lives on the marsh. He felt there are two types of people living on the estuary, the dockers and the viewers, and both have rights. He felt this ordinance only benefited the dockers.

Vice Mayor Jolly felt the beauty and pristine view of acres of marsh grass and wildlife should be preserved. He recommended one of the two following amendments:

Sec. 27-243(c)(4) The access walkway of docks shall be a maximum of ~~four (4)~~ five (5) feet in width. The terminal platform of docks (including sitting areas, floating docks and boat storages) shall be a maximum of two hundred (200) square feet. However, for access walkways that are greater than four (4) feet in width, the terminal platform size (including sitting areas, floating docks and boat storage) shall be reduced by the number of additional square feet of access walkway beyond that of a four (4) feet walkway for the same length. Boards used to construct the surface of the dock shall not exceed eight (8) inches in width and shall be spaced at least one-half inch apart.

Sec. 27-243(c)(4) The access walkway of docks shall be a maximum of ~~four (4)~~ five (5) feet in width. The terminal platform of docks (including sitting areas, floating docks and boat storages) shall be a maximum of ~~two hundred (200)~~ one hundred and sixty (160) square feet. Boards used to construct the surface of the dock shall not exceed with (8) inches in width and shall be spaced at least one-half inch apart.

Councilor Tucker supported the ordinance as written to coincide with the Department of Environmental Protection.

Councilor Arthur felt a four foot walkway is very narrow and an additional foot in the width of a dock walkway would not impair the beauty or the wildlife. The language of the ordinance in 2007 was used based on southwest district wetlands not the standards in the northeast district. He disagreed with Vice Mayor Jolly's recommendation and supported the proposed ordinance as written. He added that if the city wants to protect the marsh we should be more concerned about runoff, fertilizers, and nitrogen draining into Hopkins Creek.

Mayor Pruette asked if anyone wanted to consider Vice Mayor Jolly's suggestions. She added this proposed ordinance came about from one property owner wanting to build a five foot wide walkway that was denied by the Community Development Board. She read the following statement from the Board Chairman.

"Regarding the rules of docks, etc. we as leaders of this community cannot simply limit our vision of what seems desirable in the now. We are charged with caretaking of our community's future and its natural resource. What seems reasonable now may turn us into south Florida. In short order, do you realize the University of Miami just sold 88 acres of natural habitat to a developer for building street malls and residential complexes. How soon before everything becomes paved over with concrete. How soon before we become shocked at both the loss of species and water managed options. South Florida is already equivalent to the afore mentioned example but it is intrusive of what can happen if we do not practice conservative principles and again protecting what little remains of our natural resources. There is no denial of access to waterways in this situation. Our ordinance plainly states you have the right to build your dock and it is not uncommon that a local rule can establish tighter regulations than State Statutes because each community may have different needs. In my opinion we need to continue to protect our natural resources whether it be one inch at a time. But to keep giving and giving, it's not about one dock it's about this done down the road and the next dock down the road."

Mayor Pruette also read the following from a citizen:

"To allow the extension of these docks to be even larger sure is only to reduce the quality of natural beauty of the area. A walkway of four foot under the existing ordinance should be more than enough to allow passage anyone would ever need on a dock. To expand the width to five feet is ridiculous. General construction of homes and businesses everywhere require a standard three foot entry for ingress and egress. Our society has long accepted this dimension as a baseline for ingress and egress with the accommodation of everything from people to refrigerators, sofas, wheelchairs, and emergency equipment. If this is acceptable in our homes and businesses why would we continue to grow this number out for a purely part time recreational item that also has a negative impact on our environment? We need to do everything we can inch by inch to protect our environment."

Mayor Pruette stated only one citizen was complaining. He was denied to construct a five foot wide walkway by the Community Development Board by a five to one vote. She felt if the City continued to ignore the boards decisions we should discontinue having a board.

Councilor Arthur stated the board made their decision based on the current code. He felt one extra foot would not damage the marsh.

Councilor Wiley stated the Department of Environmental Protection were experts in their field and they allow five foot docks and 200 square foot platforms.

City Manager advised this ordinance would have to be reviewed by the Community Development Board in August.

Consensus: **FORWARD TO THE SEPTEMBER REGULAR MEETING FOR FIRST READ AND THE COMMUNITY DEVELOPMENT BOARD IN AUGUST.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Evaluation Forms

EVALUATION FORMS FOR THE CITY CLERK & CITY MANAGER: City Attorney Krechowski explained he had combined the two forms from the June workshop meeting per the Council's instruction, using the rating system from one and the duties from the other and added definitions. Council needed to discuss and determine the content of the form and also who would be completing the forms and the procedure.

Vice Mayor Jolly felt the council members, city attorney and city manager should fill out the

form and the evaluation should be done on an annual basis. He suggested each council member meet with the city clerk to prepare and discuss the evaluation and ratings and then present it at a council meeting. Another option would be to perform the evaluation during a council meeting. He personally felt it would be better to meet with the city clerk to prepare the evaluation form and go over it with her before making it public.

Councilor Tucker approved of the evaluation form and meeting with the city clerk individually.

Councilor Wiley agreed with Vice Mayor Jolly's suggestion to meet with the city clerk to review the performance evaluation before making it public.

Councilor Jolly stated he would like to add the performance of tracking the complaints on the new city complaint portal.

Mayor Pruette asked council members if they were aware of the city clerk's duties and job description. She felt it would be hard to conduct an evaluation of the city clerk if everyone was not aware of the duties and job description. She suggested each council member meet with the city clerk and have her explain to them her job description and duties.

City Clerk Volpe agreed with Mayor Pruette that would be a good idea as well as having an introductory meeting with new council members.

City Attorney Krechowski reaffirmed that the council would like to meet with the city clerk individually to conduct the performance review and discuss the conclusions and ratings at a council meeting.

Councilor Jolly suggested adding the rating of "not applicable" to the rating system because there are some items on the form that are not applicable on an annual basis specifically the duties for elections.

Mayor Pruette suggested another area for N/A would be "staff development."

City Clerk Volpe stated this would be a difficult process. She suggested meeting with her one on one to go over the job description and set some guidelines and after six months meet with her again to conduct the evaluation then review it at a council meeting.

Mayor Pruette stated she would like council to be provided an updated job description. City Clerk Volpe stated the job description was updated this past April.

Councilor Arthur stated he supported adding: management of the website portal, introduction of new council members, and the rating of "not applicable".

City Clerk Volpe stated the website portal is managed through the city manager's office. City Clerk Volpe explained she would be responsible for anything relating to her department. City Manager Jarboe stated the website portal does not relate to the city clerk's job.

City Attorney Krechowski advised he would amend the form as requested by council and prepare an introductory memorandum setting forth the process to present at the August regular meeting.

EACH COUNCIL MEMBER TO MEET WITH THE CITY CLERK TO DISCUSS THE DUTIES AND JOB DESCRIPTION OF THE CITY CLERK.

City Manager

CITY MANAGER EVALUATION: City Attorney Krechowski explained the City Manager's

performance evaluation will be different from the City Clerk's because he has a contract. The terms of the contract state that performance standards were suppose to be set in place but that did not happen. The contract actually was for five years and it expired in 2009 but it has an automatic renewal every 180 days. City Manager Jarboe drafted a list of specific goals and objectives to be evaluated on for a budget year. The contract was written by the city in 2004 and accepted by Mr. Jarboe.

City Manager Jarboe felt the most important actions the Council does every year is the public hearings for milage, adopting the budget and setting forth a Council Policy Statement. The most important thing the City Manager does every year is to carry out the Council Police Statement. Therefore, the most single important thing to base the evaluation on would be how well the City Manager has carried out the Council Policy Statement This practice is accepted in the industry and government.

Councilor Wiley stated the contract calls for the City Council to meet with the City Manager to discuss goals, visions and policy. He felt the Council needed to meet with the City Manager to discuss goals and what the Council expects from him over and above what is being done now.

Mayor Pruette felt the performance evaluation was long overdue.

City Manager Jarboe stated his door was always open for Council. He has been meeting with Council one on one for the past ten years. Council should be aware of what is happening with their concerns. The issue is how a contracted evaluation is performed.

Mayor Pruette added when the council meets with the City Manager one on one they do not hear the thoughts of the other council members. She felt it was important to do it at a public hearing where everyone could hear everyone else's thoughts.

Councilor Arthur suggested using the same format as the City Clerk. He did feel the city portal was important to add to the form to find out if citizens complaints are being responded to, addressed and closed out.

Councilor Tucker agreed with the using the same format as the City Clerk adding the city portal complaints.

Councilor Jolly suggested adding the "4th of July" to the City Manager's evaluation form. He felt the council should make sure goals and objectives are set for the City Manager to give him direction before conducting a performance evaluation to determine if the goals and objectives were accomplished.

Mayor Pruette stated "resolve the solid waste tipping fee issue with the City of Jacksonville" was on the list. She felt it should be left off the list because it was out of the City Manager's control. City Manager Jarboe stated he disagreed because if it has to go to mediation the City Manager and City Attorney would be involved. City Attorney Krechowski felt the goals and objectives regarding the tipping fees should be to keep Council advised and continue to communicate with Atlantic Beach and Jacksonville working on the issue. Whether anything is accomplished over the next twelve months is out of the City Manager's control.

Mayor Pruette asked City Attorney Krechowski to remove the word "resolve" from that particular goal and objective. City Attorney Krechowski stated he would reword the goal.

Council Tucker questioned if the City Attorney was recommending the Council write a new contract before the end the current renewal date. City Attorney Krechowski replied that was up to the Council whether or not they wanted to discuss that issue. If Council did not want the contract to automatically renew they would need to give the City Manager a 180 day

notice.

Mayor Pruette asked if Council wanted to consider giving the City Manager a 180 notice to cease the automatic renewal. Vice Mayor Jolly stated he was not interested in considering a new contract at this time.

Surplus Items

SURPLUS ITEMS / DUMP TRUCK: City Manager Jarboe stated Public Service no longer uses the dump truck because the trash pickup provider is now hauling the sludge to the landfill. He would like to surplus the vehicle and put the \$20,000 into the water and sewer fund.

Consensus: **FORWARD TO THE AUGUST REGULAR MEETING CONSENT AGENDA.**

Property
Abandonment

PROPERTY ABANDONMENT / PAUL WEST / 593 MARGARET STREET: Paul West, 593 Margaret Street, stated he would like the city to abandon the city owned property adjacent to his property, that is a ditch. He stated he has spent his own time and money trying to maintain the property. He asked the city to provide a quit claim deed to him so that he can continue to maintain the property. He added there are no utilities or city infrastructure on the property.

City Attorney Krechowski stated he provided copies of Section 18-5. Abandoning of private use of public property or rights-of-way for the council to review.

City Manager Jarboe stated the ditch was the property of the Florida Department of Transportation and it has been a constant problem getting them to clean it up the ditch. If Council wants to consider abandoning the property the first step would be to get a survey to determine what portion of the property the city owns and also to determine the value of the property.

Mr. Paul West advised the current survey is 13 months old. It shows the city property goes out to the middle of the ditch. He would like to plant an evergreen there to stabilize that side of the ditch so there are no more erosion problems.

Councilor Arthur supported the abandonment. He stated he would like an updated survey and felt the value could be determined by a certified property appraiser.

City Manager Jarboe added once the survey is complete it may require meeting with the FDOT to find out if they want a portion of the ditch to stabilize the bank for flow of their water because the inlets from Jacksonville Beach go through there.

Mr. West stated FDOT owns the west side of the ditch. Once a month they come out and cut that side of the bank. The east side has a hodgepodge of ownership. The city still owns three or four of the properties.

Councilor Tucker stated FDOT would need to be contacted. City Manager Jarboe stated once the survey was complete he would contact FDOT if he needed to.

Councilor Wiley stated he would like to know if the city had abandoned other portions of the ditch.

City Manager Jarboe stated if there was a consensus to move forward he would get the survey and meet with the City Attorney to prepare for council to consider at the next meeting.

Consensus: **FORWARD TO THE AUGUST WORKSHOP MEETING.**

July 4th Report

JULY FOURTH AFTER ACTION REPORT: Chief Sembach stated the City will have to pay the additional police officers that were hired for the fourth of July time and half. He should receive the invoice in August.

There were a total of 106 calls to the police department over the three day period of July 4th, July 5th, and July 6th. There are normally only 20 to 30 calls during the weekend. Police Officers wrote 39 uniform traffic citations, 32 parking citations, and 13 warning citations. There were two warnings and two municipal ordinance citations written for noise complaints. There were three warning citations for trespassing and two "notice to appear" issued for drinking in public. There were also five calls for fighting.

A five year old boy went missing just before dark at Orange Street. He was found 20 minutes later down by Seagate Avenue.

The Jacksonville Sheriff's Officers were surprised by the crowd at the beach, they had no idea that so many people came to Neptune Beach to celebrate the 4th of July.

Mayor Pruette stated our Public Safety Department did a good job keeping people moving and from blocking streets and sidewalks. She added the event would only get worse in the future.

Councilor Tucker stated the City of Jacksonville Beach has started issuing bracelets to children on the beach in case they get lost. She asked if Neptune Beach could also participate. Chief Sembach responded he has already ordered 500 of the bracelets.

Councilor Arthur asked if the Chief felt like he was overstaffed or understaffed during the three day event. Chief Sembach replied he did not feel overstaffed on Friday, but he felt he was little overstaffed on Saturday. The event did not carry into Saturday as he had expected.

PUBLIC COMMENTS

Ramsey Bakkar, 320 North First Street, Suite 706, Jacksonville Beach, supported the City issuing fines for people that did not obtain sign permits over requiring them to comply with a monument sign.

Lynda Padrta, 1113 First Street, felt the fine for not obtaining a sign permit should be heavy. She felt that a 110 square foot deck was large enough. She added that the Department of Environment Protection and the State did not own Neptune Beach and they cannot tell us how to run our City. She was concerned about how well the paragliders would regulate themselves.

Rick Sauls, 126 Cedar Street, felt signs that were in good condition should not have to be removed to comply with monument signs and should have to comply when they need to be replaced. He felt the July 4th holiday went well with the extra police officers.

Paul Shea, 1826 Nightfall Drive, felt the problem with Hopkins Creek was not docks, it is the bottles, trash, etc. that is the problem.

COUNCIL COMMENTS / NONE

Adjournment

There being no further business, the meeting adjourned at 8:15 p.m.

Harriet Pruetto, Mayor

Attest:

Lisa Volpe, CMC, City Clerk

Approved: _____

**MINUTES
WORKSHOP CITY COUNCIL MEETING
JULY 21, 2014 AT 6:00 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held July 21, 2014, at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Manager Jim Jarboe
City Attorney Patrick Krechowski
City Clerk Lisa Volpe, CMC

Assistant Chief Tony Carrillo
Director of Public Safety David Sembach
Community Development Director Amanda Askew

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- He will be taking vacation starting Wednesday, July 23, 2014, and will return Friday, August 1, 2014.
- The Bal Harbour project is close to 25% completed. Progress was slowed due to the recent rainy weather.

Mayor Pruette stated the ants are still invading the beach crosswalks. City Manager Jarboe advised he would have more granules placed at the crosswalks.

Councilor Arthur questioned how many citizens have taken advantage of using the new website portal. City Manager Jarboe replied a total of six citizens have used the portal. There have not been enough complaints to categorize them.

Mayor Pruette asked if there was any new information regarding tipping fees. City Attorney Krechowski advised he will speaking with an attorney at the Jacksonville General Counsel Office. He expected they would ask us to participate in mediation. He will notify the Council after he hears from them.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe stated the consensus list seems to be working and nothing has been accidentally left off the agendas. The new recording system is up and running. The webmaster is working on placing the audio of the meetings on our website.

PUBLIC COMMENTS

Jim Lepetrie, 110 Cherry Street, stated he is in the process of making repairs on his balcony. He disagrees with the Building Official who has interpreted that the balcony is being replaced when in fact it is a repair that needs to be undertaken before the balcony collapses.

Mayor Pruette stated she would place the issue on the August workshop meeting for discussion.

Consensus: **TO PLACE THE BALCONY LOCATED AT 110 CHERRY STREET ON THE AUGUST WORKSHOP AGENDA FOR COUNCIL DISCUSSION.**

Leslie Britt, 1594 Ibis Drive, Orange Park, asked Council to consider withdrawing the proposed Ordinance to ban paragliders on the beach or allow additional time for the paragliders to prove their self regulation guidelines are effective.

Lynda Padrta, 1113 First Street, opposed the proposed ordinance to widen docks. She supported the ordinance to ban paragliding on the beach. She felt improvements to some properties were given an appearance of non-uniformity.

PROPOSED ORDINANCES

Chapter 27
Signs

ORDINANCE NO. 2014-XX: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XV ADVERTISING SECTION 27-592 NONCONFORMING SIGNS AND ARTICLE XVII NONCONFORMING LOTS, STRUCTURES, USES, AND SIGNS, SECTION 27-707 NONCONFORMING SIGNS AND PROVIDING AN EFFECTIVE DATE.

Councilor Wiley stated in 2004 Council adopted an ordinance mandating all pole signs be replaced with monument signs within ten years. The ten year period expired in April 2014, and was extended 180 days with the option to extend the time period for another 180 days. That extended 180 day period expires in September. He recommended removing the following: Section 27-592(5) Notwithstanding the preceding provisions of subsections (1) through (4) above, all signs permitted within commercial and residential zoning districts, pursuant to this article, shall be made to conform with the provisions of this article, as may be amended, ~~within ten (10) years of the initial effective date these regulations as enacted by Ordinance number 2004-01, which date shall be April 5, 2004.~~ His intent is to eliminate the sunset but to leave in the language that requires pole signs to be replaced with monument signs when they are triggered by damages or in need of repairs. This will bring all signs into compliance over a period of time.

City Attorney Krechowski suggested if Council wanted to strike the 10 year period, the best way to do that would be to strike the entire 27-592(5) and leave the language in 27-592(3) regarding non-conforming signs.

Councilor Arthur felt having to replace new signs or signs that are not in need of repairs made no sense. He supported moving the dates to replace signs when they are damaged or in need of repairs.

Councilor Tucker supported deleting 27-592(5). She recommended clarifying what 50% damage was by adding the following language that is used in the City of Jacksonville Beach's Ordinance: Section 27-592(6) If a legal, nonconforming sign is damaged or destroyed by any means to the extent of fifty (50) percent of its replacement value at the time of the damage, the sign may not be rebuilt or used thereafter unless it conforms to all of the provisions of this division. In the event the damage or destruction is less than fifty (50) percent of its replacement value at the time, the sign may be rebuilt to its original condition.

City Manager Jarboe stated staff needed to have a stronger definition of "branding."

City Manager Jarboe added there is the problem of businesses changing out signs without obtaining a permit. He suggested adding the condition that if a permit is not obtained to replace a damaged sign that the property owner must immediately come into compliance of a monument sign.

Councilor Tucker pointed out the extension of the deadline expires in September and something needs to be in place before it expires.

City Attorney Krechowski advised there are three options; 1) have everyone come into compliance with a monument sign, 2) vote to extend the deadline for another 180 days, or 3) change the code.

Vice Mayor Jolly was concerned about fairness to those that have already complied with the monument signs. He agreed that language should be established for those who replace a sign without a permit to have to immediately come into compliance. He also agreed "branding" needed to be better defined. He suggested postponing extending the deadline another 180 days while working on this new ordinance.

Mayor Pruette stated the ordinance was originally adopted to clean up the sign pollution. She agreed there is the issue of fairness, however, she stated no one has approached her regarding the matter. She asked City Attorney Krechowski to make the changes and bring the ordinance back to workshop.

Councilor Wiley questioned how many people have actually come in to obtain a monument sign permit to replace a pole sign because the deadline was approaching. He believed most of them have complied due to the stipulations requirements set forth in 27-592(3).

City Attorney suggested removing Section 27-592(5) for the time being and further workshop the remainder of the language in the ordinance. This will create more time to discuss the contents of the ordinance.

Vice Mayor Jolly asked City Attorney Krechowski to add a penalty for people who do not obtain a sign permit.

Consensus: **TO STRIKE SECTION 27-592(5) AND ADD PENALTY A FOR NOT OBTAINING A PERMIT AND FORWARD TO THE AUGUST REGULAR MEETING FOR FIRST READ.**

Councilor Wiley explained he met with a group of paragliders and some residents who were concerned about the noise and safety of paragliding on the beach. The paragliding pilots are now aware of the complaints and feel they can self regulate with the guidelines they have created. He recommended tabling the proposed ordinance at this time to see if the self regulating guidelines are effective.

Consensus: **TABLE THE PROPOSED ORDINANCE AND SEE HOW IT GOES WITH THE PILOTS SELF REGULATING.**

Environmental
Sensitive Lands

ORDINANCE NO. 2014-XX: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, ARTICLE IV. LAND USE, SECTION 27-243(C)(4) PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS, AND PROVIDING AN EFFECTIVE DATE.

Councilor Wiley explained the Department of Environmental Protection are the keepers of our waterways. Our current ordinance allows for a four foot wide walkway with no handrails to a dock but the Department of Environmental Protection allows a minimum of four foot up to five foot walkways for docks. He recommended amending our ordinance to coincide with the Department of Environmental Protection.

Vice Mayor Jolly stated he is the only Council Member that lives on the marsh. He felt there are two types of people living on the estuary, the dockers and the viewers, and both have rights. He felt this ordinance only benefited the dockers.

Vice Mayor Jolly felt the beauty and pristine view of acres of marsh grass and wildlife should be preserved. He recommended one of the two following amendments:

Sec. 27-243(c)(4) The access walkway of docks shall be a maximum of ~~four (4)~~ five (5) feet in width. The terminal platform of docks (including sitting areas, floating docks and boat storages) shall be a maximum of two hundred (200) square feet. However, for access walkways that are greater than four (4) feet in width, the terminal platform size (including sitting areas, floating docks and boat storage) shall be reduced by the number of additional square feet of access walkway beyond that of a four (4) feet walkway for the same length. Boards used to construct the surface of the dock shall not exceed eight (8) inches in width and shall be spaced at least one-half inch apart.

Sec. 27-243(c)(4) The access walkway of docks shall be a maximum of ~~four (4)~~ five (5) feet in width. The terminal platform of docks (including sitting areas, floating docks and boat storages) shall be a maximum of ~~two hundred (200)~~ one hundred and sixty (160) square feet. Boards used to construct the surface of the dock shall not exceed with (8) inches in width and shall be spaced at least one-half inch apart.

Councilor Tucker supported the ordinance as written to coincide with the Department of Environmental Protection.

Councilor Arthur felt a four foot walkway is very narrow and an additional foot in the width of a dock walkway would not impair the beauty or the wildlife. The language of the ordinance in 2007 was used based on southwest district wetlands not the standards in the northeast district. He disagreed with Vice Mayor Jolly's recommendation and supported the proposed ordinance as written. He added that if the city wants to protect the marsh we should be more concerned about runoff, fertilizers, and nitrogen draining into Hopkins Creek.

Mayor Pruette asked if anyone wanted to consider Vice Mayor Jolly's suggestions. She added this proposed ordinance came about from one property owner wanting to build a five foot wide walkway that was denied by the Community Development Board. She read the following statement from the Board Chairman:

"Regarding the rules of docks, etc. we as leaders of this community cannot simply limit our vision of what seems desirable in the now. We are charged with caretaking of our community's future and its natural resource. What seems reasonable now may turn us into south Florida. In short order, do you realize the University of Miami just sold 88 acres of natural habitat to a developer for building street malls and residential complexes. How soon before everything becomes paved over with concrete. How soon before we become shocked at both the loss of species and water managed options. South Florida is already draining us of fresh water now. I'm not saying that granting leeway on the dock is the equivalent to the afore mentioned example but it is intrusive of what can happen if we do not practice conservative principles and again protecting what little remains of our natural resources. There is no denial of access to waterways in this situation. Our ordinance plainly states you have the right to build your dock and it is not uncommon that a local rule can establish tighter regulations than State Statutes because each community may have different needs. In my opinion we need to continue to protect our natural resources whether it be one inch at a time. But to keep giving and giving, it's not about one dock it's about this one down the road and the next dock down the road."

Mayor Pruette also read the following from a citizen:

"To allow the extension of these docks to be even larger sure is only to reduce the quality of natural beauty of the area. A walkway of four foot under the existing ordinance should be more than enough to allow passage anyone would ever need on a dock. To expand the width to five feet is ridiculous. General construction of homes and businesses everywhere require a standard three foot entry for ingress and egress. Our society has long accepted this dimension as a baseline for ingress and egress with the accommodation of everything from people to refrigerators, sofas, wheelchairs, and emergency equipment. If this is acceptable in our homes and businesses why would we continue to grow this number out for a purely part time recreational item that also has a negative impact on our environment? We need to do everything we can inch by inch to protect our environment."

Mayor Pruette stated only one citizen was complaining. He was denied to construct a five foot wide walkway by the Community Development Board by a five to one vote. She felt if the City continued to ignore the boards decisions we should discontinue having a board.

Councilor Arthur stated the board made their decision based on the current code. He felt one extra foot would not damage the marsh.

Councilor Wiley stated the Department of Environmental Protection were experts in their field and they allow five foot docks and 200 square foot platforms.

City Manager advised this ordinance would have to be reviewed by the Community Development Board in August.

Consensus: **FORWARD TO THE SEPTEMBER REGULAR MEETING FOR FIRST READ AND THE COMMUNITY DEVELOPMENT BOARD IN AUGUST.**

ISSUE DEVELOPMENT

Evaluation Forms

EVALUATION FORMS FOR THE CITY CLERK & CITY MANAGER: City Attorney Krechowski explained he had combined the two forms from the June workshop meeting per the Council's instruction, using the rating system from one and the duties from the other and added definitions. Council needed to discuss and determine the content of the form and also who would be completing the forms and the procedure.

Vice Mayor Jolly felt the council members, city attorney and city manager should fill out the form and the evaluation should be done on an annual basis. He suggested each council member meet with the city clerk to prepare and discuss the evaluation and ratings and then present it at a council meeting. Another option would be to perform the evaluation during a council meeting. He personally felt it would be better to meet with the city clerk to prepare the evaluation form and go over it with her before making it public.

Councilor Tucker approved of the evaluation form and meeting with the city clerk individually.

Councilor Wiley agreed with Vice Mayor Jolly's suggestion to meet with the city clerk to review the performance evaluation before making it public.

Councilor Jolly stated he would like to add the performance of tracking the complaints on the new city complaint portal.

Mayor Pruette asked council members if they were aware of the city clerk's duties and job description. She felt it would be hard to conduct an evaluation of the city clerk if everyone was not aware of the duties and job description. She suggested each council member meet with the city clerk and have her explain to them her job description and duties.

City Clerk Volpe agreed with Mayor Pruette that would be a good idea as well as having an introductory meeting with new council members.

City Attorney Krechowski reaffirmed that the council would like to meet with the city clerk individually to conduct the performance review and discuss the conclusions and ratings at a council meeting.

Councilor Jolly suggested adding the rating of "not applicable" to the rating system because there are some items on the form that are not applicable on an annual basis specifically the duties for elections.

Mayor Pruette suggested another area for N/A would be "staff development."

City Clerk Volpe stated this would be a difficult process. She suggested meeting with her one on one to go over the job description and set some guidelines and after six months meet with her again to conduct the evaluation then review it at a council meeting.

Mayor Pruette stated she would like council to be provided an updated job description. City Clerk Volpe stated the job description was updated this past April.

Councilor Arthur stated he supported adding: management of the website portal, introduction of new council members, and the rating of "not applicable".

City Clerk Volpe stated the website portal is managed through the city manager's office. City Clerk Volpe explained she would be responsible for anything relating to her department. City Manager Jarboe stated the website portal does not relate to the city clerk's job.

City Attorney Krechowski advised he would amend the form as requested by council and prepare an introductory memorandum setting forth the process to present at the August regular meeting.

EACH COUNCIL MEMBER TO MEET WITH THE CITY CLERK TO DISCUSS THE DUTIES AND JOB DESCRIPTION OF THE CITY CLERK.

City Manager

CITY MANAGER EVALUATION: City Attorney Krechowski explained the City Manager's performance evaluation will be different from the City Clerk's because he has a contract. The terms of the contract state that performance standards were suppose to be set in place but that did not happen. The contract actually was for five years and it expired in 2009 but it has an automatic renewal every 180 days. City Manager Jarboe drafted a list of specific goals and objectives to be evaluated on for a budget year. The contract was written by the city in 2004 and accepted by Mr. Jarboe.

City Manager Jarboe felt the most important actions the Council does every year is the public hearings for milage, adopting the budget and setting forth a Council Policy Statement. The most important thing the City Manager does every year is to carry out the Council Police Statement. Therefore, the most single important thing to base the evaluation on would be how well the City Manager has carried out the Council Policy Statement This practice is accepted in the industry and government.

Councilor Wiley stated the contract calls for the City Council to meet with the City Manager to discuss goals, visions and policy. He felt the Council needed to meet with the City Manager to discuss goals and what the Council expects from him over and above what is being done now.

Mayor Pruette felt the performance evaluation was long overdue.

City Manager Jarboe stated his door was always open for Council. He has been meeting with Council one on one for the past ten years. Council should be aware of what is happening with their concerns. The issue is how a contracted evaluation is performed.

Mayor Pruette added when the council meets with the City Manager one on one they do not hear the thoughts of the other council members. She felt it was important to do it at a public hearing where everyone could hear everyone else's thoughts.

Councilor Arthur suggested using the same format as the City Clerk. He did feel the city portal was important to add to the form to find out if citizens complaints are being responded to, addressed and closed out.

Councilor Tucker agreed with the using the same format as the City Clerk adding the city portal complaints.

Councilor Jolly suggested adding the "4th of July" to the City Manager's evaluation form. He felt the council should make sure goals and objectives are set for the City Manager to give him direction before conducting a performance evaluation to determine if the goals and objectives were accomplished.

Mayor Pruette stated "resolve the solid waste tipping fee issue with the City of Jacksonville" was on the list. She felt it should be left off the list because it was out of the City Manager's control. City Manager Jarboe stated he disagreed because if it has to go to mediation the City Manager and City Attorney would be involved. City Attorney Krechowski felt the goals and objectives regarding the tipping fees should be to keep Council advised and continue to communicate with Atlantic Beach and Jacksonville working on the issue. Whether anything is accomplished over the next twelve months is out of the City Manager's control.

Mayor Pruette asked City Attorney Krechowski to remove the word "resolve" from that particular goal and objective. City Attorney Krechowski stated he would reword the goal.

Council Tucker questioned if the City Attorney was recommending the Council write a new contract before the end the current renewal date. City Attorney Krechowski replied that was up to the Council whether or not they wanted to discuss that issue. If Council did not want

the contract to automatically renew they would need to give the City Manager a 180 day notice.

Mayor Pruette asked if Council wanted to consider giving the City Manager a 180 notice to cease the automatic renewal. Vice Mayor Jolly stated he was not interested in considering a new contract at this time.

Surplus Items

SURPLUS ITEMS / DUMP TRUCK: City Manager Jarboe stated Public Service no longer uses the dump truck because the trash pickup provider is now hauling the sludge to the landfill. He would like to surplus the vehicle and put the \$20,000 into the water and sewer fund.

Consensus: **FORWARD TO THE AUGUST REGULAR MEETING CONSENT AGENDA.**

Property
Abandonment

PROPERTY ABANDONMENT / PAUL WEST / 593 MARGARET STREET: Paul West, 593 Margaret Street, stated he would like the city to abandon the city owned property adjacent to his property, that is a ditch. He stated he has spent his own time and money trying to maintain the property. He asked the city to provide a quit claim deed to him so that he can continue to maintain the property. He added there are no utilities or city infrastructure on the property.

City Attorney Krechowski stated he provided copies of Section 18-5. Abandoning of private use of public property or rights-of-way for the council to review.

City Manager Jarboe stated the ditch was the property of the Florida Department of Transportation and it has been a constant problem getting them to clean it up the ditch. If Council wants to consider abandoning the property the first step would be to get a survey to determine what portion of the property the city owns and also to determine the value of the property.

Mr. Paul West advised the current survey is 13 months old. It shows the city property goes out to the middle of the ditch. He would like to plant an evergreen there to stabilize that side of the ditch so there are no more erosion problems.

Councilor Arthur supported the abandonment. He stated he would like an updated survey and felt the value could be determined by a certified property appraiser.

City Manager Jarboe added once the survey is complete it may require meeting with the FDOT to find out if they want a portion of the ditch to stabilize the bank for flow of their water because the inlets from Jacksonville Beach go through there.

Mr. West stated FDOT owns the west side of the ditch. Once a month they come out and cut that side of the bank. The east side has a hodgepodge of ownership. The city still owns three or four of the properties.

Councilor Tucker stated FDOT would need to be contacted. City Manager Jarboe stated once the survey was complete he would contact FDOT if he needed to.

Councilor Wiley stated he would like to know if the city had abandoned other portions of the ditch.

City Manager Jarboe stated if there was a consensus to move forward he would get the survey and meet with the City Attorney to prepare for council to consider at the next meeting.

Consensus: **FORWARD TO THE AUGUST WORKSHOP MEETING.**

July 4th Report

JULY FOURTH AFTER ACTION REPORT: Chief Sembach stated the City will have to pay the additional police officers that were hired for the fourth of July time and half. He should receive the invoice in August.

There were a total of 106 calls to the police department over the three day period of July 4th, July 5th, and July 6th. There are normally only 20 to 30 calls during the weekend. Police Officers wrote 39 uniform traffic citations, 32 parking citations, and 13 warning citations. There were two warnings and two municipal ordinance citations written for noise complaints. There were three warning citations for trespassing and two "notice to appear" issued for drinking in public. There were also five calls for fighting.

A five year old boy went missing just before dark at Orange Street. He was found 20 minutes later down by Seagate Avenue.

The Jacksonville Sheriff's Officers were surprised by the crowd at the beach, they had no idea that so many people came to Neptune Beach to celebrate the 4th of July.

Mayor Pruette stated our Public Safety Department did a good job keeping people moving and from blocking streets and sidewalks. She added the event would only get worse in the future.

Councilor Tucker stated the City of Jacksonville Beach has started issuing bracelets to children on the beach in case they get lost. She asked if Neptune Beach could also participate. Chief Sembach responded he has already ordered 500 of the bracelets.

Councilor Arthur asked if the Chief felt like he was overstaffed or understaffed during the three day event. Chief Sembach replied he did not feel overstaffed on Friday, but he felt he was little overstaffed on Saturday. The event did not carry into Saturday as he had expected.

PUBLIC COMMENTS

Ramsey Bakkar, 320 North First Street, Suite 706, Jacksonville Beach, supported the City issuing fines for people that did not obtain sign permits over requiring them to comply with a monument sign.

Lynda Padrta, 1113 First Street, felt the fine for not obtaining a sign permit should be heavy. She felt that a 110 square foot deck was large enough. She added that the Department of Environment Protection and the State did not own Neptune Beach and they cannot tell us how to run our City. She was concerned about how well the paragliders would regulate themselves.

Rick Sauls, 126 Cedar Street, felt signs that were in good condition should not have to be removed to comply with monument signs and should have to comply when they need to be replaced. He felt the July 4th holiday went well with the extra police officers.

Paul Shea, 1826 Nightfall Drive, felt the problem with Hopkins Creek was not docks, it is the bottles, trash, etc. that is the problem.

COUNCIL COMMENTS / NONE

Adjournment

There being no further business, the meeting adjourned at 8:15 p.m.

**MINUTES
WORKSHOP CITY COUNCIL MEETING
JULY 7, 2014 AT 5:30 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held July 7, 2014, at 5:30 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly (arrived 5:50 p.m.)
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Askew
Director of Public Safety David Sembach

Call to
Order/Roll Call

Mayor Pruette called the meeting to order at 5:30 p.m. and led the Pledge of Allegiance.

PORF

POLICE OFFICERS' RETIREMENT / DAN JOHNSON / THE BOGDAHN GROUP: Dan Johnson, The Bogdahn Group, reported on the Police Officers' Retirement Plan. As of March 31, 2014, the plans assets totaled \$8,071,000. Halfway through the current fiscal year the plan is up over 7.7%. The target asset allocation is 55% target to stocks and 45% target to fixed income. This is more conservative compared to other plans which have more exposure to stocks.

Councilor Tucker asked if it would be better to increase the limit on stocks. Mr. Johnson replied he would suggest increasing the limit on stock exposure to 70%. He added if the adjustment is not made the plan will have to lower its expected rate of return.

Councilor Tucker asked how the plan compared to Jacksonville's plan. Mr. Johnson replied Jacksonville has a significantly higher allocation to stocks and other alternative asset classes. They have a much more aggressive investment approach. The general employees' fund has over 2 billion dollars and the police officers' and fire fighters' plan has 1.7 billion dollars.

Councilor Wiley questioned if the stock investment of 60% was limited to market value. Mr. Johnson responded the limit imposed is 60% of current market value. At any given time the plan will not have more than 60% invested in stock.

Councilor Arthur asked how long The Bogdahn Group has been consulting with the Police Officers' Retirement Fund. Mr. Johnson stated his firm has been consulting for the fund about ten years. He has worked for the firm for six years.

Councilor Arthur asked if the firm's fees were netted. Mr. Johnson replied the firm is paid a flat fee that does not change based on investments.

Councilor Arthur asked how often the portfolio was rebalanced. Mr. Johnson replied the portfolio is based on the Investment Policy and is rebalanced at the end of any calendar year based upon actions of the Board.

Councilor Arthur asked if the fund was limited to triple A bonds. Mr. Johnson stated the assets are grade A or better.

City Manager Jarboe explained if the rate of return goes above the 8% the market pays the difference but if goes below 8% the City pays the difference.

Speed Hump
Requests

SPEED HUMPS ON SOUTH STREET AND SUMMER SANDS: City Manager Jarboe explained the residents on South Street submitted a requested to add an additional speed hump and they were willing to pay the cost. The Summer Sands Home Owners Association has submitted a request to add an additional three speed humps in the neighborhood. He recommended approving both request as long as they were willing to pay for them.

Vice Mayor Jolly asked staff to review and amend the Speed Hump Policy. City Manager Jarboe stated he would review the policy and make a recommendation to Council.

Consensus: **ALLOW THE CITY MANAGER TO APPROVE THE REQUESTS FOR A AN EXTRA SPEED HUMP ON SOUTH STREET AND THREE ADDITIONAL SPEED HUMPS IN SUMMER SANDS.**

101 Florida
Blvd. ROW

RIGHT OF WAY / 101 FLORIDA BOULEVARD: Mayor Pruette explained the street end at 101 Florida Boulevard was adopted years ago by the Tanner's. The right-of-way has always been opened, well attended and looks beautiful. They have been asked to submit a request for a right-of-way permit based on the new right-of-way policy. She would support the permit allowing them to continue the use of the right-of-way as it currently exist.

Councilor Tucker felt they should have to go the right-of-way permitting process.

City Manager Jarboe stated this was originally a code enforcement issue when their contractor went beyond the plans that were submitted and approved by the Building Department for the building permit. They have now been asked to submit a request for a right-of-way permit but the City has still not received their application.

Vice Mayor Jolly agreed they should have to go through the right-of-way permit procedure.

Councilor Arthur stated he would support allowing them to continue the use of the right-of-way as it currently exists.

City Manager Jarboe stated the City would review the right-of-way permit request like every other request. He was not at the point to approve what is currently there.

Councilor Wiley stated the right-of-way looks good and he would support leaving it in its current condition.

Mayor Pruette stated the City may want to review and make some changes to the "Adopt a Street End Policy" and the "Right-of-way Permit Policy."

City Attorney Krechowski advised there is a section in Chapter 27 regarding "public access to the ocean" that should also be considered before approving the right-of-way permit.

Adjournment There being no further business, the meeting adjourned at 6:02 p.m.

Director of Public Safety David Sembach

Order Call/Pledge Mayor Pruette called the meeting to order at 6:02 p.m.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS

Officer Ivey

Mayor Pruette presented a Proclamation to Officer Brad Ivey in recognition of his retirement after serving over 30 years with the Neptune Beach Public Safety Department.

APPROVAL OF MINUTES

Moved by Tucker, seconded by Jolly.

Minutes

Motion: **TO APPROVE THE FOLLOWING MINUTES:**

JUNE 2, 2014, REGULAR CITY COUNCIL MEETING
JUNE 16, 2014, SPECIAL CITY COUNCIL MEETING
JUNE 16, 2014, WORKSHOP CITY COUNCIL MEETING

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette thanked the Public Safety Department for their service and actions on the 4th of July. She suggested adding a new line item in the budget to add in the additional costs for services.

Councilor Wiley also thanked the Public Safety Department for their outstanding service on July 4th.

Councilor Arthur suggested asking Duval County to contribute to the funding for the Public Safety Department next year.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- There will be a Labor Strategy meeting on Tuesday July 22, 2014 to discuss labor negotiations.
- There will be a Budget Workshop meeting immediately following the Labor Strategy meeting on July 22, 2014 to discuss the General Fund.
- The auditors are present and preparing some preliminary work for the year end.
- Additional street repaving will begin after October 1st.

City Clerk Volpe stated the new recording system is installed and in use. She will attempt to place the audio of the meeting on our website. Muni Code has been updated and now as ordinances are passed each one will be placed on the front page with a link to the Section.

City Manager Jarboe added the Citizens Portal has been installed on our website. The portal allows citizens to address city concerns which will be tracked by city staff.

City Manager Jarboe stated the sign alerting bicyclists that the bike rules will be enforced is on order.

COMMENTS FROM THE PUBLIC

Lynda Padrta, 1113 First Street, was pleased with the increased police activity on First Street on the 4th of July. She was concerned the Beaches Chapel was doing additional work on the building, parking on the edge of the ditch and not working on the drainage issue in the neighborhood.

Mike Miller, 106 Myra Street, thanked Council for improving the police activity on the 4th of July. He felt it was a big improvement over previous years.

Carl Pricely, 113 Fleet Landing Boulevard, Atlantic Beach, President of the Jacksonville Beaches Kiwanis Club, stated they would be having a Kiwanis Kids Chalk Art Festival on September 27, 2014, at the Beaches Library. He asked Council to donate \$175.00 towards the prizes as well as providing public safety assistance for the day.

CONSENT AGENDA

Res. No. 2014-07 **RESOLUTION NO. 2014-07: A RESOLUTION ALLOWING THE CITY MANAGER TO EXECUTE AND DELIVER THE ATLANTIC BOULEVARD MAINTENANCE AGREEMENT TO THE FLORIDA DEPARTMENT OF TRANSPORTATION.**

Moved by Tucker, seconded by Arthur.

Motion: **TO APPROVE THE CONSENT AGENDA.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

ORDINANCES

Ord. No. 2014-11 **ORDINANCE NO. 2014-11, ACCESSORY STRUCTURES, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA ARTICLE V – ACCESSORY STRUCTURES AND USES, SECTION 27-325. GENERAL STANDARDS AND REQUIREMENTS AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained the Community Development Board recommended this ordinance because the Code was unclear regarding accessory structures.

Mayor Pruette read Ordinance No. 2014-11 by title only and opened the public hearing. There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Wiley.

Motion: **TO ADOPT ORDINANCE NO. 2014-11 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

Ord. No. 2014-12 **ORDINANCE NO. 2014-12, STORMWATER, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA, ARTICLE XII, STORMWATER MANAGEMENT, CHAPTER 27, SECTION 27-517 EXEMPTION, AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained this ordinance limits accessory structures to residential zoned properties for stormwater purposes and was recommended by the Community Development Board.

Mayor Pruette read Ordinance No. 2014-12 by title only and opened the public hearing, there being no comments from the public, the public was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2014-12 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

Ord. No. 2014-13 ORDINANCE NO. 2014-13, SOLID WASTE, SECOND READ AND PUBLIC HEARING:
AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA ARTICLE XIV – SOLID WASTE COLLECTION, SECTION 27-562. GENERALLY, SECTION 27-563. PROVISION OF SITES FOR DUMPSTERS, SECTION 27-564. PROVISION OF SCREENING FOR DUMPSTERS, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this ordinance was also recommended by the Community Development Board.

Mayor Pruette read Ordinance No. 2014-13 by title only and opened the public hearing. There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2014-13 ON SECOND READ AND PUBLIC HEARING.**

MOTION CARRIED

OLD BUSINESS / NONE

NEW BUSINESS

CDB14-04
806 Third St.

CDB14-04 / SPECIAL EXCEPTION FOR A DAY SPA / 806 THIRD STREET: City Manager Jarboe stated the special exception for a day spa was approved by the Community Development Board with conditions.

Vice Mayor Jolly stated the original request for a special exception was for a hair salon only which was not approved by the Board. He was concerned that the day spa would end up being a hair salon if the other services provided did not pan out. He asked if she could assure that would not happen.

Heather Epperson, applicant for the day spa, responded she has two chairs and does not intend to have any more. Her clients have already shown interest in the other services that will be provided.

Councilor Jolly asked Ms. Epperson if she would be amendable to having that as a condition for the special exception. Ms. Epperson responded she would be okay with that condition.

Moved by Jolly, seconded by Tucker.

Motion: **TO APPROVE THE RECOMMENDATION OF THE COMMUNITY DEVELOPMENT BOARD INCLUDING THE CONDITIONS THEY LISTED ON PAGE FIVE IN THE PACKET WITH THE ADDITIONAL CONDITION THAT THE BUSINESS BE LIMITED TO TWO CHAIRS FOR THE PURPOSES OF HAIR STYLING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

Res. No. 2014-08 RESOLUTION NO. 2014-08: A RESOLUTION APPOINTING MEMBERS TO THE POLICE OFFICERS' RETIREMENT BOARD.

City Clerk Volpe advised Carl Hashey had been serving on the board since at least 2001.

Mayor Pruette stated Mr. Hashey has been an asset to the board and has done a great job but she would like to see the terms of the board members limited.

Moved by Tucker, seconded by Jolly.

Motion: **TO APPROVE RESOLUTION NO. 2014-08.**

Roll Call Vote:

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- He explained the city should not abandon the portion of the right-of-way on Florida Boulevard that was requested by a property owner because public service employees would not have access to maintain the drainage ditch.
- He has provided the information to Mr. Clyne that he requested regarding the pension fund.

Councilor Arthur asked when the paving project would be completed. City Manager Jarboe responded the project will be complete once the crossbars were installed at the stop signs and two speed humps were replaced.

Councilor Arthur asked if the city has implemented the contact complaint forms on the website. City Manager Jarboe replied the company is in the process of verifying all the data and setting it up. It should be ready within the next ten days.

Mayor Pruette asked about the speed humps on South Street that were removed during the repaving. City Manager Jarboe replied one of the speed humps will be replaced however, they have requested an additional one that will need approval of Council.

Mayor Pruette asked about the Backyard Hen Ordinance. City Manager Jarboe stated the City of Jacksonville has not had any complaints since there ordinance was implemented.

Mayor Pruette stated the city had a problem with ants on beach accesses. City Manager Jarboe replied the city has not sprayed to kill the ants because of concern for dogs and cats but the Public Services Department has put out bait to kill the ants.

City Manager Jarboe stated he would like to hold a workshop meeting for the General Fund in July.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe stated this week is qualifying week for the elections. As of today Vice Mayor Jolly has qualified for Seat 5 without an opponent. Rory Diamond has qualified for Seat 4.

Mayor Pruette asked the city clerk to remove the items on the list that have been completed.

PUBLIC COMMENTS

Beth Schultz, 608 Valley Forge Road North, voiced concern regarding the number of people living in the home across the street from her and the noise they create.

Jim Schulz, 608 Valley Forge Road North, provided a snapshot of the house directly across the street that showed three vehicles parked in the street. He added it is hard for him to get out of his driveway and the noise continues all day and night.

Rory Diamond, 120 Davis Street, explained he looked into the situation on Valley Forge Road North and there is definitely a problem. There are four or five families living in one house in a single family neighborhood and it is affecting the entire community. He asked the city to consider establishing a Citizens Academy Program.

Lynn Sweeney, 1500 Strand Street, felt paragliding created a safety issue.

Tim Kazmerzac, 2102 Acacia Road, stated he has been piloting paragliders on the beach for the past three years without any complaints of noise or safety issues. He did not feel an ordinance was necessary because the group is very small and self regulated. He suggested the city create a committee if Council felt an ordinance was necessary.

Joe Romonnell, 1453 Spindrift Lane East, stated the painted lines and two speeds humps were removed from Summer Sands when it was repaved. They would like to have them replaced as well as additional no parking signs and an additional stop sign on Summer Sands Drive.

Jeff Guy, 221 Lora Street, stated he has not had any negative feedback regarding paragliding on the beach. He suggested allowing the small group of paragliders an opportunity to correct the problems without any official intervention.

Guy Boonsnaz, 315 Penman Road, Jacksonville Beach, stated the small group of paragliders would like to be a part of the solution.

Lynda Padrta, 1113 First Street, supported the ordinance to prohibit paragliding.

Leslie Britt, 1594 Ibis Drive, Orange Park, opposed the ordinance that would prohibit paragliding on the beach. He suggested Council appoint a committee to review the concerns.

Rick Sauls, 126 Cedar Street, supported the ordinance to ban paragliding.

PROPOSED ORDINANCES

Land Use

ORDINANCE NO. 2014-XX, LAND USE: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, ARTICLE IV. LAND USE. SECTION 27-243(C)(4) PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS, AND PROVIDING AN EFFECTIVE DATE.

Vice Mayor Jolly asked the Council to delay this ordinance to allow him time to gather more information.

Councilor Wiley stated at the last workshop meeting Councilor Arthur suggested allowing 4 foot docks on the east side of the Kings Road Bridge and 5 foot docks on the west side.

Consensus: **DELAY UNTIL THE JULY WORKSHOP MEETING.**

Beaches & Waterways

ORDINANCE NO. 2014-XX, BEACHES AND WATERWAYS: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA, CHAPTER 7, BEACHES AND WATERWAYS, SECTION 7-28, TRAFFIC AND PROVIDING AN EFFECTIVE DATE.

Councilor Wiley explained he brought up this ordinance for discussion to alert the community of concerns regarding paragliders. He found the major concern was the noise. He spoke with a representative of the Federal Aviation Administration. The FAA regulates the air space and the minimum height limit was 1,000 feet above the highest obstacle in a congested area. He felt taking off and landing from a public beach where people are present could be dangerous.

Councilor Arthur stated paragliders are motor vehicles and motor vehicles are not allowed on the beach unless it was a public official. He supported the language in the proposed ordinance.

Vice Mayor Jolly suggested adding "power gliders" to the language. City Attorney Krechowski stated the language would be amended as follows: Section 7-28(a) Motor vehicles prohibited. It is unlawful for any person to operate any motor vehicle or motorcycle or motor-driven cycle or moped or powered paragliders and similar vehicles on the beach.

Vice Mayor Jolly felt we should use the same terminology as the Federal Aviation Administration.

City Manager Jarboe asked if the city could enforce the noise ordinance in the airspace if the Federal Aviation Administration has regulation over the airspace. City Attorney Krechowski replied "yes."

Councilor Tucker agreed we should use the same language as Federal Aviation Administration regarding the air space. She questioned how the ordinance would be enforced.

Mayor Pruette also voiced concern regarding enforcement. City Manager Jarboe stated if an incident is reported the FAA would enforce it. Mayor Pruette replied the paraglider would be out of sight before the FAA could reach the destination of the incident.

Councilor Wiley stated the City of Atlantic Beach, the City of Jacksonville Beach and the City of Fernandina Beach do not have an ordinance regulating paragliding. The City of St. Augustine Beach uses their "oceanfront park area" ordinance to enforce them.

Councilor Wiley asked Tim Kazmerzac to comment on his interpretation of the FAA regulations. Mr. Kazmerzac stated there is a maximum height of 18,000 feet and there is no minimum height regulation.

Councilor Wiley questioned how many feet was needed for the paraglider to take off and how long they could stay in the air. Mr. Kazmerzac replied take offs depend on wind speed and they could stay in the air about two to two and half hours.

Councilor Arthur asked why they needed to take off from the beach. Mr. Kazmerzac replied they are not allowed to fly over structures, landing spots are also limited.

Mayor Pruette asked Councilor Wiley to meet with the group and discuss the concerns.

Consensus: **COUNCILOR WILEY TO MEET WITH THE GROUP AND DISCUSS THE CONCERNS.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Res. No. 2014-07 **RESOLUTION NO. 2014-07: A RESOLUTION ALLOWING THE CITY MANAGER TO EXECUTE AND DELIVER THE ATLANTIC BOULEVARD MAINTENANCE AGREEMENT TO THE FLORIDA DEPARTMENT OF TRANSPORTATION.**

City Manager stated Council passed a resolution this year but the dates provided by the Florida Department of Transportation were incorrect. This resolution has the corrected dates.

Consensus: **FORWARD TO THE JULY REGULAR MEETING CONSENT AGENDA.**

Res. No. 2014-XX **RESOLUTION NO. 2014-XX: A RESOLUTION APPOINTING MEMBERS TO THE POLICE OFFICERS RETIREMENT BOARD.**

City Clerk Volpe stated this board member is the one appointed by the board and approved by Council.

Mayor Pruette questioned the term of the board members and how long this appointee had been on the board as well as his attendance record.

Consensus: **FORWARD TO THE JULY REGULAR MEETING AND HAVE THE CITY CLERK FIND OUT HOW LONG THIS MEMBER HAS BEEN ON THE BOARD.**

Tipping Fee
Options

TIPPING FEE OPTIONS: City Attorney Krechowski advised he would like to postpone this issue and meet with Jacksonville City Councilman Gulliford before discussing options.

Consensus: **FORWARD TO A FUTURE MEETING.**

Valley Forge Road
House

VALLEY FORGE ROAD HOUSE: City Manager Jarboe explained this is a difficult situation because there was nothing in the code to enforce the complaints the city is receiving on the property.

Building Official Don Ford explained for fourteen months there have been numerous complaints on this property consisting of renting rooms, noise, junk, junk vehicles and not maintaining the lawn. Each time a complaint is received and the property owner is confronted he complies with the complaint. The only current issue is renting rooms and the number of people living in the house. The police department has gone undercover trying to find out if rooms are being rented. The tenants have strong accents and would not speak to the undercover officer. We have no other way of proving rooms are being rented on a long or short term basis. This is a homesteaded property so there is not much the city can do.

Mayor Pruette stated this property has had reoccurring problems for over a decade. It is a quality of life issue and she understood the neighbor's frustrations.

City Attorney Krechowski stated the special magistrate would want the city to prove that rooms are being rented.

Building Official Ford stated the city has written the property owner letters regarding the renting of rooms and asked him for permission to enter the property to perform an inspection. They have not responded to those letters. The property owner has every right to deny the city entry.

Vice Mayor Jolly asked how many vehicles were normally parked at the property and if there was something the city could add to the code that would not affect other citizens. Mr. Ford replied he had seen up to six vehicles parked on the property at one time but that was during working hours.

Mr. Ford stated there are property owners with large families whose children become driving age at the same time. Therefore, it would be difficult to come up with an ordinance that would not affect everyone.

Councilor Tucker felt Council needed to work together to come up with a solution.

Councilor Arthur asked if the city could look into the issue of short term rentals or commercial operations in a residential area. He suggested counting traffic entering and exiting.

Councilor Wiley felt this was a problem in several locations within the city and something needed to be done.

City Manager Jarboe advised the only thing he has found that has worked in other cities is requiring parking permits and towing away vehicles that did not have a permit.

Mr. Ford stated at one time he found an online advertisement for a room for rent at the property. When the owner was confronted about it he removed the ad from the website.

Councilor Arthur suggested conducting a traffic study for vehicles entering and leaving the property, similar to the one recently conducted on South Street. City Manager Jarboe replied he could do a traffic study similar to the one on South Street but there would still be the issue of enforcement and without proof the special magistrate would dismiss the case.

Consensus: **GATHER MORE INFORMATION AND REPORT BACK.**

July 4th Update

JULY 4TH UPDATE: Assistant Chief Carrillo reported the operational plan for the 4th of July weekend will be commanded by Chief Sembach. The command post will be the Neptune Beach Public Safety Building. Police officers will work their normal hours with additional officers from Jacksonville Sheriff's Department. An additional dispatch operator will be brought in each day. Lifeguard hours will be extended to 7:30 p.m. Jacksonville Beach will have a command post at Fourth Avenue North and Second Street and will transfer our arrestees to the Duval county jail. Officers will be searching backpacks, coolers, or other containers without probable cause or reasonable suspicion. Officers will be looking out for large alcohol consumption violations, disorderly conduct violations, illegal fireworks, batteries and thefts. Notices to appear and citations will be issued in lieu of physical arrest whenever possible. Traffic will be monitored throughout the day and night with assistance from Jacksonville Sheriff's Office.

Assistant Chief Carrillo answered questions from Council regarding policing of the event.

Performance
Evaluations

PERFORMANCE EVALUATIONS: Mayor Pruette felt selecting acceptable forms for performance reviews of the city clerk and the city manager was the first step toward conducting performance evaluations.

Councilor Arthur felt the city manager's performance review form should be consistent with his contract obligations.

City Attorney Krechowski stated Council needed to review the contracts of the city manager and the city clerk regarding performance goals and objectives.

Vice Mayor Jolly stated he liked the second form in the agenda packet but would like to add more ratings to choose from other than, exceeds, expected and unsatisfactory. He felt there should be at least five ratings.

Councilor Tucker suggested using the second form for the format and the ratings from the first form. She agreed Council needed to review the contracts.

City Clerk Volpe advised that she did not have an employment contract.

Mayor Pruette agreed with Councilor Tucker's suggestion to the use the second form for the format and the first form for the ratings for the city clerk's performance review evaluation form.

Councilor Arthur stated he would like to consider a point system rating of 1 to 10. The goals and performance directives in the contract should be included in the performance review form for the city manager.

Vice Mayor Jolly stated he was not aware the city clerk did not have an employment contract. He felt Council needed to set goals and objectives, create a contract and then evaluate her performance.

City Attorney Krechowski advised creating a contract for the city clerk would refer more to terms, salary, etc. He felt Council should use the job description for the city clerk's performance review.

Councilor Wiley agreed the goals and objectives for the city manager and the city clerk needed to be assessed. He would like to use a point system from 1 to 5 for the performance evaluation ratings.

City Attorney Krechowski stated he would work with the city manager and city clerk to create goals and objectives for Council review.

Councilor Tucker asked if the chief of police had a contract. City Manager Jarboe replied the City Attorney and the City Manager were the only city employees that had a contract.

City Manager Jarboe advised he did not create his contract it was given to him by the city.

Consensus: **HAVE CITY ATTORNEY KRECHOWSKI WORK WITH THE CITY CLERK AND THE CITY MANAGER TO CREATE EVALUATION FORMS.**

Mayor Pruette stated she would call a workshop meeting before the July 7th regular meeting to discuss the request for additional speed humps on South Street.

PUBLIC COMMENTS

Alan Martin, 1113 First Street, stated the Florida Landlord Tenant Act may be helpful in resolving the Valley Forge Road property issue. He voiced concern about accumulative leave time for the city manager. He felt it was a good idea to meet with the paragliders before adopting an ordinance.

Tim Kazmerzac, 2102 Acacia Road, stated he would contact Councilor Wiley regarding a meeting to discuss paragliding.

John Tanner, 101 Florida Boulevard, stated he enjoyed watching the paragliders and the noise was only one-tenth of some other noises.

COUNCIL COMMENTS

Councilor Arthur asked City Manager Jarboe to advise Mr. Birdsong, representative for the Neptune by the Sea Homeowners Association, regarding the Muscovy ducks. City Manager Jarboe replied the city is very limited in what we could do, there was nothing the city can do on private property.

Vice Mayor Jolly was impressed with the email received regarding the reuse of nitrogen that saves the city money in operational expenses.

Mayor Pruette asked Council to agree to have staff delay action on a code enforcement issue regarding the right-of-way at 101 Florida Boulevard. She would like place the issue on the July workshop for discussion. She asked Council to drive over and take a look at it before the meeting.

Consensus: **HAVE STAFF DELAY ACTION ON A CODE ENFORCEMENT REGARDING A SPECIFIC RIGHT-A-WAY.**

Mayor Pruette voiced concern about a new development on a property in the 300 block of Myrtle Street with drainage rocks covering the front yard and much of the city easement. Building Official Ford responded the rocks were not present when the Certificate of Occupancy was issued.

City Manager Jarboe stated he spoke with Jacksonville City Councilman Gulliford about replacing several trees in the Bal Harbour area that were taken down to install the new sewer.

Adjournment

There being no further business, the meeting adjourned at 8:15 p.m.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette thanked Chief Sembach and the Public Safety Department for showing visibility and enforcing laws this past weekend. She asked that the law requiring bicycles to have lights be enforced.

Mayor Pruette stated she asked City Manager Jarboe in a memorandum to contact Jacksonville Beach Police Chief Dooley to ask if he could have an alumni from their Citizens Academy Program attend a workshop meeting to describe their role in the community. City Manager Jarboe stated Chief Dooley was not interested in the request but he would ask him again.

Mayor Pruette asked Chief Sembach to provide an action report at the May workshop relating to the upcoming July 4th to update the Council on the department's plan for crowd control.

Councilor Tucker stated the city should be receiving a new handicap beach wheelchair in July.

Councilor Wiley stated he would like to place a draft ordinance regulating power paragliding on the June workshop meeting agenda for discussion.

City Clerk Volpe explained the new recording system for the Council Chambers is scheduled to be installed on July 1st. It should be ready for its debut at the July 7th regular council meeting.

City Clerk Volpe stated the qualifying period for the upcoming election begins on June 16th and ends on June 20th. Two candidates have filed for Seat 4 and one candidate has filed for Seat 5.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- He has received comments and concerns regarding the repaving in Summer Sands.
- There was a major water line break last Friday and a boil notice was sent out to residents. The lab results came back Saturday and showed the water was okay.
- The three beaches worked together last week to form a perimeter and caught a suspect that had robbed a bank on First Street.
- The tipping fee issue will be placed on the workshop meeting agenda.

Councilor Arthur stated the notices the paving contractor sent out to residents had the wrong contact telephone number.

COMMENTS FROM THE PUBLIC

Bob Shimp, 1109 First Street, thanked Councilor Arthur, Councilor Tucker and Mayor Pruette for contacting him on Memorial Day to see if things were under control on First Street. He also thanked City Manager Jarboe for informing the Public Safety Department that the "Disabled Services Ticketing Agents" had jurisdiction at the beach.

Kris Matson, 540 Hopkins Street, supported Resolution No. 2014-05.

Blake Harper, 3900 Sunbeam Road, Jacksonville, supported Resolution No. 2014-05.

Raymond Johnson, 3036 Stratton Lane, opposed Resolution No. 2014-05.

Judy Sheklin, 1985 Brista De Mar Circle, Atlantic Beach, supported Resolution No. 2014-05.

Thomas Serwatka, 1431 Riverplace Boulevard, supported Resolution No. 2014-05.

David Baker, 1102 First Street, suggested the police give bicyclists warning tickets for not having lights on their bikes.

Dr. Marcelle Bessman, 4417 Port Arthur Road, Jacksonville, supported Resolution No. 2014-05.

Lynda Padrta, 1113 First Street, agreed bicycle traffic has become an issue on First Street and bicyclists should have lights. She also supported Resolution 2014-05.

CONSENT AGENDA

Jarboe Park
Event

JARBOE PARK EVENT / GIRL SCOUT CEREMONY: This is a bridging event for girls moving from Daisy's to Brownies and Brownies to Girl Scouts.

Surplus

SURPLUS VEHICLES: This is for the mule and a confiscated vehicle to be placed on gov.com for bids.

OLD BUSINESS

Res. No. 2014-05 **RESOLUTION NO. 2014-05: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA, CHANGING THE CITY PERSONNEL POLICY TO ADD SEXUAL ORIENTATION, GENDER IDENTITY OR EXPRESSION AND MARITAL STATUS TO ITS NON-DISCRIMINATION LIST AS FOUND IN SECTION. 1.02 OF THE PERSONNEL POLICY.**

Moved by Pruette, seconded by Jolly.

Councilor Wiley stated this resolution is simply to amend the City's personnel policy, adding "physical and mental disability" and "marital status" and nothing more.

Motion: **TO PASS RESOLUTION NO. 2014-05.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIEDNEW BUSINESS / NONECOUNCIL COMMENTS / NONE

Councilor Arthur suggested installing a sign on First Street where Neptune Beach begins to notify bicyclists that the bicycle laws will be enforced in Neptune Beach.

Councilor Arthur asked City Manager Jarboe to address the drainage issue at the Beaches Chapel development while it is still under construction.

Councilor Arthur stated he has noticed cigarette butts and ashes on the sidewalks that are leased. He felt there should be a "no smoking" sign placed there. He asked City Manager Jarboe to look into the issue.

Councilor Arthur suggested placing a contact form on our website for citizen complaints so they could be logged and tracked.

Mayor Pruette voiced concern regarding Council email inboxes being full. City Clerk Volpe stated there were some technical difficulties and they have been corrected.

Mayor Pruette stated the sidewalk area of North Beach Fish Camp was dirty and needed to be cleaned.

Mayor Pruette also voiced concern regarding the drainage at Beaches Chapel. City Manager Jarboe stated he would write a letter to them asking them to address the situation.

Adjournment

MAY 19, 2014 AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held May 19, 2014, at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Building Official Don Ford
Director of Public Safety David Sembach

ABSENT:

City Attorney Patrick Krechowski

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

Mayor Pruette announced at the beginning of the meeting she would be pulling the portion of the Offense Ordinance that relates to profanity in public places off the agenda.

PRESENTATIONS

TPO

North Florida Transportation Planning Organization representative Wanda Forest highlighted the projects in the Transportation Improvement Program.

City Manager Jarboe stated there needs to be a turn lane on Florida Boulevard and A1A and on Penman Road at Atlantic Boulevard. Ms. Forest replied she would relay these comments to the Department of Transportation.

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The repaving is in process. Some of the streets west of Third Street will not be

- repaved until after the sewer work on those streets is completed.
- The Bal Harbour project slowed down due to rains but should be completed by the fall. Once completed the sewer work on Fourth and Fifth Streets can begin.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe stated the only item on the consensus list that has not been complete is the Green Market. City Manager Jarboe advised the Green Market lease contract has been signed.

PUBLIC COMMENTS

Bob Shimp, 1109 First Street, voiced concern regarding trash, not stopping at stop signs, rowdy crowds on bicycles, parking, screaming and yelling, and dogs running off leashes on First Street. He felt there should be more police presence on First Street.

Jim Schultz, 608 Valley Forge Road North, complained of too many tenants and code enforcement issues at a property on Valley Forge Road. He felt there should be a law preventing too many people from living in one residence.

Mayor Pruette asked City Manager Jarboe to investigate Mr. Schultz's concerns and report back to the council at the next council meeting.

Mike Miller, 106 Myra Street, voiced concern about the upcoming 4th of July holiday. He felt the offenses ordinance was reasonable. He also supported Resolution No. 2014-05.

Tricia Russell, 8720 CR13 North, St. Augustine, supported Resolution No. 2014-05 as rewritten to include gender identity and expression.

Marina Hodgini, 721 Neptune Lane, favored Resolution No. 2014-05 and as it was rewritten to include gender identity and expression and marital status.

Judy Sheklin, 1985 Brista DeMar, Atlantic Beach, supported Resolution No. 2014-05 changing the personnel policy by adding protection for nondiscrimination based on sex and orientation and gender identity.

Steve Haerter, 106 19th Avenue South, Jacksonville Beach, supported Resolution No. 2014-05 changing the personnel policy.

Tom Serwatka, 1431 Riverplace Boulevard, supported Resolution 2014-05.

Dan Merkan, 3159 College Street, Jacksonville, Florida, supported adding sexual orientation, gender identity or expression and marital status to the personnel policy.

Richard Westenbarger, 613 Florida Boulevard, stated he would like to investigate the possibility of purchasing a strip of city property along Florida Boulevard.

Mayor Pruette asked City Manager Jarboe to consider Mr. Westenbarger's request and report back to the Council.

Lynda Padrta, 1113 First Street, supported Resolution 2014-05. She also supported the new recording system for the Council Chambers. She supported the idea of adding a restroom facility in Town Center. She felt there are existing ordinances that could be used to deal with some of the issues on First Street.

Harriet Pruette 217 Magnolia Street, read the following for the record:

"Dancin in the Street is getting a bad rap. My opinion is the Saturday event in Town Center is a forecast of what is to come July 4th along First Street if our city does not start scheduling enough officers to be visible along First Street to enforce the laws for rowdiness and drunkenness and rules of the road. More and more people are traveling daily down First Street, especially on Friday, Saturday and Sunday at events. Many of these folks are all over the entire road, on bikes, skateboards and electric ice coolers with wheels having no lights, drinking, grabbing cars, yelling, behind cars, beside cars, in front of cars and many not getting out of the way of vehicles. It is an accident waiting to happen for those trying to safely maneuver their vehicles to avoid hitting people and to those not observing any safe rules of the road. Saturday sidewalks were blocked with chairs, beer coolers and there was a party at Cherry and First Streets where folks were throwing glass and cans in the street, vehicles blocked stop signs and cars were parked the wrong way blocking stop signs. It was crazy from the north to the south! And the number one question asked to me by citizens is; "Where was any visibility of our police on First Street?" If we are going to allow events in Town Center then we need to make sure we have enough police officers on duty to cover the visibility along the entire First Street area. As Mayor and as a taxpaying citizen, I am asking our City Manager to direct the Public Safety Director to make sure First Street has police visibility and enforcement (if needed). This area needs attention. And I expect good common professional sense to be used, not a knee jerk reaction to get back at Mayor and Council and others complaining, such as threatening tactics, such as ticketing everyone for every little offense, such as those that use due care but do not stop at every stop sign or folks walking in the street or mothers pushing baby carriages on First Street. Let's work together to tone the area down, but not go enforcement crazy and use common sense and professionalism."

Due to the many supporters of Resolution No. 2014-05, Mayor Pruette moved it forward on the agenda.

Res. No. 2014-05
Human Rights

RESOLUTION NO. 2014-05: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA CHANGING THE CITY PERSONNEL POLICY TO ADD SEXUAL ORIENTATION, GENDER IDENTITY OR EXPRESSION AND MARITAL STATUS TO ITS NON-DISCRIMINATION LIST AS FOUND IN SEC. 1.02 OF THE PERSONNEL POLICY.

Councilor Tucker suggested the City Attorney review and approve the Resolution before a vote.

Vice Mayor Jolly supported the Resolution as written with the new language

Councilor Arthur supported the Resolution with the new language.

Councilor Wiley clarified this was a Resolution to amend the City of Neptune Beach's Personnel Policy. It was not an Ordinance. He supported forwarding the Resolution to a vote.

Mayor Pruette stated she supported the Resolution.

Consensus: **FORWARD TO THE JUNE 2ND REGULAR MEETING AGENDA.**

PROPOSED ORDINANCES

Offenses

ORDINANCE NO. 2014-XX, ADDING TO SECTION 14, OFFENSES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA SECTION 14. OFFENSES, ADDING SECTION 14-10. REFUSAL TO DISPERSE, ~~ADDING SECTION 14-11. PROFANITY IN PUBLIC PLACE,~~ ADDING SECTION 14-12. OBSTRUCTING PUBLIC PASSAGES, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this is already a Florida State Statute and the language in this Ordinance was taken verbatim from the City of Jacksonville's Ordinance. Several States in Florida have adopted a similar Ordinance.

Mayor Pruette questioned why we needed an Ordinance if it was already a State Statute. City Manager Jarboe replied it adds support on a local level and acknowledges the City supports the State Statute.

Chief Sembach explained this Ordinance will help prevent the obstruction of public passageways and aid with breaking up crowded areas.

Councilor Tucker questioned what the charges would be. Chief Sembach replied the charge is a second degree misdemeanor and is the same as Jacksonville's.

Vice Mayor Jolly stated these laws have been in place in Jacksonville since 1983 and there have been no problems. Chief Sembach responded he was informed the Ordinance is constitutional.

Vice Mayor Jolly suggested all Council members sponsor the Ordinance.

Councilor Arthur agreed the City should operate on the Florida Statutes so police officers can enforce the same laws as the State and the County.

Councilor Wiley stated he would support the Ordinance if the Chief thought it would help control crowds at events. City Manager Jarboe responded most cities duplicate Florida Statutes to show they are interested in enforcing the statute. It makes it a lot clearer and tells citizens that the City is serious.

Chief Sembach agreed if citizens do not see the laws written in the City Code they think we do not enforce it.

Mayor Pruette was concerned the City would not have the funds to defend a first amendment lawsuit.

City Manager Jarboe explained money would be taken from the reserves to hire additional police officers and to purchase a new mule for the 4th of July.

Mayor Pruette asked if there would be additional police officers present this Memorial Day. City Manager Jarboe replied he would let her know.

City Clerk Volpe explained a special meeting would need to be called in order for the Ordinance to be adopted before the 4th of July. City Manager Jarboe suggested holding a special meeting before the June 16th workshop meeting.

Consensus: **ALL SPONSORED FORWARD TO THE JUNE REGULAR MEETING FOR FIRST READ AND HOLD A SPECIAL MEETING JUNE 16TH FOR**

SECOND READ.Storm Water
Management

ORDINANCE NO. 2014-XX, STORM WATER MANAGEMENT: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA ARTICLE XII, STORMWATER MANAGEMENT, CHAPTER 27, SECTION 27-517 EXEMPTION, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the Community Development Board recommended the following three ordinances after an administrative decision was challenged because the Code was unclear.

Community Development Director Askew explained the Board reviewed three sections of the Code to define and strengthen the Code relating to dumpsters, compactors and drainage.

This Ordinance adds the following to Section 27-517(1): The construction of a single-family or duplex residential dwelling unit and accessory structures in residentially zoned property on a single parcel of land less than one third (1/3) of an acre or up to one half (1/2) acre with less than 9,000 square feet of impervious or semi-impervious area not part of a larger common plan of development for sale.

Accessory
Structures

ORDINANCE NO. 2014-XX, ACCESSORY STRUCTURES AND USES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA ARTICLE V – ACCESSORY STRUCTURES AND USES, SECTION 27-325. GENERAL STANDARDS AND REQUIREMENTS AND PROVIDING AN EFFECTIVE DATE.

This Ordinance adds the following to Section 27-325(4) and (6):

Section 27-325(4) Accessory structures shall comply with Article XII – Stormwater management and Erosion Control requirements, and shall be included in all calculations of impervious surface and stormwater runoff or any site design requirements applying to the principal use of the ~~lot~~ parcel. Impervious surface and stormwater drainage calculations shall encompass and evaluate the entire parcel on which the accessory structure is located.

Section 27-325(6) Accessory uses shall not alter the essential character of the area surrounding the site or involve operations or structures not in keeping with the character of the district where located.

Solid Waste
Collection

ORDINANCE NO. 2014-XX, SOLID WASTE COLLECTION: AN ORDINANCE AMENDING THE CODE OF ORDINANCES FOR THE CITY OF NEPTUNE BEACH, FLORIDA ARTICLE XIV – SOLID WASTE COLLECTION, SECTION 27-562. GENERALLY, SECTION 27-563. PROVISION OF SITES FOR DUMPSTERS, SECTION 27-564. PROVISION OF SCREENING FOR DUMPSTERS, AND PROVIDING AN EFFECTIVE DATE.

This Ordinance added the following to Section 27-563(a)(d) and Section 27-564(a), (a)(1), (a)(2) and (b)

Section 27-563 Provision of sites for dumpsters and or compactor.

Section 27-563(a) Every development that, under the city's solid waste collection policies, is or will be required to provide one (1) or more dumpsters and/or compactor for solid waste collection shall provide a site that is located to facilitate collection and minimize any negative impact on persons occupying the development site, neighboring properties, ~~or~~ public rights-of-way, stormwater runoff, environmental impact or public health.

(b) Dumpster and/ or compactors shall not be located in or in such a way that would impede public rights-of-way.

(c) Dumpster and/or compactor areas shall be graded to prevent stormwater run-on and run-off and shall not drain into natural waters, ponds, stormwater collection systems or stormwater conveyances.

(d) Dumpster and/or compactor drainage shall comply with the provisions set forth in the Municipal Separate Storm Sewer Systems (MS4) permit, as amended from time to time.

Section 27-564(a) All dumpsters and/or compactors shall be screened if and to the extent that, in the absence of screening, they would be clearly visible to:

- (1) Persons located within any dwelling unit on residential property other than where the dumpster and/or compactor is located.
- (2) Persons located within any building on nonresidential property other than that where the dumpster and/or compactor is located.

Section 27-564(b) When dumpster and/or compactor screening is required by this section, such screening shall be constructed, installed, ~~and~~ located, and maintained to prevent or remedy the conditions requiring the screening.

Vice Mayor Jolly agreed to sponsor all three ordinances.

Consensus **FORWARD ALL THREE ORDINANCES TO THE JUNE REGULAR MEETING FOR FIRST READ.**

Environmentally
Sensitive Lands

ORDINANCE NO. 2014-XX, PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS:
AN ORDINANCE OF THE CITY OF THE NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, ARTICLE IV. LAND USE. SECTION 27-243(C)(4) PROTECTION OF ENVIRONMENTALLY SENSITIVE LANDS, AND PROVIDING AN EFFECTIVE DATE.

Councilor Wiley explained some recent variances for dock widths had been denied. He suggested amending the Code to allow a minimum of four feet for a dock walkway and a maximum of 5 feet.

Councilor Arthur stated the intent of the 4 foot was to protect the sensitive wetlands. He explained Hopkins Creek is not considered sensitive wetlands by the Department of Environmental Protection but by the City's standards. He suggested allowing 5 feet west of Kings Road and 4 feet east of Kings Road.

Mayor Pruette stated Council gave permission to a specific Homeowners Association to build a long dock for the community and then everyone started building more docks and blocked homeowners views of the marsh.

Vice Mayor Jolly stated the extra foot would block 25% more marsh grass shading. He felt the maximum should remain at 4 feet. It also would not be fair to property owners that already built their docks the width of 4 feet.

Mayor felt the marsh area needed to be protected. She agreed with Vice Mayor Jolly's comments the width should remain at 4 feet.

Councilor Wiley questioned if a 4 foot dock width was in compliance with the Americans with Disability Act. Community Development Director Askew replied private docks do not have to comply with the ADA.

Consensus: **COUNCILOR WILEY TO GATHER INFORMATION AND BRING BACK.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Restrooms / Town
Center

BATHROOMS / PORT-O-LETS / TOWN CENTER: Mayor Pruette stated she had asked staff to investigate the cost of providing a restroom in the Town Center area. She would like Council to vision for one in the future.

Building Official Don Ford explained several locations were considered but the only reasonable location for a public restroom is near the lifeguard station because there is a sewer and water line and a slab is already there. A single handicap accessible restroom would cost approximately \$35,000. He felt the City would need multiple restrooms to ideally serve the public.

Mayor Pruette stated she provided a picture of a public restroom structure in the agenda packet that was located in Portland, Oregon. She would like Council to consider visioning something similar with a goal in mind.

City Manager Jarboe suggested discussing the cost of a restroom during the budget process.

Councilor Tucker voiced concern regarding the cost of maintaining a public restroom. She supported the envision for one.

Vice Mayor Jolly was concerned about the cost because the Convention Development Tax money is already dedicated within the budget. He supported visioning one for the future.

Councilor Arthur felt it would be better to locate a public restroom near the police department. He was interested if Atlantic Beach would contribute to the cost of maintenance.

Councilor Wiley stated the City installed public restrooms in Jarboe Park years earlier and they had to be removed due to vandalism. He suggested asking Town Center to contribute to the cost. He supported visioning one for the future and discussing it in the budget process.

Mayor Pruette felt it was time to vision a public restroom and find the resources for funding.

Consensus: **TO ENVISION A PUBLIC RESTROOM AND DISCUSS IT DURING THE BUDGET PROCESS.**

Town Center
Landscaping

TOWN CENTER LANDSCAPING: City Manager Jarboe stated he had the authority to approve the landscaping in the Town Center. He wanted Council to review the plans and get their approval.

Consensus: **REVIEW AND REPORT BACK TO THE CITY MANAGER ONE ON ONE WHAT THEY WOULD LIKE TO SEE.**

New Recording
System

NEW RECORDING SYSTEM FOR COUNCIL CHAMBERS: City Clerk Volpe explained the recording system in the Council Chambers is 17 years old and is outdated. She gathered

information from other Florida City Clerks regarding the types of recording systems they used. The majority of Clerks used the BIS Digital system. She requested several demonstrations and quotes and found this system to be the best. It places recordings on digital format and can store one year of meetings on one thumb drive. It comes with a software program that would attach to a new mixer board using the current microphones. It has the capability of adding video and live stream in the future. The recordings can also be emailed and posted on our website. If approved by Council the system can be up and running within a month. The company will install the system and train staff and provide onsite support for one year. Ms. Volpe added she did not have the money in her budget and Council would have to approve an amended budget.

City Manager Jarboe stated if Council approves the new system he would provide a budget amendment.

Mayor Pruette stated the City Clerk's office has been frugal with their budget and has not requested any extra money in the budget in the past. She supported the recommendation.

Councilor Tucker also supported the recommendation.

Councilor Jolly questioned the \$750 annual maintenance cost. City Clerk Volpe replied that is for the onsite service support for the first year. Once the system is in place and running the onsite service will not be necessary. City Manager Jarboe stated that is not unusual.

Councilor Arthur supported moving forward with it but was also voiced concern about the maintenance cost.

Councilor Wiley questioned if it would take less time to transcribe the meeting minutes with the new system. Ms. Volpe responded it depends on how long the meeting is but it would still take the amount of time to prepare the minutes.

Councilor Wiley asked if the recording could be put on the website. Ms. Volpe replied "yes."

Consensus: **TO MOVE FORWARD WITH THE PURCHASE OF THE NEW RECORDING SYSTEM FOR THE COUNCIL CHAMBERS.**

Jarboe Park Event **JARBOE PARK EVENT / GIRL SCOUT CEREMONY:** Community Development Director Askew stated explained this is a bridging event for girls moving from Daisy's to Brownies and Brownies to Girl Scouts. They have worked out the parking with Beaches Chapel.

Consensus: **FORWARD TO THE JUNE CONSENT AGENDA.**

Surplus Items **SURPLUS ITEMS:** City Manager Jarboe explained he would like to surplus the old mule and a confiscated vehicle. They will be placed on gov.com for bids.

Consensus: **FORWARD TO THE JUNE CONSENT AGENDA.**

PUBLIC COMMENTS

Bob Shimp, 1109 First Street, stated an Symposium on Americans with Disabilities Act will be held this coming Thursday. He would provide the details to anyone interested in attending.

COUNCIL COMMENTS

Vice Mayor Jolly asked if the draft minutes could be placed on the website before Council approval.

Vice Mayor Jolly asked how often the Municipal Code was update. City Clerk Volpe explained the Code Books are updated annually. The online Muni Code was also updated annually but had links to adopted ordinances that not been codified.

Consensus: **TO HAVE DRAFTED MINUTES PLACED ON THE WEBSITE BEFORE THEY ARE APPROVED BY COUNCIL.**

Adjournment

There being no further business, the meeting adjourned at 8:00 p.m.

Attest:

Harriet Pruette, Mayor

Lisa Volpe, CMC, City Clerk

Approved: _____

**MINUTES
REGULAR CITY COUNCIL MEETING
MAY 5, 2014, AT 6:00 P.M.
CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Regular Meeting of the City Council of the City of Neptune Beach was held May 5, 2014, at 6:00 p.m. in the City Hall Council Chambers, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach

ABSENT:

Vice Mayor John Jolly

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Tucker to lead the Pledge of Allegiance.

Noes: 0

Absent: 1 – Jolly

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

City Clerk Volpe reminded Council qualifying period begins June 16th and ends on June 20th.

Mayor Pruette thanked Councilor Arthur for spearheading the installation of the new landscaping around city hall. She also thanked the Ish Brant Beautification Committee and other participants who helped with the project.

Councilor Arthur stated the Public Services Department also participated by using city equipment to help with digging. It would have been much harder without their assistance.

Mayor Pruette explained back when First Street was repaved a yellow line was supposed to be painted in the center of the street. She would like for this to be done during the upcoming repaving project.

CITY MANAGER REPORT

City Manager Jarboe reported on the following;

- The street repaving project should begin the first week of June.
- The Bal Harbour project slowed down due to recent rains.
- Public Services resolved the drainage problem in Indian Woods.

COMMENTS FROM THE PUBLIC

Mayor Pruette announced before public comments she would be removing Resolution No. 2014-05 from tonight's consent agenda and will place it on a future agenda when a full council will be present.

Bob Zimpfer, 2545 Waters Edge Drive, opposed the request of the developer to construct a gravel road connector from Bartolome Road to Waters Edge Drive.

Claire Cimino, 2537 Waters Edge Drive, opposed the connector road requested by the developer.

Tricia Russell, 8720, CR 13 North, St. Augustine, thanked the members of the council that supported the Florida Workforce Act. She explained she was a transgender and how it has affected his life.

Riley Philo, Ponte Vedra, explained that he is transgender and how it has affected his life.

Susan Yandle, 2539 Waters Edge Drive, would rather have the developer construct a round-about for emergency vehicles rather than a road going straight through Waters Edge Drive.

City Manager Jarboe explained a developer would like to develop two lots he owns behind Waters Edge Drive. To do so he must meet the requirements of the Fire Marshall and provide access for emergency vehicles. He would have to either build a turnaround or a road through Waters Edge Drive. Because Waters Edge Drive is a private road it would require approval of all property owners for him to build a through road. The developer has sent out a letter to property owners requesting their approval. Whatever option the developer chooses it will still require approval from the Community Development Board.

Robert Varn, 2539 Waters Edge Drive, opposed the request of the developer. He requested that the City help repair the existing potholes in Waters Edge Drive.

Ralph Laperna, 2507 Waters Edge Drive, opposed the through road. He felt the developer should use his own property to provide the access for emergency vehicles.

CONSENT AGENDA

Mayor Pruette removed Resolution No. 2014-05 from the consent agenda.

RESOLUTION NO. 2014-06: A RESOLUTION ALLOWING THE CITY MANAGER TO EXECUTE AND DELIVER THE ATLANTIC BOULEVARD MAINTENANCE AGREEMENT TO THE FLORIDA DEPARTMENT OF TRANSPORTATION.

Surplus Vehicles / Public Safety Department

Moved by Tucker, seconded by Arthur.

Motion: **TO APPROVE THE CONSENT AGENDA.**

ORDINANCES

Ord. No. 2014-04 **ORDINANCE NO. 2014-04, PUBLIC RIGHT-OF-WAY, SECOND READ:** AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 18-4, USE OF PUBLIC RIGHT-OF-WAY.

City Manager Jarboe explained this is an amendment to the existing right-of-way Ordinance. City Attorney Krechowski advised there have been no changes since last workshop meeting.

Mayor Pruette read Ordinance No. 2014-04 by title only and opened the public hearing.

Lynda Padrta, 1113 First Street, suggested the City create a policy that would prevent the Public Works Department from maintaining rights-of-way that are permitted.

Moved by Arthur, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2014-04 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 4 – Arthur, Tucker, Wiley, Pruette

PRESENTATIONS / NONE

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The Bal Harbour project is moving along without a lot of disruption. The Public Services Department is replacing sod and making repairs as the project moves forward. The project is about 20% complete.

Mayor Pruette asked about the Easter in the Park Event that took place on Good Friday. City Manager Jarboe reported it began to rain around 10:00 a.m. and stopped a few minutes later. A lot of people stayed and it turned out to be a good event. Community Development Director Amanda Askew and Senior Activity Center Director Leslie Lyne should be congratulated for organizing the event.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe stated the consensus list had been updated and asked if anyone had any questions. Mayor Pruette asked about the purchase of a new recording system. Ms. Volpe responded there are two companies coming this week to give a demonstration. Mayor Pruette asked that the completed items be removed from the consensus list.

PUBLIC COMMENTS

Joe Wolke, 1900 Strand Street, felt normal lawn maintenance should not require a permit. He was also concerned about liability for residents.

Ramzy Bakkar, 320 North Third Street, Jacksonville Beach, asked Council to consider allowing nonconforming signs to remain until they needed to be repaired or replaced. He also felt monument signs were a disadvantage for multi use shopping centers.

Daryl Grubbs, 1919 Nightfall Drive, felt the nonconforming pole signs should be grandfathered in. He added that different businesses had different circumstances regarding signage.

Lynda Padrta, 1113 First Street, opposed the Backyard Hen Ordinance. She supported the change to the personnel policy. She felt Vice Mayor Jolly needed to be present for the discussion of nonconforming signs. She stated it has been 10 years since the monument sign ordinance was adopted and businesses should have to comply. She was interested in hearing the plan for making the 4th of July safer.

Shauna Moore, 1411 Neptune Grove Drive East, Aqua East Surf Shop, asked Council to grandfather in the existing pole signs until they were damaged. They have a monument sign at the St. Augustine location and it is frequently damaged.

Jennifer Haeseler, 900 Cedar Street, supported the Backyard Hen Ordinance.

Alan Martin, 1113 First Street, felt the City should be proactive on the 4th of July. He added last year there were picnic tables in the street, items on the sidewalks, and people loitering on his lawn.

Gerald Dixon, 436 Atlantic Boulevard, stated it would be very expensive to replace his existing sign. He asked Council to consider grandfathering in existing pole signs.

Glynn Jones, 1476 Atlantic Boulevard, asked Council to consider grandfathering in the existing pole signs. He felt he had no room on his property for a monument sign nor would one be effective because it would not be seen.

Leman Rosenberg, 101 Myra Street, voiced concern regarding liability on the right-of-way. He added the 4th of July comes and goes every year and the City could not stop people from coming to the beach. He suggested there be enough police officers on duty to handle the crowd.

Chris Holiday, 211 Third Street, opposed the sign ordinance because there was nothing wrong with her current sign and it would be an extra cost to her and her tenants. She asked Council to consider grandfathering existing signs.

PROPOSED ORDINANCES

Ord. No. 2014-04 ORDINANCE NO. 2014-04, USE OF PUBLIC RIGHT-OF-WAY: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 18-4 USE OF PUBLIC RIGHT OF WAY.

City Attorney Krechowski explained the language in the ordinance protects the city from liability of injuries caused by residents placing items in the city rights-of-way. If the city is going to allow residents to place items in the rights-of-way they should be responsible for them. There have been no changes to the ordinance since the first read in April.

City Manager Jarboe stated Section 18-4(h) will allow residents to appeal the City Manager's decision to deny requests for permits to the Code Enforcement Special magistrate. He would like to add the following:

"If his decision is upheld the person requesting the permit shall pay for the cost of the hearing. If his decision is not upheld the City shall pay for the cost of the hearing."

Councilor Wiley asked how many lawsuits the City has had in the past ten years from incidents occurring on the city's rights-of-way. City Manager Jarboe replied there have been two in the past four years. A homeowner on Third Street did not repair an irrigation system and someone tripped and fell on it. A lady fell off her bicycle at Fourth Street and Seagate Avenue in a drainage area. In both situations the city was not liable and had to pay the insurance deductible to get them out of the suit.

Councilor Wiley questioned if there was currently or previously a process in place that protected the city from liability. City Manager Jarboe replied there has been a permit process in place for the past eight years before that it was not addressed.

Councilor Wiley asked if there was anything on the current right-of-way permit regarding insurance or liability. City Attorney Krechowski responded "no."

Councilor Wiley asked if normal yard maintenance has been an issue in the past. City Manager Jarboe replied the only issue regarding yard maintenance has been people blowing yard clippings into the street. He added there are three issues regarding right-of-way permits. The three issues were, rocks being too close to turning lanes, items being placed on top of the infrastructure, and safety. The permit requests are reviewed by zoning, public safety and public services. Most are approved unless it is something detrimental to the infrastructure.

City Attorney Krechowski added the City needed some type of proof to show the Code Enforcement Magistrate why a right-of-way request was denied in case there is an appeal.

Councilor Arthur stated the language in Sections 18-4(b) and (d) did not specify what activities would not be permitted in the rights-of-way.

Councilor Arthur asked if there was a standard definition for "beyond regular maintenance." City Attorney Krechowski responded he has not heard anything from Council or staff regarding regular yard maintenance being prohibited. He was not sure how to quantify "beyond regular maintenance" as opposed to a case a case basis.

Councilor Tucker stated her questions had previously been addressed and she had no other questions at this time.

Mayor Pruette stated she favored the idea that residents would be able to appeal the City Manager's decision if a right-of-way permit request was denied because the Code currently does not address that.

Consensus: **FORWARD TO THE MAY REGULAR COUNCIL MEETING FOR SECOND READ AND PUBLIC HEARING.**

Ord. No. 2014-XX
Backyard Hens

ORDINANCE NO. 2014-XX, PERMITTING BACKYARD HENS IN CERTAIN RESIDENTIAL DISTRICTS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA CREATING A PILOT PROGRAM FOR PERMITTING BACKYARD HENS IN CERTAIN RESIDENTIAL DISTRICTS SUBJECT TO A ONE TIME FEE OF \$25; LIMITING THE NUMBER OF PERMITS ISSUED UNDER THE PILOT PROGRAM TO 25; PROVIDING FOR A SUNSETTING OF THE PILOT PROGRAM AFTER TWO YEARS; PROVIDING FOR EVALUATION AND REPORTING OF THE PILOT PROGRAM BY THE CITY COUNCIL AFTER EIGHTEEN MONTHS; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE.

Councilor Arthur explained the City of Jacksonville recently adopted an Ordinance to allow backyard hens. He used the same language to apply to Neptune Beach. There was an overwhelming response from people at the Green Market. He heard concerns about the smell, waste and property size. The property would have to be large enough to apply for accessory structure permit, which would have to be three feet off the property line and ten feet from the primary residence. It would eliminate any lots east of Third Street. The City of Jacksonville has not had any issues or complaints since the beginning of their pilot program. Councilor Arthur stated he invited Dr. Michael Davis, PhD to address any questions from the Council.

Councilor Tucker stated the City already deals with several different animal issues. She understood the support of the Green Market and people wanting fresh food. Her main concerns are smell and enforcement. She added that Neptune Beach is a small beach city whereas Jacksonville has many large lots to house farm animals.

Councilor Wiley asked how many people from Neptune Beach took part in the survey. Councilor Arthur replied about sixty. Councilor Wiley was concerned about the smell, health issues, enforcement and containment of the hens. He questioned how much training people in Jacksonville needed before they could obtain a permit. He suggested waiting to see how the pilot program works out in Jacksonville. He felt there should be many more workshop meetings to address the issue and he did not support it at this time.

Mayor Pruette stated the City of Jacksonville has larger lots. The only large lots in Neptune Beach are on Penman Road. Neptune Beach is also limited on staff and has enough issues with other animals. She recommended deferring the Ordinance until the City of Jacksonville completed its pilot program.

Councilor Arthur responded the City of Jacksonville has zoning for lots that are 2,500 square feet which are smaller than any of our lots. The applicants property would also have to meet the setback requirements for an accessory structure. The enforcement would be enacted once a complaint was received. The City of Jacksonville has not had any complaints to date.

City Manager Jarboe stated depending on the problem, citizens have anywhere from 30 to 90 days to comply with code enforcement action. Mayor Pruette stated 90 days was a long time to wait to smell the foul odor relating to chickens.

Dr. Michael Davis, Ph.D, County Extension Director for Baker County, advised he has a Ph.D. in poultry science and would be happy to answer any questions or concerns from Council.

City Manager Jarboe was concerned because he read that the CDC has issued a warning about salmonella on eggs and chickens, especially for children under five.

Dr. Davis replied there are over 2,400 types of salmonella bacteria which all cause disease. If you dig up dirt anywhere you will find salmonella. There is no place to go, other than the CDC laboratory that you would not potentially come into contact with salmonella bacteria. Chickens are carriers of the bacteria but every living animal can be a carrier. The risk can be reduced by avoiding contact with feces, carefully washing hands with soap and water and avoiding hand to mouth contact. The reason the warning is especially for children under five is because they do not have the immune system of an adult.

Mayor Pruette stated Council should table the ordinance until the City of Jacksonville completes their pilot program.

Councilor Tucker stated some of the research she has done showed it was difficult to keep chickens inside their fences. Dr. Davis replied if the enclosure is built correctly chickens would not be able to get out.

Councilor Tucker asked how long the training classes were for people obtaining permits. Dr. Davis responded there is a one evening class that covers mainly management, breed selection and nutrition.

Mayor Pruette asked if the Building Official would make sure the enclosures are built correctly. City Manager Jarboe replied the structure would have to comply with the Florida Building Code.

City Manager Jarboe suggested that staff meet with Jacksonville and report back to the Council at the June workshop meeting.

Consensus: **FOR STAFF TO GET WITH JACKSONVILLE AND REPORT BACK TO THE COUNCIL AT THE JUNE WORKSHOP MEETING.**

Ord. No. 2014-XX
City Clerk

ORDINANCE NO. 2014-XX, ADMINISTRATION, CITY CLERK SECTION 2: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 2. ADMINISTRATION, DIVISION 4, CITY CLERK, SECTION 2-166 RECALL, SECTION 2-167 COMPENSATIONS, SECTION 2-168, RECORDS MANAGEMENT PROGRAM, AND SECTION 2-169, DUTIES OF THE CITY CLERK AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette agreed to sponsor the Ordinance.

City Clerk Volpe explained City Attorney Krechowski deleted some language in the Section that was not applicable. The duties described in the Code still apply except for "microfilming." She suggested changing "microfilming" to "compact discs." Councilor Wiley has informed her that Section 4(b) did not describe what would happen if a vacancy occurred and Mayor Pruette questioned the salary. Ms. Volpe explained the Charter states: The City Clerk should be appointed by the Council and receive an annual salary to perform the duties to be determined and supervised by the City Council. She suggested that portion of the Charter be added to the Code.

City Attorney Krechowski stated he revised the ordinance based on what was in conflict with the Charter. He left everything else alone. He would add the verbiage from the Charter to the Code that the City Clerk is appointed by Council and the salary is determined by the Council.

Councilor Tucker and Councilor Arthur had no questions regarding the ordinance.

Councilor Wiley asked who was responsible for updating the city website. City Clerk Volpe replied each department head is responsible for their department. Her office is responsible for the City Clerk portion.

Consensus: **FORWARD TO THE MAY REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Res. No. 2014-XX **RESOLUTION NO. 2014-XX:** A RESOLUTION ALLOWING THE CITY MANAGER TO EXECUTE AND DELIVER THE ATLANTIC BOULEVARD MAINTENANCE AGREEMENT TO THE FLORIDA DEPARTMENT OF TRANSPORTATION.

City Manager Jarboe advised this maintenance agreement with Florida Department of Transportation has been in place for a long time. The City of Neptune Beach and the City of Atlantic Beach maintain their sides of Atlantic Boulevard and the Florida Department of Transportation reimburses the cities.

Consensus: **FORWARD TO THE MAY CONSENT AGENDA.**

Res. No. 2014-XX **RESOLUTION NO. 2014-XX:** A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA CHANGING THE CITY PERSONNEL POLICY TO ADD SEXUAL ORIENTATION AND GENDER IDENTIFICATION TO ITS NON-DISCRIMINATION LIST AS FOUND IN SEC. 1.02 OF THE PERSONNEL POLICY.

City Manager Jarboe stated a Resolution is required to change the personnel policy.

Councilor Wiley suggested adding "marital status" and deleting "gender identification."

Councilor Tucker suggested changing "physically & mentally handicap" to "disability."

Councilor Arthur was comfortable with the amendments.

Consensus: **MAKE THE CHANGES AND FORWARD TO THE MAY CONSENT AGENDA.**

Non Conforming
Lots **NON CONFORMING LOTS:**

Mayor Pruette recommended Council hold a special workshop meeting for non conforming lots only.

Councilor Arthur asked to remove this item from the agenda because it was very broad. He would like to meet with staff and bring back something specific.

Consensus: **TABLE TO A FUTURE SPECIAL COUNCIL MEETING.**

Non Conforming
Signs **NON CONFORMING SIGNS:** City Manager Jarboe stated Council extended the time period for businesses to replace pole signs with monument signs for six months and Council needs to decide if they want to amend the Ordinance.

Councilor Tucker stated signs were essential in this economy. They are the most desirable way of marketing and making businesses successful. She felt it was a waste of money to tear down a perfectly good sign. They should be grandfathered in and replaced on a case by case basis while amending the ordinance.

Councilor Arthur did not think it was fair for the businesses that have complied to consider those that did not comply on a case by case basis. He would like Council to review the language in the Ordinance.

Councilor Wiley asked how many pole signs there were within the City. Building Official Don Ford replied there are currently fourteen pole signs. Councilor Wiley asked how many monument signs there were in the City. Mr. Ford replied there are currently thirty-four.

Councilor Wiley felt allowing businesses to comply on a case by case basis may get the city in trouble. He would like to see what Atlantic Beach was doing on their side of Atlantic Boulevard and review the sign ordinance at a another workshop. He added that when the ordinance was passed ten years ago it was part of the overhaul of Chapter 27, Land Development Regulations. Community Development Director Amanda Askew explained ten years ago it was the vision of the city to have all monument signs. There were no citizen complaints at that time.

Mayor Pruette stated it was the vision of the City to be more uniform with signs and clean up the City.

Councilor Wiley stated times have changed. He would like to review and make some changes to the sign ordinance, to perhaps have the pole signs change to monument signs if they are damaged and need repairs or if the business changes ownership instead of having a specific deadline date.

Mayor Pruette suggested Council review the sign ordinance and bring their suggested amendments back to a future workshop meeting.

City Manager Jarboe requested the suggested changes be brought to his attention before placing them on the workshop.

City Attorney Krechowski advised the extension period is good until September.

Consensus: **COUNCIL LOOK AT THE ORDINANCE AND RELAY ANY CHANGES THEY WOULD LIKE TO MAKE TO THE CITY MANAGER AND HAVE AN ORDINANCE DRAFTED FOR COUNCIL TO CONSIDER.**

July 4th Holiday

JULY 4th HOLIDAY: City Manager Jarboe stated he would be sending out a letter to residents regarding what actions the City was not going to tolerate on July 4th and warning citizens what actions the city would not allow.

Director of Public Safety Sembach reported all officers would be on duty on July 4th plus six officers from the Jacksonville Sherriff's Office. He has distinguished three different groups of people that make up the crowd on July 4th. There are the homeowners that give parties in their front yards and carports with kegs of beer. That group keeps to themselves and does not cause any problems. There are the renters that have parties that cause most of the problems and bicyclists. He asked Council to consider an ordinance for obstructing public passageways, refusal to disperse and public profanity. Starting that Thursday, officers will be on duty to make sure items are not set out on the sidewalks. Officers are going to be on duty earlier on July 4th to make sure what happened last year did not happen again and to manage the crowd. They can stop people in the street from drinking alcohol out of obvious containers but they cannot stop people with alcohol in cups. In the past the officers had a

vehicle on the beach (MULE) to help manage the fireworks but the mule is permanently out of service. The best he can do is to manage the situation and make sure it does not get out of hand. He was open to any suggestions.

City Manager Jarboe stated he needed to get Council approval to purchase a new vehicle (MULE) using reserve funds.

Mayor Pruette stated the Council has always supported the Police Department when they have asked for equipment and found a way to provide the funds. She felt Council should do whatever was needed to keep July 4th under control. Last year July 4th was out of control and she was concerned about the city being liable for accidents. She felt the word "can" should be replaced with "will" in the City Manager's letter to residents. She did not support the language that "all public rights of way including streets and sidewalks cannot be blocked unless approved by a permit." She felt streets and sidewalks should not be blocked on July 4th. She added that Jacksonville Beach is tightening their regulations and she was concerned that people from Jacksonville Beach would migrate to Neptune Beach. In the past there were officers on horses and bicycles who helped a lot with crowd control. She felt six officers from Jacksonville were not enough and people were taking advantage of Neptune Beach because they knew we did not have the manpower.

Councilor Tucker agreed safety for residents is a big concern. She suggested Chief Sembach make a list of things he felt would be beneficial to assist the crowd control. Chief Sembach replied they had grant money they use for overtime.

Chief Sembach added early on July 4th last year all his officers were tied up with the collapsed balcony. The day did not get off to a good start. It took his officers three hours to get back on the streets.

Councilor Arthur asked if we could set up a type of processing center for people who are arrested and shuttle them downtown. Chief Sembach replied they write a lot of citations. People are only arrested in serious cases. Councilor Arthur felt examples should be made of people to alert others that there are consequences for their actions. Chief Sembach said they do make arrests, just not that many. There used to be a processing central at Hopkins Street and First Street but it was not used so it was eliminated. Most of the crowd is law abiding citizens that have been drinking and congregating. They usually will move on if a marked vehicle comes by, turns on the siren and tells them to move on.

Councilor Arthur stated he would like to see parties, inflatable's, disc jockeys and bands shut down early so they do not get out of control. Chief Sembach responded he could not take any action unless there was a complaint.

Mayor Pruette stated the bands cause people to gather in the streets and sidewalks. City Attorney Krechowski explained it is not the noise of the band it is the people gathering in the streets and sidewalks to listen, that are causing problems. Chief Sembach replied he has not had any complaints.

Councilor Arthur asked if there was anything the Chief needed financially and if we could get more Jacksonville officers. Chief Sembach replied Jacksonville does not charge us for the officers they provide. Councilor Arthur asked if we could get more officers. Chief Sembach stated there is not an excess of officers available from other cities to provide aide.

City Manager Jarboe stated he would get extra officers if any are available. Mayor Pruette stated the consensus would be if extra money is needed for officers the council will do whatever they could to get the funds. Chief Sembach stated he would check with Jacksonville again.

Councilor Wiley felt having officers showing their presence early in the day would be helpful.

Mayor Pruette asked why the horses and motorcycles were not used anymore. Chief Sembach replied they only had one motorcycle and they could not afford it. The bicycles are over ten years old and officers have to be properly trained at bicycle school. He has one person that is trained and two serviceable bicycles.

Mayor Pruette stated Council appreciated the work of the Public Safety Department. She asked Chief Sembach to report back next month after this weekend's "Opening of the Beaches" with an update on things he might need to help control July 4th. She asked the Chief to look into purchasing another beach vehicle because it was helpful in the years past.

City Manager Jarboe stated he has the authority to relocate line items. If something was needed he would present it at the meeting with an ordinance or resolution to transfer the funds.

Chief Sembach advised he would contact Jacksonville's off duty office about hiring off duty officers.

Councilor Tucker suggested the media be advised of what the City would tolerate this year so that maybe they can help get the word out.

Consensus: **HAVE THE POLICE CHIEF MAKE A LIST OF WHAT HE NEEDED AND BRING BACK TO THE COUNCIL – TO AMEND THE BUDGET AFTER THE POLICE MADE THE PURCHASE.**

Bathroom @
Lifeguard Station

BATHROOM AT LIFEGUARD STATION: Mayor Pruette stated we encourage people to visit Town Center and there should be a restroom somewhere for people to use. She would like staff to investigate if there is a location for one somewhere in the Town Center area and what it would cost. She voiced concern about too many people coming into City Hall to use the facilities.

Councilor Arthur stated a lot of people that come to Town Center eat at the restaurants and use their facilities. He felt even if there was a restroom in Town Center people would still use the City Hall facilities. He added that Jacksonville Beach has public restrooms but they had the staff to support them. He was concerned about the cost of staff to maintain and service a public restroom in Town Center. He would like hear what the Town Center merchants thought of the idea. He was also concerned with the parking problems.

Mayor Pruette advised the Convention Development Tax fund could be used to fund the facility.

Councilor Wiley asked if the Mayor wanted a permanent restroom or a port-o-let. Mayor Pruette replied she was talking about a small permanent unisex restroom. Councilor Wiley stated it would depend on the location and the cost. He suggested Atlantic Beach and the Town Center merchants contribute to the cost.

Councilor Tucker agreed location was a concern also what the cost would be to maintain the facility. She questioned if it would be ADA accessible. City Manager Jarboe replied the public facility would be required to be ADA accessible. She agreed with seeking funding from Atlantic Beach and Town Center merchants.

Consensus: **STAFF GATHER INFORMATION ON COST AND LOCATION AND REPORT BACK TO COUNCIL.**

Surplus Items

SURPLUS ITEMS: City Manager Jarboe explained the two surplus vehicles were confiscated and were used for undercover work. The money from the sales will be used toward the purchase of another police car.

Consensus: **FORWARD TO THE CONSENT AGENDA.**

PUBLIC COMMENTS

Mike Miller, 106 Myra Street, was concerned about the 4th of July fireworks and partying. He felt a mule would be very affective. He stated renters were the biggest problem because they have no responsibility. He asked if there was some way the renters could be held accountable and fined for misconduct.

Alan Martin, 1113 First Street, suggested renting a trailer like portable restroom facility on the weekends instead of building one. He asked about the possibility of assistance from the Mayport Naval Station police force for the 4th of July.

Joe Wolke, 1900 Strand Street, wanted to make sure he understood that normal lawn maintenance would not require a right-of-way permit. Lawsuits for liabilities in the city's right-of-way were handled by the city's insurance company with the city paying a deductible and there is a process for appeals.

Lynda Padrta, 1113 First Street, stated she has not seen Jacksonville Sherriff officers get out of their vehicles on past 4th of July's. She felt arresting some people might have an effect on others' behavior. She was concerned about the concept of salmonella from chickens. The city should not be responsible for home owners incompetence to maintain what they have placed in the city's rights-of-way

Jennifer Hasler, 900 Cedar Street, felt a large trailer in the area, implying that people would be arrested for misbehavior, would be effective. She asked what the reference to the CDC regarding salmonella was.

Joshua Massenger, 220 Davis Street, suggested placing barricades with signage warning visitors on the 4th of July of things that will not be tolerated. He also suggested setting up a command post in the church parking lot between Jacksonville Beach and Neptune Beach.

COUNCIL COMMENTS

Mayor Pruette stated she was a graduate of the Jacksonville Beach Police Academy and they use their Citizens to help their police force during events. She suggested discussing the possibility.

Adjournment

There being no further business, the meeting adjourned at 8:30 p.m.

Harriet Pruette, Mayor

Attest:

Lisa Volpe, CMC, City Clerk

MINUTES
REGULAR CITY COUNCIL MEETING
APRIL 7, 2014, AT 6:00 P.M.
CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Regular Meeting of the City Council of the City of Neptune Beach was held April 7, 2014, at 6:00 p.m. in the City Hall Council Chambers, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Assistant Police Chief Tony Carrillo
Director of Public Safety David Sembach
Deputy City Clerk Karla Strait, CMC

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Wiley to lead the pledge of allegiance.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS

Mayor Pruette introduced Crystal Broughan as the City's new Special Magistrate for Code Enforcement. Crystal Broughan stated she looked forward to working with the City.

APPROVAL OF MINUTES

Moved by Tucker, seconded by Arthur.

Minutes

Motion: **TO APPROVE THE FOLLOWING MINUTES:**

MARCH 3, 2014, REGULAR CITY COUNCIL MEETING
MARCH 3, 2014, WORKSHOP CITY COUNCIL MEETING
MARCH 17, 2014, WORKSHOP CITY COUNCIL MEETING

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

City Clerk Volpe stated this is an election year for Council Seats 4 and 5. Richard Arthur and Rory Diamond are running for Seat 4. Qualifying is in June.

CITY MANAGER REPORT

- Quotes were received for landscaping of the City Hall grounds. They ranged from \$150.00 to \$4,100.00. He would like Council to allow him to move forward using \$2,500 towards the landscaping. The maintenance would be included in the Town Center maintenance program.

Consensus: **TO ALLOW THE CITY MANAGER TO MOVE FORWARD WITH \$2,500 FOR CITY HALL LANDSCAPING.**

- About 10% of the pipe for the Bal Harbour project has been laid and two of the five manholes have been completed. The City Engineer found a way to shorten the project by 800 feet going from 5,900 feet of piping to 5,100 feet of piping.

COMMENTS FROM THE PUBLIC

Melissa Covey, 2014 Landwood Street, Jacksonville, Tobacco Free Jacksonville Coalition, explained the State Senate passed a bill covering the basics of e-cigarette sales, but not the age group. The State House is ready for a vote on a bill that would treat e-cigarettes the same as tobacco products. A preemption clause has been put into the Bill that would not allow local governments to pass laws controlling tobacco sales. She opposed HB 169 and asked Council to contact State representatives requesting that they vote "no" on HB 169.

Marsha Flock, 13364 Beach Boulevard, Jacksonville, did not understand the Human Rights Resolution. She felt it should be explained better. She also supported Councilor Tucker's opinion and concerns. She supported the LGBT community.

Marcelle Bessman, Jacksonville, supported the Human Rights Resolution. She would be very proud of Neptune Beach for being fair to every person. She felt the current laws did not include LGBT community because it did not include the transgender and gender identity. She urged Council to support the Resolution.

Richard Salkin, 336 Sunrise Circle, supported the Human Rights Resolution. He urged Council to vote in favor of the Resolution. It was his opinion that a vote in favor of the Resolution would not support a particular lifestyle, but would deal with whether or not people could be discriminated against on the basis of who they are.

Howard McMinn, 1116 Cedar Street, spoke in opposition of the Resolution. He felt it was not necessary because everyone was protected and had equal rights. He was concerned about the many unintended consequences that would come from the Resolution. Business owners might be forced to deal with employees changing their dress, behavior, and expression. There is also the issue of restrooms. He felt the Resolution would create a special class of citizens with special protection based on their expression. He added that more cities have rejected the proposed legislation than adopted it due to problems associated with the language, not because they are homophobic. He felt the Resolution was flawed because it did not include religion and it should be rewritten to be consistent with other anti discrimination language.

Sharon Krause, 4845 Plymouth Street, Jacksonville, strongly opposed the Human Rights Resolution.

Stephen Batson, 1786 First Street, supported the Human Rights Resolution. He added that his experience with the LGBT community has been a good one. They are responsible good citizens and they are believers. He felt this was a civil and moral rights issue and it was the right thing to support the Resolution.

Rosan Larizza, 721 Neptune Lane, supported the Human Rights Resolution.

Tricia Russell, 8720 County Road 13 North, St. Augustine, supported the Human Rights Resolution. She felt this would afford the LGBT community the same rights as already provided for many other minorities and the City should not wait for something to happen at the State level.

Lynda Padrta, 1113 First Street, supported the right-of-way Ordinance. She hoped the sidewalk lease agreement tenants were paying the City retail for the rent. She also supported the Human Rights Resolution.

Michael Sheklin, 1985 Brista DeMar Circle, Atlantic Beach, strongly supported the Human Rights Resolution. He felt supporting the Resolution was the right thing to do and those who opposed it already had those rights.

Raymond Johnson, 3036 Stratton Lane, Jacksonville, Founder and President of Biblical Concepts Ministries, opposed the Human Rights Resolution. He added that the people spoke several years ago and the vote was 62% to pass a marriage amendment for one man and one woman. He felt the State has spoken as well by not taking a vote on the bill, adding that the bill is so outrageous and unfit that it has not seen the light of day on the house floor in Tallahassee. He felt every citizen already has the same constitutional right that he has. It would be a special civil right and there was no basis or need for such law. He prayed Council would vote it down.

Chevara Orrin, 2069 Market Street, Jacksonville, supported the Human Rights Resolution.

Ron Patronik, 1520 Leeward Lane, opposed the Human Rights Resolution. He was concerned about its ramifications.

Ada Hammond, 2348 Seminole Reach, Atlantic Beach, felt it was incorrect to state that current laws protected sexual orientation. She supported the Human Rights Resolution.

Mandy Bouton, 231 Cherry Street, favored the Human Rights Resolution.

Linda Huffman, 501 16th Avenue South, Jacksonville Beach, favored the Human Rights Resolution.

CONSENT AGENDA / NONE

VARIANCES / NONE

ORDINANCES

Ord. No. 2014-04 ORDINANCE NO. 2014-04, PUBLIC RIGHT-OF-WAY, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 18-4, USE OF PUBLIC RIGHT-OF-WAY.

City Attorney Krechowski advised he made the changes to the Ordinance that Council suggested at the March 17, 2014, workshop meeting also that all violations will go before the Special Magistrate.

Moved by Jolly, seconded by Arthur.

Motion: **TO PASS ORDINANCE NO. 2014-01 ON FIRST READ AND FORWARD TO THE APRIL WORKSHOP MEETING.**

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Wiley, Pruette

Noes: 1 – Tucker

MOTION CARRIED

MOTION CARRIED

Res. No. 2014-04 RESOLUTION NO. 2014-04: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA, DESIGNATING THE PROPERTY LOCATED AT 1223, 1307, AND 1311 ATLANTIC BOULEVARD, ON BEHALF OF PENMAN PLAZA ASSOCIATION, LLLP, AS A BROWNSFIELD SITE.

City Manager Jarboe explained this allows the property that has been environmentally damaged, to be cleaned up and put to good use. It also provides the possibility for federal grants to help with the process.

Moved by Tucker, seconded by Jolly.

Motion: **TO ADOPT RESOLUTION NO. 2014-04.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

Bal Harbour

BAL HARBOUR DRAINAGE GRANT: City Manager Jarboe advised a study was done on the Bal Harbour area by engineers and Council asked the City to seek grant money. The grant is 75% to 25%

Councilor Arthur stated the engineer explained at the workshop meeting that this would only have an impact on eight homes with water coming 11 feet from the houses instead of 10 feet. It also would not help in the event of a large storm. He was concerned about the overall return on the money and felt it may be better used elsewhere.

City Manager Jarboe advised there was a time limit for obtaining the grant. He explained it would also help with the flooding from a ten year storm. Because the City is on the beach we are limited in what we can do. Without pump stations, dams, and big lakes, if there is a large storm there is going to be flooding.

Moved by Pruette, seconded by Tucker.

Motion: **TO APPROVE THE BAL HARBOUR DRAINAGE GRANT.**

Roll Call Vote:

Ayes: 4 – Jolly, Tucker, Wiley, Pruette

Roll Call Vote:

Aye: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED**COUNCIL COMMENTS**

Councilor Tucker read the following statement:

"I understand that certain people have strong feelings regarding this issue, however, I do not appreciate people bullying, name calling or making intimidating remarks in order for me to vote in favor of their position. I should not have to feel that my job at the University is in jeopardy if I do not

cast my vote in the intended way. I believe in equality for all. On the contrary to local supporters of this resolution, I'm not a bigot, a homophobic or latent lesbian. I take my position on the city council seriously and I feel that it is my responsibility to represent all citizens of Neptune Beach. I personally went to Tallahassee and met with our representatives. They advised me that they are still investigating the pros and cons of the language in the proposed bill, consequently I believe it would still be premature to send a resolution to the State. Therefore that is why I voted "no" on the issue at this time."

Mayor Pruette wanted to discuss the idea of placing a port-o-let at the lifeguard station. She added she has seen busloads of people come into City Hall to use the restrooms. She would be placing the issue on the April workshop agenda meeting for discussion.

Adjournment

There being no further business, the meeting adjourned at 7:08 p.m.

**MINUTES
WORKSHOP CITY COUNCIL MEETING
MARCH 17, 2014 AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held March 17, 2014, at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
Deputy City Clerk Karla Strait, CMC

Community Development Director Amanda Askew
City Engineer Jim French
Director of Finance Steve Ramsey

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m. and wished Councilor Tucker a Happy 30th Birthday.

PRESENTATIONS

PRESENTATION OF AUDIT FY 2012 / 2013: Mr. Ron Whiteside, representative for Purvis, Gray & Company, presented the results of the audit. They gave the City a clean or unqualified opinion.

Councilor Arthur stated he would like to have the Police Retirement Fund Board address the Council at the May workshop meeting.

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Bicycle traffic is becoming an issue on First Street. This past Saturday a bicyclist fell off his bike and was ran over by another bicyclist. Luckily the individual was not badly injured.
- Chief Sembach will be reporting to Council his plans for handling the July 4th crowd at the April 21st Workshop City Council meeting.

- The City hopes to begin repaving some streets soon. The purchase order to piggyback on the City of Jacksonville contract has been issued. The City is going to try to pave 25% of the roads each year for the next four years.
- The Public Services Department is preparing the beach crosswalks. There are problems with popup nails and red ants.

Vice Mayor Jolly questioned if any sign permit applications had been received since Ordinance 2014-07, to allow an additional 180 days to convert pole signs to monument signs, was adopted at the March 3, 2014, meeting. City Manager Jarboe replied one permit application was received but it was withdrawn. There are a remaining 22 pole signs that need to be converted. The City will be mailing notices to those businesses every month reminding them to obtain a permit to convert their sign.

Councilor Arthur asked if there was a master map and time table for the water, sewer and paving projects. City Manager Jarboe replied there was not a map or time period for the projects. The project completion times would depend a great deal upon weather conditions.

CITY CLERK'S CONSENSUS LIST

Mayor Pruette asked if there were any questions relating to the City Clerk Consensus List. There were no questions asked regarding the contents of consensus list.

PUBLIC COMMENTS

Kris Matson, 540 Hopkins Street, supported the Human Rights Resolution.

Karen Morian, 2043 Dursford Terrace, Jacksonville, Elected President of United Faculty of Florida, FCCJ, supported the Human Rights Resolution.

Larry Mays, 1701 Lighty Lane, encouraged Council to join him in opposition of the Human Rights Resolution.

Theresa Bugler, 217 North Street, stated she supported the Human Rights Resolution but waived her right to speak.

Dr. Tom Bary, Pastor, 14223 Crystal Cove Drive South, opposed the Human Rights Resolution. He felt human rights issues were already covered in the Civil Rights Act of 1992.

Ada Hammond, 2348 Seminole Reach Court, Atlantic Beach, supported the Human Rights Resolution.

Craig Mears, 572 Magnolia Street, stated he believed in equality for all and urged Council to support the Human Rights Resolution.

Susan Wilkinson, 1001 Neptune Lane, thanked Vice Mayor Jolly for revising the Human Rights Resolution and asked Council to support it. She read the following statement from former School Board Chairperson Nancy Broner:

"I had planned to be at the City Council meeting tonight but I am at the hospital with a new granddaughter. She is only a few hours old and all I know about her at this time is her race, gender and nationality. I don't know if she will grow up to have a liability of what her sexual orientation will be, but it is my desire for her to grow up in

a community that respects and welcomes her as a valued member of our society. Please support this Resolution to create an inclusive Neptune Beach."

Thomas Serwatka, 1431 Riverplace Boulevard, #1209, University of North Florida Administrator, stated he supported the Human Rights Resolution, for himself as well as the students and faculty at the University of North Florida who were gay, lesbian, bisexual, or transgender.

Howard McMinn, 1116 Cedar Street, respectfully asked Council to not be overly influenced by those who were not business owners or residents of the City of Neptune Beach regarding the Human Rights Resolution, which he opposed because he felt it was already illegal to discriminate based on race, color, religion, sex, national origin, age, handicap, or marital status. He supported the proposed Noise Ordinance, and the Bal Harbour drainage project.

Susie Miller, 106 Myra Street, supported the Human Rights Resolution and equal rights for all.

John Campbell, 1320 Strand Street, favored the proposed Noise Ordinance.

Rose Marie Campbell, 1412 Strand Street, favored the proposed Noise Ordinance.

Doug Myers, 707 Peninsular Place, Jacksonville, stated he was present on behalf of the Green Market and would like to speak later if possible.

Steven Haerter, 106 19th Avenue South, Jacksonville Beach, thanked Mayor Pruette and Vice Mayor Jolly for proposing the Human Rights Resolution. He felt the Resolution would benefit the entire beaches community and send a positive message to the world. He encouraged Council to support it.

Dan Gilbert, 516 Lighthouse Court, former Principal of Fletcher High School, supported the Human Rights Resolution. He stated while he was Principal of Fletcher High School, the school implemented a plan to improve equality. He encouraged Council to support it.

Judy Sheklin, 1985 Brista Del Mar Circle, Atlantic Beach, thanked Vice Mayor Jolly for his work on the Human Rights Resolution and for bringing it forward. She supported its approval.

Julie Durden, 4041 Eunice Road, Jacksonville Beach, supported the Human Rights Resolution. She felt it was the city's civic responsibility to approve the Resolution.

Marina Hodgini, 721 Neptune Lane, supported the Human Rights Resolution.

Wells Todd, 1761 Sea Oats Drive, Atlantic Beach, favored the Human Rights Resolution.

Linda Huffman, 501 16th Avenue South, Jacksonville Beach, supported the Human Rights Resolution.

Devon Ritch, 2525 Spokane Avenue East, Atlantic Beach, Beaches Local Food Network, Beaches Green Market, thanked the Council for their continued support. She explained the market was negotiating a parking agreement with the adjacent property owners. The agreement includes a monthly payment of \$175.00 for use of the parking lot. They have also added an additional insurance policy which is \$623.00 per year. In light of these additional costs the Beaches Local Food Network

Advisory Council would like to ask Council to consider reducing the \$2.00 weekly vendor fee to \$1.00. This would amount to \$128.00 per month towards beautification of Jarboe Park.

Rose Anne Larizza, 721 Neptune Lane, thanked Mayor Pruette for her courage to bring forward the Human Rights Resolution and thanked Vice Mayor Jolly for revising the original version. She felt the Resolution was about equality and it would not affect Neptune Beach in any way.

Lynda Padrta, 1113 First Street, thanked Vice Mayor Jolly for his version of the Human Rights Resolution. She felt local communities needed to let State Representatives know what they wanted. She asked if the Noise Ordinance included fireworks. She also stated she had some recent problems parking near businesses during the operating hours of the Beaches Green Market.

PROPOSED ORDINANCES

Ord. No. 2014-04 ORDINANCE NO. 2014-04, USE OF PUBLIC RIGHT-OF-WAY: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 18-4 USE OF PUBLIC RIGHT OF WAY.

City Manager Jarboe explained this Ordinance requires adjacent property owners to obtain a permit for doing anything in the city's rights-of-way and also defines what they are allowed and not allowed to do in them. It also holds the user responsible for liability and damages to city infrastructure.

Councilor Wiley suggested the following changes:

- (e) All existing non-conforming items may not be replaced ~~or repaired~~ without first obtaining a right-of-way permit.
- (h) First Violation should be \$100 in lieu of \$200. and subsequent violations should be handled by the special magistrate in lieu of \$500.
- (f) 1 and 2 were already addressed in the right-of-way permit and did not need to be in the ordinance.

Councilor Wiley also suggested amending the language in the right-of-way permit regarding shrubbery because it was removed from the ordinance.

Mayor Pruette asked City Attorney Krechowski to address (d) and (e) regarding the Municipal Separate Storm Sewer System Drainage Permit. City Attorney Krechowski explained (d) refers to future whereas (e) refers to existing nonconformities.

City Attorney Krechowski explained (f) 1 and 2 relate to items a citizen may put in the right-of-way not city items. Citizens would assume the liability for any items they place in the right-of-way not items the city has in the right-of-way. The suggested violations in (h) are a guide for the special magistrate.

Councilor Wiley questioned the issue of citizens being liable for something that may happen in the right-of-way. City Attorney Krechowski explained if the city issued a building permit for the construction of a home and someone was injured that person could not hold the city liable. In this situation if someone obtains a permit to put something in a city right-of-way and it causes a problem in the future the city would not be held liable. In essence if someone wishes to do something in the city right-of-way then they assume the responsibility if something should happen.

Councilor Wiley was concerned if citizens were held liable if someone were to trip and fall

over a sprinkler head that was in the right-of-way that they would not continue to take care of that right-of-way. He would like to try to work that out if possible.

Councilor Arthur questioned (a) regarding concrete and asphalt replacement when the city repairs drainage. City Manager Jarboe explained the city would pay the amount of the city's cost to replace concrete or asphalt that was damaged by the city. The city would not pay the cost to replace pavers.

For the Record Councilor Arthur felt the omission of (i)7. Landscaping to be held at 5 inches was important. He felt the city should encourage beautification of public places. He disagreed with omitting the word "repairs" in (e) and asked if "repairs" could be defined.

Councilor Wiley asked if a right-of-way permit would be necessary to repair or replace mailboxes. City Attorney Krechowski replied "yes." City Manager Jarboe stated the State requires central locates and the city needs to be aware of any digging due to underground utilities.

Mayor Pruette asked if there had been any problems in the past with damage to infrastructure. City Manager Jarboe responded "yes."

City Engineer Jim French stated there have been issues in the past where public utilities, such as gas lines and water mains, have been hit in the rights-of-way.

Councilor Tucker suggested adding an explanation in (a) regarding the city not replacing damaged pavers. She asked since (i) was being deleted there would no longer be a list of approved plants which the City Attorney replied "yes" approved plants would no longer be in the ordinance. She asked if permits would be required to repair sprinkler heads. City Attorney Krechowski replied "yes." She asked if there would be a cost for the right-of-way permits. City Attorney replied "no."

Councilor Tucker voiced concern about informing the citizens and enforcement of the ordinance. City Manager Jarboe explained the ordinance would be enforced through the code enforcement process.

Vice Mayor Jolly felt "repair" and "replace" needed to be clearly defined. He also felt the cost for violations should be lower. City Manager Jarboe stated the normal penalty is \$250.00 per day. Mayor Pruette asked what the Council felt was reasonable. Councilor Wiley thought \$40.00 or \$50.00 per day was reasonable.

Mayor Pruette suggested looking at the right-of-way use ordinances for Jacksonville Beach and Atlantic Beach to see what they did. Councilor Wiley stated he had a copy of the Jacksonville Beach and it was covered in three paragraphs.

City Attorney Krechowski agreed the words "repair" and "replace" needed to be clearly defined. He explained the idea is for the City to get an idea of what is being done in the rights-of-way and if it having any impact on the infrastructure.

Vice Mayor Jolly asked what would happen if someone was caught doing something in the right-of-way without a permit. City Manager Jarboe replied for all code violations there is first a courtesy notice, then a formal letter giving them a specific amount of days to correct the violation, then if they do not comply they must go before the special magistrate and the special magistrate may issue a fine.

Mayor Pruette asked if there was anything Council wanted to completely delete from the proposed ordinance.

Councilor Wiley stated he would like the word "repair" removed.

Councilor Wiley also stated he would like (f) 1. and 2. removed. City Attorney Krechowski recommended leaving (f) 1. and 2.

Councilor Wiley stated he would like to look at what other cities are doing.

Consensus: **STRIKE OUT THE WORD REPAIR AND LEAVE (F) 1. AND 2. FORWARD TO THE APRIL REGULAR MEETING FOR FIRST READ AND TO THE APRIL WORKSHOP.**

Ord. No. 2014-XX

ORDINANCE NO. 2014-XX, UNNECESSARY AND EXCESSIVE NOISES: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING SECTION 13-5. BREACH OF PEACE PROHIBITED; UNNECESSARY AND EXCESSIVE NOISES AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated she had received complaints from several residents regarding construction noises late at night. She wanted to amend that portion only of the noise ordinance. The Code currently allows construction noises from 7:00 a.m. to 10:00 p.m. and she would like to change it to 7:00 a.m. to 8:30 p.m.

Councilor Arthur suggested changing it to 7:00 a.m. to 7:00 p.m. on weekdays and 9:00 a.m. to 7:00 p.m. on weekends and changing the language to read the hours you can work instead of having it read the hours that you cannot.

City Attorney Krechowski agreed it would make more sense to change the language to read "when you can" instead of "when you can't". He felt the phraseology should also be changed in the other portions of the ordinance so they are consistent.

Councilor Wiley agreed 10:00 p.m. was late for construction noises. He asked if there was a decibel level. City Attorney Krechowski advised the decibel level was no longer a legally acceptable determination for noises.

Vice Mayor Jolly agreed with changing the phraseology and the hours of 7:00 a.m. to 7:00 p.m. for construction noises. He suggested changing the hours for power tool noises from 11:00 p.m. to 8:30 p.m or 9:00 p.m.

Councilor Wiley thought 9:00 p.m. was okay for power tool use.

Councilor Arthur agreed with the hours of 7:00 a.m. to 9:00 p.m. for power tool noise.

Councilor Tucker agreed with the changing the hours for construction and power tool noises as suggested.

Consensus: **FORWARD TO APRIL REGULAR MEETING FOR FIRST READ.**

RECESS / RECONVENE

Recess/Reconvene

Mayor Pruette called a recess at 7:50 p.m. and reconvened the meeting at 8:00 p.m.

CONTRACTS / AGREEMENTS

Sidewalk Lease/
North Beach Fish
Camp

SIDEWALK LEASE AGREEMENT / NORTH BEACH FISH CAMP:

Sidewalk Lease/
Flying Iguana
Tequila Bar

SIDEWALK LEASE AGREEMENT / FLYING IGUANA TEQUILA BAR / AL'S PIZZA PARTNERS, INC.

Mayor Pruette stated the City Manager has the authority to approve the sidewalk lease agreements.

City Manager Jarboe stated both businesses were good corporate citizens and made their lease payments on time.

Councilor Arthur was concerned about smoking in the outside dining areas. City Manager Jarboe stated he could add that stipulation to the lease agreements and speak with the owners.

Councilor Arthur asked if there was a State law regarding smoking under covered roofs. City Manager Jarboe stated he would look into it.

Consensus: **ALLOW CITY MANAGER JARBOE TO MOVE FORWARD WITH THE SIDEWALK LEASE AGREEMENTS.**

Green Market
Lease

GREEN MARKET LEASE AND REVOCABLE USE AGREEMENT RECOMMENDATIONS:
Mayor Pruette stated City Manager Jarboe has drawn up a lease agreement with the Green Market for Council to consider. City Manager Jarboe stated the lease may be changed to a license but it would not change the terms of the agreement.

City Attorney Krechowski advised technically speaking the agreement is not a lease because we are giving them permission to use the property. He was working with their attorney on that issue.

Councilor Wiley asked that the money collected from the vendors be used for the beautification of all our or parks, not just Jarboe Park.

Mayor Pruette stated the reason the rent money was used to beautify Jarboe Park was because of the use and damage created by the vendors.

Councilor Arthur advised he originally requested the money be used for improvements to Jarboe Park because the money was originated from renting stalls in Jarboe Park and the money would be used to improve that area.

Consensus: **ADD THAT THE MONEY RECEIVED FROM VENDOR RENTS GO TOWARDS BEAUTIFICATION OF ALL PARKS IN NEPTUNE BEACH.**

ISSUE DEVELOPMENT

Res. No. 2014-
XX

RESOLUTION NO. 2014-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA, THE PASSING OF LAWS BY THE STATE OF FLORIDA LEGISLATURE PROHIBITING DISCRIMINATION ON THE BASIS OF A PERSON'S SEXUAL ORIENTATION AND GENDER IDENTITY OR EXPRESSION.

Mayor Pruette thanked Vice Mayor Jolly for working with Nancy Bronner and Sue Wilkinson to come up with a new version of the equal rights resolution.

Vice Mayor Jolly pointed out that the words "legislation" within the Resolution needed to be changed to "legislature" and in Section 1. the words "full filing" needed to be changed to "fulfilling."

Vice Mayor Jolly stated when he was given the task of creating this new version he read the Constitution and realized that there was a need to pass the resolution to create equality for all citizens.

Councilor Tucker felt historically issues dealing with employment were handled at Federal and State levels. She would not support the Resolution.

Councilor Arthur stated the previous version of the Resolution was very specific to State bills and this new version brings it to a very local level. He supported moving it forward with the new language.

Councilor Wiley stated based on what is already covered in the Constitution and the Civil Rights Act; he would not support the Resolution.

Consensus: **FORWARD TO THE APRIL REGULAR COUNCIL MEETING FOR A VOTE.**

Res. No. 2014-XX

RESOLUTION NO. 2014-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA, DESIGNATING THE PROPERTY LOCATED AT 1223, 1307, AND 1311 ATLANTIC BOULEVARD, ON BEHALF OF PENMAN PLAZA ASSOCIATES, LLLP, AS A BROWNSFIELD SITE.

Community Development Director Askew explained the owner of the Penman Plaza shopping center was seeking a Brownfield designation with the State. The first step in the process was to be recognized by the local governing body. The local government has to pass a Resolution supporting it. They are also required to present a plan to the Department of Environmental Protection regarding how the waste will be removed. The designation provides protection for the site, tax credits, and makes it easier to develop.

City Manager Jarboe stated staff supporting the approval of the Resolution because it would lead to quick development process in the area.

Vice Mayor Jolly asked if there were any obligations for the City. Ms. Askew responded there were no legal or monetary obligations on the City.

Councilor Arthur asked if the process would be done in phases. Ms. Askew replied it would depend upon what was found.

Councilor Arthur asked if there were any underground utilities on the site. City Engineer Jim French stated there was a water main that ran back behind the Days Inn side.

Councilor Wiley asked if this would fall under the stormwater ordinance recently adopted. Ms. Askew replied the ordinance was for future development and this was not considered development. There is a provision in the remediation plan that all the runoff will have to be contained on the site.

Councilor Arthur asked if the water would have to be treated differently during the clean up process.

Mike Mechling, Mechling Engineering & Consulting, stated there have been swells investigated across the undeveloped portion of the property. The solid waste on the property extends no further than ten feet underground. In order to remove that solid waste the water would be treated on site and the waste would be excavated and taken to a landfill. In addition the Department of Environmental Protection will require a site assessment on the quality of the soil and ground water after the clean up to ensure the ground water is clean.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR A VOTE AND PUBLIC HEARING.**

Bal Harbour
Drainage

BAL HARBOUR DRAINAGE GRANT: City Manager Jarboe explained a study conducted by drainage engineers recommended improvements to the Bal Harbour area. The Community Development Director and City Engineer applied for grant from FEMA because it was beyond the ability of the City to afford it. The grant would pay for 75% of the project and the City would pay the remaining 25% from the Better Jacksonville Plan fund.

City Engineer Jim French advised this grant is for phase one of the project which includes the design and permitting. This grant does not authorize funds for the construction. Once phase one is complete they will submit the design and permits to FEMA for funding for phase two. If approved phase two will potentially be a 75% to 25% split. The first phase would total \$147,130 of which the City's share would be \$36,782.

City Manager Jarboe asked Mr. French how much water the project would reduce and how far away the water would be from the houses. Mr. French stated this will reduce the flooding on Magnolia Street and Bay Street. This will be a ten year storm improvement on Magnolia Street and a 25 year storm improvement on Bay Street.

Councilor Arthur asked if this project would prevent the waterline from coming within ten feet from the homes. Mr. French replied the project will get the water to remain in the streets and basically keep the water from entering homes.. Councilor Arthur asked how many homes this would affect. Mr. French replied it would affect about ten to twelve homes.

City Manager Jarboe explained there was nothing the City could do to reduce flooding for over a ten year storm because there is not enough gravity flow, and we do not have land to build lakes or dams. This will help during normal storms but it will not help during a good size tropical storm or hurricane.

Councilor Wiley asked if this would affect anything south of Fifth Street. Mr. French replied the initial model did not show any downstream impact.

Councilor Wiley questioned if there was chance the City would not get the grant for phase two of the project. Mr. French responded once phase one is complete the design and permits would be submitted for approval for phase two. If by chance we did not receive the grant for phase two, we would still be able to use the permits and design. City Manager Jarboe stated we had a good chance of obtaining the grant.

Vice Mayor Jolly asked what size the pipeline would be. Mr. French replied initially it was a 48 inch pipe. He did not think he would need anything larger.

Vice Mayor Jolly asked if phase one would look into whether or not there would be a downstream effect. Mr. French stated "yes."

City Manager Jarboe stated the plans had to be submitted to the State before September 20, 2014. The sooner Council approves the grant the better chance we have of getting it. City Engineer French added once the contract is executed and we show good faith that we are moving forward with the project he can ask for an extension, but it is not guaranteed.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR A VOTE.**

Agenda Review /
Open
Communication

AGENDA REVIEW / OPEN COMMUNICATION: Mayor Pruette stated one of the hardest things for elected officials to do is to publicly state something negative about a city employee. She explained at the last meeting she made the comment that "there were too many mistakes coming out of the City Clerk's Office" and she felt there were some issues that

needed to be addressed. City Clerk Volpe has been ill and out of the office this week and asked Deputy City Clerk Strait to prepare a memorandum for her requesting the Council postpone this discussion until she could be present. She added the City Clerk's office is the only department the Council had under their control, all other departments were under the City Manager's supervision. She thanked Deputy City Clerk Strait for doing a good job this week working with City Manager Jarboe to prepare tonight's meeting agenda and for being present tonight.

Mayor Pruette explained the Council had to discuss what they expected from the City Clerk's office at a public meeting, under the Sunshine Law, and asked for their opinions.

Councilor Wiley explained the Code of Ordinances listed the duties of the City Clerk, mostly related to recordkeeping, preparing the agenda and the minutes. He felt those needed to be reviewed by the Council as body, and may need to be amended. He felt he had not been utilizing the clerk's office as much as he could have because he was not aware of the extent of assistance it could provide. He thought the duties and responsibilities needed to be reviewed and suggested implementing an evaluation process.

Councilor Arthur felt the duties, responsibilities, and standard operating procedures needed to be clearly defined and the Clerk's office needed to be held accountable. He would like a clearer picture of how the agenda packet information comes together and how they are prepared. He felt some of the problem was communication. He suggested either a biannual or annual evaluation to see if the responsibilities were being met and if they were not being met finding someone who could meet the expectations.

Councilor Tucker stated she has worked with both City Clerk Volpe and Deputy City Clerk Strait and would like both Clerks' present for the Council workshop discussion.

Vice Mayor Jolly stated his contact with the Clerk's office was essentially receiving the agenda packets and the meeting minutes. He added that he would have a problem evaluating an employee that he hasn't told what he expected. He felt it was the right idea for Council to let the Clerk's office know what they expected of them. He suggested setting those expectations and having an evaluation in six months to see that those expectations were being met.

Mayor Pruette felt it would be unfair to the City Clerk if the Council as a body did not tell her what they expected. She would like to work together as a Council to resolve the issues.

City Attorney Krechowski advised there were inconsistencies in the Code regarding the City Clerk position. He would prepare a revised ordinance for Council to review at the workshop meeting.

Deputy City Clerk Strait stated the City Clerk's office recognized there had been some recent mistakes and that they would do whatever possible to serve the Council better and they are open to any suggestions from the Council.

Mayor Pruette stated she appreciated all the City Clerk's office did.

Consensus: **FORWARD TO THE APRIL WORKSHOP MEETING FOR FURTHER DISCUSSION.**

Councilor Tucker asked Deputy City Clerk Strait if she would be present at the April workshop meeting for the discussion. Ms. Strait replied "absolutely."

PUBLIC COMMENTS

Mike Miller, 106 Myra Street, supported the Human Rights Resolution.

Linda Huffman, 501 16th Avenue South, Jacksonville Beach, supported the Human Rights Resolution and the proposed noise Ordinance.

Marina Hodgini, 721 Neptune Lane, supported the Human Rights Resolution.

RoseAnne Larizza, 721 Neptune Lane, supported the Human Rights Resolution.

Lynda Padrta, 1113 First Street, suggested "repair" be defined as "the minimum necessary for public safety in the right-of-way ordinance. She questioned if there was language in the right-of-way ordinance to revoke a permit. She felt the language on the permit should be consistent with the language in the ordinance. She questioned if the Noise Ordinance covered delivery trucks late at night. She stated Beaches Chapel visitors and staff were still parking on the edge of the ditch and their construction fences were down. She questioned if Beaches Chapel completed the drainage work they committed to do for their addition. She stated she has not received an answered to her question from a few months ago regarding the current density in the R-4 district.

COUNCIL COMMENTS

Councilor Tucker stated there were some issues on tonight's agenda that were difficult She will be going to Tallahassee next week to meet with delegation and see what she could learn from that process, and she still had some residents to meet with.

Adjournment

There being no further business, the meeting adjourned at 9:05 p.m.

Harriet Pruetten, Mayor

**MINUTES
WORKSHOP CITY COUNCIL MEETING
MARCH 3, 2014 AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held March 3, 2014, at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Assistant Chief of Police Tony Carrillo
Building Official Don Ford
Community Development Director Amanda Askew

**Call to
Order/Roll Call**

Mayor Pruette called the meeting to order at 6:00 p.m. and asked City Attorney Krechowski to lead the pledge of allegiance.

**Monument
Signs**

SIGNS / POLES / PYLON OR MONUMENT: City Manager Jarboe explained Ordinance No. 2005-12 required all pole signs to be converted to monument signs before April 5, 2014. He proposed an emergency Ordinance No. 2014-07 to extend the time for compliance for 180 days.

Councilor Arthur stated a notice was sent on February 5th to the businesses that were noncompliant. He asked if any notices were sent prior to that one. City Manager Jarboe explained notices were sent out in 2005 and 2006. Councilor Arthur supported changing the existing pole signs to monument signs. He felt an extension of 180 days was adequate.

Councilor Wiley agreed to support a six months extension with the possibility of extending the time period for compliance an additional six months.

Vice Mayor Jolly favored an extension period, but not six months. He felt 90 days would be sufficient and possibly an additional 90 days.

Councilor Tucker stated over the past 10 years businesses were only contacted three times. She supported an extension period of six months to one year.

Mayor Pruette stated 36 businesses have already complied and converted to monument signs. She felt an extension period of six months, not to exceed a second six months, would be fair. She also felt the City should notify the businesses in noncompliance every two months as a reminder.

City Attorney Krechowski explained this emergency ordinance allows Council to temporarily suspend any ordinance, it is not specific to signs, with a four-fifths majority vote.

City Manager Jarboe explained Council would need to declare an emergency, have a public hearing and make a motion to waive two sections of the sign code.

Consensus: **FORWARD TO THE IMMEDIATELY FOLLOWING REGULAR MEETING.**

Special
Magistrate

SPECIAL MAGISTRATE / CODE ENFORCEMENT: City Attorney Krechowski stated he solicited resumes from area attorneys to serve as Special Magistrate for Code Enforcement. He recommended Council choose Crystal Broughan at the following regular meeting.

Councilor Tucker asked if salary was discussed. City Attorney Krechowski stated the hourly rate would be \$200.00.

City Manager Jarboe explained the hourly rate was subjective because it was dependant on how long it takes the attorney to make decisions. The previous special magistrate took up to two weeks. He added that Ms. Broughan has prior experience serving as special magistrate for Jacksonville Beach.

Vice Mayor Jolly supported the recommendation to appoint Crystal Broughan.

Councilor Wiley questioned the number of code enforcements cases the city had last year. City Attorney Krechowski replied there were maybe half a dozen code enforcement cases in the past year, the majority of which related to Ms. Alcorn.

Councilor Wiley felt all the resumes and applicants were great, however, he put a lot of weight on the recommendation of the City Attorney and would support appointing Crystal Broughan.

Councilor Arthur asked if there were any code enforcement cases pending. City Attorney Krechowski replied there were no active cases however, there are some things that have been noticed that need attention.

Mayor Pruette stated she concurred.

Consensus: **FORWARD TO THE IMMEDIATELY FOLLOWING REGULAR MEETING FOR A VOTE.**

Adjournment

There being no further business, the meeting adjourned at 6:10 p.m.

Harriet Pruette, Mayor

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

City Clerk Volpe stated 2014 is an election year for Council Seats 4 and 5. The qualifying period begins in June. If there are more than two candidates running for the same seat there will be a primary in August. The regular election will be held in November. To date

one person has turned in paperwork to run for Seat 4.

CITY MANAGER REPORT

- The piping for the Bal Harbour project will be stored at the public works building and on site in Jarboe Park. The City is trying to buy all of the material to save sales tax.
- As part of the Bal Harbour project there will be some road paving.
- The fund has built up enough to repave the roads in Neptune by the Sea and the Fourth and Fifth Street area. Next year the City will be able to spend a couple hundred thousand on repaving.

COMMENTS FROM THE PUBLIC

Daryl Grubbs, 1919 Nightfall Drive, supported the six month extension for monument signs.

Larry Shealy, 1821 Kings Road, stated he was on the council when the sign ordinance was adopted in 2004. The Council did not consider what the state of the economy would be in 10 years. He asked Council to consider the cost to the business owners that are trying to keep their businesses afloat.

Michael Finne, 1459 Atlantic Boulevard, owner of a dance studio, stated when the economy went down parents cut out extracurricular activities for their children. He is just now starting to see a profit in his business. The current signage was all the business has for advertising and a smaller sign would not be effective. He ask Council to keep in mind how it would affect small business owners.

Beth Breeding, 10175 Fortune Parkway, Apt. 1005, Jacksonville, Representative for What-A-Burger, stated she had been informed that replacing their pole sign with a monument sign would create a traffic safety issue. She explained their site is so small there is no right-of-way area so a monument sign would have to take up a parking space. Then they would not meet the parking requirements. She felt each business had their own issues that needed to be considered. She suggested during the 180 day extension that Council come up with a process that everyone could comply or change the rules to make it easier to comply. A new monument sign would cost her business between \$10,000 to \$15,000.

Ramsey Bakkar, Shopping Center Owner, stated he spent \$20,000 for a new sign at the end of 2003 just before the sign ordinance was changed. He felt every business situation was unique and asked Council to support the extension and consider being flexible.

Glen Jones, Ocean State Heating & Air Conditioning, stated his sign has been in place for 35 years. He did not have the room for a monument sign on his property. He added a street frontage sign was impossible because he was so close to the overpass and people would not be able to see it. He asked Council to give some flexibility, look at each property situation and make a decision from there.

 PUBLIC RIGHT OF WAY.

City Attorney Krechowski stated the Ordinance has no changes since the last workshop meeting.

Moved by Jolly, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2014-04 ON FIRST READ.**

Councilor Wiley questioned some of strikethroughs in the Ordinance. City Attorney Krechowski advised the corrected version of the Ordinance was not the one that was in the agenda packets.

Mayor Pruette asked that clean copies be put in the agenda packets.

Councilor Wiley stated he had some questions to bring up at the March workshop meeting.

Councilor Arthur stated he had questioned regarding the landscaping in Section 7.

City Clerk Volpe suggested Council not vote on the Ordinance until the correct version was on the agenda and in the agenda packets.

Mayor Pruette stated Council should be ready to vote on the Ordinance and they cannot because the corrected version was not in the packet. She added that too many mistakes are coming before Council.

City Attorney Krechowski stated he would make sure the corrected version was distributed in the morning.

Mayor Pruette added the agenda was not signed by the City Manager.

Consensus: **FORWARD ORDINANCE NO. 2014-04 TO THE MARCH WORKSHOP MEETING.**

Ord. No. 2014-05 ORDINANCE NO. 2014-05, TRAFFIC AND MOTOR VEHICLES, FIRST READ: AN

Signs

ORDINANCE NO. 2014-07, AMENDING CHAPTER 2, SIGNS, EMERGENCY READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE II, CITY COUNCIL, SECTION 2-50. TEMPORARY SUSPENSION OF AN INDIVIDUAL ORDINANCE, AND ESTABLISHING AN EFFECTIVE DATE.

City Manager Jarboe stated Council needed to approve the Ordinance on an emergency and address the monument signage separately.

Moved by Tucker, seconded by Wiley.

Motion: **TO PASS ORDINANCE NO. 2014-07 ON AN EMERGENCY READ.**

Mayor Pruette opened the public hearing.

Karen Julie, Owner, Neptune Village Shopping Center, stated the monument sign ordinance would affect eight of her tenants. They also would not be able to fit all of their tenants on a monument sign. She added most of her tenants were mom and pop businesses that cannot afford the added expense of a new sign.

There being no further comments from the public, the public hearing was closed.

City Attorney Krechowski explained the Ordinance changes language in Section 2-50 to allow Council to temporarily extend any individual Ordinance for six months by a four-fifth vote and the opportunity to extend it for an additional 180 days.

Councilor Arthur questioned when the six month period should begin. City Attorney Krechowski stated the Ordinance had nothing to do with a deadline. It would simply temporarily extend an Ordinance.

City Manager Jarboe stated there would be another public hearing on the Ordinance in March.

All Council members agreed to sponsor the Ordinance.

Moved by Wiley, seconded by Tucker.

Motion: **TO SUSPEND SECTION 27-592(5) AND SECTION 27-707(5) FOR A PERIOD OF 180 BEGINNING APRIL 5, 2014.**

Vice Mayor Jolly stated there was a chart in the agenda packet showing that 36 businesses have complied with the Ordinance since its adoption in 2004 and 22 have not. He was concerned that after the 180 days there would still be some businesses that did not want to comply. In that case they will need to comply or the Ordinance will have to be amended.

Mayor Pruette stated the purpose of the sign ordinance was to stop sign pollution and make the City look better. She felt the businesses were not given proper notice of the April 5, 2014 deadline. She felt the city needed to come up with something that would be fair to the businesses that have complied. She felt allowing the extension was the proper thing to do.

City Manager Jarboe stated the Building Official conducted a study on the cost of monument signs that had been permitted. The range was from \$800 to \$8,000.

Councilor Arthur stated he expected all the businesses to comply within the extend 180 day time period. He did not want to give them false hope that Council would continue to extend the time period.

Vice Mayor Jolly asked City Manager Jarboe to make sure that two notices are sent to the businesses that have not complied before the extended time period has expired.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The underground work for the new wiring in Town Center will begin this week.
- The Bal Harbour project has been permitted.
- He is looking at the possibility of putting motion detectors on the lighting in City Hall.
- There are a couple of Code Enforcement issues near the marsh. There is a private road in need of repair and some of the buildings in Watersedge do not meet the maintenance code.

CITY CLERK'S CONSENSUS LIST

City Clerk Volpe asked if there were any questions in regard to the consensus list. Mayor Pruette stated Chief Sembach is going to present Council information regarding the 4th of July in April. She asked that it be placed this on the list.

PUBLIC COMMENTS

Joe Wolke, 1900 Strand, voiced concern with the proposed right-of-way ordinance.

Peter Maloney, II, 1916 Oceanfront, felt residents should be encouraged to maintain rights-of-way and should not have to obtain a permit to replace mailboxes and sprinkler heads.

The following citizens spoke in favor of the Resolution supporting the proposed "Florida Competitive Workforce act."

Nancy Broner, 81 Pinewood Road

Susan Wilkinson, 1001 Neptune Lane

Kris Matson, 540 Hopkins Street,

Marilyn Wilkinson, 340 Sunrise Circle

Richard Salkin, 336 Sunrise Circle

Tom Minette, 1206 North Laura Street, Jacksonville

Brenda Shields, 315 18th Street, Jacksonville Beach

Tricia Russell, 8720 CR 13 North, St. Augustine

Jessica Osborn, 715 Trekker Street, Jacksonville

Chris Rasche, 232 Florida Boulevard

Kaitin Legg, 6 Norberta Way, Jacksonville Beach

Judy Sheklin, 1985 Brista De Mar Circle, Atlantic Beach

R. A. Larizza, 721 Neptune Lane

Nicholas de Viliers, 4510 Attleboro Street, Jacksonville

Steve Haerter, 106 19th Avenue South, Jacksonville Beach

The following citizens spoke in opposition to the Resolution supporting the proposed "Florida Competitive Workforce Act."

Sharon Krause, 4845 Plymouth Street, Jacksonville

Lea Underwood, 110-B Magnolia Street

PROPOSED ORDINANCES

Ord. No. 2014-03

ORDINANCE NO. 2014-03, USE OF PUBLIC RIGHT-OF-WAY: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 28-4 USE OF PUBLIC RIGHT-OF-WAY.

Mayor Pruette explained she would like to withdraw the Ordinance passed on first read and reintroduce the version revised by the City Attorney.

City Attorney Krechowski explained he eliminated some of the details. The nonconforming paragraph remains and nonconforming uses can remain provided they do not result in damage or violate the State permit. The indemnity clause also remains holding the private property owner responsible for accidents. The appeal process also remains allowing a private property owner to appeal administrative decisions to the special magistrate. This new version will go to first read in March.

Councilor Wiley felt the City should encourage the upkeep of rights-of-ways and permits should not be necessary for repairs and replacement of mailboxes and sprinkler heads. He questioned if someone were to obtain a permit that they would have to sign an agreement that they assume responsibility for anything that should happen in the right-of-way. City Attorney Krechowski replied that was correct. This would limit the City's exposure to lawsuits.

Mayor Pruette asked Councilor Wiley to bring something to the Council at the next workshop for Council to consider incorporating into the Ordinance.

Councilor Arthur asked if the permit would hold the owner responsible. City Attorney Krechowski explained it would be contained within the permit or as an attachment to the permit. It would be part of the permitting process to hold the property owner liable.

Councilor Arthur questioned if the plantings would be identified in the permit application. City Attorney Krechowski responded all proposed activities would be included in the application.

Councilor Tucker felt this revised version of the Ordinance was an improvement.

Vice Mayor Jolly questioned if there would be a cost for the permit. City Attorney Krechowski replied there is currently no charge for the permit.

City Manager Jarboe encouraged Council to move quickly to approve the ordinance because planting season was nearing.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING FOR FIRST READ AND THE MARCH WORKSHOP FOR FURTHER DISCUSSION BEFORE SECOND READ IN APRIL.**

Ord. No. 2014-XX

ORDINANCE NO. 2014-XX, TRAFFIC AND MOTOR VEHICLES: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING ARTICLE I, CHAPTER 22. TRAFFIC AND MOTOR VEHICLES. ADDING SECTION 22-6. WITHHOLDING OF LICENSE PLATES AND REVALIDATION STICKERS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this was already taking place on the State level. This will comply with the State.

Vice Mayor Jolly agreed to sponsor the proposed Ordinance.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING FOR FIRST READ.**

Ord. No. 2014-XX **ORDINANCE NO. 2014-XX, AMENDING THE BUDGET FY 2013: AN ORDINANCE AMENDING THE OPERATING BUDGET FOR THE CITY OF NEPTUNE BEACH, FLORIDA FOR FISCAL YEAR 2013, BEGINNING OCTOBER 1, 2012 AND ENDING SEPTEMBER 30, 2013.**

Mayor Pruette agreed to sponsor the proposed Ordinance.

City Manager Jarboe explained this is an amendment to the budget adding \$2,500 for removal of two trees and for the purchase of signs.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS

Green Market **GREEN MARKET:** Mayor Pruette stated an issue regarding the parking recently arose and this item has been postponed until further information is provided.

Special Magistrate CEB **SPECIAL MAGISTRATE FOR CODE ENFORCEMENT:** City Attorney Krechowski explained Special Magistrate Tim Ingram has resigned. He was in the process of collecting applications and interviewing for the position and should have a recommendation for Council soon.

Councilor Tucker asked if he would be giving a final recommendation or provide a selection for Council to choose from.

Mayor Pruette stated she would prefer that Council have a selection to choose from.

Consensus: **TO HAVE THE CITY ATTORNEY PROVIDE A SELECTION OF CHOICES TO CHOOSE FROM AT A WORKSHOP MEETING.**

ISSUE DEVELOPMENT

Relay for Life **JARBOE PARK RESERVATION / RELAY FOR LIFE:** Mayor Pruette stated the "Relay for Life" event has been held in Jarboe Park several times and it has worked out very well.

Councilor Wiley asked what the date of the event was. Trish Hunter, Representative for Relay for Life, replied "May 3rd".

Vice Mayor Jolly asked if there were any complaints about the event last year. City Manager Jarboe replied "no."

Consensus: **FORWARD TO THE MARCH REGULAR MEETING CONSENT AGENDA.**

Res. No. 2014-XX **RESOLUTION NO. 2014-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA SUPPORTING THE PROPOSED "FLORIDA COMPETITIVE WORKFORCE ACT."**

Mayor Pruette stated she felt the City should support the "Florida Competitive Workforce Act". She added that Atlantic Beach has already approved a similar resolution. She explained the Resolution is in regard to workplace discrimination not marriage or unions.

Councilor Tucker stated issues regarding employment are handled at the Federal and State levels. She is an advocate for employing people with disabilities and aware of discrimination in the workplace. She felt it was premature to get involved at the local level at this time and that the City should wait for the State representatives to vote. She advised that individuals in support of the legislation to contact the State representatives. She also voiced concern regarding enforcement and the additional cost to the City.

Mayor Pruette asked Councilor Tucker if she would support the Resolution letting the State representatives know that the City supports the "Florida Competitive Workforce Act". Councilor Tucker responded "not at this time."

Vice Mayor Jolly explained these State bills are not bipartisan and our representatives are not sponsoring the bills. The sponsors for the Senate Bill are all democrats and the sponsors for the House Bill were majority democrat. He would approve moving forward with the Resolution while allowing him time to read the proposed bills.

Councilor Arthur stated he is less concerned with the partisan issues. He stated workplace policies are already in place on a National level. He questioned how this would relate to Neptune Beach. He felt it was premature to support the Resolution.

Mayor Pruette explained this is not an Ordinance. It is simply a Resolution telling the State that Neptune Beach supports the "Florida Competitive Workforce Act." She asked Councilor Arthur stated he would support the Resolution. Councilor Arthur responded he would not support it tonight.

Councilor Wiley stated he read both Senate Bill 348, which is 18 pages and House Bill 239, which is 17 pages. He felt if supported the Resolution as a Neptune Beach Councilor he would be saying the entire City of Neptune Beach supported the Bill's and was not confident that is the case. Due to those circumstances and the length of the Bills he would not support the Resolution.

Mayor Pruette felt partisan politics should never come into play here because we are a nonpartisan community. She felt if this were a Republican Bill the Council would look at it differently. She stated an Ordinance is certainly different from a Resolution. It saddens her that we cannot send a message to the community that we are open minded. She added that people did not like to be discriminated against especially in the workforce.

Councilor Wiley stated partisan politics had no bearing on his decision. He felt it was premature to support the Resolution because the Bills could possibly be amended and he has no idea what the end result of these Bills will be.

PUBLIC COMMENTS

The following citizens spoke in favor of the Resolution supporting the proposed "Florida Competitive Workforce act."

Michelle Fogelsanger, 2748 Grove Street, Jacksonville

Dan Merkan, 3159 College Street, Jacksonville

R. A. Larizza, 721 Neptune Lane

James Eddy, 222 Lawton Avenue, Jacksonville

Tricia Russell, 8720 CR 13 North, St. Augustine

Joe Wilke,

Allan Martin, 1113 First Street

Chris Rasche, 232 Florida Boulevard

Kris Matson, 540 Hopkins Street

Tom Minette, 1206 N. Laura Street, Jacksonville

The following citizens spoke in opposition to the Resolution supporting the proposed "Florida Competitive Workforce Act."

Howard McMinn, 1116 Cedar Street

Sharon Krause, 4845 Plymouth Street, Jacksonville

Lea Underwood, 110-B Magnolia Street

Right-of-Way

Joe Wolke, 1900 Strand, voiced concern with the proposed right-of-way ordinance.

Lynda Padrta, 1113 First Street, supported the right-of-way ordinance. She felt the Green Market parking was inadequate.

COUNCIL COMMENTS

Mayor Pruette felt asked the Council if they would consider bringing the Resolution back for consideration.

Councilor Tucker stated she would speak with the City Attorney before considering bringing the Resolution back.

Vice Mayor Jolly felt the problem with the Resolution was that it supported specific Bills. He would consider voting on a Resolution to the effect that the City is aware the State legislation is considering bills to prohibit discrimination based on sexual orientation and we support action for that. He did not feel comfortable supporting these specific Bills.

Councilor Arthur stated the bills are still in draft form and it is hard for him to support them. If anyone wants to bring the issue back to Council they can.

Councilor Wiley stated anyone could place the issue on an agenda. He did not support the Resolution but would consider another one.

Mayor Pruette asked Councilor Jolly to meet with Nancy Broner and Sue Wilkinson to draft a Resolution for Council to consider.

Adjournment

There being no further business, the meeting adjourned at 8:00 p.m.

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette requested that the Council members speak into the microphone so the voices could be clearly heard on the tape recording for the City Clerk.

City Attorney Krechowski requested that message be forwarded to the Community Development Board. He recently had to listen to a Community Development Board meeting recording and had trouble hearing the speakers clearly.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- Public Works is in the process of upgrading the streetlight power line in Town Center. The new power line will hold a higher wattage bulb for better lighting in the Town Center area.
- Public Works is also replenishing the power line from the public works building.
- Public Works has started the paving project. The city plans to repave a quarter of the roads this year, another quarter next year and another the following year.

COMMENTS FROM THE PUBLIC

Joe Wolke, 1900 Strand Street, voiced concern regarding the proposed right-of-way ordinance. He felt there were too many consequences for the adjacent property owners and the city should be responsible for maintain the right-of-ways.

Lynda Padrta, 1113 First Street, agreed that plantings on rights-of-way needed to be permitted due to difference of opinions. She favored the ability to appeal administration decisions to the Special Magistrate.

MOTION CARRIED

Ord. No. 2014-03
Right-of-Way

ORDINANCE NO. 2014-03, PUBLIC RIGHT-OF-WAY, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 18-4, USE OF PUBLIC RIGHT OF WAY.

Mayor Pruette strongly supported the idea of property owners having the ability to appeal administrative decisions regarding private use of rights-of-ways. She stated that under Chapter 27 property owners had the ability to appeal administrative decisions regarding use of private property to the Community Development Board. She added that public property impacted private property and vice versa. She agreed there should be an appeal process in Chapter 18-4 to the Special Magistrate instead of taking the matter directly to the circuit court.

City Attorney Krechowski stated under the current Code appeals regarding private uses of rights-of-way go directly to circuit court. He recommended the appeals go before the Special Magistrate in lieu of the Community Development Board because the Community Development Board was created for appeals under Chapter 27 of the Code. He felt it was unwise to have one board govern two Chapters of the Code.

Moved by Jolly, seconded by Arthur.

Motion: **TO PASS ORDINANCE NO. 2014-03 ON FIRST READ.**

Councilor Tucker was concerned about enforcement as well as community notification and awareness.

Councilor Arthur stated in regards to Section 18-4(b)7. Landscaping. He has asked Community Development Director Amanda Askew to review language used in sister cities codes as well at the State Statute regarding private uses of rights-of-way in an effort to develop some common language and approved plantings.

Councilor Wiley felt Section 18-4(b) 1, 2, 8 and 10 of the proposed ordinance were a benefit. He reviewed our sister cities code and felt this proposed ordinance was much more involved than others. He voiced concern about sprinkler heads and fines and would wait to discuss the matter further at the February workshop meeting. He added he felt the appeals process would also benefit the citizens.

Councilor Tucker stated Section 18-4(a) mentioned concrete and asphalt. She suggested adding pavers as well.

Mayor Pruette wanted to ensure that plantings on beach accesses could not obstruct ocean views.

City Attorney Krechowski felt Council should also consider emergency vehicle access.

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Wiley, Pruette

Noes: 1 - Tucker

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The Public Service Department is preparing to begin the paving of Fourth Street and Fifth Street.

Councilor Wiley questioned the progress of the Bal Harbour project. City Manager Jarboe stated the Public Service Department has begun the preliminaries for the project.

CITY CLERK'S CONSENSUS LIST

Mayor Pruette questioned if the Green Market had been before the Community Development Board. City Manager Jarboe replied "yes" he was waiting to receive the minutes of the meeting so he could consider the board's recommendation. He would then meet with City Attorney Krechowski and draft an agreement.

Mayor Pruette questioned the progress of the demolition of the house on Hopkins Street. City Attorney Krechowski responded Wells Fargo Bank has not completed the foreclosure on the property. However, the bank has agreed to reimburse the City if we wanted to move forward with demolition.

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES

Election

ORDINANCE NO. 2014-XX, AMENDING CHAPTER 9, ELECTIONS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING THE CODE OF ORDINANCES CHAPTER 9. ELECTIONS, SECTION 9-2. SCHEDULE OF ELECTIONS AND PROVIDING AN EFFECTIVE DATE.

City Clerk Volpe explained this ordinance would update the code to correspond with the referendum approved by the voters.

Council agreed to sponsor.

Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING FOR FIRST READ.**

Accessory
Structures &
Uses

ORDINANCE NO. 2014-XX, AMENDING CHAPTER 27, ACCESSORY STRUCTURES AND USES: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, ARTICLE V. ACCESSORY STRUCTURES AND USES. SECTION 27-330(A)(1) FENCES, WALLS, AND HEDGES, AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette felt six foot fences should be allowed on side yards of corner lots. City Manager Jarboe stated this ordinance will allow corner properties to have a six foot fence on the side yard.

Councilor Wiley asked if the ordinance applied to all residential districts. City Manager Jarboe replied "yes."

Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING FOR FIRST READ.**

Right of Way

ORDINANCE NO. 2014-XX, ADDING SECTION 18-4, USE OF PUBLIC RIGHT-OF-WAY: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 18-4 USE OF PUBLIC RIGHT-OF-WAY.

City Attorney Krechowski explained he drafted the proposed ordinance in the packet to add Section 18-4(b) Rules for private use of right-of-way. He suggested adding language to paragraph (b) 8. pertaining to future damage to utilities, and paragraph (b) 12. regarding the appeal process that the appeal go before the special magistrate.

Councilor Wiley suggested adding what types of plants the city allows and does not allow in public rights-of-way.

Councilor Arthur agreed the final decision in the appeals process should go before the special magistrate. He suggested referencing definitions in Section (b) 7. Landscaping, of what types of plants are allowed for landscaping rights-of-ways on the State level.

Vice Mayor Jolly suggested spelling out the MS4 in Section (b) 4. as Municipal Separate Sewer System. He voiced concern regarding Section (b) 5. for irrigation systems that are currently existing in rights-of-way. City Attorney Krechowski explained Section (b) 6. requires existing non-conformities that cause damage to city property or infrastructure to be removed.

Councilor Tucker agreed with the other recommendations.

City Manager Jarboe suggested forwarding to the February regular meeting for first read.

Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING AND THE FEBRUARY WORKSHOP MEETING.**

E-Cigarettes

ORDINANCE NO. 2014-XX: PROHIBITING SALES AND USE OF E-CIGARETTES.

City Manager Jarboe suggested tabling this ordinance because a bill has been introduced on the State level and should be approved statewide between May and July.

Councilor Tucker stated a representative from Tobacco Florida was present to answer any questions of the Council. Mayor Pruette stated she would prefer to wait until the state bill passes. Vice Mayor Jolly agreed the state version may be in conflict. Councilor Wiley agreed to table it.

Consensus: **TO TABLE THE ORDINANCE.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

St. Johns River

RESOLUTION NO. 2014-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA CALLING ON THE ST. JOHNS RIVER WATER MANAGEMENT DISTRICT TO PROTECT AND PRESERVE THE WATER RESOURCE OF THE ST. JOHNS RIVER BY NOT ALLOWING THE USE OF MILLIONS OF GALLONS OF RIVER WATER TO BE USED TO CONTINUE UNCHECKED GROWTH IN CENTRAL AND SOUTH FLORIDA.

Mark Middlebrook, Executive Director of the St. Johns River Alliance, asked Council to defer action on the resolution for a few weeks while the Alliance puts together a meeting of all elected officials up and down the St. Johns River, including Central and North Florida to discuss water quality and quantity issues. He felt the resolution would make it difficult to meet with the central Florida elected officials.

Mayor Pruette stated the river was one of the most precious resources we have. She felt it would not hurt for Neptune Beach to speak its opinion.

Councilor Arthur questioned if there was an acceptable usage amount for southern counties. Mr. Middlebrook replied he was unsure if there was an acceptable amount. He added that it is the low flow period that created concerns. Their overall goal is to create a dialogue that does not involve attorneys and lawsuits, whereby some of the issues may be resolved in a more cooperative manner.

Vice Mayor Jolly asked what the daily low flow was of the St. Johns River. Mr. Middlebrook replied he was unsure. The river is an incredibly complex system and it changes daily. The river releases 5 billion gallons a day to tide out to the ocean. There

is a lot of water in the system but depending on the location the water levels could be extremely low or extremely low.

City Manager Jarboe stated a resolution does not have the same power as an ordinance. An ordinance is a law but a resolution is a statement supporting whatever the council wants at a particular time. It is not permanent. It is a way for the Council to make a joint statement.

Lisa Rihamin, St. Johns River Keeper, stated in the past months Central Florida has had over 100 meetings regarding the issue. There has been one meeting in North Florida to date and there are several upcoming meetings scheduled. She felt the Resolution would send a strong message that all parties needed to work together to resolve the issue and protect the St. Johns River and all water resources.

Councilor Wiley asked if the previous council passed a similar resolution. Mayor Pruette replied "yes" council passed a resolution in 2007. Neptune Beach was the first of 16 organizations and governments to pass the resolution.

Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING FOR APPROVAL.**

Geoffrey Sample, Intergovernmental Coordinator, advised there are three public meetings scheduled, one in Palatka, one at Jacksonville City Hall and one in St. Augustine. Mayor Pruette asked Mr. Sample to forward information regarding the meetings so we could put it on our website.

PUBLIC COMMENTS

Mayor Pruette asked City Manager Jarboe to explain a situation that was that was ongoing with a property owner regarding a public right-of-way.

City Manager Jarboe explained there was an issue with the property at 709 First Street regarding the public right-of-way. The homeowner did not follow the requirements to landscape the right-of-way by obtaining a permit. He has been working with the homeowner to avoid code enforcement action. An agreement was settled, 1) to allow the trees to remain with the property owner being held responsible for any damage caused to the infrastructure (The property owners agreed to remove the trees from the right-of-way and the City has no problem with that as long as a public works employee is present to ensure there is no damage to the infrastructure during the removal), 2) to require the bulkhead on the First Street side be removed from the sidewalk, and 3) to remove the unpermitted drain which was draining water off their property across an adjacent property and onto the city sidewalk. Another issue with the property is a six foot fence was installed on the corner side without a permit. The Code only allows the fence height of four feet on corner side yards. An ordinance has been proposed to Council to increase the fence height to six feet on corner side yards. The property owner is now awaiting the decision of Council.

Rick Sauls, 126 Cedar Street, felt the property owners of 709 First Street should not be held responsible for damages caused by the trees they planted in the right-of-way. He agreed side yard fences should be extended from 4 feet to 6 feet in height. The issue regarding e-cigarettes should be ruled by federal law or state law.

Karen Case, 709 First Street, stated she was pleased with the agreement and pleased about being able to keep the trees in the right-of-way. She felt she was mistreated by code enforcement. She asked to be able to keep the fence as

it is located 14 inches onto the city property because it has always been there.

Mayor Pruette stated the fence on the city property was a legal issue. If we allow one person it sets a precedent for others who wish to do the same.

Elliot Hindman, 113 Bay Street, felt the city was selective regarding code enforcement. He also voiced concern regarding the dunes and beach accesses.

Donald Maurer, 125 Cedar Street, felt the code was inconsistent and needed to be more consistent. He felt like the city was against him when he wanted to improve his property.

COUNCIL COMMENTS

Mayor Pruette explained there is a variance process that allows property owners to apply for a variance in some cases and most property owners do not want to apply for one. She would like to see more citizens become active and take part in council meetings.

Councilor Wiley felt it was good for people to come forward with these issues because as a result two ordinances have been proposed.

Adjournment

There being no further business, the meeting adjourned at 7:00 p.m.

Director of Public Safety David Sembach

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Vice Mayor Jolly to lead the pledge of allegiance.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS

Mayor Pruette welcomed everyone and recognized Santa Claus who was in the audience incognito.

APPROVAL OF MINUTES

Moved by Tucker, seconded by Arthur.

Minutes

Motion: **TO APPROVE THE FOLLOWING MINUTES:**

NOVEMBER 4, 2013, REGULAR CITY COUNCIL MEETING
NOVEMBER 4, 2013, WORKSHOP CITY COUNCIL MEETING
NOVEMBER 18, 2013, WORKSHOP CITY COUNCIL MEETING

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette stated she thought Pete's Thanksgiving went well about needs more port-o-lets. Chief Sembach stated the event needed more port-o-lets, more trash cans and to end earlier than 2:00 p.m.

City Manager Jarboe stated 307/309 Hopkins Street was owned by Wells Fargo bank. The bank was procrastinating about tearing the home down. He wanted council to approve the building official to begin the process for demolishing it so the bank would take notice.

Consensus: **TO PROCEED WITH THE PROCESS OF DEMOLITION FOR 307-309 HOPKINS STREET.**

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The City received no electric bill for the year and the solar panels only had to be washed once to clean the salt air off of them.
- The City does not have the final figures on cost to the City for Pete's bar Thanksgiving event which included Public Works and police overtime. There were people standing in line for drinks at 8:00 a.m. There were a lot of cars parked all over Town Center. The crowds were large but it went well over all.

COMMENTS FROM THE PUBLIC / NONE**CONSENT AGENDA/NONE****VARIANCES**

V13-06
572 Atlantic Blvd

Variance request of Neptune Beach FL Realty, LLC for 572 Atlantic Blvd; City Manager Jarboe explained that staff had no problems with what the applicant wanted to do with the drainage.

Moved by Jolly, seconded by Tucker

Motion: **TO APPROVE THE RECOMMENDATIONS OF STAFF AND THE COMMUNITY DEVELOPMENT REVIEW BOARD.**

Councilor Arthur asked if there was something in the code that the council should look at. City Manager Jarboe stated that is what the variance process was for. City Attorney Krechowski stated these circumstances were unique and no need to rework the code.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

CDB13-05
572 Atlantic Blvd

Development Order for development as outlined in Chapter 27, Article 3 of the Unified Land Development Code of Neptune Beach by Neptune Beach FL Realty, LLC. The property is currently known as 572 Atlantic Blvd (real estate parcel number 172395-0100). The request is for a vehicular crossing in the parking lot which would connect to the adjacent shopping center (Seminole Shoppes).

Mayor Pruette was concerned people will start using it as a speedway. Mr. Ronald

Bongiovanno, engineer for the project stated there would be a stop sign and a speed hump on the west side of the road.

Councilor Wiley asked if it would open for pedestrians. Mr. Bongiovanno said there were no concessions made for pedestrians. Councilor Wiley also suggested a right turn only sign on Third Street if FDOT would allow it.

Mayor Pruette asked if the City Attorney had any recommendations. He said no. the City Manager recommended the right turn only sign. Councilor Wiley stated he did not want the right turn only sign to be a deal breaker.

Moved by Pruette, seconded by Jolly

Motion: **TO ACCEPT THE RECOMMENDATIONS OF THE COMMUNITY DEVELOPMENT REVIEW BOARD. WITH THE ADDITION OF : ONE MORE SPEED HUMP WHERE OWNERS FEEL APPROPRIATE AND THE REQUEST TO FDOT OF A RIGHT TURN ONLY SIGN AT THIRD AND LEMON STREET.**

Councilor Wiley requested to take the turn only sign out because he did not want it to hold up the project. Mr. Jarboe stated it was just a request and not forcing the issue. Councilor Arthur did not support two humps.

Mr. Bongiovanno stated he could add one hump for each lane. City manager Jarboe said it was a long stretch and people might speed if there is not another hump. Chief Sembach volunteered to discuss with the owners where to put speed humps.

Mayor Pruette withdrew her motion.

Moved by Arthur, seconded by Wiley.

Motion: **TO ACCEPT THE RECOMMENDATIONS OF THE COMMUNITY DEVELOPMENT REVIEW BOARD.**

City Manager Jarboe stated that council must put any conditions in the motion if they want to be enforceable.

Councilor Arthur withdrew his motion

Moved by Arthur, seconded by Wiley.

Motion: **TO ACCEPT THE RECOMMENDATIONS OF THE COMMUNITY DEVELOPMENT REVIEW BOARD WITH THE ADDITION THAT THE APPLICANT MUST CONSULT WITH THE POLICE CHIEF FOR THE PLACEMENT OF THE HUMP OR HUMPS.**

Chief Sembach commented that when you put in a speed hump it must go all the way across all lanes of traffic.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

ORDINANCES

Ord. No. 2013-12 ORDINANCE NO. 2013-12, WATER & SEWER, PUBLIC HEARING AND FINAL READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA DELETING SECTION 23-90. IMPACT FEE REVENUE RESTRICTIONS AND ESTABLISHING AN EFFECTIVE DATE.

City Manager Jarboe suggested deleting this section of the Code because it was only required by a grant and is no longer necessary.

Mayor Pruette opened the public hearing. There were no comments so she closed the hearing.

Moved by Tucker, seconded by Arthur

Motion: **TO PASS ORDINANCE NO. 2013-12 ON FINAL READ.**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There were 355 trash ordinance violations in October. As required by State law, letters have been sent to the repeat violators.
- The solar power panels on City Hall have saved the money this year.
- There was a major water break on a six inch main on Arrowhead Drive.
- The K-mart shopping center is going to seek a variance to build a street between their shopping center and the Publix shopping center.
- U-Haul may be seeking approval to add more trucks to the business.

Councilor Wiley asked if there were a limited amount of trucks for the U-Haul business. City Manager Jarboe explained the amount of trucks is not limited however, if they intensify the business they have to obtain a development order. He was concerned about environmental issues on the property.

Vice Mayor Jolly asked how the sewer system upgrade was progressing. City Manager Jarboe replied they have finished most of the elevations and found a couple of areas where they will be able to do clear cuts in lieu of pipe bursting which will be less intensive. Construction will begin after the holidays.

CITY CLERK CONSENSUS LIST

City Clerk Volpe stated there was a list of council consensuses in the agenda packet. If anyone felt something was missing please bring it to her attention.

City Clerk Volpe asked if Council wanted to hold a workshop meeting in December. Mayor Pruette stated there is usually a regular meeting and no workshop meeting. If it is necessary an emergency meeting will be called.

City Clerk Volpe stated the January and February workshop falls on holidays. The January workshop February workshops will be held the following Tuesdays.

City Attorney Krechowski announced the Special Magistrate issued the order on the cat hoarding nuisance situation. He administered a penalty and ordered the nuisance to be abated immediately. This is the third order on the matter. He will meet with the City Manager and Building Official to determine the next step.

ISSUE DEVELOPMENT

Town Center
Parking Study

BEACHES TOWN CENTER MERCHANTS ASSOCIATION / PARKING STUDY BRIEFING: Mayor Pruette announced the Beaches Town Center Merchants Association has decided to defer the parking study briefing.

Green Market

GREEN MARKET: Community Development Director Askew explained the Green Market came into existence in 2008. Originally there were 15 booths. In 2009 they added 10 booths for a total of 25 booths. In 2011 they asked and were allowed to add another 3 booths for a total of 28 booths.

They appeared before the Community Development Board last year to request more booths. The Community Development Board deferred the request to allow themselves time to go out to visit the Green Market in operation. The Green Market did not follow up on the request at that time.

Mayor Pruette asked if they needed to go back before the Community Development Board. Mrs. Askew stated they would have to begin the application over again.

City Clerk Volpe stated the Green Market submitted an updated map showing the current booths and that map was located at their seats.

Devon Ritch, Representative for the Green Market, thanked Council for their continued support of the Green Market. She explained last year the Green Market went before the Community Development Board to request an additional 6 booths. They did not proceed with the request once she was made aware that any more growth would warrant the Green Market to move to a new location

Mayor Pruette felt the Green Market request should go back before the Community Development Board for a recommendation.

City Manager Jarboe explained the Code requires the Community Development Board to send their recommendation to the City Manager. The City Manager then considers the recommendation and drafts a lease noting all requirements. The lease would then go to the Council for approval.

Councilor Tucker asked if they had any parking problems this year. Ms. Ritch replied they have not received any complaints regarding parking or traffic issues. She noted that some visitors ride their bicycles, take the trolley and car pool.

City Manager Jarboe explained some time ago Council asked the Green Market to obtain a letter from the adjacent property owner allowing them to use the parking. They also wanted to make sure they were legally registered as a 5013C with the State of Florida before raising any funds.

Ms. Ritch responded the Green Market was legally registered as a 5013C last year and renewed in October. They are waiting for the State to send the certificate. She would present the certificate to the City once they receive it.

City Manager Jarboe asked that Ms. Ritch make sure his office receives the certificate as soon as possible.

Mayor Pruette asked if they had obtained a written agreement with adjacent property owner regarding parking as requested. Ms. Ritch replied she has reached out to him many times by email and he has not responded. Mayor Pruette asked Mr. Ritch to forward a copy of the email to the City.

Councilor Tucker asked how many people attended the Green Market. Ms. Ritch stated they have counted no less than 700 to 800 people during the summer. In peak season they have counted as many as 1,748 people.

Vice Mayor Jolly asked Ms. Ritch if she had a copy of the "Memo of Understanding" between the Green Market and the City. Ms. Ritch answered "yes" she has it with her tonight.

Vice Mayor Jolly asked when was the last time the Green Market gave a report to the Council. According to the agreement they are suppose to give a report every six months. Ms. Ritch replied she was sure it had been longer than six months. She asked how she would go about arranging that. Mayor Pruette asked the City Manager to let her know in writing.

Vice Mayor Jolly stated Item 7 on the "Memo of Understanding" states the Green Market is to set up a donation program for repairs and maintenance in Jarboe Park. Ms. Ritch replied that was on the list of Items that Community Development Director emailed to her. She was not aware of a park betterment fund. She would be happy to work something out.

Vice Mayor Jolly asked how much the Green Market has donated to the City and if they had done any work in the park. Ms. Ritch stated she was not aware they were required to. The document was new to her.

Vice Mayor Jolly stated if the Green Market did not fulfill its part of the agreement it may be time to terminate. He added that he loved the market but the City expects them to abide by the agreement. Ms. Ritch replied she would be happy to cooperate with the

City's request. City Manager Jarboe stated the amount would be documented in the new lease agreement.

Mayor Pruette recommended that each vendor contribute three dollars per week to the Ish Brant Beautification Committee.

Ms. Ritch stated she would agree to whatever the terms may be.

Councilor Wiley suggested the Green Market reapply for a request to add the six booths. Should the Community Development Board not approve the request they could still operate with the current 28 booths.

City Manager Jarboe restated the Community Development Board did not make decisions, they only make recommendations. Once the lease is drafted, he would present it to Council for approval.

Councilor Arthur asked if the Green Market had a waiting list for booths. Ms. Ritch replied they closed the application process for most the year. They were not taking any new applications with the exception of farmers. They keep a couple of booths that are not for regular vendors and rotate through the wait list to see if that particular vendor's product would be a good fit for the market.

Councilor Arthur asked if they planned to go back before the Community Development Board. Ms. Ritch stated she would bring that up at their next Advisory Council Meeting.

City Manager Jarboe stated they are operating now without a lease agreement in place and it needs to be done quickly.

Mayor Pruette suggested if they go before the Community Development Board in January she could call a special meeting before the January Council Workshop Meeting to vote on the lease agreement. City Attorney Krechowski advised they must go before the Community Development Board first.

Ms. Ritch asked if they had to go before the Community Development Board even if they did not want to request more booths. City Manager Jarboe replied "yes."

City Manager Jarboe stated he would work with Ms. Ritch and create a lease with the consideration of the Community Development Board. The City Attorney will review the lease agreement and give his opinion before Council consideration.

Consensus: **THE GREEN MARKET HAS THE OPPORTUNITY TO GO BEFORE THE COMMUNITY DEVELOPMENT BOARD FOR THE ADDITIONAL BOOTHS, A WEEKLY FEE PER VENDOR AND A NEW LEASE.**

Mayor Pruette asked Ms. Ritch to provide an updated list of the Green Market Board members. City Clerk Volpe advised that list would become public record and they might not want to include home addresses.

Mayor Pruette stated if the Community Development Board approves the additional booths the Green Market will have to decide whether they wished to remain small and stay at the current location. Any more expansion they will have to consider an alternate location.

PUBLIC COMMENTS

Terry Methvin, Chairperson of the Community Garden Council, stated the Green Market did not receive enough funds from vendors to cover all of their expenses and should not have to give money to the City. They are all volunteers and put in a lot of time and effort into the Community Garden and Green Market which promotes Neptune Beach, They are doing not only the community a service, they are doing the city of Neptune Beach a service.

Mayor Pruette stated she believes the market made over \$19,000 this year. The financial records show a net income of almost \$6,000. The Ish Brant Beautification Committee needs funding to beautify the City and Jarboe Park. She felt it would not hurt the Green Market to contribute a small amount to help.

Lynda Padta, 1113 First Street, appreciates the work the volunteers are doing at the Green Market. It is great that they are willing to work with the city. She felt the parking may impact the adjacent businesses.

COUNCIL COMMENTS

Mayor Pruette asked Councilor Wiley about an email he received from Mr. Sutherland regarding a trash issue. Councilor Wiley responded there is an issue with recycle bins being left out at the curb and he was working to get that resolved.

Adjournment

There being no further business, the meeting adjourned at 6:37 p.m.

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m.

Employee Health Insurance

EMPLOYEE HEALTH INSURANCE PROVIDER: City Manager Jarboe explained he was notified late last week that the proposed AvMed Health Insurance plan did not meet the Affordable Care Act requirements. He introduced our Health Insurance Consultant Dave Polovina.

Mr. Dave Polovina stated requests for proposals for employee health insurance went out this past summer. The only proposal received was from AvMed who is our current carrier. Their proposal had a 17% increase and the benefits would remain the same. This did not meet budget requirements and would also cause a significant increase in cost to the employees. The City pays 100% of the employee cost and 50% of dependent cost. We currently offer a base plan and a buy up plan. The current base plan has a \$5,000 deductible with a 30% coinsurance so the maximum out of pocket expense would be \$8,000 per employee. The current base family plan has a \$10,000 deductible and another \$9,000 in coinsurance. The purpose of the bid process was to find better benefits at a lower cost and we were unable to do that. When the AvMed proposal was submitted we were not aware of the regulations for the Affordable Care Act. We have learned now that the benefits offered by AvMed are not compliant.

Because the benefits offered by AvMed do not meet the Affordable Care Act regulations he shopped around for other plans. Blue Cross Blue Shield returned an offer with much better benefits. The plan would offer a lower deductible, no maximum out of pocket, and would only be a 1% increase in cost to the City. This would meet the budget and the ACA requirements as well as provide better benefits for employees and their families.

Mayor Pruette thanked Mr. Polovina for being present, looking out for the City and saving the City money.

Vice Mayor Jolly asked how long the enrollment would take. Mr. Polovina replied he tries to complete the enrollment process one month prior to the effective date.

Councilor Arthur questioned the reason AvMed did not meet the requirements. Mr. Polovina responded it was the max out of pocket. The AvMed plan provided for max out of pocket of \$8,000 and the ACA requirement cannot be more than \$6,350. If they were to come back with a new proposal the rates would increase.

Councilor Arthur wanted to confirm that there is only a 1% increase. Mr. Polovina stated the current average base plan for an employee is \$610.00 the new Blue Cross Blue Shield base plan would be \$616.00.

Councilor Arthur asked if another plan will also be offered to employees. Mr. Polovina replied that plan is an upgrade and the employee would have to pay the additional cost.

Councilor Wiley asked if there was chance an employee could be uninsurable. Mr. Polovina responded, no, not at all, this is a guaranteed plan and all preexisting conditions have to be covered.

Councilor Wiley asked if there was a chance AvMed could come back and raise the rates before they sign the contract. Mr. Polovina replied "no" this is a firm offer for the next 12 months.

City Manager Jarboe stated the proposed plan has been to underwriting and AvMed is aware of all medical conditions.

Vice Mayor Jolly stated the City had an opportunity to go through December 1, 2013, with AvMed which would get us through to January 1, 2014. He asked why the City did not do that. Mr. Polovina explained that would allow the noncompliant plan to stay noncompliant through December of 2014 as opposed to January 1, 2014. This new proposed Blue Cross Blue Shield plan is already in compliance.

City Manager Jarboe added he did not want the City to be in a position to possibly be fined for not being ACA compliant. He recommended approval of the Florida Blue Cross Blue Shield plan.

Consensus: **FORWARD TO THE FOLLOWING REGULAR MEETING CONSENT AGENDA.**

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette stated she is concerned about the condition of the sand dunes on the beach. She asked each Council member to take a walk on the beach and notice how people are abusing the dunes.

Councilor Wiley asked City Manager Jarboe for an update on the Pete's Bar Thanksgiving Day event. City Manager Jarboe replied they have applied for their permits.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The City received over a million dollars in permit fees this month. There are three new houses under construction.
- The City Engineer and the Contractor for the Bal Harbour project found a number of places that can be open cut instead of having to band the pipes back thereby saving the city money. The money could be used towards Fourth Street and Fifth Street.
- There was one felony offense committed in the City last week.
- Things are starting to slow down with the beginning of the school year and the approaching holiday's.
- Finance Director Steve Ramsey is on vacation until Thursday and he would be on vacation from Thursday through Monday.
- He received several calls regarding the foxes. Those callers asked the City to leave the foxes alone.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

Preliminary work is underway for the Bal Harbour project. The benchmarks have been installed and surveys should be approved. To save money on the project Public Works will be ordering and storing the material.

There are two new houses under construction, one is on First Street between Hopkins Street and Seagate Avenue, the other one is in the 200 block of South Street.

Vice Mayor Jolly questioned when the construction project in Bal Harbour would cease for the Holidays. City Manager Jarboe replied the contractor would make the decision on when to give the crew time off for the holidays. The project will be done street by street so the entire neighborhood will not be disrupted at the same time.

Mayor Pruette stated she has heard many good comments regarding a city flyer that was handed out to residents. City Manager Jarboe replied they are given to new utility customers.

Mayor Pruette asked City Clerk Volpe if she had a list of Council consensuses. City Clerk Volpe stated she would place the list in the next agenda packet.

ISSUE DEVELOPMENT

A1A/ Fl. Scenic Hwy.

RESOLUTION NO. 2013-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA REQUESTING THE FLORIDA DEPARTMENT OF TRANSPORTATION TO DESIGNATE STATE ROAD A1A IN THE CITY OF NEPTUNE BEACH, DUVAL AND NASSAU COUNTIES AS A FLORIDA SCENIC HIGHWAY.

Elaine Brown, 1302 Neptune Grove Lane East, stated the State has designated the 72 miles on State Road A1A from Ponte Vedra Beach to Flagler Beach as a Scenic Byway. The designation provides State assistance for tourism and economic development. She and Linda Lanier of Atlantic Beach wish to submit an application designating State Road A1A from Ponte Vedra Beach through Nassau County as a Scenic Byway with the name Ocean Islands Trail. Signs would be placed by the Florida Department of Transportation at no cost to the City.

Mrs. Brown asked to make the following change to the Resolution:

Whereas, the portion of State Road A1A in St. Johns and Flagler Counties has been designated as the Scenic Historic A1A Coastal Byway, ~~allowing for an extension of an existing route~~; and

Councilor Arthur questioned if the designation would allow the State to impose any restrictions on the City. Mrs. Brown stated once the State approves the application she will bring any requirements back to the Council for review.

Consensus: **STRIKE OUT "ALLOWING FOR AN EXTENSION OF AN EXISTING ROUTE" AND FORWARD TO THE NOVEMBER REGULAR MEETING.**

Pete's Bar Thanksgiving

PETE'S BAR THANKSGIVING DAY CELEBRATION: Mayor Pruette stated that Town Center did not have enough time to plan the event this year. Pete's Bar now wants to move forward with hosting the event as they have in the past. She would like the Town Center Agency to present a plan to Council to host the event next year.

City Manager Jarboe stated if approved Pete's Bar will need to obtain a license and insurance for the event. Public Works will set up the barriers.

Councilor Tucker asked if the \$2,000 the City contributed to the event would still be used for security. City Manager Jarboe replied "yes."

Vice Mayor Jolly clarified that Public Works will set up the barriers and our police would provide security and search backpacks. Coolers, dogs, skateboards, bicycles and tailgating will not allowed.

Mayor Pruette asked if Pete's Bar would provide additional security. City Manager Jarboe stated there would be additional outside security.

For the Record Mayor Pruette stated for the record that planning needed to begin earlier for next year's event.

Consensus: **CITY MANAGER JARBOE TO MOVE FORWARD WITH IT.**

Code
Enforcement

CODE ENFORCEMENT / CAT HOARDING ISSUE: City Manager Jarboe stated the State Attorney issued two warrants for the arrest of the individual hoarding the cats, for misdemeanor animal abuse. The warrants were served and the individual turned herself in. That would now go through the court system. The Code Enforcement Special Magistrate meeting regarding the issue will be held on Thursday, October 31, 2013 at 2:00 p.m.

PUBLIC COMMENTS / NONE

COUNCIL COMMENTS

Mayor Pruette stated there have been complaints of a fox running loose in a neighborhood within the City. City Manager Jarboe explained there is a citizen concerned animal control not trapping and capturing the foxes. The Department of Natural Resources is the only agency that can issue a permit for a trapper to catch them. Chief Sembach is reviewing the situation.

Councilor Wiley asked City Clerk Volpe if she could forward all City emails to their city email addresses. He also requested updating the webpage with photos of the "Yard of the Month" and the Artwalk.

Councilor Tucker stated that some events are missed because Council was not receiving the email invitations in time. She was contacted by the Keep Jacksonville Beautiful regarding National Recycle Day scheduled for Friday, November 15, 2013.

City Manager Jarboe stated he sent an email throughout the City that the Council Committee reviewing the Consolidation of the Beaches will be this week and he hoped there would be a good turnout.

City Manager James Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach

ABSENT:

Vice Mayor John Jolly
City Attorney Patrick Krechowski

Order Call

Mayor Pruette called the special meeting to order at 6:30 p.m.

**Thanksgiving Day
Event**

THANKSGIVING DAY EVENT: Mayor Pruette thanked the Town Center business owners and asked City Manager Jarboe if he had any information for Council regarding the Thanksgiving Day event.

City Manager Jarboe explained historically Pete's Bar has held a Thanksgiving Day event for local residents to come together and socialize and drink bloody marys before returning home to roast their turkeys. The event has now become so popular that it has people attending from all over and has drifted into the streets. The large crowds have drawn concerns regarding safety. There have been instances in the past with dogs, skateboards, bicycles, etc. The City would like to see the event continue but there needs to be security requirements and responsibilities placed on the hosts to ensure people are safe.

Chief Sembach sent a letter to Pete's Bar several months ago listing some requirements for the event. Pete's Bar responded in a letter to the City that they would not be hosting the event this year based on those requirements. Ed Jones, representative for the Town Center Agency came forward advising that the Town Center Agency would be interested in hosting and coordinating the event. Mr. Jones was going to meet with other Town Center Merchants to see if they would be willing to support the event.

Ed Jones, 200 First Street, stated he met with the Town Center Merchants and Sliders Seafood, Lilly's Coffee Shop, Pete's Bar and Ocean 60 have agreed to participate and pay a fee to the Town Center Agency to cover the cost of the conditions the City has placed on the event.

Because Ocean 60 is located in Atlantic Beach they would like to put up a booth within the boundaries created for the event in Neptune Beach. The Green Room Brewery in Jacksonville Beach has agreed to create and donate a pumpkin beer for the event with the proceeds going to the Beaches Town Center Agency.

Councilor Wiley asked Mr. Jones if at this point the Beaches Town Center Agency was definitely going to host the event. Mr. Jones replied the final vote will be taken at their meeting this coming Thursday night. He spoke with the State Licensing Agency and they assured him that all participating businesses would be able to obtain their own individual license.

Councilor Wiley asked if the participants would need a permit from the City. City Manager Jarboe responded they would not need a permit. The Council would have to vote to waive the open container law for the time period of the event. This would allow open containers within the boundaries of the event only.

Councilor Wiley felt the \$2,000 the City has contributed to the event should be used for security only and asked how much that would amount to. Mr. Jones replied they estimated \$2,000 for security.

Mayor Pruette asked Chief Sembach what he estimated for the cost of security and barriers. Chief Sembach state police officers charge \$50.00 per hour with a four hour minimum. There are usually three so the cost for the officers would be at least \$600.00. City Manager Jarboe stated the barriers would cost approximately \$500.00 and there is also the cost for civilian security guards.

City Manager Jarboe stated it is important to have a plan for how the event is going to be handled and who is going to be responsible. Mr. Jones replied there will be a meeting with the volunteers this week to work out the details. The businesses have all agreed to assist with the setup and breaking down. Chief Sembach will take care of the security issues. He will report back to City Council after the meeting with the Beaches Town Center Agency and the meeting with the volunteers.

Tom Whittingslow, representative for Pete's Bar, stated the Pete's Thanksgiving Day event became more popular when the Beaches Leader ran an article one year the Wednesday before Thanksgiving Day. That was the year that the event spilled over into the streets. Pete's Bar decided not to host the event because they were uncomfortable having to tell the other participants how to run their businesses and asking them to pay their fair share. It started out years ago as a Pete's Bar Thanksgiving Day tradition. The other businesses have become involved and he felt that was fine. However, Pete's Bar had to have an insurance policy and the other businesses were operating without one. So everyone wasn't paying their share and it has gotten out of their control. He felt the event has now become a Neptune Beach event and Pete's Bar would like to see it continue.

Mayor Pruette asked Chief to clarify that there would be no dogs, skateboards, backpacks, bicycles, or music within the boundaries of the event. Chief Sembach replied coolers would also not be allowed. Backpacks are allowed into the event but will be searched to make sure there is no alcohol being brought in. The parking lot will be fenced off to avoid any tailgating.

City Manager Jarboe mentioned that Pete's Bar has always done an excellent job cleaning up the streets.

COMMUNICATIONS & CORRESPONDENCE

City Manager Jarboe stated the deadline for the property owner who was brought before the Code Enforcement Special Magistrate for cat, hoarding and a foul odor ended today at 9:00 a.m. Building Official Don Ford and Community Development Director Amanda Askew went out to inspect the condition of the property this morning but the owner refused to let them inside the house. Beginning tomorrow the owner will be fined \$500.00 per day. He will be contacting the special magistrate to schedule a meeting this week. He is also looking into the possibility of obtaining a court order to allow entry into the home.

In addition the property owner has a new code violation for cutting down a tree without a permit which they left sitting in the front yard and is blocking the sidewalk. The owner is not allowed to occupy the home until all the code violations are corrected.

Mayor Pruette stated it appears the owner is living in the house. City Manager Jarboe stated the owner is only allowed inside the house for cleaning purposes.

Chief Sembach explained code violations are a civil matter and not a matter for the police department. He did speak with the property owner and informed her that Building Official Ford would be visiting and she would need to allow him entry. There is nothing in the Florida Statutes that would allow entry through a locked door or locked gate.

Mayor Pruette stated citizens are losing confidence in the code enforcement process and need some answers. She voiced concern regarding the amount of time it is taking to correct the code violation. Chief Sembach explained there is a legal process the City has to follow. She asked to place the issue on a workshop meeting agenda for more information.

Chief Sembach stated he looked through the front door of the house and it appears it has been cleaned up and there was no foul odor outside the house.

Mayor Pruette was concerned about the amount of money the issue was costing the City. City Manager Jarboe replied the work was done mostly by volunteers. The amount of the fine will more than cover the cost for the City.

Councilor Wiley asked what the next step in the process was. City Manager Jarboe stated Building Official Ford will inspect the house to determine if it meets the requirements ordered by the Special Magistrate. If it does not he will bring the property owner back before the Special Magistrate. Another option is to have the house condemned and demolished. Demolishing the house would cost the City approximately \$13,000.

Councilor Tucker asked the Chief if he would be able to do something if criminal charges were brought against the property owner. Chief Sembach replied he was going to meet with the State Attorney to determine whether or not this is a criminal matter.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The flooding due to heavy rains is back to normal.
- There was a water main break today off of Florida Boulevard. Citizens were notified via the "phone tree." Citizens can register on our website to be included on the list.
- We have had the solar panels on City Hall for eleven months and we are \$550.00 ahead on the electric bill.

- He has requested from City of Jacksonville Councilman Bill Gulliford that the County fund the bridge in Jarboe Park and the beautification around City Hall.

City Clerk Lisa Volpe stated she has created a list of council actions and consensus's in an effort to prevent agenda items from being overlooked.

COMMENTS FROM THE PUBLIC

Robin Rutledge, 309 Oceanwood Drive, voiced concern regarding the condition of the property with the code violations that is next door to hers. She was upset that her mother, during her last few years, could not sit outside and enjoy the environment. She also voiced concern regarding the amount of time the process takes. She asked the City to use whatever laws available to make sure this situation does not happen again.

Rose Ann Beason, 217 Oceanwood Drive, stated the hoarding situation has been ongoing and each time it seems to get worse. She felt the only answer was to condemn the property and demolish the house.

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m.

Ord. No. 2013-07

ORDINANCE NO. 2013-07, ADOPTING THE FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2013, AND ENDING SEPTEMBER 30, 2014; SETTING FORTH CERTAIN INFORMATION REGARDING "ROLLED-BACK-RATES"; DIRECTING THE CITY MANAGER TO ADJUST THE ADOPTED MILLAGE RATES IN THE EVENT OF CHANGES IN THE ASSESSMENT ROLL AND TAXABLE VALUE; PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read for the record the TRIM, Truth in Millage notice. This is the millage public hearing for the City of Neptune Beach, Florida, the roll back rate for the City of Neptune Beach is 3.3756 mills, this rate reflects a zero point zero percent increase over the prior year's millage rate. This roll back rate is the rate that is to be levied in this Ordinance by the city council and the rate on the TRIM notice you received in mail was 3.5457, which is higher than the rate that is actually being levied tonight.

City Manager Jarboe stated this is the first roll back rate in five years that is actually a roll back.

Mayor Pruette read Ordinance No. 2013-07 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2013-07 ON SECOND READ AND PUBLIC HEARING.**

City Manager Jarboe stated the General Fund budget is about \$450,000 less than it was five years ago.

Mayor Pruette read Ordinance No. 2013-08 by title only and opened the public hearing.

Lynda Padrta, 1113 First Street, was pleased that all the “nice to haves” have been trimmed from the budget. She hoped the City continued to provide the kind of services to keep the city a good, safe, clean, place to live.

There being no public comments the public comments the public hearing was closed.

Moved by Tucker, seconded by Jolly.

Motion: **TO ADOPT ORDINANCE NO. 2013-08 ON SECOND READ AND PUBLIC HEARING.**

Mayor Pruette thanked staff for cutting back on the budget without raising taxes while still maintaining quality services. She hoped the citizens would understand when they receive their tax bill that the City of Neptune Beach did not increase taxes but the county will be raising taxes.

Mayor Pruette called the meeting to order at 6:05 p.m.

PRESENTATIONS / NONE

COMMITTEE REPORTS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The wastewater plant continues to meet the nitrogen goal required by the Department of Environmental Protection despite all the rain.
- Public Services Director Leon Smith met with the Jacksonville Public Services Director last week to discuss tipping fees. The City of Jacksonville offered to forego charging Neptune Beach a tipping fee for one year if the City gives them our two credits forever. This would amount to about 10% of what the credits are actually worth.
- He has asked City of Jacksonville Councilman Gulliford to help pay for the new aluminum bridge that would replace the walkover on the north side of Jarboe Park and also to consider funding the landscaping of City Hall.

Mayor Pruette stated City Manager Jarboe would be providing Council some information regarding tipping fees and credits for discussion at a future workshop meeting.

Mayor Pruette reminded Council members that they could add items to the City Manager's Action List. She asked City Manager Jarboe to place the issue of ants on the beach crosswalks.

City Manager Jarboe added he has received several calls about ants on the beach crosswalks. He has been given permission from the Department of Natural Resources to spray. Public Services Director Leon Smith has called McCall's Pest Control.

Councilor Wiley asked City Manager Jarboe to give Council an update on the parking situation behind City Hall. City Manager Jarboe explained there are drainage issues by the handicap parking space. He would be meeting with the property owner Rad Lovett to discuss the issues needed to be addressed before the City can issue a Certificate of Occupancy. A portion of the parking lot was closed off last week due to the installation of a large grease trap by the Flying Iguana and Tequila Bar. The grease trap they are installing is three times larger than what is required.

Councilor Arthur asked City Manager Jarboe to insure that the trash cans on the beach are being emptied in a timely manner, thereby taking away the food source for the ants, before the crosswalks are sprayed with a pesticide.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, agreed extra costs are essential in order to handle the crowds at the Pete's Annual Thanksgiving Day event. She voiced concern regarding people entering the event area with drinks and dogs, and people having parties. She felt the event has grown into more than just a Pete's family event. She felt all of the participants in the event should work together to make the event happen.

Mary Ann Padrta, 1030 Second Street, stated she read about a city in California that used eminent domain to acquire mortgages of properties that were in bad condition once the mortgages were obtained they could foreclose on them or do whatever they wanted to do with them.

PROPOSED ORDINANCES

Ord. No. 2013-10 ORDINANCE NO. 2013-10, AMENDING THE OPERATING BUDGET FOR FISCAL YEAR 2013; AN ORDINANCE AMENDING THE OPERATING BUDGET FOR FISCAL YEAR 2013, BEGINNING OCTOBER 1, 2013 AND ENDING SEPTEMBER 20, 2014.

City Manager Jarboe stated the amendment is for the purchase of the animal control truck, paving and grants received that were not in the budget.

Consensus: **FORWARD TO THE OCTOBER REGULAR MEETING FOR FIRST READ.**

Ord. No. 2013-xx ORDINANCE NO. 2013-XX, UTILITIES, RECOVERY OF CITY COSTS; AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO CHAPTER 23, UTILITIES, SECTION 23-53, SAME RECOVERY OF CITY COST AND ESTABLISHING AN EFFECTIVE DATE.

City Manager Jarboe stated City Attorney Krechowski advised that the city could have the property owner pay for new infrastructure but cannot assess property owners for maintenance and rehabilitation.

Mayor Pruetto agreed to sponsor the ordinance

Consensus: **FORWARD TO THE OCTOBER REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Auditors

SELECTION OF AUDITOR: City Attorney Krechowski stated Council voted on August 5, 2013 to select Purvis, Grey & Co. for auditing services. Two firms satisfied all requirements of the request for proposals and were ranked by the Finance Director based on several categories, one of which was compensation. Council reviewed the rankings and by a vote of 3 to 2 ranked the two companies and by a vote of 5 to 0 selected Purvis, Grey & Co. During the selection discussion each council member gave an explanation of their reasoning for ranking the two firms. On August 7, 2013, the firm of Masters, Smith & Wisby filed a protest of the Council's determination in selection. In order to ensure the City is in compliance with Florida law he asked that issue be revisited to ensure the record is accurate and completely reflects the reasons for not selecting the highest ranked firm as ranked by the finance director. He added the matter is not to be reopened and voted on again. He simply wanted to ensure that the record was clear.

On the record Mayor Pruetto asked the Council Member's that voted for Purvis, Grey & Co. to restate and confirm their reasoning for the record. She asked that their explanation be short and concise.

Councilor Tucker stated "for the record" the reason she voted for Purvis, Grey & Co. was that she wanted to have a new company review the financial records. She felt every few years it was good to change and have someone new review the books.

Councilor Wiley stated "for the record" both firms were excellent firms. The total points a firm could rank was 50 points. Masters, Smith & Wisby were ranked 49 points and Purvis, Grey & Co. was ranked 48 by the Finance Director. He reviewed the rankings and ranked them himself as a tie. He felt it was a good time to rotate the audit firm. Compensation was also a factor.

Councilor Arthur stated "for the record" his reasoning for choosing Purvis, Grey & Co. was that every five years as codes and laws change he felt it was in the best interest of the City to employ a different auditor to review the books from a new prospective to see if there is anything the City has missed or anything that should be handled differently.

Park Event

APPROVAL OF FLETCHER HIGH SCHOOL ANNUAL FALL CHORUS PICNIC IN JARBOE PARK: City Manager Jarboe explained the event would have approximately 50 students and adults. The event was held in Jarboe Park last year as well.

Consensus: **FORWARD TO THE OCTOBER CONSENT AGENDA.**

Surplus Vehicles

APPROVAL TO SURPLUS VEHICLES: City Manager Jarboe explained the surplus vehicles included the following: 1) two patrol vehicles, a lifeguard truck, and an animal control truck, from the Public Safety Department, 2) an old trailer, two ½ ton trucks, an aerial lift, an old pump and a ½ ton truck. a ¾ ton truck and a wheel balancer from the

Public Services Department. The City Clerk will place the surplus items on the Gov.com auction site.

Consensus: **FORWARD TO THE OCTOBER CONSENT AGENDA.**

Thanksgiving
Day

PETE'S BAR THANKSGIVING DAY CELEBRATION / COUNCILOR ARTHUR:
Councilor Arthur asked Chief Sembach to address the Council regarding the Thanksgiving Day celebration.

Chief Sembach stated he received a letter from Nancy Jensen, owner of Pete's Bar stated they would not be holding the Thanksgiving Day event this year due to the number and costs of the city's new requirements. They would be open for business as usual. He explained the event has grown larger and larger each year that he has worked here. The first year he was here a car could be driven down First Street, now the street has to be blocked off to accommodate the crowd.

He has noticed more alcohol consumption in the last couple of years. People are bringing in backpacks full of alcohol that are not purchased from any of our vendors. People are tailgating in the parking lots without joining the participation on First Street.

Last year he witnessed many people bringing their dogs. There was one pit bull that almost attacked a smaller dog because they were walking through the crowd and came upon the other unexpectedly.

He also witnessed a person on a skateboard slip off and the skateboard flew through the crowd striking a man in the ankle. There may have been a fight had the skateboarder not disappeared quickly.

There were also people riding bicycles.

He proposed limiting what could be brought into the event area like the City does for "Dancin in the Streets" event. This would prohibit pets, skateboards, bicycles, and outside alcohol.

City Manager Jarboe added another issue was lack of restroom facilities. Chief Sembach stated he has received complaints of people urinating in public.

Chief Sembach added that last year there were two television stations reporting on the event which also draws more people to the event.

Councilor Arthur asked Chief Sembach if he had an estimated attendance from last year. Chief Sembach replied between 9:00 a.m. and 10:00 a.m. there were a minimum of 100 people and growing more throughout the day. A conservative estimate would be 1,000 to 1,500 at peak.

Councilor Arthur questioned if Pete's would have to meet all the requirements of the City before they obtained a permit. City Manager Jarboe replied "yes." A letter from Chief Sembach had been sent to Pete's Bar, Island Girl, Lemon Bar and Sliders. The only response was from Pete's.

Councilor Arthur asked if there were the minimum requirements. Chief Sembach replied "yes" however they could be discussed.

Councilor Arthur asked if there was a standard procedure or matrix used for crowd volumes, restrooms, and security. Chief Sembach replied he did not think there were any standards.

Councilor Arthur questioned if any of the restaurants had applied for a permit. City Manager Jarboe responded "no."

Mayor Pruette questioned how the permit applied to drinking. Chief Sembach answered the permit from the City did not allow businesses the right to allow people to come in and get drinks and remove them from the premises that is governed by the State.

Mayor Pruette asked how other businesses could operate under one permit. City Manager Jarboe replied there were two ways to allow events. The City Manager can approve an event if it is non-profit. Council has to approve events that are hosted by businesses.

City Attorney Krechowski advised exploring the idea that whatever businesses wanted to be open during the event to apply for some type of permit.

Councilor Wiley asked what the hours of the event were. Chief Sembach replied last year the event was from 9:00 a.m. to 1:00 p.m.

Councilor Wiley asked what other businesses participated in the event. Chief Sembach replied last year the Island Girl Cigar Bar and Sliders. The Lemon Bar opened last year but did not participate in the event. The Flying Iguana and Tequila Bar may want to participate this year. City Manager Jarboe added North Beach Fish Camp would not be participating.

Councilor Wiley asked what the occupancy load capacity of Pete's was. Chief Sembach replied he was not sure. If they did not get a permit for the event people would not be allowed to bring their alcoholic beverages into the street. City Manager Jarboe added normally Pete's has a door monitor that limited the amount of people inside.

Councilor Wiley asked if Pete's obtained a permit for the event would Council have to approve the event with suggestions that the other participants agree to the terms. Chief Sembach replied it was a matter of what business would be responsible for obtaining the permit.

Councilor Wiley stated if Pete's was open a large number of people would come to Town Center. He was concerned that people would get the idea that the city was against the event.

Mayor Pruette stated Nancy Jenson informed her they would not be hosting the event this year. If they opened it would still place work on the City because of the crowd and people would be angry because they could not get inside. City Manager Jarboe stated he spoke to the Ed Jones with the Beaches Town Center Agency about the possibility of the agency hosting the event.

Councilor Tucker felt safety was a key issue. The event has become a tradition for Pete's Bar and she would like to see it continue.

City Manager Jarboe explained if the bars and restaurants are open on Thanksgiving Day they would not be allowed to have people leave the establishments with alcoholic beverages unless they have a license from the State to have a festival. If they did the State could take away their license and give them a fine.

Vice Mayor Jolly asked Chief Sembach how many officers were on duty on Thanksgiving Day. Chief Sembach replied there are three off duty officers that work the event, two before 9:00 a.m. and one more after 9:00 a.m. The ones normally on duty are not part of the security. He has a tough time getting officers to work on Thanksgiving Day.

Mayor Pruette suggested asked the City of Jacksonville Beach if some of their citizens on patrol would volunteer to work the event. Chief Sembach replied that was a possibility.

Vice Mayor Jolly asked if no one sponsored the event and paid for security if the funding for overtime for off duty officers would be placed on the city. Chief Sembach stated he would have to pay the officers overtime unless someone organized and hosted the event.

Ed Jones with the Beaches Town Center Agency stated he approached City Manager Jarboe with the idea of the Beaches Town Center Agency hosting the event. As a nonprofit agency they could obtain the permit and place participating businesses under their umbrella and hire them to provide alcohol for the event. He suggested the City sponsor the event and provide \$2,000 towards the security and other requirements.

Mayor Pruette questioned where the funds would come from. City Manager Jarboe stated the money could be used from the Convention Development Tax fund which is about what it would cost to pay off duty officers overtime. This way the City would not have to provide security, it would be paid for by the Beaches Town Center Agency.

Mr. Jones stated if they could pull the event together they would create a perimeter with barriers to prevent people from bringing in dogs, bikes, etc. the same way they did for "dancing in the streets." Any nonparticipating business that would be open during the event would not be allowed to participate in the street gathering.

Councilor Wiley asked if Pete's Bar was not going to open why is there going to be an event. Chief Sembach responded Ms. Jensen was not sure if they would be open on Thanksgiving. She would let him know once she decided.

Mr. Jones stated he had this week to try to pull it together and if other businesses did not want to participate it would be canceled.

City Manager Jarboe stated Councilor would have to approve the \$2,000 but he could approve the event itself.

Councilor Arthur liked the idea of Beaches Town Center Agency organizing and hosting the event. He added that the money generated would be invested in Town Center. He would support the \$2,000 sponsorship of the City.

Mayor Pruette felt this would benefit the City and Town Center.

Councilor Tucker agreed to support the event.

City Manager Jarboe suggested the consensus be to allow the City Manager to move forward and provide up to \$2,000 for the Thanksgiving Day event if the Beaches Town Center Agency holds the event.

Vice Mayor Jolly stated the \$2,000 would otherwise be spent paying off duty officer's overtime.

Consensus: **CITY MANAGER JARBOE COME UP WITH THE MONEY AND LET COUNCIL KNOW HOW HE IS DOING IT AND KEEP COUNCIL ABREAST. AND THEN IN TWO WEEKS GIVE US MORE INFORMATION.**

Code
Enforcement

CODE ENFORCEMENT: City Manager Jarboe asked Building Official Don Ford to report to the Council on recent code enforcement activity.

Building Official Don Ford explained he began keeping monthly activity reports on the code enforcement issues. Since the code enforcement officer position was eliminated the duties have been divided between himself, public services, and the community development director. The public services department is now handling the garbage complaints, the community development director is dealing with the zoning complaints, and he is handling all other complaints. Since last November there have been a total of 122 legitimate complaints and over 200 garbage complaints. City Manager Jarboe stated it has been more like 400 garbage complaints. He felt the system was working well overall.

City Manager Jarboe added the city has sent out 40 letters regarding garbage complaints to those who have not complied. By State law violators have up to 10 days to come into compliance after 10 days they received another letter informing them that they have to appear before the Code Enforcement Magistrate. Because of the days garbage is collected the only times the city can check on compliance is on Friday, Saturday and Sunday. Some garbage cans could be out all week and still be in compliance depending on the location.

Councilor Tucker stated she was aware of the notices and door hangers and felt the new system was working well.

Building Official Ford added that some people did not take the notices seriously until they have to face the special magistrate and have to pay a fine. City Manager Jarboe even then is sometimes difficult to collect the fine and the city has to place a lien on the property.

Councilor Wiley asked if there was one particular area in the city more prone to garbage complaints than others. Mr. Ford replied the area east of Third Street seems to have more complaints and that is mainly due to rental properties. Councilor Wiley asked if the property owners were notified if the tenants received a complaint. Mr. Ford replied the property owners were also sent a notice and the property owner is the one that has to face the special magistrate.

Councilor Wiley stated he was concerned about the snipe signs that are put out on the weekends. He asked who was responsible for picking them up. City Manager Jarboe replied the public service employees were responsible for picking up those signs and keeping the rights-of-way clean.

Councilor Arthur questioned if property owners were sent certified letters notifying them that their tenants were noncompliant. Mr. Ford answered "yes."

Mayor Pruette felt Mr. Ford was doing a good job acting as Code Enforcement Officer and doing his duties as Building Official. She asked if felt he could amply keep up with both. Mr. Ford replied "yes."

Consensus: **TO MOVE ALONG AND SEE HOW THINGS GO AND TAKE IT FROM THERE.**

Mayor Pruette asked City Manager Jarboe to add code enforcement to his action list and update Council on a monthly basis.

Councilor Wiley asked if Waste Pro could start picking up yard waste on Mondays in lieu of Wednesdays. City Manager Jarboe stated they could but the residents would have to pay more for the service.

City Attorney Krechowski explained last week the special magistrate issued an order upholding the notice of condemnation on the house of First Street where the balcony collapsed on July 4th. The property owner has a right to appeal if he chooses.

Vice Mayor Jolly asked if the house Council approved to be demolished at the September regular meeting had been demolished. Mr. Ford replied he was working with the bank that owns the property and they have hired a contractor. The contractor recently contacted the building department regarding how to obtain a permit to demolish it themselves.

City Manager Jarboe advised there was another house on Hopkins Street that needed to be condemned. The owner has to have a notice for a minimum of 120 days.

Bal Harbour

LATERALS FOR BAL HARBOUR: City Manager Jarboe explained the city was trying to figure out how to reduce the costs for the laterals in Bal Harbour. Director of Public Services Leon Smith met the contractor and decided on a new process which is a static approach where pipe busting is pulled instead of hammered in and does not damage the surrounding property.

Public Services Director Smith explained he met with the contractor and they discussed ideas to save money. The contractor suggested doing the static approach versus the numatic approach. The numatic approach is a hammering effect and the static approach is where they pull the pipe which does not have the damaging effect of pools and buildings. He also suggested leaving the sewer in the back which would save the city close to one million dollars. This method does not need a permit from the Department of Environmental Protection which also saves time and money.

City Manager Jarboe added the savings will allow the City to purchase our equipment without having to pay the contractors price or sales tax.

Mayor Pruette was pleased stating this will benefit both the city and the property owners in Bal Harbour.

City Manager Jarboe added the savings will also allow the city to do more work on Fourth and Fifth Streets south of the park.

Councilor Wiley asked how many homes the project will effect. Mr. Smith replied there were 92 homes in the area. Councilor Wiley stated this project did not have an effect on the storm drainage issues in Bal Harbour it was strictly for the sewer.

Councilor Wiley asked when the project would begin. Mr. Smith replied the project will begin within 30 days. Councilor Wiley asked when the project would be complete. Mr. Smith replied approximately 26 to 30 weeks.

City Manager Jarboe added the property owners would not have to pay for the lateral.

Councilor Wiley asked if the residents would be notified. Mr. Smith responded he would be meeting with each property owner individually.

PUBLIC COMMENTS

Ed Jones, 200 First Street, stated he was in need of volunteers for the Thanksgiving Day event. He also stated the Beaches Town Center Agency would be having a ribbon cutting ceremony for the landscaping project at the end of Orange Street. Their next project was landscaping of Town Center. He added the poorest looking landscaping in Town Center was the City Hall property. He requested the City purchase plants for the landscaping. He asked Council to place the issue of Town Center Christmas decorations on the October workshop meeting agenda.

Chris Oakey, 620 Camellia Terrace Drive, voiced concern regarding code enforcement. He asked the City Manager to separate garbage complaints from other code enforcement complaints on his action list. He was concerned that there was nothing in the code that states who is responsible for code enforcement.

Lynda Padrta, 1113 First Street, asked if the Thanksgiving Day event would encompass any of the vendors in Town Center including Atlantic Beach. She added the Merchants Association may be interested in participating in the Thanksgiving Day event. She felt full trash cans should not be allowed to sit on the curb until the day of pickup. She asked what the density was east of Third in the R-4 district.

COUNCIL COMMENTS

Councilor Jolly stated he would not be present for the October regular meeting.

Adjournment

There being no further business, the meeting adjourned at 7:40 p.m.

Harriet Pruette, Mayor

REGULAR CITY COUNCIL MEETING
SEPTEMBER 9, 2013, AT 6:00 P.M.
CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Regular Meeting of the City Council of the City of Neptune Beach was held September 9, 2013, at 6:00 p.m. in the City Hall Council Chambers, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

City Engineer Jim French
Director of Finance Steve Ramsey
Director of Public Safety David Sembach

Order Call/Pledge Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Wiley to lead the pledge of allegiance.

Ord. No. 2013-07 ORDINANCE NO. 2013-07, ADOPTING FINAL MILLAGE RATES, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2013 AND ENDING SEPTEMBER 30, 2014; SETTING FORTH CERTAIN INFORMATION REGARDING "ROLLED-BACK RATES"; DIRECTING THE CITY MANAGER TO ADJUST THE ADOPTED MILLAGE RATES IN THE EVENT OF CHANGES IN THE ASSESSMENT ROLL AND TAXABLE VALUE; PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the millage rate FY2013/2014 reflects a small decrease from FY2012/2013.

Mayor Pruette read the "Truth in Millage" as follows: This is the millage public hearing for the City of Neptune Beach, Florida. The roll back rate for the City of Neptune Beach is 3.3756. This rate reflects the zero point zero increase over the prior year's millage rate. This roll back rate is the rate that is to be levied in this ordinance by the city council.

Mayor Pruette read Ordinance 2013-07 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Councilor Wiley complimented staff for preparing a budget that allowed the city a true roll back rate.

Mayor Pruette also thanked staff for preparing the budget without raising taxes.

Motion: **TO PASS ORDINANCE NO. 2013-07 ON FIRST READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

MOTION CARRIED

Ord. No. 2013-08 **ORDINANCE NO. 2013-08, ADOPTING A FINAL BUDGET, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH FLORIDA, ADOPTING A FINAL BUDGET AND APPROPRIATING FUNDS FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2013 AND ENDING SEPTEMBER 30, 2014; PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained there was a slight increase in State Revenue this year which was a helpful with the preparation of the budget.

Mayor Pruette read Ordinance No. 2013-08 by title only and opened the public hearing.

Lynda Padrta, 1113 First Street, questioned if all unnecessary items had been removed from the budget. She felt there was room for savings by eliminating the need for public services employees to maintain the rights-of-way on First Street allowing them time to perform other necessary tasks. She was concerned that the city may be eliminating necessary services or decreasing the quality of life by continuing to cover expenses while keeping the revenue flat and questioned if that was a valid way to approach budgeting. She also questioned why the utility rates kept increasing.

There being no further comments from the public, the public hearing was closed.

Moved by Tucker, seconded by Jolly.

Motion: **TO PASS ORDINANCE NO. 2013-08 ON FIRST READ AND PUBLIC HEARING.**

MOTION CARRIED**COMMUNICATIONS & CORRESPONDENCE / NONE****CITY MANAGER REPORT**

City Manager Jarboe reported the following:

- The Iguana and Tequila Bar should be opening by the end of September. The restaurant is installing an oversized grease trap that will help with overflows on grease clogs.
- The construction of the office and retail building on Second Street and Atlantic Boulevard seems to have slowed down. He had heard the owner had not secured a tenant which may be the reason the construction has slowed.

COMMENTS FROM THE PUBLIC

Alan Martin, 1113 First Street, questioned if the new construction at the Beaches Chapel had met all the city requirements because the sign stated they would be opening this fall. He voiced concern regarding vehicles parking too close to the edge of the ditch in the rear of the Beaches Chapel property and suggested placing something in front of the ditch to prevent them from parking so close.

CONSENT AGENDA / NONE**VARIANCES / NONE****ORDINANCES**

Ord. No. 2013-05 **ORDINANCE NO. 2013-05, AMENDING CHAPTER 2, ADMINISTRATION, POLICE OFFICERS' RETIREMENT SYSTEM, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE V, EMPLOYEE BENEFITS, DIVISION 4, POLICE OFFICERS' RETIREMENT SYSTEM OF THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH; AMENDING SECTION 2-345, DEFINITIONS; AMENDING SECTION 2-349.11, MAXIMUM PENSION; PROVIDING FOR CODIFICATIONS; PROVIDING FOR SEVERABILITY OF PROVISIONS; REPEALING ALL HERewith AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained this amendment is required by the Internal Revenue Service and has been approved by the Police Officers' Retirement Board and its attorney.

Mayor Pruette read Ordinance No. 2013-05 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2013-05 ON SECOND READ AND PUBLIC HEARING.**

Ord. No. 2013-06 **ORDINANCE NO. 2013-06, CHAPTER 23, UTILITIES, WATER AND SEWER SERVICES, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA CHAPTER 23 UTILITIES ARTICLE IV WATER AND SEWER SERVICE CHARGES SECTION 23-84(B)(C) AND (D) TO INCREASE WATER RATES AND AMENDING SECTION 23-85(A)(B) AND (C) TO INCREASE SEWER RATES; AND ESTABLISHING AN EFFECTIVE DATE.**

City Manager Jarboe explained this ordinance increases the water and sewer rates 3% as per the water and sewer rate study. This will also help fund the infrastructure for Bal Harbour.

Mayor Pruette read Ordinance No. 2013-06 by title only and opened the public hearing.

There being no public comments, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Mayor Pruette was pleased that the infrastructure work was beginning in Bal Harbour and felt it was a good start for the area west of Third Street.

Motion: **TO ADOPT ORDINANCE NO. 2013-06 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Mayor Pruette agreed to sponsor the Ordinance.

City Manager Jarboe stated our requirements for creating turn lanes are more stringent than the State requirements. He suggested changing the code to be consistent with the State.

Mayor Pruette read Ordinance No. 2013-09 by title only and opened the public hearing.

Lynda Padrta, 1113 First Street, questioned what other roads would be impacted by the ordinance.

There being no further comments from the public, the public hearing was closed.

Moved by Tucker, seconded by Jolly.

Motion: **TO PASS ORDINANCE NO. 2013-09 ON FIRST READ AND PUBLIC HEARING.**

Councilor Wiley questioned if the ordinance would affect the size of cul-de-sacs. City Engineer French replied "no", it did not address cul-de-sacs at all. It only affects collector roads and lane width.

Roll Call Vote:

MOTION CARRIED

1727 Hopkins
Creek Ln.

APPROVAL OF THE DEMOLITION OF 1727 HOPKINS CREEK LANE: City Manager Jarboe explained the building located at 1727 Hopkins Creek Lane was in a state of disrepair and had been condemned for two years. Hopefully, this will help persuade the owner, Wells Fargo Bank, to make the necessary repairs. If they do not make the repairs the City can demolish the structure because it is a potential danger to the public.

Moved by Tucker, seconded by Arthur.

Motion: **TO APPROVE THE DEMOLITION OF 1727 HOPKINS CREEK LANE.**

Mayor Pruette stated the lights had been on inside the condemned house. City Manager Jarboe replied Wells Fargo may have had the electricity turned on so they could evaluate the condition of the property. He has asked Building Official Don Ford to have the electricity turned off.

Councilor Arthur asked if Wells Fargo was the owner of the property. City Manager Jarboe responded yes, they were in the process of conducting an evaluation of the property to see if it was feasible to repair and place on the market.

Councilor Wiley questioned if the City had to own the house in order to demolish it. City Manager Jarboe replied 'no,' if Wells Fargo is not willing to do the necessary repairs to make the property safe for the community then the City can demolish it.

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

**Bal Harbour
Bonds**

BAL HARBOUR INFRASTRUCTURE WATER & SEWER LOAN: Finance Director Steve Ramsey explained requests for proposals for two loans were received. The calculations were done independently by Dunlap & Associates. Dunlap & Associates will be attending the September regular meeting with a Resolution for Council to accept the loans. The best offer is for loan 2013A, for the Bal Harbour project, is from BB&T for 3.35% and the best offer for loan 2013B, for the refunding of water and sewer bonds issued in 2001, is from TD Bank for .99%.

Councilor Arthur asked if the rates were guaranteed. Finance Director Ramsey stated the new loan for Bal Harbour is locked for 45 days. The loan for the refinance is good until September 10th which is the closing date.

Vice Mayor Jolly asked if the 2013B loan was the revolving fund. Finance Director Ramsey replied the 2013B loan is a refinance of an old 2001 loan.

**Budget
2013/2014**

PROPOSED BUDGET FOR YEAR ENDING SEPTEMBER 30, 2014: Finance Director Ramsey explained the Budget was prepared using the roll back rate of 3.3756.

The big change in the budget this year is the loan for the Public Services building has been paid off and we are using that \$265,000 from the Better Jacksonville Plan to pay for paving.

The budget for the current year is short nearly \$24,000. Mayor Pruetto questioned how the city would make up for the shortage. Finance Director Ramsey replied the State revenues came in higher than expected and that would offset the loss.

The telecommunications tax is over \$8,000 higher and the cigarette tax is up about \$4,000.

The budget has been cut by \$400,000 since the 2006 budget.

Mayor Pruetto asked Mr. Ramsey if he was comfortable with the proposed budget. Mr. Ramsey replied "yes" the reserves are built up. If there is a major storm we would be able to survive.

Mr. Ramsey explained the only change in the budget is the life and health insurance. The health insurance increased 17% this year.

In the non-departmental budget there are two things to point out: 1) the debt service of \$265,000 and the solar system for the City Hall building is projecting to save approximately \$7,000 on the electric bill.

City Manager Jarboe stated there is \$6,000 more revenue in the animal control budget because the new animal control officer is writing more citations.

Councilor Wiley asked if there was a budget for the special magistrate. Mr. Ramsey responded the budget for the special magistrate was included in the legal counsel budget.

Councilor Wiley asked Mr. Ramsey if he felt comfortable the current year budget would be fully funded. Mr. Ramsey replied "yes" there is still money coming in from the State.

Mayor Pruetto stated Jacksonville Mayor Alvin Brown wanted to cut gas tax. She asked how that would impact our budget. Mr. Ramsey stated that is a special revenue fund of \$230,000.

City Manager Jarboe explained most of the general fund revenue was from property taxes and state revenue.

Mayor Pruetto asked if there was a budget for code enforcement. Mr. Ramsey replied the code enforcement budget was included in the police department budget.

CITY MANAGER'S ACTION LIST

Mayor Pruetto asked Plant Division Supervisor Mark Greenwood to explain the notice that was recently in the newspaper addressing concerns regarding the drinking water. Mr. Greenwood explained trihalomethanes is a compound formed when disinfection used to make water safe to drink reacts with natural organics. It is thought to be a possible cause for cancer but there is no proof. The Environmental Protection Agency requires notices if the level exceeds 80 parts per billion. The level was at 87 parts and they are currently taking measures to reduce the level. Other cities often have the same problem.

City Manager Jarboe reported on the following:

- He would be addressing Council regarding the property in Jarboe Park leased from Jacksonville Beach when the growing season is over and Public Works has time to work on the project.

PUBLIC COMMENTS

Christine Chin, 227A Margaret Street, voiced concern regarding overgrowth and trash. She approved of the newly adopted ordinance addressing trash and the storing of garbage cans.

Lynda Padrta, 1113 First Street, felt land use changes needed to be addressed regarding nonconforming lots.

Chris Oakey, 620 Camellia Terrace Drive, voiced concern regarding what he felt was a lack of code enforcement. He felt the city should notify new residents of the do's and don'ts regarding code enforcement.

Mary Ann Padrta, 1030 Second Street, felt it was unfair that she was not allowed to add a bathroom to her house because her lot was nonconforming.

PROPOSED ORDINANCES

Land Use

LAND USE CHANGE / NON CONFORMING PROPERTIES: Mayor Pruette stated the consensus at the February workshop meeting was to define the process of converting a multifamily home to a single family home and to define decks, porches, patios, and balconies.

City Attorney Krechowski stated he has added some definitions but it is difficult to make changes in one area of the code that did not impact other areas. There is a lot of language in the code regarding nonconforming lots and structures. One of the directions from the February meeting was also regarding the amount of greenspace in residential districts.

Vice Mayor Jolly suggested holding a workshop meeting to have Community Development Director Askew explain the reason for nonconforming properties.

Councilor Tucker felt our code should be consistent with the County code regarding converting multifamily homes to single family homes. She questioned why nonconforming lots could not apply for variances.

Councilor Wiley stated in the 60's and early 70's there were very few zoning regulations which created the now nonconforming lots. He asked Community Development Director Askew if the code allowed nonconforming lots to seek a variance. Ms. Askew replied there a lot of different considerations for nonconforming lots. If a structure did not meet the required setback in the front yard and the owner wanted to build a deck in the rear yard that would be allowed providing the rear yard met the setback requirements. Councilor Wiley asked if an owner wanted to add a porch on a nonconforming property would they be allowed to do so. Ms. Askew replied if it was a single family home they would be allowed but if it were a multifamily home they would not be allowed unless they converted it to single family.

Mayor Pruette read Section 27-146(a)(c) of the Code which prohibits a variance due to the duplex status and comprehensive plan density controls. She felt it would be better

to have a duplex with two units convert back to single family. Ms. Askew replied that is allowed.

Mayor Pruette felt the code did not make it easy to covert duplexes to single family because they are required to remove one of the electric meters and one of the water meters and there can only be one kitchen.

City Attorney Krechowski stated the difficulty with changing the code where nonconformities are concerned is that there are so many different types of nonconformities including lots, structures, uses, etc. He advised not making changes to the code just to fix one or two or three problems.

Mayor Pruette stated she would like for our code to be consistent with the county regarding converting multifamily to single family homes.

Councilor Arthur stated the changes are essentially definitions. City Attorney Krechowski replied and Section 27-244, Conversion and Expansion and some green space in the residential area.

Community Development Director Askew stated that the amount of green space in the Commercial district is 20%.

Mayor Pruette asked if it would be better to have more green space in commercial districts and less in residential. There is a property on Cherry Street that is completely filled up with pavers.

Mayor Pruette stated the Florida Building Code defines "Intensification of Use" as an increase in capacity of number of units of a residential or commercial building. Our Code defines it as change in a property structure or use resulting in increase requirements for parking, egress, occupancy load or fire regulations or expansion electrical, mechanical or plumbing system. She felt Council may need to review that as well.

Councilor Tucker asked if it would be a good idea to invite a representative of the property appraiser's office to a workshop meeting to discuss converting multifamily homes to single family homes.

Consensus: **CONTINUE WORKING ON THE ON AN ORDINANCE AND FORWARD FOR A FEW MONTHS.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Florida Blvd.

FLORIDA BOULEVARD, ADDITION OF A RIGHT HAND TURN LANE; City Manager Jarboe stated our requirements for creating turn lanes are more stringent than the State requirements. He suggested changing the code to be consistent with the State.

Consensus: **FORWARD**

1727 Hopkins
Creek Lane

REQUEST TO APPROVE THE DEMOLITION OF THE HOUSE AT 1727 HOPKINS CREEK LANE; Building Official Don Ford explained the house at 1727 Hopkins Creek Lane has been condemned for almost two years. The house has changed ownership three times during that period. He asked permission to proceed with the demolition process in an effort to have the current owner to take action.

Consensus: **FORWARD**

Code
Enforcement

CODE ENFORCEMENT ACTION: Mayor Pruette explained about a year ago she informed City Manager Jarboe she had been receiving numerous complaints regarding code enforcement especially ease of Third Street. City Manager Jarboe advised her, he would have the Code Enforcement Officer take action. The most conscience homeowners were the ones who received citations rather than the most egregious and they became very upset. She would like for the City to hire a part time Code Enforcement Officer to work four hours a day.

For the Record

Mayor Pruette stated for the record "I feel we need somewhat proactive verses reactive and we need to be more balanced. We need a code enforcement officer that will be fair and reasonable, work with code violators to resolve the code violations, does not look for every shade of gray, to be professional and personal relation savvy, courteous and use "good common sense." I want to talk to you about "good common sense and being professional." When I was first elected Mayor, I was Mayor for about eight months and we okayed an event in the park called Relay for Life. Someone complained about the noise and the code enforcement official told them to turn it down, which they did and on Monday when I came into City Hall I got a ticket, as Mayor, for noise in the park. To me that was not good common professional sense. This is a simple matter, if we want it to be simple. We cannot go out and be perfect in code enforcement. I don't think any of us expect code enforcement to be perfect but I think what we need is to do is tell our City Manager the direction we want to see and the way we want code enforcement, whether we want proactive, reactive, or middle of the ground. I believe the City should educate people more or put out more information so that new people would get the code, I believe noise, trash, and dog defecation. Then I think we need to sit back and let Mr. Jarboe do his job with staff. We pay him enough money, this should not be complicated, and it's not our job to tell him how to find a way or find an answer to code enforcement. I think Mr. Jarboe knows what to do. I do believe a part time code enforcement officer would certainly help out."

Councilor Arthur suggested Council develop certain criteria that they want to see enforced in a proactive manner and draft a resolution.

Councilor Wiley stated most complaints that he receives are relating to trash cans and recycle bins not being picked up. He was concerned about bandit signs that are placed around the City on the weekends. He agreed the City should be proactive but disagreed that Council should choose what violations should be proactive. He was not sure that a part time code enforcement officer was necessary. He asked Building Official Don Ford if he felt he could handle all code enforcement. Mr. Ford responded based on the number of violations he seemed to be handling it well.

Councilor Wiley asked if Atlantic Beach was proactive or reactive. Mr. Ford answered Atlantic Beach was more reactive because they have more complaints than they can handle.

Councilor Wiley asked how the weekend violations could be taken care of. Mr. Ford replied in the past someone would take a Monday off and work on a Saturday.

Councilor Tucker agreed the City should be more proactive. She questioned how the number of violations compared to previous years. Mr. Ford replied before he took over the job there were no numbers so there are no numbers to compare with.

Vice Mayor Jolly suggested Council give direction to City Manager Jarboe and allow him to manage the code enforcement then if he feels the need to hire more staff he can come back and ask Council.

City Manager Jarboe suggested he and Building Official Don Ford come up with plan and provide that plan back to Council.

Consensus: **CITY MANAGER AND BUILDING OFFICIAL GET TOGETHER AND COME UP WITH A PLAN AND PROVIDE THAT PLAN TO COUNCIL.**

Bal Harbour

SEWER HOOK-UPS / BAL HARBOUR: City Manager Jarboe stated Council needed to make a decision regarding if the City or the 90 property owners in Bal Harbour should pay the costs for sewer connections. The cost will range from \$180,000 to \$220,000. He suggested the City pay the costs because of the unusual situation. He will ask the City Attorney to draft an Ordinance.

Vice Mayor Jolly stated when he worked for Jacksonville Electric Authority, they required the property owners to pay for sewer connections.

City Manager Jarboe stated it is an unusual situation because of the way the sewer was originally installed. They were put in backyards and now we are moving everything out front.

Mayor Pruette asked if there were any other subdivisions that had the sewer connections in the back. City Manager Jarboe replied the Oceanwood subdivision also had sewer hookups in the back.

Consensus: **FORWARD TO THE SEPTEMBER REGULAR MEETING.**

PUBLIC COMMENTS

Alan Martin, 1113, First Street, felt most of the code enforcement issues regarding trash cans and recycle bins being left out.

Lynda Padrta, 1113 First Street, agreed nonconformities are a large issue and it is difficult to change the code concerning nonconformities when you don't know what they are. She liked the concept of dealing with code enforcement and the door hangers to notify violators. She felt the issue in the R-4 area was a number of people living in a small apartments having parties, generating a lot of trash and not respecting the City. She felt grass, garbage and dog defecation were main issues.

Chris Oakey, 620 Camellia Terrace Drive, stated code enforcement should be consistent throughout the city.

COUNCIL COMMENTS

Councilor Arthur stated the Town Center Agency was looking into commercial recycling in Town Center. They have also hired a landscape designer to upgrade the landscape in Town Center. He felt once Town Center upgraded the landscape that the City should consider upgrading the landscape at City Hall. He also requested public services install a few parking spaces at Basil Park.

Adjournment

There being no further business, the meeting adjourned at 8:00 p.m.

Director of Public Services Leon Smith

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

Mayor Pruette announced to be consistent with State law, there would be a Budget and TRIM meeting held on September 9, 2013 and September 23, 2013. City Manager Jarboe recommended holding the Regular City Council meeting on September 9, 2013 and the Workshop City Council meeting on September 23, 2013.

PRESENTATIONS

Auditor RFP's

AUDITOR REQUEST FOR PROPOSALS (RFP) COMPARISONS: Director of Finance Ramsey explained the auditor contract expired with our current auditors and requests for proposals were sent out in May. Proposals were received from Purvis, Grey and Co., Carr, Riggs, & Ingram, and Masters, Smith & Wisby. All three firms have excellent qualifications. Carr, Riggs, & Ingram proposal did not include the public entity crime statement required by Florida Statutes. The other two firms came in with proposals under the current budget level, Purvis, Grey's proposal was \$3,300 dollars less in for the first year and \$9,000 less over the three year period. Masters, Smith & Wisby maintains a local office in Ponte Vedra Beach and Purvis Grey's closest office is in Gainesville.

Purvis, Grey & Company: Rob Whiteside, a partner for the company, explained the company started in Florida in the 1940's. Their main office is in Gainesville and they have four other offices throughout the State. They are a governmental audit firm with two thirds of their work with cities, counties, school districts and special districts in

Florida. They have committed a team consisting of himself as the partner in charge as well as a manager, a senior and a staff accountant. They typically do pre-field work for three days in the summer and five to seven days final field work. He would be on site for most of the engagement.

Vice Mayor Jolly asked if the proposal included transportation or if there would be any additional charges. Mr. Whiteside replied transportation was included in the proposal however; there would be an extra charge for additional work or single audits.

Councilor Tucker asked how long the company has worked for our sister cities. Mr. Whiteside replied they have worked with Jacksonville Beach since 1993 and Atlantic Beach since before 1993.

Masters, Smith & Wisby, Gary Huggett, explained they have been the auditors for the past five years. It is hard for smaller local firms to maintain a presence in the auditing field in the governmental sector due to having to compete with larger firms. He felt their proposal was very fair considering where Neptune Beach would have been had Masters, Smith & Wisby presented their bid five years ago. He felt their company had saved the city a lot of money over the past five years. He further added the company has been in business since 1972. The main office is off Phillips Highway. They also have a satellite office in Ponte Vedra Beach. The proposal is for a not to exceed price and doesn't mean the price cannot be lower. It only means they cannot exceed that price.

Vice Mayor Jolly asked what their fee was for the past years. Mr. Huggett replied the cost was in the low \$3,000. They did not have a price increase for the last two years.

Vice Mayor Jolly asked what percent of their business involved government. Mr. Huggett responded they have one other governmental client, which is the City of St. Augustine, and several non-profits that fall under government auditing standards.

Mr. Huggett reminded Council the fee could not be the determining factor in the decision.

Mayor Pruette stated they have done a great job the past five years and she appreciated their hard work.

Consensus: **TO MOVE THE ISSUE TO THE NEXT COUNCIL MEETING AND HOLD A WORKSHOP BEFORE THE AUGUST REGULAR MEETING.**

City Manager Jarboe suggested meanwhile that the Council not consider any lobbying efforts from either firm and base their decision solely on the proposals.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There was a recent issue with cat hoarding and the City of Jacksonville would not cooperate per the Interlocal Agreement.

Mayor Pruette stated she felt it was time for Council to consider taking legal action against the County for not complying with the Interlocal Agreement. She added many people were upset over the fact that the violator had been cited three times over the hoarding and the conditions of the home in the past.

City Manager Jarboe responded the violator went before Code Enforcement each time.

Councilor Arthur suggested placing the issue of Code Enforcement on a future workshop meeting agenda to review the standard operating procedures.

Councilor Wiley agreed the standard operating procedures needed to be reviewed. He was concerned the party may begin hoarding cats again.

Chief Sembach advised it is not against the law to hoard cats. There is no law that states how many cats can be living on one property. The violations cited were for swimming pool conditions and stacking of garbage.

Mayor Pruette asked if there was a State guideless regarding how many animals you can have on a property. Chief Sembach replied "no." Mayor Pruette felt Council needed to review and possibly amend the city ordinance because she did not want this to reoccur. City Manager Jarboe stated the Council may want to consider the issue at a workshop.

City Attorney Krechowski advised most cities treat this type of issue under the nuisance ordinance which gives the city more power.

Mayor Pruette stated she would meet with Representative Janet Adkins and ask her to bring it up with the State to see if they can take action.

Chief Sembach added the last time the property owner was cited she cleaned up the property so it passed inspection. When she went before the special magistrate last month she was ordered to clean up which she did not do. This allowed the city to take action to condemn the property and remove the cats. City Manager Jarboe explained an officer must have a legal reason to enter the property which is why it is difficult to prevent.

Councilor Wiley questioned what the condition of the property was currently. Chief Sembach replied the property had been condemned by the Building Official. The Building Official has given the property owner permission to enter the property with a responsible party to try to have it cleaned up. He personally felt the property could not be properly would not ever be habitable.

City Manager Action List (continued)

- The paving on Florida Boulevard is complete. The paving will again this week depending on the weather. The worst street in the City, which is 11th Street, will be completely redone.

PUBLIC COMMENTS

Judy Williams, 98 Orange Street, concerned about an empty lot behind her property, on Orange Street and Midway, becoming an eyesore due to parking, debris, weeds, and an odor. She also felt it was dangerous to the public. City Manager Jarboe stated he would speak with her regarding the issue.

Henny Schoonover, 214 Oceanfront, also voiced concern regarding the empty lot on Orange Street and Midway. She felt in was unsanitary.

PROPOSED ORDINANCES

PORF

ORDINANCE NO. 2013-05, AMENDING CHAPTER 2, ADMINISTRATION, POLICE OFFICERS' RETIREMENT SYSTEM, FIRST READ: AN ORDINANCE OF THE CITY

OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE V, EMPLOYEE BENEFITS, DIVISION 4, POLICE OFFICERS' RETIREMENT SYSTEM OF THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH; AMENDING SECTION 2-345, DEFINITIONS; AMENDING SECTION 2-349.11, MAXIMUM PENSION; PROVIDING FOR CODIFICATIONS; PROVIDING FOR SEVERABILITY OF PROVISIONS; REPEALING ALL ORDINANCES IN CONFLICT HERewith AND PROVIDING AN EFFECTIVE DATE

City Manager Jarboe stated the amendments were being made to be consistent with the new IRS guidelines.

Councilor Jolly expressed concern regarding the Council not hearing from any of the members of the Police Officers Pension Fund Board. City Manager Jarboe stated in the future he would ask the chairman of the Board to present the appeal to the council.

City Attorney Krechowski explained the Board and the Board Attorney had to approve the ordinance before forwarding it to Council.

Councilor Jolly agreed to sponsor Ordinance 2013-05.

Consensus: **FORWARD TO THE AUGUST REGULAR MEETING FOR FIRST READ.**

Variance

SECTION 27-147, REQUIRED FINDINGS TO ISSUE A VARIANCE: City Attorney Krechowski stated he would like to review the ordinance and bring forward it the council at a later date.

Consensus: **FORWARD TO THE AUGUST WORKSHOP MEETING.**

Special
Exceptions

SECTION 27-160, REQUIRED FINDINGS NEEDED TO RECOMMEND A SPECIAL EXCEPTION: City Attorney Krechowski stated he would like to review the ordinance and forward it the council at a later date.

Consensus: **FORWARD TO THE AUGUST WORKSHOP MEETING**

CONTRACTS / AGREEMENTS

Waste Pro

WASTE PRO, REQUEST FOR CONSUMER PRICE INDEX ADJUSTMENT: Dan Connell, Division Manager for Waste Pro, stated they were requesting a 2% Consumer Price Index Adjustment.

City Manager Jarboe explained this would not increase the monthly rate charged to the citizens. This is a request for cost of living from Waste Pro. The contract says the "council may grant it." It is not a requirement.

Vice Mayor Jolly asked if the amount had to be rounded to the nearest percent. City Manager Jarboe stated that they were requesting 2%.

Councilor Tucker asked when the last time they received an increase was. City Manager Jarboe replied this was on the agenda a few months ago but their representative at the time was unable to respond to questions by the Council and Council elected to postpone the issue.

Councilor Wiley stated the increase would amount to approximately \$18,000 to \$20,000. He questioned what the money would be used for. Mr. Connell replied the increase would be used for towards the cost of doing business.

Councilor Wiley questioned if they had been given a CPI since the contract began in 2006. City Manager Jarboe replied "no."

Mayor Pruette stated the city was considering allowing the County to take over the trash pickup due to the issue of tipping fees.

City Manager Jarboe stated expenses increase, the city employees' expenses have increase and they have not received an increase in recent memory.

Councilor Wiley stated he has a hesitation over taking any action due to the tipping fees issue.

Mayor Pruette hoped to resolve the issue with the County soon.

Councilor Tucker agreed to wait until the issue with the County was resolved.

Consensus: **TO NOT APPROVE A CPI FOR WASTE PRO UNTIL WE FIND OUT MORE FROM THE COUNTY.**

Jax Beach
Jarboe Park

CITY OF JACKSONVILLE BEACH, AGREEMENT FOR USE OF LAND IN JARBOE PARK: City Manager Jarboe explained the City of Jacksonville Beach no longer utilized the substation in Jarboe Park. Councilor Wiley had suggested the property be used for additional parking. City Attorney Krechowski created a lease agreement with Jacksonville Beach to use the property for additional parking for \$1.00 annually which was accepted by the Jacksonville Beach City Council. Mayor Pruette asked the City Manager to remind Beaches Chapel this will be for Jarboe Park parking not for their use.

Consensus: **FORWARD TO THE AUGUST REGULAR MEETING FOR APPROVAL.**

ISSUE DEVELOPMENT

Fla. Blvd.
Right Turn Lane

FLORIDA BOULEVARD, RIGHT HAND TURN LANE: City Manager Jarboe explained Mayor Pruette recently inquired about the possibility of creating a right turn lane on Florida Boulevard. City Engineer Jim French advised it would be complicated because our Code requirements are more stringent regarding lane size than the State guidelines. It would be less expensive if the Council amended our Code to coincide with the State.

Mayor Pruette stated there is an area that creates a partial right lane turn that vehicles try to squeeze into. If we cannot create a right hand turn lane she suggested changing the striping to prevent that from happening. City Manager Jarboe explained Florida Boulevard is the property of the Department of Transportation and whatever we chose to do we would need their permission.

City Engineer French explained our Code requires outside lanes to be 12 foot wide. The State requirement is 14 feet for outside lanes. If Council amends the Code to coincide with the State it would allow enough room to create a right turn lane. City Manager Jarboe suggested amending the Code and forwarding the proposed ordinance to a workshop.

Mayor Pruette suggested delaying the issue until the City could afford it. City Manager Jarboe recommended moving forward with the amendments for when the city would be able to afford or obtain a grant for the improvement.

Consensus: **REVIEW AND CONSIDER AMENDING THE CODE TO COINCIDE WITH THE STATE LANE SIZE LIMIT.**

July 4th Issues

JULY 4TH ISSUES / CHIEF SEMBACH: Chief Sembach stated the 4th of July partying began earlier this year. It usually starts around 2:00 p.m. but this year is starting around 11:00 a.m. When he came out at 2:00 p.m. the streets were already crowded and sidewalks were blocked. He also noticed there was more alcohol being consumed on the streets this year. He had all officers working 12 hours shifts during the period but at 2:23 p.m. a balcony fell and they were all trying to clear up that incident. The biggest problem was at First Street and Bay Street. Included himself there were three police officers tied up at location of the balcony failure for hours. With six units from Jacksonville, including himself there were a total of 15 police cars on the streets. The total incidents that day were 15 disturbance calls, four at Bay Street and First Street, all called in by officers, there were no citizen complaints from Bay Street and First Street. There were ten firework calls that day, and a total of six accidents. There was a loud band but no one complained about it or they would have broken it up. There was also a balcony collapse. Next year he would like to bring officers in earlier and start from the beginning.

Mayor Pruette asked how many citations were written. Chief Sembach responded there was one adult arrest and one juvenile arrest. He did not have a count of how many citations were written.

Mayor Pruette stated this year was the worst crowd she has seen in 30 years. She asked Chief Sembach to come up with some suggestions for controlling the crowd next year and report back to the Council in six months. She added the entire block at Bay Street was blocked due a two story water slide and people congregating. She felt the City has to do something to control the crowds and protect the residential community.

City Manager Jarboe explained writing a citation is a long process that can take a police officer off the street. Chief Sembach added there are two different types of citations, 1) a notice to appear, and 2) a traffic citation. A traffic citation can be written up in about five to ten minutes, a notice to appear can take up to one to three hours because the person has to have Identification and has to live in the 4th Judicial Circuit, otherwise and office has to take the person downtown for booking. He added the department opts to keep the streets and people as safe as possible and have the officers on the streets.

Councilor Tucker thanked the Chief and his officers for their actions and stated she was looking forward to his suggestions for improvements for next year.

Vice Mayor Jolly stated he rode along with a police office last year and realizes how long it takes to write citations. He felt the holiday had turned into a zoo. He also felt more security was necessary and the city needed to come up with something. He suggested getting more Jacksonville Sherriff Office Deputy's and spreading the work that this is not a partying city.

City Manager Jarboe state the main way to slow down the activities on the 4th of July was to eliminate the fireworks.

Chief Sembach felt that part of the problem was that Jacksonville Beach advertised zero tolerance so instead of going to Jacksonville Beach that brought more people to Neptune Beach.

Councilor Wiley stated this year First Street was like a zoo. He saw more people riding bicycles and partying in the streets. He felt it was a good idea about starting earlier and letting the police presence be known. He agreed the policies and procedures needed to be reviewed before next year.

Mayor Pruette felt it was important to keep people off the sidewalk so others can walk.

Councilor Arthur stated he saw many people falling over off their bicycles. He felt it was important for the city to establish in writing what our position is and send it out in the utility bills and also to provide signage for keeping people off the sidewalks and having open containers. He also suggested setting up temporary holding places for making arrests. Chief Sembach responded signs have been put out in the past and they have been stolen. He added that to provide holding cells there would need to be restrooms and a person to guard it. Councilor Arthur added the police needed to duplicate themselves as much as possible, provide the most exposure, and make some examples to show there are real consequences.

Mayor Pruette stated she appreciated the police officers for their actions. She asked Chief Sembach to return to the Council in March with some suggestions for next year.

City Manager Jarboe stated man power would make the biggest impact and the city would have to be willing to pay for additional officers.

City Attorney Krechowski added people are concerned about the City's liability. He felt the problem was the ratio of numbers between the police officers and the partiers.

Councilor Tucker suggested the Mayor and Chief's from the three beach cities get together for a joint meeting to discuss concerns and suggestions for a safer 4th of July.

Consensus: **TO HAVE THE CHIEF RETURN BEFORE THE COUNCIL IN MARCH WITH AN OPERATIONAL PLAN.**

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, voiced concerned about people partying on and in First Street on the 4th of July. She commended the actions of the police department.

Mike Miller, 106 Myra Street, voiced concern regarding the use of fireworks in the streets and on the beach on the 4th of July. He felt the fireworks should be banned. He suggested not allowing bicycling on First Street on July 4th. He commended the police department for their actions.

Susie Miller, 106 Myra Street, also voiced concern regarding the fireworks on July 4th. The bang from fireworks actually set off her car alarm five times at different hours during the night. When the balcony fell and streets were shut down there became more people on their street. She suggested strictly enforcing the signs at each beach access.

COUNCIL COMMENTS

Councilor Tucker thanked City Manager Jarboe for the presentation he gave at the Beaches Watch meeting adding that he did a great job on behalf of the City.

Councilor Arthur thanked Councilor Wiley for his efforts on the lease agreement with Jacksonville Beach for the property in Jarboe Park to be used for additional parking.

Mayor Pruette asked City Manager Jarboe to inform Beaches Chapel the parking spacing created in Jarboe Park is to be used for people visiting the park.

Adjournment

There being no further business, the meeting adjourned at 7:41 p.m.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Councilor Tucker stated the "Relay for Life First Coast Beaches" presented the City of Neptune Beach a plaque expressing their gratitude.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- There is an addendum to tonight's agenda for Council to consider the employee health insurance. Proposals were received and opened today. Only one proposal was received and that was from Av-med who is our current provider.

Mayor Pruette was concerned about the crowd presence for the Fourth of July. Chief Sembach explained there would be twelve to fifteen officers on duty. If there are any violations a "notice to appear" will be issued before a physical arrest was made. All illegal fireworks will be confiscated. The officers on duty are watching to make sure the people that created the incident in Jacksonville Beach on Memorial Day do not decide to move into Neptune Beach. If that occurs the officers will react accordingly.

COMMENTS FROM THE PUBLIC

Michael Aston, 1523 Summer Sands Drive, asked Council to support the Community Development Board's recommendation to deny the special exception at 1415 Atlantic Boulevard.

MOTION CARRIED

OLD BUSINESS / NONE

NEW BUSINESS

CDB13-01
Special Exception
1415 Atlantic Blvd

CDB13-01, SPECIAL EXCEPTION FOR MOTOR VEHICLE SALES, 1415 ATLANTIC BOULEVARD: Mayor Pruette explained for special exceptions the code read as follows: City Council action at the next available meeting of the city council allowing for required notice as described in this division the city council shall approve, deny, or approve with conditions said application at the consideration of the comments and recommendations of the Community Development Board based on the standards as set forth in the division.

Community Development Director Amanda Askew explained the special exception is for motor vehicle sales. The property is located behind Atlantic Coast Bank on Atlantic Boulevard. The business is brokers dealing in automobiles, recreational vehicles and boats. The C-2 zoning district requires a special exception for any type of motor vehicle sales. The Community Development Board denied the application.

Councilor Wiley questioned why the auto brokerage business was not allowed in the C-2 zoning district. Ms. Askew replied the City allows for any type of brokerage in the C-2 zoning district but does allow on site storage of materials. It is because of the on site storage of vehicles that the brokerage is not allowed. This issue was brought forward due to Code violations.

Councilor Wiley asked if that would be considered "parking." City Manager Jarboe clarified "parking" is for the immediate use of the building. This is considered on site outdoor storage.

Community Development Director Askew stated the applicant is allowed to sell automobiles at the location as long as there are no vehicles stored on site.

Councilor Arthur asked what type of license is required for a broker. Ms. Askew replied the City regulate occupations through business tax receipts.

City Manager Jarboe added the State does require a license for automobile sales.

Councilor Arthur stated the property has a total of twenty eight parking spaces on site. Ms. Askew explained they are required to have one parking space per every 400 square feet. They did have sufficient parking.

Councilor Arthur questioned the history of complaints on the property. Ms. Askew responded there were two Code violations on the property dating back to June of 2007.

City Manager Jarboe added there have been a number of telephone and other complaints that had not been documented in writing.

Vice Mayor Jolly asked the business had a current license. Ms. Askew stated the City requires a business tax receipt in order to operate in Neptune Beach. City Manager Jarboe stated the business tax receipt describes the business as Investments.

Vice Mayor Jolly questioned if there was anything on the license that indicated they were not allowed on site storage of materials. Ms. Askew stated there is nothing on the license because it does not indicate that they are automobile brokers.

Mayor Pruette asked John Caputo, the applicant to address the Council.

John Caputo, 114 18th Avenue North, Jacksonville Beach, explained he did not wish to sell vehicles on the property. They wanted to be allowed permission to store up to five or six vehicles on the property from four to fifteen days maximum. The customer base is internet and 80% of the vehicles are shipped to Europe. They purchase automobiles from across the United States and on occasion have to have them shipped in. They then prepare the

paperwork and take them to the port for shipping. They have never and do not wish to operate a used car lot on the property. There is no signage on the property other than the name of the company on the front of the building. They have never used banners or flags to promote business on the property or advertised vehicles for sale. The types of vehicles they sell are classic or vintage as well as late model boats, cars, trucks, and motorcycles. They did not do any repairs or maintenance of the vehicles on the property. He emphasized there had been testimony that they have used car haulers to park on Brant Boulevard and that is simply not true.

Councilor Wiley questioned the type of license the business had. Mr. Caputo replied he had a used car retail license. Councilor Wiley asked how long the business had operated at the location. Mr. Caputo replied the business has been there for six years. Councilor Wiley asked if the business was doing anything different today than how they have operated in the past. Mr. Caputo responded "no" but they were ticketed for leaving vehicles parked overnight. Councilor Wiley asked how many vehicles they exported per month. Mr. Caputo replied on average seven to ten. Councilor Wiley asked if customers found the vehicles on the internet. Mr. Caputo replied "yes".

Moved by Jolly, seconded by Tucker.

Motion: **TO APPROVE THE RECOMMENDATION OF THE COMMUNITY DEVELOPMENT BOARD TO DENY CDB13-01.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

CDB13-02
1112 Third St.

CDB13-02, SPECIAL EXCEPTION FOR WORKSHOP FACILITY, 1112 THIRD STREET: Community Development Director Askew the application is for a special exception for a worship facility. The property is located in the C-1 zoning district. The business is a Christian meditation center which would fall under the category of a worship facility. The Community Development Board has recommended approval.

Councilor Wiley questioned how long the business had been operating at the current location. Ms. Askew replied she moved the business "Cobalt Moon" from Lemon Street. Ms. Linda Kay, applicant stated she has been for the past four years.

Linda Kay, applicant explained the group has been meeting for over eleven years and the center has been in existence and licensed for four years in September.

Councilor Wiley asked if there was a charge for the meditation services provided. Ms. Kay responded "no". She added that she is a licensed massage therapist and she did charge for massages. The money also helps support the center along with donations.

Mayor Pruette asked if there had been any complaints on the property usage. Ms. Askew replied "no".

Councilor Arthur asked if the worship portion operated as a non-profit. Ms. Kay replied "yes" it was non-profit mediation center.

Mayor Pruette stated it was her opinion that a special exception should not be transferable. She also felt the Council needed to be more specific when making motions with special conditions. City Attorney Krechowski advised Council if they were going to add conditions to special exceptions those conditions needed to be included in the motion.

Moved by Jolly, seconded by Tucker.

Motion: **TO AFFIRM THE ACTION OF THE COMMUNITY DEVELOPMENT BOARD ON CDB13-02 WITH THE CONDITION THAT THE SPECIAL EXCEPTION IS NOT TRANSFERABLE TO ANOTHER OWNER WHETHER BY SALE OR LEASE OF THE PREMISES OR BY CORPORATION OR IDENTITY CHANGE OR REORGANIZATION OF THE APPLICANTS SPECIAL EXCEPTION**

Councilor Wiley suggested adding the condition to require the applicant to obtain a separate business tax receipt for the massage portion of the business.

Vice Mayor Jolly withdrew his motion to allow Councilor Wiley to make a new motion.

City Manager Jarboe stated it was not necessary to place that condition in the motion.

Vice Mayor Jolly reaffirmed his motion.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

WORKSHOP CITY COUNCIL MEETING
JUNE 17, 2013 AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held June 17, 2013 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Services Leon Smith
City Engineer Jim French
Assistant Chief Tony Carrillo

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

BURTON & ASSOCIATES / WATER RATE STUDY: Michael Burton, Burton & Associates, gave a presentation on the Water Rate Study. He recommended 3% annual adjustments throughout the ten year period beginning October 1, 2013. Revenues had been better than expected.

Vice Mayor Jolly asked how our rates compared with others. Mr. Burton replied our rates did not compare because we are a small built out community with aging infrastructure. The City of Jacksonville, Atlantic Beach and Jacksonville Beach have larger utilities. City Manager Jarboe stated upkeep and maintenance is a continuing issue.

Councilor Wiley questioned the amount of customers there were. Mr. Burton responded there were about 3,300 customers using an average of 5,000 gallons per household.

Councilor Arthur questioned the percentage used on conservation per year due to more energy efficient equipment. Mr. Burton replied ½% per year.

Councilor Arthur asked what they recommended for 2014 when the last rate study was conducted. Mr. Burton answered they had predicted 10% for water and 7% for sewer.

Things are much better now than what they previously predicted. Rates did need to be increased to be able to borrow money for much needed maintenance and upgrade of infrastructure.

Mayor Pruette thanked Mr. Burton for coming to the meeting and giving Council the information.

Police Report

Assistant Chief Tony Carrillo explained there were two incidents reported in the news this past week. It was reported that a boat capsized in Neptune Beach but it actually occurred in Atlantic Beach. A suspicious package was investigated in Neptune Beach and the bomb squad was called out. It turned out to be four bricks taped together with duct tape which are thought to be a training device for some runners.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The 2014 budget process is underway and he is waiting for the final revenue figures.
- He is preparing to borrow funds for the Bal Harbour project.
- The solar panel system installed on the City Hall building has saved the city around \$600.00. He is working on obtaining another grant to place solar panels on the Senior Center and the Sewer Plant.
- The Police Department was able to obtain a grant to replace their laptops.

PROPOSED ORDINANCES

Ord. No. 2013-04 ORDINANCE NO. 2014-04, CHAPTER 23, UTILITIES: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING ARTICLE IV. CHAPTER 23 UTILITIES, SECTION 23-87 NO FREE SERVICE, AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette asked Councilor Wiley if he had any further questions. He stated his questions had been answered since the last meeting.

City Manager Jarboe stated this ordinance will allow discounts on pool water when it is not disposed of in the sewer system.

Consensus: **FORWARD TO THE JULY REGULAR MEETING FOR SECOND READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

CDB

CODE ENFORCEMENT BOARD / FINANCIAL DISCLOSURE FORMS: City Attorney Krechowski explained because of the Special Magistrate, the Code Enforcement Board does not meet on a regular basis. The members are questioning why they should be required to fill out the financial disclosure forms. He advised the City should keep the Board in place. He recommended that members resign if they did not want to fill out the form and not be replaced until they are needed.

Consensus: **TO NOT DISSOLVE THE BOARD BUT THE MAYOR WITH THE HELP OF THE CITY ATTORNEY WILL INFORM MEMBERS BY**

**LETTER THAT THEY CAN RESIGN IF THEY DO NOT WANT TO
CONTINUE WITH THE PAPER WORK.**

Drainage on 5th
Street

DRAINAGE ON 5TH STREET: Council Wiley was concerned about the drainage on 5th Street. He asked about the possibility of installing some type of system that would empty into the ditch behind Beaches Chapel. City Manager Jarboe stated there were a number of places in the city that flood for a very short period of time like every other city. He would research the cost and bring back to the Council.

Mayor Pruette stated a development order for Beaches Chapel was approved on June 20, 2011 with the condition that they provide some type of drainage. City Manager Jarboe added that Beaches Chapel will be required to conform to the conditions before they are issued a certificate of occupancy.

PUBLIC COMMENTS

Tim Slater, 573 Magnolia Street, stated he has been displaced from his home due to flooding because the 5th Street was over capacity and the City should be responsible for the drainage problems.

Lynda Padrta, 1113 First Street, hoped that Beaches Chapel would be a good neighbor and provide the required drainage.

COUNCIL COMMENTS

Vice Mayor Jolly asked how much money there was in the stormwater fund. Finance Director Ramsey replied there was \$50,000 or less in the stormwater fund. Vice Mayor Jolly stated the City will have to have money in order to address the drainage issue.

Adjournment

There being no further business, the meeting adjourned at 6:45 p.m.

Order Call

Mayor Pruette called the emergency meeting to order at 6:45 p.m.

Res. No. 2013-03

RESOLUTION NO. 2013-03: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA MAKING THE CITY OF JACKSONVILLE AWARE THAT TO CLOSE THE BEACHES LIBRARY WOULD BE A VIOLATION OF THE INTERLOCAL AGREEMENT BETWEEN NEPTUNE BEACH AND THE CITY OF JACKSONVILLE, WHO SERVES AS THE COUNTY GOVERNMENT.

Mayor Pruette explained the County was considering closing the Beaches Branch Library. The resolution was a formal opinion that would hopefully be heard by the City of Jacksonville.

Vice Mayor Jolly stated the Mayor of Jacksonville has had no communications with our City. He added they need to recognize that our City is independent and that we have an Interlocal agreement with them to provide us certain services.

Councilor Wiley favored the Resolution.

Councilor Arthur felt the City of Jacksonville needed to recognize that the Interlocal agreement exists.

Mayor Pruette stated she was frustrated by the lack of communications with the City of Jacksonville. Past Jacksonville Mayors met with Beach counterparts to talk about the issues.

Moved by Tucker, seconded by Jolly.

Motion: **TO ADOPT RESOLUTION 2013-03.**

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette asked Chief Sembach to give Council information regarding the upcoming July 4th holiday. Chief Sembach responded to help out with the crowd the Jacksonville

Sherriff's Office was lending Neptune Beach five officers and one sergeant and fifteen officers to Jacksonville Beach. Jacksonville Beach is going to cover the intersections of Third Street and Seagate Avenue and Penman Road at Beach Boulevard. The Florida Highway Patrol is going to work all the accidents.

City Manager Jarboe asked Chief Sembach to give Council information regarding residents coming back to the City after a storm evacuation. Chief Sembach replied anyone showing valid identification would be allowed back into the City.

City Clerk Volpe stated the Code Enforcement Board was placed on hold when the City hired a special magistrate. The board members are still required to fill out financial disclosures form although they have inactive. She suggested Council dissolve the board so the board members would not have to file disclosure forms.

Consensus: **FORWARD THE ISSUE OF THE CODE ENFORCEMENT BOARD TO THE JUNE WORKSHOP AGENDA.**

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- During storms there was a lot of flooding in the usual areas but because of construction we had a lot of water in the parking lot. He is working with the developer to resolve the issue.
- The Request for Proposals for employee health insurance and an auditor have been published.
- There had been a lot of discussion regarding the Winn Dixie Shopping Center disbanding.

Councilor Wiley voiced concern regarding flooding at 5th Street and Bay Street. City Engineer French advised due to the construction at Beaches Chapel people were parking vehicles in that area and that may be what is preventing the water from draining into the ditch. This issue was placed on the June workshop agenda.

Councilor Arthur agreed to sponsor the Ordinance.

City Manager Jarboe explained this is the swimming pool relief ordinance. It gives residents relief on the sewer when draining swimming pools.

Councilor Wiley questioned how this gives relief on the sewer but in the ordinance it reads "no free service will shall be furnished or charged to any person whatsoever."

Mayor Pruette stated council could send the ordinance back to a workshop for discussion.

City Manager Jarboe explained there is no free service in the Code for sewer. This gives an addendum so residents with swimming pools can get a discount on the sewer when they change their swimming pool water.

Councilor Wiley questioned what the difference was in the Code and this Ordinance.

City Manager Jarboe stated what is different is the areas that are striked through and now underlined. What is not underlined is what is already in the Code.

Mayor Pruette suggested passing the Ordinance on first read and send back to workshop.

City Manager Jarboe stated this Ordinance was suggested by the Council.

Moved by Jolly, seconded by Tucker.

Motion: **TO PASS ORDINANCE 2013-04 ON FIRST READ AND FORWARD TO THE JUNE WORKSHOP AGENDA FOR DISCUSSION.**

Gives an addendum so people with swimming pools can get a discount on the sewer when they change the water.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Because the last payment has been made on the Public Services building the City will have \$200,000 more per year to use for repaving. The City will begin repaving streets sometime in July and do little each year. The streets South of Florida Blvd will be paved last since there is infrastructure work to be done.
- He is working with Jacksonville City Councilman Gulliford on the possibility of repaving Florida Boulevard.

Mayor Pruette asked Chief Sembach to report on the "Dancing in the Streets" event which was held last Saturday. Chief Sembach reported Neptune Beach made one arrest and Atlantic Beach made one arrest, both were alcohol related.

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES

Ord. No. 2013-02 ORDINANCE NO. 2013-02, STORMWATER MANAGEMENT: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 27. UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XII. STORMWATER MANAGEMENT, SEC. 27-512. GENERALLY, AND SEC. 27-514. FINDINGS OF FACT AND SEC. 27-515. PURPOSE AND INTENT AND SEC. 27-516. DEFINITIONS AND SEC. 27-517. EXEMPTIONS AND SEC. 27-518. PERMITS NEEDED BEFORE ISSUANCE OF DEVELOPMENT ORDER, AND SEC. 27-519. STORMWATER REQUIREMENT AND SEC. 27-520. EROSION AND SEDIMENT CONTROL AND EROSION CONTROL AND PROVIDING AN EFFECTIVE DATE.

They did not feel the City could effectively enforce the requirements for the MS4 permit.

Councilor Wiley questioned Section 27-516 Definitions. Pre-development shall mean the "historical condition" of a parcel of land prior to any land disturbing activities that have taken place. City Engineer French replied from an impairment standpoint they were going to use not what "exist today" but get a reduction in those impairments so we can make improvements to Hopkins Creek. Also because of the aging drainage system this will require the developer to treat stormwater on site.

Councilor Wiley questioned when residential properties would be affected. City Engineer French replied residential properties would only be affected if they are over 4,000 square feet.

Councilor Wiley questioned what would be considered a "redevelopment." City Engineer French responded redevelopment is when the entire structure on the property is removed and a new structure is erected.

Councilor Wiley asked if the majority of the language in this proposed ordinance was dictated by the Department of Environmental Protection. City Engineer French replied "yes."

Councilor Arthur questioned how the proposed ordinance came about. City Engineer French responded the DEP reviewed our Code and felt the language needed to be amended. City Manager Jarboe added the DEP audits the city each year for the MS4 permit.

Vice Mayor Jolly questioned how this ordinance would have affected the recently redeveloped Publix property. City Engineer French answered the owner would have been required to provide more drainage to reduce the amount of stormwater that they are discharging into the system.

Councilor Wiley asked if there any exceptions to the ordinance. City Engineer French answered, as with any ordinance, a developer can apply for a variance.

Mayor Pruette asked City Manager Jarboe is this mandated by the State. City Engineer French replied the State cannot force the City to amend the ordinance but they levy fines. This allows the City more control to manage stormwater and reduce the impacts on existing residents.

Consensus: **FORWARD TO THE JUNE REGULAR MEETING FOR SECOND READ AND PUBLIC HEARING.**

Ord. No. 2013-03 ORDINANCE NO. 2013-03: DISPOSAL OF WASTEWATER: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 20, SWIMMING POOLS, SECTION 20-12, DISPOSAL OF WASTEWATER AND PROVIDING AN EFFECTIVE DATE.

Councilor Tucker asked if this ordinance was also mandated by the State. City Manager Jarboe answered "yes."

City Manager Jarboe explained, to notify the public, the City will place a flyer in with the Beaches Energy electric bills. There will also be a notice on our website and at the front counter.

Vice Mayor Jolly stated Section 20-12. 2) Disposal of wastewater and pool water should read as follows: Swimming pool water shall either be discharged into the City sanitary sewer or, after dechlorination, may be discharged into a stormwater system.

Councilor Wiley questioned how the ordinance would be enforced. City Engineer French responded residents would not be allowed a credit for sewer and it's a question of trying to do the best the city can do.

Councilor Arthur stated residents and citizens needed to be informed of this ordinance as well. City Manager Jarboe replied "yes" as well as the local pool companies.

Mayor Pruette asked if a permit would be required to dechlorinate. City Engineer French replied that was not in the ordinance.

Consensus: **FORWARD TO THE JUNE REGULAR MEETING FOR SECOND READ AND PUBLIC HEARING.**

Water & Sewer
Charge

ORDINANCE NO. 2013-XX, WATER AND SEWER SERVICE CHARGES: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING ARTICLE IV. CHAPTER 23 SECTION 23-87. NO FREE SERVICE, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated this ordinance will allow discounts on pool water when it is not disposed of in the sewer system.

Consensus: **FORWARD TO THE JUNE REGULAR MEETING FOR FIRST READ.**

Lieutenant Adam Militello

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Lemon Street will be closed tomorrow to install an electric line.
- Town Center did a report on traffic.
- The electric bill this month was a credit of \$176.00.

PUBLIC COMMENTS

Mark Taro, 2112 First Street, stated he was in the software business and offered his assistance to the Police Department to ensure they get the correct license.

Lynda Padrta, 1113 First Street, stated she was in the software industry and asked the Police Department to be sure they get the correct license.

PROPOSED ORDINANCESDisposal of
Wastewater

ORDINANCE NO. 2013-XX: DISPOSAL OF WASTEWATER: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 20, SWIMMING POOLS, SECTION 20-12, DISPOSAL OF WASTEWATER AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the City received a letter from the Department of Environmental Protection stating they did not feel the City could effectively enforce the requirements for the MS4 permit.

Public Services Director Leon Smith explained the Department of Environmental Protection conducted a review of our Code and determined the City did not have legal authority to enforce the requirements of our MS4 permit. These proposed amendments will allow the City to enforce the requirements of our MS4 permit.

Vice Mayor Jolly stated his neighborhood did not have a sanitation system or stormwater. City Engineer Jim French explained the drainage in his neighborhood flows into Hopkins Creek or another natural waterway. A chlorinated pool discharge into a natural waterway is considered an illicit discharge by State criteria. The pool water would have to be de-chlorinated before being discharged or be pumped out and taken somewhere else for discharge.

City Attorney Krechowski advised if you don't have a sanitary sewer system then the pool owner would have to decide to either de-chlorinate the water or have it pumped and taken somewhere else. If they discharged it into the City system the City would be violation.

City Engineer French added there is a provision in the Ordinance for emergencies that allows the City to flush fire hydrants and for water main breaks.

Councilor Wiley questioned how the City would know if a property owner was going to drain their swimming pool. City Engineer French replied this is a problem and the public needed to be educated. This Ordinance will allow the City to enforce the requirements and bring us into compliance with the MS4 permit.

City Manager Jarboe stated this Ordinance will allow the City to take code enforcement action against a citizen caught discharging swimming pool water into the system.

City Attorney Krechowski explained the correspondence received from DEP stated the City lacked the authority to enforce the requirements for the MS4 permit. This Ordinance will allow us to coincide with the requirements of DEP and give the City authority to enforce action and take corrective measures to keep in compliance with the MS4 permit. If we do not amend the Ordinance we are in violation of our MS4 permit.

Councilor Arthur stated the City needed to provide clear instructions to citizens.

Councilor Arthur stated when a property owner fills a swimming pool with water the City gives them credit on the sewer. City Manager Jarboe replied property owners are draining pool water into the stormwater system and therefore they are not paying for sewer. Now that the water has to be treated and discharged into the sewer system the City is required to charge for sewer unless Council amends the water and sewer Code to give property owners a credit for it.

Mayor Pruette questioned how citizens would be notified of these instructions for discharging swimming pool water. City Manager Jarboe responded the City would put the information in a newsletter and have it sent out in the electric bills.

City Manager Jarboe suggested Council consider amending the water and sewer ordinance to allow credit for draining pools. Mayor Pruette replied she would like to place that on the May workshop agenda.

Vice Mayor Jolly agreed to sponsor the ordinance.

Consensus: **FORWARD TO THE MAY REGULAR MEETING FOR FIRST READ AND CONSIDER AMENDING THE WATER AND SEWER ORDINANCE AT THE MAY WORKSHOP MEETING.**

Stormwater
Management

ORDINANCE NO. 2013-XX, STORMWATER MANAGEMENT: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 27. UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XII. STORMWATER MANAGEMENT, SEC. 27-512. GENERALLY, AND SEC. 27-514. FINDINGS OF FACT AND SEC. 27-515. PURPOSE AND INTENT AND SEC. 27-516. DEFINITIONS AND SEC. 27-517. EXEMPTIONS AND SEC. 27-518. PERMITS NEEDED BEFORE ISSUANCE OF DEVELOPMENT ORDER, AND SEC. 27-519. STORMWATER REQUIREMENT AND SEC. 27-520. EROSION AND SEDIMENT CONTROL AND EROSION CONTROL AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated the Department of Environmental Protection also recommended these amendments to the stormwater management ordinance. They did not feel the City could effectively enforce the requirements for the MS4 permit.

City Engineer French explained this Ordinance will allow the City the authority to conduct inspections and other requirements of the MS4 permit and coincide with the Comprehensive Plan. It will also allow the City to protect existing properties and the infrastructure.

Councilor Wiley questioned what effect this will have on future development. City Engineer French replied this would affect new subdivisions and redevelopment of commercial properties. The Department of Environmental Protection is requiring the City to amend the Code so the City can enforce the requirements of the MS4 permit otherwise they are going to enforce it on the City. This will allow the City the ability to ensure developers are doing what they are suppose to do so that the City does not have to take corrective action in the future.

Vice Mayor Jolly questioned if this would have had an effect on the redevelopment of Beaches Chapel. City Engineer French replied this Ordinance would have required Beaches Chapel to provide some treatment and install a pump.

City Attorney Krechowski stated this ordinance will bring our MS4 permit into compliance with the requirements of the Department of Environmental Protection.

Consensus: **FORWARD TO THE MAY REGULAR MEETING AND HOLD A WORKSHOP MEETING BEFORE THE REGULAR MEETING TO DISCUSS THIS ORDINANCE.**

CONTRACTS / AGREEMENTS

Waste Pro

WASTE PRO / CONSUMER PRICE INDEX ADJUSTMENT OF 2%: Scott Kason, Representative for Waste Pro, introduced himself to the Council.

Mayor Pruette suggested deferring this until the City meets with Jacksonville City Councilman Bill Gulliford to discuss options with trash services.

Consensus: **TO DEFER UNTIL AFTER WE HEAR FROM JACKSONVILLE CITY COUNCILMAN BILL GULLIFORD.**

Res. 2013-02
FDOT

RESOLUTION NO. 2013-02: A RESOLUTION ALLOWING THE CITY MANAGER TO EXECUTE AND DELIVER THE ATLANTIC BOULEVARD MAINTENANCE AGREEMENT TO THE FLORIDA DEPARTMENT OF TRANSPORTATION.

City Manager Jarboe explained the City makes a little money by cleaning the waterway.

Consensus: **FORWARD TO THE MAY REGULAR MEETING CONSENT AGENDA.**

ISSUE DEVELOPMENT

Forfeiture Funds

REQUEST TO USE FORFEITURE FUNDS: Public Safety Director David Sembach explained he would like to use forfeiture funds to pay for Accreditation and purchase a SQL Server Processor License. Lt. Adam Militello explained when the department purchased the new Records Management server for the new software they were advised the department would need to purchase our own license.

Mayor Pruette questioned if he was comfortable with this vendor.

Councilor Tucker asked what the Jacksonville Beach and Atlantic Beach used. Lt. Militello replied Jacksonville Beach Police Department uses the exact same software vendor. Atlantic Beach Police Department is using a different software vendor.

Councilor Wiley asked if the software would need to be upgraded in the future. Lt. Militello stated he was not sure and would have to rely on the vendor.

Consensus: **FORWARD TO THE MAY REGULAR MEETING CONSENT AGENDA.**

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, supported the ordinance for swimming pool drainage.

COUNCIL COMMENTS

Mayor Pruette reminded everyone the Beach cities would be hosting the Northeast Florida League of Cities dinner in May and donations of door prizes were needed.

Mayor Pruette stated she was pleased with the amount of the \$176.00 credit on electric bill for City Hall.

Councilor Tucker advised she was writing a letter to support an eagle scout. She would be in Washington DC this coming Friday to meet with the Federal Delegation.

Councilor Wiley asked when Town Center was having the "Dancin in the Streets" event. City Clerk Volpe stated the event would take place on May 18th.

Mayor Pruetto stated Town Center would be decorated with red, white and blue lights and flags for July 4th.

Adjournment

There being no further business, the meeting adjourned at 6:55 p.m.

Attest:

Harriet Pruetto, Mayor

Lisa Volpe, CMC, City Clerk

Approved: _____

MINUTES
REGULAR CITY COUNCIL MEETING
APRIL 1, 2013, AT 6:00 P.M.
CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Regular Meeting of the City Council of the City of Neptune Beach was held April 1, 2013, at 6:00 p.m. in the City Hall Council Chambers, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Jolly
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Wiley to lead the pledge of allegiance.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS

Mayor Pruette presented a plaque to John Reeve in appreciation of his service on the Code Enforcement Board from January 1995 to September 2003, Board of Appeals from May 2004 to August 2009, and the Community Development Board from 2010 to 2013.

Mayor Pruette presented a plaque to Chief David Sembach in recognition of an article that was published in the Beaches Leader regarding his opposition of internet cafes.

APPROVAL OF MINUTES

Moved by Tucker, seconded by Arthur.

Director of Public Safety David Sembach

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The property on the corner of Atlantic Boulevard and Second Street has begun construction.
- The property of the old Sun Dog Diner will soon begin construction and that portion of Atlantic Boulevard will be congested. He has asked the individual business owners in the area to speak with the landlord if they have any complaints.
- Last month the electric bill for City Hall was only \$6.00 due to the new solar panels that were installed. This month the bill was \$165.00. It was higher because of the cold weather a lot of heating was needed.

City Manager Jarboe stated Florida Boulevard will be closed for a few days due to the Bal Harbour drainage project.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, questioned the need for the proposed ordinance for the flood plain.

PROPOSED ORDINANCES

Flood Plain

ORDINANCE NO. 2013-XX, FLOOD PLAIN: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING AND DELETING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS; SEC. 27-15, DEFINITIONS, SEC. 27-402. APPLICABILITY, SEC. 27-403. FINDINGS OF FACT, SEC. 27-27-404. PURPOSE AND INTENT OBJECTIVES, SEC. 27-405. GENERAL PROVISIONS, SEC. 27-406. DEFINITIONS, SEC. 27-409. SUBDIVISIONS, SEC. 27-410. SITE IMPROVEMENTS, UTILITIES AND LIMITATIONS, SEC. 27-412. OTHER DEVELOPMENT, SEC. 27-413. FISCAL IMPACT STATEMENT, SEC. 27-414. APPLICABILITY, SEC. 27-415. REPEALER, SEC. 27-416. INCLUSION INTO THE CODE OF ORDINANCES, SEC. 27-417. SEVERABILITY AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated this ordinance is required by the Federal Emergency Agency in order for the City to be reimbursed for damages after a serious storm. The entire State has to adopt a similar ordinance. We needed to have this adopted before June. The City Manager stated this was the second time the city had to amend this ordinance. Mayor Pruette stated she did not have much confidence in the state.

Councilor Wiley questioned how the ordinance affected the variances. Mr. Ford replied the ordinance is referring to elevation variances.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE**ISSUE DEVELOPMENT**

Code
Enforcement

CODE ENFORCEMENT MAGISTRATE: City Manager Jarboe explained it has been a year since the City began using a Code Enforcement Magistrate and Council wanted to review the decision after one year.

Mayor Pruette asked Building Official Don Ford if he was comfortable using the Magistrate for code enforcement. Mr. Ford replied there was only two cases this year to appear before the Magistrate. Both of those cases were in compliance before the date of their appearance. He felt the magistrate was stronger than a code enforcement board.

Councilor Wiley questioned when the City should go ahead and dissolve the Code Enforcement Board rather than having them on standby. City Attorney Krechowski stated he spoke with the Magistrate recently and he is moving to a new law firm. He did not anticipate any problems but will let him know if anything arises.

Mayor Pruette asked City Attorney Krechowski if he felt it was better to use a Magistrate for legal purposes. Mr. Krechowski responded it puts the City in a stronger position.

City Manager Jarboe stated the Code Enforcement Board should remain in case the Magistrate becomes unavailable. City Attorney Krechowski added keeping the Board is an option for the City to fall back on.

Councilor Arthur questioned if using the Magistrate saved the City any money. City Manager Jarboe recommended he prepare a comparative analysis for Council.

Councilor Arthur recommended coming up with a contingency plan other than the Code Enforcement Board in case the Magistrate was not available.

Consensus: **HAVE THE MAGISTRATE REMAIN AND THE CITY MANAGER BRING BACK MORE INFORMATION TO ANOTHER WORKSHOP.**

Res. No. 2013-01 **RESOLUTION 2013-01: A RESOLUTION APPOINTING MEMBERS TO THE COMMUNITY DEVELOPEMNT BOARD AND THE POLICE OFFICERS RETIREMENT FUND BOARD.**

Consensus: **FORWARD TO THE APRIL REGULAR MEETING.**

Councilor Arthur requested the Police Retirement Fund Board present a quarterly review to the Council.

Canceling Mtgs. **PROCEDURE FOR CANCELING MEETINGS:** City Manager Jarboe stated Councilor Wiley expressed some concerns regarded the March regular meeting which was canceled by Mayor Pruette, City Manager Jarboe and City Clerk Volpe, due to the lack of an agenda.

Councilor Wiley stated he felt a procedure for canceling meetings should be in place to properly notify other Council members and the public. He suggested perhaps having the City Manager poll all Council members to see if the majority agreed the meeting should be canceled. City Attorney Krechowski stated it++ was illegal for the City Manager to poll Council members.

Councilor Arthur asked if there currently a procedure for canceling meetings. City Attorney Krechowski stated there was nothing in the Code relating to canceling meetings. City Manager Jarboe added the tradition when for canceling meetings when there are no items on an agenda is for the City Manager, Mayor, and City Clerk to make the decision.

Mayor Pruette stated she is involved because she chairs the meetings. She felt the current method of canceling meetings was working.

City Clerk Volpe stated she has worked for the City since 1994 and this was the first time since she has been employed that a meeting was canceled due to lack of an agenda items.

Councilor Jolly stated he was comfortable leaving the method as it stands.

Councilor Wiley felt meetings should not be canceled. There is an area for public comments and the meetings should be held for the public to come and speak even when there are no other agenda items.

Mayor Pruette stated notifications for canceled meetings were on the doors of City Hall and posted on the website. She added it is very rare to have to cancel a meeting due to lack of agenda items.

City Attorney Krechowski stated the requirement is notify the public when a meeting is scheduled.

Consensus: **LEAVE IT ALONE.**

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, stated in the 15 years she has lived in Neptune Beach only a couple of meetings had been canceled and she did not feel that her right to speak was compromised.

COUNCIL COMMENTS

City Attorney Krechowski explained he was working on a stormwater ordinance and a land use ordinance. He asked if the Council wanted them both on the April workshop meeting agenda or if they wanted to one at the April workshop meeting and the other at the May workshop meeting.

Mayor Pruette asked Mr. Krechowski which of the ordinances was more important. City Attorney Krechowski replied the stormwater ordinance would be more important.

Consensus: **TO PLACE THE STORMWATER ORDINANCE ON THE APRIL WORKSHOP MEETING AND THE LAND USE ORDINANCE ON THE MAY WORKSHOP MEETING.**

Adjournment

There being no further business, the meeting adjourned at 6:40 p.m.

Harriet Pruette, Mayor

Call**

Mayor Pruette called the meeting to order at 6:00 p.m. and asked for a moment of silence for the passing of Retired Police Officer Billy Jones.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- With the use of the newly installed solar power panels on the City Hall building the electric bill for City Hall was only \$6.41 for the month, which is the base charge.
- The City of Jacksonville Beach is repairing wiring throughout the City.
- He and Mayor Pruette attended a meeting with Jacksonville City Councilmember Bill Gulliford, and their Solid Waste Committee. The discussion was regarding tipping fees. It was suggested that the City of Jacksonville collect the trash for Neptune Beach or have the option to piggyback off the trash collection services for the City of Jacksonville. City of Jacksonville Mayor Brown indicated he would be meeting back with us shortly.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, stated she bought half of the duplex on First Street in 1999 and the other half in 2001. She tied the properties together at the County level in 2002 and had it defined as a single family home. She currently receives one annual tax bill and insurance bill. In 2005 she was issued a permit by the City to extend the rear balcony around to the front of one side of the house. In 2010 she requested a permit to continue the balcony across the front of home and was denied by the City. She was informed the permit was denied because the property was nonconforming and the City records indicate the property is still a duplex yet the Code had not changed since she pulled the first permit in 2005. She was also told for the City to determine the property as single family she would need to remove a kitchen and remove one of the water meters and one of the electric meters. She asked Council to consider amending the Code to allow her to extend her balcony.

Deborah & Brittany Kight, 602 First Street, bought and share the duplex. They were able to build a deck in front yard and would like to know if they would be able to install a semi circle driveway. .

David Baker, 1102 First Street, would like to see the City allow Ms. Padrta to complete the balcony across the front of her house because he has to look at it everyday.

Christy Maurer, 125 Cedar Street, stated she was discouraged to make any improvements to her home because she was told by the City that the property is nonconforming.

Deke Cobb, 114 Cherry Street, stated he was currently remodeling his sixplex and would like to add a balcony to the roof line. He has a door on the second level of his home that leads to nowhere and he would like to make it safe.

Jeff Tyrell, 700 & 702 First Street, stated he was told his property was nonconforming and he could not make improvements to it. He would like to convert to a single family but it would be costly to remove a kitchen and two meters. He was also told he could not apply for a variance.

Rick Sauls, 1026 Cedar Street, stated he asked the City for a permit a few years ago to replace his six foot privacy fence and was informed the maximum height for privacy fencing was four feet. He repaired the existing six foot privacy fence but felt he should have been able to replace the rotted six foot fence with a new six fence.

Jeff Case, 709 First Street, felt the variance process was an awful process to go through. He asked Council to review the rules and regulations.

Chris Owen, 207 Florida Boulevard, encouraged Council to find a way to allow older homes east of Third Street to be modernized without all the red tape.

Richard Keene, 733 Bay Street, stated there is certain criteria the Community Development Board must follow in order to approve a variance request. The Board members must find a positive on each of the seven criteria or vote "no." He felt that placed a bind on the Board. He added the purpose of a nonconforming status was to force the nonconformities to change and become conforming.

PROPOSED ORDINANCES / NONE**CONTRACTS / AGREEMENTS / NONE****ISSUE DEVELOPMENT**Chapter 27
Land Use

CHAPTER 27, LAND USE: Mayor Pruette felt many of the nonconformities have given Neptune Beach its charm and character. However, citizens have expressed frustration, confusion and resentment regarding what they perceive to see as inconsistent land use. She felt Council needed to resolve these issues and better serve the citizens.

Mayor Pruette handed out pictures of conforming and nonconforming properties to Council members and asked them to follow along as she spoke briefly on each of them.

Page 1) Mayor Pruette explained the property at 614 Midway Street abutted three streets and is a nonconforming property. The owner wanted to install a small pervious paved driveway to their backyard pool area. The City denied the permit stating there must be a compelling need for the driveway because parking spaces are lost east of Third Street and it counts against the City for beach re-nourishment funding.

Page 2) Mayor Pruette explained the property at 628 Midway Street is directly behind 614 Midway Street and was also a nonconforming property. This owner was issued a permit over a year to place pavers on the City easement while the 614 Midway Street was denied.

Page 3, 4 & 5) Mayor Pruette explained the property at 220 Magnolia Street is a brand new conforming development. This originally was exactly what the City envisioned when the Land Use Code was revised.

Page 6) Mayor Pruette explained this picture is what 220 Magnolia currently looks like. It is not what the council envisioned. Since then the owner was allowed to place more pavers in the backyard with an in ground pool which is impervious. She added additional city easement was granted for the front yard when the porch was converted into a carport. The home already had two spacious garages. Then they were allowed to install a solid seven foot fence around the entire backyard and up the side of the property without a permit.

Page 7) Mayor Pruette explained the property at 602 First Street is a nonconforming duplex. The City permitted the owner to remove the concrete patio and install a nice deck around her home.

Page 8) Mayor Pruette explained the property at 602 First Street did not replace a patio with a deck. It was a sidewalk that was removed to be replaced by a wood deck. She was also concerned about a fire hazard due to the house having only one exterior door.

Page 9) Mayor Pruette explained the property at 1113 & 1115 was a nonconforming duplex. The owner owns and lives in both units. In 2005 the owner was permitted to erect a long balcony on the west end of the house. She had to have plans drawn by an engineer which cost her around \$800.00. A year or two ago she applied for a permit to extend the deck across the house but was denied because it did not meet the setbacks and it would be an intensive use of the property. She was also told she would have to remove plumbing and one of the water and electric meters for the City to consider the property a single family home. Section 27-235(5) of the Code reads open or enclosed fire escapes, outside stairways and balconies may extend up to four feet from the building into a required yard. Mayor Pruette felt the property owner should be able to extend her deck.

Page 10) Mayor Pruette explained the property at 114 Cherry Street was a nonconforming property with a door to nowhere the property owner wanted to erect a deck to the roofline but was denied.

Page 11) Mayor Pruette explained the property at 125 Cherry Street had one unit on left and added another unit on the right. It is now a duplex with a swimming pool. Last year they were permitted to add an area above the garage with a nice balcony and tie them together with one meter.

Page 12) Mayor Pruette explained the property owner of 125 Cedar Street wanted to install pavers and wanted to put in a room over the garage they were denied and discouraged by the city.

Page 13) Mayor Pruette stated the owner of the property at 700 & 702 First Street has a nonconforming duplex and has been discouraged from converting it into a single family home.

Page 14) Mayor Pruette stated the property at 100 Cherry Street was recently developed. This was an example of what the Land Use Code was not intended to look like. The entire front yard was filled with pavers and it looks like a parking lot. Several people have complained about this.

Mayor Pruette stated she did not want to completely revise the Land Use Code. She would like to review and add definitions for decks, porches, balconies, compelling needs, and landings. She also wanted to review the criteria for converting multi-family homes into single family homes to make it easier on the property owner to convert.

Councilor Wiley stated the original intent of nonconformities was that there is a problem with density and parking east of Third Street. He agreed the areas needed to be reviewed. He felt each nonconforming property had its own issues and hardships. He suggested sending recommendations to the Community Development Board for their recommendations.

Councilor Arthur felt it was unfair to compare one nonconforming lot with another without looking at the finding of facts because each has its own hardship. He agreed to look at nonconformities and multi-family homes. He asked for specific language to review and was concerned about changing other areas of the Code.

Mayor Pruette stated the specific language would be drafted by the City Attorney.

Vice Mayor Jolly asked what the procedure was to make amendments to the Land Use Code. City Manager Jarboe replied the amendments are done by ordinance. The Community Development Board reviews the ordinance and two public hearings are held. If it changes the density there may be a need to amend the COMP plan as well.

Vice Mayor Jolly agreed there should be a definition for the criteria of converting multifamily to single family. City Manager Jarboe explained normally if there are two or more meters then they are considered two or more units. It is difficult to keep control because as long as there are two or meters the house could be converted back to multifamily.

Vice Mayor Jolly agreed the City should encourage property owners to convert multifamily homes to single family homes. He felt Council should give direction to staff.

City Attorney Krechowski advised when dealing with density and a coastal high hazard you are going to get the attention of the State and that process will come to a halt. He felt Council should task the Community Development Board the responsibility of reviewing and researching the areas in question and make their recommendations to Council. The findings of facts may be modified but they are required for variances.

Mayor Pruette asked Community Development Director Askew where in the Code was the criteria for converting multifamily homes to single family homes. Mrs. Askew responded there are no instructions for converting multifamily homes to single family homes. The definition of "living unit" is located in Chapter 27-15.

Mayor Pruette asked Ms. Askew to explain why the property at 1115 First Street was denied an application to extend their balcony when they already had a balcony on one side of the house. Ms. Askew explained the property is nonconforming because the physical structure does not meet the setback requirement and the number of units she has on the property. The code states in Article 18 that it is the intent of the chapter that nonconformities shall not be enlarged upon, expanded, intensified nor be used as grounds for adding other structures. Additions can be made to nonconforming structures provided that all conditions conform to Chapter 27. If the property was a single family home she would be able to add to as long as what she was adding to met the Code then it would not need a variance request. She cannot do anything unless she converts to a single family home.

Mayor Pruette asked if there was anywhere in the Code that states you have to take out additional water meters and remove plumbing in order to be considered single family. City Manager Jarboe replied "no" but that was the standard method used by most cities. He suggested adding the language in the Code.

Mayor Pruette felt there should be specific language in the Code that spells out how to convert multifamily to single family. She asked City Attorney Krechowski to come up with some language that specifies how to convert multifamily to single family and definitions for decks, porches, balconies, patios, and landings.

Councilor Arthur questioned if the property at 1113 & 1115 First Street was nonconforming because of the duplex. Mrs. Askew replied she has not seen a survey of the property but on the plot plan it appears the structure does not meet the setbacks. She believed the portion where they want to extend the balcony would be conforming if the property was converted from multifamily to single family.

Councilor Wiley was concerned that Section 27-146 prevented a nonconforming property owner from applying for a variance. He feels this has caused problems and also needs to be reconsidered.

Vice Mayor Jolly agreed the City needed to define the process of going from multifamily to single family. It would be good for the City because it would lower the density east of Third Street.

Mayor Pruette asked Community Development Director Askew what was the percentage of nonconformities east of Third Street. Mrs. Askew replied that would be a very high percentage of at least 80 or more.

Mayor Pruette asked if there was a consensus on the Council.

Councilor Arthur felt the language should be as specific as possible, define the process of converting from multifamily to single family and the variance process for nonconforming properties. He did not want to challenge the COMP plan.

Mayor Pruette felt it would be a credit for the city to go from multifamily to single family because it would lower the density. City Manager Jarboe thought if the changes affected the COMP plan, the City may be able to justify that with the State.

Mayor Pruette advised the citizens Section 27-133 allows for property owners to appeal decisions of the City Manager or his designee to the Community Development Board.

Consensus: **TO DEFINE THE PROCESS OF CONVERTING FROM MULTIFAMILY TO SINGLE FAMILY AND THE VARIANCE PROCESS FOR NONCONFORMING PROPERTIES AND DEFINE DECKS, PORCHES, PATIOS, BALCONIES, COMPELLING NEEDS, AND LANDINGS.**

PUBLIC COMMENTS

David Baker, 1102 First Street, felt when property owners apply for a variance the board members should go out and look at the total picture of the property and be able to use a common sense approach.

Jeff Case, 709 First Street, felt limiting additions to the footprint would prevent people from wanting to live in Neptune Beach.

Amy Roberts, 642 Midway Street, felt she should not have to provide parking on the right-of-way of her property for other tenants where landlords do not have enough parking.

Lynda Padrta, 1113 & 1115 First Street, felt approval for variances should not have to meet all seven finding of facts and the City should limit pervious paving. She also stated that if the City were to find ways to go from multifamily to single family would help with our COMP plan.

COUNCIL COMMENTS

Mayor Pruette thanked Community Development Director Askew and Building Official Ford.

Councilor Wiley stated he appreciated Waste Pro sending out information regarding types of items that can be recycled. He added that he attended the meeting of School Board Member Fred Lee at Fletcher Junior High and Fletcher Senior High and was impressed with what they were doing. He also thanked Community Development Director Askew and Building Official Ford.

Councilor Arthur stated he was looking forward to reviewing the language the City Attorney recommends.

Vice Mayor Jolly agreed the property owner of 1113 & 1115 First Street needed to extend the balcony across the front of the house because it was an eyesore.

Mayor Pruette complemented City Attorney Krechowski.

Adjournment

There being no further business, the meeting adjourned at 7:25 p.m.

STAFF:

Mayor Harriet Pruette
Councilor Richard Arthur
Councilor Kara Tucker
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach

ABSENT:

Vice Mayor John Jolly

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked City Clerk Lisa Volpe to lead the pledge of allegiance.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS / NONE

APPROVAL OF MINUTES

Moved by Tucker, seconded by Arthur.

Minutes

Motion: **TO APPROVE THE FOLLOWING MINUTES:**

JANUARY 7, 2013, WORKSHOP CITY COUNCIL MEETING
JANUARY 7, 2013, REGULAR CITY COUNCIL MEETING
JANUARY 22, 2013, WORKSHOP CITY COUNCIL MEETING

Roll Call Vote:

Ayes: 4 – Arthur, Tucker, Wiley, Pruette

Noes: 0

Absent: 1 - Jolly

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

City Clerk Volpe reminded everyone the February workshop meeting would be held on Tuesday, February 19, 2013.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- He gave Council a printout of recent Code Enforcement activity. The printout includes the reported complaints and the actions that were taken. He would begin giving Council a printout on the activity on a monthly basis. Mayor Pruette asked if this was going to be a monthly report. City Manager Jarboe replied "yes."
- The Public Safety Department was able to obtain two new vehicles through a grant. They also received an award through the Click it or Ticket Program that paid for the lights and fixtures on the vehicles. The City did not have to spend any money out of its General Fund to purchase those vehicles.

COMMENTS FROM THE PUBLIC

Fred Lee, 1501 Big Tree Road, stated Council members will be receiving a personal invitation from him to a reception to meet the new school superintendent on February 21, from 6:30 p.m. to 8:00 p.m. at Fletcher High School in the Media Center. He would also like to send a copy of his schedule for visiting schools in the district inviting Council to attend.

Sybil Ansbacher, 2008 Strand Street, voiced concern regarding six or seven garbage cans and recycling bins that seem to be permanent fixtures on Margaret Street.

Mayor Pruette stated she spoke with City Manager Jarboe and he is going to provide information about the garbage at a future workshop meeting.

CONSENT AGENDA

Approval for the purchase of a new animal control truck.

Moved by Tucker, seconded by Arthur.

Motion: **TO APPROVE THE PURCHASE OF A NEW ANIMAL TRUCK.**

Roll Call Vote:

Ayes: 4 – Arthur, Tucker, Wiley, Pruette

Noes: 0

Absent: 1 – Jolly

City Manager Jarboe stated this was not actually for the purchase of a new animal control truck because we don't want to put a new truck on the beach. An old truck from Public Services will be used as the animal control truck and the old truck will be replaced with the new truck.

VARIANCES / NONE**ORDINANCES / NONE****OLD BUSINESS / NONE**

NEW BUSINESS / NONE

COUNCIL COMMENTS

Councilor Wiley stated the new playground equipment in Jarboe Park is being used and enjoyed.

Mayor Pruetto stated Council will be discussing Land Use issues at the February workshop meeting and she requests the presence of Community Development Director Askew and Building Official Don Ford.

Adjournment There being no further business, the meeting adjourned at 6:12 p.m.

Community Development Director Amanda Askew

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Tobacco
Prevention

TOBACCO PREVENTION: Teresa Myers, representative for Students Working Against Tobacco, presented a plaque to the City for adopting a Resolution urging retailers to cease the sale of candy flavored tobacco products.

Jax 2025 / JCCI

JAX 2025 PRESENTATION / JCCI: Ben Warner, President and CEO Jacksonville Community Council, Inc., explained Jax 2025 was formed to create a community led vision for the future of Jacksonville. A survey was mailed out to citizens that had connections with Jacksonville asking to let them know what needed to be improved or changed in the region in regards to transportation, education, safety and environmental protection. The Community Council will be taking the different ideas from the survey and trimming them to statements of vision and purpose and describe the idea of community that they would like to create by the year 2025. Their next meeting will be on February 2, at the Prime Osborne Center and everyone is invited to attend. They will also meet in March and April. The final report will be released May 18, 2013.

Mayor Pruette asked if there was a representative from the beaches on the Council. Mr. Warner replied "yes."

Town Center
Parking

BEACHES TOWN CENTER PARKING TASK FORCE: Jay Handline, President, Beaches Town Center Parking Task Force, stated in July 2012 some private property owners took action to protect their parking spaces in Town Center for their merchants. As a result the Beaches Town Center Parking Task Force was formed to identify solutions to the parking problem. They tried to draft a policy to have employee offsite parking but the insurance requirements and regulations were too costly. They contacted Envision Design to conduct a 90 day parking study that will provide multiple solutions for consideration by all the stake holders. The study would begin on February 1, 2013 and at the end of three months they would meet and provide recommendations relative to a shared parking solution.

Mayor Pruette questioned if all the Town Center merchants had agreed to the cost of the study. Mr. Handline replied all the merchants that attended the meetings were on board.

Councilor Tucker asked Mr. Handline if they were asking the City to contribute to the funding. Mr. Handline responded the stake holders have contributed and they already raised the necessary funding for the study.

Vice Mayor Jolly explained he had asked for the parking issue to be placed on a workshop agenda. He now wished to defer the issue until after the conclusion of the study.

Councilor Arthur asked who the interested parties were. Mr. Handline replied the interested parties are The Merchants Association, Town Center Agency, the private property owners, the City of Atlantic Beach and the City of Neptune Beach.

Councilor Arthur stated he would like to see a mission statement for the Task Force. Mr. Handline replied he would provide a mission statement.

Councilor Wiley supported the parking study. He asked that Envision Design look at the study objectively and recommend practical solutions.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Because of the newly installed solar power panels on the City Hall building the electric bill for City Hall was only \$85.86 for the month.
- Building Official Don Ford is currently working on obtaining a grant to install solar power panels on the Public Services building.

Councilor Arthur asked City Manager Jarboe what the average electric bill was for the Public Services building. City Manager Jarboe replied the water and sewer electric bill for the water and sewer plant averaged \$500,000 per year. The Public Services building itself was about the same as City Hall was before the solar panels were installed.

Councilor Wiley asked City Manager Jarboe if he knew how much longer AT&T would be working on the right-of-way. City Manager Jarboe replied it was a Department of Transportation right-of-way and he had no authority to give them a time limit to complete the project.

Councilor Arthur asked if the Town Center barricade improvement was completed. City Manager Jarboe responded they still had a few more things to do.

Councilor Arthur asked if it was the City's responsibility to maintain the landscaping. City Manager Jarboe replied "yes."

PUBLIC COMMENTS

Patricia Hazouri, 207 Florida Boulevard, recommended the City establish an e-mail service to provide information to citizens regarding City business. She also voiced concern about pedestrian and bicycle safety. Also she and several of her neighbors did not receive a copy of the new garbage ordinance.

PROPOSED ORDINANCES / NONE

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Animal Control Truck

APPROVAL TO REPLACE THE ANIMAL CONTROL TRUCK: City Manager Jarboe explained our mechanic has advised the animal control vehicle is rusted out and in need of replacement. Chief Sembach looked at the possibility of purchasing a used 4 wheel drive but found it wasn't much more to purchase a new truck under the State or Sheriffs contract. We can purchase a brand new Ford F150 4 wheel drive truck for \$17,200 under the state contract or \$18,000 under the sheriffs contract. He suggested purchasing the new truck for the Public Services department and taking one of their old truck for use by animal control.

Councilor Arthur questioned what the life expectancy on a new truck was. City Manager Jarboe replied the old truck from Public Services would probably have a life expectancy of 2 or 3 years.

Consensus: **TO PLACE ON THE FEBRUARY CONSENT AGENDA GIVING THE CITY MANAGER THE AUTHORITY NOT TO EXCEED \$18,000.**

Chapter 27 Fences

CHAPTER 27, FENCES: City Attorney Krechowski stated he was in the process of updating Chapter 27-330 and would urged Council members to give him their thoughts and recommendations. He would work with City Manager Jarboe to tighten up and add consistency which seemed to be an issue with the current Code.

Community Development Director Askew advised there two sections of the Code addressed fences, Section 27-329 and Section 27-330. There was an interpretation issue between the two regarding whether it allowed an eight foot fence to be erected completely all the way around a yard, or just a portion of a yard.

Mayor Pruette suggested defining the word "surrounding" in Section 27-329(4) which reads as follows: Safety fences, Swimming pools and hot tubs shall be surrounded by an approved wall or fence, which is at least four (4) feet in height, but not over seven (7) feet, and controls unrestrained admittance to the enclosed area through the use of self-closing gates. The pool shall be setback at least three (3) feet from the wall or fence, as measured to the lip of the pool. Mayor Pruette stated as an example one property owner was allowed to place an eight foot fence around a swimming pool as well as extending the fencing down the side of house toward the street.

Community Development Director Askew stated the State required a minimum of a 4 foot fence to be placed around swimming pools with gates that are self-latching. There was no requirement on the height of the fence and it does not specify where the fence should end or begin.

Mayor Pruette stated she did not want to strike out Section 27-330(3) encouraging fences that allow air flow because the lots east of Third Street were so close together that it could negatively impact the neighbors.

Councilor Tucker questioned if existing fences would be grandfathered in. Ms. Askew replied under the current code they would be grandfathered in but when the fence needed to be replaced it would have to be in compliance with the current Code at that time.

Vice Mayor Jolly questioned how the height of fences would be measured. He added as an example if the fence was raised an inch or two would it be considered above the height limit. Ms. Askew replied the point of measurement was the natural lay of the land on the interior lot side.

Councilor Arthur felt it made more sense for the point of measurement to be on the outside of the lot. He agreed with not striking out Section 27-330(3) regarding fencing that allowed air flow.

Councilor Arthur questioned whether or not "Third Street" should be removed from Section 27-330(2) which reads as follows: Any fence located adjacent to a public right-of-way or private road shall be placed with the finished side facing that right-of-way. In residential zoning districts, fences walls or hedges shall not exceed six (6) feet in height when placed in exterior side yards abutting a principal arterial (Third Street.) Ms. Askew responded that Third Street was the only area designated in the Code as a principal arterial.

Councilor Arthur questioned the proposal of striking out "~~but not over eight (8) feet~~" which in Section 27-329(3) and changing it to read "Swimming pools and hot tubs shall be surrounded by an approved wall or fence, which is at least four (4) feet in height, but not to exceed six (6) feet." Ms. Askew replied she made the proposed amendment so the Code would be clearer that if a safety fence extends into the front yard it is a required four (4) feet in front.

Mayor Pruette stated the variance process would still be place for unique circumstances.

Councilor Arthur questioned if double sided lots would be allowed to place fences in the front yard. Ms. Askew advised double sided lots would be limited to four (4) feet. She added the Department of Environmental Protection would not allow even a four (4) foot fence on the Oceanside.

Mayor Pruette stated that could be an issue for oceanfront property owners. City Manager Jarboe replied the variance process was in place for certain situations.

Councilor Wiley questioned if privacy fences were considered safety fences. Ms. Askew answered that they are considered safety fences however the smooth side of the fence has to be on the outside of the property with the pool, otherwise people would be able to climb over the fence. Another option is what is called a "baby barrier," a type of screen mesh. She added that the State also requires properties with swimming pools have an alarm on all windows and doors.

Councilor Wiley questioned if an alarm was required on fence gates. Ms. Askew answered an alarm is not required on fence gates but they did have to be self-latching so that they automatically close when the gate is opened.

Councilor Wiley asked if above ground pools were included. Ms. Askew replied the City did not permit above ground pools.

Councilor Wiley stated he was not in favor of allowing eight (8) foot fences in residential neighborhoods. He questioned the proposed code change to allow eight (8) foot fences to go on a residential property abutting a commercial property but only that portion where the property abuts commercial property. Ms. Askew stated she would research the issue.

Councilor Wiley stated Section 27-330(4) referring to the "clear visibility triangle" was not defined as to the distance of the triangle.

City Manager Jarboe asked the Council to contact City Attorney Krechowski if they had any other questions or amendments.

Consensus: **FORWARD TO THE FEBRUARY WORKSHOP MEETING.**

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, suggested Council be careful while considering amendments to Chapter 27 because one change can impact another.

COUNCIL COMMENTS

Councilor Arthur questioned was our set out rate for recycling. City Manager Jarboe replied he was waiting for Waste Pro to give him the figures.

Mayor Pruette passed out a letter to Council regarding "land use issues" and she was placing the subject matter on the February workshop meeting agenda for discussion. She was concerned that some property owners not being able to apply for a variance and other land use issues.

Councilor Wiley felt the garbage can lids may create a problem on windy days. He also asked if a newsletter regarding the recycling could be created and sent out in the electric bills. City Manager Jarboe replied Waste Pro was currently working on such a newsletter.

Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PROPOSED ORDINANCES

Garbage

ORDINANCE 2012-12, GARBAGE, TRASH, AND INDUSTRIAL WASTE: AN ORDINANCE AMENDING CHAPTER 11, GARBAGE, TRASH AND INDUSTRIAL WASTE, ARTICLE I, IN GENERAL AND ARTICLE II, GARBAGE AND TRASH OF THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AND ESTABLISHING AN EFFECTIVE DATE.

City Attorney Krechowski stated the Ordinance offers clarity and consistency regarding garbage collection. He felt it may need to be amended in the future depending on how the City is able to administer enforcement and the reaction from the public.

Councilor Tucker voiced concern regarding enforcement and mandatory recycling for businesses. She was open to moving forward with the Ordinance as it stands and amending it in the future if necessary.

Vice Mayor Jolly questioned if the Ordinance allowed someone from the City to pick up residential trash cans and return them to the yards. City Attorney Krechowski replied the Ordinance did not provide for City employees to pick up trash containers. The way the Ordinance is written, violations of this Ordinance will be treated the same as any other violation.

Vice Mayor Jolly questioned if someone left their garbage can out, how would it be enforced. How would the City identify who the trash can belonged to and what would the next step be. City Attorney Krechowski replied it would be treated under the normal course of any other violation.

Councilor Arthur questioned if "secure plastic bag" should be defined under the definition of "garbage container." City Attorney Krechowski responded "no" because "garbage container" is different and "secure plastic bag" is defined in other areas of the Ordinance.

Councilor Arthur questioned if Section 11-110 gave authority to the City Manager to enforce a violation. City Attorney replied "no" Section 11-110 refers to the person doing the enforcement.

Councilor Arthur asked the City Attorney if he felt it would be better to have individual penalties provided for this Ordinance. City Attorney Krechowski explained it would be inconsistent to provide a different set of penalties to a specific section of the Code. It is more consistent to have one section of the code to reference penalties for code violations. City Manager Jarboe added in extreme cases he or his designee could issue a ticket after a warning.

Councilor Arthur stated he still opposed allowing plastic bags to be placed curbside for garbage collection. He added if code enforcement was an issue Council should consider amending Chapter 1.12 regarding enforcement rules.

Councilor Wiley stated Section 11-47 referred to Chapter 162 of the Florida Statutes. He asked City Attorney Krechowski to clarify Chapter 162. City Attorney Krechowski explained Chapter 162 is the State Statute that allows local governments the authority to create code enforcement boards or to appoint a special magistrate. It also covers procedures for code enforcement.

Councilor Wiley asked if violators would be issued a citation. City Manager Jarboe replied the violation would be handled like any other code violation through the Code Enforcement Officer. If the situation needed immediate attention he or his designee would have the authority to issue a citation.

Councilor Wiley felt the City should wait until figures are received regarding tipping fees before considering making commercial recycling mandatory. He would like to hear from the commercial establishments regarding the issue.

City Manager Jarboe stated the suggestion for mandatory commercial recycling originated from Town Center Agency President, Ed Jones. Some commercial establishments are already in the process of setting it up.

Mayor Pruette asked City Manager Jarboe if Council were to impose mandatory recycling on businesses if they would be given notification and allowed ample time to speak on the issue. City Manager Jarboe replied "yes."

Mayor Pruette explained the Ordinance says "the city manager may establish a mandatory commercial recycling program consistent with State Statute." This Ordinance does not make it mandatory. She added that residential properties have been required to recycle for almost 20 years. She stated commercial establishments generated a tremendous amount of recyclable material that goes into the landfill and she felt they should do their fair share. The more recyclables we can keep from going into the landfill, the more money we save the taxpaying citizens.

Mayor Pruette asked City Manager Jarboe when the trash collection company was going to ask the City to reimburse them for tipping fees. City Manager Jarboe replied the issue would be on the January workshop agenda.

City Manager Jarboe stated he received a bill from the City of Jacksonville for tipping fees for yard trash and he returned it to them because it was contrary to the Interlocal agreement.

Mayor Pruette felt allowing the City Manager to establish mandatory commercial recycling for business should be left in the Ordinance.

Consensus: **FORWARD TO THE FOLLOWING REGULAR MEETING FOR A VOTE.**

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, felt if citizens were required to recycle businesses should also be required. She was concerned about how the Ordinance would be enforced, specifically with multi-family units.

Councilor Wiley asked City Manager Jarboe if it was mandatory for residential properties to recycle. City Manager stated residential properties were required to recycle under the State of Florida.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette commented that she has received several nice comments regarding the Town Center landscape project at the barricade on Lemon Street and First Street.

Councilor Tucker requested an update on an e-mail and public comment regarding dog waste and the installation of a one-way street sign on Strand Street. City Manager Jarboe replied the one-way street sign has been ordered.

Councilor Arthur questioned how much work remained to complete the Town Center barricade project. Mayor Pruette replied they were going to install a fence and some pavers. City Manager Jarboe added the project was being coordinated with the Jacksonville Electric Authority and the City's Public Services Department.

City Attorney Krechowski stated he and Atlantic Beach City Attorney met the General Counsel Office for the City of Jacksonville on December 12, 2012, regarding tipping fees and the Interlocal agreement.

City Clerk Volpe stated due to the Martin Luther King holiday, the January workshop meeting would be held on Tuesday, January 22, 2013.

CITY MANAGER REPORT

City Manager Jarboe stated the solar panels on City Hall are working effectively. The first electric bill received since the installation was for \$65.00.

Community Development Director Askew explained the old playground equipment in Jarboe Park would be removed by our Public Services Department on Thursday and Friday of this week. The new playground equipment was scheduled to be installed by Earthscape on Monday. The new equipment is made of 99% recycled plastic and will be ADA compliant.

Mayor Pruette questioned where the funding for the new playground came from. City Manager Jarboe replied the funding came from the Convention Development Tax and was included in the approved budget.

Councilor Arthur asked what the life expectancy was on the new playground equipment. Community Development Director Askew replied the life expectancy was 20 years.

COMMENTS FROM THE PUBLIC

Alan Martin, 1113 First Street, felt the city needed to enforce restrictions placed on variances. He was concerned about drinks being placed on the railing of the balcony of the North Beach Fish Camp.

OLD BUSINESS / NONE

NEW BUSINESS

CDB12-06
207 Atlantic Blvd.
Al's Pizza

CDB12-06, DEVELOPMENT ORDER, AL'S PIZZA PARTNERS, INC., 207 ATLANTIC BOULEVARD: Community Development Director Askew explained the existing building is being remodeled. The applicant is proposing a complete façade change with a new roof over the leased outdoor dining along the Atlantic Boulevard right-of-way, a new architectural tower at the corner of the building and new outdoor seating area on private property along the western side of the building. In the Central Business District there is an automatic 50% reduction in required parking spaces. The required parking is 122 and the applicant has a total of 149.

Vice Mayor Jolly asked Mrs. Askew to describe the Pine Hall pavers. Ms. Askew explained the applicant proposes to install Pine Hall "StormPave" permeable pavers in the area for outdoor seating. They are considered 100% permeable.

Councilor Wiley asked if the restaurant would have live entertainment in the late evenings.

Mayor Pruette called on the applicant, Mr. Al Mansur to respond to the question.

Mr. Mansur replied they intended to have live entertainment at the end of the night after dinner hours.

Mayor Pruette asked if the outdoor seating area would be closed after dinner hours when there was live entertainment. Mr. Mansur answered "yes."

Councilor Wiley asked if there would be outdoor speakers. Mr. Mansur answered "no."

Councilor Arthur asked if the original palm trees on the west elevation would remain. Mr. Mansur replied they are mostly all staying in place. A couple of the palm trees may have to be relocated to arrange the tables in the right area. Hope Van Nortwick added all the palm trees will remain, one or two may be slightly relocated.

Councilor Arthur asked if there would be planters between the fencing. Hope Van Nortwick replied they are required to have the rail between the public and the serving area. In order to prevent having so much railing they planned to add some planters in between.

Councilor Wiley questioned if the required parking spaces for the restaurant were located in the private parking lots behind City Hall and across the street from the Public Safety Building. Mrs. Askew replied "yes."

Moved by Tucker, seconded by Arthur.

Motion: **TO APPROVE THE RECOMMENDATION OF THE COMMUNITY DEVELOPMENT BOARD FOR THE DEVELOPMENT AT 207 ATLANTIC BOULEVARD.**

COUNCIL COMMENTS

Councilor Tucker asked when the Denny's Restaurant would open. City Manager Jarboe stated Denny's has been issued a Certificate of Occupancy. The City was not the hold up. The property owner and the franchisee were in discussion and they should be open around the 20th.

Councilor Wiley asked the Beaches Leader reporter to put in the article that the workshop meeting would be held on Tuesday, January 22nd in lieu of the 21st.

Councilor Wiley asked if the pamphlet regarding recycling could be placed in the electric bills. City Manager Jarboe replied that Waste Pro is required to send out notices regarding recycling.

Councilor Wiley stated he would like Council to address the 50% automatic reduction in parking spaces in the Central Business District. Mayor Pruette suggested he place the issue on a workshop agenda.

Councilor Tucker requested Ordinance No. 2012-12 be placed on the website. City Manager Jarboe commented staff would send the information regarding the new garbage ordinance in the electric and water bills and place it on the website.

Vice Mayor Jolly asked to place "public parking" on a workshop agenda as unfinished business from last year.

Vice Mayor Jolly stated he would also like to workshop and discuss the police pension plan.

City Manager Jarboe suggested discussing the police pension during the upcoming budget process.

Councilor Arthur asked if the City had any appointed members on the Police Officers' Pension Fund Board. Mayor Pruette replied the two City appointed seats were open and she is looking for people willing to serve.

Vice Mayor Jolly asked about the Beaches Chapel Drainage project. City Manager Jarboe responded the City has not started their part of the process.

Adjournment

There being no further business, the meeting adjourned at 6:55 p.m.

SPECIAL CITY COUNCIL MEETING
DECEMBER 4, 2012, AT 7:00 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Special Meeting of the City Council of the City of Neptune Beach was held December 4, 2012, at 7:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

The following Council members and staff were in attendance:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Richard Arthur
Councilor John Jolly
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

STAFF:
Director of Public Safety Chief Sembach

Order call

Mayor Pruette called the special meeting to order at 7:00 p.m.

Invocation and Pledge

Mayor Pruette asked Judge Flower to lead the pledge of allegiance.

Oaths of Office

OATHS OF OFFICE:

Judge Gary Flower administered the Oath of Office to Vice Mayor Kara Tucker, Councilor Scott Wiley and Mayor Harriet Pruette, whereupon they each, respectively, assumed the duties of their elected office.

Mayor Pruette recognized Jacksonville Beach Mayor Charlie Latham, Jacksonville Beach Vice Mayor Tom Taylor, Jacksonville Beach City Council Keith Doherty, Supervisor of Elections Jerry Holland, and retired Admiral Bill Lynch.

**Presentation of
Certificate of Election**

PRESENTATION OF CERTIFICATE OF ELECTION: City Clerk Volpe presented a Certificate of Election to Kara Tucker for Seat 3, Scott Wiley for Seat 2, and Harriet Pruette for Seat 1.

Council Comments

Vice Mayor Tucker thanked Judge Flower for swearing her in and referenced her many accomplishments while serving as Vice Mayor.

Councilor Arthur stated he looked forward to working with the Council for the next four years. He welcomed Councilor Wiley back to the Council after 43 years.

Councilor Wiley recognized his wife, sisters, and brother-in-law's presence. He stated it is a privilege and an honor to once again serve the citizens of Neptune Beach. He appreciates the opportunity and looks forward to working with the Council.

Mayor Pruette stated every day she gives thanks for the blessing, honor and privilege of serving Neptune Beach. She thanked her supporters for believing in her and putting their trust in her. She thanked City Manager Jarboe and staff for everything they do for the City. She added she is looking forward to working with the Council.

Mayor Pruette presented Judge Flower a key to the City in appreciation for him administering the oath to the new Council members.

Appointment of
Vice- Mayor

ELECTION OF VICE-MAYOR: Pursuant to Section 2.04(b), City Charter, Mayor Pruette opened the floor for nominations for Vice Mayor.

Councilor Arthur nominated Councilor Jolly to serve as Vice Mayor. He added that Vice Mayor Tucker did an excellent job serving as Vice Mayor for the past two years.

Mayor Pruette asked Councilor Jolly if he accepted the nomination. Councilor Jolly replied "yes" he would accept the nomination.

Councilor Wiley felt Vice Mayor Tucker has done an excellent job serving as Vice Mayor for the past two years and he would like to nominate her to serve another term Vice Mayor.

Mayor Pruette asked Vice Mayor Tucker if she accepted the nomination. Vice Mayor Tucker stated she would accept the nomination.

Mayor Pruette stated Councilor Jolly was a retired captain in the U.S. Reserves and has also worked in the Duval County Auditor's office. He was also in a management position with J.E.A. He knows the players and he knows the process and he certainly is not bashful and will speak up. She felt the City needed his experience in dealing with the tipping fee issue with the County.

There being no further nominations, Mayor Pruette closed the floor and asked City Clerk Volpe to call the roll

Mayor Pruette asked City Clerk Volpe to do a call roll vote and ask each Council member to name who they chose to serve as Vice Mayor.

Roll Call Vote:

Kara Tucker	2 – Tucker, Wiley
John Jolly	3 – Arthur, Jolly, Pruette

Results: **COUNCILOR JOHN JOLLY TO SERVE AS VICE MAYOR.**

Adjournment

There being no further business, the meeting adjourned at 7:25 p.m.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette stated she would like to place the issue of the Pete's Bar Thanksgiving event on a future workshop meeting agenda to discuss Chief Sembach's suggested changes. She thanked Chief Sembach for his memo and felt we needed to look at some

changes in order to keep the event.

Mayor Pruette stated for the record "as representatives of the citizens it is the Council's duty to bring citizens issues to staff and to amend ordinances if necessary." She had been receiving complaints from citizens regarding the recently built homes east of Third Street covering too much of the lots and not leaving enough green space or space for parking. She has also received complaints regarding inconsistencies in the application of the Land Use Code. Therefore, she would like to place Chapter 18, Section 18-4 and Chapter 27, Land Use Code on the January workshop agenda. She also would like to place the issue of enforcing the garbage ordinance on the January workshop agenda.

City Clerk Lisa Volpe stated she was preparing the Council meeting calendar for next year and asked Council if they would prefer to move the Monday meetings that fell on holidays to the following Tuesday as recommended by Councilor Wiley.

Consensus: **TO HOLD COUNCIL MEETINGS ON TUESDAYS FOLLOWING MONDAY HOLIDAYS.**

City Attorney Krechowski announced he and Atlantic Beach City Attorney Alan Jensen will be meeting with an Assistant General Counsel for the City of Jacksonville on Thursday, December 6th to discuss the Interlocal Agreement, specifically the tipping fees.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The Town Center beautification project for Orange Street has started.
- The new solar power system is saving the City money. When the sun is shining the City is breaking even and on cloudy days the City is still saving 20 to 50 percent on electricity.
- The Environmental Protection Agency will be implementing new standards on nitrogen. He is hoping that the City will not have to retrofit the nitrogen plan to conform to the new requirements.
- Chief Sembach has recommended some changes for the Pete's Thanksgiving Day event. He has suggested that it be handled in the same manner as the "Dancin' in the Street" event.

COMMENTS FROM THE PUBLIC

Ed Jones, 200 First Street, requested the City share some of the funds received from Waste Pro for holiday lighting with the Beaches Town Center Agency.

City Manager Jarboe stated he would place the issue of the Holiday Lighting funds on the January workshop agenda.

Brain McDonald, 107 North Street, voiced concern about dog defecation. He suggested that police officers ticket dog owners if they catch them in the act of not picking up after their dog. He also suggested that a "one-way" street sign be placed at North Street and Strand.

Lynda Padrta, 1113 First Street, voiced concern regarding the Land Use Code.

CONSENT AGENDA

Director of Public Safety David Sembach
Director of Public Services Leon Smith
City Engineer Jim French

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The solar power for the City Hall building was officially turned on today.
- The annual audit has begun.
- Denny's is projecting a December 15th opening date.
- The owner of the building at 123 Lemon Street has applied for a demolition permit. They plan on building a single family home on the lot.
- The City is trying to resolve an issue in Town Center regarding two hour parking signs.
- The parking lot monitoring has slowed down.
- The plans for the old Sun Dog have not been submitted but it will be a Mexican restaurant.
- Rad Lovett plans to move forward soon with the building project on the corner of Second Street and Atlantic Boulevard.
- The Holiday Decorations will be going up soon.

Councilor Jolly stated the developing of additional parking spaces at Second Street and Lemon Street was still on the action list. He asked City Manager Jarboe if he was waiting for a decision from the Council. City Manager Jarboe stated Council will need to

make a decision regarding revoking the lease agreement with Mr. Lovett to create 15 parking spaces or to create eight parallel parking spaces without revoking the lease agreement.

PUBLIC COMMENTS

Donna Deegan, of the "26.2 With Donna Marathon," stated she wanted to thank everyone for their support of the event each year. It continues to be her intention to hope for a cure for breast cancer. She is looking forward to many more years of participation. If there is anything she can do personally to make the event better or easier on the City she will be happy to do so.

PRESENTATIONS

Bal Harbour /
Flood
Engineering

FLOOD ENGINEERING FOR BAL HARBOUR: Mayor Pruette introduced Ki Hong Pak, PE, CFM of Gemini Engineering & Sciences, Inc.

City Manager Jarboe stated Mr. Pak is a well respected engineer dealing with floodplain issues. He felt we were lucky to have his services for this project.

Mr. Ki Hong Pak made a presentation on the pilot study for the stormwater and drainage improvements in Bal Harbour. He explained the pilot study encompassed figuring out the existing situation, compiling information and using GIS system software to duplicate and visualize the existing flooding conditions and create different improvement scenarios. Out of the different improvement scenarios the best result was to create a bypass that would provide a secondary outlet to bypass the system that goes past the Beaches Chapel and direct it down to the canal. This would improve the flooding quite a bit but the area is so low that unless you elevate everything or increase the drainage system completely it will be very difficult to solve the situation.

Councilor Jolly asked Mr. Pak if what he was saying is "that even with the improvement there will continue to be flooding." Mr. Pak responded "yes" depending on the magnitude of the storm.

Mayor Pruette questioned if this would create flooding in another area. Mr. Pak replied they looked at different impacts upstream and downstream and there would be an increase of water along the ditch of about a tenth of a foot.

Mayor Pruette stated years ago the City conducted a study that revealed there were 8 to 9 areas throughout the City that had flooding problems. The worst area is Bal Harbour because it also has raw sewage entering homes. City Manager Jarboe explained in the next year and a half the City is going to try to do the construction of the sanitary sewer one street at a time so that it doesn't completely disrupt the Bal Harbour community. That is a separate issue to be addressed.

Councilor Jolly questioned where the funding for the pilot study came from. City Manager Jarboe replied the City provided the funding for the pilot study. He explained it was part of the process to be able to qualify for federal funding. He is hoping to get funding from FEMA to improve all the trouble areas.

Councilor Wiley questioned if the water would be directed down Bay Street across or running down the Westside of Fifth Street to enter into the drainage ditch or would it be running on the eastside. Mr. Pak stated it makes more sense to hit it on the downstream side of Florida Boulevard but that would be on the detailed design.

Councilor Wiley stated the existing pipe has an L Shape where the water gets bogged down. He asked if there was anything that could be done to create a straighter path across and into the ditch. Mr. Pak replied the L shape created less than a tenth of a foot of impact. He felt the 90 degree turn was inconsequential.

Councilor Wiley asked what the estimated cost would be to get the water to move faster and to solve some of the issues in Bal Harbour. City Manager Jarboe replied it would cost approximately \$780,000.

Councilor Wiley asked if the City could receive grant money to fund the project. City Manager Jarboe stated the City planned to apply for every possible grant. Councilor Wiley asked if we should get other areas of the City involved. City Manager Jarboe replied he would know how much to apply for once the federal budget is adopted.

Councilor Wiley asked if the improvement would create any adverse effects on other areas of the City. Mr. Pak replied that was included in the study. City Engineer Jim French stated it would be prudent to double check on any adverse effects, but the City did not have the funds to study a bigger model. It is an engineering judgment that the improvement would not likely cause an impact in other areas of the City.

PROPOSED ORDINANCES

Garbage

ORDINANCE NO. 2012-XX, GARBAGE: AN ORDINANCE AMENDING CHAPTER 11, GARBAGE, TRASH, AND INDUSTRIAL WASTE; ARTICLE I. IN GENERAL; AND ARTICLE II. GARBAGE AND TRASH OF THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained City Attorney Krechowski has provided a model Ordinance for Council to consider and make suggestions and recommendations for changes.

City Attorney Krechowski stated he needed guidance from the Council on Section 11-26(c) regarding the time that garbage containers could be placed curbside for collection. He added Section 11-47 regarding enforcement. He would like to strike the work "buckhorn" from Section 11-106(b).

Vice Mayor Tucker asked City Attorney Krechowski what his recommendation was on the placement of garbage containers for collection. City Attorney Krechowski advised he leave it at 12 hours prior to the assigned day of collection.

Mayor Pruette felt it would be difficult to enforce. City Attorney Krechowski agreed it was going to be difficult to enforce because residents would be putting trash containers out at different times of day and the garbage trucks come at different times.

Vice Mayor Tucker suggested changing Section 11-30. – Services for persons with disability as follows: Upon receipt of proper notice, the City shall render assistance and make provisions for those persons with ~~disability~~ disabilities to the extent that it would not be practical to place garbage containers at curbside.

Vice Mayor Tucker agreed to allow residents wanting to use trash bags instead of trash containers to be able to do so.

Councilor Jolly suggested either changing the time to 12:00 p.m. although he would prefer it to be after 6:00 p.m. City Manager Jarboe added that most cities say no earlier than 6:00 p.m. the day of collection.

City Attorney Krechowski questioned if the Council wanted to set different times for when trash bags could be put out for collection and when trash containers could be set out.

Councilor Wiley felt the Ordinance was placing a lot of restrictions that would be difficult to enforce. He felt the trash bags should not be set out for collection until 6:00 a.m. the day of and trash containers should be set out the night before. He felt that language would suffice without setting a definite time. City Attorney Krechowski felt the problem with that was people were leaving trash containers out all the time.

Councilor Wiley stated he was not in favor of Section 11-112. He did not think the City should make commercial recycling mandatory.

City Manager Jarboe explained the City did not profit from making it commercial recycling mandatory. It would lessen the amount of waste going into the landfill and save the money so the City does not have to raise the rates of the residents to cover the cost of the landfill.

Councilor Arthur felt the time frame of 12 hours prior was agreeable. He did not support allowing the use of plastic bags and felt that "secure plastic bags" should be removed from Section 11-1.

Mayor Pruette felt "securable lid" should be removed from Section 11-26. City Attorney Krechowski stated the securable lid was for trash containers placed curbside the night before collection. If people did not want to put a lid on the trash container they would be allowed to place the container curbside the day of collection.

Mayor Pruette felt once the Ordinance is adopted the citizens needed to be given a friendly reminder instead of a warning taking enforcement action. City Manager Jarboe explained the difficulty with that is the City needed to send a certified letter before taking enforcement action.

Councilor Arthur suggested adding a definition for "secure plastic bag" in Section 11-1. City Attorney Krechowski agreed to add the definition. Councilor Arthur asked if we could limit secure plastic bags to one per property. City Attorney Krechowski stated there is a one bag limit in the Ordinance.

Consensus: **LEAVE SECTION 11-26(C) AS IS AND FORWARD TO FIRST READ.**

CONTRACTS / AGREEMENTS

Al's Pizza
Partners

SIDEWALK LEASE AGREEMENT / AL'S PIZZA PARTNERS, INC.: City Manager Jarboe recommended placing this on the consent agenda. This is basically the same lease for the seating area used by Sun Dog.

Councilor Wiley questioned if this would be the same type of restaurant.

Al Mansuer, owner of Al's Pizza Partners, Inc., stated it was going to a Mexican style restaurant and they would have the same seating capacity and lay out as Sun Dog.

Councilor Arthur asked if there was any difference in the lease. Mr. Mansuer replied it would be the same amount of tables and the same amount of chairs.

Vice Mayor Tucker stated she would support the lease agreement.

Councilor Jolly agreed to place the lease agreement on the consent agenda.

Consensus: **TO PLACE THE SIDEWALK LEASE AGREEMENT FOR AL'S PIZZA PARTNERS, INC. ON THE CONSENT AGENDA.**

ISSUE DEVELOPMENT

26.2 Donna
Marathon

RESOLUTION NO. 2012-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA MAKING THE "26.2 WITH DONNA" MARATHON A RECOGNIZED COMMUNITY EVENT IN NEPTUNE BEACH.

Consensus: **TO PLACE THE 26.2 DONNA MARATHON RESOLUTION ON THE CONSENT AGENDA.**

Relay for Life

RELAY FOR LIFE EVENT: City Manager Jarboe stated the Relay-for-Life event has previously been held in Jarboe Park except for the past two years. He was concerned about the large event taking place in the residential area due to the noise and parking. He felt the Cancer Society did a great job and the research they provide is outstanding. But he did not recommend the event being held in Jarboe Park. He was concerned the event would end up being shut down after the second noise complaint. He also felt it would interfere with the Saturday Green Market. He suggested if Council approved the event that the Green Market not be held on that Saturday.

Vice Mayor Tucker supported the event being held in Jarboe Park.

Councilor Jolly agreed with the concerns of the City Manager. He would not want to approve the event and then have it end up being shut down due to noise complaints.

Councilor Arthur supported the event being held in Jarboe Park with concessions. He also would not want to take away from the Green Market. He suggested making an offer to the event coordinator to downsize the event and make some concessions regarding the noise ordinance and parking.

Mayor Pruette stated she received several complaints from the Relay-for-Life event in the past and even received a ticket for a noise ordinance complaint. She would hate to approve it and then have it shut down.

Councilor Wiley stated Relay-for-Life was held in Jarboe Park in 2003, 2004, 2006, 2007, 2008, and 2009. It was approved in 2011, but they decided to hold the event at a different location. The approvals were 5 to 0 votes. He supported the event being held in Jarboe Park.

Patricia Hunt, Coordinator of the Event, explained in 2011 there was some miscommunication and they were under the impression that they were denied to hold the event in Jarboe Park, otherwise they would never have left Jarboe Park. This helps support cancer research, education and helping families in times of need. They have addressed the noise issue in the past by having a professional help with the sound system. They will not have music after 9:00 p.m. or if so it would be on a very low key. The size of the stage will not be as large as previously. The event was held at Latham Plaza last year and Fletcher High School the year before.

Mayor Pruette suggested turning the stage so that it would face the beach. She felt that might help with noise.

Ms. Hunt stated she would be open to that suggestion.

City Attorney Krechowski stated there is a special permit provision in the noise ordinance.

Director of Public Safety Sembach explained if the music is loud and they receive a complaint they will have to respond to the complaint. They cannot write a citation on the first complaint but if the complaints are continuous they will have to take action.

Councilor Jolly asked if they would not park in the parking spaces designated for the Green Market.

Ms. Hunt explained she reached out to the Beaches Chapel and there is a possibility they will be able to use a portion of their parking lot.

Mayor Pruette questioned the timing of the event. Ms. Hunt explained it is an 18 hour event. The event starts at 12:00 p.m. on Saturday and ends at 8:00 a.m. Sunday morning.

Consensus: **FORWARD TO THE REGULAR AGENDA FOR A VOTE.**

PUBLIC COMMENTS

David Black, 601 Magnolia Street, thanked the City for being trying to resolve the flooding issues in Bal Harbour. He supported the Relay-for-Life event being held in Jarboe Park.

Tim Slater, 573 Magnolia Street, thanked the engineers for the additional data. His family is still displaced after tropical storm Debby because they had over \$100,000 damage. He was neutral on the Relay-for-Life event being held in Jarboe Park.

William Robinson, 633 Magnolia Street, questioned the drainage presentation. He asked for an update on the Beaches Chapel improvements. City Manager Jarboe asked Mr. Robinson to contact him by telephone and he would answer his questions. He supported the Relay-for-Life event being held in Jarboe Park. He felt it would be no worse that the noise coming from the Beaches Chapel.

Vita Hope, 324 Driftwood Road, was concerned about the number of trash bags. She places two bags out for collection.

COUNCIL COMMENTS

City Clerk Volpe reminded Council the swearing in of new Council members would be held on the December 4, 2012 at 7:00 p.m. The regular City Council meeting would normally be held on December 3, 2012. She questioned if Council would prefer combining the meetings.

Consensus: **TO COMBINE THE MEETINGS STARTING AT 6:00 P.M.**

City Manager Jarboe stated in the past few years Council has not held a workshop meeting in December. He questioned if Council wanted to hold a workshop meeting this December.

Consensus: **TO NOT HOLD A WORKSHOP MEETING IN DECEMBER.**

Councilor Jolly asked City Clerk Volpe to create a Council meeting calendar for next year.

Mayor Pruetto stated there are two issues in the Bal Harbour neighborhood, water in the streets and sewer in the streets. City Manager Jarboe has assured us he would be working on the flooding.

Adjournment

There being no further business, the meeting adjourned at 8:00 p.m.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

City Attorney Krechowski advised he and Alan Jensen, Atlantic Beach City Attorney, were in the process of drafting a letter to Cindy Laquidara, City of Jacksonville General Counsel in an effort to get her attention and some assistance in getting cooperation from the City of Jacksonville staff and Mayor Alvin Brown's office, regarding tipping fees.

City Manager Jarboe stated the City of Jacksonville had not responded to any of our letters or telephone calls to them regarding tipping fees.

Mayor Pruette added when she and City Manager Jarboe tried to contact Mayor Alvin Brown, no one would let them speak to him and he never responded.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- Public Services have completed their portion of the installation of the solar panel system for City Hall. The electrician will be finishing up this week. He plans to hold a ceremony sometime next week. The solar panels should save the City approximately \$600.00 per month.

COMMENTS FROM THE PUBLIC

Vita Hope, 324 Driftwood Road, stated she would like to be allowed to continue placing her garbage out for pick up in garbage bags in lieu of having to use a trash container.

Agenda
Amendment

APPROVAL OF THE ANNUAL THANKSGIVING DAY EVENT ON THURSDAY, NOVEMBER 22, 2012: Mayor Pruette introduced Mary Ann Marshal, Aide for State Representative Janet Adkins. Ms. Marshal explained when Mayor Pruette called Ms. Adkins asking for her help regarding the permit to hold the Thanksgiving Day event, she and her staff immediately went to work making telephone calls to Tallahassee. Thanks to Mayor Pruette and State Representative Janet Adkins the State is willing to work with Town Center in regards to obtaining the "extension of premises" license to allow the annual event to be held.

City Manager Jarboe stated at the October workshop meeting the consensus of Council was to move the event forward for approval. Tonight the Council is doing its normal function of approving the event, however it is up to the State to approve the license.

Mayor Pruette stated she appreciated Mrs. Adkins and Mrs. Marshal for their assistance.

Vice Mayor Tucker felt this is a great community event that has been a tradition for 27 years. It is a lot of fun and provides publicity for the Town Center businesses and merchants.

Councilor Wiley complimented State Representative Janet Adkins for her quick response and stated we appreciate everything that her office has done to help.

Moved by Tucker, seconded by Arthur.

Motion: **TO APPROVE THE ANNUAL THANKSGIVING DAY EVENT AS OUTLINED IN 12-D OF THE AGENDA.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

Noes: 0

MOTION CARRIED

Nancy Jensen, owner of Pete's Bar, stated she appreciated the help of Mayor Pruette and State Representative Janet Adkins.

MOTION CARRIED

Res. No. 2012-07 RESOLUTION NO. 2012-07: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA SETTING A GOAL OF TWENTY (20) PERCENT FOR THE CITY'S RESERVE FUNDS.

City Manager Jarboe explained there is a new rule that requires cities to adopt a resolution setting a goal for reserve accounts.

Councilor Wiley questioned once the goal of 20% was reached if the city would continue to add money to the reserve fund. City Manager Jarboe explained the goal is set at 20% and it was better to set the goal at a manageable level because if the goal is not reached it may be necessary to raise taxes.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT RESOLUTION NO. 2012-07.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

PRESENTATIONS

**BLFN / Green
Market**

**REPORT FROM BEACHES LOCAL FOOD NETWORK HIGHLIGHTING THE
BEACHES GREEN MARKET, COMMUNITY GARDEN AND CHILDREN'S GARDEN:**

Devon Ritch, Director of Beaches Local Food Network, explained over 26,000 shoppers have visited the Green Market so far this year. They have over 2,050 e-mail contacts that they reach each week with their newsletter. The newsletter includes what vendors will be present that week and what they are featuring. It also provides information regarding recipes, community events, and posts articles. The Green Market is stronger than ever. They have over 35 vendors, 16 are farmers offering produce, meat, dairy and seasonal fruits. A Foundation Academy School garden is going to offer vegetables this coming Saturday. The plots in the Community Garden are full as of this past weekend after advertising for new gardeners and giving priority to Neptune Beach residents. The Children's Garden has hosted classes for the Beaches Chapel, a Local Girl Scout Troop, and KinderCare. A plant sale fundraiser was held this past weekend and almost \$500 was raised towards the Community Garden and the Children's Garden Outreach Programs. They are planning a fundraising dinner in early February which will feature our market farmer's produce, dairy, seafood, meats and local breweries. They are kick starting a sponsorship campaign for 2012/2013 with a focus on Neptune Beach small businesses.

Jennifer Keskinen, Community Garden Manager, stated she has been focusing on the improving the appearance of the garden. They removed an unattractive fence and bordered the garden with a low wood border and a mulched pathway. They are going to paint the shed. The Garden has 24 plots, 7 of those belong to Neptune Beach residents. The New Leaf School is going to be renting a plot for their students. They have set aside one of the plots to raise food for needy families and will be working with the local churches to provide the food.

Amy Tous-Parker stated the Garden has experienced great success this past year. They have an average of between 17 and 22 children that come with their parents. They hold workshops every other Saturday that are free and open to the public. This past summer they created a wish list of items for the garden including harvest baskets, wooden benches, garden hoses, chopping blocs, etc. She is happy to report that we have such a great community and all of the items on the wish list were met. They just kick started the fall workshop series.

Councilor Wiley asked if the Community Garden received any grant money. Ms. Ritch replied a small grant was once received before she became director. That grant was used to make a presentation board with laminated pictures which is placed out every week.

Councilor Wiley questioned how many people visited the Green Market on a typical Saturday. Ms. Ritch replied approximately between 600 and 1,000 depending on the season.

Councilor Arthur stated he could see the improvements on the grounds. He asked them to think about reseeding and grassing the area of the market before summer because of the dust and dirt.

Vice Mayor Tucker asked who the contact person was for the Community Garden. Mr. Ritch responded she was the contact person. She could be reached by phone or e-mail.

Councilor Jolly commended them for working with children and teaching them where food comes from and how it is grown.

Vice Mayor Tucker asked if they had any problems with parking. Ms. Ritch replied "no."

City Manager Jarboe stated he has not received any complaints so everything must be going well. He did remind them that their yearly "rent" needs to be paid.

Mayor Pruette stated she heard many positive comments about the garden and the market.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The City is still waiting on parts from California to complete the Solar Panel Project.
- The construction for the new Denny's Restaurant is in progress and should be completed by end of the year or January.

Mayor Pruette asked City Manager Jarboe to remove the items from the Action List that have been completed. City Manager Jarboe replied he would remove those items before the next Action List was placed on the agenda.

PUBLIC COMMENTS

Ed Jones, 200 First Street, voiced concern about Southcoast Partnership signage and parking attendants deterring and preventing non-tenant customers of Southcoast from parking on public property. He suggested creating a round table for parties interested in the parking issues. He felt that may be a more effective way to solve the issue.

Teri Methrin, stated there were many items that could be recycled that people are not aware of. She would like the city to get the word out to residents regarding what items are allowed to be recycled.

Chris Chin, 227 Margaret Street, voiced concern about the proposed garbage ordinance. She felt there was a problem with people leaving their trash containers out 24/7. She asked that reasonable time be set for putting out trash in the afternoon and collecting the container from the curb. She supported allowing Mr. Lovett, Southcoast Partnership, to provide the materials for the new public parking spaces at Second Street and Lemon Street.

PROPOSED ORDINANCES

Budget
Amendment

ORDINANCE NO. 2012-XX, AMENDING THE 2011/2012 BUDGET: AN ORDINANCE AMENDING THE OPERATING BUDGET FOR THE CITY OF NEPTUNE BEACH, FLORIDA FOR FISCAL YEAR 2011, BEGINNING OCTOBER 1, 2011 AND ENDING SEPTEMBER 30, 2012.

City Manager Jarboe explained the grant revenue received by the City last year has to be included in the budget for the audit.

Consensus: **FORWARD TO THE NOVEMBER REGULAR MEETING FOR FIRST READ.**

Floodplain

ORDINANCE NO. 2012-XX, UPDATING THE FLOODPLAIN: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH FLORIDA, AMENDING AND DELETING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS; SEC. 27-3. AUTHORITY, SEC. 27-15. DEFINITIONS, SEC. 27-150. SPECIAL PROVISIONS WHERE VARIANCE IS SOUGHT TO REQUIREMENTS IN SPECIAL FLOOD HAZARD AREAS, SEC. 27-402. APPLICABILITY, SEC. 27-403. FINDINGS OF FACT, SEC. 27-404. PURPOSE AND INTENT, SEC. 27-405. GENERAL PROVISIONS, SEC. 27-406. DEFINITIONS, SEC. 27-407. ESTABLISHMENT OF SPECIAL FLOOD HAZARD DISTRICTS, COASTAL HIGH HAZARD DISTRICTS AND SHALLOW FLOODING DISTRICTS, SEC. 27-408. CERTIFICATION REQUIRED SEC. 27-410. STANDARDS FOR REDUCING FLOOD HAZARDS IN COASTAL HIGH HAZARD DISTRICTS, SEC. 27-411. STANDARDS FOR REDUCING FLOOD HAZARDS IN SHALLOW FLOODING DISTRICTS, SEC. 27-412. PERMIT AND APPROVAL PROCEDURES, SEC. 27-413. PROCEDURE FOR APPEAL, SEC. 27-414. ADMINISTRATION, SEC. 27-416. MANUFACTURED BUILDINGS, SEC. 27-417. RECREATION VEHICLES AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the floodplain ordinance needs to be updated to coincide with the State. This will allow homeowners in flood zones to obtain homeowner's insurance at a discounted rate.

Councilor Jolly questioned if Section 27-409, manufactured homes should be included. City Manager Jarboe responded "yes" if for some reason the Land Use Code was

changed.

Consensus: **FORWARD TO THE NOVEMBER REGULAR MEETING FOR FIRST READ.**

Garbage / Trash ORDINANCE NO. 2012-XX, GARBAGE, TRASH AND INDUSTRIAL WASTE: AN ORDINANCE AMENDING CHAPTER 11 GARBAGE TRASH AND INDUSTRIAL WASTE ARTICLE I IN GENERAL AND ARTICLE II GARBAGE AND TRASH OF THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette suggested placing this on the November workshop for further discussion before going to first read.

Vice Mayor Tucker voiced concern about enforcement and educating residents about Section 11-26(c) which requires that containers cannot be placed for collection more than twelve (12) hours prior to the assigned day of collection.

Councilor Jolly questioned in lieu of twelve (12) hours should there be a specific time of day for example after 6:00 p.m.

City Attorney Krechowski understood the concerns regarding Section 11-26(c) but there needs to be a reasonable time. He was open to suggestions.

Councilor Jolly recommended striking out "except upon the written approval of the city manager" and inserting "unless in a garbage container." City Attorney Krechowski advised that would not prevent someone from filling up their garage with garbage.

Councilor Jolly suggested adding tree limbs and palm fronds in Section 11-84.

Councilor Arthur questioned if Section 11-26(c) would allow people to place garbage in a plastic bag out for collection instead of it being in a container.

City Attorney Krechowski stated there is an option for a secured plastic bag as long as it is placed out no earlier than 6:00 a.m. on the assigned day of collection.

Councilor Arthur stated garbage containers are defined but plastic bags are not defined. He opposed allowing plastic bags because animals could get into them and they are unsightly and smelly.

Councilor Arthur was concerned there was no definition for the recycling placement.

Councilor Wiley felt small families that did not generate much trash should be allowed to place a bag for collection. He did not see an issue with storing garbage in a garage as long as it was in a container with a lid.

City Attorney Krechowski agreed "storage of garbage in garages" would be better placed in the nuisance ordinance.

Councilor Wiley disagreed with Section 11-12, mandatory commercial recycling. He felt it should be encouraged but not mandatory.

City Manager Jarboe explained the reason he wanted it mandatory was to save the city money in garbage tipping fees.

Mayor Pruette felt residents on "side corner lots" should be required to keep their trash containers in the back of the house except when put out for collection so that trash cannot be seen from the street.

Mayor Pruette suggested enforcing this by using the noise ordinance approach of a warning for the first violation and a fine if it continues rather than spending money on code enforcement letters.

Councilor Arthur felt allowing trash to be collected in plastic bags was not the direction to go aesthetically.

Vice Mayor Tucker supported allowing bags.

Councilor Jolly supported giving residents the option to use bag or a can for trash. He added if bags did not work and it became a problem, the ordinance could be amended.

Councilor Wiley also supported giving residents the option to choose between bags or containers.

City Attorney Krechowski asked if Council would like for him to add enforcement procedures to the ordinance. Mayor Pruette replied she would like the enforcement to be made friendly.

City Manager Jarboe advised the City did not have the staff required to enforce the ordinance.

City Attorney Krechowski advised if the City was going to enact enforcement it would need to be directed toward the property owner. City Manager Jarboe agreed that would be the only way to effectively enforce the ordinance.

City Attorney Krechowski asked for a specific time period for placement of trash for collection. City Manager Jarboe replied the City of Jacksonville allows trash to be placed out after 6:00 a.m. on the day of collection.

Consensus: **TO ALLOW TRASH TO BE PLACED FOR PICK UP IN BAGS.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Town Center Parking

PARKING AGREEMENT: City Manager Jarboe explained the revocable lease agreement between the City and Southcoast Partnership was created in 1991 when Town Center was beginning to enhance the development and more parking was needed. Since then the City has developed parking in different areas on the city rights - of-way. If the lease with Southcoast is revoked, at the end of 90 days, the back parking lot across from the Public Safety building would lose 7 or 8 parking spaces. The City would then gain 15 on the other side. That would be a net gain of 7 parking spaces. With the proposed agreement with Rad Lovett, he would pay for the cost of materials to enhance the new parking spaces. Without the agreement, the new spaces would look like the ones the City recently created across from the Public Safety building on Second Street. He questioned however, if Mr. Lovett or someone else would be paying for the materials.

City Attorney Krechowski stated the agreement he has drafted for Council to consider addresses all parties concerns. Mr. Lovett would not agree to any other conditions. He felt the way the agreement is drafted it would not expose the City to future litigation.

Mayor Pruette questioned if Mr. Krechowski felt the city property would be protected. Mr. Krechowski replied the City is not abandoning the property and he made that very clear to Mr. Lovett.

Vice Mayor Tucker expressed concern about opening up the City for litigation. She felt paragraphs 7 and 8 should clarify exactly who would be paying for the materials.

City Attorney Krechowski advised Southcoast Partnership would be required to provide documentation of what they paid for the materials.

Vice Mayor Tucker wanted to ensure the new spaces would be for public use. City Attorney Krechowski replied it does allow for public parking.

Mayor Pruette suggested placing signs that the spaces were for public parking.

Vice Mayor Tucker stated she wanted to ensure the agreement that the City will continue to work with the Town Center Agency and Rad Lovett.

Councilor Jolly asked if this was the final draft. City Attorney Krechowski replied if the Council made substantial changes Mr. Lovett would need to be consulted.

Councilor Jolly felt the agreement should include a clause that if Mr. Lovett decided not to use the right-of-way for parking then the agreement is terminated. City Attorney Krechowski explained Mr. Lovett could not use the right-of-way for anything other than parking. Mr. Lovett has no rights to the property other than what is in the agreement.

Councilor Jolly questioned who would provide the signage. City Attorney Krechowski replied it would be better if the City provided the signage. City Manager Jarboe stated it would be easier if the City installed the signage.

Councilor Wiley stated he did not support the agreement the way it is currently written. He was concerned about the amount the term of 10 years. He felt it would be better if the City was able to take back the property if necessary.

Councilor Arthur felt the agreement was one-sided, as an offer of what Mr. Lovett is willing to do. It does not define the type of materials that would be used to create the parking spaces or the cost of the materials. City Attorney Krechowski responded the design would have to be approved by the Council.

Councilor Arthur felt the risk was too great for what the City would be gaining in return and it would be unwise to negotiate an agreement without all the facts. He would like to revoke the lease and make it simple by allowing them to put signs on their property and the City to put signs on our property.

City Attorney Krechowski advised the City was not giving away any land in this agreement. There would be no transfer of interest of the property in the agreement.

Councilor Arthur stated the City has leases with other businesses for sidewalk use and the City is being compensated for the use.

Mayor Pruette stated the parking issue is really a private matter between two of the biggest property owners in Town Center, Ed Jones and Rad Lovett. She explained Ed Jones owns the parking lot that we are discussing on Second Street and Lemon Street and he leases to Rad Lovett for a profit. The parking signs are what caused the issue.

She suggested that Ed Jones negotiate something with Rad Lovett regarding their parking agreement, like lowering the monthly lease amount and sharing the parking lot. This would give 200 First Street businesses more parking since they only have 10-13 right now.

Mayor Pruette also brought up the issue of garbage dumpsters on city easements. If the dumpsters were not on the easements the City would be able to put in motorcycle parking spaces.

Consensus: **FORWARD TO THE FOLLOWING MEETING FOR A VOTE.**

Ed Jones, 200 First Street, stated 200 First Street had a total of 18 parking spaces. He supported the agreement between the City and Mr. Lovett.

Compensation for
Damages

DETERMINATION OF COMPENSATION FOR DAMAGED CELL PHONES AND SUNGLASSES LEFT ON THE BEACH: City Manager Jarboe explained two cell phones and a pair of sunglasses were damaged on the beach on June 20, 2012. The property owners contacted the City and the City filed a claim with the Florida League of Cities on July 2, 2012. On August 24, 2012, the Florida League of Cities sent out a 50% settlement offer letter to the claimants. The claimants rejected the 50% settlement and it is up to Council to go beyond the settlement offer.

Councilor Wiley questioned if the Council normally settle claims that were turned down by the insurance company. City Manager Jarboe replied he did not think this has happened in the past. The claimants are basically asking the City to pay for the damages for the cell phones and sunglasses.

Councilor Arthur asked who determined the \$800 value of the items. He felt the 50% settlement offer from the insurance company was reasonable and fair. He did not want to set a precedent for the City Council to override the insurance company and initiate payments outside of what the insurance company offers.

Dr. John Von Tron, 1012 Oceanfront, felt the insurance company should be responsible for 100% of the value because their reasoning was incorrect. He asked the City to contact the insurance adjusters and explain they have denied the claim for incorrect reasons.

Steve Price, 233 Tallwood Road, Jax Beach, felt the kids should not be held responsible for the lifeguards running over their property. He also felt the insurance company had no clue as to what happened and they should be responsible.

Public Safety Director Sembach explained the property was left in a rut in the soft sand during a full moon high tide. The tide was almost up to the dunes and just wide enough for a truck to get through. He felt the kids made a mistake and the 50% settlement offer was more than generous. The Lifeguard Captain, the Lifeguard Lieutenant and a Lifeguard on duty were present in the audience if anyone had any questions.

Vice Mayor Tucker agreed the City should not set a precedent for future insurance settlements. Insurance settlements should be left up to the insurance company to determine.

Councilor Jolly agreed the City should not set a precedent.

Mayor Pruette stated people leave their personal items on the beach and go into the water and often forget the tide is getting higher. She was concerned that the insurance company reported they should have placed their items in the sand dunes because it is

unlawful to disturb the sand dunes. She felt it was an accident and asked the City Manager Jarboe write a letter to the Florida League of Cities Insurance requesting them to reconsider the settlement offer.

Consensus: **LET CITY MANAGER JARBOE AND INSURANCE COMPANY HANDLE IT.**

COUNCIL COMMENTS / NONE

Adjournment

There being no further business, the meeting adjourned at 8:10 p.m.

Attest:

Harriet Pruetten, Mayor

Lisa Volpe, CMC, City Clerk

Director of Finance Steve Ramsey

Order Call

Mayor Pruette called the special meeting to order at 8:10 p.m.

**Parking
Agreement**

TOWN CENTER PARKING AGREEMENT: City Manager Jarboe stated if a motion was not made it stays status quote.

Councilor Wiley felt Council owed it to Rad Lovett to make a vote on the amendment.

Moved by Wiley, seconded by Arthur

Motion: **THAT THE AMENDMENT TO THE 1991 REVOKABLE LICENSE PARKING THIS DRAFT NOT BE ACCEPTED AS WRITTEN.**

Mayor Pruette stated the consensus was that we stay status quo, in this motion are we getting rid of the 1991 revocable lease agreement.

City Clerk Volpe reminded the council that a "Yes" vote would deny the amendment.

City Manager Jarboe explained this would mean the proposed agreement is not being approved by the Council at this time.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette
Noes: 0

MOTION CARRIED

COUNCIL COMMENTS

Mayor Pruette questioned if the City would be moving forward adding parking spaces in Town Center.

City Manager Jarboe explained the cost is time and labor. The materials we would use would be a couple of hundred dollars at most. I don't think we should do that until we get something settled.

City Manager Jarboe explained the vegetation would be removed.

Councilor Arthur take a further look and little more time more thought into it to make it look nice.

Consensus: **TO WAIT UNTIL MORE INFORMATION IS GATHERED.**

Adjournment

There being no further business, the meeting adjourned at 8:15 p.m.

COMMUNICATIONS & CORRESPONDENCE / NONE

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The taxable value of properties in Neptune Beach has been reduced by 1.23%. He has the authority to increase the millage rate, because the amount is over 1%, but he has elected not to do so unless otherwise advised by the Council.
- The contractor for Denny's is supposed to begin construction next Wednesday and says the construction will be completed by Thanksgiving.
- He cautioned citizens to lock their vehicle doors because there have been a number of vehicles burglaries recently
- The results of the Bal Harbour drainage study will be reported to Council in approximately three weeks.

COMMENTS FROM THE PUBLIC

Mayor Pruette opened the public hearing.

Ed Jones, 200 First Street, supported revoking the lease agreement for the use of the public right-of-way for parking and rewriting the agreement to add that the public is allowed to use the parking.

There being no further comments from the public, the public hearing was closed.

CONSENT AGENDA / NONE**VARIANCES / NONE****ORDINANCES / NONE****OLD BUSINESS / NONE****NEW BUSINESS**

Full Time City
Engineer

APPROVAL OF A FULL TIME ENGINEER POSITION: City Manager Jarboe explained the City would save money by hiring a full-time engineer for the Bal Harbour project. The annual salary would not come from the general fund it would come out of the water and sewer fund.

Moved by Jolly, seconded by Arthur

Motion: **APPROVAL TO HIRE A FULL TIME ENGINEER.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

MOTION CARRIED

Res. No. 2012-05

RESOLUTION NO. 2012-05: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA REVOKING THE LEASE AGREEMENT FOR THE USE OF THE PUBLIC RIGHT-OF-WAY FOR PRIVATE PARKING.

City Attorney Krechowski asked Council to table this item until the October workshop meeting when he would be able to provide a detailed draft agreement.

Consensus: **TO FORWARD THE REVOKABLE PARKING LEASE AGREEMENT TO THE OCTOBER WORKSHOP MEETING.**

City Manager Jarboe suggested holding a special meeting after the October workshop to finalize the parking situation.

Consensus: **TO HOLD A SPECIAL MEETING AFTER THE OCTOBER WORKSHOP MEETING TO VOTE ON THE PARKING AGREEMENT.**

CDB12-04
1455 Atlantic
Blvd.

CBD12-04 / SPECIAL EXCEPTION FOR OUTDOOR SEATING / 1455 ATLANTIC BOULEVARD: Mr. Wadie Bakkar, owner of the property at 1455 Atlantic Boulevard, submitted an application for a special exception for outdoor seating. The seating will be on private property in the parking lot in front of the restaurant formerly known as Hala's. Two parking spaces and a landscaped area will be converted into a covered outdoor seating area. The Community Development Board and staff have recommended approval.

Moved by Tucker, seconded by Jolly

COUNCIL COMMENTS

Mayor Pruette felt Council may want to consider employee parking when looking at parking requirements for the Central Business District. She suggested bringing this to a workshop meeting.

City Attorney Krechowski stated he was working on the proposed garbage ordinance and welcomed any suggestions or recommendations from Council before the October workshop meeting.

Councilor Wiley stated businesses in the Central Business District currently received a 50% reduction in parking requirements based on the current Code. He agreed the parking requirements in the Central Business District needed to be reconsidered in the near future.

Adjournment There being no further business, the meeting adjourned at 6:45 p.m.

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Richard Arthur
Councilor John Jolly
Councilor Scott Wiley
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach
Director of Finance Steve Ramsey

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:05 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Public Services is waiting on parts needed to complete the installation of the solar panel system at City Hall. Once the installation is complete a ribbon cutting ceremony will be planned.
- Public Services is working to improve the drainage in Bal Harbour. They have replaced a major sewer line and three manholes. Engineers are reviewing improvement options using a computer model that simulates problems and gives options for corrections. They plan to review these options with Council at a future workshop meeting.

Councilor Jolly stated Chapter 18 dealing with Right-of-ways was still on the City Manager's Action List. He questioned if Council was still interested in pursuing the issue. City Manager Jarboe explained the issue dealt with the MS-4 stormwater permit.

Consensus: **TO REMOVE THIS ITEM FROM THE CITY MANAGER ACTION LIST.**

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES

Chapter 11,
Garbage

CHAPTER 11, GARBAGE, TRASH AND INDUSTRIAL WASTE: Mayor Pruette stated the current garbage ordinance was adopted in 1958 and she felt it needed to be updated.

City Manager Jarboe explained the proposed ordinance before Council was drafted by City Attorney Krechowski. He mentioned it is mandatory for commercial businesses to recycle because it reduces the volume of garbage collection and there is less waste entering the landfill. They are free to choose the vendor of their choice.

Mayor Pruette stated a new development in Town Center will be using a compactable trash container. She felt this should be encouraged throughout Town Center.

City Attorney Krechowski explained the proposed ordinance before Council is only a draft. He welcomed any comments or suggestions from Council.

Vice Mayor Tucker agreed the garbage ordinance needed to be updated. She felt it should be left up to the individual if they preferred to use lids on their trash containers.

Councilor Jolly felt Section 11-45 needed to be removed because it did not allow storage of garbage in garages.

Councilor Jolly felt Section 11-107 relating to handicapped services and assistance should include trash containers as well as recycling materials. City Manager Jarboe agreed it should be added in the ordinance. He suggested also adding a notification requirement.

Councilor Jolly questioned how the ordinance would be enforced. Mayor Pruette suggested bringing the enforcement issue back after discussion.

Councilor Wiley was concerned about trash containers being left out after pickup.

Councilor Wiley questioned if Section 11-43, requiring containers to be kept tightly covered at all times except while depositing garbage, should be included or removed.

Councilor Wiley questioned if the city should be able to condemn a container if it is in bad shape.

Councilor Wiley questioned if the 10% franchise fee in Section 11-67 was a fixed amount. City Manager Jarboe replied the 10% franchise fee is a condition included in the trash pickup contract.

Councilor Wiley questioned how the City would enforce Section 11-84, relating to yard debris being blown or left in the street.

Councilor Wiley suggested changing Section 11-112, to "voluntary" commercial recycling for businesses in Section 11-112 in lieu of "mandatory." He opposed placing mandatory conditions on commercial businesses.

Councilor Arthur felt the City needed to maintain a reactive approach to enforcing this ordinance. He agreed the language in the ordinance needed to be updated.

Councilor Arthur felt "one-half the depth of the premises from such street" needed to be clarified in Section 11-44.

Councilor Arthur stated Section 11-84, requiring tree limbs not to exceed 3 feet in length, should be consistent with the service provider.

Councilor Arthur questioned if there should be a defined location for recycling pickup. City Manager Jarboe responded "yes."

Councilor Arthur felt the requirement for lids on trash containers should be removed.

Mayor Pruette voiced concern about trash can lids ending up in streets and driveways.

Mayor Pruette suggested adding a requirement with reasonable times to place trash out for pickup and when they should be put away so that trash or containers did not remain in the city right-of-way for days at a time.

Mayor Pruette felt "abode" in Section 11-28 needed to be defined.

Mayor Pruette stated that in Section 11-84 requires that all yard debris except trees and tree limbs shall be bagged and in other sections it says you cannot use bags. She felt this should be consistent throughout. She added that Florida Statutes require that all trash be bagged.

Mayor Pruette stated some citizens would like to be able to have their trash picked up in bags instead of containers and she would like for Council to discuss that option. City Manager Jarboe replied he would be concerned about placing bags of trash out in the streets because west of Third Street there are possums and raccoons and east of Third Street there are squirrels and rats that may tear open bags open.

Councilor Jolly was concerned that yard waste may be placed for pick up within 7 days. He felt the number of days should be less. City Manager Jarboe replied it takes 7 days to make it workable.

Mayor Pruette suggested garbage containers be tightly covered at all times except while depositing or disposing of garbage. She removes her lids before taking the containers out for pickup so that they do not get blown around and ran over in the streets.

City Attorney Krechowski stated he needed direction from the Council as to if the City wanted to require lids on containers or allow trash pickup to be placed in bags.

Consensus: **FORWARD TO THE OCTOBER WORKSHOP MEETING.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Full Time
Engineer

HIRING OF A FULL TIME ENGINEER: City Manager Jarboe explained we currently have a part time engineer on staff working 30 hours per week. He estimates it will save \$500,000 over the next five years to have our own engineer instead of having to hire an outside firm to design the Bal Harbour project.

Councilor Arthur agreed with the recommendation.

Mayor Pruette also agreed with the recommendation.

Councilor Wiley stated the Bal Harbour project was going to be expensive. He was convinced that the City needed a full time engineer. He wanted to do a comparison and look at other options.

Councilor Jolly questioned what percentage of the cost of a full time engineer would be capitalized. Finance Director Ramsey replied 50% would be capitalized. The money would not be coming out of the general fund. It would come out of the water and sewer fund.

Vice Mayor Tucker agreed with Councilor Wiley. She asked how long the City has had a part time engineer. City Manager Jarboe replied two or three years.

Vice Mayor Tucker voiced concern about the tight budget. City Manager Jarboe stated the money is there because it was included in the study conducted by Burton & Associates. It would cost the City more money if we have to hire an outside firm.

Consensus: **FORWARD TO THE OCTOBER REGULAR COUNCIL MEETING FOR A VOTE.**

Public Parking

ADDITIONAL PUBLIC PARKING / SECOND STREET AND LEMON STREET: City Manager Jarboe stated he met with City Attorney Krechowski and Rad Lovett, representative for Southcoast Capital Partnership, regarding options for additional parking spaces at Second Street and Lemon Street. At the meeting, Mr. Lovett advised he would agree to add "City Hall" parking to the existing parking lot signage. He would allow all Town Center visitors to park in the lots on Mondays, Tuesdays, and Wednesdays until 5:00 p.m., but not employees of those businesses. He would agree to provide the materials for the additional public parking on Second Street and Lemon Street, but he would need some guarantee it would be worth his effort.

City Attorney Krechowski suggested a ten year guarantee because that is what is left of the existing lease agreement. Also, if for any reason the City wanted to get out of the lease agreement there would need to be an "out clause" in the agreement. The "out clause" would need to provide a prorated amount of consideration to reimburse Mr. Lovett for a portion of the materials.

Vice Mayor Tucker stated she agreed with the conditions however, she would prefer that the parking signs be removed completely.

Councilor Jolly questioned how many new parking spaces this would provide for the City. City Manager Jarboe replied it would provide approximately 15 additional spaces. The City would provide the labor and Mr. Lovett would provide the materials.

Councilor Jolly voiced concern that the City was not receiving any type of compensation for leasing the property to Mr. Lovett while other businesses leasing rights-of-way for outdoor seating and dining have agreements that compensate the City for the use of the property. He would like for Mr. Lovett to pay a minimal amount of compensation to the City. City Manager Jarboe stated the property belongs to Ed Jones.

Councilor Jolly added that for his support Mr. Lovett would have to add "City Hall" parking to the existing signage. He suggested Mr. Lovett extend the daily parking allowance to Thursday and Fridays also, if it did not affect his tenants businesses on Monday, Tuesday and Wednesdays.

Councilor Arthur questioned if the City revoked the lease agreement if Mr. Lovett would lose any of his current spaces. City Manager Jarboe replied he would not lose any spaces. He would also still be within his parking requirements.

Councilor Arthur would prefer the signage to read "public parking" in lieu of "City Hall parking" otherwise he felt it would be confusing to the public. He would also like for him to open the lots to the public during the day each day. City Attorney Krechowski stated Mr. Lovett was not willing to open the lots to the public during daytime hours each day.

Councilor Arthur suggested taking into consideration the landscaping and making the parking lots attractive. Mayor Pruette suggested removing the tall shrubbery and planting trees.

City Manager Jarboe stated Mr. Lovett was going to open the parking on a trial basis during the day on Mondays, Tuesdays, and Wednesdays to see how it works. He may be willing to extend the days depending on how well it works out. City Attorney Krechowski added that Mr. Lovett made it abundantly clear that he would not accept that as a condition.

Councilor Wiley wished Mr. Lovett would reconsider the parking signage. City Manager Jarboe replied Mr. Lovett was not willing to reconsider the signs. He added that the signs have been there for 20 years, the current ones are just larger than the old ones.

Councilor Wiley stated he was not in favor of a ten year lease agreement without an escape clause. He would like to see a diagram of how many parking spaces the City would be gaining. He felt an additional 15 spaces was not going to solve the parking problem the City if facing in Town Center.

Mayor Pruette felt 15 more parking spaces were better than none and any additional spaces would be advantageous. Mr. Lovett is willing to spend \$30,000 for the materials and she felt it would be an advantage to the City.

City Attorney Krechowski explained the City could revoke the current lease agreement and take back the property. The new proposal would be for a term of 10 years and include an escape clause for the City. The escape clause would allow some type of prorated consideration to Mr. Lovett for expenses of the materials. Mr. Lovett seemed agreeable to that arrangement.

City Attorney Krechowski stated he would present Council a draft agreement with the terms discussed for the October regular meeting.

Councilor Jolly suggested having the Resolution to revoke the agreement also on the agenda in case an agreement could not be reached.

Consensus: **TO HAVE THE CITY ATTORNEY DRAFT AN AGREEMENT AND FORWARD TO THE OCTOBER REGULAR MEETING.**

PUBLIC COMMENTS

David Baker, 1102 First Street, felt citizens should be able to use garbage bags for trash pickup. He also suggested the City consider sharing the cost of an engineer with the cities of Atlantic Beach and Jacksonville Beach.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The engineering firm is set to begin conducting a study on the Bal Harbour drainage issue. If it is finished in time he will present it to Council at the October workshop.
- The City has applied for several floodplain grants and reimbursement from FEMA for damages caused by the tropical storm.

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES / NONE

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Town Center
Parking

TOWN CENTER PARKING: Mayor Pruette stated the Council should consider the following three options: 1) working in partnership with Southcoast Capital Partnership to implement additional parking, 2) installing additional parking along Lemon and Second without the help from Southcoast Capital Partnership, or 3) not create any additional parking. She recommended City Manager Jarboe and City Attorney Krechowski meet with Southcoast Capital and report back to Council with a plan for Council to consider. She felt it was advantageous to create as much public parking as possible. She asked City Attorney Krechowski for a legal opinion regarding the "parking signs" in the parking lots owned by Southcoast Capital Partnership.

City Attorney Krechowski advised nothing has been brought to his attention to indicate the signs are not allowable as permitted by the City.

City Manager Jarboe stated the signs are legal.

Vice Mayor Tucker agreed with Mayor Pruette's recommendation.

Councilor Jolly agreed with Mayor Pruette's recommendation. He had issues with the City leasing property without being compensated. He felt there should be some monetary benefit to the City.

Councilor Arthur felt the City should look into escrowing funds to create the additional parking without help from Southcoast Capital. He suggested perhaps partnering with Town Center to raise the funds. He asked that the plan presented for Council consideration include a timeline for the actions of each side.

City Manager Jarboe stated he would present a plan at the October workshop meeting.

Councilor Wiley felt the parking signs were unfriendly. He agreed it was a good idea for the City Attorney and City Manager to meet with Rad Lovett, owner of Southcoast Capital. He suggested if the City decided to lease the property to Southcoast that there is some compensation for the City. He also would like to include in the agreement a clause that would allow the City to take the property back.

City Manager Jarboe stated, if the City revoked the lease, the parking would not look as nice. However, the appearance could improve when the City had more money.

Consensus: **FOR THE CITY MANAGER AND CITY ATTORNEY TO MEET WITH RAD LOVETT, OWNER OF SOUTHCOAST CAPITAL AND REPORT BACK TO THE COUNCIL FOR CONSIDERATION.**

Hickory Marsh
Replat

HICKORY MARSH REPLAT: Mayor Pruette explained the Replat involves combining 1315 Hickory Marsh Lane and 1325 Hickory Marsh Lane into one lot. The property owners are Thomas and Tanya Anderson and the contractor is Eric Henderson.

City Manager Jarboe explained the homeowners would like to combine their two lots. Originally they wanted to install a swimming pool on the second lot, but swimming pools are not allowed on a lot without a structure. They have built a structure on the lot and they now want to combine the two lots with a breezeway. The city attorney has reviewed the notes and is comfortable with it.

City Attorney Krechowski stated he reviewed the language in the general notes and cleaned it up so the perpetual easements are protected.

Mayor Pruette asked if the lot would ever be able to be subdivided once they are

combined. City Manager Jarboe replied "yes" with the approval of the Council.

Consensus: **FORWARD TO THE REGULAR MEETING FOR APPROVAL.**

Director of Finance Steve Ramsey

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m. and asked Councilor Wiley to lead the Pledge of Allegiance.

Ord. No. 2012-08

ORDINANCE NO. 2012-08, ADOPTING THE FINAL MILLAGE RATES, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2012, AND ENDING SEPTEMBER 30, 2013; SETTING FORTH CERTAIN INFORMATION REGARDING "ROLLED-BACK-RATES"; DIRECTING THE CITY MANAGER TO ADJUST THE ADOPTED MILLAGE RATES IN THE EVENT OF CHANGES IN THE ASSESSMENT ROLL AND TAXABLE VALUE; PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the "Roll Back Rate" is less than 1% increase and provides the same amount of revenue as last year.

Mayor Pruette read the Truth in Millage: This is the millage public hearing for the City of Neptune Beach, Florida. The roll-back-rate for the City of Neptune Beach is 3.3759 mills. The millage rate to be adopted is 3.3759 mills, which is a zero point zero increase over the roll-back-rate.

Mayor Pruette opened the public hearing. There being no comments from the public, the public hearing was closed.

Councilor Wiley stated he met with City Manager Jarboe and Finance Director Ramsey and viewed the proposed budget line item by line item. The millage rate that we are currently operating on is 3.3443. The roll-back-rate is 3.3759, which is .0316 mills and generates \$20,350. The total property assessments dropped by 5% or close to \$33,000,000. The

Jacksonville Beach Electric Franchise projects an 11% decrease in revenue. The Telecommunication Tax is also down 11%. The employee health insurance increased 32% to 37%. He looked over every angle and felt the proposed budget was extremely tight.

Councilor Jolly stated next year would be even more difficult due to 12 proposed constitutional amendments. Five of the amendments would add more homestead exemptions, making the property assessments less next year than they are this year.

Councilor Wiley stated the constitutional amendments are going to be very crucial to some municipalities.

Moved by Jolly, seconded by Tucker

Motion: **TO PASS ORDINANCE NO. 2012-08 ON FIRST READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Tucker, Wiley, Pruette

**Minutes
Budget Meeting
Mayor Pruette and Councilor Wiley
Thursday, August 23, 2012 at 8:00 a.m.**

Pursuant to proper notice the meeting came to order at 8:00 a.m.

In attendance were: Mayor Harriet Pruette, Councilor Scott Wiley, City Manager Jim Jarboe, Director of Finance Steve Ramsey, and Deputy City Clerk Karla Strait, CMC.

Mayor Pruette stated she had never called a meeting one on one with another Council member nor did she intend to do it again. But because Councilor Wiley was new and had been in Neptune Beach for a long time she wanted to bring him up to date on infrastructure, paving, water and sewer lines and Bal Harbour problems. She explained how new paving had taken place east of Third Street in 2004 and also new water and lines.

She also wanted to discuss the Reserve Funds. She felt it would be fiscally irresponsible to take money from the Reserves. The Reserves were mandatory for the City's credit rating and the City would need to borrow money to fix the drainage and sewage problem in the Bal Harbour neighborhood. She mentioned funding for the Senior Center was never intended to come from City funds but without grant money the City Manager has found a way to fund it.

Mayor Pruette asked Councilor Wiley if he had taken the "Republican Anti Tax Pledge" which was a pledge to "not raise taxes under any circumstances." Councilor Wiley responded he had not taken such a pledge.

Councilor Wiley felt \$20,340 was a small amount for a 4.2 million budget. He questioned if the \$20,340 could be cut from the budget somewhere without having to raise taxes.

City Manager Jarboe stated it is not a tax increase, it is a rate increase. The Budget has been cut to the bones. The only place to take the \$20,340, without reducing staff, is from the Reserves. Reducing staff would be difficult because of "bumping" rights. He stated we could make a full time position a part time position. All travel has been eliminated except for in the case of certifications. All memberships have been cut. He did not want to cut First Call. Mayor Pruette added she had cut her subscriptions for the Florida League of Mayors and redesigned the Council stationary.

Director of Finance Ramsey stated property tax makes up about 50% of the Budget. If the City goes with the “roll back rate” this year we would receive the same revenue as last year.

Councilor Wiley felt it would not be fiscally irresponsible to take the money from Reserves. There was enough money in reserves. He questioned if you have enough money in Reserves, do you continue to put money in the Reserves. Mayor Pruette stated incoming revenue would not be any better next year or the next several years. She did not want to start using money from the Reserves because she felt it would set a precedent for the following years.

City Manager Jarboe stated the State recommends 25% of the operating budget be placed in Reserves in case of emergencies.

Director of Finance Ramsey stated it was a Council decision whether or not to continue putting money in Reserves.

Mayor Pruette was concerned about having money in Reserves in order to borrow money for infrastructure. She would not support taking the \$20,340 from the Reserve Fund.

City Manager Jarboe stated it was possible the revenue may increase and there may be extra money at the end of the year.

Councilor Wiley stated he was not opposed to fixing the infrastructure in Bal Harbour. He was not against the Senior Center and he did not want to reduce staff.

City Manager Jarboe suggested Councilor Wiley schedule a time to meet with himself and Director of Finance Ramsey to go over the budget line item by line item to see if any more cuts could be made.

Director of Finance Ramsey stated the City has to show a strong Reserve Fund in order to obtain loans.

Councilor Wiley stated it didn’t seem likely that he would have any support to take the \$20,340 from the Reserve Fund. He agreed to meet with City Manager Jarboe and Director of Finance Ramsey the following morning at 8:30 a.m.

Meeting was adjourned at 8:38 a.m.

Consensus: **FORWARD TO THE SEPTEMBER CONSENT AGENDA.**

Town Center
Parking

TOWN CENTER PARKING / RAD LOVETT: Mr. Jarboe explained in an effort to create additional parking, the City has considered revoking the agreement with Southcoast Capital / Rad Lovett, on the right-of-way on Second Street between Lemon and Orange Streets. This would allow the City to create an additional 15 to 19 public parking spaces. At the August 6th workshop meeting, Mr. Lovett asked the city to reconsider revoking the license. He indicated he would be willing to hire an engineer to design a parking area on the right-of-way using a pervious surface material. He also agreed to provide the materials to create the additional parking spaces, if the city provided the labor and did not revoke the agreement.

Mr. Rad Lovett produced a design to add 16 new standard parking spaces and 6 new motorcycle parking spaces. He also proposed an agreement between the City of Neptune Beach and Southcoast Capital Partnership with the following responsibilities:

Southcoast Responsibilities

1. Oversee and pay for engineering required
2. Provide / raise funds to pay for site work, materials and landscape
3. Manage construction

Neptune Beach Responsibilities

1. Manager permit process
2. Provide labor for curbs and paver work
3. Maintenance of new parking area
4. Provide easement to Southcoast (approx 1,150 sq. ft.)

Councilor Arthur voiced concern that the "no parking" signs did not include City Hall parking and the City owned the six parking spaces directly behind the City Hall building. Mr. Lovett stated he could modify the signs to make it clear parking was available for City Hall.

Mr. Lovett stated he has always complied with City parking requirements without requesting variances but a majority of Town Center businesses have. It is his belief that other businesses in Town Center did not have enough parking because they were given variances for parking requirements. He has spent over 2 million dollars on parking lots, and wants to make certain his tenants customers have first use of the parking spaces.

Mr. Lovett explained if the city revoked the agreement he would lose 8 parking spaces but he would still be in compliance with the City's parking requirements. He did not have to spend \$30,000 to help create the additional parking spaces but he was trying to help the city. He added removing the "parking signs" was not an issue that was on the table.

Councilor Arthur questioned if the three new signs were negotiable. Mr. Lovett responded beach goers were using the parking lots and not visiting the establishments. His tenants have encouraged him to put up the signs. Councilor Arthur asked if all of tenants felt equally on the direction of the signs. Mr. Lovett replied almost every tenant was represented at the last meeting.

Mr. Lovett added that he was open to any suggestions. He felt the City has taken a very proactive approach in taking advantage of rights-of-way to provide parking. He applauded the City for taking the initiative to add these new spaces. He is also actively involved in working on a program that would take employee parking for his establishments to an area off site. He felt that would solve 90% of the problem.

Councilor Arthur felt the parking attendants created a hostile environment. Mr. Lovett explained the parking attendants were there to prevent having to tow vehicles, not to be hostile.

Councilor Arthur stated he understood the City had an opportunity to work together with Southcoast whereas the city provides the labor and Mr. Lovett provides the materials to create the new parking. He would like some type of amendment to the existing signage especially behind City Hall. Mr. Lovett replied he was willing to make an amendment to the signs to add the six parking spaces behind City Hall.

City Manager Jarboe stated the issue was to make a decision on whether or not the City wanted to work with Southcoast Partnership to create additional parking on Second Street.

Mayor Pruette apologized for being late and asked Vice Tucker for her thoughts on the issue.

Vice Mayor Tucker asked Mr. Lovett if he was willing to remove the parking signs. Mr. Lovett replied "no." It is his property, he paid for it and it benefited his tenants.

Vice Mayor Tucker questioned if there were any plans for landscaping the proposed additional spaces. Mr. Lovett replied it had not been discussed. He is open to suggestions and feedback.

Mayor Pruette felt the signs were intimidating 24 hours a day. Mr. Lovett was concerned if the signs are removed anyone could park in the lots whenever they wanted and that would create a problem for his tenants. He was not sure what the right balance was.

Councilor Jolly questioned if the City revokes the lease would Mr. Lovett remain in compliance with the parking requirements. City Manager Jarboe responded "yes."

Mayor Pruette felt the signs were unfriendly. She felt Neptune Beach and Atlantic Beach needed to stop allowing variances for parking in Town Center.

Mr. Lovett stated he would not accept any conditions from the City on his offer to provide the design engineering and materials for the new parking. He added he did not see any other landlords volunteering to help with expenses for additional parking in the area.

Consensus: **FORWARD TO THE SEPTEMBER WORKSHOP MEETING.**

Recess /
Reconvene

Mayor Pruette called a recess at 6:40 p.m. and opened the special meeting. The meeting reconvened at 6:44 p.m.

FY 2012/2013
Budget

FISCAL YEAR 2012 / 2013 WORKING BUDGET: City Manager Jarboe stated the budget is being presented to the Council using the "roll back rate."

Director of Finance Steve Ramsey explained the budget was put together using the "roll back rate" which would increase the millage rate by .0316%.

City Manager Jarboe stated the main increase in the budget is the employee health insurance which has increased 30%. Mr. Ramsey added he sent out "requests for proposals" for health insurance. All of the major insurance companies declined to bid.

Councilor Jolly questioned the dollar amount of the 30% health insurance increase. Mr. Ramsey replied the 30% increase amounted to almost \$70,000.

Revenues

Mr. Ramsey explained the budget shows a decline in revenue because it does not include grant money. Grants could not be included until they are received. There is also a decrease of \$10,000 in the Telecommunications Tax.

Councilor Arthur questioned if the lower banking fees were included in the budget. Mr. Ramsey replied the lower banking fees are reflected in the utility account.

Councilor Arthur asked if the lower utility rate for City Hall, due to the new solar panels, was reflected in the budget. Mr. Ramsey replied it was not included because he did not know what the amount of savings would be. City Manager Jarboe added he hoped the solar panels would save \$7,000 to \$8,000 per year.

Councilor Wiley questioned how much money the City might receive in grant money for the year. Mr. Ramsey responded we may receive \$80,000 to \$90,000. He would bring Council an amended budget in October that will reflect those incomes and expenditures. He added hopefully the City will get enough grant money to purchase two new police vehicles.

Councilor Wiley asked if we received grant money for the Senior Center. Mr. Ramsey replied that is reflected in the "Special Revenue Funds." City Manager Jarboe added the CDBG grant money for the Senior Center has decreased from \$100,000 down to about \$50,000.

Expenditures

Mr. Ramsey explained there is not a great increase in expenditures because this is the sixth year in a row of budget cuts. There is a 30% increase in the health insurance for each department.

Legal Counsel

A budget of \$1,200 was created for the Special Magistrate for code enforcement.

Non Departmental

A salary of \$9,926 is in the "non departmental" regular salaries for a part time person hired to clean City Hall and clean up around. The \$265,000 payment on the debt service for the loan to construct the new City Yard buildings is also reflected in this fund. The debt will be paid off this year. The fund also shows a transfer of \$11,858 to help fund the Senior Center.

Councilor Arthur commended staff for setting up the ten year loan for the construction of the new city services buildings and not extending it for a longer term.

Councilor Arthur questioned the 15% increase in retirement contributions. Mr. Ramsey stated the police pension fund is doing well this year.

Mayor Pruette stated she was looking for a replacement for David Linger on the Police Officers Retirement Fund Board, if anyone knew of someone that would like to be appointed.

City Manager Jarboe suggested holding a workshop meeting after the budget concerning pension reform.

Animal Control	There is a decrease in the salary for animal control due to the hiring of a new animal control officer. The savings is \$13,000 in this fund.
Public Works	Mr. Ramsey explained the \$145,000 on utilities is for streetlights and lighting in the parks. In addition to public works there are separate budgets for water, sewer, stormwater and sanitation.
Lifeguards	<p>The lifeguard budget remains the same as the prior year.</p> <p>Mr. Ramsey stated when he began working for the City there were approximately 80 employees, it is now down to 65 full time employees. Mayor Pruette asked how many part time employees worked for the City. Mr. Ramsey replied there are two regular part time employees, not including lifeguards and crossing guards, and there may be a part time dispatcher.</p> <p>The budget has decreased 5.24% since fiscal year 2006.</p>
Special Revenue Funds	<p>Special Revenue Funds are specifically designated to be spent in certain areas only.</p> <p>The Police Education Fund can only be used for police officer training. The revenue in this fund has decreased.</p> <p>The Community Development Block Grant is for the Senior Center and it has also decreased and is expected to continue to decrease.</p> <p>The Convention Development Tax Fund money comes from the two hotels in the City. This money can be used for lifeguard equipment and playground equipment. We plan to use this money for new playground equipment. Two pieces of playground equipment would cost approximately \$35,000.</p> <p>The Local Option Gas Tax can only be used to repair streets, sidewalks and drainage. This fund has decreased 4%.</p> <p>The Radio Community Fund is decreased because ticket revenue is low. This money can be used for supplies.</p> <p>The Better Jacksonville Fund can be used for capital improvements.</p> <p>Mayor Pruette asked Mr. Ramsey to explain what Town Center expenditures. Mr. Ramsey explained those expenditures are for maintenance, electricity, flowers and tree trimming. This cost is shared with Atlantic Beach.</p> <p>Councilor Jolly questioned asked where the money we receive for maintenance of the overpass by the Florida Department of Transportation was located in the budget. Mr. Ramsey replied that was in the General Fund. The amount is \$27,012 which also includes \$4,000 for reimbursement for streetlights.</p> <p>The Water and Sewer Fund shows a slight increase in electricity for the new sewer plant because the new system uses more power to operate.</p> <p>Mr. Ramsey stated there is \$440,000 in the reserve fund, which is what is required by the bond holders.</p>

Councilor Jolly questioned if there was money for engineering for the Bal Harbour neighborhood drainage issue. Mr. Ramsey replied there is \$118,500 in the budget under "other contractual services."

Sanitation Fund The Sanitation Fund has a 30% increase in health insurance.

City Manager Jarboe stated the City just completed a major project upgrading the sewer plant. The interest rate on one of the loans was under 2% and the other was in the low 3%.

Mayor Pruette stated she reviewed the audit from 2011 and quoted "the overall financial position of the City of Neptune Beach had improved by 28%." This proves the City has been financially responsible under adverse times.

Stormwater Utility Fund The Stormwater Utility Fund shows a 30% increase in health insurance.

Police Retirement Fund The Police Retirement Fund shows a 15% increase in the City's contributions.

Capital Requests

Capital Requests Public Services Director Leon Smith requested the following and explained the uses of the equipment:

Wastewater	<u>Capital Request</u>	<u>Allocation Percentage</u>	<u>Cost</u>
	RTU – (SCADA) for 2 Lift Stations	100%	12,000
	New Conveyor for Belt Press	100%	8,500

Council Comments

Council Comments

Mayor Pruette explained she was informed months ago by City Manager Jarboe that this year the City may have to lay off employees or raise taxes to balance the budget. She was very pleased with the budget presented.

City Manager Jarboe explained the original quote for health insurance was for a 37 ½ percent. We were able to reduce it to 30% by requesting proposals.

Mayor Pruette stated the first read on the tentative millage rate will be Monday, September 10, 2012.

City Manager Jarboe explained the proposed millage rate is not what the budget is based on. The budget is based on the "roll back rate."

Councilor Wiley stated the proposed budget was calculated using the "roll back rate" which raises the current millage rate. The millage rate increase would cover the

\$20,340 shortage. He recommended finding a way to cut the \$20,340 from the budget or taking the difference from the Reserve Funds without raising the millage rate.

Mayor Pruette felt it would be fiscally irresponsible to take the money from the reserves. She would be open to finding a way to cut the \$20,340. The reserves were not an option, they are mandatory for the City's credit rating in order to borrow money.

Mayor Pruette felt top priority should be focused on the Bal Harbour drainage and sewer issue because raw sewage was backing up from the manholes.

Councilor Wiley stated taking \$20,340 from the reserves would not rob the fund. It would be a temporary move to keep the current millage rate. He felt we could find \$20,340 in budget cuts.

Councilor Arthur agreed with Mayor Pruette. He opposed taking the money from the reserves. He added that the increase only amounted to \$2.60 per month on \$100,000 taxable value. There may be some small places to cut the budget but he would like to see specifics.

Councilor Jolly stated the budget is tight. The \$70,000 increase in health insurance and the \$40,000 increase in pension contributions put a tight squeeze on the budget. With the proposed "roll back rate" the median household would be required to pay an additional \$4.31 per year.

Mayor Pruette welcomed Councilor Wiley to the Council.

Councilor Wiley thanked Council for appointing him and stated he is looking forward to working with the Council.

Vice Mayor Tucker welcomed Councilor Wiley and thanked staff for working with the Council on the budget.

City Manager Jarboe stated he would meet with any Council member one on one to further discuss and review the budget if anyone was interested.

Director of Public Safety David Sembach
Director of Finance Steve Ramsey

Order Call

Mayor Pruette called the special meeting to order at 6:40 p.m.

**Resignation &
Replacement
Councilor Pardee**

RESIGNATION OF COUNCILOR PARDEE: Mayor Pruette asked Councilor Elect Scott Wiley if he was prepared to fill the remaining term of Councilor Eric Pardee. Mr. Wiley responded "yes."

City Attorney Krechowski stated for the record: "It was his understanding of the Charter and the law that whenever someone is appointed to fill the remainder of a term they will be an appointee for the remaining duration of that term only. If you appoint Mr. Wiley he would be completing Mr. Pardee's term as an appointee and would need to be sworn in as such. In December he would need to be sworn in as a Council member, at which time his appointment to complete Mr. Pardee's term would end, and his term would be begin as an elected official, according to the City Code and Charter."

Moved by Tucker, seconded by Jolly.

Motion: **TO APPOINT COUNCILOR ELECT SCOTT WILEY TO COMPLETE THE REMAINDER OF ERIC PARDEE'S TERM.**

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette
Noes: 0

MOTION CARRIED

City Clerk Lisa Volpe administered the Oath of Office to Scott Wiley, whereupon, he respectively, assumed the duties of their elected office.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette stated City Manager Jarboe has scheduled three budget workshop meetings. Vice Mayor Tucker asked City Manager Jarboe to confirm the meeting dates. City Manager Jarboe confirmed the meeting dates as follows: August 20th, September 10th, and September 24th.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

Barricades had to be placed on First Street over the weekend due to flooding caused by heavy rains.

There were no reports of homes flooded or sewer backups during the heavy rains.

He is working with FEMA for reimbursement for water and sewer damages caused by Tropical Storm Debby.

The Public Service staff is still working on the completion of the solar panel project for City Hall.

Mayor Pruette stated one neighborhood was without electricity for about an hour and a half due to the storm. City Manager Jarboe replied there was a lightning strike near the public services building that may have cause the outage.

Councilor Arthur questioned how much longer until the solar panel project would be completed. City Manager Jarboe replied once staff was available it should only take another four or five days to complete.

COMMENTS FROM THE PUBLIC / NONE

Mayor Pruette opened the public hearing

There being no comments from the public, the public hearing was closed.

CONSENT AGENDA / NONE

VARIANCES / NONE

ORDINANCES / NONE

OLD BUSINESS / NONE

NEW BUSINESS

St. Johns River
Ferry

ST. JOHNS RIVER FERRY: Elaine Brown, St. Johns River Ferry Task Force, stated the Ferry Commission was looking into obtaining grant money to help fund the St. Johns River Ferry. She explained an impact study in 1986 showed that over 200 jobs would be lost without the operation of the ferry. She felt losing the ferry would have a huge effect on the economy and businesses throughout the beaches. A "Ferry Rally" is scheduled to be held on August 25th. There will be bands, food and artists and the ferry will be free to ride all day.

Mayor Pruette thanked Mrs. Brown for her efforts on the "Ferry Task Force." She stated she spoke with City of Jacksonville Councilman John Crescimbeni and he felt the funds would be raised to keep the ferry.

Vice Mayor Tucker also thanked Mrs. Brown for her efforts and for addressing the Council.

Councilor Pardee questioned Elaine Brown's personal finance interest in maintaining the ferry operation. He stated Mrs. Brown was the contact person on a real estate sign located on a property across the street from the ferry.

Elaine Brown responded she has been selling properties and doing business in the area long before the announcement that Jaxport would no longer be funding the ferry. She would continue doing business and selling property whether the ferry stays or not.

Councilor Arthur thanked Mrs. Brown for her service on the St. Johns River Ferry Task Force and trying to save the ferry. Mrs. Brown responded she was very confident the ferry will be saved.

Councilor Jolly questioned if the ferry was located in the United States. Mrs. Brown replied "yes." Councilor Jolly questioned how much money the federal government was contributing to the operation of the ferry. Mrs. Brown replied "none."

Councilor Jolly questioned if the ferry was located in Florida. Mrs. Brown replied "yes." Councilor Jolly questioned if the State of Florida was contributing to the operation of the ferry. Mrs. Brown replied "no."

Councilor Jolly questioned if the ferry was located in Jacksonville. Mrs. Brown replied "yes." Councilor Jolly questioned if the City of Jacksonville was contributing to the operation of the ferry. Mrs. Brown responded Jaxport has obligated \$200,000 for the ferry operation. Councilor Jolly stated Jaxport was an agency, not the City of Jacksonville and again questioned if the City of Jacksonville was contributing toward the operation of the ferry. Mrs. Brown responded Duval County has proposed an ordinance that would obligate \$100,000 toward funding for the ferry and Mayor Alvin Brown has committed to another \$100,000.

Councilor Jolly stated City of Jacksonville Mayor Alvin Brown sent a letter to the Neptune Beach City Council in June indicating, due to budget restraints, there would be no money from the City of Jacksonville to continue the operation of the ferry. Mrs. Brown responded she did not receive a copy of that letter.

Councilor Jolly questioned if the ferry was located in Neptune Beach. Mrs. Brown replied "no."

Councilor Jolly explained his point was that Neptune Beach was being asked to donate money to the St. Johns River Ferry when the Ferry did not operate in Neptune Beach. Mrs. Brown stated she understood and it was frustrating. Atlantic Beach and Jacksonville Beach have agreed to donate \$5,000.

City Manager Jarboe stated City of Jacksonville Councilman Bill Gulliford had suggested that we use "bed tax" funds. He explained Neptune Beach did not have a "bed tax" fund but did have a "convention development tax" which we could not use toward the ferry because we are limited in what we can use it for.

Mayor Pruette stated she received donations for her campaign and was fortunate that not to have an opponent. She returned a lot of the money to her supporters. Several citizens requested that she donate the money to the City. She would like to donate approximately \$650.00 to the City. She suggested if Council was in favor, they could vote to donate \$500.00 of the money to support the ferry.

Councilor Pardee stated the Council agreed not to use the City as a platform to donate money toward causes. He felt Mayor Pruette was using the City as a platform to donate her surplus campaign money to the "St. Johns River Ferry." He requested that she make the donation personally without funneling the money through the City.

Mayor Pruette responded her constituents asked her to donate the surplus campaign funds to the City budget and if the Council wanted to donate the money to the ferry they could vote to do so, otherwise, the money will remain in the city budget to be used for another specific purpose.

Councilor Pardee stated the Council agreed at an earlier Council meeting not to donate money to organizations through the City.

City Manager Jarboe explained the money would go into the 2012/2013 budget and the Council can decide during the budget process how to allocate the money.

Vice Mayor Tucker felt because beaches residents use the ferry the City should support it in some capacity.

Councilor Jolly stated if the City had any extra funds it would be because of the efforts of city staff. City employees had not received a salary increase in the past five years. Therefore, he thought any excess money should be given to the employees. He did not have an issue allocating the money from Mayor Pruette's campaign fund to support the ferry. Mayor Pruette stated the \$650.00 will be in the city budget and Council could allocate the money however they wished.

Vice Mayor Tucker stated she was fine with tabling the issue at this point and discussing and voting on the allocation at a later date.

Mayor Pruette stated she has donated money from her campaign account to the City in the past. City Manager Jarboe explained that money was used for trees in Jarboe Park.

Parking Lease

REVOKING OF PARKING LEASE: City Manager Jarboe explained Southcoast Capital Partnership recently replacing the parking signs in there privately owned parking lots and hired parking monitors to prevent people from parking in them unless they were patronizing their tenants' stores and restaurants. This has created complaints from other businesses in Town Center. In an effort to create additional parking, the City has considered revoking the agreement with Southcoast Capital on the right-of-way on Second Street between Lemon Street and Orange Street. This would allow the City to create an additional 15 to 19 public parking spaces.

Rad Lovett, Owner of Southcoast Capital Partnership, stated he was notified last week that the City was considering revoking the license agreement for the 11 feet of right-of-way abutting their parking lot on the corner of Second Street and Lemon Street. After meeting with City Manager Jarboe and Mayor Pruette, he hired an engineer to design a parking area on the right-of-way using a pervious surface to avoid the cost of providing retention under their parking lot. He asked the Council to delay the decision to revoke the license agreement until they could review the plan designed by the engineer. He added that he was aware the City was short on funds and they would agree to provide the materials if the City staff would provide the labor to create the additional parking spaces.

Mayor Pruette stated the Council could delay the decision until the August workshop meeting or hold a special meeting before the September regular meeting to discuss the parking solution.

Councilor Jolly stated Southcoast Capital disturbed a lot of people by placing the new parking signs and hiring the parking monitors.

Mr. Lovett responded they have 52 more spaces than the City requires for their properties. He felt the parking issue was created by the fact that there is no parking for Lemon Bar customers, other than the Seahorse Motel parking which charged a \$5.00 parking fee. This causes the Lemon Bar customers to park in the free parking spaces which takes up spaces for their tenants customers.

Mr. Lovett also mentioned that Southcoast Capital Partnership gave 8 parking spaces behind City Hall to the City several years ago. He felt they have been doing their job in promoting the downtown area and solving parking issues.

Mr. Lovett added he and his tenants were working with city also by moving their employee parking offsite and providing valet services.

For the Record City Manager Jarboe stated for record Southcoast did not give the City property. The City traded them the property for the property located between Mezzaluna and City Hall.

Mayor Pruette questioned if they intended to tow City Hall employees' vehicles. Mr. Lovett replied the parking problem was mostly during the day. He added he wanted to ensure the parking lot was serving his tenants who helped pay for the maintenance and taxes of the property. At the same time he wanted to work with City.

Mayor Pruette stated we would have Mr. Lovett back to discuss the details of the additional parking on Second Street between Lemon Street and Orange Street.

Councilor Arthur was concerned that once they started towing vehicles it would create a fear factor and people would be worried about their vehicles being towed. He felt adding additional parking would help the issue.

Mr. Lovett stated, for the record, "no vehicles had been towed as a result of the new parking signs and the parking lot monitors."

Curtis Winter, owner of Sun Dog Restaurant, stated the Town Center businesses had a group meeting and discussed creating a valet service that would be affordable to everyone.

Mr. Lovett concluded that it was his hope that working with the City and creating a valet parking system would add a lot of available parking spaces in the Town Center area.

COUNCIL COMMENTS / NONE

Councilor Eric Pardee
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach

ABSENT:

Councilor Richard Arthur

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:18 p.m.

PROPOSED ORDINANCES

**Right-of-Way
Use**

ORDINANCE NO. 2012-XX, USE OF PUBLIC RIGHT-OF-WAY: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 18, STREETS, SIDEWALKS AND OTHER PUBLIC PLACES, SECTION 18-4 USE OF PUBLIC RIGHT-OF-WAY, ADDING SECTION 18-4(B) RULES, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated the version of the Ordinance placed in the agenda packet was incorrect. The correct version provided by City Attorney Krechowski was at their places.

City Attorney Krechowski apologized for not having the correct version of the proposed ordinance to the City Clerk's Office in time to be placed in the agenda packets.

City Attorney Krechowski explained the amendments as follows:

On the second page some detail was deleted and language regarding certain items and activities has been changed.

He added number 15, a process for application and review and number 16, notice of appeal.

He felt irrigation needed to be addressed in the ordinance.

Mayor Pruette suggested the following amendments:

~~15- 17.~~ All approved work as outlined by the right-of-way permit must be completed in ~~six (6)~~ three (3) months. Failure to complete work will result in an expired permit.

14. Define the "need" for driveways.

Vice Mayor Tucker was concerned about educating citizens and allowing a time frame as to when the Ordinance would take effect. She also wanted to make sure the citizens were informed of the new regulations the City is required to follow.

Councilor Jolly supported the ordinance because it sets policy and gives direction to the City Manager. He suggested the following amendments:

Whereas, the City Council of the City of Neptune Beach, Florida has determined that certain unpermitted activities within the public right-of-ways may contribute to potential non-compliance with the City's Municipal Separate Storm Sewer System Permit (MS-4) as issued by the State of Florida.

Councilor Jolly questioned 12, regarding improvements made in the right-of-way by the property owner shall not create more than fifty (50) percent impervious area or 4,000 square feet. City Manager Jarboe responded this was addressed in (b) Rules.

Councilor Pardee stated he did not have time to read the new version of the ordinance and compare it to the one in the agenda packet. He did not have any questions or suggestions at this time.

Consensus: **TO FORWARD TO ANOTHER WORKSHOP NEXT MONTH FOR DISCUSSION.**

Mayor Pruette voiced concern about enforcement of the Ordinance.

City Manager Jarboe explained the way the Code currently exist it allows the City Manager to basically approve right-of-way permits for whatever he felt was reasonable. He did not think the City Manager should have that type of authority and that Council should set a policy.

PUBLIC COMMENTS

Richard Keene, 733 Bay Street, stated he sent an e-mail to Council on June 18, 2012 regarding suggestions for Section 27-378 and 27-480. He asked Council to please consider his suggestions. He also voiced concern regarding enforcement. He felt the Ordinance was an overburden of legislative authority on property and citizens rights.

COMMUNICATIONS & CORRESPONDENCE / NONE**CITY MANAGER REPORT**

City Manager Jarboe reported on the following:

Tropical Storm Debby

There were problems with flooding on First Street during Tropical Storm Debby. As soon as the tide went out the flooding drained.

Two houses reported stormwater intrusion caused by Tropical Storm Debby. One was located on Seagate Avenue and one was on First Street.

Burton and Associates are conducting a study to determine when the City will be able to afford upgrading the sewer.

Mayor Pruette questioned how many homes had sewage intrusion. City Manager Jarboe replied approximately twelve houses had sewage intrusion. Mayor Pruette stated the City has discussed sewer replacement for the past ten years and she would like to make it a priority. City Manager Jarboe replied unless Council wanted to assess each homeowner or raise water and sewer rates we could not start the process until we had the money in reserves.

Councilor Jolly added the Council would be meeting with Burton and Associates this month. They will be able to inform us as to how the City is doing financially and determine how much we can start doing.

Mayor Pruette suggested holding a workshop meeting before the end of this year to discuss the sewer issues.

Vice Mayor Tucker stated she was looking forward to the results of the study by Burton and Associates.

COMMENTS FROM THE PUBLIC

Mayor Pruette opened the public hearing.

Richard Keene, 733 Bay Street, stated six houses in the Bal Harbour neighborhood had water intrusion in the garage and two had in house intrusion during tropical storm Beryl. He suggested ways to improve the drainage the Bal Harbour.

There being no further comments from the public, the public hearing was closed.

PRESENTATIONS

TIP

NORTH FLORIDA TRANSPORTATION PLANNING ORGANIZATION /
TRANSPORTATION IMPROVEMENT PROGRAM FY 2012/13 – 2016/17: Denise Bunnewith gave a presentation regarding upcoming transportation improvements.

Mayor Pruette explained there was not enough room at the intersection of Florida Boulevard and A1A for a right turn lane. She asked Ms. Bunnewith to relay a request to DOT to have the curb on Florida Boulevard moved over two feet to allow enough space to add a right turn lane. Ms. Bunnewith stated she would look into it. City Manager Jarboe stated Florida Boulevard was not a county road.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The City Hall solar power project has begun and Public Services will continue installation over the next 4 to 8 weeks.
- The Public Service Department is also removing the rocks and mulch around

- the City Hall building in order to be in compliance with the MS-4 Permit.
- The Beaches Town Center Agency will soon be ready to start on the beautification project at Orange Street and First Street.
- The Denny's Restaurant owner has confirmed plans to move forward with the new construction.

Councilor Pardee was pleased with the amount of funds the Senior Activities Center has raised this year. He added the free tax service at the Senior Center was a huge benefit to the members.

Vice Mayor Tucker questioned the progress of the Beaches Chapel project. City Manager Jarboe responded Beaches Chapel received their permit to begin construction. They have until June 20, 2012 to have their first inspection.

Councilor Arthur questioned if there was any new information regarding the placement of a road between the K-mart shopping center and the Publix shopping center. City Manager Jarboe responded there was no new information.

PUBLIC COMMENTS

Scott Wiley, 723 Davis Street, voiced concern regarding the proposed ordinances for rights-of-way uses and accessory structures.

PROPOSED ORDINANCES

Accessory Structures

ORDINANCE NO. 2012-XX, ACCESSORY STRUCTURES: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, SEC. 27-328 – OTHER ACCESSORY STRUCTURES AND PROVIDING AN EFFECTIVE DATE.

Councilor Pardee explained he proposed this Ordinance because newer model air conditioning units are much quieter and should no longer be required to be placed 10 feet from the property line. This Ordinance would allow outdoor air conditioning compressors to be placed up to two feet from a side property lot line. He explained air conditioning units do not run at full efficiency when noise barrier walls are placed around them because they block the air flow. The noise from outdoor air conditioning units is addressed in the noise section of the Code. The City of Jacksonville has already adopted a similar Ordinance. Councilor Jolly suggested at the April workshop meeting to not allow A/C units to be placed in side yards and he disagrees with that suggestion.

Councilor Arthur stated he would like A/C units to have some type of visual barrier because they are so close to neighboring properties.

City Manager Jarboe explained the existing ordinance has an exception to the 10 foot setback requirement. We currently allow A/C units in side yards if they have a barrier wall which mainly affects properties east of Third Street. He added that Councilor Jolly had suggested allowing them in side yards as long as they met proper setback requirements.

Mayor Pruette did not support placing A/C units 2 feet or less away from another property. She stated she would to amend Section 27-328 to read as follows:

Air conditioning compressors serving central systems (other than window units) or other mechanical equipment designed to serve the principal structure may be located in any required rear yards, but not in any required front yard or side yard, and not less than ~~ten (10) feet from any side lot line.~~

Vice Mayor Tucker asked if this would place a hardship on property owners. Community Development Director Askew replied the way the ordinance is proposed it will affect new construction or replacement of existing A/C units.

Mayor Pruette stated placement of A/C units two feet from a property line would have a huge impact on a neighboring property.

City Attorney Krechowski explained the ordinance states, two feet or less, which means the A/C unit would have to be placed at least two feet or more.

Councilor Pardee stated "never mind" and withdrew the proposed ordinance.

Consensus: **THE ORDINANCE WAS WITHDRAWN.**

Right-of-Way
Use

ORDINANCE NO. 2012-XX, USE OF PUBLIC RIGHT-OF-WAY: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 18-4 USE OF PUBLIC RIGHT-OF-WAY.

Community Development Director Askew explained the following ordinances are related to the MS-4 permit and stormwater drainage requirements. The purpose of the proposed ordinances is to help meet the State mandated requirements for the MS-4 permit and prevent being fined by the Department of Environmental Protection. She further explained the City is having issues with property owners placing items in the rights-of-way that get into our storm drains and sewer lines. These items include mulch, stones, trees and shrubs. There is also an issue with property owners planting on top of water meter boxes and other utilities. These proposed ordinances will create some guidelines as to what items are allowed in our rights-of-way.

City Manager Jarboe stated right-of-way permits are currently required and require a locate for underground utilities to prevent damage.

Mayor Pruette was concerned these ordinances would pit neighbor against neighbor. She felt City Attorney Krechowski should thoroughly review the ordinances again and they should be placed on the July workshop agenda.

City Manager Jarboe stated the City could be substantially fined if we do not conform to the requirements of the MS-4 permit.

Mayor Pruette stated the City needed to educate property owners of the new right-of-way ordinances and why the City had to adopt them.

Vice Mayor Tucker agreed with having City Attorney Krechowski review these ordinances thoroughly. She felt the City should abide with the State requirements. She also agreed with forwarding the ordinances to the July workshop meeting.

Councilor Pardee suggested added that a plumbing permit also be required for irrigation in the rights-of-way.

Councilor Arthur agreed Council should take another look at the language in these ordinances. He also felt property owners needed to be aware of why the City is adopting these ordinances. He added Council needed to consider how code enforcement should react and enforce the new rules. He felt they needed to be equally enforced.

Mayor Pruette felt if there was a safety issue with items in the rights-of-way the City should be able to go out and remove the items. She added the State should step in and aid the small cities when it came to unfunded mandates because we did not have the resources or man power to enforce these ordinances. She suggested sending information regarding the right-of-way requirements in the utility bills and also on the city website.

City Attorney Krechowski stated the issue of rights-of-way uses should be addressed in the Code and not just addressed only from an administration standpoint. He felt there had to be something specifically in the ordinances as well as somewhere for property owners could go to educate themselves on what they can and cannot do in rights-of-way, and why.

Mayor Pruette asked City Attorney Krechowski to thoroughly review the ordinances before discussion at the July workshop meeting.

Councilor Pardee suggested added the following language in Section 18-4. Use of public right-of-way (b) 7. No irrigation lines or sprinkler heads can be placed in the right-of-way unless an approved permit is issued.

Consensus: **FORWARD TO THE JULY WORKSHOP MEETING**

Dedication of
Right-of-Way

ORDINANCE NO. 2012-XX, DEDICATION OF RIGHT-OF-WAY: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING ARTICLE X, STREETS, SIDEWALKS, AND RIGHTS-OF-WAY, CHAPTER 27, UNIFIED LAND DEVELOPMENT REGULATIONS, SECTION 27-478, DEDICATION OF RIGHT-OF-WAY AND PROVIDING AN EFFECTIVE DATE.

Consensus: **FORWARD TO THE JULY WORKSHOP MEETING.**

Driveway Aprons
/ Pavement
Material

ORDINANCE NO. 2012-XX, DRIVEWAY APRONS AND PAVEMENT MATERIAL: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 27, ARTICLE X, STREETS, SIDEWALKS, AND RIGHTS-OF-WAY, SECTION 27-480, DRIVEWAY APRONS AND PAVEMENT MATERIAL AND PROVIDING AN EFFECTIVE DATE.

Consensus: **FORWARD TO THE JULY WORKSHOP MEETING.**

Management

ORDINANCE NO. 2012-XX, STORMWATER MANAGEMENT: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE XII STORMWATER MANAGEMENT AND EROSION CONTROL; SECTION 27-516 DEFINITIONS; SECTION 27-517 EXEMPTIONS SECTION 27-518 PERMITS NEEDED BEFORE ISSUANCE OF DEVELOPMENT ORDER; SECTION 27-519 STORMWATER MANAGEMENT REQUIREMENTS; SECTION 27-520 EROSION AND SEDIMENT CONTROL AND PROVIDING AN EFFECTIVE DATE.

Consensus: **FORWARD TO THE JULY WORKSHOP MEETING.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Corner Lots

LAND CODE ISSUES / CORNER LOTS: Community Development Director Askew explained there have been recent complaints regarding how trash containers are being placed on corner lots. The Code states that trash containers are allowed in front yards

only on trash pickup days. They are not allowed to be placed in front yards on non-trash pickup days. The complaints stem from property owners not understanding what should be considered the front yard on a corner lot. She added there are also some instances in the city where a lot is considered a triple corner lot meaning there are three street sides to the lot. There are also issues regarding fences on triple street frontage lots.

Mayor Pruette stated she would like to consider this issue in the future.

Forfeiture Funds

FORFEITURE FUNDS: Public Safety Director Sembach explained the Public Safety Department received a grant to install a new record management program. The monitors do not accommodate the new software. He was requesting the use of \$2,100 in forfeiture funds to purchase new monitors.

Consensus: **FORWARD TO THE JULY CONSENT AGENDA.**

PUBLIC COMMENTS

John Reeve, 132 Hopkins Street, suggested passing out information regarding rights-of-way to citizens when they come in to turn on their utility services.

Mayor Pruette asked City Manager Jarboe if John Reeve would have to change his right-of-way. City Manager Jarboe replied "no."

COUNCIL COMMENTS

Councilor Pardee was concerned about the dim lighting in Town Center and asked City Manager Jarboe to address the issue with the Town Center Agency.

Mayor Pruette also voiced concern regarding the lighting in Town Center and asked Chief Sembach if he had received any complaints. Chief Sembach agreed the dim lighting was a safety issue. City Manager Jarboe stated he would address the situation with the Town Center Agency.

COMMUNICATIONS & CORRESPONDENCE

Councilor Jolly commended and thanked staff for doing a great job responding to Tropical Storm Beryl.

Vice Mayor Tucker thanked staff for being in constant contact with Council throughout the duration of the storm.

City Clerk Volpe reminded everyone this week is qualifying week. Mayor Harriet Pruette, Vice Mayor Kara Tucker and Scott Wiley have been qualified.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- A total of ten trees came down due to Tropical Storm Beryl. There were no reports of any serious damage.
- Denny's restaurant plans to move forward. They would like to be open for business in three months.
- The K-mart shopping center questioned if the city had any plans regarding a roadway between their shopping center and the Publix shopping center. Mr. Jarboe asked them to contact Regency Center. He would follow up with Regency Center in the next few days.
- The estimated preliminary taxable base for the year is \$644,898,589. This will decrease our ad valorem based revenue approximately \$15,500 from last year.

Mayor Pruette questioned the construction progress for the North Beach Fish Camp. City Manager Jarboe responded the construction was moving forward but he was awaiting information regarding public safety access.

V12-04
100 First St.
Southcoast

V012-04, VARIANCE REQUEST SOUTHCOAST CAPITAL, 100 FIRST STREET:
Community Development Director Askew explained Southcoast Capital was seeking a variance to Section 27-229-1 to build a balcony that will encroach 4 feet over the right-of-way for the second story balcony at the corner of Atlantic Boulevard and First Street. A variance to the front yard and corner side yard is required because the balcony will be on the corner which affects both setbacks. The 4 x 13 balcony will be located over an existing

roof overhang and will not encroach any further into the right-of-way.

Todd Bosco, Bosco Building Contractors, explained the purpose of the balcony was to create a scenic overlook, there would not be any people out on the balcony.

Councilor Jolly questioned if the City would be liable for any injuries obtained from people falling off the balcony or dropping items off the balcony and onto the sidewalk. City Manager replied one of the conditions of the Community Development Board was to require them to hold an insurance policy indemnifying the City.

City Manager Jarboe stated the Council may want to add the condition that if a new business comes in, they would need to seek approval of the Council to keep the balcony.

Moved by Pruette, seconded by Tucker.

Motion: **TO APPROVE VARIANCE V12-04 FOR REQUEST ONE AND TWO WITH THE REQUIREMENT THAT THE LEASE HOLDER MUST HAVE AN INDEMNIFICATION AGREEMENT BETWEEN THEM AND THE CITY FOR GENERAL LIABILITY INSURANCE IN THE AMOUNT OF ONE MILLION PER PERSON AND TWO MILLION PER OCCURANCE WITH THE CITY NAMED AS ADDITIONAL INSURED AND IF THIS BUSINESS CLOSSES A NEW OWNER WILL HAVE TO REQUEST A NEW VARIANCE.**

CDB12-03
100 First St.
Southcoast

CDB12-03, DEVELOPMENT ORDER SOUTHCOAST CAPITAL, 100 FIRST STREET:
Community Development Director Askew explained the applicant is requesting to expand the second floor 467 square feet. They are decreasing the total number of seats thereby decreasing the demand for parking.

Councilor Jolly questioned when the restaurant would open. Mr. Bosco replied they would like to open the second week of June. He asked if they could start construction tomorrow.

Community Development Director advised there was a 30 day appeal period on the variance.

City Clerk Volpe clarified he could begin construction on everything except the balcony for 30 days.

Moved by Pruette, seconded by Tucker.

Motion: **TO APPROVE CDB12-03, DEVELOPMENT ORDER BASED ON THE RECOMMENDATION OF THE COMMUNITY DEVELOPMENT BOARD ADDING THAT ALL REPAIRS IN THE CITY RIGHT-OF-WAY MUST BE REPAIRED AND REVIEWED AND APPROVED BY THE BUILDING OFFICIAL.**

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Richard Arthur
Councilor John Jolly
Councilor Eric Pardee
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach
Community Development Director Amanda Askew

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:03 p.m.

PRESENTATIONS

Audit

PRESENTATION OF AUDIT, MASTERS, SMITH & WISBY:

City Manager Jarboe stated this item was removed from the agenda.

FLC / Pensions

FLORIDA LEAGUE OF CITIES / PENSION: Mr. Paul Shamoun, Account Executive, Florida League of Cities, gave a PowerPoint presentation regarding the defined benefit plan administered by the Florida League.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The presentation of the audit by Masters, Smith and Wisby, will be given at the May regular meeting.
- The Beaches Town Center Agency is prepared to move forward with the beautification of the intersection at First Street and Orange Street.
- The solar equipment for the City Hall Solar Project has been ordered.
- The reuse water project should be implemented by July.
- The Butterfly Garden has been refurbished by a family that wanted to set up a

memorial in their daughter's memory.

- The City was working with a Boy Scout Troop to provide them with a project that would help them obtain their merit badges.

Mayor Pruette suggested the Boy Scout Troop paint the benches in the Butterfly Garden.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, felt the City would save money by allowing the Florida League of Cities to administer the defined benefit plan. She opposed the proposed ordinance that would allow air conditioning compressors to be placed within 2 feet of the side lot line. She was concerned about the landscaping maintenance provided by the City on the right-of-way on First Street. She felt if the City could not do a better job of maintaining the rights-of-way the abutting property owners should be allowed to maintain them.

Jeff Bertsch, 509 Myra Street, Representative of the Beaches Democratic Party, stated the Democratic Party has been banned from having a booth at the "Dancin' in the Streets" event. He suggested Council deny a permit for the event unless they agree to allow the presence of political booths.

PROPOSED ORDINANCES

Accessory Structures

ORDINANCE NO. 2012-XX, ACCESSORY STRUCTURES RELATED TO AIR CONDITIONING COMPRESSORS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, SEC. 27-328 – OTHER ACCESSORY STRUCTURES AND PROVIDING AN EFFECTIVE DATE.

Councilor Pardee explained he proposed this Ordinance because newer model air conditioning units are much quieter. This Ordinance would allow outdoor air conditioning compressors to be placed up to two feet from a side property lot line. He explained air conditioning units do not run at full efficiency when noise barrier walls are placed around them because they block the air flow. The noise from outdoor air conditioning units is addressed in the noise section of the Code. The City of Jacksonville has already adopted a similar Ordinance.

Councilor Arthur expressed concern regarding the visual aspect. Councilor Pardee replied there was a difference between a visual screening and providing a noise barrier wall around an air conditioning compressor.

City Manager Jarboe stated air conditioning compressors are currently allowed in side yards without requiring a visual barrier.

Councilor Jolly proposed amending Councilor Pardee's proposed Ordinance by striking out "two feet" to read as follows:

Section 27-328. c. Air conditioning compressors serving central systems (other than window units) or other mechanical equipment designed to serve the principal structure may be located in any required rear yards, but not in any required front or side yard, and ~~not less than two (2) ten (10) feet from any side lot line, except in the following instances:~~

City Manager Jarboe suggested forwarding the proposed Ordinance to the May workshop.

City Attorney Krechowski added he would like to review the Ordinance more thoroughly.

Consensus: **FORWARD TO THE MAY WORKSHOP MEETING FOR FUTHER DISCUSSION.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Right-of-way
Encroachments

RIGHT OF WAY ENCROACHMENTS / PERVIOUS PAVERS: City Manager Jarboe was concerned about homeowners assuming the rights-of-way as their personal property. He felt some of the landscaping in the rights-of-way have created safety issues, are interfering with the infrastructure, and adding to the nitrogen draining into the storm water system. This is a liability for the City and the Public Safety Department would be issuing Code violations to those homeowners who have landscaped the rights-of-ways without obtaining a permit.

Mayor Pruette asked City Manager Jarboe if he was more concerned about the safety issue or the infrastructure. City Manager Jarboe replied his main concern was the safety issue. He was also concerned that the City could be fined for not complying with the MS4 permit based on the nitrogen levels.

City Attorney Krechowski agreed these issues increased the City's liability.

Councilor Arthur questioned if a homeowner was allowed to plant flowers, etc. City Manager Jarboe replied "yes" but they have to apply for a right-of-way permit.

Mayor Pruette stated many years ago sidewalks were placed on First Street for the handicap but they flood during heavy rains and the rain stands for several days afterwards. She suggested adding pervious pavers or weeping holes where the street meets the sidewalk to absorb the water so the sidewalk can be used.

City Manager Jarboe stated he would gather more information and report to Council.

Consensus: **HAVE THE CITY MANAGER GATHER MORE INFORMATION FOR THE PLACEMENT OF PAVERS OR WEEPING HOLES ON THE FIRST STREET SIDEWALK.**

Delgado
2042 Marye Brant
Loop South

JERRY DELGADO – 2042 MARYE BRANT LOOP SOUTH – REQUEST TO BUILD A DOCK ON CITY PROPERTY:

City Manager Jarboe stated this item was removed from the agenda because Mr. Delgado has not provided all the information to make a valid decision.

2012 / 2022
Comp Plan

2012 – 2022 COMPREHENSIVE PLAN: City Manager Jarboe stated one of the reasons Community Development Director Askew was hired was for her ability to update the Comprehensive Plan and save the City money.

Community Development Director Askew explained she was in the process of updating the 2010 Comprehensive Plan. The Department of Community Affairs governs the Comprehensive Plan and they have a list of requirements that must be included. Many of the goals, objectives and policies in the 2010 Comprehensive Plan remain the same in the 2012/2022 Comprehensive Plan. The most important aspect of the City is to maintain the residential character and that has not changed. There were two changes not included that are not in the original agenda packet; 1) on page A1 she references

the "Future Land Use Map" as FLUM throughout the document, and 2) City Attorney Krechowski suggested adding information regarding oceanfront fortification in the coastal conservation element.

City Manager Jarboe recommended forwarding the COMP Plan to the May regular meeting for first read. He added that many state agencies also had to review the Plan. Council will have an opportunity to make amendments at a workshop meeting if necessary.

Consensus: **FORWARD TO THE MAY REGULAR COUNCIL MEETING FOR FIRST READ.**

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The Audit should be ready to be presented to the Council at the April workshop meeting.
- The banking RFP is on the agenda for tonight.
- Burton & Associates will be studying the city's water and sewer rates this year and will be giving the final report to the Council.

Mayor Pruette questioned the number of vacant and foreclosed homes throughout the city and if they were detrimental to water and sewer revenue. City Manager Jarboe responded there are approximately less than 40 vacant or foreclosed homes within the City and they did decrease the amount of water and sewer revenues.

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES / NONE**CONTRACTS / AGREEMENTS**

North Beach
Fish Camp

SIDEWALK LEASE AGREEMENT / NORTH BEACH FISH CAMP: City Manager Jarboe explained the North Beach Fish Camp was moving into the old Carribbee Key restaurant and they would like to continue leasing the outdoor seating area. The terms of the agreement would remain the same.

Consensus: **TO FORWARD TO THE APRIL CONSENT AGENDA.**

ISSUE DEVELOPMENT

Banking
Proposals

REQUEST FOR PROPOSALS / BANKING: City Manager Jarboe explained request for proposals for banking services were due on February 28, 2012, at 2:00 p.m. Five proposals were received. Director of Finance Steve Ramsey reviewed all five proposals along with their references and has recommended BBVA Compass Bank for the contract. The proposal from BBVA Compass included no banking fees which would save the City approximately \$12,000 per year. They also did not require a balance in the account in order to accrue interest. Other banks require a 2.7 million to 3 million dollar account balance before interest is accrued. There is a branch located within five miles of the City.

Mayor Pruette questioned if BBVA Compass was guaranteed by the State. City Manager Jarboe replied State law requires all banks to be qualified depositories. The City also requires the bank to fully insure the funds.

Councilor Arthur questioned the length of the agreement. City Manager Jarboe responded the agreement would be for five years with a 90 day cancelation terms.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR APPROVAL.**

PUBLIC COMMENTS / NONE**COUNCIL COMMENTS**

Mayor Pruette stated City Manager Jarboe wrote a good letter to Jacksonville City Councilman Bill Gulliford in response to his letter regarding funding for the St. Johns River Ferry.

City Manager Jarboe explained Neptune Beach did not receive "bed tax" revenue that could be used towards funding for the Ferry. All "bed tax" revenue went to the City of Jacksonville. Neptune Beach does receive "convention development tax" revenue. However, the "convention development tax" revenue was not much and it is limited in use. The "convention development tax" can only be used for recreational purposes.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette stated City Manager Jarboe amended the agenda to include Resolution 2012-02, a lease agreement with Southcoast Capital.

City Manager Jarboe explained Caribbee Key abandoned their lease agreement with the City when they went out of business and moved out of their building. He was concerned about the City being liable for any accidents that may occur on the property. The owner of the property, Southcoast Capital, has agreed to take over the lease and pay the past due rent owed by the former tenant. The lease agreement will allow Southcoast Capital to obtain insurance for the property and indemnify the City of any liability.

Councilor Pardee questioned if the lease would need to be updated when a new tenant occupies the property. City Manager Jarboe responded that would be up to Southcoast Capital.

Res. No. 2012-02 **RESOLUTION NO. 2012-02: A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF NEPTUNE BEACH, FLORIDA AUTHORIZING THE LEASE AGREEMENT BETWEEN THE CITY OF NEPTUNE BEACH AND SOUTHCOAST CAPITAL.**

MOTION CARRIED

OLD BUSINESS

Solar Panels **SOLAR PANEL PROJECT / CITY HALL:** City Manager Jarboe explained Building Official Don Ford has been working on the solar panel project. It was advertised for bids twice however no bids were received. He would like the Council to waive the Code to allow quotes on the project and select one of the three vendors recommended by the Building Official.

City Attorney Krechowski explained Council previously approved the manufacturer to be a sole source. However, due to publicity we received quotes from other entities. The Code needs to be waived now to receive the quotes from the other entities.

Don Ford stated he has been working on the project for almost five years. Grant money will cover the cost of the project. He recommended A1A Solar, a local company that will supply the material and oversee the installation of the project.

Councilor Jolly questioned the amount of the grants. Mr. Ford stated the Federal grant was for \$75,675.00 and the grant from the City of Jacksonville is for \$40,000.

Councilor Jolly stated for verification that the materials will cost approximately \$100,000 and the only way we can do the project is if City staff installs it on the roof. Mr. Ford stated that was correct.

City Manager Jarboe stated a licensed electrician would have to hookup the system to the panel box. The grant money would also cover this cost.

Vice Mayor Tucker questioned if the project would be covered by the grants with no cost to the City. Mr. Ford stated that was correct.

Councilor Pardee questioned the condition of the roof. Mr. Ford replied the solar panel system would not be attached to the roof and could be removed if the roof needed to be replaced.

Councilor Pardee asked if City Hall would be temporarily without power. Mr. Ford responded the system was very simple and the changeover would take approximately two hours.

Mayor Pruette questioned the wind load of the system. Mr. Ford stated the system was designed to withstand 120 mile per hour winds.

City Manager Jarboe stated the solar panels would save the City approximately \$8,000 to \$9,000 per year.

Mayor Pruette asked City Manager Jarboe if felt comfortable that staff could adequately install the system. Mr. Jarboe replied yes, each panel fits into an adjacent panel, and it would be very to install.

Vice Mayor Tucker asked how long it would take to install the system. Mr. Ford stated A1A Solar was about three weeks out on delivery. Once the materials were delivered it should take approximately one week to install the system.

Moved by Jolly, seconded by Tucker.

Motion: **TO WAIVE THE CODE SO THE CITY CAN TAKE BIDS FROM MANUFACTURERS AND RETAILERS.**

ORDINANCE NO. 2012-01, AMENDING CHAPTER 2, POLICE OFFICERS' RETIREMENT SYSTEM: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH FLORIDA, AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE V, EMPLOYEE BENEFITS, DIVISION 4, POLICE OFFICERS' RETIREMENT SYSTEM OF THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH; AMENDING SECTION 2-345, DEFINITIONS; AMENDING SECTION 2-348, FINANCES AND FUND

MANAGEMENT PROVIDING FOR CODIFICATION; PROVIDING FOR SEVERABILITY OF PROVISIONS; REPEALING ALL ORDINANCES IN CONFLICT HERewith AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe gave staff's recommendations for changes.

Consensus: **AMEND AND FORWARD TO THE MARCH REGULAR COUNCIL MEETING FOR SECOND READ AND PUBLIC HEARING.**

Councilor Jolly stated he spoke with the Florida League of Cities and would like them to come in to give a presentation on options for the pension. City manager Jarboe said he would set that up for the April workshop since one council member will not be in attendance at the March workshop.

Mayor Pruette felt the recommendations were conservative and placed less liability on the city.

COUNCIL COMMENTS

Mayor Pruette announced City Manager Jim Jarboe competed in the USAPL (United States Power Lifting Assoc.) competition on Saturday, February 18th. He won three gold medals: one for power lifting (raw), one for power lifting (assisted) and another for dead lifting (397 lbs, which could be a state record for his age group).

Councilor Pardee commented that the building code would be changing soon. Finance Director Ramsey stated he had spoken with his insurance company and people may not be covered for replacement cost with the new code. The council commented that the public should be notified about this.

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette asked City Manager Jarboe to update the Council on the new Animal Control Officer. City Manager Jarboe stated the new Animal Control Officer worked for Atlantic Beach for a number of years and has a good reputation.

CITY MANAGER REPORT

City Manager Jarboe informed everyone the "Donna Hicken Marathon Run" would be held this Sunday, February 12, 2012. The runners should arrive in Neptune Beach around 7:00 a.m. Residents will be informed via the telephone notification system to expect delays.

COMMENTS FROM THE PUBLIC

Elaine Brown, Chairperson, St. Johns River Task Force Committee, explained Paul Anderson, CEO, Jacksonville Port Authority, stated Jaxport could no longer keep the Ferry running based on a deficit of \$700,000 per year. He has asked the Board for direction. The Task Force was formed to try to try to bring together other agencies to support maintaining the Ferry service. She thanked Council for supporting Resolution 2012-01.

Lynda Padrta, 1113 First Street, spoke in favor of the Donna Hicken Marathon, the St. Johns River Ferry, and the City Hall Solar Power Project.

CONSENT AGENDA

City Manager Jarboe requested removing the "City Hall Solar Power Project" from the Consent Agenda, to be voted on separately.

Councilor Eric Pardee
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach

Call to
Order/Roll Call

Mayor Pruette called the meeting to order at 6:05 p.m.

PRESENTATIONS

Brad Ivy

AWARD PRESENTATION / OFFICER BRAD IVY: Chief Sembach presented a "Life Saving Award" to Officer Brad Ivy. Officer Ivy was responding to an emergency call on Seagate Avenue in reference to a cardiac arrest. When Officer Ivy arrived he discovered a five month old infant was not breathing and had no pulse. Officer Ivy immediately placed the victim on the floor and began infant CPR until rescue arrived. His actions were directly responsible for saving the infants life that day.

Green Market

GREEN MARKET / BARBARA JACKSON, GRETCHEN FERRELL & AIMEE TOUS PARKER: Aimee Tous Parker, representative for the Community Garden and Green Market explained Ms. Gretchen Ferrell was unable to attend the meeting and she was asked to attend the meeting on her behalf. Ms. Ferrell had prepared a slide show to present to Council. They would not be able to present the slide show because their computer was not compatible with the City's projector.

Ms. Aimee Tous Parker explained Ms. Ferrell would be relocating at the end of the month and would no longer be representing the Green Market and Community Garden. The new leadership will consist of Marketing Manager Devon Rich, Administrative Director Barbara Jackson and Community Garden Manager Jennifer Casini. Ms. Tous Parker would remain on the advisory council.

Ms. Tous Parker stated 2011 has been the most successful year for the Green Market. There were currently 25 regular weekly and monthly vendors with 12 vendors on a waiting list. They counted a total of 32,000 customers at the market during 2011. A Green Market sponsorship program was initiated which allows local businesses to advertise through the market website and newsletter. The proceeds help fund the children's garden program, the green market, music at the market and general budget items. Vendors for the market included farmers providing fruits and vegetables, free range eggs, honey, pasture raised beef, chicken, and ranch raised pork, local seafood, bakery items, hand crafted teas, hot cider, plants, herbs, and much more.

This has also been a successful year for the Community Garden mainly because there has not been a freeze and the weather has been very nice. The 24 plots were all occupied by a combination of 7 Neptune Beach residents, 8 Atlantic Beach residents, 7 Jacksonville Beach residents, and 2 Jacksonville residents. There were also several people on a waiting list for plots.

The Children's Garden has been a primary focus this past year. The ribbon cutting ceremony was held in April. A series of workshops began in May and continued through September. A total of 10 workshops were held with an average attendance of between 10 and 20 children and their parents. The workshops are free and open to the community. Every Wednesday there is a garden social with volunteers from the communities that weed, harvest, and water the garden.

The Community Garden partners with BEAM and Mission House and provides them with excess produce on a consistent basis.

Mayor Pruette stated the Green Market and the Community Garden have done an outstanding job. She felt it has brought the community together.

Vice Mayor Tucker thanked Ms. Tous Parker for the accomplishments of the Green Market and Community Garden. She had enjoyed seeing the community get involved.

Mayor Pruette wished the new leaders the best of success.

CDB

EDUCATION ON COMMUNITY DEVELOPMENT BOARD / CITY ATTORNEY KRECHOWSKI: City Attorney Krechowski explained the duties and responsibilities of the Community Development Board and the responsibilities of the Council to hear variance and administrative decision appeals. The PowerPoint presentation is on file in the City Clerks office.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Finance Director Steve Ramsey will be placing an ad to request proposals for banking needs and will bring a recommendation to the Council.
- The City Hall solar project has been bid twice with no responses received. Vendors did not to bid on the project because the work was going to be completed in house by our Public Services department. The manufacturer has agreed to sell us the equipment directly as a sole source.
- The surplus vehicles for the Public Safety department were accidentally left off the December regular meeting agenda and would be placed on the February consent agenda.

Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING TO APPROVE THE MANUFACTURER AS SOLE SOURCE.**

Consensus: **FORWARD THE SURPLUS VEHICLES FOR THE PUBLIC SAFETY DEPARTMENT TO THE CONSENT AGENDA.**

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES

PORF

OVERVIEW OF POLICE OFFICERS' RETIREMENT SYSTEM BOARD ACTIVITIES AND EXPLANATION OF PROPOSED ORDINANCES AMENDMENTS: Mr. Dan Johnson, introduced himself as the representative for the The Bogdahn Group, and explained they were the investments consultants for the Neptune Beach Police Officers' Pension Plan Board. He explained the proposed ordinance amendment included changes in state legislation which were mandatory. The Board has proposed incorporating the following the following changes as well:

1) Section 2-348. Finances and Fund Management 5. (i) Except as provided in subparagraph (ii) below, all individually held securities and all securities in a commingled or mutual fund must be issued or guaranteed by a corporation organized under the laws of the United States, any state or organized territory of the United States, or the District of Columbia and, in the case of bonds only, shall ~~hold a rating in one (1) of the three (3) highest classifications of a major rating service~~ be investment grade.

2) Section 2-348. Finances and Fund Management 5. (iii) The board shall not invest more than five (5) percent of its assets in the common stock,, capital stock, or convertible securities of any one issuing company, nor shall the aggregate investment in any one issuing company exceed five (5) percent of the outstanding capital stock of that company; nor shall the aggregate of its investments in common stock, capital stock and co0nvertible securities at ~~cost~~ market exceed ~~sixty (60)~~ seventy (70) percent of the assets of the fund.

Mr. Johnson felt these changes would broaden the investment opportunity for the investment manager and enhance returns.

Mayor Pruette voiced concern that it was the responsibility of the Council to make up the difference in the pension plan if the investments did not perform at 8% returns.

Councilor Jolly questioned how long Bogdahn Group had been advising the Board. Mr. Johnson replied the Bogdahn Group had been representing the Board for seven years.

City Manager Jarboe explained the Bogdahn Group monitored the Board's investments.

Councilor Jolly questioned the returns over the past four years. Mr. Johnson replied the plan annualized over a 10% return in the past three years and 2.3% over the past five years.

City Manager Jarboe stated his records indicated a minus 1.16% over the past four years.

Councilor Jolly asked if Council members had a copy of the actuary report. He stated over the last 4 years the plan had a negative 1.16% return on investments. The plan consisted of three parts, an 8% member salary contribution, investments, city contribution of 23 to 26%. He was concerned because the city's contribution increases when the investment returns are low. The city has been contributing 23 to 26% to make

up the difference.

Councilor Jolly stated he would like each Council member to receive a copy of the actuary report. He would also like to see a list of the past four years meeting dates and the board member attendance records.

Mr. Johnson stated he was present to address the Council on the proposed ordinance recommendations. The board held meetings once a quarter and they were all open to the public. The actuary report was presented every year as of September 30th.

Councilor Jolly was concerned about the unfunded liability of the City due to the 8% investment return assumption. Mr. Johnson stated the Board has had many debates regarding the 8% expected rate of return and one member thought it should be lowered. He explained if the assumed rate was decreased to 7 to 7 ½ the concept of lowering the expected rate of return would actually increase the city's unfunded liability.

Councilor Jolly questioned if the investment return would increase if the Council agreed to allow the plan to invest in investment grade bonds. Mr. Johnson replied he could not make any guarantees but the most indicative number that he could utilize would be the difference between the yield offered from those investment grades of securities verses what you would see in AA or better. If Council agrees to make that change there is a chance the investment manager would not think the risk of worth it however, if the investment manager sees a good opportunity to invest in a security that they feel comfortable is going to continue to pay its debt and is offering a 6% coupon or higher yield they would have the advantage to invest in it. This would give the investment manager another tool to utilize calculated risk to increase the return.

Councilor Jolly questioned how our financial advisors have performed in relationship to other financial advisors from other municipalities. Mr. Johnson responded compared to peer groups as of December 30th, the plan was in the top 30 percentile. The reason for this was because of the high quality bonds. The plan has done very well but now is a good time to broaden the opportunity for the investment manager.

Vice Mayor Tucker voiced concern regarding the liability of the City. She felt the ordinance should not be changed due to the uncertainties over the next few years.

Councilor Arthur stated he would like to see the funds out perform the benchmark of 8%, but he was also concerned about the risk. Mr. Johnson responded the manager would not invest unless he was comfortable it would be a solid investment.

Councilor Arthur questioned if lowering the standard would still see an 8% return. Mr. Johnson responded the board may be lowering it's expected rate of return.

Councilor Arthur questioned the thought process behind changing the investments in stock from 60 to 70 percent. Mr. Johnson replied the market value provides a clear limit to the cost value and this would provide a standard of control that you would not otherwise have.

City Manager Jarboe felt Council was confused and suggested Mr. Johnson provide the Council with a comparative analysis. Mr. Johnson replied he would provide some case studies to the Council if that would help.

Councilor Pardee stated he would like to be provided with more information.

Mayor Pruette questioned the expenses paid by the plan to the advisors and asked if there may be ways to cut those expenses. Mr. Johnson stated he could work up an

expense ratio. Councilor Jolly replied the investment related expenses for the plan last year were \$40,555.80.

Mr. Johnson replied most of the expenses were market based fees.

Councilor Jolly stated the Florida law states, the board should obtain a professional qualified independent consultant to evaluate the performance of the money manager every three years. It was not necessary that it be done every year. Frank Cashman, Chairman of the Police Officers' Pension board, stated the board would take that under advisory.

Chairman Cashman indicated the plan was 82% funded based on the actuary report. City Manager Jarboe stated the city goes by the audit and the plan was 72% funded based on the audit.

Mayor Pruette asked to hear from board member David Linger.

Board Member David Linger explained he had only been a member of the Board for one year. The other members have been on the Board for less than one year with the exception of Carl Hashey who has been on the Board for approximately 10 years. The current investment advisor has been in place since June of 2002. The plans expenses of \$40,555.80 consisted of \$7,500 to \$10,000 for the investment advisor. The other \$30,000 is paid to the Actuary, Investment Manager, the Attorney and the Insurance Policy. He has had extensive discussions on the Board regarding the 8% expected rate of return. He added that 5 years ago the City's contribution was approximately \$150,000 and this year it is approximately \$300,000. He felt the trend was not going to change unless the plan had better than 8% returns.

City Manager Jarboe explained the 8% target rate is what it takes to maintain the pension plan. If the plan reaches that target every year that is what it takes to pay the benefits and obligations.

Mayor Pruette questioned if the Board shopped advisors for the best prices. Mr. Linger replied that question has not come up since he has been on the Board; however, he was not aware the Board was responsible for hiring the advisors.

Mr. Linger stated it was his opinion that there was a lack of questions from the other board members. He felt the overall attitude of the Board was that it did not matter how well the plan performed because the City would have to make up the difference to fund the plan. As a citizen of Neptune Beach and a taxpayer he felt the money has not been watched closely. He felt the previous board did not exercise due diligence.

Mayor Pruette asked if the Council wanted to move forward with amendments that were mandatory by the State.

Vice Mayor Tucker stated she would vote for the State amendments but she would like to review more information regarding the boards recommended changes.

Councilor Jolly agreed with the State amendments, but did not agree with investment grade change. He also agreed with changing the market value.

Councilor Arthur also agreed with the State amendments but was concerned about the investment grade risk.

Councilor Pardee agreed with the State changes and the market value but would also like to review additional information regarding the investment grade risk.

ORDINANCE NO. 2012-XX, AMENDING CHAPTER 2, POLICE OFFICERS' RETIREMENT SYSTEM: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH FLORIDA, AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE V, EMPLOYEE BENEFITS, DIVISION 4, POLICE OFFICERS' RETIREMENT SYSTEM OF THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH; AMENDING SECTION 2-345, DEFINITIONS; AMENDING SECTION 2-348, FINANCES AND FUND MANAGEMENT PROVIDING FOR CODIFICATION; PROVIDING FOR SEVERABILITY OF PROVISIONS; REPEALING ALL ORDINANCES IN CONFLICT HEREWITH AND PROVIDING AN EFFECTIVE DATE.

Consensus: **AGREE TO THE STATE CHANGES AND FORWARD TO FIRST READ WHILE AWAITING MORE INFORMATION ON THE RECOMMENDED CHANGES.**

Exterior Building
Shell

ORDINANCE NO. 2012-XX, AMENDING CHAPTER 8, BUILDING CODE: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 8, ARTICLE II, BUILDING CODE, ADDING SECTION 8-36. COMPLETION OF BUILDING SHELL AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated she introduced this ordinance due to having received complaints regarding the exterior of buildings not being completed in a timely manner. This ordinance allows a period of 12 months from the permit date to complete the exterior of a construction project.

City Manager Jarboe explained there is no way to put a limit on the length of time it takes to complete a construction project however, this ordinance would make the contractor complete the exterior of the building and close it off so it would not be open to the general public.

City Attorney Krechowski advised the ordinance did not conflict with the Florida Building Code.

Councilor Pardee stated he was not comfortable the ordinance. He questioned if the ordinance had penalties. City Manager Jarboe replied the penalty would require going before the Code Enforcement Magistrate.

City Attorney Krechowski stated there was also a mechanism for an appeal to the City Manager.

City Manager Jarboe stated he would provide Council with additional information for the next meeting.

Councilor Pardee was concerned about the construction time period. He explained the Florida Building Code allows six months to pass from the permit date until the first inspection and another six months to get the second.

Mayor Pruette placed the ordinance on the February workshop for further discussion.

Consensus: **FORWARD TO THE FEBRUARY WORKSHOP MEETING.**

Competitive
Bidding

AMENDING CHAPTER 2, SECTION 2-377, COMPETITIVE BIDDING: City Manager Jarboe explained the current bid threshold is \$10,000. He asked to increase the amount \$25,000. This will save money in advertising and having professional specs drawn.

Councilor Jolly asked to exclude automobiles. City Manager Jarboe agreed that would

be a good idea.

Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT / NONE

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, supported the Council's involvement in the pension board actions. She also supported the proposed ordinance for exterior construction completions.

COUNCIL COMMENTS

City Clerk Volpe stated the February workshop meeting would fall on Presidents' Day. She asked the Council if they wanted to hold the workshop the following Tuesday or Monday.

Councilor Jolly requested City Clerk Volpe provide Council a list of holidays for the year.

Consensus: **TO HOLD THE FEBRUARY WORKSHOP MEETING ON TUESDAY, FEBRUARY 21, 2012.**

Councilor Arthur stated workshop meetings were for discussion and he appreciated hearing everyone's opinion. He felt everyone should respect the process.

Councilor Pardee felt he did not get an opportunity to speak his mind during the discussion regarding the police officers' pension plan. He felt he was entitled the same respect as everyone else.

Mayor Pruetto stated she tries to make sure everyone gets their opportunity to speak while also trying to maintain a certain amount of order.

Adjournment

There being no further business, the meeting adjourned at 8:00 p.m.

Attest:

Harriet Pruetto, Mayor

Lisa Volpe, CMC, City Clerk

Mayor Pruette thanked staff for their efforts in pulling together the annual “Christmas in the Park” event.

CITY MANAGER REPORT

City Manager Jarboe thanked Mr. Sample, representative for the Saint Johns River Water Management District, for funding 50% of the nitrogen project.

City Manager Jarboe stated Holiday lights would be installed on Third Street and at the Florida Boulevard and Forest Avenue five way intersection this week. The money for the decorations would come out of the holiday fund.

COMMENTS FROM THE PUBLIC / NONE**CONSENT AGENDA / NONE****VARIANCES / NONE****ORDINANCES**

Ord. No. 2011-23
Budget

ORDINANCE NO. 2011-23, AMENDING THE OPERATING BUDGET, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE OPERATING BUDGET FOR THE CITY OF NEPTUNE BEACH, FLORIDA FOR FISCAL YEAR 2011, BEGINNING OCTOBER 1, 2010 AND ENDING SEPTEMBER 30, 2011.

City Manager Jarboe explained the Public Safety Department received a grant to purchase two vehicles and help to pay overtime salaries. This Ordinance will incorporate the grant money into the FY 2010-2011 budget.

Mayor Pruette read Ordinance No. 2011-23 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Tucker, seconded by Jolly.

Motion: **TO ADOPT ORDINANCE NO. 2011-23 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

City Manager Jarboe explained this Ordinance is required by the State and the Florida Building Code. If we are not consistent with the State and Building Code, insurance companies could charge a higher rate to our citizens for homeowners insurance. The ordinance will need to be amended again in March 2012, due to additional changes.

Mayor Pruetto read Ordinance No. 2011-25 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Pardee.

Mayor Pruetto stated for the record Councilor Pardee would be the sponsor.

COUNCIL COMMENTS

Mayor Pruette wished everyone a nice Holiday Season.

Councilor Jolly stated it was his understanding that our Mayor was summoned to go to the City of Jacksonville to meet with Mayor Brown's staff. He commended Mayor Pruette for not attending that meeting. He felt the City of Jacksonville should not summons our Mayor to a meeting. Mayor Pruette responded the City of Jacksonville has not yet responded to the joint letter from the City of Neptune Beach and the City of Atlantic Beach regarding tipping fees.

City Manager Jarboe wished everyone a Merry Christmas and a Happy New Year. He felt it had been a great year of accomplishments for the City.

City Clerk Volpe stated the January regular meeting date falls on the New Years Day holiday and the January workshop meeting falls on Martin Luther King Day. She asked which dates Council would prefer to meet in January.

Consensus: **TO HOLD THE JANUARY REGULAR MEETING ON TUESDAY, JANUARY 3RD AND THE JANUARY WORKSHOP MEETING ON TUESDAY, JANUARY 17TH.**

Adjournment

There being no further business, the meeting adjourned at 6:30 p.m.

Harriet Pruette, Mayor

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor John Jolly
Councilor Eric Pardee
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach

ABSENT:

Councilor Richard Arthur

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Holiday Safety

Mayor Pruette read aloud the following safety announcement: The Neptune Beach Police Department is urging State and Local residents to use seat belts during the 2011 Thanksgiving holiday period which is one of the most heaviest traveled times of the year. Thanksgiving can be a dangerous time for motorists especially unbelted ones day and night. Make sure the only belt unbuckled is at your Thanksgiving table and not your vehicle whether you are traveling day or at night. Seatbelts save lives. They are the best defense against crash related injuries and fatalities. Remember seatbelts can mean the difference between life and death.

**Tobacco
Prevention**

PRESENTATION / TOBACCO PREVENTION PROGRAM / SAMANTHA FREELS, MSH, CHES: Mr. Steven McClauski explained the Tobacco Prevention Program is a youth driven advocacy group made up of students all over the country working against big tobacco companies. They are angry because tobacco companies are targeting youth through marketing so they will become addicted to tobacco for life. Since the FDA took over the regulation of the tobacco industry in 2009 they have come up with products to market to youth. They have produced smokeless tobaccos that mimic mints, tic-tacs, and Listerine strips, using packaging that is not detectable by parents.

The tobacco company's purpose is to have the youth become addicted to nicotine for life. He added 90% of adult smokers began smoking before the age of 18.

Annabelle Gonzalez, Student at Frank H. Peterson Academy of Technology, Jacksonville, Florida, and President of SWAT, Students Working Against Tobacco, stated the mission of the SWAT group was to educate youth and others regarding the harmful effects tobacco and work towards a tobacco free future.

Kara Fleming, Student at Frank H. Peterson Academy of Technology, explained youth were extremely attracted to the flavored tobacco products and the flavored tobacco products were the start of a childhood habit to develop into a lifelong addiction. Nearly nine out of ten adult smokers began smoking before the age of 18. In Florida one in six youth between the ages of 11 and 17 have tried flavored tobacco and cigars. She explained as a youth she was angry that she was being targeted by these tobacco companies and that they are using attractive images to lure teenagers. She felt the worst part was that the advertising did not clearly indicate the harmful effects and that it could lead to disease and death. She asked the Council to adopt a Resolution to prohibit and restrict the sale and marketing of candy flavored tobacco in Neptune Beach.

Councilor Jolly and Vice Mayor Tucker wanted to sponsor the Resolution.

Consensus: **TO HAVE VICE MAYOR TUCKER WORK WITH CITY ATTORNEY KRECHOWSKI TO DRAFT A RESOLUTION AND FORWARD TO THE JANUARY WORKSHOP MEETING FOR DISCUSSION.**

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The exterior construction ordinance will be placed on the January workshop.
- Someone was going door to door trying to collect \$10.00 from homeowners for the City to paint their house number on the curb. This was a scam and anyone hearing of it should contact the police department.
- Request for proposals for banking services will be sent out in January.
- In December we will know whether or not we can move forward with the City Hall Solar Panels.
- A drainage problem in Town Center closed down a project.
- After the growing season the Bal Harbour drainage project will begin.

Senior Activity Center Director Leslie Lyne announced "Christmas in the Park" will be held on December 2, 2011 at 6:15 p.m.

PUBLIC COMMENT

Lynda Padrta, 1113 First Street, supported the efforts of the Tobacco Prevention Program and the Resolution to restrict the sale and marketing of tobacco products.

Scott Wiley, 723 Davis Street, felt because the City of Jacksonville wanted to charge Neptune Beach for tipping fees, we should ask them to either provide animal control for the city or reimburse us for animal control costs.

PROPOSED ORDINANCES

Ord. No. 2011-XX ORDINANCE NO. 2011-XX, TEMPORARY SIGNS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, AMENDING SEC. 27-583 PERMITTED TEMPORARY SIGNS AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette explained this Ordinance would allow temporary signs to be used for 30 days. The current Ordinance allows them to be used for only 14 days. She wanted to remain on legal ground.

Councilor Jolly questioned if there was a size limit for temporary signs. City Manager Jarboe replied normally banners are used for temporary signs.

City Attorney Krechowski stated the size requirements were listed in Sec. 27-583 (b) (1) c and d on the Ordinance.

Vice Mayor Tucker questioned if the definition of a "sign" or "banner" should be in the Ordinance. City Manager Jarboe replied this hasn't been a problem in the past with the current Ordinance.

Consensus: **FORWARD TO FIRST READ IN DECEMBER.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

CDB EDUCATION ON COMMUNITY DEVELOPMENT BOARD: Mayor Pruette stated this would be deferred to the next workshop meeting, due to the absence of Councilor Arthur.

Consensus: **FORWARD TO THE NEXT WORKSHOP.**

Animal Control ANIMAL CONTROL ISSUES: Mayor Pruette stated we had a lot of complaints over the years with animal control issues. She asked Council if they had any issues they wished to convey to the City Manager regarding animal control.

City Manager Jarboe explained he has received complaints regarding animal control being "too strict" as well as "not strict enough." He felt the previous animal control officer was not strict enough. There should be a balance in order to protect the animal and the public. The new animal control officer will be properly trained to take a balanced approach dealing with animals and the public.

Councilor Pardee felt it was important to have someone who is trained. He would like the City to consider Mr. Wiley's public comment suggesting the City of Jacksonville taking over our animal control or reimbursing the City for animal control. He would like to get some information on what the response time would be from the City of Jacksonville on animal control calls.

City Manager Jarboe felt the City of Jacksonville has never responded to animal control calls to the satisfaction of the beaches. He felt the beaches needed to heighten enforcement.

Mayor Pruette stated we have spent an average of \$78,000 per year over the past 15 years on animal control. She felt the County should at provide reimbursement for at least a portion of the cost. She has asked City of Jacksonville Councilor Bill Gulliford to bring up the subject at a committee meeting.

Vice Mayor Tucker agreed the City of Jacksonville should be accountable to some degree. She felt the City of Jacksonville would not provide the quality of service as having our own animal control officer.

Councilor Jolly stated it was his understanding the City of Jacksonville only had six or seven animal control officers. He felt they could not provide the quality of service the city wanted and we should proceed with hiring our own animal control officer.

Mayor Pruette stated our citizens and our animals matter and the city needed to hire someone who is caring and compassionate to animals and at the same be able to enforce our code.

Commercial
Recycling

COMMERCIAL RECYCLING: City Manager Jarboe explained commercial recycling would help reduce the amount of tonnage in the landfill which would reduce tipping fees. Bars and restaurants use a lot of glass which adds a considerable amount of tonnage in the landfill. He added that recycling is also the right thing to do to reuse our valuable resources rather than throwing them into a landfill. He asked Council to allow him to get proposals from solid waste companies for commercial recycling. The proposal would include how they would go about collecting it because it would a difficult task. He hoped to receive responses from at least four or five companies.

Consensus: **TO DIRECT THE CITY MANAGER TO ADVERTISE RFP'S FOR COMMERCIAL RECYCLING.**

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, felt the City of Jacksonville could not provide much in the way of animal control services and we needed to have our own animal control officer. She felt the new animal control officers should have a background that included some sort of expertise with animals and they should understand the nature of animals.

COUNCIL COMMENTS

Councilor Jolly questioned the time period for the hiring of a special magistrate. City Attorney Krechowski responded the advertisement was published last week and applications were being accepted until December 28th. He has received three applications and was encouraged by the applicants. The applications would be reviewed and someone should be selected by February.

Mayor Pruette wished everyone a Happy Thanksgiving.

Adjournment

There being no further business, the meeting adjourned at 6:35 pm.

Harriet Pruette, Mayor

Attest:

Lisa Volpe, CMC, City Clerk

Councilor John Jolly
Councilor Eric Pardee
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Director of Public Safety David Sembach

Order Call/Pledge Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Arthur to lead the pledge of allegiance.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS / NONE

APPROVAL OF MINUTES

Moved by Tucker, seconded by Arthur.

City Clerk Volpe stated City Attorney Krechowski informed her it was not the intent to strike through the following; ~~(4) Liability insurance in the amount of at least one hundred thousand dollars (\$100,000.00) if an owner possesses more than one dangerous dog, said owner shall provide liability insurance totaling at least two hundred thousand dollars (\$200,000.00),~~ as indicated on the October 10, 2011, Regular City Council Meeting Minutes.

She suggested amending the October 10, 2011, Regular City Council Meeting Minutes as follows, adding it back in:

4) Liability insurance in the amount of at least one hundred thousand dollars (\$100,000.00) if an owner possesses more than one dangerous dog, said owner shall provide liability insurance totaling at least two hundred thousand dollars (\$200,000.00).

Minutes

Motion: **TO APPROVE THE FOLLOWING MINUTES AS AMENDED:**

OCTOBER 6, 2011, SPECIAL CITY COUNCIL MEETING
OCTOBER 10, 2011, REGULAR CITY COUNCIL MEETING
OCTOBER 24, 2011, WORKSHOP CITY COUNCIL MEETING

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED**COMMUNICATIONS & CORRESPONDENCE**

Councilor Pardee recognized audience member and Boy Scout Joe Grogden. Councilor Pardee explained Joe Grogden was completing his final step to become an Eagle Scout by attending the Council meeting tonight.

Councilor Arthur, Mayor Pruette, Vice Mayor Tucker and Councilor Pardee disclosed they spoke with Mr. Sigley regarding V11-05, variance appeal for 1041 Florida Boulevard.

CITY MANAGER REPORT

City Manager Jarboe reported Council members have completed the tour of the new nitrogen sewer processing plant. There was a great team of employees running the plant and it was processing as it should be, one year ahead of schedule.

COMMENTS FROM THE PUBLIC

Charles Sampson, 4200 Ponte Vedra Boulevard, Jacksonville Beach, explained he owned 2 ½ acres of property in the Neptune Marsh subdivision that was considered "open space." Because he could not build on the property he felt the best use of the property would be to sell it to the neighboring homeowners in Neptune Marsh. He requested the City's help in contacting them to find out if they were interested in purchasing the property from him.

Mayor Pruette asked City Manager Jarboe to gather information regarding the property and report back to the Council for discussion at a future workshop meeting.

CONSENT AGENDA / NONE**VARIANCES**

V011-04
1041 Florida Blvd.
Sigley

V011-04, VARIANCE APPEAL FOR CLEBERN WAYNE & JEAN SIGLEY, 1041 FLORIDA BOULEVARD: Mayor Pruette explained Council must affirm, modify or reverse the decision of the Community Development Board to deny the variance request for Mr. and Mrs. Sigley, 1041 Florida Boulevard. The request was to add walls to enclose an existing incomplete detached accessory structure.

Councilor Pardee felt allowing the variance would not adversely affect nearby properties or the public in general. The building was currently an eyesore and would become more appealing if it were completed.

Councilor Arthur felt the variance should be allowed as long as the property owner stayed within the current roof line.

Vice Mayor Tucker agreed the variance should be approved as long as they stayed within the current roof line.

Councilor Jolly felt it would be an improvement for the building to be completed. He questioned if the Council wished to allow the 1,300 square feet which was currently walled in, or the 1,600 square feet he was requesting.

Moved by Pruette, seconded by Arthur.

Motion: **TO REVERSE THE DECISION OF THE COMMUNITY DEVELOPMENT BOARD WITH THE FOLLOWING CONDITIONS: THAT ONLY ONE LIVING UNIT BE ALLOWED ON THE PROPERTY UNLESS ANY NEW UNIT OR UNITS WOULD MEET ALL REQUIREMENTS OF THE CODE.**

Councilor Pardee questioned if the motion allowed the 1,600 square feet. Community Development Director Askew replied the motion would allow the 1,600 square feet as originally applied for.

Roll Call Vote:

Ayes: 4 – Arthur, Pardee, Tucker, Pruette

Noes: 1 – Jolly

MOTION CARRIED

ORDINANCES

Ord. No. 2011-22
Animals

ORDINANCE NO. 2011-22, CHAPTER 6, ANIMALS, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING THE CODE OF ORDINANCES CHAPTER 5 ANIMALS, AMENDING SEC. 6-1 DEFINITIONS; SEC. 6-4 NUISANCES CAUSED BY ANIMALS; SEC. 6-5 PENALTIES; SEC. 6-6 QUARANTINE OF BITING ANIMAL; LABORATORY ANALYSIS; CITY'S LIABILITY; COSTS; SEC. 6-7 IMPOUNDING OF ANIMALS SEC. 6-12 INJURIES CAUSED BY ANIMALS SEC. 6-14 CLASSIFICATION OF DOGS AS DANGEROUS; CERTIFICATION OF REGISTRATION; NOTICE AND HEARING REQUIREMENTS; CONFINEMENT OF ANIMAL; EXEMPTION; APPEALS; UNLAWFUL ACTS, DISPOSAL; SEC. 6-15 ATTACK OR BITE BY DANGEROUS DOG; PENALTIES; CONFISCATION; DESTRUCTION; SEC. 6-30 DEFECATION DISPOSAL AND PROVIDING AN EFFECTIVE DATE.

City Attorney Krechowski suggested the following amendments:

Sec. 6-13 (2) Has severely injured or killed a domestic animal while off the owner's property more than once.

Sec. 6-14(c)(4) Liability insurance in the amount of at least one hundred thousand dollars (\$100,000.00) if an owner possesses more than one dangerous dog, said owner shall provide liability insurance totaling at least two hundred thousand dollars (\$200,000.00).

Mayor Pruette read Ordinance No. 2011-22 by title only and opened the public hearing.

Claudine Pordrey, 323 Sandcastle Way, voiced concern regarding omitting the language "without provocation" and that "minor injuries are not inflicted by dangerous dogs." She felt this was inconsistent with State Statute.

There being no further comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2011-22 ON SECOND READ AND PUBLIC HEARING.**

Mayor Pruette asked City Attorney Krechowski to comment regarding Ms. Pordrey's concerns. City Attorney Krechowski advised this Ordinance may be stricter than the State Statute and that was fine as long as the Council was comfortable with the language.

Councilor Jolly withdrew his original motion because it did not include the amendments made by City Attorney Krechowski. Vice Mayor Tucker withdrew the second to the motion.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE 2011-22 ON SECOND READ AND PUBLIC HEARING AS AMENDED.**

MOTION CARRIED

Ord. No. 2011-24
Elections

ORDINANCE NO. 2011-24, ELECTIONS, FIRST READ: AN ORDINANCE CALLING FOR A REFERENDUM TO AMEND SECTION 2.02 ELECTIONS AND ESTABLISHING AN EFFECTIVE DATE.

City Clerk Volpe advised this Ordinance called for a referendum to amend the Charter by setting the election dates to coincide with State elections. The Ordinance will go to second read in January 2012 after the referendum is approved by the voters.

Moved by Pardee, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-24 ON FIRST READ.**

Councilor Jolly stated City Manager Jarboe suggested at the workshop to amend the Ordinance to read that the "City Council may change the dates to coincide with the Florida legislature."

City Clerk Volpe stated if Council wished to make amendments to the Ordinance they needed to amend it tonight because the second read would not be until January 2012, after the referendum has been approved by the voters.

Recess/
Reconvene

Mayor Pruette called for a recess at 6:30 p.m. and asked City Manager Jarboe to look up the information. Mayor Pruette reconvened the meeting at 6:35 p.m.

Mayor Pruette stated she met with the City Attorney, City Clerk and City Manager. She asked Councilor Pardee to withdraw his original motion.

Councilor Pardee withdrew his motion and Vice Mayor Tucker withdrew her second.

City Clerk Volpe stated City Manager Jarboe has suggested amending the Ordinance as follows: The General Election. Section 2.02 Election and Terms. (d) When two (2) candidates are running for the same elective office the general election shall be set according to section 100.031 Florida Statutes unless otherwise changed by the City Council.

Moved by Jolly, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-24 AS AMENDED.**

Mayor Pruette opened the floor for public comments.

There being no comments from the public, the public hearing was closed.

Roll Call Vote:

MOTION CARRIED

Ord. No. 2011-25
Flood Plain

ORDINANCE NO. 2011-25, AMENDING FLOOD PLAIN, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING AND DELETING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS; SEC. 27-3. AUTHORITY, SEC. 27-15. DEFINITIONS, SEC. 27-150. SPECIAL PROVISIONS WHERE VARIANCE IS SOUGHT TO REQUIREMENTS IN SPECIAL FLOOD HAZARD AREAS, SEC. 27-402. APPLICABILITY, SEC. 27-403, FINDINGS OF FACT, SEC. 27-404. PURPOSE AND INTENT, SEC. 27-405. GENERAL PROVISIONS, SEC. 27-406. DEFINITIONS, SEC. 27-407. ESTABLISHMENT OF SPECIAL FLOOD HAZARD DISTRICTS, COASTAL HIGH HAZARD DISTRICTS AND SHALLOW FLOODING DISTRICTS, SEC. 27-408. CERTIFICATION REQUIRED SEC. 27-410. STANDARDS FOR REDUCING FLOOD HAZARDS IN COASTAL HIGH HAZARD DISTRICTS, SEC. 27-411. STANDARDS FOR REDUCING FLOOD HAZARDS IN SHALLOW FLOODING DISTRICTS, SEC. 27-412. PERMIT AND APPROVAL PROCEDURES, SEC. 27-413. PROCEDURE FOR APPEAL, SEC. 27-414. ADMINISTRATION, SEC. 27-416. MANUFACTURED BUILDINGS, SEC. 27-417. RECREATION VEHICLES AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance is required by the State and the Florida Building Code. If we are not consistent with the State and Building Code, insurance companies could charge a higher rate to our citizens for homeowners insurance.

The ordinance will need to be amended again in March 2012, because they would be making more changes.

Mayor Pruette read Ordinance No. 2011-25 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Arthur, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-25 ON FIRST READ.**

Councilor Pardee agreed to sponsor the ordinance.

Councilor Jolly brought attention to some typing errors which would be corrected before second read.

Special
Magistrate

RESOLUTION NO. 2011-07: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA ESTABLISHING A SPECIAL MAGISTRATE FOR PURPOSES OF CODE ENFORCEMENT REVIEW.

Councilor Pardee stated the language in the Resolution allows the Mayor to appoint the Special Magistrate and the Council to approve the selection. It was his understanding that the entire Council would be interviewing and appointing the applicants.

Mayor Pruette stated she would welcome any comments from the Council in reference to a selection.

Councilor Pardee felt the entire Council should be a part of the process from the beginning

Mayor Pruette recommended the following amendments:

3. The City Manager shall forward to the ~~Mayor~~ Council the applications and proposals of those individuals that are so qualified.

4. Upon review of the applications and proposals, the ~~Mayor~~ Council shall appoint a special magistrate, ~~subject to the approval of the City Council~~ by resolution.

Moved by Pardee, seconded by Tucker.

Town Center
Holiday Lighting

TOWN CENTER HOLIDAY LIGHTING / APPROVAL \$1,750.00: City Manager Jarboe explained the \$1,750.00 would be used to replace and upgrade fixtures in Town Center as requested by the Beaches' Town Center Agency. The money would come out of an old Continental Cable Fund. The fund had a current balance of \$10,000.

Moved by Pruette, seconded by Jolly.

Motion: **TO APPROVE \$1,750.00 WITH THE UNDERSTANDING THAT TWO TCA MEMBERS WILL GET WITH ATLANTIC BEACH AND NEPTUNE BEACH CITY MANAGERS JOINTLY AND TOGETHER WILL COME UP WITH AN UPDATED TRI-PARTY AGREEMENT FOR BOTH CITY COUNCILS TO CONSIDER.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette
Noes: 0

MOTION CARRIED**COUNCIL COMMENTS**

Councilor Pardee stated the City had a job opening for an Animal Control Officer. He suggested anyone interested in the position should ride along with the Atlantic Beach or Jacksonville Beach animal control officer to experience the requirements of the job.

City Manager Jarboe stated he was in the process of taking job applications for the position in house. The position will be advertised to the general public if a current employee is not interested.

Vice Mayor Tucker announced she presented a Proclamation on behalf of Mayor Pruette to the Neptune Beach Elementary School recognizing their 30th Anniversary.

Vice Mayor Tucker announced she attended a meeting at the Beaches Chapel with the Beaches Area Historical Society regarding the relocation of the historical church. They

have currently raised \$200,000 towards the \$300,000 cost to relocate the church.

Councilor Jolly questioned the Council meeting schedule for the remainder of the year. City Clerk Volpe responded the November workshop meeting was scheduled for November 21st. The December regular meeting was scheduled for December 5th. There usually was not a workshop meeting due to the Holiday's. If a workshop was necessary it could be held in January before the regular meeting.

City Manager Jarboe questioned if the Council wanted to hold a workshop meeting in December.

Consensus: **TO HAVE ONE MEETING IN DECEMBER.**

Mayor Pruette explained according to the Interlocal Agreement the County was supposed to take care of animal control. Over the past 15 years the City has spent \$70,000 annually for animal control.

City Manager Jarboe explained he heard the County was trying to work it out so that Neptune Beach did not have to pay a waste disposal tipping fee this year.

Mayor Pruette stated the County should consider reimbursing Neptune Beach for the money spent on animal control or supply an animal control officer for Neptune Beach. The County needs to know that Neptune Beach has been providing its own animal control.

Adjournment

There being no further business, the meeting adjourned at 7:10 p.m.

City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Director of Finance Steve Ramsey
Director of Public Safety David Sembach

ABSENT:

Vice Mayor Kara Tucker

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m. and recognized Atlantic Beach Councilor Elect Mark Beckinbach. She also recognized members of the Beaches Town Center Agency Board, Ed Jones, Amy Roberts, Chris Rule and Mo Shaunessy.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- He was scheduling appointments with Council to tour the new sewer plant.
- Staff was preparing for the newly formed hurricane in the Caribbean.
- A home at 915 Fifth Street was in the foreclosure process.

Councilor Jolly asked City Manager Jarboe to add the Beaches Chapel drainage to the action list. City Manager Jarboe stated the drainage issue applied to the entire Bal Harbour area. He would add this to the action list.

Mayor Pruette announced she went on a tour of the new sewer plant and she was impressed with the improvements.

PUBLIC COMMENTS / NONE**PROPOSED ORDINANCES**

Ord. No. 2011-XX **ORDINANCE NO. 2011-XX, AMENDING THE 2010/2011 BUDGET:** AN ORDINANCE AMENDING THE OPERATING BUDGET FOR THE CITY OF NEPTUNE BEACH, FLORIDA FOR FISCAL YEAR 2011, BEGINNING OCTOBER 1, 2010 AND ENDING SEPTEMBER 30, 2011.

City Manager Jarboe explained the Public Safety Department received a grant to purchase two vehicles and help to pay overtime salaries. The grant money needs to be incorporated into the budget for 2010-2011.

Consensus: **FORWARD TO THE NOVEMBER REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE**ISSUE DEVELOPMENT**

Special Magistrate **RESOLUTION NO. 2011-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH FLORIDA ESTABLISHING A SPECIAL MAGISTRATE FOR PURPOSES OF CODE ENFORCEMENT REVIEW.**

Mayor Pruette stated she would like to hire a special magistrate to handle code enforcement matters beginning early in 2012.

City Attorney Krechowski stated the special magistrate should have experience and knowledge in dealing with code enforcement issues. He suggested the code enforcement meetings be held on a quarterly basis in lieu of a monthly basis.

Councilor Jolly questioned the process of hiring a special magistrate once the Resolution is passed in November. City Attorney Krechowski advised the hiring of a special magistrate will be handled by the City Manager and the Mayor. The idea is to hire someone to begin January of 2012 on a one year contract. City Manager Jarboe stated normally the Mayor would appoint the special magistrate and the Council would confirm the decision. Mayor Pruette added she would welcome any input from the Council.

Consensus: **FORWARD TO THE NOVEMBER REGULAR MEETING FOR APPROVAL.**

Surplus Vehicles **SURPLUS OF POLICE VEHICLES:** City Manager Jarboe explained the Public Safety Department had two Chevrolet Impalas they need to surplus.

Consensus; **FORWARD TO THE NOVEMBER REGULAR MEETING FOR APPROVAL.**

CDBD **EDUCATION ON COMMUNITY DEVELOPMENT BOARD DUTIES:** Mayor Pruette asked to defer this agenda item to the November workshop meeting, due to Vice Mayor Tucker's absence.

Consensus: **FORWARD TO THE NOVEMBER WORKSHOP MEETING.**

Town Center
Holiday Lighting **TOWN CENTER REQUEST FOR FUNDING FOR HOLIDAY LIGHTING:** Ed Jones, 200 First Street, President of the Beaches Town Center Agency, stated the Beaches

Town Center Agency has two fund raisers per year to pay for capital improvements in Town Center. He explained in the past 7 years they have spent \$6,000.00 on benches, \$85,000 on holiday decorations, lighting, as well as the installation and storage of the decorations. They also spent \$6,000 on bike racks, \$7,000 on a website, donated \$3,000 to the trolley, and \$4,000 to Kitties by the Sea. The Beaches Town Center Agency would like the City to use \$1,750.00 of the \$8,000 fund allocated for holiday decorations, to replace the electrical receptacles in Town Center.

Chris Rule, Vice President, Beaches Town Center Agency, 383 Second Street, explained the receptacles and fixtures in Town Center have deteriorated over the years due to the environment. The scope of the project is to replace 22 ground fault receptacles on the lamp posts. They also propose to place weatherproof covers over all the receptacles. One of the focuses of the Beaches Town Center Agency is to clean up and make improvements, as well as add holiday lighting on the island at First Street and Orange Street. In order to accomplish this they will need to add a GFI receptacle. In addition, they will be adding holiday lighting to the island at Third Street and Atlantic Boulevard. The City of Atlantic Beach has agreed to fund a portion of that cost.

Councilor Arthur questioned how many receptacles were functioning properly. Mr. Rule responded the quote from Limbaugh Electric did not indicate how many receptacles were properly working however most of them are worn out. Mr. Limbaugh recommended replacement of all the receptacles.

Mr. Jones indicated the Waste Pro contract with the City provided a fund of \$8,000 per year to use for the City's holiday lighting program. He requested the City contribute \$1,750 to Town Center for the replacement and upgrade of the receptacles. It was his understanding of the tri-party agreement that Neptune Beach was responsible for the maintenance of the public improvements.

Mayor Pruette stated Neptune Beach has always been a partner with Town Center and will continue to do so. She explained the City only had \$8,000 for holiday lighting and it was earmarked for Jarboe Park and Atlantic Boulevard. She added the City would like to be able to add holiday lighting down Third Street. She felt as tight as funds are that the City needed to prioritize spending and if \$1,750 is used to replace receptacles in Town Center that would take away from other areas.

Mayor Pruette stated this year the City has spent \$11,048.56 for improvements and maintenance in Town Center and has done its share in partnering with Town Center.

Mayor Pruette asked City Manager Jarboe if the City was doing its share to maintain Town Center. City Manager Jarboe replied "yes" as indicated on the second page in the agenda. He explained the issue at hand was whether Council wanted to use the \$8,000 in Jarboe Park and Atlantic Boulevard or use part of it for Town Center.

Councilor Arthur asked Mr. Jones if Town Center purchased more lighting and decorations this year. Mr. Jones replied they raised enough money this year to purchase lights to go down First Street between Lemon Street and Orange Street and extend down Lemon Street. Mr. Rule added they were also able to purchase more decorations. They were not asking the City to purchase lights or decorations. They were asking the City to maintain some weaknesses in the infrastructure.

Mayor Pruette asked who installs the lights. Mr. Rule replied a company called PRI does the installation and removal for \$6,000. Mr. Jones added they also pay \$3,000 to store the decorations in a storage facility.

Mr. Rule explained they are trying to eliminate the need for public service employees to be called out to reset GFI's when there is an outage. Mr. Jones indicated the receptacles were also used for other events throughout the year.

Councilor Jolly asked how much their budget was last year. Mr. Rule replied the budget depended upon how much money they are able to raise.

Mayor Pruette stated the balance of the Town Center Board budget was \$27,227.98 in January of 2010. She questioned what the balance was currently. Mr. Jones responded the remainder of their budget has been allocated for several projects.

Councilor Jolly stated the City's budget has decrease for the past 5 years. He questioned whether the money should be spent for Town Center receptacles because only the people visiting Town Center would see them and a lot more people would see them in Jarboe Park.

Mr. Jones stated the Beaches Town Center Agency would be willing to ask the Beaches Town Center Board to help the City with decorations on Third Street but again the City would need to provide the electric and the receptacles.

Amy Roberts, 614 Midway Street, Beaches Town Center Agency board member, felt the lighting was not only about the businesses but for the entire community.

Councilor Jolly stated the City has met its commitments according to the agreement. He would prefer to keep the money in the City and use it for our own decorations.

Councilor Arthur felt the request for the \$1,750.00 was reasonable.

Councilor Pardee felt the request was fair.

Consensus: **FORWARD TO THE NOVEMBER 7th REGULAR MEETING FOR A VOTE.**

Mayor Pruette suggested that Ed Jones and Chris Rule meet with City Manager Jarboe and City Manager Hansen to discuss the tri-party agreement.

Floodplain Ord.

FEDERAL AND STATE MANDATORY UPDATE TO THE FLOODPLAIN ORDINANCE: City Manager Jarboe explained these are mandatory requirements that are issued by the Federal and State government.

Community Development Director Askew explained the Community Development Board discussed the issue at their October meeting. They recommended some changes that will be outlined in the November agenda packet.

Councilor Pardee agreed to sponsor the ordinance.

Consensus: **FORWARD TO THE NOVEMBER REGULAR MEETING FOR FIRST READ.**

Exterior
Construction

TIME LIMIT FOR COMPLETION OF CONSTRUCTION ON EXTERIOR OF STRUCTURES: Mayor Pruette explained there had been complaints from residents regarding the exterior of homes and structures under construction taking years to complete and becoming an eyesore to the community. She spoke recently with Building Official Don Ford who recommended Council adopt an Ordinance requiring the exterior shell of structures to be completed within so many months or a year.

City Attorney Krechowski stated construction issues were governed by the Florida Building Code.

City Manager Jarboe recommended that the Building Official meet with the City Attorney to consider the matter. He added that we could not be in conflict with the Florida Building Code.

City Manager Jarboe added once a building permit is issued, under the Florida Building Code as long as you have an inspection every six months the permit remains active for another six month period and can be extended over a matter of years before the structure is completed.

Councilor Jolly stated he would like the City Attorney to pursue the matter. He agreed incomplete exterior structures were an eyesore to the community. He would like to limit the length of construction time on the exterior of structures although the interior construction of structures would not be limited.

City Manager Jarboe suggested having City Attorney Krechowski research the matter and forward to the November workshop meeting.

Councilor Pardee agreed and mentioned several builders in Jacksonville are also in the middle of projects.

Councilor Arthur felt the Council should address the origin of the specific problem and how often such an ordinance would fix the problem. He was concerned about opening up additional problems.

Mayor Pruetto agreed to sponsor the ordinance.

Consensus: **HAVE THE CITY ATTORNEY DRAFT AN ORDINANCE AND FORWARD TO THE NOVEMBER WORKSHOP MEETING.**

Elections

SUPERVISOR OF ELECTIONS / RECOMMENDED AMENDMENTS OF CHAPTER 2. ELECTIONS: City Clerk Volpe explained because the Legislature frequently changes the dates of primary elections the County has asked that the City amend our Charter and Code once again to coincide with the County elections. They have recommended that we change the Charter and Code to read that the election dates are set by the Florida Statutes. This would eliminate the need to continuously amend the Charter and Code.

City Manager Jarboe recommended amending the Charter and Code to read that the City Council may change the dates to coincide with the Florida legislature. He felt this would avoid any confusion on election dates.

City Clerk Volpe added the referendum could be on the January primary presidential ballot if we have first read in November and second read in December.

Mayor Pruetto asked if this amendment would cost the City. City Clerk Volpe responded the referendum would not be any cost to the City.

Consensus: **DRAFT AND ORDINANCE TO AMEND THE CODE AND THE CHARTER AND FORWARD TO FIRST READ IN NOVEMBER.**

Grant
Expenditures

APPROVAL OF GRANT EXPENDITURES: Mayor Pruette stated City Manager Jarboe has the authority to approve grant expenditures therefore Council did not have to act on this agenda item.

PUBLIC COMMENTS / NONE

COUNCIL COMMENTS

Councilor Pardee thanked City Attorney Krechowski was doing an outstanding job and thanked him. Mayor Pruette concurred.

Adjournment

There being no further business, the meeting adjourned at 7:00 pm.

ORDINANCE NO. 2011-20, CODE ENFORCEMENT, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES, CHAPTER 2 ADMINISTRATION, SECTION 2-436 INTENT, SECTION 2-437 IMPLEMENTATION OF F. S. CH. 162, SECTION 2-438 DEFINITION, SECTION 2-439 ORGANIZATION, SECTION 2-440 ENFORCEMENT PROCEDURE, SECTION 2-441 CONDUCT OR HEARINGS, SECTION 2-442 POWERS, SECTION 2-443 ADMINISTRATIVE FINES, SECTION 2-444 DURATION OF LIEN, SECTION 2-445 APPEALS, SECTION 2-446 SERVICE OF NOTICES, SECTION 2-447 PROVISIONS OF DIVISION SUPPLEMENTAL, AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruetto read Ordinance No. 2011-20 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

City Attorney Krechowski explained the language in the ordinance allows Council the option to replace the code enforcement board with a special magistrate.

City Attorney Krechowski made the following amendments:

Section 2-439. Organization (A) Special Magistrate (2) The Special Magistrate shall serve at the pleasure of the city council. The appointment of the Special Magistrate shall be made for a term of one (1) year with the Mayor reserving the right to terminate the term prior to its natural end, in writing, with no less than thirty (30) days notice.

Section 2-443. Administrative fines; liens. (a) The Special Magistrate or code enforcement board, upon notification by the city manager or his designee that an order of the Special Magistrate or code enforcement board has not been complied with by the set term or, upon finding that the same violation has been repeated by the same violator, may order the violator to pay a fine for each day the violation continues past the date set for compliance or for each time the violation has been repeated, and a hearing shall not be necessary for issuance of the order. The fine imposed shall not exceed two hundred fifty dollars (\$250.00) per day for a first violation and shall not exceed five hundred dollars (\$500.00) per day for a repeat violation.

City Attorney Krechowski stated the Ordinance did not need further discussion.

Art Walk

NORTH BEACHES' ART WALK: City Manager Jarboe explained the consensus of Council at the September workshop was to allow expansion of the art walk to include all commercial areas in Neptune Beach.

City Manager Jarboe stated the rules for the art walk were similar to the rules for other events in Town Center and Jarboe Park. He added the rules do not preclude amplified music however if there are complaints regarding amplified music it will have to be discontinued.

Moved by Tucker, seconded by Jolly.

Motion: **TO APPROVE THE ART WALK TO INCLUDE ALL COMMERCIAL AREAS IN NEPTUNE BEACH.**

Councilor Jolly asked City Manager Jarboe to add to the rules that the satellite sites must be monitored twice during the event.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

MOTION CARRIED

COUNCIL COMMENTS

Vice Mayor Tucker stated she would be out of State and would not be able to attend the October 24, 2011.

Vice Mayor Tucker presented a Proclamation to Mayor Pruette proclaiming October 16, 2011 as "Mayor Harriet Pruette Day" in honor of her 65th birthday.

Mayor Pruette asked City Manager Jarboe to research different alternatives for recycling. City Manager Jarboe replied he would provide information to the Council for the next workshop meeting regarding commercial recycling.

Adjournment

There being no further business, the meeting adjourned at 6:20 p.m.

City Attorney Patrick Krechowski
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

ABSENT:

Councilor John Jolly
Councilor Eric Pardee

Order Call

Mayor Pruette called the special meeting to order at 5:30 p.m.

Tipping Fee

Mayor Pruette welcomed everyone and introduced City of Atlantic Beach Mayor Mike Borno.

Mayor Pruette read the following email from Councilor John Jolly for the record:

I will be out of town and cannot attend Thursday night's special council meeting. I would like my email read into the minutes of the meeting. I believe that both the Cities of Neptune Beach and Jacksonville have obligations under the inter-local agreement. I do not believe that the City of Jacksonville has fully met all of its obligations. Before the City of Neptune Beach pays any invoice that it may receive from the City of Jacksonville for tipping fees, I would like for the records of the City of Jacksonville to be opened for a review to insure that we are charged the correct amount, if any.

Mayor Pruette read the following statement for the record:

For more than a year we have gone back and forth with Jacksonville concerning the landfill tipping fee. Our City Manager along with Atlantic Beach's City Manager have met with Jacksonville's staff on a number of occasions to try and determine if Jacksonville has met the conditions in the Interlocal Agreement that would require us to pay tipping fees. The information provided by Jacksonville at these meetings has been conflicting and confusing. When asked for clarifying information, the Jacksonville staff took more than six weeks to respond. The

same thing has happened when follow up questions were asked. At last such meeting, a Jacksonville staff member conceded that some of the previous information provided by Jacksonville was wrong. In addition, at our Mayors/Managers meetings, over the past 18 months with the previous Jacksonville Mayor, conflicting information was given as to if the tipping fees would be in the Jacksonville Budget. Confusing the matter even more, Mayor Peyton held a community budget meeting at the Beach last spring and told a reporter that the fees would not be in the Budget. His statement was reported in the Beaches Leader. When the new Mayor took office, he and his staff told us many times they wanted to work with us. However, we could never get a clear answer as to if the tipping fees would be in the Jacksonville Budget. Sad to say, we only found out that Mayor Brown had included the fees in the budget by reading it in the newspaper. We next met with the Jacksonville Council's Finance Committee to try to reverse the inclusion of tipping fees in the Budget by Mayor Brown. After hearing our position, the Finance Committee voted to take the fees out of the budget for this year. After our Budget was approved, the Jacksonville Council, at their Budget Hearing, had a surprise amendment approved at 1:00 a.m. in the morning putting the fees back in their budget. Therefore, I am requesting that you consider allowing me to write a joint letter with the Atlantic Beach Mayor to the Jacksonville Council President and Mayor requesting that they fully open their solid waste financial information so that a valid determination can be made if Jacksonville has reached the point where the solid waste fee charged to their citizens fully covers the pick-up and disposal cost as required by the Interlocal Agreement before Neptune and Atlantic Beach can be charged tipping fees. If Jacksonville fails to allow us to audit their information, then I think the City Attorney should be allowed to move forward to seek an injunction until such time as it can be determined if the fees are actually due. In closing, it is the City Attorney's, the City Manager's and my opinion that just because Jacksonville put the fees in their budget doesn't trigger the requirement that we are required to pay them. We need proof that the conditions on tipping fees as stated in the Interlocal Agreement have been met.

City Manager Jarboe explained over the past 18 months he has been receiving conflicting information from the City of Jacksonville administration regarding whether or not the tipping fees would be included in their budget. He voiced concern that the City of Neptune Beach and Atlantic Beach had not been formally notified that Jacksonville intended to charge us tipping fees. He supported joining forces with Atlantic Beach requesting Jacksonville open their financial records relating to landfill tipping charges. He suggested the audit of the financials be conducted by an outside expert who has information and knowledge regarding such fees.

Moved by Pruette, seconded by Tucker.

Motion: **TO AUTHORIZE THE MAYOR TO SIGN A JOINT LETTER WITH THE MAYOR OF ATLANTIC BEACH TO THE CITY OF JACKSONVILLE MAYOR AND COUNCIL PRESIDENT ADVISING THEM OF OUR SURPRISE AND CONCERN WITH THEIR RECENT DECISION TO BEGIN CHARGING A LANDFILL TIPPING FEE AND REQUESTING THEIR COOPERATION IN WORKING WITH THE CITY STAFF AND CONSULTANTS TO OBTAIN ADDITIONAL INFORMATION TO DETERMINE WHETHER JACKSONVILLE HAS MET THE PROVISIONS IN THE INTER-LOCAL AGREEMENT FOR PAYMENT OF LANDFILL TIPPING FEES AND TO SHARE THE COST THAT IT TAKES TO GATHER THE INFORMATION BETWEEN ATLANTIC BEACH AND NEPTUNE BEACH.**

Vice Mayor Tucker advised she had attended the special meeting of the Atlantic Beach City Commission. She felt the cities should join forces together and write a letter to the City of Jacksonville asking them to open the financial records. She wanted to ensure the Interlocal Agreement was being followed by Jacksonville.

Councilor Arthur questioned the cost of an outside consultant. City Manager Jarboe replied the estimated cost for an outside consultant would be \$15,000 to \$20,000. The cost would be shared with Atlantic Beach.

Councilor Arthur questioned what the next step would be if the consultant determined Jacksonville was not in compliance with the Interlocal Agreement. City Manager Jarboe responded if the City of Jacksonville responds negatively to the written request to open their financials the Atlantic Beach and Neptune Beach City Attorneys' would discuss how to proceed and ask the Council for further directions.

Councilor Arthur asked if there would be a time limit for Jacksonville to respond to the request. City Manager Jarboe agreed there should be a reasonable time.

Mayor Pruette stated we have asked Jacksonville several times to provide the information and they have not responded. She felt Neptune Beach and Atlantic Beach have been forced into taking some action.

City Attorney Krechowski agreed with Mayor Pruette and City Manager Jarboe. This is the first step to position ourselves appropriately. He felt we should continue to work with Atlantic Beach to discuss further actions. He also felt the motion was well stated.

Roll Call Vote:

Ayes: 3 – Arthur, Tucker, Pruette

Noes: 0

MOTION CARRIED

Mayor Pruette added it is very important that we work together with Atlantic Beach stating that we have to protect our citizens and finances.

Councilor Arthur questioned when the letter would be sent to Jacksonville. City Manager Jarboe advised the letter would be sent the beginning of next week.

Mayor Pruette committed on an article in the Florida Times Union that Chris Hand, Jacksonville Mayor Brown's top aide, was quoted saying "ultimately it was the Jacksonville City Council that approved the measure that included the demand for tipping fees from Neptune Beach and Atlantic Beach and that Mayor Brown wanted to wait on implementing measures for tipping fees until next year" She questioned why Mayor Brown put the tipping fees in his budget as a line item and his staff never informed us of his decision. She was disappointed that he did not even let us know.

Adjournment

There being no further business, the meeting adjourned at 5:50 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There was only one report of flooding during the recent heavy rains.

PUBLIC COMMENTS

Linda Stewart, 1309 Neptune Grove Drive West, Executive director of North Beaches Art Walk, explained the North Beaches Art Walk was established as a non-profit August 30, 2009 and will celebrate their 4th Anniversary on October 20, 2011. The art walk currently extends down to Adele Gauge in Atlantic Beach. They are requesting permission to extend the boundaries down Atlantic Boulevard to the Mayoport overpass. She also requested the City provide a list of detailed rules and requirements.

Sandy Golding, 1203 18th Avenue North, Jacksonville Beach, member of the 2008 Animal Ordinance Committee, recommended amendments to the proposed animal ordinance.

PROPOSED ORDINANCES

Ord. No. 2011-16 ORDINANCE NO. 2011-16, AMENDING CHAPTER 6, ANIMALS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES, CHAPTER 6 ANIMALS, AMENDING SEC. 6-4 NUISANCES CAUSED BY ANIMALS; SEC. 6-6 QUARANTINE OF BITING ANIMAL; LABORATORY ANALYSIS; CITY'S LIABILITY; COSTS; SEC. 6-7 IMPOUNDING OF ANIMALS; SEC. 6-14 CLASSIFICATION OF DOGS AS DANGEROUS; CERTIFICATION OF REGISTRATION; NOTICE AND HEARING REQUIREMENTS; CONFINEMENT OF ANIMAL; EXEMPTION; APPEALS; UNLAWFUL ACTS; SEC. 6-15 ATTACK OR BIT BY DANGEROUS DOG; PENALTIES; CONFISCATION; DESTRUCTION; DISPOSAL; AND PROVIDING AN EFFECTIVE DATE.

City Attorney Krechowski explained the following clerical amendments;

Section 6-7 Impounding of animals. (a) Generally. It shall be the duty of the department of public safety to catch and impound, for a period not less than five (5) days, excluding the day of intake and the day of disposition, in a place maintained or designated for that purpose, an animal found at large or unlicensed in violation of the chapter and those animals referenced in Section 6-28 and Section 6-6.

Section 6-7 Impounding of animals.(c)(3)(2)

Section 6-7 Impounding of animals (d) unredeemed animals. An impounded animal that is not redeemed within the five (5) business days, the public safety department will ~~transport the animal to~~ notify the City of Jacksonville's Animal Control Department.

Section 6-14 Classification of dogs as dangerous; certification of registration; notice and hearing requirements; confinement of animal; exemption; appeals; unlawful acts. (b)(3) After the investigation, the animal control authority shall make an initial determination as to whether there is sufficient cause to classify the dog as dangerous and shall afford the owner an opportunity for a hearing before the Code Enforcement Board or the Special Magistrate prior to making a final determination.

Section 6-15 Attack or bite by dangerous dog; penalties; confiscation; destruction. (a) Finally if a dog that has been previously declared dangerous, attacks and causes a severe injury to or injury ~~the that~~ causes the death of any human or domestic animals, the owner is guilty of a felony of the third degree, punishable as provided in F. S. Sec. 775.082 or 775.084.

Vice Mayor Tucker questioned a small dog should have a two bites verses one bite definition of dangerous dog. The City Attorney stated it was consistent with the State's description and is also what other cities use.

Councilor Jolly suggested amending the following:

Section 6-14(b)(2) to include that the animal control authority shall determine whether or not the animal has been inoculated for rabies.

Section 6-15(c) to add that the owner has to make an advanced payment for boarding during the appeal process.

Councilor Arthur questioned if the definition of "severe attack" was consistent with the State. City Attorney Krechowski advised the definition was consistent with the State.

Mayor Pruette agreed that animal control should first determine if the animal had been inoculated for rabies. City Manager Jarboe advised under Florida law the dog is suppose to have a rabies tag on when it is in public.

Mayor Pruette suggested eliminating Ordinance No. 2011-16 because there were too many amendments and introducing this as a new Ordinance.

City Clerk Volpe stated she would renumber the Ordinance and amend the title. The first reading would be in October and the second read would be in November.

Consensus: **FORWARD TO THE OCTOBER REGULAR MEETING FOR FIRST READ AS AMENDED.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Jarboe Park
Girl Scouts

JARBOE PARK, LARGE EVENT APPLICATION / GATEWAY GIRL SCOUTS 100TH ANNIVERSARY OF SCOUTING:

City Manager Jarboe stated the girl scouts have requested to have their 100th anniversary event in Jarboe Park on March 10, 2012.

Deanne Dunlop, Girl Scout Leader, also asked if they could be allowed to have six matching pop up tents and/or a historical tent display. City Manager Jarboe stated he would provide the Girl Scouts a letter regarding the rules and requirements.

Consensus: **TO ALLOW THE TENTS AND FORWARD TO THE OCTOBER REGULAR MEETING FOR APPROVAL.**

Art Walk

NORTH BEACH ART WALK: City Manager Jarboe explained the Art Walk was originally approved for the Town Center area. He recommended Council approve the request to allow the expansion to all commercial zoned areas.

Councilor Pardee voiced concern regarding pedestrians crossing Atlantic Boulevard.

Linda Stewart, Executive Director of the North Beaches Art Walk, explained the route of the shuttle bus. She added they could not prevent people from crossing the street in places other than the traffic lights.

Councilor Jolly asked City Manager Jarboe to prepare a list of requirements for the Art Walk before the approval at the October regular meeting.

Consensus; **FORWARD TO THE OCTOBER REGULAR MEETING FOR APPROVAL. TO ALLOW THE ART WALK TO EXPAND TO ALL COMMERCIAL AREAS.**

COMMUNICATIONS & CORRESPONDENCE

City Attorney Krechowski explained new State requirements require the city to delete Section 14.2 of the Code which prohibits the discharge of firearms within the city limits.

City Attorney Krechowski announced he would be providing training to the Community Development Board members at their September 21, 2011, meeting.

CITY MANAGER REPORT / NONE

COMMENTS FROM THE PUBLIC

Ed Jones, 200 First Street, President of the Beaches Town Center Agency, stated he represented the Town Center Agency. The Comcast contract with the City requires Comcast to donate \$8,000 annually to the City to be used for holiday lighting. He added the TCA has been lighting the Town Center for the past couple of years. He requested the city contribute some of those funds to the TCA to help offset their costs for lighting and also electrical work. Mayor Pruette asked Mr. Jones to meet with City Manager Jarboe regarding the issue. Mr. Jones wanted the issue to be discussed openly in public. Mayor Pruette asked City Manager Jarboe to provide the Tri-party agreement and other information to the Council.

Mayor Pruette called the meeting to order at 5:30 p.m.

Ord. No. 2011-16

ORDINANCE NO. 2011-16, AMENDING CHAPTER 6, ANIMALS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 6 ANIMALS AMENDING SEC. 6-4 NUISANCES CAUSED BY ANIMALS; SEC. 6-6 QUARANTINE OF BITING ANIMAL; LABORATORY ANALYSIS; CITY'S LIABILITY; COSTS SECT. 6-7 IMPOUNDING OF ANIMALS SEC. 6-14 CLASSIFICATION OF DOGS AS DANGEROUS; CERTIFICATION OF REGISTRATION; NOTICE AND HEARING REQUIREMENTS; CONFINEMENT OF ANIMAL EXEMPTION; APPEALS; UNLAWFUL ACTS SEC. 6-15 ATTACK OR BITE BY DANGEROUS DOG; PENALTIES; CONFISCATION; DESTRUCTION DISPOSAL AND PROVIDING AN EFFECTIVE DATE.

City Attorney Krechowski explained the Ordinance that was provided in the packet was not accurate. He needs to go back through the various versions to make sure they have the correct strike throughs and underlines. He apologized for the confusion and recommended delaying action on this Ordinance until the September 26, 2011, workshop meeting.

Consensus:

**TO DELAY ACTION ON ORDINANCE NO. 2011-16 UNTIL THE
SEPTEMBER 26, 2011 MEETING.**

MINUTES
REGULAR CITY COUNCIL MEETING

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

City Attorney Krechowski explained new State requirements require the city to delete Section 14.2 of the Code which prohibits the discharge of firearms within the city limits.

City Attorney Krechowski announced he would be providing training to the Community Development Board members at their September 21, 2011, meeting.

CITY MANAGER REPORT / NONE

COMMENTS FROM THE PUBLIC

Ed Jones, 200 First Street, President of the Beaches Town Center Agency, stated he represented the Town Center Agency. The Comcast contract with the City requires Comcast to donate \$8,000 annually to the City to be used for holiday lighting. He added the TCA has been lighting the Town Center for the past couple of years. He requested the city contribute some of those funds to the TCA to help offset their costs for lighting and also electrical work. Mayor Pruette asked Mr. Jones to meet with City Manager Jarboe regarding the issue. Mr. Jones wanted the issue to be discussed openly in public. Mayor Pruette asked City Manager Jarboe to provide the Tri-party agreement and other information to the Council.

ORDINANCES

Ord. No. 2011-17
Millage

ORDINANCE NO. 2011-17, ADOPTING FINAL MILLAGE RATES, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2011, AND ENDING SEPTEMBER 30, 2012; SETTING FORTH CERTAIN INFORMATION REGARDING "ROLLED-BACK RATES", DIRECTING THE CITY MANAGER TO ADJUST THE ADOPTED MILLAGE RATES IN THE EVENT OF CHANGES IN THE ASSESSMENT ROLL AND TAXABLE VALUE; PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read the following for the record: "This is the millage public hearing for the City of Neptune Beach, Florida. The roll back rate for the City of Neptune Beach is 3.3443 mils. This rate reflects a zero point zero increase over the prior year's millage rate. This is the rate that is to be adopted in the Ordinance by the City Council. This rate is below the tentative rate mailed out to the citizens on their TRIM notices. The rate on the TRIM notice was 3.3627 which is higher than the rate that is being proposed tonight."

Mayor Pruette read Ordinance No. 2011-17 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-17 ON FIRST READ AND PUBLIC HEARING.**

Councilor John Jolly
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Assistant Chief Tony Carrillo

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The nitrogen level is becoming more consistent and meeting standard requirements.
- The beach renourishment is almost complete.
- The Public Service Department has been inspecting the beach crosswalks for loose boards and repairing them.

Mayor Pruette asked City Manager Jarboe to place the Beaches Chapel School on his action list and keep the Council informed of the construction process. City Manager Jarboe replied the construction was scheduled to begin in May 2012.

PUBLIC COMMENTS

Edwin Clements, 570 Pine Street, voiced concern regarding the proposed animal ordinance being too restrictive towards dog owners. He suggested keeping the amount of liability the same at \$100,000 and eliminating the surety bond.

Barbara Jackson, 2001 Cherokee Drive, supported the Invasive Plant Ordinance.

PROPOSED ORDINANCES

Invasive Plants

ORDINANCE NO. 2011-XX, INVASIVE PLANTS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, SECTION 27-445 INVASIVE PLANTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this ordinance outlines invasive plants that are not allowed to be planted in Neptune Beach.

Councilor Arthur agreed to sponsor the Ordinance.

Councilor Arthur questioned how the ordinance would be enforced. City Manager Jarboe responded the Ordinance would be enforced by the code enforcement officer.

Vice Mayor Tucker questioned if the ordinance would be retroactive. City Manager Jarboe replied the Ordinance would not be retroactive.

Mayor Pruette stated she supported the ordinance. She felt the city should put pressure on State representatives to fine nursery's that sell these types of invasive plants.

Consensus: **FORWARD TO THE SEPTEMBER REGULAR MEETING FOR FIRST READ.**

Zoning

ORDINANCE NO. 2011-13, ALLOWABLE USES WITHIN ZONING CODES: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, DELETING TABLE 27-226-1 TABLE OF PERMISSIBLE USES AND AMENDING SECTION 27-226 ALLOWABLE USES WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated this Ordinance was passed on first read but due to concerns it was forwarded to a workshop meeting for further discussion.

Community Development Director Askew stated page 3 under 27-226(h)(2)(a) allowed nursing homes and (b) allowed adult congregate living facilities. She felt due to traffic patterns and limited parking, these types of businesses should only be allowed in C-2 and C-3 zoning districts.

Mrs. Askew stated page 4 under 27-226(h)(2)(g) allowed funeral establishments. She felt this type of business should also only be allowed in C-2 and C-3 zoning districts.

Mrs. Askew stated page 4 under 27-226(h)(3)(b) allowed kiosk sales, (c) allowed restaurants with drive-thru service windows, and (d) allowed retail with drive-thru service windows. She felt (b) kiosk sales should not be allowed in any zoning districts, and (c) and (d) should only be allowed in the C-2 and C-3 zoning districts.

City Manager Jarboe stated the C-1 zoning district was for professional offices and has limited parking.

Councilor Arthur questioned if (a) day spa, should also be moved from the C-1 zoning district. Mrs. Askew explained as long as a day spa met the definition of a true day spa

it was suited for the C-1 zoning district.

Councilor Jolly questioned if the definition of day spa should be amended. Mrs. Askew replied there was already a good definition of day spa in the Code.

Consensus: **ON PAGE 3 CHANGE TO C-2 AND C-3 AND PAGE 4 GO TO C-2 C-3 ON TOP AND THEN DELETE KIOSK AND UNDER C AND D UNDER 3 GOES TO C-2, C-3.**

Mrs. Askew stated page 5 under 27-226(3)(c) and page 6 under 27-226(i)(3)(f) allowed kiosk sales which should be deleted because they are not defined in the Code. City Manager Jarboe explained kiosk sales are usually located inside of shopping malls.

Consensus: **DELETE KIOSK SALES.**

Consensus: **FORWARD TO THE SEPTEMBER REGULAR MEETING FOR SECOND READ WITH AMENDMENTS.**

Animals

ORDINANCE NO. 2011-16, AMENDING CHAPTER 6, ANIMALS; AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 6 ANIMALS, AMENDING SECTION 6-4 NUISANCES CAUSED BY ANIMALS; SECTION 6-6 QUARANTINE OF BITING ANIMAL; LABORATORY ANALYSIS; CITY'S LIABILITY; COSTS, SECTION 6-7 IMPOUNDING OF ANIMALS, SECTION 6-14 – CLASSIFICATION OF DOGS AS DANGEROUS; CERTIFICATION OF REGISTRATION; NOTICE AND HEARING REQUIREMENTS; CONFINEMENT OF ANIMAL; EXEMPTION; APPEALS; UNLAWFUL ACTS. SECTION 6-15 – ATTACK OR BITE BY DANGEROUS DOG; PENALTIES; CONFISCATION; DESTRUCTION. DISPOSAL AND PROVIDING AN EFFECTIVE DATE.

City Attorney Krechowski explained recent incidents involving dangerous dogs have led to amending the animal ordinance. He suggested amending the ordinance changing the required liability insurance from \$100,000 to \$300,000 and eliminating the surety bond.

Councilor Jolly offered the following amendments:

- 1) Section 6-4(c) (2) ~~the citing officer or other person duly authorized under this chapter to issue citations for violations pursuant to this chapter, has witnessed the commission of such a nuisance. When the nuisance is witnessed by an officer of the public safety department.~~
- 2) Section 6-7(a) The license fee for dogs or cats that have been ~~picked up~~ impounded shall be double the fee on the date the dog or cat ~~picked up~~ impounded.
- 3) Section 6-7(b) The department of Public Safety will use ~~the best of their~~ its abilities to determine the owner of the animal and give notice by telephone or in person to the owner of the impounded animal. The notice shall advise the owner of the provisions relating to the redemption and destruction of animals.
- 4) Section 6-7(c)(2) If it is unknown whether the impounded animal has been inoculated for rabies and the animal is to be redeemed or adopted, the Department of Public Safety may require the owner to submit proof of inoculation within seventy two (72) hours of redeeming or adoption.
- 5) Section 6-13(b) Running ~~at large~~ at large prohibited.
- 6) Section 6-14(b)(2) Any animal that is the subject of a dangerous dog investigation, may be impounded with the animal control authority or humanely and safely confined by the owner in a securely fenced or enclosed area

pending the outcome of the investigation and resolution of any hearings.

- 7) Section 6-30 add (b) A citation may be issued to the owner or any person having custody of an animal for violation of this subsection when, and only when, either (1) the city has received, from an adult witness, a sworn affidavit attesting to the animal violating this subsection or (2) the citing officer, or other person duly authorized under this chapter to issue citations for violations pursuant to this chapter, has witnessed the commission of such violation.

Vice Mayor Tucker expressed concern regarding putting staff at risk if dogs have not been inoculated for rabies. City Attorney Krechowski responded animal control employees pick up animals all the time and they are always going to be at risk, this is nothing unusual.

Vice Mayor Tucker agreed with Councilor Jolly's suggested amendments.

Councilor Arthur questioned if the Ordinance addressed animal attacks on a neighbor's dog. City Attorney Krechowski stated this was addressed in Section 6-15(a) however, he was also going to add Section 6-15(b) for a minor domestic animal.

City Attorney Krechowski added it would be difficult for someone to obtain a \$300,000 liability policy once their animal has been designated as dangerous but that is what Chief Sembach has recommended. City Manager Jarboe added the \$300,000 liability did not protect the city, it protected the animal owner.

Mayor Pruette asked City Manager Jarboe to investigate how difficult it would be to obtain a \$300,000 liability policy once a dog has been designated dangerous and the cost difference of a \$100,000 liability policy verses a \$300,000 liability policy.

City Attorney Krechowski reiterated the liability policy would not protect the city. There was a potential issue when the City is aware of a dangerous dog.

Councilor Pardee felt it was reasonable to obtain a \$100,000 liability policy if the surety bond was eliminated. He questioned if the policy would be required per dangerous dog. City Manager Jarboe responded the policy would only be required for the dog that was declared dangerous.

Councilor Pardee suggested leaving the liability policy requirement at \$100,000 until City Manager Jarboe investigates the costs.

Consensus: **FORWARD TO FIRST READ AND WORKSHOP AGAIN IN SEPTEMBER.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Bal Harbour

BAL HARBOUR STORMWATER SOLUTIONS: City Manager Jarboe explained he and the Public Services Department came up with a solution to help ease the flooding issue in Bal Harbour. They propose to install a 25 inch pipe across Fifth Street, from Beaches Chapel, on the Florida Boulevard right-of-way. This will take 80 to 90% of the water from Beaches Chapel into the ditch and allow the current 42 inch pipe to serve only Bal Harbour and the southern part of Hagler Drive. The Public Service Department will be able to do this for about \$5,000 to \$8,000.

Councilor Pardee voiced concern that the ditch would still get backed up with water. City Manager Jarboe responded the water is being backed up in the pipe prior to

entering the ditch which was what was causing the flooding in Bal Harbour.

Consensus: **IT'S A GOOD IDEA.**

Code Enforcement **CODE ENFORCEMENT / SPECIAL MAGISTRATE:** City Attorney Krechowski explained he felt there were some issues with the Code Enforcement Board that led to inconsistent rulings that could lead to future litigation. He would like to add the option to use a special magistrate instead of the Code Enforcement Board. He felt a special magistrate would eliminate inconsistencies and add specific knowledge, experience and efficiency to the code enforcement process.

City Manager Jarboe added the City of Jacksonville Beach has used a special magistrate for the past two years and they have been pleased. City Attorney Krechowski added most local governments in Florida use a special magistrate for code enforcement.

City Manager Jarboe stated this would cost the city about \$450.00 more per year, which did not include the presence of a police officer or training for board members.

Mayor Pruette quoted an article that was in the Beaches Leader a few years ago "The quasi judicial nature of reviewing alleged violations of city ordinances is best handled by a person who can divorce herself or himself from the pressures of politics and the conclusions reached by investigators or plaintiffs. The requirement is to look at facts dispassionately and fairly." She felt this was hard to do in a small community. She liked that the Ordinance allowed the option to revert back to a board.

Vice Mayor Tucker was concerned that hiring a special magistrate would remove citizens from the government. She did not want to lose the citizen involvement with the city. She liked that the Ordinance allowed the option of a board or a special magistrate.

Councilor Jolly asked if the Code would need to be amended in other sections. City Attorney Krechowski stated he would review the Code and refer to that Section in the proposed Ordinance rather than amend each section.

Councilor Arthur asked how much time was spent on code enforcement in the past year. City Manager Jarboe stated his cost figures were based on 10 hours.

City Attorney Krechowski explained if Council chooses to have a special magistrate they would have to disband the Board. City Manager Jarboe added that if for some reason in a year Council decided to switch back to having a Code Enforcement Board they would not have to change the ordinance.

Councilor Pardee preferred having a Code Enforcement Board because it is made up of peers and the membership included people from different trades. He would support trying a special magistrate for one year.

City Manager Jarboe explained the way the Ordinance is written the contract for a special magistrate would have to be renewed annually or the Council could choose to revert back to having a Code Enforcement Board. There would also be a clause in the contract giving the option to dismiss the special magistrate with a 30 day written notice.

Consensus: **FORWARD TO THE SEPTEMBER REGULAR MEETING FOR FIRST READ.**

PUBLIC COMMENTS

Edwin Clements, 570 Pine Street, felt the proposed dangerous dog ordinance was overbearing and expensive and would make people chose between their home and their pet. He suggested the \$100,000 liability remain the same and eliminating the surety bond.

William Robinson, 623 Magnolia Street, thanked the City for doing what they could to help with the drainage issue in the Bal Harbour neighborhood. He had some questions for staff. Mayor Pruette asked Mr. Robinson to meet with the City Manager regarding his questions.

GOAL SETTING
AUGUST 8, 2011 AT 6:15 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held August 8, 2011, at 6:15 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Richard Arthur
Councilor John Jolly
Councilor Eric Pardee
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Public Safety Director David Sembach

Call to Order/Roll Call

The Mayor called the meeting to order at 6:15 p.m.

City Manager Jarboe explained for the past five years the City's revenue has decreased. This year will be the sixth year in a row that the general fund is lower. This Goal Setting Session will review necessary goals to continue to provide services and meet regulatory agency requirements to upkeep the systems. Mayor Pruette asked him to conduct a program on our capital outlay budget for the next five years.

City Manager Jarboe explained the following goals using a powerpoint presentation as outlined below.

Capital Improvement Goals

- Scheduled Improvements for the Water Department.
- Scheduled Improvements for the Wastewater Department.
- Scheduled Improvements for the Stormwater Department.
- Scheduled Improvements for the Public Works Department
- Scheduled Improvements for Public Safety Department.

Scheduled Water Capital Improvements

- Fiscal Year 2012 includes pumps (including a high service pump) for an approximate cost \$31,000.
- Fiscal Year 2013 includes a Variable Frequency Drives (VFD) for the water plant and a replacement truck for an approximate cost of \$33,000.
- Fiscal Year 2014 – 2016 includes pumps and replacement trucks along with major water line construction in the amount of approximate \$2 million dollars set to begin in 2016.

<u>Capital Asset Requested</u>	<u>FY2012</u>	<u>FY2013</u>	<u>FY2014</u>	<u>FY2015</u>	<u>FY2016</u>
2100 GPM High Service Pump	16,000		18,000		
4" Double Pump Diaphragm	15,000				
Variable Frequency Drives (Plant)		15,000			
Truck Replacement		18,000		18,000	
Water Line Replacement					2,000,000

Scheduled Wastewater Capital Improvements

- All upcoming fiscal years include manhole and sewer rehab along with various line improvements in the amount of approximately \$80,000 to \$100,000 per year
- Fiscal Year 2013 and 2014 include replacement effluent pumps and vehicle replacements at an approximate cost of \$45,000 per year.
- Fiscal Year 2015 calls for beginning the Sewer Line Replacement project for approximately \$3,500,000.

<u>Capital Asset Requested</u>	<u>FY2012</u>	<u>FY2013</u>	<u>FY2014</u>	<u>FY2015</u>	<u>FY2016</u>
Manhole & Sewer Rehab	31,000	50,000	50,000	50,000	50,000
Various Line Projects	50,000	50,000	50,000	50,000	50,000
Effluent Pumps Replacements		25,000	20,000		
Sewer Line Replacement				3,500,000	
Vehicle Replacement		20,000	25,000		
Dump Bed for Truck #609	20,000				

Scheduled Stormwater Capital Improvements

- Fiscal Year 2012 calls for a replacement Tractor and Boom Mower possibly using a lease / purchase.
- Fiscal Year 2013 through 2014 includes a replacement vehicle and possibly replacing the Menzi Muck.
- At this time, due to the Water Body Identification (WBID) study now in progress, to determine the fecal count in the creeks, ditches and ponds, the Future Capital Requirements are uncertain.

<u>Capital Asset Requested</u>	<u>FY2012</u>	<u>FY2013</u>	<u>FY2014</u>	<u>FY2015</u>	<u>FY2016</u>
Boom Mower & Tractor (Lease/Purchase)	25,100				
Replacement Vehicle		24,000			
Minzi Muck Replacement			225,000		
WBID Study Results		?	?	?	?

Scheduled Public Works Capital Improvements

- Fiscal year 2013 calls for a mower and a replacement truck in the amount of approximately \$44,000.
- Fiscal year 2014 includes an emergency generator in the approximate amount of \$100,000 for the Public Works Facility.
- Fiscal year 2014 is currently the planned beginning of paving projects for the City. It is intended that approximately \$150,000 to \$200,000 per year be spent on these projects until they are completed. The funds for these projects will be taken from the Better Jacksonville Sales Tax Receipts to alleviate the need for borrowing.

<u>Capital Asset Requested</u>	<u>FY2012</u>	<u>FY2013</u>	<u>FY2014</u>	<u>FY2015</u>	<u>FY2016</u>
Mower		18,900		19,000	
Replacement Truck		25,000		27,000	
P/W Emergency Generator			100,000		
Street Paving			150,000	150,000	150,000

Public Safety Department

- The past seven vehicles purchased by the Police Department was with grant money..
- Grant money was also used to upgrade the communications system and outfit the police vehicles and office with new computers in the past few years.
- The upcoming year will also see a new generator for the Public Safety Department that once again will be paid for with grant money and 911 funds.
- It appears that in the future, we will have to purchase vehicles and other equipment needed with ad valorem tax receipts.

<u>Capital Asset Requested</u>	<u>FY2012</u>	<u>FY2013</u>	<u>FY2014</u>	<u>FY2015</u>	<u>FY2016</u>
Police Cars	30,000	30,000	30,000	30,000	30,000
4 Wheel Drive Police Vehicles	35,000	35,000	35,000	35,000	35,000

Capital Improvement Funding Issues

- Funding for capital improvements in the Water and Wastewater Departments are provided through the rates adopted by the City Council based on the Rate Study performed by Burton and Associates. A new rate study is scheduled for the upcoming budget year to ensure the previously adopted rates are on schedule.
- Funding for the Stormwater capital improvements are provided at this point by the stormwater fee adopted previously by the City Council.
- Funding for the Public Works vehicles and equipment and the Police Department vehicles come from ad valorem taxes, state revenues, and possible grants.
- Paving projects are expected to come from Better Jacksonville Tax receipts.

Future Vehicle and Equipment Issues

- In the past 3 to 4 years, the only vehicles purchased by the City were with grant of special fund money and mainly in the Public Safety Department.
- The average age of vehicles in the Public Works, Water, Wastewater, and Stormwater Departments is 8 years old with an average mileage of approximately 56,000 miles. Some vehicles and equipment are in need of replacement.
- Even with the grant purchases in the past years the average age of vehicles in the Public Safety Department is 4 years old with an average mileage of approximately 46,000 which would equate to approximately 90,000 in a regular vehicle.

City Manager Jarboe explained for the last seven years the budget has been reduced due to lack of revenue and through attrition. There has been a "no hire" policy for most positions and staff has been reduced by 17.5%. The employees have not received salary increases for the past six years. The Public Safety Department has been able to help tremendously by obtaining grants for vehicles and computer equipment. The adjustments in the water and sewer rates have also been a tremendous help. If the revenue does not come in as expected and have to pay tipping fees to the City of Jacksonville we will have to reduce staff by 3 to 3 ½ positions.

Mayor Pruette thanked staff for making the effort to work together to save the community money.

Councilor Arthur questioned if we had been able to increase the reserves to the recommended 3 months of operating expenses. Finance Director Steve Ramsey responded the reserve fund was only still short of the recommended 3 months of normal operating expenses.

Adjournment

There being no further business, the meeting adjourned at 6:35 p.m.

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette advised she had written a letter to the Florida League of Cities authorizing Vice Mayor Tucker to be the voting delegate for the City of Neptune Beach at the 2011 Annual Florida League of Cities Conference.

The Beaches Museum and History Center will be hosting an event Thursday, August 11, 2011 at 5:30 p.m. to celebrate the 80th Anniversary of the City of Neptune Beach.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- Public Services is continuing to find the balance of carbon that will create the bugs to reduce the nitrogen level. It looks like they will be able to meet the requirements of the Department of Environmental Protection and the Environmental Protection Agency.
- The Beach Re-nourishment project is still underway. The Army Corp of Engineers has addressed the safety concerns that were brought to their attention last week.
- He is waiting on the final revenue numbers from the State to complete the budget process.
- No bids were received on the solar panel project for the second time. He is working with the City of Jacksonville to get a sole source through the manufacturer.

COUNCIL COMMENTS

Mayor Pruette stated there was an article in the paper regarding animal abuse. She asked if the Neptune Beach Police Department was investigating the incident. Detective Camille Burban advised she was working on the investigation because the animal was found in Neptune Beach. The City of Jacksonville Beach will most likely take over the investigation

because the animal was taken from its yard which was in their jurisdiction.

Councilor Jolly suggested changing the October council meeting dates to October 10th and October 24th. Mayor Pruetto stated when the meeting dates are changed it confuses the public because some citizens show up for the meetings unaware that date has been changed.

Consensus: **TO HOLD THE OCTOBER CITY COUNCIL MEETINGS ON MONDAY THE 10th AND THE MONDAY THE 24th.**

Adjournment

There being no further business, the meeting adjourned at 6:13 p.m.

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Director of Public Safety David Sembach gave a report on the services offered and the accomplishments of the Public Services Department.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The first reading on the nitrogen level, since the new sewer plant began operation, was 3.56. We are only required to reduce the nitrogen to 10.2. He was proud of the employees at the Public Services Department for doing an outstanding job on the new plant and saving the City money by lowering the cost from 4 million dollars to 2 million dollars and also obtaining a grant for 1 million.
- He has been working with Beaches Chapel and they have come up with a new drainage plan. Beaches Chapel stormwater will go into a separate pipe and drain into the ditch on Florida Boulevard. The existing 42 inch pipe would now be dedicated to Bal Harbour.
- He felt the issue development for the Community Garden and Green Market could be handled administratively and can be removed from tonight's agenda.

City Attorney Krechowski is working on the lease agreement for the Community Garden. The issues would be resolved by Friday.

Mayor Pruette stated she appreciated City Manager Jarboe working to settle the agreements with the Community Garden and Green Market and also working to solve the drainage issues between the Bal Harbour neighborhood and Beaches Chapel.

Councilor Jolly questioned when the bids would go out for the solar panels for the City Hall building. City Manager Jarboe explained the city did not receive any bids the first time because the engineer's requirements were too stringent. We have released the new bid requirements and hope to receive at least three or four bids.

PUBLIC COMMENTS

Mayor Pruette stated the Council had a fiduciary responsibility to question and seek answers in the course of doing business. This did not mean in any way that Council did not support the Green Market and the Community Garden.

Ron Patronik, 1520 Leeward Lane, agreed the City Manager should be able to resolve the issues with the Community Garden and the Green Market without Council involvement. He supported both the Community Garden and the Green Market.

Carol Kartsonis, 7144 Andalusia Avenue, representative for Friends of Northeast Florida Community Gardens, explained they were an advocacy group for community gardens. She congratulated the City of Neptune Beach for allowing the community garden to be placed on city property. She felt Neptune Beach was setting a precedent other cities would follow in allowing community gardens on other city properties.

Diana Lain, 919 Penman Road, supported the Community Garden and Green Market. She felt it was nice way for people to meet and socialize.

Aimee Tous-Parker, 1537 Landing Lane, supported the Community Garden and Green Market. She thanked Mayor Pruette for reaching out to the Beaches Local Food Network and keeping the lines of communication open.

Caroline Sederbain, 301 Myrtle Street, supported the Community Garden and the Green Market. She also suggested the City consider adding community compost in the future.

Ryan Poland, 943 Hagler Drive, also supported the Community Garden and the Green Market.

Mayor Pruette explained the Green Market originally was located in Town Center and from there it was relocated to the K-mart parking lot. From the K-mart location it was moved to Jarboe Park and then to a location in Jacksonville Beach. She was pleased to have the Green Market back in Jarboe Park, it took about eight years to fulfill that dream and they had done a nice job.

PROPOSED ORDINANCES / NONE

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Community Garden	<u>COMMUNITY GARDEN:</u> This was removed from the agenda for the City Manager to handle administratively.
Green Market	<u>GREEN MARKET:</u> This item was removed from the agenda for the City Manager to handle administratively.
Jarboe Park	<u>EVENTS HELD IN JARBOE PARK:</u> City Manager Jarboe explained a moratorium was placed on the use of Jarboe Park due to an overwhelming amount of requests to use the park for private events, schools and daycares. He recommended amending Resolution 2008-13 as follows:

RESOLUTION NO. 2008-13**A RESOLUTION OF THE CITY OF NEPTUNE BEACH,
FLORIDA SETTING THE RULES AND STANDARDS FOR
THE USE OF JARBOE PARK BY GROUPS AND ACTIVITIES.**

Whereas, Jarboe Park is used heavily by the general public and groups.

Whereas, Jarboe Park serves as a regional park since it is used by large numbers of non-residents, while it is only suited to serve as a neighborhood park.

Whereas, Neptune Beach does not have a recreation department like the other beach cities.

Whereas, Jarboe Park is in demand for use for large events and activities.

Whereas, The large demand for use on the park requires additional time and expense for the City.

Whereas, the City Council of the City of Neptune Beach, Florida has determined that it is necessary to have rules and standards for events in the park due to its heavy use.

Now, Therefore, be it ordained by the City Council of Neptune Beach, Florida the following rules apply to events in Jarboe Park:

~~Rules for Non-City Short Term Small Events in Jarboe Park—~~

~~1. All events must have prior approval of the City Manager.~~

~~1~~Small events may be allowed that have less than ~~forty~~ twenty-five people or ~~twenty~~ fifteen cars if approved by the City Manager.

2. The responsible person for a small events must sign an agreement provided by the City Manager. Failure to adhere to agreement will require a payment of \$250.

3. Large events, twenty-six or more, must have Council approval. The Council will set conditions for a agreement required for the event including a deposit. The City Manager will make recommendations for the agreement.

- ~~4. Local schools in Neptune Beach may have larger short term events if approved by the City Manager.~~
- ~~4. No sales will be allowed or business activities will be allowed in the park.~~
- ~~5. All events sponsored by non-Neptune Beach Residents must have insurance holding the City harmless.~~
- ~~6. Non-Neptune resident events must pay a \$100 fee.~~
- ~~5. No event may take place after 9:00 pm or before 8:00 am.~~
- ~~6. A parking plan must be submitted **and approved** for all events.~~
- ~~7. Birthday and kids parties for Neptune Beach Residents may reserve picnic tables at no cost.~~
- ~~7. All events will be required to clean up right after the event. A \$50 clean up deposit will be required. **Failure to clean up will result in forfeiture of the deposit or payment as outlined in the agreement.**~~
- ~~8. No amplified music **sound unless approved by the Council.**~~
- ~~8. Before any small event takes place it must have an approval letter from the City Manager with conditions of use.~~

Rules for Long Term and Large Events in Jarboe Park.

- ~~1. All long term (**more than two days a year**) and large event (more than forty people) must have the City Council's approval.~~
- ~~2. Any events needing Council approval must be submitted a complete plan to the City Manager two or more months before the event's start date.~~
- ~~3. The plan will require a complete description of the event, dates, time, parking plan, clean up plan, hold harmless insurance of \$1,000,000 and other requirements that may be added by the City Manager.~~
- ~~4. Long term and large events must be non-profit events.~~
- ~~5. The Council may require an event fee and/or deposit of \$250 or more.~~

The Resolution shall become effective on after passage by the City Council.

City Manager Jarboe added the City of Atlantic Beach charges a \$25.00 administration fee to process applications and Council may also want to consider adding a \$25.00 administration fee to the Resolution.

Vice Mayor Tucker agreed to the recommended changes and the \$25.00 application processing fee.

Councilor Jolly agreed with the amendments and the \$25.00 application processing fee. He also suggested amending number 7 to add "the" before "forfeiture" and have it read as follows: "Failure to clean up will result in the forfeiture of the deposit of payment as outlined in the agreement".

Councilor Arthur questioned how many requests the city received each year for use of Jarboe Park for events. City Manager Jarboe replied his office usually receives 7 to 10 requests per week during the summer months and 2 to 3 requests per week during the winter.

Councilor Arthur agreed to the amendments, but voiced concern regarding enforcement of clean up. City Manager Jarboe replied someone from public services would check following the day of the event to see if the area was clean. If it was not clean public services would clean the area and the City would keep the deposit.

City Attorney Krechowski explained the details would be laid out clearly in the agreement.

Councilor Pardee voiced concern regarding the Green Market being allowed to do business in the park. He asked if the Green Market should be excluded from the Resolution. City Manager Jarboe replied the conditions regarding the Green Market were addressed in Chapter 17.

Consensus: **FORWARD TO THE AUGUST CONSENT AGENDA.**

PUBLIC COMMENTS

Roselle Bandostrind, 1641 Landing Lane, was concerned about the \$25.00 application fee for use of Jarboe Park for party events. She suggested organizing a cleanup crew for Jarboe Park.

Gretchen Ferrell, 1166 Third Avenue North, Jacksonville Beach, presented a window cling saying "Proud Sponsor of the Beaches Green Market" to place on the window of City Hall.

Megan Koontz, 708 Second Street, supported the Green Market and the Community Garden. She felt it was a great benefit for the City.

Wesley Grissom, 421 Myra Street, thanked Council for supporting the Green Market and the Community Garden.

Justine Cook, 1542 Landing Lane, stated the Green Market was a factor in her decision to move from St. Johns County to Neptune Beach.

COUNCIL COMMENTS

Councilor Pardee commented the Council has never been against the Green Market or the Community Garden. He voted against the shade sail because at that time there was no up to date lease agreement. He placed the issue on this workshop meeting because he felt it was important to have an updated lease agreement, especially now that the City is going to begin charging an application fee of \$25.00 to citizens wishing to use Jarboe Park.

Councilor Arthur agreed the Council has always supported the Green Market and the Community Garden. He also felt there should be a current written agreement in place.

Vice Mayor Tucker felt the Green Market and the Community Garden were great for the community and was happy that they have become so productive. She thanked the representatives of the Beaches Local Food Network for working with the Council to resolve the issues.

Councilor Jolly felt having a Community Garden was important for the beaches area. He added that the Community Garden was a great way to educate children about where food comes from and how it is grown. He agreed the agreement needed to be in place and up to date.

Adjournment

There being no further business, the meeting adjourned at 6:50 pm.

Harriet Pruette, Mayor

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

John Bryan, Director of Jacksonville Beach Chamber of Commerce, asked the City of Neptune Beach to continue their membership in the Jacksonville Regional Chamber of Commerce Beaches Division. He explained the Beaches Chamber was part of the downtown chamber, which consisted of 3,000 members, and is one of the largest Chambers of Commerce in the Nation. They offer resources in the area of communication, commerce, and community involvement.

Elaine Brown, Chairperson of Jacksonville Beach Chamber of Commerce, explained the Chamber of Commerce was dedicated to businesses and bringing business into the area. The normal membership rate was \$500.00 annually, however, they would offer Neptune beach a discounted membership rate of \$380.00.

Mayor Pruette explained Council would be considering the FY2011-2012 budget in September and would respond at that time. She appreciated the Chamber and all that they did for the community.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Community Development Director Amanda Askew has been out of the office on bereavement leave due to deaths in her family. He asked everyone to keep her and her family in their thoughts and prayers. Flowers will be sent of behalf of the City.
- The Goal Setting Session was scheduled for August 8, 2011, at 6:00 p.m.
- FY2011/2012 budget meetings are scheduled for September 12th and 19th.
- The state revenue figures have not been made available to date. As soon as the figures are received the budget will be presented to the Council.

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES

Ord. No. 2011-12 ORDINANCE NO. 2011-12, AMENDING CHAPTER 27, ADDING PLANNED UNIT DEVELOPMENT: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AND ADDING SECTION 27-244 PLANNED UNIT DEVELOPMENT (PUD) AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the Community Development Board has recommended the following amendments:

1. Section 27-244(a) Delete two (2) acres and add ½ acre.
2. Section 27-244(a) Delete "in which" and replace with "if" in the last sentence.
3. Section 27-244(c) Add "or permitted" after "required", delete "an acceptable", move "(including residential, commercial and recreational)" behind "mix of land uses", add "units" in second sentence behind "residential"
4. Section 27-244(d) Add C-1 zoning district and "of commercial or high residential" after "density" and delete "of"
5. Section 27-244(e) and 27-244(f)(3) change "ordinance" to "special exception"
6. Section 27-244(f) delete "usually" add "development" after such and change the last section of the sentence after the last comma to "the PUD shall required the flowing":
7. Section 27-244(f) (3) Change number "1" to "A" and changed subsections from letters to numbers.
8. Section 27-244(g) delete "or is not completed within the time limits set by the special exception"
9. Section 27-244(h) Second sentence delete "in which" and change to "provided"
10. Section 27-244(i) have the community development director and city council change from development density to open space requirements.
11. Section 27-244(j) delete "for" after "waived" and then add "as part of the process of the"

City Manager Jarboe felt the recommendation to limit the PUD to ½ acre was too small for a redevelopment. He suggested amending it no less than an acre and 1/2.

Councilor Jolly agreed with City Manager Jarboe's amendment and suggested approving recommendations: 2, 3, 4, 5, 6, 7, 8, 9, and 11. He felt number 10 was a comment and not a recommended amendment.

Councilor Tucker agreed with the suggestions of City Manager Jarboe and Councilor Jolly.

Councilor Arthur agreed ½ an acre was too small for a PUD. He suggested keeping it 2 acres.

Councilor Pardee also agreed ½ acre was too small.

Consensus: **TO APPROVE THE RECOMMENDATIONS OF THE COMMUNITY DEVELOPMENT BOARD EXCEPT FOR NUMBERS 1 AND 10.**

Ord. No. 2011-13 ORDINANCE NO. 2011-13, AMENDING CHAPTER 27, LAND USE CHART: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, DELETING TABLE 27-226-1 TABLE OF PERMISSIBLE USES WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance deletes the Permissible Use Table and makes it easier for staff to make determinations regarding zoning. He explains the applications originally go to the Community Development Director for approval. If the Community Development Director determines the zoning doesn't apply to the business, she refers it to the City Manager for determination. If the City Manager has a question he then contacts the City Attorney. If the City determines a particular business is not allowed by zoning the applicant can appeal the administrative decision to the Community Development Board. If the Community Development Board finds the business is not allowed per the zoning requirements the applicant has the ability to appeal to the circuit court.

Councilor Pardee stated Community Development Director Askew, suggested deleting from Section 27-226. Allowable uses within zoning districts:

(h) Commercial-1 (C-1) (3) Uses by special exception, (b) Kiosk Sales, (c) Restaurant with drive-thru service window, and (d) Retail with drive-thru service window.

(i) Commercial-2 (C-2) (3) Uses by special exception, (c) Kiosk Sales

(j) Commercial -3 (C-3) Uses by special exception, (f) Kiosk Sales

City Manager Jarboe stated there was a concern that kiosk sales would become flea markets.

Councilor Jolly stated Community Development Director Askew also questioned Section 27-226. Allowable uses within zoning districts:

(h) Commercial-1 (C-1) (a) nursing home, (b) Adult congregate living facility, and (g) funeral establishment.

Mayor Pruette questioned if the City wanted to allow funeral establishments in the C-1 district.

City Manager Jarboe stated Jacksonville Beach allowed funeral establishments in their C-3 district.

Consensus: **TO ALLOW FUNERAL ESTABLISHMENTS IN THE C-3 DISTRICT.**

Councilor Jolly questioned leaving nursing homes and adult congregate living facilities in the C-1 zoning district. He added they are allowed in the R-5 zoning district.

City Manager Jarboe stated they are required by State law to be allowed in the R-5 zoning district.

Councilor Jolly suggested deferring Ordinance No. 2011-13 to the August workshop when Community Development Director would be present.

Consensus: **TO DEFER ORDINANCE NO. 2011-13 TO THE AUGUST WORKSHOP MEETING.**

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette thanked City Clerk Lisa Volpe and Deputy City Clerk Karla Strait for doing a superb job on the June 20, 2011, meeting minutes.

Mayor Pruette stated the July 4, 2011, holiday celebration was well received this year without any major incidents. City Manager Jarboe added next year should be quieter because the City of Jacksonville Beach may not have a fireworks show next year.

CITY MANAGER REPORT

The City Manager is currently working on drainage improvements plans for Bal Harbour.

COMMENTS FROM THE PUBLIC

Tim Slater, 573 Magnolia Street, thanked Council for adding the conditions to the special exception for Beaches Chapel.

Ed Jones, 200 First Street, thanked Council for supporting the amendment to the animal ordinance. He suggested amending the third sentence to read as follows: "and depositing the defecation in the pet owner's trash container or a city maintained trash container."

CONSENT AGENDA

Employee Health Insurance

EMPLOYEE HEALTH INSURANCE: City Manager Jarboe explained the City has been gathering information for employee healthcare for the upcoming budget year. After looking into various options it appears the current health insurance carrier, AvMed, will provide the city the best option, with no additional cost to the City.

Moved by Jolly, seconded by Tucker.

Ord. No. 2011-15 **ORDINANCE NO. 2011-15, AMENDING CHAPTER 6, ANIMALS, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 6 ANIMALS AMENDING SECTION 6-30 DEFECATION DISPOSAL AND PROVIDING AN EFFECTIVE DATE.**

Mayor Pruette read Ordinance No. 2011-15 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

City Clerk Volpe explained the amendments recommended by Mr. Ed Jones for Section 6-30. Defecation disposal, were as follows:

Section 6-30. Defecation disposal. It shall be a violation for any pet owner of a dog to allow such dog to defecate on any property within the city other than the owner's private property without immediately removing such defecation with some sort of material, utensil or suitable container and depositing the defecation in the pet owner's trash container or a city owned trash container. When walking a dog on any property within the city, other than the owner's property. The owner of that dog shall carry some sort of material, utensil or suitable container with which to ~~depose~~ dispose of the defecation. Pet owners must place their pet's waste in the pet owner's trash container or a city owned trash container.

Moved by Tucker, seconded by Arthur.

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m.

Beaches Chapel

CONTINUATION OF SE11-02 / SPECIAL EXCEPTION FOR BEACHES CHAPEL CHRISTIAN CHURCH / 610 FLORIDA BOULEVARD: Mayor Pruette asked City Attorney Patrick Krechowski to explain to the Council what their duties were.

City Attorney Krechowski asked Council to refer to the provisions of the Code in Section 27-159 and 27-160, which are the governing provisions relevant to the special exception. He explained it was the applicant's burden to prove they have satisfied the provisions of the Code and that they are entitled to the special exception. The duty of the Council was to review the application in its entirety, not on the recommendation of the Community Development Board. The Council is to hear the application in conjunction with the comments and recommendations of the Community Development Board and any other evidence that is presented to the Council. The Council is not bound by the recommendation of the Community Development Board nor is the Council to approve, deny, or approve with conditions, the recommendation of the Community Development Board. Section 27-160 requires Council to determine whether each of the eight criteria have been met based on substantial competent evidence. The Florida Supreme Court has ruled that substantial competent evidence is evidence that a reasonable mind would accept as adequate to support a conclusion for the action to be sustained. The evidence must amount to more than allegations or objections because it must establish a justifiable reason for support of or opposition to any issue. Opinions unsubstantiated by any competent facts are not competent substantial evidence. Any conditions Council deems necessary in order for the special exception to be issued must also be based on substantial competent evidence. The approval of conditions must also be clear, specific and readily enforceable.

Mayor Pruette asked each member of the Council to disclose any ex parte communications.

Mayor Pruette disclosed she had spoken with, Tim Slater, Linda Mille, Elaine Reiss, Chris Walls, Henry Quick, Lang Chairs, Linda Araneta, John Von Thron, Howard McMinn, Scott Wiley, Pastor McCoy, and several church leaders, Michael Coffee, R.C. Keene, Lee McDonald, P.K. Brendan, and Kathy Ondrejicka, and many other people in passing. She also received many letters that are on file in the City Clerk's office.

Vice Mayor Tucker disclosed she spoke with several residents of the Bal Harbour area, Jim Clements, William & Bev Robinson, Gerald Keno, David Keys, Lang Chairs, David Black, Tim & Deb Slater, Charlie Graziano, and Genny Thurson. On Wednesday, May 25th, she also met with Pastor Steve McCoy, Chris Walls, Beaches Chapel Attorney Tim Franklin, and Scott Willey.

Councilor Pardee disclosed he spoke with several Bal Harbour residents and members of the Church.

Councilor Arthur disclosed he met with Tim Slater along with eleven other residents at Mr. Slater's home as well as Tim Franklin, Richard Keene, Amy Cole, and Kerry Chin.

Councilor Jolly presented a list, for the record, of people he had communicated with either verbally or in writing.

Public Hearing

Mayor Pruette reopened the public hearing that commenced on June 6, 2011. She asked everyone to be considerate of the opinions of the speakers.

Mayor Pruette explained she would first call on those people whom Council had not had previous communications with, regarding the special exception, either verbally or written.

The following people spoke in favor of the special exception:

- Carolyn Wagner, 312 Sunrise Circle
- Ruth Stiehl, 1811 Twelve Oaks Lane
- Jay Underwood, 110 Magnolia Street
- Brad Ashmore, 520 First Street
- John Butcher, 1900 Seagate Avenue
- Marcella Bridier, 526 Oleander Street
- Howard McMinn, 1116 Cedar Street
- Teresa Roger, 1400 Neptune Grove Drive
- Dr. Robert Luten, 14710 Plumose Drive, Jacksonville Beach
- Don Rogers, 1400 Neptune Grove Drive
- Dr. Dale Whitaker, 831 Beach Avenue
- Leah Underwood, 548 Margaret Street

The following people spoke in opposition of the special exception:

- Deb Slater, 573 Magnolia Street
- Richard Keene, 733 Bay Street
- Jim Clements, 616 Magnolia Street
- Beverly Robinson, 633 Magnolia Street
- Lang Chairs, 533 Magnolia Street
- David Black, 601 Magnolia Street
- Alan Martin, 1113 First Street

- Charles Graziano, 568 Magnolia Street

Mayor Pruette asked Tim Franklin, Attorney for Beaches Chapel School, to take five minutes to present new evidence that was not considered at the Community Development Board meeting.

Tim Franklin stated he had a team of experts to give professional opinions regarding the concerns of citizens, and five minutes was not sufficient time. He felt they should be entitled to a fair and impartial hearing.

City Attorney Krechowski advised it was the Mayor's prerogative to limit the presentation.

Mayor Pruette explained Council has already reviewed the plans and the evidence that was submitted to the Community Development Board. She would allow Mr. Franklin to answer any questions from the Council after his five minute presentation.

Councilor Pardee stated he felt Mr. Franklin should not be limited to five minutes for his presentation.

Mayor Pruette asked Mr. Franklin to present any new evidence.

Tim Franklin, Attorney representing Beaches Chapel School, stated he had a team of professionals present to address specific aspects of the development. He would like to reserve some time for a rebuttal. He passed out a document for Council to review and introduced it for the record.

Mike Herzberg, Certified Planner, member of the American Planning Association, explained the Neptune Beach Comprehensive Plan indicated that the Beaches Chapel Church property is zoned in the Church land use category. The use is therefore consistent with the Comprehensive Plan and the character of the area. The proposed multipurpose building is typical with the primary use of the property and is appropriate in size. To address the drainage concerns, the project includes improvements that would actually reduce the current stormwater management condition on the property by approximately 53%. The applicant will comply with all standards and seek all necessary permits from the St. Johns River Water Management District. To address the concurrency concerns, the project is vested from concurrency and would not create more trips. Trips are measured by the Institute of Transportation Engineers. There would be no new net impacts in relation to trips. In review of the evidence on record with regard to the special exception he felt the proposed development met or exceeded all local standards and ordinances and should be approved.

There being no further comments from the public, the public hearing was closed.

Mayor Pruette stated Council would now consider the fact based information and if someone on the Council needed to hear from anyone she would call on them.

Mayor Pruette asked Mr. Franklin to proceed.

Mr. Franklin stated for the record he felt allowing only five minutes for him to present a special exception application of this magnitude was insufficient. He asked Council to consider the following: 1) Fact based testimony should be based on expert testimony and lay testimony should not qualify as fact based testimony. 2) Section 27-159 and 27-167 had very specific criteria for granting special exceptions. 3) The Church is a lawful permitted use and the fact that it needs a special exception for the multipurpose building did not mean the Church was a non conforming use.

Mr. Franklin introduced for the record, a letter the church received in 2009, verifying the church was concurrent in reference to drainage and would only require approval from the St. Johns River Water Management District.

Mr. Franklin stated, just this morning, he obtained a copy of a memo written by City Engineer Jim French to City Manager Jarboe. The memo was dated Friday, June 17, 2011 and was in regards to the drainage plans for the proposed multipurpose building. The memo completely contradicted the city engineer's previous opinion regarding the drainage plans.

Mr. Franklin explained the air conditioning compressors were exempt from the City's noise ordinance but the Church has proposed not to locate them on the north side of the building. The Church will also meet the noise decibel levels at all residential property lines.

Mr. Franklin submitted for the record, a photometric chart showing the lighting would be pointed at the property line on the north side of the gym.

Mr. Franklin stated when the Church was built in 1974 it was noted in the record that it would also be used as a kindergarten to 12th grade school and would accommodate 300 to 400 students, therefore traffic calculation will not be increased.

Mr. Franklin agreed there was a drainage problem in the neighborhood. However, it was not known what portion of the drainage problem was caused by Beaches Chapel, what portion was caused by adjacent properties, or what portion was caused by other properties from Atlantic Boulevard through Neptune Beach, all the way to Hopkins Creek. The MS4 permit, referenced by the City Engineer in his June 17, 2011 memo to the City Manager, is a Department of Transportation permit. The City of Atlantic Beach, the City of Neptune Beach and the City of Jacksonville Beach are all on the same MS4 permit and the drainage system serves all three beach cities.

Mr. Franklin stated for the record that the Neptune Beach Comprehensive Plan recognizes that the stormwater system for the Bal Harbour neighborhood is problematic. The Comprehensive Plan states that flooding may occur. However, it also states that the flooding may be acceptable verses the expense of installing a new multimillion dollar stormwater improvement system. He felt Beaches Chapel should not bear the entire burden of solving the drainage problem. They were willing to share in a fair cost to help the City solve the problem.

Mr. Franklin introduced Dr. Michael Coffey to speak in regards to the stormwater concerns.

Dr. Michael Coffey, P.E., LEAD, RS&H Engineering, explained the redevelopment was designed according to State law. The St. Johns River Water Management District requires the water quality for the improved area must be 1¼ inches over the impervious or ½ inch over the entire area, whichever is greater. In addition to meeting those requirements they also propose to reduce the rate of stormwater runoff by 53% for a 25 year storm event, which meets the City Code requirements for redevelopment projects. In response to the memo from City Engineer French, dated Friday, June 17, 2011, if the rate of stormwater runoff is reduced the volume will also be reduced. In any case they will be required to obtain a permit from St. Johns River Water Management District and SJRWMD will have to approve the plans. Mr. Coffey further explained the plans were signed and sealed by the engineers and the reduction in stormwater runoff would occur exactly as the plans show. He added they would consider closing off the back flume and redirecting the water runoff, by milling and repaving the parking lot into the proposed retention areas that will be installed with the new building.

Mayor Pruette asked if anyone would like to make a motion before Council discussion.

Moved by Pardee, seconded by Tucker.

Motion: **TO APPROVE THE APPLICATION WITH THE ACCEPTABLE CONDITIONS AND SUGGESTED ALTERNATIVES THAT THE APPLICANT SENT IN WHICH IS NUMBER FIVE ON THERE, THERE IS AN A, B, AND C, DEALING WITH AIR CONDITIONING NOISE. THE ALL NEW INTERNAL WALK AREAS DELINEATED ON THE SITE PLAN WILL BE CONSTRUCTED AND INSTALLED USING SEMI PERVIOUS MATERIALS, THEY TALK ABOUT A TRUE FIX AND THAT THEY WILL PAY A COMENSURATE PROPORTION OF BASIS FOR ANY IMPROVEMENTS TO THE INFRASTRUCTURE FOR DRAINAGE. ALSO MR. FRANKLIN SAID THERE WAS LIGHTING THEY WOULD COMPLY WITH AND I WOULD ADD THAT THEY MEET CONCURRENCY.**

Councilor Jolly stated Mr. Franklin introduced for the record a six page document at the beginning of the meeting. He suggested either allowing Council some time to review the document, or not considering the document as evidence. Mayor Pruette agreed the document was delivered at the twelfth hour. Council needed to review the document if it was to be considered as evidence. She asked City Manager Jarboe and City Engineer French to also review the document during the recess.

Councilor Pardee asked if he could ask Dr. Coffey a question before the recess. Mayor Pruette asked Dr. Coffey to come forward.

Councilor Pardee asked Dr. Coffey to explain the differences between pervious, impervious, and semi pervious surfaces. Dr. Coffee explained pervious area consisted of grass or sand that could absorb water. Impervious surface consisted of concrete or asphalt which could not absorb water. Semi pervious surface consisted of interlocking pavers that allowed for part of the water to be absorbed into the ground.

Councilor Pardee asked Dr. Coffey to describe what category the existing parking lot was in. Dr. Coffey explained the existing parking lot was all grass and was therefore pervious surface. The new handicap parking area would have to be a paved area with a 2% slope to accommodate wheelchairs.

Councilor Pardee stated the City Engineer indicated the existing parking area consisted of 4,000 square feet of semi pervious surface. He asked Dr. Coffey if he agreed or disagreed with that statement. Dr. Coffey replied Mr. French may have some take offs of the square footage for the parking area that he was unaware of. However, the new design addresses the building, side lot improvements, and the ADA parking area. This is all included in the drainage plan improvements which will provide a 53% stormwater reduction.

Recess/
Reconvene

Mayor Pruette called a recess at 7:30 p.m. and reconvened the meeting at 7:40 p.m.

Mayor Pruette asked Councilor Pardee to restate his motion.

Councilor Pardee restated the motion as follows:

Motion: **TO APPROVE THE PROJECT WITH THE ACCEPTABLE CONDITIONS AND SUGGESTED ALTERNATIVES THAT THE APPLICANT PROVIDING A, B,**

AND C, ALSO INCLUDING D FOR LIGHTING, THE RESTRICTIONS THAT THEY SUPPLIED AND THEY HAVE TO MEET CONCURRENCY.

Mayor Pruette asked City Engineer Jim French to address the Council and the flooding concerns. She added that Council approved a final development order for Beaches Chapel to add a facelift to the front of the gymnasium, a storage room on the side, and correct the drainage problem back in 2000.

Jim French, Neptune Beach City Engineer, stated the stormwater concurrency issue was also addressed back in 2009 and volume restriction along with continuation of flow rate was discussed at that time.

City Manager Jarboe explained the City received a letter from RS&H on Friday, June 17, 2011 that was dated May 31, 2011. The letter was in regards to the proposed multipurpose building and the drainage conditions. The memo written by Mr. French on June 17, 2011, was in response to the letter from RS&H.

Mr. French explained the City's MS4 permit issued by the St. Johns River Water Management District requires the City of Neptune Beach to ensure and maintain treatment of stormwater. The Neptune Beach Code includes stormwater ponds and design criteria. He agreed that the reduction of flow would also reduce the volume but if the volume of discharge is greater in a flood condition, even though the flow is reduced, it could impact the staging of the flood waters and thereby impact the nearby residents. Mr. French explained Hopkins Creek was the drainage canal that received all of the City's water runoff. The State has determined Hopkins Creek as an "impaired waters." The State requires that "impaired waters" have different criteria than what Dr. Coffey stated in his comments. Mr. French added the City wanted to be assured that the MS4 permit is protected.

Mayor Pruette asked City Manager Jarboe what the assessment would be to each homeowner for the City to make the improvements to the stormwater system in the neighborhood. City Manager Jarboe replied the total costs would be divided between those properties that would benefit from the improvements based on the front footage of each property.

Councilor Pardee asked Mr. French, if the special exception is approved tonight, what would be the next step for Beaches Chapel. Mr. French replied the applicant's next step would be to meet concurrency. Councilor Pardee asked Mr. French if he would be the one responsible for approving the concurrency. Mr. French replied he would be responsible for approving the stormwater and the utilities according to State requirements.

City Manager Jarboe explained the City Manager has to ensure the concurrency requirements are met by conducting an analysis of traffic, water, sewer and stormwater based on the plans submitted by the applicant.

Councilor Pardee asked Mr. French if the property remained in its current condition without the addition of the multipurpose building and the improvements, would the drainage condition be better or worse. Mr. French replied that was hard to answer because this is only the preliminary stage, it could be better or worse.

Councilor Arthur asked if the discharge was clearly under the guidelines of the impaired basin. Mr. French replied "yes" the entire city is located within the Hopkins Creek basin.

Councilor Jolly questioned if the letter from RS&H dated May 31, 2011 was the one the City Manager received on Friday, June 17, 2011. City Manager Jarboe replied "yes" the letter, dated May 31, 2011, was hand delivered to City Hall on Friday, June 17, 2011.

Vice Mayor Tucker asked if the water treatment issue was included in Councilor Pardee's motion. Councilor Pardee replied he included in his motion that they had to meet concurrency standards.

Councilor Jolly questioned the proposed lighting situation.

Butch Robbins, RS&H, explained the lighting diagram was provided due to concerns being raised over the two lights to be placed to the rear of the building. The two lights will be ten feet above grade. The calculations indicate the two lights would emit primarily point one foot candles. Point two foot candles are considered equal to moonlight.

Councilor Arthur asked Dr. Coffey if he felt the project was within the State guidelines for treated water going into an impaired basin. Dr. Coffey replied "absolutely." He assured Council that the project would meet or exceed State code.

Councilor Jolly stated Mr. Herzberg felt the multipurpose building would not create additional traffic. He questioned how the addition of a multipurpose building would not create additional traffic. Student athletes from opposing schools, or their parents, would be driving to and from the school to participate or observe athletic events. Mr. Herzberg responded the State of Florida determines trip generation using the Institute of Transportation Engineers standards. The school is the primary use of the property therefore the trip generation rate is based on the number of students. The number of students will not increase. Councilor Jolly and Mr. Herzberg discussed if having the gym at the school would add trips since there would be more activities at the school.

Mr. Herzberg added that he believed Beaches Chapel property provided parking for Jarboe Park. He was not sure the parking for Jarboe Park met city code requirements.

City Manager Jarboe stated Beaches Chapel uses parking at Jarboe Park more often than the City uses their parking. Beaches Chapel provides overflow parking for Jarboe Park events which occur three times a year. Beaches Chapel utilizes parking at Jarboe Park during events at the Church which occur much more often than three times per year.

Mayor Pruette stated Council approved a development order for a facelift and multipurpose building for Beaches Chapel several years ago. She asked Pastor McCoy if that was correct.

Pastor Steve McCoy, 216 Evans Drive, Jacksonville Beach, stated Beaches Chapel received approval several years ago for improvements to the sanctuary. At that time the school had been reduced from a kindergarten through 12th grade school to a middle school. There was no need for a multipurpose/gymnasium at that time. Pastor McCoy stated there were 240 students this year and would be about 250 next year.

Mayor Pruette stated the local paper indicated the facility would be available to lease for private events. Pastor McCoy replied the only event they would be able to lease the building for would be wedding receptions. He added Beaches Chapel has always allowed others the use of their facilities.

Mayor Pruette asked Pastor McCoy if he thought the school and church were outgrowing the campus. Pastor McCoy replied since they added back the high school they have no further intentions for growth. He added the character of the school was to provide small classes with focus on individual attention. There was only one class per grade. The school athletic department was in a conference with other schools of the same size. The proposed

multipurpose building will have bleachers to accommodate seating for 75 people. They would be able to provide parking for those vehicles. They want to maintain the character of the school in the current intimate setting and have no plans to enlarge.

Councilor Pardee stated the new multipurpose building would be built according to current building codes guidelines. He asked Pastor McCoy if they would open the building for use as a shelter if needed. Pastor McCoy replied the beaches would be evacuated during a storm but the building would be valuable after a storm if there was no electricity or water. They would be willing to open the building to the community to use as a shelter.

Councilor Jolly questioned how often the multipurpose building would be used during the week. Pastor McCoy responded the youth group would meet in the building Wednesday evenings. There would be volleyball games in the afternoons. There would be basketball games in the evenings probably once or twice per week. Most of the events would be during the daytime. He added school dances would also be held in the building.

Mayor Pruette read Section 27-161 of the Code of Ordinances. In reviewing a special exception, the Community Development Board, and the City Council may impose such conditions and restrictions upon the premises benefited by a special exception as may be necessary to allow a positive finding to be made on any of the foregoing factors, or to minimize the injurious effect of the special exception.

Mayor Pruette stated she had some conditions that she would like to discuss.

City Manager Jarboe stated a motion was currently on the table.

Councilor Pardee called the question to vote on his motion.

Councilor Arthur stated he would like to consider some other conditions that were not included in Councilor Pardee's motion.

City Manager Jarboe explained there was a motion on the floor but someone could make an amendment to the motion to add other conditions.

Mayor Pruette stated she had some negatives in the findings of facts regarding the special exception that she would like to turn into positives so that she could vote in favor of the church. If those conditions were not included in the motion she would not be able to vote to approve the special exception. She added that Councilor Arthur and Councilor Jolly may also have conditions for consideration.

Councilor Pardee asked to vote on his motion.

City Attorney Krechowski stated Councilor Pardee has called the question to vote on his motion.

Roll Call Vote:

Ayes: 2 – Arthur, Jolly

Noes: 3 – Jolly, Tucker, Pruette

MOTION FAILED TO CALL THE QUESTION

Councilor Pardee questioned if Council has had a chance to review Mayor Pruette's written conditions that were received at the beginning of the meeting.

City Clerk Volpe explained there was a still a motion on the floor. She asked if someone wanted to add an amendment to the motion. If the amendment is not made by Councilor Pardee it would have to be voted on separately before voting on the motion.

Moved by Pruette, seconded by Jolly.

Amended Motion: **THE MOTION IS TO AMEND WITH THE FOLLOWING CONDITIONS. 1) ALL ACTIVITIES THAT TAKE PLACE IN AND AROUND THE PROPOSED STRUCTURE MUST COMPLY WITH THE CITY'S NOISE ORDINANCE, THIS IS TO INCLUDE CONSTRUCTION AND MAINTENANCE OF THE BUILDING. 2) EXCEPT FOR EMERGENCY SITUATIONS FLORIDA BOULEVARD SHALL BE USED FOR INGRESS AND EGRESS TO AND FROM THE SCHOOL AND/OR CHURCH. 3) STACKING OF TRAFFIC SHOULD BE ON THE CHURCH PROPERTY ONLY AND NO TRAFFIC STACKING SHALL TAKE PLACE ALONG THE NORTHERN PORTION OF THE PROPERTY DIRECTLY ABUTTING THE NEIGHBORHOOD HOMES AND NO PARKING SHALL BE PERMITTED ON THE CITY RIGHT-OF-WAY BEHIND BEACHES CHAPEL, BEACHES CHAPEL SCHOOL TO REDUCE NOISE POLLUTION. 4) A VEGETATIVE BUFFER SHALL BE PLANTED ALONG THE NORTHERN AND WESTERN BOUNDARIES OF THE PROPERTY TO REDUCE NOISE POLLUTION AND VISUAL DISTURBANCES VEGETATIVE BUFFER SHALL CONTAIN NATIVE PLANTS AND SHALL BE MAINTAINED AT A SUFFICIENT ENOUGH HEIGHT AND DEPTH TO SATISFY THE INTENT OF THIS CONDITION. 5) BEACHES CHAPEL SHALL REPLACE ALL EXISTING STORMWATER FLUMES DRIVEWAY DISCHARGES AND SHEET FLOW DISCHARGES WITH COLLECTION SYSTEMS AND CLOSE PIPED CONVEYANCES PRIOR TO DISCHARGING INTO THE CITY'S MS4 SYSTEM. ROUTE ALL EXISTING AND PROPOSED DISCHARGES TO THE EXISTING CITY MS4 INLET ON FLORIDA BOULEVARD NEAR THE BEACHES CHAPEL DRIVEWAY, THEREBY REMOVING EXISTING AND PROPOSED DISCHARGES FROM THE EXISTING DITCH ALONG THE NORTHSIDE OF THE PROPERTY AS WELL AS OTHER ADJACENT AREAS PROVIDE ATTENUATION OF FLOW RATE, ATTENUATION OF TOTAL VOLUME OF DISCHARGE AND TREATMENT PRIOR TO DISCHARGE FOR ALL PROPOSED IMPROVEMENTS CONSISTENT WITH STATE TREATMENT GUIDELINES FOR IMPAIRED BASIN, ALL MINOR COLLECTION SYSTEMS AND CONVEYANCES SHALL BE DESIGNED FOR THE FIVE YEAR, TWENTY FOUR HOUR STORM EVENT. ALL MEASURED MAJOR COLLECTION SYSTEMS, CONVEYANCES, SSOTRMWATER MANAGEMENT AREAS AND OUTFALLS SHALL BE DESIGNED FOR THE TWENTY-FIVE YEAR, TWENTY FOUR STORM. THE CITY ENGINEER SHALL APPROVE ALL PROPOSED STORMWATER RELATED DESIGN CALCULATIONS AND PROPOSED IMPROVEMENTS.**

City Manager Jarboe asked Mayor Pruette to include in the motion that Beaches Chapel will be allowed to use the Florida Boulevard right-of-way to improve the drainage.

Mayor Pruette replied Council would consider adding that after the motion made.

Continuation of Motion **THE LIGHTING MEASURED ON THE BEACHES CHAPEL PROPERTY LINE SHALL NOT EXCEED ZERO POINT ONE LUX. BEFORE A CERTIFICATE OF OCCUPANCY CAN BE ISSUED BY THE CITY OF NEPTUEN BEACH, A SEALED "AS BULD" MEASURING THE LIGHTING**

AT THE BEACHES CHAPEL PROPERTY LINES SHALL BE FURNISHED TO THE CITY BY BEACHES CHAPEL. THIS LIGHT REQUIREMENT WILL BE MAINTAINED BY THE BEACHES CHAPEL IN THE FUTURE.

Councilor Pardee questioned how these amendments came about. Mayor Pruette replied she had spoken with the City Manager and the City Engineer regarding the conditions prior to the meeting.

Councilor Pardee stated the gymnasium would already have to comply with the noise ordinance so he felt the noise condition was not necessary. Mayor Pruette responded the Community Development Board had concerns regarding noise.

Councilor Pardee stated the buffer on the northern side of the property was city property. He asked if they would be allowed to plant trees on city property. Mayor Pruette replied as long as the trees did not interfere with the drainage pipes.

Councilor Pardee asked how Mayor Pruette determined the condition for the traffic pattern. Mayor Pruette replied she spoke with city staff regarding the traffic ingress and egress. They felt it would help to have the ingress and egress off of Florida Boulevard and not on a side street.

Councilor Arthur stated most of the information came from the advice of city staff. He agreed with condition number 1, 2, 4, 5, and 7 of Mayor Pruette's amendment. He felt 3, having ingress and egress on Florida Boulevard may create a dangerous situation and he could not support that part of the amendment. He felt number 7 superseded 6. He also agreed with Councilor Pardee's suggestions on A, B, C, D, & E.

Mayor Pruette stated she would agree to strike number 3, the condition regarding ingress and egress.

Councilor Jolly questioned if the lighting concerns were addressed in the motion. Councilor Arthur replied the lighting conditions were addressed in the original motion.

Councilor Arthur explained there was a reason for all the conditions and Council was satisfying a number of issues by offering these suggestions. He thanked Beaches Chapel for their willingness to work with the City.

Mayor Pruette added she wanted to support Beaches Chapel but she also wanted to be assured the flooding problems in the neighborhood would improve.

Vice Mayor Tucker stated she agreed with and would support the conditions of the amendment.

City Manager Jarboe asked to include in the motion that Beaches Chapel will be allowed to use the Florida Boulevard right-of-way to improve the drainage.

Mr. Franklin asked if he could address Council regarding whether Beaches Chapel was willing to agree and comply with all the conditions.

City Clerk Volpe suggested Council decide exactly what conditions they wanted to include in the motion so she could make a copy for Mr. Franklin to review before he addressed the Council.

City Manager Jarboe stated Beaches Chapel was going to need a retention area to handle the drainage. He suggested allowing them to use the Florida Boulevard right-of-way.

City Clerk Volpe asked if Council wanted to include number 1 and number 2 of the Mayor's written suggested conditions.

Consensus: **TO INCLUDE NUMBER'S ONE AND TWO OF THE MAYOR'S WRITTEN CONDITION.**

City Clerk Volpe asked if Council wanted to include number 3 of the Mayor's written suggested conditions. Mayor Pruette stated she would like to strike number 3.

Consensus: **TO STRIKE NUMBER 3 OF THE MAYOR'S WRITTEN CONDITION.**

City Clerk Volpe asked if Council wanted to include number 4.

Consensus: **TO INCLUDE NUMBER 4.**

City Clerk Volpe asked if Council wanted to include number 5.

Consensus: **TO INCLUDE NUMBER 5.**

City Clerk Volpe asked if Council wanted to include number 7.

Consensus: **TO INCLUDE NUMBER 7.**

City Clerk Volpe asked if Council wanted to include number 1 of Councilor Jolly's written conditions.

Consensus: **TO INCLUDE NUMBER 1 OF COUNCILOR JOLLY'S WRITTEN CONDITIONS.**

City Clerk Volpe asked City Manager what condition he wanted to include. City Manager Jarboe stated he would like to include the following language in the motion: "With the approval of the City Manager, on the advice of the City Attorney, Beaches Chapel will be able to use the right-of-way on Florida Boulevard for possible retention and treatment of stormwater".

Mayor Pruette asked Councilor Arthur if he had an issue with the condition regarding lighting. Councilor Arthur responded Beaches Chapel addresses the lighting in their proposed plans. He felt the suggestion made the City Manager to allow them use of the right-of-way for stormwater drainage needed to be included. He felt the vegetative buffer should be located on the Beaches Chapel property not in the city right-of-way.

City Attorney Krechowski asked Mayor Pruette if she wanted to include Councilor Jolly's condition regarding lighting. Mayor Pruette replied "yes" she wanted to include that in the motion.

City Clerk Volpe stated she would write out the conditions for Tim Franklin, Attorney for Beaches Chapel, to consider.

Recess /
Reconvene

Mayor Pruette called a recess at 8:30 p.m. and reconvened the meeting at 8:40 p.m.

Mayor Pruette withdrew her previous motion and Councilor Jolly withdrew his second on the motion.

MOTION WITHDRAWN

Moved by Pruette, seconded by Jolly.

Motion:

- 1) THE HVAC UNIT'S SERVICING THE PROPOSED STRUCTURE SHALL BE LOCATED SO AS TO LIMIT NOISE EXPOSURE TO NEARBY HOMES. THE CITY ENGINEER SHALL BE CONSULTED IN DETERMINING THIS LOCATION.
- 2) STACKING OF TRAFFIC SHALL BE ON THE CHURCH PROPERTY ONLY AND NO TRAFFIC STACKING SHALL TAKE PLACE ALONG THE NORTHERN PORTION OF THE PROPERTY DIRECTLY ABUTTING THE NEIGHBORING HOMES AND NO PARKING SHALL BE PERMITTED ON THE CITY RIGHT-OF-WAY BEHIND BC/BCS TO REDUCE NOISE POLLUTION.
- 3) A VEGETATIVE BUFFER SHALL BE PLANTED ALONG THE NORTHERN AND WESTERN BOUNDARIES OF THE PROPERTY TO REDUCE NOISE POLLUTION AND VISUAL DISTURBANCES. THE VEGETATIVE BUFFER SHALL CONTAIN NATIVE PLANTS AND SHALL BE MAINTAINED AT A SUFFICIENT ENOUGH HEIGHT AND DEPTH TO SATISFY THE INTENT OF THE CONDITIONS.
- 4) BEACHES CHAPEL SHALL REPLACE ALL EXISTING STORMWATER FLUMES, DRIVEWAY DISCHARGES AND SHEET FLOW DISCHARGES WITH COLLECTION SYSTEMS AND CLOSED PIPED CONVEYANCES PRIOR TO DISCHARGING INTO THE CITY'S MS4 SYSTEM. ROUTE ALL EXISTING AND CLOSED PIPE CONVEYANCES AND PROPOSED DISCHARGES TO THE EXISTING CITY MS4 INLET ON FLORIDA BOULEVARD NEAR THE BEACHES CHAPEL DRIVEWAY, THEREBY REMOVING EXISTING AND PROPOSED DISCHARGES FROM THE EXISTING DITCH ALONG THE NORTH SIDE OF THE PROPERTY, AS WELL AS OTHER ADJACENT AREAS. PROVIDE ATTENUATION OF FLOW RATE, ATTENUATION OF THE TOTAL VOLUME OF DISCHARGE, AND TREATMENT PRIOR TO DISCHARGE FOR ALL PROPOSED IMPROVEMENTS CONSISTENT WITH STATE TREATMENT GUIDELINES FOR AN IMPAIRED BASIN. ALL MINOR COLLECTION SYSTEMS AND COVEYANCES SHALL BE DESIGNED FOR THE 5 YEAR 24 HOUR STORM EVENT. ALL MAJOR COLLECTION SYSTEMS, CONVEYANCES, STORMWATER MANAGEMENT AREAS AND OUTFALLS SHALL BE DESIGNED FOR THE 25 YEAR 24 HOUR STORM EVENT. THE CITY ENGINEER SHALL APPROVE ALL PROPOSED STORMWATER RELATED DESIGN, CALCULATIONS AND PROPOSED IMPROVEMENTS.
- 5) WITH APPROVAL OF THE CITY MANAGER WITH ADVICE OF THE CITY ATTORNEY AND CITY ENGINEER, BEACHES CHAPEL WOULD USE THE CITY RIGHT OF WAY OF FLORIDA BOULEVARD FOR DRAINAGE.
- 6) THE LIGHTING MEASURED OF THE BEACHES CHAPEL PROPERTY LINES SHALL NOT EXCEED 0.1 LUX. BEFORE A

CERTIFICATE OF OCCUPANCY CAN BE ISSUED BY THE CITY OF NEPTUNE BEACH, A SEALED "AS BUILD" MEASURING THE LIGHTING AT THE BEACHES CHAPEL PROPERTY LINES SHALL BE FURNISHED TO THE CITY BY BEACHES CHAPEL. THIS LIGHT REQUIREMENT WILL BE MAINTAINED BY THE BEACHES CHAPEL IN THE FUTURE.

City Manager Jarboe clarified the conditions regarding activities complying with the noise ordinance and the condition to use only Florida Boulevard for ingress and egress had been removed from the previous motion.

Tim Franklin, attorney for Beaches Chapel, stated Beaches Chapel would agree to the following conditions:

- The HVAC unit's servicing the proposed structure shall be located so as to limit noise exposure to nearby homes. The city engineer shall be consulted in determining this location.
- Stacking of traffic shall be on the church property only and no traffic stacking shall take place along the northern portion of the property directly abutting the neighboring homes and no parking shall be permitted on the city right-of-way behind BC/BCS to reduce noise pollution.
- With approval of the city manager with advice of the city attorney and city engineer, beaches chapel would use the city right of way of Florida Boulevard for drainage.
- The lighting measured of the beaches chapel property lines shall not exceed 0.1 lux. Before a certificate of occupancy can be issued by the city of Neptune Beach, a sealed "as build" measuring the lighting at the beaches chapel property lines shall be furnished to the city by beaches chapel. This light requirement will be maintained by the beaches chapel in the future.

Mr. Franklin stated Beaches Chapel had issues with the following conditions:

- A vegetative buffer shall be planted along the northern and western boundaries of the property to reduce noise pollution and visual disturbances. The vegetative buffer shall contain native plants and shall be maintained at a sufficient enough height and depth to satisfy the intent of the conditions.

Mr. Franklin explained Beaches Chapel did not have an issue with installing a vegetative buffer on the north and west. They planned to use the area on the north side for circulation around to the back of the building. There is a five foot area between the pavement and the property line where they would place a buffer. He felt the height and depth requirements were ambiguous.

- Beaches Chapel shall replace all existing stormwater flumes, driveway discharges and sheet flow discharges with collection systems and closed piped conveyances prior to discharging into the city's ms4 system. Route all existing and closed pipe conveyances and proposed discharges to the existing city MS4 inlet on Florida Boulevard near the beaches chapel driveway, thereby removing existing and proposed discharges from the existing ditch along the north side of the property, as well as other adjacent areas. Provide attenuation of flow rate, attenuation of the total volume of discharge, and treatment prior to discharge for all proposed improvements consistent with state treatment guidelines for an impaired basin. All minor collection systems and conveyances shall be designed for the 5 year 24 hour

storm event. All major collection systems, conveyances, stormwater management areas and outfalls shall be designed for the 25 year 24 hour storm event. The city engineer shall approve all proposed stormwater related design, calculations and proposed improvements.

Mr. Franklin explained most of this condition is required by the State. He added this condition basically requires redoing the entire system as if the property were vacant. Beaches Chapel has been vested since 1973 and the new gymnasium will meet all impacts for the addition and improve the site by 53.3% according to their engineers. They would be willing to cap off and stop discharge on the northern flume which will protect the ditch.

Mayor Pruette stated these conditions were recommended by staff and she was comfortable with them. Mr. Franklin indicated Mr. French's recommendation suggested the entire stormwater system was impaired and restricted. By setting this condition on Beaches Chapel it would impact every property in the city. The city would be setting a precedent and would have to place the same condition on every property wanting to make improvements.

Mayor Pruette asked Mr. French to respond to Mr. Franklin. Mr. French stated the State set the standard for impaired basins and ranked them each year.

Mr. Franklin asked Mr. French to respond to the question of "restricted system." Mr. French replied the restrictive nature is based on the flooding.

Councilor Pardee asked if the proposed gymnasium was given credit for the existing building that it would be replacing. Mr. French replied when it comes to the flow rate, credit is given for the existing building.

Councilor Pardee stated according to the plans the water will flow into a system that would direct it to the drainage system in the front of the parking lot. There will also be three swells to catch any additional water so that the area would flood anymore. Mr. French replied that was not according to the plans that he reviewed. The water for the building will discharge into the MS4 system without being pretreated. The MS4 permit requires that the city is responsible for the treatment of the water before it is discharged.

Councilor Arthur asked Mr. Franklin to comment on the condition of the vegetative buffer. Mr. Franklin suggested the following language: to be three foot of planting with 5 year normal growth or 80% of opacity.

Councilor Arthur asked Mr. Franklin to comment on the condition of the impaired basin. Mr. Franklin stated they would treat the water according to St. Johns River Water Management District requirements. The following language restates what is already required: Provide attenuation of flow rate, attenuation of the total volume of discharge, and treatment prior to discharge for all proposed improvements consistent with state treatment guidelines for an impaired basin. All minor collection systems and conveyances shall be designed for the 5 year 24 hour storm event. All major collection systems, conveyances, stormwater management areas and outfalls shall be designed for the 25 year 24 hour storm event. The city engineer shall approve all proposed stormwater related design, calculations and proposed improvements.

Councilor Arthur asked if the rest of the language in that condition was acceptable. Mr. Franklin stated the word "existing" is a problem. It would be an acceptable condition to "close off the northern flume and to stop routing existing and proposed discharge to that northern flume."

Mayor Pruette questioned with all the new asphalt, where was the water going to go. City

Manager Jarboe suggested an inverted crown. Mr. Helzberg responded that, essentially what they would do is have the milling channelized to allow the water to flow around the corner.

Mayor Pruette stated Mr. Helzberg had mentioned the possibility of adding a pipe to send the water flow south. Mr. Helzberg replied as an additional improvement they could add a shallow swell that would act as a surcharge for heavy rains.

Mayor Pruette asked Mr. French what he would suggest as far as cutting off the flume and directing the water to the front using a shallow swell, or would it be better to install another pipe. Mr. French advised the development order would go back through engineering for approval and he would ensure the issue was complied with at that time.

Mayor Pruette asked Mr. French if he could assure her the property would no longer have problems with stormwater runoff. Mr. French advised he felt there would be improvements to the problem.

Councilor Jolly stated the objective of condition number 4 was to ensure the MS4 permit requirements of the St. Johns River Water Management District were met.

Mayor Pruette asked Council to consider a way to reword the condition and still protect the MS4 permit.

City Attorney Krechowski advised because the condition is already required by SJRWMD, the language should consistently defer to the SJRWMD's determination and criteria because SJRWMD would be the enforcement agency. If something is required by another agency he would encourage Council to allow them to handle it.

Councilor Arthur suggested amending number 3 as follows: the vegetative buffer will be planted on the northern and western boundary of their property and shall contain native plants and shall be maintained to achieve a five foot height and 80% of opacity within one year.

Councilor Arthur suggested amending number 4 as follows: To close the existing northern flume and route new proposed discharge south of the existing city MS4 inlet on Florida Boulevard.

Mr. Franklin advised he meant to suggest amending the condition regarding the vegetation to achieve a five foot height within three years.

City Clerk Volpe stated for clarification that condition number one would remain as follows:

- 1) **THE HVAC UNIT'S SERVICING THE PROPOSED STRUCTURE SHALL BE LOCATED SO AS TO LIMIT NOISE EXPOSURE TO NEARBY HOMES. THE CITY ENGINEER SHALL BE CONSULTED IN DETERMINING THIS LOCATION.**

City Clerk Volpe stated for clarification that condition number two would remain as follows:

- 2) **STACKING OF TRAFFIC SHALL BE ON THE CHURCH PROPERTY ONLY AND NO TRAFFIC STACKING SHALL TAKE PLACE ALONG THE NORTHERN PORTION OF THE PROPERTY DIRECTLY ABUTTING THE NEIGHBORING HOMES AND NO PARKING SHALL BE PERMITTED ON THE CITY RIGHT-OF-WAY BEHIND BC/BCS TO REDUCE NOISE POLLUTION.**

City Clerk Volpe stated for clarification that number three would be amended as follows;

- 3) A VEGETATIVE BUFFER SHALL BE PLANTED ALONG THE NORTHERN AND WESTERN BOUNDARIES OF THE PROPERTY TO REDUCE NOISE POLLUTION AND VISUAL DISTURBANCES. THE VEGETATIVE BUFFER SHALL CONTAIN NATIVE PLANTS AND SHALL BE MAINTAINED AT A SUFFICIENT ENOUGH HEIGHT AND DEPTH TO SATISFY THE INTENT OF THE CONDITIONS. THREE FEET OF VEGETATION PLANTED TO ACHIEVE 80% OPACITY AND FIVE FEET HIGH WITHIN 3 YEARS. THE LANDSCAPE PLAN WILL BE SUBMITTED WITH THE DEVELOPMENT ORDER FOR FINAL APPROVAL.

City Clerk Volpe stated for clarification number four would be amended as follows;

- 4) CLOSE EXISTING NORTHERN FLUME AND ROUTE NEW PROPOSED DISCHARGE SOUTH TO THE EXISTING CITY MS4 INLET ON FLORIDA BOULEVARD.

City Clerk Volpe stated for clarification that number five would remain as follows:

- 5) WITH APPROVAL OF THE CITY MANAGER WITH ADVICE OF THE CITY ATTORNEY AND CITY ENGINEER, BEACHES CHAPEL WOULD USE THE CITY RIGHT OF WAY OF FLORIDA BOULEVARD FOR DRAINAGE.

City Clerk Volpe stated for clarification that number six would remain as follows:

- 6) THE LIGHTING MEASURED OF THE BEACHES CHAPEL PROPERTY LINES SHALL NOT EXCEED 0.1 LUX. BEFORE A CERTIFICATE OF OCCUPANCY CAN BE ISSUED BY THE CITY OF NEPTUNE BEACH, A SEALED "AS BUILD" MEASURING THE LIGHTING AT THE BEACHES CHAPEL PROPERTY LINES SHALL BE FURNISHED TO THE CITY BY BEACHES CHAPEL. THIS LIGHT REQUIREMENT WILL BE MAINTAINED BY THE BEACHES CHAPEL IN THE FUTURE.

City Clerk Volpe asked Mayor Pruetto to amend her motion to coincide with the above amendments.

Moved by Pruetto, seconded by Jolly.

Amended
Motion:

- 1) THE HVAC UNIT'S SERVICING THE PROPOSED STRUCTURE SHALL BE LOCATED SO AS TO LIMIT NOISE EXPOSURE TO NEARBY HOMES. THE CITY ENGINEER SHALL BE CONSULTED IN DETERMINING THIS LOCATION.
- 2) STACKING OF TRAFFIC SHALL BE ON THE CHURCH PROPERTY ONLY AND NO TRAFFIC STACKING SHALL TAKE PLACE ALONG THE NORTHERN PORTION OF THE PROPERTY DIRECTLY ABUTTING THE NEIGHBORING HOMES AND NO PARKING SHALL BE PERMITTED ON THE CITY RIGHT-OF-WAY BEHIND BC/BCS TO REDUCE NOISE POLLUTION.
- 3) A VEGETATIVE BUFFER SHALL BE PLANTED ALONG THE NORTHERN AND WESTERN BOUNDARIES OF THE PROPERTY TO REDUCE NOISE POLLUTION AND VISUAL DISTURBANCES. THE VEGETATIVE BUFFER SHALL CONTAIN NATIVE PLANTS AND SHALL BE MAINTAINED AT A SUFFICIENT ENOUGH HEIGHT AND DEPTH TO SATISFY THE INTENT OF THE

CONDITIONS.—THREE FEET OF VEGETATION PLANTED TO ACHIEVE 80% OPACITY AND FIVE FEET HIGH WITHIN 3 YEARS. THE LANDSCAPE PLAN WILL BE SUBMITTED WITH THE DEVELOPMENT ORDER FOR FINAL APPROVAL.

- 4) CLOSE EXISTING NORTHERN FLUME AND ROUTE NEW PROPOSED DISCHARGE SOUTH TO THE EXISTING CITY MS4 INSLET ON FLORIDA BOULEVARD.
- 5) WITH APPROVAL OF THE CITY MANAGER WITH ADVICE OF THE CITY ATTORNEY AND CITY ENGINEER, BEACHES CHAPEL WOULD USE THE CITY RIGHT OF WAY OF FLORIDA BOULEVARD FOR DRAINAGE.
- 6) THE LIGHTING MEASURED OF THE BEACHES CHAPEL PROPERTY LINES SHALL NOT EXCEED 0.1 LUX. BEFORE A CERTIFICATE OF OCCUPANCY CAN BE ISSUED BY THE CITY OF NEPTUNE BEACH, A SEALED “AS BUILD” MEASURING THE LIGHTING AT THE BEACHES CHAPEL PROPERTY LINES SHALL BE FURNISHED TO THE CITY BY BEACHES CHAPEL. THIS LIGHT REQUIREMENT WILL BE MAINTAINED BY THE BEACHES CHAPEL IN THE FUTURE.

Roll Call Vote on the amendment:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

Roll Call Vote on Mr. Pardee's motion, seconded by Tucker along with the amendment.

Motion: TO APPROVE THE APPLICATION WITH THE ACCEPTABLE CONDITIONS AND SUGGESTED ALTERNATIVES A) NO HVAC EQUIPMENT SERVING THE NEW MULTIPURPOSE BUILDING GYMNASIUM SHALL BE LOCATED NORTH OF THE NORTHERN WALL PLANE OF ANY BUILDINGS, AND ALL NOISE GENERATED BY SUCH HVAC EQUIPMENT SHALL NOT EXCEED 55.AM. / 60 P.M. DECIBELS AS MEASURED AT THE PROPERTY LINE OF ANY RESIDENTIALLY ZONED PROPERTY. B) ALL NEW INTERNAL WALK AREAS DELINEATED ON THE SITE PLAN (2,200 SQ. FT. MOL) WILL BE CONSTRUCTED / INSTALLED USING SIME-PERVIOUS MATERIALS, C) NOTABLY, THE CHURCH/SCHOOL IS AND ALWAYS HAS BEEN AMENABLE TO PARTICIPATION IN SEWER / STORMWATER SPECIAL ASSESSMENT PROGRAM IF IT CAN BE DEMONSTATED THE PLAN WILL PROVIDE FOR A REQAL AND SPECIAL BENEFIT (A TRUE “FIX: FOR THE ISSUES), ON A COMMENSURTE/PROPORTIONATE BASIS WITH OTHER BENEFITED PROPERTIES, E.G. CHURCH PAYS SIX 96) LOTS IF ASSESSED APPROPRIATELY ON A “PER LOT” OR “PRE-RDU” BASIS. D) LIGHTING PER PLANS SUBMITTED FOR LIGHTING, AND E) WILL MEET ALL CONCURRENCY.

City Manager Jarboe stated that item C) was a condition that did not relate to the special exception. City Attorney Krechowski agreed.

Moved by Pardee, seconded by Tucker.

Amended TO AMEND THE MOTION TO REMOVE C.

Motion:

Tim Franklin suggested that conditions A), C), D), and E) be eliminated because they were inconsistent with the amendments.

Moved by Pardee, seconded by Tucker.

Amended Motion: **TO AMEND THE MOTION TO REMOVE EVERYTHING EXCEPT B) WHICH WOULD NOW BE A).**

Roll Call Vote on the amendments and the motion;

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

MINUTES
REGULAR CITY COUNCIL MEETING
JUNE 6, 2011 AT 6:00 P.M.
CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Regular Meeting of the City Council of the City of Neptune Beach was held June 6, 2011, at 6:00 p.m. in the City Hall Council Chambers, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:
Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor John Jolly
Councilor Eric Pardee
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

STAFF:
Community Development Director Askew
Senior Activities Center Director Lyne

ABSENT:
Councilor Richard Arthur

Order Call/Pledge Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Jolly to lead the Pledge of Allegiance.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS

Mayor Pruette presented a Proclamation to the Woman's Club in recognition of their generous donation of \$500.00 to the Neptune Beach Senior Activity Center.

APPROVAL OF MINUTES

Moved by Tucker, seconded by Pardee.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE / NONE**CITY MANAGER REPORT**

City Manager Jarboe reported on the following:

The new nitrogen plant is 99% completed and personnel have begun the training process.

He is working with the St. Johns River Water Management District and the Department of Environmental Protection and received permission to fill the ponds in Jarboe Park with reuse water. It took six days to fill the water levels and Public Services is now pumping two days a week to maintain the current water levels.

Mayor Pruette stated she was pleased that the St. Johns Water Management District gave us permission to use the reuse water to fill the ponds. It helped to save the wildlife.

COMMENTS FROM THE PUBLIC / NONE

Agenda
Amendment

Mayor Pruette amended the agenda to move SE11-02 forward.

SE11-02
Beaches Chapel
610 Florida Blvd.

SE11-02. SPECIAL EXCEPTION FOR BEACHES CHAPEL CHRISTIAN CHURCH, 610 FLORIDA BOULEVARD:

Mayor Pruette opened the public hearing.

Richard Keene, 733 Bay Street, felt Beaches Chapel School had not been a good neighbor to the Bal Harbour neighborhood. Beaches Chapel was originally supposed to be a little chapel church and was not originally permitted for a school. He felt allowing Beaches Chapel School to expand would be a violation of Church and State. He added that 60% of the students did not live in Neptune Beach and their parents did not pay taxes in Neptune Beach. He was also concerned about flooding problems. He asked the Council to support the decision of the Community Development Board and deny the request for the special exception.

William Robinson, 633 Magnolia Street, opposed the special exception. He voiced concerns regarding flooding, traffic and noise. He asked Council to support the decision of the Community Development Board and deny the request.

Ginny Thurson, 1200 Seventh Street, opposed the special exception. She was concerned about drainage, traffic and her property value.

Tim Slater, 573 Magnolia Street, stated he e-mailed pictures of some of the flooding issues to the Council that showed the infrastructure was overloaded and in need of replacement. He urged the Council to support the decision of the Community Development Board and deny the request for the special exception.

Lang Chaires, 533 Magnolia Street, was concerned about his property values because the new building would be close to his home. He also voiced concern regarding drainage. He opposed the special exception.

Charlie Graziano, 568 Magnolia Street, was concerned about noise and flooding. He asked Council to support the decision of the Community Development Board and deny the special exception.

Tim Franklin, Attorney for Beaches Chapel School, stated he would like to reserve his right to speak on the issue.

Mayor Pruette advised she spoke with City Attorney Krechowski in reference to temporarily adjourning the hearing for the special exception until June 20, 2011. She asked Mr. Franklin, Attorney for Beaches Chapel, if he would agree to adjourn until the June 20, 2011 meeting.

Mr. Franklin responded he was contacted by City Attorney Krechowski in reference to the temporarily adjournment. He had no objection.

Mayor Pruette polled the Council for a consensus to temporarily adjourn the hearing for the special exception for Beaches Chapel School until June 20, 2011.

Consensus: **TO TEMPORARILY ADJOURN THE DATE OF THE HEARING FOR THE SPECIAL EXCEPTION FOR BEACHES CHAPEL SCHOOL TO JUNE 20, 2011.**

City Attorney Krechowski advised in the absence of a full Council the Code required continuing the meeting until it could be considered by a full Council and voted on at a special meeting.

Mayor Pruette temporarily adjourned this portion of the June 6, 2011, regular Council meeting, for SE11-02, Beaches Chapel School and stated it would reconvene on June 20, 2011 at 6:00 p.m.

Recess/
Reconvene

Mayor Pruette called for recess at 6:25 p.m. and reconvened the meeting at 6:30 p.m.

CONSENT AGENDA

Surplus Vehicles **SURPLUS VEHICLES:** Approval to surplus two Ford 4 x 4 vehicles.

Moved by Tucker, seconded by Pardee.

MOTION CARRIED

Ord. No. 2011-05 ORDINANCE NO. 2011-05, REFERENDUM TO AMEND ELECTIONS, SECOND READ AND PUBLIC HEARING: AN ORDINANCE CALLING FOR A REFERENDUM TO AMEND SECTION 2.02 ELECTION AND TERMS, SECTION 3.05 SCHEDULE AND NOTICE OF ELECTIONS AND SECTION 3.06 CITY CANVASSING BOARD OF THE CHARTER; AND ESTABLISHING AN EFFECTIVE DATE.

City Clerk Lisa Volpe explained this Ordinance amends the Charter to coincide with the Referendum changing the election dates. The primary elections will be held in August and the general elections will be held in November. This also allows Duval County to certify the results of the elections.

Mayor Pruette read Ordinance No. 2011-05 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2011-05 ON SECOND READ AND PUBLIC HEARING.**

MOTION CARRIED

Ord. No. 2011-09 ORDINANCE NO. 2011-09, YARD DEFINITIONS, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AMENDING SECTION 27-15 DEFINITIONS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance defines, front, corner, side yards, and corner side yards.

Mayor Pruette read Ordinance No. 2011-09 by title only and opened the public hearing.

Richard Keene, 733 Bay Street, member of the Community Development Board explained this issue arose from a case where there was some ambiguity regarding corner lots, front yards, and corner side yards. This Ordinance should clarify those definitions.

There being no further comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2011-09 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ord. No. 2011-10 ORDINANCE NO. 2011-10, FRONT YARD SETBACK REQUIREMENTS, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AMENDING SECTION 27-231, FRONT YARD SETBACK REQUIREMENTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance defines front yard setback requirements.

Mayor Pruette read Ordinance No. 2011-10 by title only and opened the public hearing.

Richard Keene, 733 Bay Street, member of the Community Development Board there was some ambiguity regarding front yards on corner lots and front yard setback requirements. He hoped this Ordinance would clarify front yard setback requirements.

There being no further comments from the public, the public hearing was closed.

Moved by Pardee, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2011-10 ON SECOND READ AND PUBLIC HEARING.**

MOTION CARRIED

Ord. No. 2011-11 ORDINANCE NO. 2011-11, PARKING, STORAGE OR USE OF MAJOR RECREATIONAL EQUIPMENT AND BOATS, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AMENDING SECTION 27-335, PARKING, STORAGE OR USE OF MAJOR RECREATIONAL EQUIPMENT AND BOATS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance does not allow recreational equipment to be parked on corner side yards.

Mayor Pruette read Ordinance No. 2011-11 by title only and opened the public hearing.

Richard Keene, 733 Bay Street, member of the Community Development Board, explained this issue came before the Community Development Board because the code enforcement officer was having difficulty enforcing parking of recreational vehicles.

There being no further comments from the public, the public hearing was closed.

Moved by Pardee, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2011-11 ON SECOND READ AND PUBLIC**

HEARING.

Ord. No. 2011-12 **ORDINANCE NO. 2011-12, ADDING PLANNED UNIT DEVELOPMENT, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AND ADDING 27-224 PLANNED UNIT DEVELOPMENT (PUD) AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained this Ordinance allows for Planned Unit Development which also would allow Mixed Use Development.

Mayor Pruette read Ordinance No. 2011-12 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Councilor Pardee stated he still had concerns regarding noise issues with mixed use development and asked that this ordinance be forwarded to the June workshop meeting for further discussion.

Mayor Pruette stated this Ordinance will give businesses the option of mixed use development.

Motion: **TO PASS ORDINANCE NO. 2011-12 ON FIRST READ AND PUBLIC HEARING.**

Roll Call Vote:

Ord. No. 2011-13 **ORDINANCE NO. 2011-13, DELETING TABLE OF PERMISSIBLE USES, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, DELETING TABLE 27-226-1 TABLE OF PERMISSIBLE USES AND AMENDING SECTION 27-226 ALLOWABLE USES WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained this Ordinance deletes the table of permissible uses.

City Manager Jarboe stated this Ordinance would be forwarded to the June workshop meeting so the list of businesses provided by Councilor Pardee could be considered.

Mayor Pruette read Ordinance No. 2011-13 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Tucker, seconded by Jolly.

Motion: **TO PASS ORDINANCE NO. 2011-13 ON FIRST READ AND PUBLIC HEARING.**

Councilor Pardee questioned if anything was added to the list of permissible uses that was not in the table of permissible uses.

Community Development Director Amanda Askew advised some of the categories were renamed. She asked Councilor Pardee to refer back to the proposed ordinance that was included in the May 16th, workshop agenda packet because it included her comments regarding the changes. She would have some suggestions for deletions at the June workshop meeting. The Community Development Board would be reviewing Ordinance No. 2011-12 and 2011-13 at their June 22, 2011 meeting.

Ord. No. 2011-14 **ORDINANCE NO. 2011-14, AMENDING CHAPTER 9 ELECTIONS, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 9 ELECTIONS SECTION 9-2 SCHEDULE OF ELECTIONS; SECTION 9-3. PUBLIC NOTICE OF ELECTIONS; SECTION 9-5. QUALIFYING OF CANDIDATES; SECTION 9-6. CAMPAIGN FINANCES; SECTION 9-8. REGISTRATION BOOKS; SECTION 9-9. ELECTION ADMINISTRATION AND PROVIDING AN EFFECTIVE DATE.**

City Clerk Volpe explained this Ordinance changes the dates of our city elections, in the Code Book. Ordinance No. 2011-05 changed the dates in the Charter.

City Clerk Volpe advised and amended the following error: Section 9-5 Qualifying of candidates (d) Any qualified elector of the city may qualify as a write-in candidate by filing a statement to that effect, under oath, with the city clerk, no later than the ~~thirtieth~~ 76th day preceding the next qualifying for the city election, together with the candidate's oath as set forth in subsection (a).

Mayor Pruette suggested this Ordinance be sponsored by all council members.

Consensus: **THIS ORDINANCE TO BE SPONSORED BY ALL COUNCIL MEMBERS.**

Councilor Pardee advised and amended the following error: Section 9-2 Schedule of elections (b) When two candidates are running for ~~he~~ the same elective office the general election shall be held on the first Tuesday after the first Monday in November of each even numbered year.

Moved by Jolly, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-14 ON FIRST READ.**

MOTION CARRIED

OLD BUSINESS / NONE

NEW BUSINESS

SE11-03 SE11-03, SPECIAL EXCEPTION FOR LILLIE'S COFFEE BAR, 200 FIRST STREET: A
Lillie's Coffee Bar special exception for outdoor seating for Lillie's Coffee Bar. The proposed seating would
200 First Street be located on private property in front of Lillie's Coffee Bar.

Community Development Director Askew explained the seating would take up 3feet 8 inches of private property along First Street. They are proposing to relocate some of the existing bistro tables and chairs from the existing patio seating to the First Street location. The Community Development Board has recommended approval of the special exception.

Councilor Pardee asked how many tables would be placed on First Street.

Mike Disch, 118 Magnolia Street, representative for Lillie's Coffee Shop, explained two of the existing tables currently placed in the courtyard would be relocated.

Councilor Pardee questioned the size of the tables. Mr. Disch replied they were no more than 1 ½ feet diameter. They are café type tables.

Councilor Pardee questioned if they would be serving alcohol at the tables. Mr. Disch replied they would be serving coffee. The bistro tables on First Street would not be permanent. They would be moved back into the courtyard during the evening hours.

Councilor Pardee questioned how the tables would be accessed. Mr. Disch responded the tables would have to be accessed from the courtyard entrance on First Street.

Councilor Pardee asked if the patrons would be served at the bistro tables. Mr. Disch stated the coffee shop was self service.

Councilor Pardee asked if there would be some type of barrier to keep customers from

stepping out onto the public right-of-way with alcoholic beverages. Mr. Disch replied there were signs at the entrance that read "no alcoholic beverages beyond this point." It is their policy not to allow any alcohol beverages to leave the courtyard area.

Councilor Pardee asked Mr. Disch if he would commit to not allowing alcoholic beverages at the tables on First Street. Mr. Disch replied "yes" they would not have any alcoholic beverages at those tables.

Mayor Pruette asked City Attorney Krechowski if they could put restrictions on the special exceptions. City Attorney Krechowski advised the Council, according to the Code, after the Community Development Board reviews the special exception and makes their recommendation to the Council, the Council may approve, approve with conditions, or deny the special exception.

Councilor Pardee was concerned about non-customers using the tables. Mr. Disch stated sometimes they have that problem with the tables in the courtyard area.

Vice Mayor Tucker questioned how they would keep the tables within the three feet. Ms. Katie Millan, owner of Lillie's Coffee Shop, replied the tables would be small bistro tables with a couple of chairs. They would be more of a presence than anything else. They wanted to make the exterior of the building appear as a coffee shop other than an office building to attract more customers. They constantly monitor the courtyard. They would place signs on the tables as well as police and monitor the area.

Councilor Jolly asked City Attorney Krechowski if the special exception is approved with conditions, can the special exception be rescinded if those conditions are not met. City Attorney Krechowski replied "yes" they would be in violation of the special exception.

Councilor Jolly stated he would like to add the condition that the City Manager could revoke the special exception if the tables crept onto the public right-of-way or if alcohol was being served.

City Manager Jarboe stated he would like to have the ability to suspend the special exception until Council could review the conditions and make the final decision.

Mayor Pruette voiced concern regarding ADA requirements. City Manager Jarboe explained restaurants could be fined if they did not comply with ADA regulations.

Mayor Pruette was also concerned about alcohol being served. Ms. Millan replied the coffee shop sold minimal alcohol. She was aware that alcohol cannot be served or consumed on public property.

Councilor Pardee voiced concern about customers with dogs, baby strollers, or other items that may extend out onto the public right-of-way. Ms. Millan stated the tables would be brought inside when the restaurant closes at 9:00 p.m. They are trying to attract customers to the establishment.

Moved by Pruette, seconded by Jolly.

Motion: **TO APPROVE THE RECOMMENDATION OF THE COMMUNITY DEVELOPMENT BOARD WITH THE FOLLOWING CONDITIONS: 1) NO OUTSIDE ALCOHOL SERVICE, 2) IF OUTSIDE DINING IN THE OPINION OF THE CITY MANAGER BECOMES A PROBLEM WITH IMPEDING ON THE CITY RIGHT-OF-WAY OR WITH OTHER COMPLAINTS, THE CITY MANAGER MAY SUSPEND SE11-03 UNTIL THE CITY COUNCIL CAN REVIEW THE CONCERNS.**

COUNCIL COMMENTS

Councilor Pardee advised the City of Jacksonville has a new program available that would display high resolution pictures of properties. This program was available at no cost and the Community Development Director had a password.

Councilor Pardee stated he would like to place the Green Market and the Community Garden on the June 20, 2011 workshop meeting agenda for discussion and to review the agreements. Mayor Pruette advised the June workshop had a full agenda and recommended placing the issue on the July workshop. Councilor Pardee agreed to place the issue on the July workshop meeting.

Mayor Pruette stated she would like Chief Sembach to inform the Council of any police action that would take place on July 4, 2011.

City Manager Jarboe stated Chief Sembach was going to give a presentation regarding the duties and accomplishments of the Public Safety Department. His presentation would also be postponed until the July workshop.

City Manager Jarboe added that police enforcement has recently increased on First Street due to complaints.

Adjournment

There being no further business, the meeting adjourned at 7:15 p.m.

City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Building Official Don Ford
Public Safety Director David Sembach

ABSENT:

Councilor John Jolly

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Building Dept.

BUILDING DEPARTMENT – DON FORD: Building Official Don Ford gave a presentation on the duties and functions of the Building Department.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Sliders Restaurant is requesting temporary additional seating while the new outdoor dining area and roof are being constructed. He recommended placing the issue on the June 6, 2011, regular meeting agenda. He will gather the details and provide more information to Council prior to the meeting.

Consensus: **TO PLACE THE REQUEST OF SLIDERS FOR TEMPORARY
ADDITIONAL SEATING ON THE JUNE 6, 2011 AGENDA.**

- He will be meeting with a representative of St. Johns River Water Management District on Wednesday, May 18, 2011 to see if anything can be done to increase the water level in the ponds in Jarboe Park.

Invasive Plants

INVASIVE PLANTS – BARBARA JACKSON / ISH BRANT BEAUTIFICATION COMMITTEE: Barbara Jackson gave a presentation regarding category one and category two invasive plants and asked Council to consider adopting an Ordinance.

Councilor Arthur agreed to sponsor the Ordinance.

PUBLIC COMMENTS

Ed Jones, 200 First Street, asked Council to consider amending Section 6-30, Defecation Disposal, to add that “dog owners be required to dispose of dog waste in a container owned by the dog owner or in a city owned receptacle, and that it be a violation for dog defecation to be deposited in a trash container not owned by the dog’s owner or the city.”

Patricia Hazouri, 207 Florida Boulevard, requested the city create and maintain a satisfaction survey to monitor citizen and business satisfaction within all departments of our local city government.

PROPOSED ORDINANCES

PUD

ORDINANCE NO. 2011-XX, PLANNED UNIT DEVELOPMENT / MAYOR PRUETTE: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AND ADDING 27-244 PLANNED UNIT DEVELOPMENT (PUD) AND PROVIDING AN EFFECTIVE DATE.

Michael Dunlap, 225 Bowles Street, reviewed a presentation he presented to the Council back in 2006, regarding mixed use development.

Vice Mayor Tucker supported moving forward with the Ordinance.

Councilor Arthur stated he would support the Ordinance, adding that there were only three or four sites within the city that could be used for mixed use.

Mayor Pruette added mixed use would give developers more options.

Councilor Pardee supported moving forward with mixed use developments however, he felt the recently adopted noise ordinance may be an issue. He asked staff to research the mixed use developments in Jacksonville Beach to see if there have been any noise complaints or parking concerns.

City Manager Jarboe explained the reason the Ordinance was for a “Planned Unit Development” instead of “Mixed Use Development” was due to the Comprehensive Plan. The Comprehensive Plan did not include “Mixed Use Development” but it did allow for “Planned Unit Development.”

Mayor Pruette commented that mixed use developments would still not be allowed to exceed the 35 foot height limit.

Consensus: **FORWARD TO THE JUNE 6, 2011, REGULAR COUNCIL MEETING FOR FIRST READ.**

Permissible Use
Update

ORDINANCE NO. 2011-XX, UNIFIED LAND DEVELOPMENT REGULATIONS / VICE
MAYOR TUCKER: CHAPTER 27, SECTION 27-226 PERMISSIBLE USE UPDATE.

City Manager Jarboe felt this Ordinance was complicated and suggested Council review the amendments one page at a time. He also suggested this Ordinance be forwarded to an additional workshop meeting after it goes before the Community Development Board.

Community Development Director Askew explained there was a comment section on each page that described each amendment.

Mayor Pruette asked if Council had any comments or amendments on page one.

Page 1 Councilor Pardee was concerned about the following language in Section 27-226, Allowable Uses Within Zoning Districts. (a) All uses shall conform to the standards for each zoning district as provided below. However, because the list of permissible uses is not exclusive those uses not listed, and which may not be interpreted by the city manager or designee to be similar to any other listed use, shall be prohibited. His concern was that some specific businesses may not fit into the descriptions listed. He researched and prepared a spreadsheet listing 178 businesses that are located in the local area that may not necessarily fit into one the category's listed in the Ordinance. He suggested adding the following language "if a business is denied by the city manager or designee, the business has the opportunity to appeal the decision."

City Manager Jarboe explained the appeal process is addressed in Section 27-132 and 27-133. Anyone can appeal any administrative decision to the Community Development Board.

Councilor Pardee asked City Attorney Krechowski if he felt the language should also be included in Section 27-226(a). City Attorney Krechowski responded he did not believe it was necessary to reference the administrative appeal in this Section.

Councilor Pardee stated he would like to review and consider adding other business types to the list and would present them for the next workshop. He felt all types of businesses should fit into a category.

Mayor Pruette felt there were some types of businesses the City would not want to include.

Councilor Arthur agreed if a business was denied there should be a process that would allow them to appeal.

Vice Mayor Tucker stated she did not have any amendments for page one.

Consensus: **NO CHANGES TO PAGE ONE.**

Page 2 Mayor Pruette asked if anyone had any comments or recommended amendments to page two. There were no comments regarding page two.

Consensus: **NO CHANGES TO PAGE TWO.**

Page 3 Mayor Pruette suggested adding "Adult Day Care" on page three in Section 27-226(h) Commercial-1 (C-1)(2)

Consensus: **TO INCLUDE "ADULT DAY CARE" ON PAGE THREE SECTION 27-226(h)(C-1)(2).**

Page 4 Mayor Pruette asked if anyone had any comments or recommended amendments to page four.

Community Development Director Askew recommended deleting Kiosk Sales in Section 27-226(h)(3)(b) or adding the definition of Kiosk Sales in Chapter 27.

Vice Mayor Tucker, Councilor Arthur and Councilor Pardee supported defining Kiosk Sales in Chapter 27.

City Attorney Krechowski recommended striking the following special exceptions from Section 27-226(h)(3), ~~(b) Kiosk sales, (c) Restaurant with drive-thru service window, and (d) Retail with drive-thru service window,~~ because they were not consistent throughout the Code.

Mayor Pruette asked Council if they preferred defining these special exceptions or striking through them.

Consensus: **TO DEFINE KIOSK SALES, RESTAURANT WITH DRIVE THRU SERVICE WINDOW AND RETAIL WITH DRIVE THRU SERVICE WINDOW.**

City Manager Jarboe explained Section 27-226(i)(2)(f) Personal Service establishments, was a new term.

Community Development Director Askew added Section 27-226(i)(2)(b) Business and professional offices was also a new term. It allows building contractors and subcontractors to operate in commercial districts as long as there is no outdoor storage of vehicles, materials, or equipment.

Community Development Director Askew advised the list of businesses provided by Councilor Pardee could be added under Section 27-226(i) Commercial-2(f) Personal service establishments.

Consensus: **TO ADD THE LIST OF 178 TO BE PROVIDED BY COUNCILOR PARDEE TO "PERSONAL SERVICE ESTABLISHMENTS."**

Page 5 Mayor Pruette asked if there were any comments or amendments to page five.

Mayor Pruette suggested removing 27-226-(j)(2)(g) Motor Vehicle Sales. City Manager Jarboe stated motor vehicle sales were allowed under the current Code.

City Manager Jarboe suggested removing 27-226(i)(3)(c) Kiosk Sales because it is already covered in the business section.

Consensus: **REMOVE 27-226(i)(3)(c) KIOSK SALES.**

Page 6 Mayor Pruette asked if anyone had any comments or amendments regarding page six. There were no comments or amendments.

Consensus: **NO CHANGES ON PAGE 6.**

Page 7 Mayor Pruette asked if anyone had any comments regarding page seven.

Consensus: **NO CHANGES ON PAGE 7.**

Mayor Pruette asked if there were any comments regarding the Table of Permissible Uses.

Mayor Pruette stated she preferred having both the chart and the list.

Councilor Pardee felt using both a chart and a list would be difficult to maintain and would make the permissible uses more confusing.

Councilor Arthur felt the businesses were more defined in the list and the chart left more room for errors.

Vice Mayor Tucker supported removing the Table of Permissible Uses.

Consensus: **TO REMOVE THE TABLE OF PERMISSIBLE USES.**

Consensus: **TO FORWARD TO FIRST READ AND WORKSHOP AGAIN AFTER FIRST READ AND THEN MOVE IT TO SECOND READ.**

Community Development Director Askew stated the Ordinance would go before the Community Development Board in June.

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Dog Defecation

DOG DEFECATION / VICE MAYOR TUCKER: Vice Mayor Tucker suggested adding signage and putting information on the website to inform the public of the animal ordinance and the violations for not cleaning up pet waste.

Mayor Pruette stated there was an issue with pet owners placing the pet waste in other resident's trash containers. City Manager Jarboe suggested adding the following language to the Code: "pet owners must place their pets waste in their own trash containers."

Mayor Pruette asked Chief Sembach how the City would be able to enforce such an ordinance.

Chief Sembach replied it would be virtually impossible to enforce. He conducted some research and found other cities that had such an ordinance were cities whose citizens paid privately for trash pick-up services. There is no law against taking trash out of someone's trash container if it is on a city easement or in the city right-of-way.

City Manager Jarboe added it would be extremely hard to enforce. The city did not have the resources to pay someone overtime to police the city for people walking their dogs after hours and make sure they picked up the dogs waste.

Councilor Arthur felt it was a reasonable request to add the language; "pet owners must place their pets waste in their own trash containers". He added the fine should be the same as for not picking it up at all.

City Manager Jarboe suggested changing the code to allow citizens to sign an affidavit and swear out a complaint if they witnessed an actual event.

Councilor Arthur questioned if it was legal to put trash into someone's trash container if it is on city property. City Attorney Krechowski replied he would research the issue to find out if it was legal for anyone to place trash in a container on city property.

Vice Mayor Tucker agreed to sponsor the Ordinance.

Councilor Pardee asked what language would be added to the Ordinance.

Mayor Pruette stated the recommendation was to add; "dog defecation is required to be deposited in a trash container owned by the dog owner or in a city owned receptacle and that it be a violation for the dog defecation to be deposited in a trash container not owned by the dog owner."

Councilor Pardee stated the current ordinance requires that the owner of dog carry some sort of material, utensil, or suitable container with which to dispose of the defecation.

Mayor Pruette asked Chief Sembach if there been any citations written to dog owners for not carrying a suitable container to dispose of the defecation. Chief Sembach replied he has questioned dog owners found not carrying a suitable container and their reply has been that their dog had already defecated and the container was thrown away. He felt that was a reasonable excuse for being caught without a container.

Consensus: **FORWARD TO FIRST READ NEXT MONTH.**

Public Comments

PUBLIC COMMENTS AT WORKSHOP MEETINGS / MAYOR PRUETTE: Mayor Pruette explained she would like to move public comments from the beginning of workshop meetings to the end of workshop meetings, or allow public comments at the beginning and the end of workshop meetings. She felt citizens may want to comment "after" hearing council discussion on agenda items instead of "before" the discussion.

Councilor Pardee stated citizens had other means of contacting council members after workshop meetings and before regular meetings. He felt allowing public comments at the end of the workshop or at both the beginning and the end of workshop meetings would extend the time of the meetings. He did not want to stay for meetings lasting until 10:00 or 11:00 p.m. He added that he was available for citizens to contact him during the week.

Vice Mayor Tucker agreed to allow public comments at the beginning and the end of the workshop meetings. She felt it would also be better for some citizens who were unable to get here by 6:00 p.m.

City Manager Jarboe agreed the public should be allowed to speak at both the beginning and the end of the workshop meetings.

Councilor Arthur agreed to allow public comments at the beginning and the end of the workshop meetings, but a person should only be allowed to speak at either the beginning or the end and not both.

Consensus: **TO ALLOW PUBLIC COMMENTS AT BOTH THE BEGINNING AND THE END OF THE WORKSHOP MEETINGS "TO TRY."**

Surplus Vehicles

SURPLUS VEHICLES: City Manager Jarboe stated the city needed to surplus the following vehicles:

<u>Description</u>	<u>Make</u>	<u>Model</u>	<u>VIN #</u>
2007 4-6 Automatic	Ford	F150 4x4	1FTRF18W31NA70648
2001 4-6 Automatic	Ford	F150 4x4	1FTRF14W57KD53505

Consensus: **FORWARD TO THE JUNE CONSENT AGENDA.**

Jarboe Park

JARBOE PARK EVENTS: City Manager Jarboe explained he placed a moratorium on the use of Jarboe Park for group events. There have been a lot of schools and day care centers showing up at the park without a reservation. The issue is that there is not enough parking and the groups prevent citizens who use the park on a daily basis from using the park on a regular basis. There have also been issues with group events exceeding the allowable guests.

City Manager Jarboe suggested amending Resolution 2008-13, Jarboe Group Event Policy, as follows:

1. allow no long term group events
2. limit the hours for group events for 3 to 4 hours maximum
3. allow no group events after 9:00 p.m.
4. no amplified music
5. no commercial sales or events
6. limit the number of people for group events to 30.
7. charge a usage fee

City Manager Jarboe asked City Attorney Krechowski to find out if was legal to charge a higher usage fee for non Neptune Beach residents than Neptune Beach residents. He added the current policy is to charge all non Neptune Beach residents a \$100.00 user fee for group events, however he was not sure if that was legal. He added that Neptune Beach residents pay taxes to fund the park and keep up the maintenance.

Vice Mayor Tucker supported the recommended changes.

Councilor Arthur supported raising the fees for non Neptune Beach residents to help with the maintenance and administrative costs. He suggested charging the group a fine if the amount of people attending the event exceeded the number allowed.

City Manager Jarboe stated the difficulty in enforcing the issue is that his office does not hear about the issue until the event is over and it needs to be addressed when it is happening.

City Attorney Krechowski suggested having the group put up a \$300.00 deposit with the agreement. The \$300.00 deposit could be used toward a fine if the number of people attending the event exceeded the allowable number.

Mayor Pruette stated she would like to see the statistics regarding the following;

1. how many requests have been made for group events
2. how many have been turned down
3. how big the event would be
4. how many requests were from Neptune Beach residents
5. how many requests were from non Neptune Beach residents

Councilor Pardee felt part of the problem was that most schools now lock up there ball fields and playground areas leaving children nowhere to go and play. He disagreed with charging a fee for groups to use the park. He felt it would be unfair to charge

residents a fee to use the park for group events while allowing the Community Garden and the Green Market daily and weekly use of the park, for the fee of only \$1.00 per year.

Mayor Pruette acknowledged that Atlantic Beach and Jacksonville Beach allow Neptune Beach residents use of their parks and ball fields. She asked City Manager Jarboe to find out if Jacksonville Beach and Atlantic Beach charged a fee to our residents to use their parks.

Consensus: **TO LET CITY MANAGER JARBOE TAKE A LOOK AT THIS AND GET WITH THE CITY ATTORNEY AND BRING IT BACK TO US.**

Councilor Pardee stated he did not agree with the consensus.

City Atty.

CITY ATTORNEY ANNOUNCEMENT: City Attorney Krechowski announced he recruited Sarah Young, a student at the Florida Coastal School of Law, to intern for him this summer.

City Attorney Krechowski also announced a shade meeting will be held on Monday, June 6, 2011 at 5:30 p.m. to obtain the advice of the City Council regarding settlement negotiations and strategy sessions relating to litigation expenditures.

Consensus: **TO HOLD A SHADE MEETING ON JUNE 6, 2011, AT 5:30 P.M.**

Senior Center

SENIOR ACTIVITY CENTER BUDGET / LESLIE LYNE: City Manager Jarboe explained the Community Development Block Grant (CDBG) funding, for the Senior Activities Center, FY 2010-2011 has been cut. Effective June 1, 2011, our contract will be modified to state the award amount of \$50,068 which is a \$9,893 reduction from the original amount. Senior Activities Center Director Leslie Lyne, has raised enough money through her non-profit organization to cover the loss for this year.

Mayor Pruette was concerned about other funding that would be reduced. City Manager Jarboe responded the Street Lighting Program, Property Tax, and Communication Tax would most likely be reduced FY 2011-2012. The State has projected the same amount of revenue for Gas Tax, and Sales Tax. We will not know the exact amounts until around the first week of July.

Mayor Pruette questioned when the budget process would begin. City Manager Jarboe replied the budget meetings would begin in August unless the revenue figures arrived sooner.

City Manager Jarboe added the city has reduced the General Fund budget each year for the past five to six years.

COUNCIL COMMENTS

Councilor Arthur asked if the air conditioning control could be set and remain set at 75 degrees. City Manager Jarboe replied the air conditioning settings are currently controlled and automatically adjust, to lower the usage, at 6:30 p.m. and on the weekends.

Mayor Pruette stated the portrait of Mayor Richard Brown needed to be framed and placed on the wall in the Council Chambers.

Vice Mayor Tucker stated she would like the issue of the Art Walk placed on the June workshop agenda.

City Manager Jarboe stated a non-profit organization plans to hold a race on our beach this weekend without proper notification or necessary insurance. The Police Department will be working with the organization to make the event happen.

City Clerk Lisa Volpe reminded everyone the following day, Tuesday, May 17, 2011 was Election Day and for everyone to vote.

Adjournment

There being no further business, the meeting adjourned at 7:40 pm.

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette thanked staff for doing an outstanding job hosting the annual "Easter in the Park" event in Jarboe Park.

City Clerk Volpe reminded everyone of the upcoming County election on May 17, 2011. The Neptune Beach referendum changing the dates of our elections to coincide with the County elections will be on the ballot. If the referendum passes it will save the city the cost of having to hold a separate runoff election.

City Clerk Volpe announced the Municipal Code will be updating their website within the next few weeks. The updated website will offer better search capabilities.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

An invoice in the amount of \$380.00 was received from the Chamber of Commerce. He asked Council if they wished for the City to remain an active member.

Councilor's Pardee and Jolly felt the City should save the money and not remain a member.

Councilor's Arthur and Tucker felt the City should maintain its membership in an effort to support the local businesses.

Mayor Pruette stated because the vote was split she would speak with a representative of the Chamber of Commerce. She explained last year the Chamber of Commerce waived our membership dues because the city could not afford them.

The Invitation to Bid on the solar panels for the City Hall building has been published.

The renovation of the sewer plant should be complete by the end of May. It may take up to six months to train personnel to operate the new plant.

The State inspected our ditches and gave the City a grade of A+ on the maintenance.

The new agenda process will begin next week. Staff meetings will now be held on Friday's, by the City Manager, to review, proof read and edit agenda items before the agenda packets are prepared by the City Clerk's office. The City Attorney will also begin reviewing the agenda items no later than the Wednesday before Friday's meeting.

We will be short on lifeguards until the end of the college year. Once the college students are out of school, the lifeguard positions should be fully staffed.

Councilor Arthur questioned if it would take six months to determine the total nitrogen level of the sewer plant. City Manager Jarboe replied that it would take six months to train personnel to operate the new plant. The in-pipe technology has already lowered the nitrogen level by 35%.

COMMENTS FROM THE PUBLIC

Kerry Chin, 227-A Margaret Street, stated five parking spaces in Town Center were being reserved for valet parking. He questioned if the valet parking business obtained a business tax receipt. He also questioned how reserving those five spaces impacted the total required spaces for the other businesses.

Curtis Winter, Owner of Sun Dog Diner, explained the valet parking business did obtain a business tax receipt. He added Ragtime Tavern, Sun Dog Diner, and Carribbee Key were currently using the valet parking. He felt the valet parking actually left

more parking spaces available for other businesses in Town Center.

Mayor Pruette asked if Mezzaluna was using the valet parking. Mr. Winter replied Mezzaluna was currently not using the service however; it was his goal to get all the Town Center restaurants involved in the valet parking service.

Jim Robinson, Candidate for City of Jacksonville Council at Large, introduced himself to the Council. He explained as a candidate for Councilman of the City of Jacksonville at Large seat, he has spent a lot of time campaigning. He wanted to assure the beaches' citizens that, if he were elected, he would look to them for guidance regarding the various issues involving the beach cities.

CONSENT AGENDA / NONE

VARIANCES / NONE

ORDINANCES

Ord. No. 2011-07 **ORDINANCE NO. 2011-07, CONTROL OF NOISE, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ESTABLISHING REGULATIONS FOR THE CONTROL OF NOISE; PROVIDING TERMINOLOGY; PROHIBITING CERTAIN NOISES; EXEMPTING CERTAIN NOISES; LIMITING THE UNREASONABLE AND EXCESSIVE LEVELS OF NOISES, AND PLAINLY AUDIBLE NOISES IN CERTAIN CIRCUMSTANCES; PROHIBITING BREACH OF THE PEACE; PROVIDING PENALTIES AND REMEDIES; PROVIDING FOR NOISE PERMITS AND GRANDFATHERING; PROVIDING FOR RELATED MATTERS; PROVIDING FOR REPEAL; AND PROVIDING AN EFFECTIVE DATE.**

City Attorney Krechowski stated there have been no amendments to Ordinance No. 2011-07 since its passage on first read.

Mayor Pruette read Ordinance No. 2011-07 by title only and opened the public hearing.

Jim Sorrell, 464 Seagate Avenue, felt the new noise ordinance would reduce property values and add to the city's financial liability. He felt it should be voted on by the public. He asked Council to vote "no" on the ordinance.

There being no further comments from the public, the public hearing was closed.

Mayor Pruette stated the Council represented the entire City and she wanted a noise ordinance that would stand up in court. She asked City Attorney Krechowski to comment on Mr. Sorrell's opinion.

City Attorney Krechowski responded that all ordinances were subject to being challenged in court. This is a proven legal noise ordinance from Dade County that he amended based on the unique nature of Neptune Beach. He felt this was far better than the current noise ordinance and would offer the city, its citizens, and visitors the best alternative in regulating noise throughout the City.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2011-07 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

MOTION CARRIED

Ord. No. 2011-08 ORDINANCE NO. 2011-08, VEHICLES FOR HIRE, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES, CHAPTER 25, VEHICLES FOR HIRE AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance updated the original vehicle for hire ordinance that was adopted in the 1950's.

Mayor Pruette read Ordinance No. 2011-08 by title only and opened the public hearing.

Rick Sauls, 206 Cedar Street, Owner Surf Side Valet Service, Surf Side Transportation, felt all vehicles for hire should be required to obtain inspections and decals. He hoped this ordinance would eliminate illegal vehicles for hire.

There being no further comments from the public, the public hearing was closed.

Mayor Pruette stated the following amendments needed to be made:

Section 25-4(b) Each vehicle for hire shall have attached to the outside left rear portion of the vehicle the numbered medallion issued by the City of Jacksonville or the City of Neptune Beach.

Section 25-8 The City Manager is empowered to designate the location of and extent of space for stands to be known as taxi stands and shuttle stops on the streets within the city.

Section 25-1 Vehicle for hire shall mean all motorized vehicles defined and classified in Section ~~33-17~~ 25-2.

Moved by Pardee, seconded by Tucker.

Motion: **TO APPROVE 2011-08 WITH THE AMENDMENT ADDED “OR THE CITY OF NEPTUNE BEACH” IN SECTION 25-4(b) ALSO IN SECTION 25-8 TO AMEND AND ADD “AND SHUTTLE STOPS” ON THE STREETS WITHIN THE CITY AND IN 25-1 UNDER DEFINITIONS IT SHOULD READ WITH THE AMENDMENT 25-2.**

Ord. No. 2011-09 ORDINANCE NO. 2011-09, YARD DEFINITIONS, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AMENDING SECTION 27-15 DEFINITIONS AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated the following amendment needed to be made:

Section 27-15 *yard corner side means* the yard extending along the street upon which it has the largest exterior frontage (see figure 27-216-2 3)

Mayor Pruette read Ordinance No. 2011-09 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

MOTION CARRIED

Ord. No. 2011-10 **ORDINANCE NO. 2011-10, FRONT YARD SETBACK REQUIREMENTS, FIRST READ:**
AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE
CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT
REGULATIONS, ARTICLE IV, LAND USE, AMENDING SECTION 27-231, FRONT YARD
SETBACK REQUIREMENTS AND PROVIDING AN EFFECTIVE DATE.

Councilor Pardee agreed to sponsor Ordinance No. 2011-10.

Moved by Pardee, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-10 ON FIRST READ.**

Councilor Arthur had a question regarding the following amendment: Section 27-231(c)(3) Where the front yard on corner lots, as defined herein, is not in keeping with the prevailing yard pattern, the city manager or designee may waive the requirement for the determination of the normal front yard and substitute a special yard requirement, which shall not exceed the average of the yards provided on adjacent lots. His question was: How many adjacent lots could there be? Community Development Director Askew explained it would depend on the layout of the street pattern and the average of the surrounding lots. If it did not fit the normal definition of a front yard for a corner lot then you would take a look at the setbacks of the surrounding houses. If the surrounding structures were setback 50 feet and this particular one wanted to be 15 feet it would look odd. This gives the city manager or his designee the option to waive the requirement and look at the prevailing pattern.

City Manager Jarboe explained the ordinance was being changed to allow the city manager or his designee the option to waive the requirement in lieu of the building official. It was not actually changing anything other than the individual making the determination.

Mayor Pruette read Ordinance No. 2011-10 by title only and opened the public hearing.

Alan Martin, 1113 First Street, explained his residence was originally a duplex and was converted to a single family. He had wanted to extend his 4 foot deck around to the front of the house but was told by the City he was not allowed and would need to obtain a variance from the Community Development Board. He hoped this ordinance would resolve some of the issues so that in the future citizens would not have to jump through hoops to upgrade their property.

There being no further comments from the public, the public hearing was closed.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

MOTION CARRIED

Ord. No. 2011-11 **ORDINANCE NO. 2011-11, PARKING, STORAGE OR USE OF MAJOR RECREATIONAL EQUIPMENT AND BOATS, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AMENDING SECTION 27-334, PARKING, STORAGE OR USE OF MAJOR RECREATIONAL EQUIPMENT AND BOATS AND PROVIDING AN EFFECTIVE DATE.**

Mayor Pruette read Ordinance No. 2011-11 by title only and asked for a sponsor.

Vice Mayor Tucker agreed to sponsor the ordinance.

Moved by Arthur, seconded by Tucker.

Community Development Director Askew explained Section 27-334 deals with major recreational equipment defined in Section 27-15 as boats, RV's, ATV's, etc. These types of recreational equipment are currently not allowed to be parked in front yards. This ordinance includes that they also are not allowed to be parked in corner side yards.

Councilor Pardee questioned if this ordinance would affect a property that was typically unnoticed and did not affect anyone. Would that property be able to obtain a type of permit or exception? Ms. Askew responded code enforcement action was complaint driven. She explained if the code enforcement officer did not receive a complaint, no code enforcement action would be taken.

Motion: **TO PASS ORDINANCE NO. 2011-11 ON FIRST READ.**

WORKSHOP CITY COUNCIL MEETING
APRIL 18, 2011, AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held April 18, 2011 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Eric Pardee
Councilor Richard Arthur
Councilor John Jolly
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Asst. Public Safety Director, Tony Carrillo
Building Official Don Ford
Utility Billing Supervisor Rosemary Romero
Director of Finance Steve Ramsey
Asst to the City Manager Cheryl Rhoden
Public Safety Director David Sembach
Deputy Finance Director Gina Smith
Public Services Director Leon Smith
Deputy City Clerk Karla Strait
Asst. to the Building Official Piper Turner
Code Enforcement Officer John Webber

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Ethics Rules &
Laws

Professor Rod Sullivan, Florida Coastal School of Law, gave a presentation regarding Ethics Rules and Laws for Public Officials.

Public Services

Director of Public Services Leon Smith, gave a report on the accomplishments of the Public Services Department.

City Manager Jarboe stated the Police Department, Building Department and Finance Department would also be doing presentations to the Council before the 2011/2012 budget is presented.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There have been a number of complaints recently regarding bicyclists on First Street. Enforcement will be implemented.

Mayor Pruette asked City Manager Jarboe to inform the Council of the enforcement plan in the next couple of weeks.

- An accident occurred in Town Center over the weekend. The driver hit two or three cars, and a pedestrian sign. He would be contacting the Department of Transportation regarding that portion of A1A.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, thanked the Public Services Department. She also voiced concern regarding motorcycles and skateboarders going through the First Street barricade.

David Baker, 1102 First Street, voiced concern regarding bicyclists, skateboarders, and dog droppings on First Street. He would like to see some light enforcement actions taken.

Mayor Pruette asked City Manager Jarboe to brief the Council on the amount of tickets that have been issued for these types of violations.

PROPOSED ORDINANCES

Noise

ORDINANCE NO. 2011-07, NOISE: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ESTABLISHING REGULATIONS FOR THE CONTROL OF NOISE; PROVIDING TERMINOLOGY; PROHIBITING CERTAIN NOISES; EXEMPTING CERTAIN NOISES; LIMITING THE UNREASONABLE AND EXCESSIVE LEVELS OF NOISES, AND PLAINLY AUDIBLE NOISE IN CERTAIN CIRCUMSTANCES; PROHIBITING BREACH OF THE PEACE; PROVIDING PENALTIES AND REMEDIES; PROVIDING FOR NOISE PERMITS, AND GRANDFATHERING; PROVIDING FOR RELATED MATTERS; PROVIDING FOR REPEAL; AND PROVIDING AN EFFECTIVE DATE.

City Attorney Krechowski explained the list of noises in Section 5 were not inclusive. These are only examples of types of noises that could be considered in violation of his Ordinance.

Councilors Pardee, Arthur and Tucker all stated they would support the Ordinance.

For the Record

Councilor Jolly stated for the record: Council is aware the noises listed in Section 5 are not all inclusive and are only examples.

Mayor Pruette questioned the following scenario: If noises were coming from a residence and the owner was not home, who would be cited? Chief Sembach replied the citation should be given to the person in charge, however, the police officer could not always determine who that person was.

Mayor Pruette asked Chief Sembach if he was comfortable with the Ordinance. Chief Sembach responded the misdemeanor statute states the officer could not issue a citation unless he witnessed or heard the noise. He felt this Ordinance was more enforceable than the old one.

Mayor Pruette felt this Ordinance flowed very well and was easier to interpret. She would be happy if this Ordinance can be enforced and withstand legal challenges, and also give relief to the citizens.

Consensus: **FORWARD TO THE MAY REGULAR MEETING FOR SECOND READ AND PUBLIC HEARING.**

PUD

ORDINANCE NO. 2011-XX, PLANNED UNIT DEVELOPMENT: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AND ADDING SECTION 27-244, PLANNED UNIT DEVELOPMENT (PUD) AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette explained she has deferred this Ordinance to the May workshop.

Yard Definitions

ORDINANCE NO. 2011-XX, YARD DEFINITIONS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AMENDING SECTION 27-15 DEFINITIONS AND PROVIDING AN EFFECTIVE DATE.

Community Development Director Askew explained this Ordinance defined "corner side yards" as the yard extending the street upon which it has the largest exterior frontage.

Mayor Pruette asked City Attorney Krechowski if he reviewed and approved the Ordinance. City Attorney Krechowski replied "yes."

Councilor Pardee stated he did not have a problem with this particular Ordinance however; he had a question on the following Ordinance regarding setback requirements.

Councilor Arthur voiced concern regarding the consequences of rebuilding a damaged structure. He wanted to make certain this would allow the property owner maximum use of the property. Mrs. Askew replied this allows the property owner maximum use. She added that all structures built prior to 1994 were grandfathered and could be rebuilt to the exact footprint if they were damaged.

Councilor Arthur questioned how often it was necessary to define a corner side yard. Mrs. Askew replied not that often, it was only necessary if a property owner wanted to add on to a structure, install a fence or erect an accessory structure.

City Manager Jarboe explained using the narrowest side of a corner lot for the front yard would allow the property owner the most buildable space on the lot.

Vice Mayor Tucker thanked the Community Development Board for bringing the Ordinance forward.

Councilor Jolly stated the definition refers to Figure 27-216-?, without a question mark for the number. He asked if a number would be inserted in place of the question mark. Mrs. Askew replied a number would be added.

Mayor Pruette stated this Ordinance pertained to Chapter 27 and there would be two public hearings.

Consensus: **FORWARD TO THE MAY REGULAR MEETING FOR FIRST READ AND PUBLIC HEARING.**

Councilor Jolly agreed to sponsor the Ordinance.

Yard Setback
Requirements

ORDINANCE NO. 2011-XX, YARD SETBACK REQUIREMENTS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, AMENDING SECTION 27-231, FRONT YARD SETBACK REQUIREMENTS AND SECTION 27-335, PARKING, STORAGE OR USE OF MAJOR RECREATIONAL EQUIPMENT AND BOATS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated this ordinance should be divided into two ordinances. The second one would come at a later date.

Community Development Director Askew explained this Ordinance amends Section 27-231, front setback requirements to include all zoning districts.

Councilor Pardee suggested added the following language to Section 27-231 (c)(3): **The City Manager or designee may waive the requirement.**

Mayor Pruette asked Council if they wanted this Ordinance to be forwarded to a workshop before voting at first read.

City Attorney Krechowski stated the Ordinance would be ready for first read at the May regular meeting.

Consensus: **MAKE THE RECOMMENDED AMENDMENT AND FORWARD TO THE MAY REGULAR MEETING FOR FIRST READ.**

Councilor Pardee agreed to sponsor this Ordinance.

CONTRACTS / AGREEMENTS

City Audit
Services

MASTERS, SMITH, & WISBY, P.A. / CITY AUDIT SERVICES: Consideration of extending the three year contract with Masters, Smith, & Wisby, P.A. for two additional years.

Mayor Pruette stated Masters, Smith, & Wisby were doing a great job. She would like to extend the contract for two more years, without the 3% increase each year they have proposed. She added city employees have not received pay increases for the past three years and giving the auditors a 3% increase would set a negative precedent for upcoming union negotiations.

Councilor Jolly felt the 3% increase was not unreasonable. He felt if the contract went out for bid the new bids would be higher than what is being proposed by Master, Smith, & Wisby. He was open to negotiate with them to provide the service at the current annual rate.

City Manager Jarboe explained the original request for proposals stipulated a three year contract with the option to renegotiate the 4th and 5th years. He felt the 3% increase was reasonable. He suggested negotiating with them to extend the contract for one year.

Vice Mayor Tucker felt Masters, Smith, & Wisby, have done a great job for the past three years. She agreed to negotiate an extension based on the current rate or ask them to wait to negotiate until after the 2011/2011 budget is presented.

Councilor Pardee felt the proposal to extend the contract for two years with a 3% annual increase was still significantly lower than the other proposals the city received three years ago. He supported the extension as proposed with the 3% annual increase.

Councilor Arthur agreed the 3% increase was not much, but he also felt it would set a precedent for employee union negotiations.

City Manager Jarboe suggested Council allow him to negotiate to extend the contract for one year and leave the option open for the following year.

Councilor Arthur suggested the City Manager request the extension at the current year rate. If they did not accept the offer the services would go out for bid.

Mayor Pruette asked if it was the consensus of the council to allow City Manager Jarboe to negotiate the extension at the current annual rate.

Councilor Pardee stated he disagreed. He supported the two year contract extension as proposed included the 3% annual increases.

Mayor Pruette asked City Manager Jarboe how many city employees were in the union. City Manager Jarboe responded there were about 58 employees under union contracts.

Mayor Pruette stated she did not feel comfortable giving the contractor a 3% annual increase over the next two years when the city employees have not received raises in the past three years.

Councilor Pardee was concerned if the audit services went out for bids the new proposals would be higher than the 3% increases Masters, Smith & Wisby are proposing.

Councilor Jolly supported negotiating a one year contract.

Councilor Arthur, Vice Mayor Tucker and Mayor Pruette agreed.

Consensus: **TO HAVE CITY MANAGER JARBOE REQUEST A ONE YEAR CONTRACT EXTENSION AT THE CURRENT YEAR RATE.**

Councilor Pardee stated the consensus was not unanimous.

ISSUE DEVELOPMENT / NONE

COUNCIL COMMENTS

Councilor Jolly stated he would like to see all amended ordinances be forwarded to workshop meetings for review and approval of the amendments.

Mayor Pruette agreed to forward amended Ordinances to workshop meetings for review.

Vice Mayor Tucker stated she has placed the issue of dog defecation on First Street on the May workshop agenda.

Mayor Pruette stated the Arbor Day event honoring Joe Damato was held Saturday April 16, 2011. The Ish Brant Beautification Committee received donations to purchase and plant 17 trees in honor of Joe Damato.

Adjournment

There being no further business, the meeting adjourned at 7:35 pm.

Harriet Pruette, Mayor

CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Regular Meeting of the City Council of the City of Neptune Beach was held April 4, 2011, at 6:00 p.m. in the City Hall Council Chambers, 116 First Street, Neptune Beach, Florida.

Attendance**IN ATTENDANCE:****STAFF:**

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Richard Arthur
Councilor John Jolly
Councilor Eric Pardee
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Finance Steve Ramsey
Director of Public Safety David Sembach

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked City Attorney Krechowski to lead the Pledge of Allegiance.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS

**Proclamation
Helping Hands &
Linking Arms**

Mayor Pruette presented a Proclamation to representatives of the Northeast Florida Red Cross, the Blood Alliance, Second Harvest North Florida, and the Church of Jesus Christ of Latter-day Saints, proclaiming April 16, 2011, as a day of service for Helping Hands and Linking Arms to fill the blood and food banks.

Audit Report

Gary Huggett, Masters, Smith, and Risby, presented the September 30, 2010, Annual Financial Report.

Councilor Jolly questioned if the auditors found any evidence or indication of financial fraud by city staff. Mr. Huggett replied "no."

Councilor Jolly questioned if the auditors found any evidence or indication of involvement of city elected officials that could be construed as inappropriate. Mr. Huggett responded "no."

Councilor Jolly questioned if the auditors initiated any RC's or AJE's during the audit. Mr. Huggett replied there was a total of one for \$1,910.00.

Councilor Jolly explained the audit report indicated staff did a great job.

Councilor Jolly asked Mr. Huggett if there were any areas the city could improve. Mr. Huggett replied the city still has not reached the goal of having three months of operating expenses in reserves in the water and sewer fund.

Councilor Arthur asked Mr. Huggett how much longer it would take for the city to accumulate three months of operating expenses in reserves. Mr. Huggett explained his calculations indicated the City was half way to reaching the goal of having three months of reserves in the water and sewer fund.

Councilor Arthur thanked staff for maintaining consistent financial responsibly.

Councilor Pardee thanked the auditors and felt the city was headed in the right direction.

Mayor Pruette thanked staff and former council members John Weldon and Fred Lee for helping to move the city forward in the right direction.

City Manager Jarboe thanked Council and staff for working together. He explained the contract with Masters, Smith, and Risby for auditing services, will expire this year. Mr. Huggett advised that Council could vote to extend their contract up to two years without having to bid.

City Manager Jarboe stated city staff enjoyed working with Masters, Smith and Risby, because they provided them guidance throughout the auditing process.

APPROVAL OF MINUTES

Moved by Jolly, seconded by Tucker.

MARCH 7, 2011, REGULAR CITY COUNCIL MEETING
MARCH 21, 2011, WORKSHOP CITY COUNCIL MEETING

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

COMMUNICATIONS & CORRESPONDENCE

Mayor Pruette announced the artwork displayed in the Council Chambers was created by Barb Kramer. Anyone interested in purchasing the artwork could request a business card from city staff.

CITY MANAGER REPORT

City Manager Jarboe reported on the following:

- The construction at the sewer plant was causing an odor. This should no longer be a problem once the construction was complete in May.

Mayor Pruette questioned if the State would inspect the sewer plant when the construction was complete. City Manager Jarboe responded the State inspects and monitors the sewer plant on a regular basis. The engineer will have to test the nitrogen level to make sure it meets the State requirements.

COMMENTS FROM THE PUBLIC

Frieda Jones, 906 Oceanfront, explained she received a certified letter from the City Code Enforcement Officer, regarding her property located at 1476 Atlantic Boulevard. The letter requested the property tap into the city sewer line. She was concerned because she had tried to contact someone with the City by telephone and certified letters and had not received a response. She wanted to find out why she had received the code enforcement letter and explain that the property was tapped into the city sewer line back in 2002. She has been paying the city for sewer usage for the previous nine years. City Manager Jarboe stated she should be receiving a letter from the City.

Lynda Padrta, 1113 First Street, stated she was pleased about the audit and the new businesses in the city. She was concerned about the proposed ordinance regarding land use being in compliance with the comprehensive plan. She opposed the 100 feet distance requirement in the proposed noise ordinance. She also voiced concern regarding people riding bicycles, skateboards, roller blades, walking, etc. along First Street and indicated there was also a lot of dog defecation being deposited along First Street.

James Sorrell, 464 Seagate Avenue, felt there were problem areas within the proposed noise ordinance and suggested that it be tabled.

Kerry Chin, 227A Margaret Street, asked Council to consider amending the proposed noise ordinance to allow citizens to sign an affidavit regarding noise complaints in circumstances where the perpetrator could not be found.

Kathleen Corey, 528 South Street, indicated she was upset about the noise and the disrespect of property being displayed by neighboring tenants on South Street. She asked the City to assist her with the issue.

Hugh Daniel, 711 Cherry Street, President of Neptune by the Sea Unit 3 Homeowners Association, voiced concern regarding noise from the new Publix Shopping Center. He added there were heavy industrial sounds during all hours of the day and night that were very disturbing to the residents. He suggested the City ask them to install a noise buffering material to the perimeter.

Alan Martin, 1113 First Street, was concerned about the sprinkler system operating in the medians on Atlantic Boulevard at 2:00 p.m. on Saturday afternoon. He felt the City should be an example to citizens by following the watering restriction guidelines set forth by the St. Johns River Water Management District.

CONSENT AGENDA / NONE

VARIANCES / NONE

ORDINANCES

Ord. No. 2011-06 ORDINANCE NO. 2011-06, PROHIBITED USES IN ZONING DISTRICTS, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND

DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, SECTION 27-225, USES EXPRESSLY PROHIBITED WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the proposed ordinance identified businesses that were currently prohibited in the land use chart.

Mayor Pruette read Ordinance. No. 2011-06 by title only and opened the public hearing.

Lynda Padrta, 1113 First Street, supported Ordinance 2011-06.

Moved by Jolly, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-06 ON FIRST READ.**

Councilor Pardee explained according to the land use chart billiard and pool halls should be permitted in the C-2, C-3, and Central Business Districts. He also felt the definition of "retail sales" could be interpreted as any establishment selling products at a retail level which would indicate that tattoo parlors, pawn shops, or any other establishment selling items at retail would be allowed. He was concerned that this proposed ordinance was reviewed by the city attorney and staff and had also been forwarded at a Council workshop meeting with these issues being overlooked.

Mayor Pruette suggested Councilor Pardee propose an Ordinance for discussion and public comments, if he wanted to allow gun ranges, dancing establishments, tattoo parlors, pawn shops, etc. or whatever he wanted to be permitted in the land use chart.

City Manager Jarboe stated Councilor Pardee was correct in that billiard and pool halls were currently permitted in the land use chart.

Councilor Arthur questioned if there were any other businesses in the City that would be affected by this proposed ordinance or if the ordinance could be challenged.

Mayor Pruette suggested sending the ordinance back to a workshop meeting.

Roll Call Vote:

Ayes: 2 – Jolly, Pruette

Noes: 3 – Arthur, Pardee, Tucker

MOTION FAILED

Ord. No. 2011-07

ORDINANCE NO. 2011-07, CONTROL OF NOISE, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ESTABLISHING REGULATIONS FOR THE CONTROL OF NOISE; PROVIDING TERMINOLOGY; PROHIBITING CERTAIN NOISES; EXEMPTING CERTAIN NOISES; LIMITING THE UNREASONABLE AND EXCESSIVE LEVELS OF NOISES, AND PLAINLY AUDIBLE NOISES IN CERTAIN CIRCUMSTANCES; PROHIBITING BREACH OF THE PEACE; PROVIDING PENALTIES AND REMEDIES; PROVIDING FOR NOISE PERMITS AND GRANDFATHERING; PROVIDING FOR RELATED MATTERS; PROVIDING FOR REPEAL; AND PROVIDING AN EFFECTIVE DATE.

City Attorney Krechowski made the following corrections:

Section 5.B. Radios, televisions, phonographs, recording and playback devices, or sound reproduction equipment. The using, operating, or permitting to be played, used or operated any radio receiving set, television set, musical instrument, phonograph, recording

and playback devices or any other similar devices reproducing of sound in such manner as to disturb the peace, quiet and comfort of the neighbors, or at any time with louder volume than is necessary for convenient hearing of the person or persons who are in the room, vehicle or chamber in which such machine or device is operated and who are voluntary listeners thereto. Additionally, the operation of any aforementioned devices between the hours of 10:00 p.m. until 7:00 a.m. on Sunday through Thursday or 11:00 p.m. and 7:00 a.m. on Friday and Saturday, in such manner as to be plainly audible ~~at a distance of one hundred (100) feet from a public street or immediately adjacent lot~~ from the source in which it is located shall be prima facie evidence of a violation of this Ordinances.

Section 5.L Air conditioners, pool pumps and other similar devices of this chapter when this equipment is not functioning in accord with the manufacturers; specifications and with all manufacturers; mufflers and noise reducing equipment in use and in proper operating condition.

City Manager Jarboe explained City Attorney Krechowski was concerned that the current noise ordinance was unconstitutional. This proposed noise ordinance will be consistent with the findings of a court case in Miami, Florida.

Moved by Jolly, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-07 ON FIRST READ.**

Councilor Jolly agreed to sponsor this ordinance.

Councilor Pardee suggested tabling the ordinance. He felt it should specifically address noises such as music from an ice cream truck. He would also like for the City Attorney to provide information explaining why the existing ordinance is unconstitutional and compare the changes from the existing ordinance to the proposed ordinance. City Attorney Krechowski advised he did not want to explain during a public meeting the reason he felt the existing noise ordinance was unconstitutional because it may jeopardize pending cases. He added he would speak with Councilor Pardee privately regarding the issue.

Councilor Arthur stated he thought music from ice cream trucks had already been outlawed in the City. He felt the Ordinance was better with the amendments suggested by City Attorney Krechowski.

Councilor Jolly stated he read about the Miami-Dade online and felt the new ordinance was consistent with the judge's recommendations on the case. He also felt it would be better with the 100 foot distant requirement removed.

Vice Mayor Tucker stated she would support the proposed noise ordinance with the amendments.

Mayor Pruette felt the noise needed to be controlled throughout the City. She felt the City needed to have a noise ordinance that would stand up in court.

Councilor Pardee agreed to support the ordinance on first read if City Attorney Krechowski would personally explain to him off record, the reasoning behind the new ordinance and the differences between the existing and the proposed ordinance.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

Ord. No. 2011-08 ORDINANCE NO. 2011-08, VEHICLES FOR HIRE, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES, CHAPTER 25, VEHICLES FOR HIRE AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained Chapter 25, Vehicles for Hire needed to be updated. This proposed ordinance was modeled after the City of Jacksonville Beach's ordinance.

Moved by Tucker, seconded by Arthur

Motion: **TO PASS ORDINANCE NO. 2011-08 ON FIRST READ.**

Councilor Jolly stated the following amendments that were made at the workshop meeting were not included in the ordinance that was in the agenda packet.

Section 25-8 Designation of Taxi Stands and shuttle stops. The city manager is empowered to designate the location of and extent of space for stands to be known as taxi stands and shuttle stops on the streets within the city.

City Manager suggested adding the suggestion as an amendment to the motion.

Moved by Tucker, seconded by Arthur

Friendly Amendment: **TO AMEND THE MOTION TO INCLUDE COUNCILOR JOLLY'S AMENDMENT AS SUGGESTED AT THE MARCH WORKSHOP MEETING.**

Councilor Jolly also suggested the following amendment:

Section 25-51 Schedule of Rates to be Posted. ~~(a) it shall be unlawful for any person to drive or operate a public vehicle in the city~~

Moved by Tucker, seconded by Arthur

Friendly Amendment: **TO AMEND THE MOTION TO INCLUDE THE AMENDMENT SUGGESTED BY COUNCILOR JOLLY.**

Councilor Pardee voiced concern regarding the details of the ordinance and its enforcement.

Mayor Pruette asked Chief Sembach if he felt the ordinance was enforceable. Chief Sembach replied currently there was only one stop and it was easily enforceable.

Councilor Arthur asked if the shuttle stop needed to be defined in the ordinance. City Manager Jarboe stated he did not think it was necessary.

Mayor Pruette asked City Manager Jarboe if he had spoken with Mr. Rick Sauls or Mr. Curtis Winter regarding the operation of a shuttle service for valet parking in Town Center. City Manager Jarboe replied he spoke to Mr. Sauls regarding the proposed ordinance.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

City Manager Jarboe stated he would draft a definition for the shuttle stop.

OLD BUSINESS / NONENEW BUSINESS

Res. No. 2011-03 RESOLUTION NO. 2011-03: A RESOLUTION APPOINTING MEMBERS TO THE CODE ENFORCEMENT BOARD AND THE COMMUNITY DEVELOPMENT BOARD.

Nicole Hahl, 119 Margaret Street, and William Hilton, 612 Valley Forge Road East, introduced themselves to the Council.

Mayor Pruette explained Mr. Leman Rosenberg was not able to come to the meeting and asked the Council if they wanted to wait on appointment. Council agreed to go ahead and appoint Mr. Rosenberg.

Moved by Jolly, seconded by Tucker

Motion: TO APPROVE RESOLUTION NO. 2011-03.

APPROVAL OF COMMUNITY GARDEN RIBBON CUTTING EVENT: Approval for the Beaches Local Food Network to hold a ribbon cutting event for the children's garden on April 9, 2011, in Jarboe Park.

Moved by Tucker, seconded by Jolly.

Motion: TO APPROVE THE RIBBON CUTTING EVENT.

Councilor Pardee stated he would not support the ribbon cutting event because the Community Garden was not in compliance with their agreement with the City.

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette

Noes: 1 – Pardee

MOTION CARRIEDCOUNCIL COMMENTS

Mayor Pruette stated she was pleased that 17 new businesses had moved into Neptune Beach over the past two years and 4 to 7 more had plans to move here. She felt this was excellent considered the economy and the Neptune Beach had a lot to thankful for.

Councilor Jolly was pleased with the financial report and thanked Mayor Pruette for contributing her photography for the cover page.

Adjournment

There being no further business, the meeting adjourned at 7:20 p.m.

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The nitrogen rehab project is 75% complete
- The water reuse project will begin in the near future.
- The in-pipe technology has helped reduce the nitrogen level from 25 parts to 14 parts per million.
- The plant operators are doing an excellent job of operating the plant and keeping it in focus during the construction.

PUBLIC COMMENTS

Kelly Johnson, 519 Lora Street, voiced support for the ribbon cutting event for the new children's garden.

PROPOSED ORDINANCES

Noise

ORDINANCE NO. 2011-XX, NOISE: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ESTABLISHING REGULATIONS FOR THE CONTROL OF NOISE; PROVIDING TERMINOLOGY; PROHIBITING CERTAIN NOISES; EXEMPTING CERTAIN NOISES; LIMITING THE UNREASONABLE AND EXCESSIVE LEVELS OF NOISES, AND PLAINLY AUDIBLE NOISES IN CERTAIN CIRCUMSTANCES; PROHIBITING BREACH OF THE PEACE; PROVIDING PENALTIES AND REMEDIES; PROVIDING FOR NOISE PERMITS, AND GRANDFATHERING; PROVIDING FOR RELATED MATTERS; PROVIDING FOR REPEAL; AND PROVIDING AN EFFECTIVE DATE.

City Attorney Krechowski explained a federal court case in Miami questioned the constitutionality of noise ordinances. This proposed ordinance would modernize our noise ordinance bringing it in line with the legal trend in Florida.

Vice Mayor Tucker asked who would be responsible for paying the fine and how the ordinance would be enforced. City Manager Jarboe responded the person causing the noise would be issued the citation and would be the person responsible for paying the fine.

Councilor Jolly stated the current ordinance requires citizens to file a written complaint for a noise disturbance. He questioned under this ordinance if a police officer would have to verify the noise disturbance was within 100 feet. City Manager Jarboe explained a police officer would have to verify that the noise disturbance was within 100 feet before a citation was issued.

Councilor Jolly stated Section 6, Special Permit Exceptions, referred to "Table 1" which was not in the ordinance. He suggested striking "(except from table 1)" from Section 6.

Consensus: **STRIKE "TABLE 1" FROM SECTION 6, SPECIAL PERMIT EXCEPTIONS.**

Councilor Jolly questioned what the consequences would be if the fine was not paid. City Manager Jarboe replied if someone did not want to pay the fine they would have to set a court date with the Duval County Court.

Councilor Arthur asked if it would be necessary for a police officer to respond to each noise complaint. City Manager Jarboe explained the complaint could be handled by the code enforcement officer or a police officer. The code enforcement officer would issue a notice to appear before the Code Enforcement Board. A police officer would issue a citation.

Councilor Arthur questioned how often the City received noise complaints under the current ordinance. City Manager Jarboe replied several hundred noise complaints were received last year.

Councilor Arthur asked if noise complaints were concentrated in the higher density areas. City Manager Jarboe stated the major areas of complaints came from 1100 Seagate Avenue, all of east of Third Street, one area west of Third Street, and a few were received from the area of Florida Boulevard near Mayport Road.

Councilor Pardee asked if the "three strike rule" would remain in effect. City Manager Jarboe stated this ordinance would replace the current ordinance eliminating the "three strike rule."

Mayor Pruette was concerned about the source of noise having to be at least 100 feet away. She stated most of the lots east of Third Street and some west of Third Street were so close to one another that any noise within 15 feet or closer could cause a disturbance. City Manager Jarboe explained the 100 foot distance was based on the outcome of a court case. City Attorney Krechowski advised he would research the distance issue.

Councilor Jolly asked if this Ordinance would shift the burden of the fine from the property owner to the tenant. City Manager Jarboe explained under the current noise ordinance the person in violation is issued the citation. However, if it became a habitual problem the property would be declared a nuisance and become an issue for the property owner.

Mayor Pruette questioned how this would help in situations if the disturbance was within 10 feet. City Attorney Krechowski advised he would research the legal standard behind the 100 distance issue.

Consensus: **HAVE THE CITY ATTORNEY RESEARCH THE 100 FEET DISTANCE ISSUE, FORWARD TO THE APRIL REGULAR MEETING FOR FIRST READ AND THEN TO THE APRIL WORKSHOP MEETING.**

Vehicles for Hire

CHAPTER 25, VEHICLES FOR HIRE: City Manager Jarboe explained Chapter 25, Vehicles for Hire, of the Ordinance Code, was adopted in 1959 and needed to be updated. This proposed ordinance was modeled after the City of Jacksonville Beach's ordinance, with the exception of adding the definition of "shuttles."

Councilor Pardee asked if this addressed the issue of 'low speed vehicles.' City Manager Jarboe replied it did not differentiate between low speed vehicles and other motorized vehicles. Low speed vehicles would be allowed as long as they met these rules and requirements.

Councilor Arthur asked if this ordinance would allow rickshaws. City Manager Jarboe replied it did not permit rickshaws.

Councilor Jolly voiced concern about school buses visiting from other counties. City Manager Jarboe did not feel it was necessary to list the other counties in the ordinance because this ordinance is intended to regulate the normal everyday vehicles.

Councilor Jolly suggested adding that "shuttle stops" must be approved by the City Manager."

Consensus: **ADD THAT SHUTTLE STOPS MUST BE APPROVED BY THE CITY MANAGER.**

Councilor Jolly questioned the penalties for operating a vehicle for hire without a business tax receipt. City Manager Jarboe stated that would be a code enforcement violation.

Mayor Pruette stated she supported the ordinance along with the suggested changes. She asked City Manager Jarboe to meet with Curtis Winter and Rick Sauls regarding valet parking and shuttle service for Town Center parking.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE**ISSUE DEVELOPMENT**

Dog Defecation

DOG DEFECATION: Vice Mayor Tucker stated the constituents requesting that she place this item on the agenda were out of town. She would like to defer this agenda item to the April workshop meeting.

Consensus: **DEFER TO THE APRIL WORKSHOP MEETING.**

Mixed Use/
Atlantic Blvd.

MIXED ZONING USE ON ATLANTIC BOULEVARD: Mayor Pruette felt allowing mixed use zoning by special exception on Atlantic Boulevard would give businesses in the C-2 and C-3 zoning districts more options for development.

City Manager Jarboe stated Michael Dunlap gave a presentation to Council regarding mixed use zoning back in 2006. He suggested allowing mixed use in the C-2 and C-3 zoning districts by special exception. Mayor Pruette asked City Manager Jarboe to draft an ordinance for Council to consider at the April 4, 2011, regular meeting.

Councilor Pardee recalled discussing mixed use on the Council back in 2006 and 2007. The discussion was prompted by a Flagler Properties development. There was a consensus at that time to move it forward and former Community Development Director Jason Cleghorn had drafted an ordinance at that time.

Councilor Arthur asked if the Ordinance would specify that a certain percentage of the property be used as residential and a certain percentage be used as commercial. City Manager Jarboe replied it would be determined by the Council by special exception.

Councilor Arthur felt there should be guidelines or at least a certain percentage range for a developer to consider when applying for a mixed use development. He was concerned that often developers would squeeze in as many units as possible. City Manager Jarboe stated the vision of a mixed use development is a small village where apartments would be built on top of stores and shops.

Mayor Pruette added the 35 foot height limitation would limit what could be developed. She asked if there was a consensus to have the City Manager draft an ordinance.

Consensus: **HAVE CITY MANAGER JARBOE DRAFT AN ORDINANCE ALLOWING MIXED USE IN THE C-1 AND C-2 ZONING DISTRICTS BY SPECIAL EXCEPTION AND FORWARD TO THE APRIL WORKSHOP MEETING.**

Community
Garden

COMMUNITY GARDEN RIBBON CUTTING: Mayor Pruette stated the Beaches Local Food Network needed Council approval to hold a ribbon cutting event for the children's garden on April 9, 2011, in Jarboe Park.

Aimee Tous-Parker, 1537 Landing Lane, Coordinator for the Children's Community Garden, stated they were planning to hold a ribbon cutting ceremony to celebrate the completion of the installation of the children's garden. They planned to invite all the volunteers that helped build the garden, city council members, and their fund raising partners. The event was scheduled to be held on Saturday, April 9, 2011, at 10:00 a.m.

Mayor Pruette stated she was in Jarboe Park last Saturday and the garden looked nice.

Vice Mayor Tucker stated she would support the ribbon cutting event.

Councilor Jolly asked how many children were expected to participate in the children's garden activities. Ms. Tous-Parker responded there would be school groups throughout the week and activities would also be scheduled on Saturdays.

Councilor Jolly felt this was a great idea to educate children about food and gardening.

Mayor Pruette felt the community garden was a great use for vacant property in Jarboe Park that could not be used for any other purpose.

Councilor Arthur agreed the community garden was a great asset to the community.

Councilor Pardee stated he would support the event if the Beaches Local Food Network met all the requirements and was in compliance with the details of their contract agreement with the City.

Consensus: **FORWARD TO THE APRIL 4, 2011, REGULAR MEETING FOR APPROVAL.**

COUNCIL COMMENTS

Councilor Jolly stated he would like to be advised that the City attorney has reviewed all ordinances before they are brought to Council. City Attorney Krechowski stated he could initial a transmittal memo stating that he has reviewed the ordinance and was putting it before the Council. He did not want to sign or initial any ordinance before it was adopted because amendments may be made or Council could decide not to move forward with it. Councilor Jolly stated a transmittal memo from the City Attorney notifying Council that he has reviewed the ordinance would be sufficient.

Councilor Pardee advised he had donated his time to convert the City's building permit applications to a software program that would allow them to be filled out online. This makes it easier for people to fill out and submit applications to the building department.

Adjournment

There being no further business, the meeting adjourned at 6:55 pm.

CITY MANAGER REPORT

City Manager Jarboe reported the nitrogen portion of the water project should be complete on June 5, 2011. The reuse portion of the project is scheduled for completion sometime in October.

COMMENTS FROM THE PUBLIC

Lisa Kamm, 1100 Seagate Avenue, opposed the renewal of the lease for the Beaches Local Food Network for the Community Garden in Jarboe Park. She felt the City did not have adequate staff to oversee the lease agreement.

Warren Anderson, 207 Walnut Street, & Maria Mark, 1149 Linkside Drive, Atlantic Beach, presented Mayor Pruette a Certificate of Recognition and Appreciation, on behalf of the Public Trust Environmental Legal Institute of Florida. This was in recognition of her actions encouraging the Jacksonville Transportation Authority to complete its mitigation project by removing the dredge mound from the Intracoastal Waterway on Atlantic Beach.

Lynda Padrta, 1113 First Street, congratulated the new council members and welcomed the new city attorney. She felt the community garden was a nice place. She noticed the traffic was heavier on Saturdays due to the Green Market.

CONSENT AGENDA / NONE**VARIANCES / NONE****ORDINANCES**

Ord. No. 2011-05 ORDINANCE NO. 2011-05, REFERENDUM AMENDING SECTION 2.02, SECTION 3.05, AND SECTION 3.06 FIRST READ: AN ORDINANCE CALLING FOR A REFERENDUM TO AMEND SECTION 2.02 ELECTION AND TERMS, SECTION 3.05 SCHEDULE AND NOTICE OF ELECTIONS AND SECTION 3.06 CITY CANVASSING BOARD OF THE CHARTER; AND ESTABLISHING AN EFFECTIVE DATE.

City Clerk Volpe explained this Ordinance replaces Ordinance No. 2011-04 that was passed on first read at the February regular meeting. Jerry Holland, Supervisor of Election's, amended language in Section 3.05 deleting the first sentence and amended Section 2.20 by reversing subsections (c) and (d).

NEW BUSINESS

Community
Garden

COMMUNITY GARDEN. REQUEST FOR ADDITION OF A 17 X 12 X 12 SHADE STRUCTURE: City Manager Jarboe stated the Green Market was not on the agenda because they did not provide the information requested by Council regarding their registration with the State for receiving donations. They also have not yet provided a parking agreement with the owner of the adjacent office park.

City Manager Jarboe explained the Community Garden has requested approval of a 17 x 12 x 12 sun shade to place in the children's area of the garden. Building Official Don Ford advised the sun shade would not need his approval because it was not a permanent structure and could be removed during dangerous high winds. Mr. Jarboe added the Community Garden has not provided documentation that they have registered with the State to receive donations. They have agreed not to receive any further donations until they have registered with the State.

Mayor Pruette asked City Manager Jarboe if it was his recommendation for Council to approve the sun shade on the condition that the building requirements are met and that they will not accept any further donations until they provide documentation that they have registered with the State. Mr. Jarboe replied that was correct.

Moved by Arthur, seconded by Tucker

Motion: **TO APPROVE THE 17 X 12 X 12 SHADE SAIL.**

Vice Mayor Tucker stated she did not have a problem with the shade sail and would support approval of the request.

Councilor Jolly also stated he did not have a problem approving the shade sail for the community garden.

Councilor Pardee stated he would like to clarify that the Beaches Local Food Network was abiding by the lease agreement with the City. He questioned if they had been paying the monthly rent of \$1.00 to the City as agreed to. City Manager Jarboe replied the record shows the Community Garden has not been paying the \$1.00 monthly for rent. They have donated a total of \$45.00 to the City for repairs and improvements to Jarboe Park.

Mayor Pruette reminded Councilor Pardee this was not a workshop meeting and Council needed to vote for or against the request for the shade sail.

Mayor Pruette asked Aimee Tous-Parker to approach the podium and respond to questions.

Aimee Tous-Parker, 1537 Landing Lane, member of the Beaches Local Food Network Advisory Council, explained she was the coordinator of the children's garden and the person who requested approval of the sun shade.

Councilor Pardee also questioned if the Beaches Local Food Network was paying for the use of water and electric. City Manager Jarboe replied there was a meter for the use of water.

Mayor Pruette stated this item was discussed at the February workshop meeting and forwarded for a vote. She suggested Councilor Pardee give City Manager Jarboe a list of

his questions and have Mr. Jarboe get back with him after the meeting.

For the Record Councilor Pardee stated for the record he had the following questions and concerns:

- Has the rent been paid to the City?
- Have they been paying for water and electric?
- Do they have workers compensation insurance?
- Will the shade sail become the property of the City as stipulated in the agreement?
- He would like them to adhere to the agreement that 25% of all plots would be designated for use by Neptune Beach residents.
- Does the City have keys to the gate and/or any other buildings on the property?

Aimie Tous-Parker responded the water is metered and is paid monthly by the BLFN. There was no electricity on site. They have provided the City with the combinations for the locks to all buildings and structures.

Councilor Pardee questioned if background checks were conducted on the people working with the children in the children's garden area. Ms. Tous-Parker replied they were all volunteers.

Mayor Pruette stated this was a regular meeting, not a workshop. She suggested having City Manager Jarboe respond to Councilor Pardee's questions after the meeting.

City Manager Jarboe stated he would be meeting with members of the organization towards the end of this month and will discuss these issues and concerns. Ms. Tous-Parker stated she would like to improve the communications between the organization and the City.

Councilor Arthur felt this was a good time to resolve any issues and bring the agreement up to date.

Mayor Pruette stated most of the Council supported the community garden and the green market. She has not heard any negative comments.

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette

Noes: 1 – Pardee

MOTION CARRIED

City Manager Jarboe asked Council member to submit their questions to him in writing so that he can be positive that all concerns are answered.

COUNCIL COMMENTS

Councilor Pardee stated the agreement for the green market stipulates that all items sold would be made or grown locally. While at the green market on Saturday he witnessed a vendor selling a product of "Alaskan crab" which he felt was not made or grown locally. He asked City Manager Jarboe to investigate.

Councilor Pardee voiced concern regarding an area in the community garden that was covered in slime and littered with trash and cups. He asked City Manager Jarboe to investigate.

Councilor Pardee stated he was not opposed to the Green Market or the Community

Garden. He felt they have grown so much that it was time for them to relocate. He suggested the community garden move to the two acre park area behind the K-mart shopping center and the green market relocate to the Beach Boulevard intracoastal bridge. He added "if they moved the garden to the area behind K-mart he would never harass them again."

Councilor Jolly stated he would like to review the financials for the Green Market and have a discussion at a future workshop meeting. City Manager Jarboe stated he would ask them to provide the information.

For the Record Mayor Pruette stated for the record she has never suggested the Green Market relocate. She suggested they had a choice to remain small and stay in Jarboe Park or relocate because there was no more room in Jarboe Park.

Councilor Jolly stated the first Monday in July was July 4th and questioned when the regular meeting would be held. City Clerk Volpe stated the regular meeting could be held either the following Tuesday or the following Monday.

Consensus: **TO HOLD THE JULY REGULAR MEETING ON TUESDAY, JULY 5TH.**

Adjournment There being no further business, the meeting adjourned at 6:30 p.m.

Harriet Pruette, Mayor

ATTEST:

Lisa Volpe, CMC, City Clerk

Approved:

MINUTES
WORKSHOP CITY COUNCIL MEETING
FEBRUARY 28, 2011, AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held February 28, 2011 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Eric Pardee
Councilor Richard Arthur
Councilor John Jolly
City Attorney Chris White
City Attorney Patrick Krechowski
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Director of Public Safety David Sembach

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

**Public Safety
Awards**

PUBLIC SAFETY OFFICER AWARDS:

- Chief Sembach awarded Assistant Chief Tony Carrillo and Lieutenant Adam Militello, with a Medal of Valor for being the first to respond to a murder suicide on First Street, on November 30, 2010.
- Chief Sembach awarded Retired Police Officer Sam Bass a Medal of Valor and Purple Heart, for his actions during a traffic stop back on October 26, 1979. Officer Bass was shot at by a suspect and hit in his bullet pouch. The suspect also fired and hit another responding officer in the leg. Officer Bass fired back hitting and subduing the suspect and possibly saving the life of another officer.

**City Attorney
Chris White**

Mayor Pruette presented a plaque to City Attorney Chris White for his service as City Attorney from 1997 to 2001. Chris White thanked the present and past council members for allowing him the opportunity to serve as the City Attorney. He stated it has been his pleasure to serve the city. It was time for him to move forward in other aspects of his professional career.

MINUTES
SPECIAL CITY COUNCIL MEETING
FEBRUARY 17, 2011 AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Richard Arthur
Councilor John Jolly
Councilor Eric Pardee
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Director of Public Safety David Sembach

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m.

Ord. No. 2011-03

ORDINANCE NO. 2011-13, AMENDING CHAPTER 27, SECTION 27-225 USES EXPRESSLY PROHIBITED, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, 27-225 USES EXPRESSLY PROHIBITED WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2011-03 ON SECOND READ AND PUBLIC HEARING.**

Mayor Pruette read Ordinance 2011-01 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette

Noes: 1 – Pardee

MOTION CARRIED

Res. No. 2011-02

RESOLUTION 2011-02: A RESOLUTION OF THE CITY OF NEPTUNE BEACH APPOINTING _____ AS CITY ATTORNEY, FIXING HIS DUTIES FOR LEGAL SERVICES AND RATE OF COMPENSATION, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated this Resolution acts as an agreement between the City Attorney and the City for his duties and responsibilities.

Mayor Pruette asked Council if they would like to set the annual retainer and the hourly rate before or after the interviews.

Consensus: **TO DISCUSS RESOLUTION 2011-02 AFTER THE INTERVIEWS.**

City Attorney
Interviews

CITY ATTORNEY INTERVIEWS: Mayor Pruette explained she would allow each applicant three minutes to give a brief introduction followed by questions from the Council, City Manager and City Clerk.

Councilor Jolly felt it would be unfair to the applicants to allow them to hear each other's responses. He questioned if it would be appropriate to ask the applicants to be excused during the other's interviews.

Mayor Pruette stated she spoke with City Attorney White prior to the meeting and he advised they could not ask the applicants to excuse themselves because it was a public meeting and they had the right to be present.

Michael McCabe

MR. MICHAEL MCCABE, MCCABE & VAUGHN, ATTORNEYS AT LAW: Mr. McCabe explained he was raised in Jacksonville Beach. He currently resides in downtown Jacksonville. He is a shareholder attorney with McCabe & Vaughn, P.A. in Jacksonville and St. Augustine, Florida. He has been practicing law for five years. He currently serves as General Counsel for the Town of Hastings and is the Board attorney for the Town's Code Enforcement Board. He also serves the Board of County Commissioners for St. Johns County as the Special Magistrate. He also serves as alternate counsel for the St. Johns County Industrial Development Authority and the Board of Adjustments and Appeals. He practices in the areas of real estate and local governments. He received his Bachelor of Science degree in Civil Engineering and is a licensed professional engineer. Additionally, he serves as bond counsel and is listed in the "Red Book" formerly known as the "The Bond Buyer's Municipal Marketplace."

Questions from Council:

Vice Mayor Tucker asked Mr. McCabe to detail his litigation experience. Mr. McCabe replied he handled litigation relating to real estate. He has some pending litigation in St. Johns County on some very large cases. He also handles mediations and arbitrations for home owners associations.

Vice Mayor Tucker asked Mr. McCabe if he would have time to fit Neptune Beach into his schedule. Mr. McCabe stated the Town of Hastings held their meetings on the second Monday of each month. He would schedule other issues around Neptune Beach.

Vice Mayor Tucker asked Mr. McCabe to give an example of his working relationship with elected officials. Mr. McCabe explained in other municipalities he deals mainly with the City Manager and the City Clerk. He does not work with elected officials as often as staff.

Vice Mayor Tucker asked Mr. McCabe what he felt was the biggest issue facing Neptune Beach. Mr. McCabe stated he felt the biggest issues facing Neptune Beach were signage, land use, zoning, and ordinance enforcement.

Vice Mayor Tucker asked Mr. McCabe if his fees were negotiable. Mr. McCabe replied "yes."

Councilor Jolly asked Mr. McCabe if he was familiar with the Interlocal Agreement between the Beaches and the City of Jacksonville. Mr. McCabe responded he was not familiar with the Interlocal Agreement. However, he had no conflicts of interest regarding the City of Jacksonville and our sister beach cities.

Councilor Jolly questioned what Mr. McCabe meant by his statement in his resume that as General Counsel for the Town of Hasting he manages the Board's meetings and day to day operations. Mr. McCabe replied he assisted the Board and the Town on a daily basis by answering legal questions.

Councilor Arthur questioned if Mr. McCabe had any conflicts of interest with other clients. Mr. McCabe replied "no" there would be no conflicts of interest with his other clients.

Councilor Arthur stated Mr. McCabe indicated fees for litigation and administrative matters would be individually negotiated. He asked what would not be included in the hourly rate. Mr. McCabe explained he excluded litigation because it took time to prepare for trials. He indicated he would like for the contract to include a 30 day notice for his resignation and the City could dismiss him at anytime without notice.

Councilor Pardee questioned how Mr. McCabe felt about ordinances being clear and enforceable. Mr. McCabe responded ordinances should be administered to be enforceable. He added that sometimes there were conflicts in other areas of the Code, however, ordinances should be written in a clear and concise manner.

Councilor Pardee asked Mr. McCabe if he was familiar with the actions of the City of Neptune Beach over the past few years concerning legal issues. Mr. McCabe stated he was not familiar with the actions of Neptune Beach. He knew there was an issue with Solantic over a sign and an issue with the development of Wal-mart.

Mayor Pruette asked Mr. McCabe what was his starting point for an hourly rate for litigation. Mr. McCabe stated his hourly rate for government and municipalities was \$150.00.

Mayor Pruette stated the biggest issue in Neptune Beach was noise complaints. She asked Mr. McCabe if he had any experience dealing with noise complaints. Mr. McCabe stated crafting a noise ordinance was the most critical issue. He was familiar with writing noise ordinances. He felt noise ordinances should be crafted in such a way as to not be considered unconstitutional.

Councilor Arthur asked Mr. McCabe if the \$150.00 hourly fee included the cost of a paralegal. Mr. McCabe replied the paralegal usually would not be involved.

Mayor Pruette asked City Manager Jarboe, for the benefit of the applicants, how much time a City Attorney would typically spend on Neptune Beach matters. City Manager Jarboe stated including attendance at Council meetings the City Attorney would spend approximately 10 hours a month on Neptune Beach matters unless something unexpected occurred.

Jeb Branham

MR. JEB BRANHAM, DEEM BRANHAM ATTORNEYS AT LAW: Mr. Branham explained he resides in Jacksonville Beach and is a former resident of Neptune Beach. His family has lived in the beaches area for 11 years. His office is located at the beaches. The beaches are important to him and he considers the beach a special community. He has practiced law since 1995 and has a great deal of experience in municipal law. He has been the Town Attorney for the Town of Callahan since 2003 and the Town Attorney for the Town of Baldwin since 2004. During that time he has been exposed to many problems and litigation regarding municipalities. He has experience litigating with the Florida Department of Transportation and the Department of Community Affairs and Administrative Proceedings.

He also has experience in construction litigation and certiorari proceedings on behalf of the Town of Callahan.

Questions from Council:

Councilor Arthur stated Mr. Branham has represented cases against Neptune Beach and asked him how he would handle a potential conflict of interest. Mr. Branham responded his client has already been informed that he may have to withdraw from that case.

Councilor Arthur asked Mr. Branham his opinion of the Interlocal Agreement and to describe the similarities of the Interlocal Agreement between City of Neptune Beach and the Town of Baldwin. Mr. Branham stated there were similarities. He felt the City of Jacksonville often forgets that it is also a County and the other municipalities pay tax dollars to Duval County in return for services. He also felt the City of Jacksonville has an unfair advantage because of its size. He added the Interlocal Agreement may be an issue the City will have to deal with in the near future.

Councilor Arthur asked Mr. Branham if he would have time for Neptune Beach. Mr. Branham replied that would not be an issue even if he combined all three municipalities.

Councilor Pardee asked if the City hired Mr. Branham would we also be hiring the firm Deem Branham. Mr. Branham replied anytime someone works for a firm the primary entity that contracts would be the firm. He would be the person to attend the meetings and on the other end of the phone. The advantage to hiring the firm is there would always be someone to back him up in case of illness or an emergency.

Councilor Pardee asked Mr. Branham as a citizen of Jacksonville Beach what he would consider one of their biggest concerns. Mr. Branham replied the biggest concern facing Jacksonville Beach was the revitalization and improvements in the downtown area.

Councilor Pardee asked Mr. Branham if he attended council meetings in Jacksonville Beach. Mr. Branham replied he did not attend the council meetings on a regular basis.

Councilor Jolly stated if Mr. Branham was hired by Neptune Beach he would be representing three different cities. He asked what would happen if all three cities wanted to meet on the same night. Mr. Branham responded that would be a problem. Currently Baldwin meets once a month on the second Tuesday. The Town of Callahan currently meets the same nights as Neptune Beach on the first and third Monday of each month. However, he has spoken with the Mayor about changing their meeting dates. If that is not possible he will withdraw from representation of the Town of Callahan.

Councilor Jolly asked Mr. Branham what he felt was the biggest problem facing Neptune Beach. Mr. Branham replied he is concerned about the prohibition of Internet Cafes and felt litigation would develop as a result. He also felt the Interlocal Agreement was a big issue.

Councilor Jolly asked Mr. Branham to describe his relationship with the elected officials of Baldwin and Callahan. Mr. Branham stated the two towns were similar, they did not have city managers, and the Chief Administrator for both towns was the Mayor. His point of contact for both cities was the Mayor; however he is available to all council members.

Vice Mayor Tucker asked Mr. Branham to describe a case that he was most proud of relating to a municipality. Mr. Branham stated when he became the attorney for the Town of Callahan they had gone through a period of time where there was a great deal of corruption within the government. He quickly resolved the issue and saved the Town a great deal of money.

Councilor Tucker asked Mr. Branham if his fees were negotiable. Mr. Branham responded "yes" especially given the amount of time City Manager Jarboe estimated.

Mayor Pruette questioned why Mr. Branham would consider withdrawing representation from the Town of Callahan to represent Neptune Beach. Mr. Branham replied Neptune Beach was closer to his home and it would be a chance for him to grow and develop.

Tim Franklin

MR. TIMOTHY FRANKLIN, ESQ., DANIEL M. COPELAND, ATTORNEY AT LAW: Mr. Franklin stated he resides in Neptune Beach and has served on both the Code Enforcement Board and the Board of Appeals. He has extensive experience with local government law and was recently employed by the City of Jacksonville's Office of General Counsel. A large part of his current practice involves land use matters with various local governments in northeast Florida.

Councilor Jolly asked Mr. Franklin if he could give opinions based on his knowledge of the opposite side of land use issues. Mr. Franklin stated he has worked both sides working for the City of Jacksonville as well as representing their Planning Commission. He felt his experience working on the opposite side would help Neptune Beach in terms of knowing what to look for if an ordinance is challenged.

Councilor Jolly asked Mr. Franklin if he was a litigator or if the City would have to hire an outside litigator if we were faced with a lawsuit. Mr. Franklin stated he has significant litigation experience. He considers one third of his practice litigation.

Councilor Jolly asked Mr. Franklin if he was familiar with the Interlocal agreement between the beaches and the City of Jacksonville. Mr. Franklin replied he did not have much knowledge of the Interlocal agreement but he felt it was intended to allow the City's to function individually.

Councilor Jolly asked Mr. Franklin what he felt was the biggest challenge facing Neptune Beach. Mr. Franklin replied from his experience on the Code Enforcement Board he felt there were inconsistencies in the Code. He felt Neptune Beach should deal with issues proactively verses reactively and be prepared.

Vice Mayor Tucker asked Mr. Franklin how would he fit Neptune Beach into his schedule. Mr. Franklin responded Neptune Beach would be his only municipal client. He represented numerous homeowners associations but their meetings were during the day. He would have sufficient time to devote to Neptune Beach and he would make it a priority.

Vice Mayor Tucker asked Mr. Franklin if he felt he would work well with the Council. Mr. Franklin stated he would be available to the Council to answer questions. He would gain the respect of the Council and felt it would be his duty to speak up during meetings when legal advice was necessary.

Vice Mayor Tucker asked Mr. Franklin if his fees were negotiable. Mr. Franklin replied "yes" his fees were flexible.

Vice Mayor Tucker asked Mr. Franklin if he saw any other issues facing Neptune Beach in the near future. Mr. Franklin stated he felt the City faces issues with land use, tax revenues, and decreased property values.

Councilor Arthur asked Mr. Franklin what were his reasons for leaving the Office of the General Counsel with the City of Jacksonville. Mr. Franklin replied he had conflicts with others. The job gave him an opportunity to meet many people.

Councilor Pardee asked how many years he served on the boards in Neptune Beach. Mr. Franklin replied he served on the Board of Appeals for two years and is currently serving on the Code Enforcement Board.

Councilor Pardee questioned if he felt serving on the boards would give him an upper hand on being hired as the City Attorney. Mr. Franklin stated he has experience with both sides of issues relating to land use. He felt there were opportunities to tune the Code.

Mayor Pruette stated Mr. Franklin represented a developer against the City of Jacksonville Beach. She asked if that would be a conflict. Mr. Franklin stated he did not believe it would be a conflict. He has a good working relationship with the employees of the City of Jacksonville Beach.

Mayor Pruette asked if being the City Attorney for the City of Neptune Beach would be a hindrance to his practice. Mr. Franklin stated it did not affect his service on the Boards. He felt it would be beneficial.

Patrick
Krechowski

MR. PATRICK KRECHOWSKI, ESQ: Mr. Krechowski stated he currently resides in Neptune Beach. He did not wish to go into detail regarding his personal background. He was prepared to answer questions regarding his qualifications and experience. He added he was not interested in becoming an attorney for any other City or County. His interest was in serving Neptune Beach with his experience, knowledge and dedication. He did not want the position of City Attorney for the purpose of adding Neptune Beach to his list of clients or to use the representation of Neptune Beach to improve his firm. He felt the City deserved an attentive, knowledgeable, and affordable attorney and that is what he was offering. As City Attorney he will represent the City zealously and defend the decisions made by the Council if they are challenged or scrutinized by third parties. Having served on the Code Enforcement Board and being a candidate for City Council he understood the passion and dedication the Council has for the City. He added that because the Council was already familiar with his qualifications he would be happy to answer any questions.

Councilor Pardee asked Mr. Krechowski how long he has served on the Code Enforcement Board and what he learned from that service. Mr. Krechowski replied he has been on the Code Enforcement Board since the summer of 2008. He has learned that it is a constant challenge to implement and enforce laws.

Councilor Pardee asked Mr. Krechowski if he had any plans or interests in updating the Code. Mr. Krechowski responded he felt the Code should be reviewed and updated gradually. He was interested in having an intern to help review the Code.

Councilor Pardee asked Mr. Krechowski if he felt a City Attorney should take a proactive approach advising the Council or if he should be more reactive and respond to questions from Council. Mr. Krechowski answered that would be determined by the type relationship created between Council and their City Attorney. If he felt the Council was headed in a particular direction he thought was problematic he would step in and give advice.

Councilor Arthur asked if becoming the City Attorney would be a conflict of interest with his current position at Fidelity National Title Group. Mr. Krechowski replied legally there would not be a conflict of interest. He has spoken with his superiors and supervisors regarding his intentions and they were all very supportive.

Councilor Arthur asked how many hours he estimated he would spend dealing with City related issues. Mr. Krechowski responded approximately 15 hours.

Vice Mayor Tucker asked Mr. Krechowski to detail his litigation experience. Mr. Krechowski explained he had experience in appellant litigation, at the State level with the Department of

Environmental Protection and the St. Johns River Water Management District as well as in private practice. He also has experience involving environment permitting, land use and interagency agreements. He also attends mediations, hearings, and pretrial conferences.

Vice Mayor Tucker asked Mr. Krechowski what he felt was the biggest issue facing Neptune Beach. Mr. Krechowski replied he felt the Interlocal agreement, Ordinances prohibiting Internet Cafes, and code enforcement regarding noise and the condition of buildings were some of the issues that would need to be addressed.

Vice Mayor Tucker asked if he was willing to negotiate on his salary requirements. Mr. Krechowski replied "yes."

Vice Mayor Tucker asked based on his observations, how did he think he would get along with Council and staff. Mr. Krechowski stated he was fortunate to serve on the Code Enforcement Board with Mr. Jolly and met Council members while campaigning for a Council seat. He was also familiar with some of the staff members and would offer good knowledge experience and service to both the Council and staff.

Vice Mayor Tucker asked if there was a particular case he was most proud of. Mr. Krechowski stated it was his first case. When he was working at the office of the Attorney General he had a problematic predatory offender case. This was the first time he argued a case and it was victorious.

Councilor Jolly asked Mr. Krechowski why he felt the Council should choose him over the other candidates that had experience working for local governments. Mr. Krechowski responded he did not have direct experience serving as a city or county attorney. He did some background work involving the Wal-mart case against the City. He also has experience involving Taylor County, the City of Jacksonville Beach, the City of Perry, and Walton County.

Mayor Pruette stated his retainer was the lowest out of all the other applicants. She asked if he was comfortable with the offer of \$33,000 for a retainer and \$150.00 an hour for litigation. Mr. Krechowski stated he was absolutely comfortable with that.

Mayor Pruette stated if there were no further questions from Council or Staff she would ask each Council member to select their top choice for City Attorney and pass the ballots down to the City Clerk.

City Manager Jarboe suggested that each Council member select their first and second choice in the event there was a tie. He also suggested if Council was unable to negotiate fees with their first choice they could go to their second choice.

City Clerk Volpe announced for top choice Patrick Krechowski received 3 votes; Timothy Franklin received 1 vote and Jeb Branham received 1 vote. For second choice Jeb Branham received 3 votes, and Patrick Krechowski received 2 votes.

Mayor Pruette announced the first choice was Patrick Krechowski and the second choice was Jeb Branham.

Discussion ensued regarding retainer amount and hourly fees for Patrick Krechowski.

Mayor Pruette asked Mr. Krechowski if he would accept \$33,000 for the annual retainer, \$150.00 per hour for litigation and \$80.00 per hour for paralegal services. Mr. Krechowski stated he had reviewed the Resolution and was comfortable with the arrangement.

Moved by Jolly, seconded by Tucker

Motion: **TO ACCEPT PATRICK KRECHOWSKI AS THE CITY ATTORNEY.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

Res. No. 2011-02 **RESOLUTION 2011-02:** A RESOLUTION OF THE CITY OF NEPTUNE BEACH APPOINTING PATRICK KRECHOWSKI AS CITY ATTORNEY, FIXING HIS DUTIES FOR LEGAL SERVICES AND RATE OF COMPENSATION, AND PROVIDING AN EFFECTIVE DATE.

Arthur felt it would be beneficial to have the city attorney train board members twice a year.

City Manager Jarboe stated a 30 day notice of resignation needed to be added in the Resolution.

Moved by Jolly, seconded by Tucker.

Motion: **TO APPROVE RESOLUTION NO. 2011-02 WITH THE CHANGES.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

City Clerk Volpe asked the Council when they would like the Resolution to become effective.

City Manager Jarboe felt Mr. Krechowski would need to spend some time with current City Attorney Chris White to review pending cases. He suggested the Resolution become effective on Tuesday, February 22, 2011.

Adjournment There being no further business, the meeting adjourned at 7:35 p.m.

Harriet Pruette, Mayor

ATTEST:

Lisa Volpe, CMC, City Clerk

Approved: _____

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The retrofit of the sewer plant is about 65% completed.

Mayor Pruette asked for a report on the foreclosure on 914 Fifth Street. City Attorney White stated there were a total of 3 or 4 foreclosures in progress due to code enforcement liens. The code enforcement liens are inferior to primary mortgages. The foreclosures will remain in progress until the banks decide how they want to proceed or whether the courts will allow them to proceed with the foreclosure process.

PUBLIC COMMENTS

Rick Sauls, voiced concern regarding the proposed ordinance that would prohibit use of his vehicle to transport parking valets to and from the parking.

Curtis Winter, owner of Sun Dog, felt the valet parking would benefit all of the Town Center businesses. He would like for Rick Saul to be able to provide the valets transportation to the valet parking.

PROPOSED ORDINANCES

Land Use Ord.

ORDINANCE NO. 2011-XX, AMENDING CHAPTER 27, PROHIBITED LAND USES:
AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, SECTION 27-225 USES EXPRESSLY PROHIBITED WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated this ordinance added Section 27-225(6) All zoning districts: indoor /outdoor firing ranges (other than for governmental purposes), indoor/outdoor flea markets, vendors /sales on public property (including the beach), tattoo or body artist, pawn shops, bingo halls, billiard or pool halls. Any golf cart, utility cart, or similar device used to transport passengers for any form of compensating on including advertising. Any non-motorized vehicle of similar device used to transport passengers for any form of compensation (including advertising) such as, but not limited to: a carriage, jitney or rickshaw.

City Manager suggested the following amendment: All zoning districts: indoor/outdoor firing ranges, indoor/outdoor flea markets, indoor/outdoor flea markets, vendors / sales on public property (including the beach) unless approved by city council.

City Manager Jarboe added Chief Sembach was concerned about slow moving vehicles stopping to drop off and pick up passengers.

Chief Sembach explained his main concern regarding low moving vehicles was safety of passengers. He felt it was not safe to have an open slow speed vehicle on the streets. He also felt the need to speed, in an effort for the valet attendant to hurry to retrieve vehicles, would present a hazard.

Councilor Jolly stated these types of businesses were currently not permitted because they were not included in the Land Use Chart. He felt this would help staff explain to those that did not understand the Land Use Chart that these uses were prohibited because it would be clearer in Code.

Vice Mayor Tucker stated she understood the safety concern however, they did have regulations that required seatbelts. She felt the City should try to help the businesses in Town Center due to the lack of parking.

Councilor Arthur agreed parking in Town Center was a problem. He felt slow moving vehicles helping to provide valet parking would help to relieve the parking problems. The city should help find a solution while taking safety issues into consideration.

Councilor Pardee stated based on the Charter each proposed prohibited use should be considered separately. He added if they were considered separately the Council would be able to address Chief Sembach's safety concern without dealing with the others. He added he would like to understand the reasoning behind wanting to ban each of the businesses.

City Manager Jarboe explained all of the businesses were currently prohibited by the Land Use Chart with the exception of the slow moving vehicles. He added if Council wanted to allow the uses they would need to be included in the Land Use Chart.

Mayor Pruette stated Atlantic Beach also prohibits these establishments. She agreed parking valets would decrease congestion in Town Center. She felt the City could establish guidelines for valet parking requiring low speed vehicles to be street legal by requiring them to have proper reflectors, lighting, and insurance to protect passengers, the general public as well as the City.

Councilor Pardee questioned why the City wanted to ban these types of establishments. He personally did not have a problem with allowing the establishments.

City Manager Jarboe informed Councilor Pardee these establishments were currently prohibited in the Land Use Chart and he would need to introduce a new ordinance if he wished to allow them.

Councilor Pardee stated these establishments are allowed in Jacksonville Beach, Atlantic Beach and Jacksonville, and they are all over Third Street, Beach Boulevard, and Atlantic Boulevard. He would like to know why these particular establishments have been singled out for being prohibited.

City Manager Jarboe explained these establishments are currently not permitted in the Land Use Chart. If this Ordinance does not move forward it would not change the fact that they are not allowed. If he would like to allow these establishments, he would need to introduce and ordinance.

Mayor Pruette asked if there was a consensus to strike out motorized vehicles and move forward.

Councilor Arthur stated he would also like to include the recommendation of City Manager Jarboe to add that indoor/outdoor flea markets, vendors/ sales on public property must be approved by the City Council.

City Manager Jarboe stated they should read "unless approved by the City Council."

Councilor Arthur stated he also agreed with removing "low speed vehicles" from the prohibited uses. He would open to the option of discussing each establishment separately.

Councilor Jolly agreed with removing "low speed vehicles" and moving forward. He was open to reviewing the ordinance regarding taxi cabs and shuttles.

Councilor Tucker agreed to move forward with the suggested amendments.

For the Record Councilor Pardee stated for the record he did not agree with moving forward with the ordinance. He felt it was not friendly to business or property owners.

Consensus: **TO AMEND THE ORDINANCE ADDING "UNLESS APPROVED BY THE CITY COUNCIL" AND STRIKING OUT "LOW SPEED VEHICLES" AND FORWARD TO THE APRIL REGULAR MEETING.**

City Clerk Volpe advised this Ordinance requires two public hearings and in order to meet public notice requirements the first read could not take place until the April 4, 2011, regular meeting.

City Manager Jarboe asked if Council wanted to strike out "gas stations" from (4) as recommended by Councilor Pardee. Mayor Pruette responded "yes."

Mayor Pruette asked Councilor Pardee to introduce an Ordinance allowing specific businesses for Council to consider.

CONTRACTS / AGREEMENTS

Green Market **GREEN MARKET – ADDITION OF THREE VENDOR SPOTS:** City Manager Jarboe explained the Green Market has requested the addition of three vendor spaces located next to the parking area.

Jonathon Felts, 1166 Third Avenue North, Jacksonville Beach, Representative for the Green Market approach the Council to answer questions.

Councilor Pardee asked Mr. Felts if the Green Market had a valid lease agreement. City Manager Jarboe responded the City did not have a lease agreement with the Green Market however, there was an agreement. Mr. Felts added the agreement with the City is renewed every two years. Mayor Pruette stated the lease agreement in the agenda packet expired on July 1, 2010.

Councilor Pardee questioned what items were sold at the Green Market. Mr. Felts replied there was a 70/30 percent ratio of food to non-food items.

Councilor Pardee asked Mr. Felts if he would consider relocating the Green Market into a vacant store. Mr. Felts replied the Green Market was a non-profit organization.

Councilor Pardee asked Mr. Felts if the three new vendors would be vegetable vendors. Mr. Felts replied the Green Market has bylaws which require a 70/30 percent ratio of food to non-food items sold and they would honor that requirement.

City Manager Jarboe asked Mr. Felts if the non-food items sold were handmade by the Vendor or a member of their family. Mr. Felts replied "yes."

Mayor Pruette quoted the following portion of the Code: Open air markets are defined as areas in which vendors shall sell flowers, plants, plant materials, fruits, vegetables, and other non-commercially processed food items and hand crafted items which are made by the vendor or the vendor's immediate family. She asked Mr. Felts if the Green Market sold only those types of items. Mr. Felts replied "that was correct."

Mr. Felts added Beaches Local Food Network had a million dollar liability insurance policy which covered both the Green Market and the Community Garden. They also require the vendors to have a tax identification number.

City Manager Jarboe questioned if the Beaches Local Food Network was registered with the State of Florida to accept donations under the Charitable Donation Act. Mr. Felts stated he was not certain but he would check into the matter.

Councilor Arthur asked Mr. Felts if the Green Market had a parking arrangement agreement with the adjacent parking lot owners. Mr. Felts replied they initially had a problem with the previous owners of the Park Place Office Park. The office park was sold to a new owner and they have not had any problems with the current owner or tenants.

Councilor Arthur asked Mr. Felts if he was concerned the addition of the three vendor spaces would create more traffic. Mr. Felts replied he did not expect there to be more traffic. Two emergency exits were provided.

Councilor Arthur asked Mr. Felts if there was a vendor waiting list. Mr. Felts stated there were currently seven vendors on the waiting list.

Councilor Arthur stated the Green Market was a great asset to the community. He would like to see some natural landscaping and shade trees in the park.

Councilor Tucker agreed the Green Market was a great asset to the community. She voiced concern regarding traffic and safety. Mr. Felts replied he did not foresee any dangerous issues or liabilities with the addition of the new vendor spaces.

Councilor Jolly asked how many vendor spaces were currently available. Mr. Felts replied there were currently 25 vendor spaces.

Councilor Jolly asked how much rent was collected for each space. Mr. Felts responded the spaces were rented for \$15.00.

Councilor Jolly asked if the Green Market had a written parking agreement with the owner of the adjacent office park. Mr. Felts replied they did not have a parking agreement with the owner of the office park.

Councilor Jolly stated the agreement provides that the Green Market set up a donation program for enhancements and repairs to Jarboe Park. He asked how much money has been raised and donated to the City. Mayor Pruette responded the Green Market has donated a total of \$45.00 to the City for repairs in the park.

Councilor Jolly stated last Saturday, while at the Green Market, he noticed someone was selling a commercial pesticide. Mr. Felts explained the vendor was Nature's Way and they used a mixture of oils to create the pesticide.

Councilor Jolly stated according to the agreement with the City the Green Market provides updates to the Council every six months. He questioned when the last time the City received an update was. Mr. Felts responded the last update was given to the Council when they renewed the agreement, last spring or fall.

Councilor Jolly felt the Green Market was great for the community but they needed to adhere to the agreement.

Councilor Jolly asked if the City received copies of the Green Market's 501(c)3 tax report. City Manager Jarboe stated the City did not ask for one at the last renewal. That was why he asked if the Green Market had registered with the State of Florida. Mr. Felts stated the status had not changed. He added the Green Market operated under Socially Environmental Entrepreneur.

Mayor Pruette stated the Green Market was a popular event. She felt the Green Market may be outgrowing the location in the park. She felt if the Green Market wanted to grow anymore than these three extra spaces, they would need to relocate because there would be no more room in the park. She suggested the location in Jacksonville Beach, underneath the Intracoastal Bridge on Beach Boulevard.

Mayor Pruette asked if there was a consensus to approve the three spaces.

City Manager Jarboe stated the Green Market would need to provide documentation that they have registered with the State for fund raising.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING FOR APPROVAL.**

Community
Garden

COMMUNITY GARDEN – ADDITION OF A 17 X 12 X 12 SHADE STRUCTURE:
Aimee Tous-Parker, 1537 Landing Lane, board member for the Beaches Local Food Network, explained the group held a fund raiser and raised \$5,000 to improve the community garden. They would like to incorporate a triangle shape 17x12x12 shade structure for children's group area. The area is located on the eastern most side of the garden.

City Manager Jarboe stated if the group was holding fund raiser events they also needed to register with the State of Florida. The City also needed a current lease agreement and an insurance rider.

Mayor Pruette asked if the shade was a temporary structure that would be taken down at night. Ms. Tous-Parker replied it would not be a permanent structure. It would be removable but would not be able to remove each night. It could be removed for pressure washing or in the case of a storm.

City Manager Jarboe stated if the shade structure is approved it would have to comply with the Florida Building Code.

Councilor Tucker stated she would support the structure as long as they abide by the necessary rules and regulations.

Councilor Jolly stated there were 24 plots and only 3 were used by Neptune Beach residents. Ms. Tous-Parker replied she did not have a current listing of the precise number.

Mayor Pruette stated that Neptune Beach were suppose have first choice for the plots. Ms. Tous-Parker responded Neptune Beach residents get priority. Mayor Pruette asked Ms. Tous-Parker to provide the city with a current list.

Councilor Arthur felt the community garden was a great addition to the city. He did not have a problem approving the sail shade as long as they met the building code guide lines.

Councilor Pardee asked if there was current lease agreement. City Manager Jarboe replied he did not think there was a current agreement. Community Development

Director Askew stated she could not locate a current agreement in her records. Councilor Pardee stated if the community garden was going to be ongoing or permanent the Charter states it would have to be approved by referendum. He felt the shade sail would take away from the beauty of the park.

Councilor Jolly requested that a current lease agreement and documentation that State requirements for fund raiser have been met before approval.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING FOR A VOTE.**

Councilor Pardee asked if there was interest in considering a referendum.

Mayor Pruette stated she was involved in the creation of the original referendum. The original referendum was created to prevent permanent building structures, such as City Hall and the Public Safety Building from being placed in the park.

Councilor Pardee asked City Attorney Krechowski to take a look at the Charter to see if the use of the park for a community garden called for a referendum.

ISSUE DEVELOPMENT

Art Walk **ART WALK – ADDITION OF ACOUSTIC GUITAR PLAYER:** Mayor Pruette stated this item has been withdrawn from the agenda by the Art Walk director.

Youth Council **DEVELOPMENT OF YOUTH COUNCIL:** Vice Mayor Tucker stated she would like to consider starting a Youth Council. She felt this would be a great way for youth to become involved and understand local government process.

Councilor Arthur asked if there was any interest or demand for a youth council. Vice Mayor Tucker replied she had spoken with the principal of Fletcher High School but she wanted to get the approval of the Council before asking young people if they were interested.

Councilor Arthur questioned if the Youth Council would be subject to the Sunshine Law. Vice Mayor Tucker replied “yes.”

Councilor Arthur asked if the Youth Council would have to be added to the city's insurance policy. City Manager Jarboe stated there would be some associated cost. There would have to be background checks for adults working with children. There would also be the requirements of record keeping. If they used City Hall for their meetings a staff member would have to be on overtime to open and close City Hall.

Mayor Pruette stated she supported the idea of creating a Youth Council. She added that she had been informed by an Atlantic Beach employee that the Atlantic Beach Teen Council did not understand the Sunshine Law and their Teen Council had become more of social gathering for the teens. She asked Vice Mayor Tucker to speak with the Fletcher High School principal to find out if there was an interest.

Consensus: **VICE MAYOR TUCKER MEET WITH THE FLETCHER HIGH SCHOOL PRINCIPAL REGARDING AN INTEREST IN A YOUTH COUNCIL AND REPORT BACK TO THE COUNCIL.**

Ethics Rules **ETHICS RULES:** Mayor Pruette explained City of Jacksonville Councilman Richard Brown has requested action from the Council on whether or not the City of Neptune Beach wanted to be included or exempted from the Duval County Ethics Charter Amendment also known as the J-Bill.

City Manager Jarboe explained the General Counsel for the City of Jacksonville has indicated that the bill did not include or pertain to the beach cities or the Town of Baldwin. City of Jacksonville Councilman Richard Brown has requested that we inform him if we wanted to be included in the bill.

City Manager Jarboe recommended that we remain exempt from the bill and create an ordinance regarding ethics law to add to our Code. The other option would be to add into our Code that we are under the State ethics law and provide access to the State ethics law on our website.

City Manager Jarboe added Carla Miller, Ethics Officer, City of Jacksonville, indicated Neptune Beach would be able to participate in the City of Jacksonville's educational programs on ethics at no cost. If we were to be included in the bill we would have to share the costs.

Councilor Pardee he would like to further explore the both options before making a decision.

City Manager Jarboe suggested staff and the City Attorney do some research and provide additional information at a future meeting. In the meantime we needed to inform the City of Jacksonville in writing if we wanted to be included in the bill. He suggested Mayor Pruette write a letter to Jacksonville City Councilman Richard Brown indicated that we are not interested at the present time.

Councilor Jolly suggested having the City Attorney review the ethics laws with the Council on an annual basis and have it documented in the minutes.

Mayor Pruette stated she received an e-mail from Carla Miller, Ethics Officer, City of Jacksonville stating that many cities are implementing a local ethics program. She felt it would be beneficiary for us to put something in our Code regarding ethics. She added that the City of Jacksonville requires all public officials attend an ethics training program once a year, and she has invited the Neptune Beach elected officials to participate in their training program at no cost.

Consensus: **SEND A LETTER TO CITY OF JACKSONVILLE COUNCILMAN BROWN INDICATING THAT WE ARE NOT INTERESTED IN BEING INCLUDING IN THEIR ETHICS BILL AND HAVE THE CITY ATTORNEY PROVIDE MORE INFORMATION REGARDING ETHICS TO THE COUNCIL AT THE MARCH WORKSHOP MEETING.**

COUNCIL COMMENTS / NONE

Adjournment

There being no further business, the meeting adjourned at 7:37 pm.

MINUTES
REGULAR CITY COUNCIL MEETING
FEBRUARY 7, 2011 AT 6:00 P.M.
CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Regular Meeting of the City Council of the City of Neptune Beach was held February 7, 2011, at 6:00 p.m. in the City Hall Council Chambers, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Richard Arthur
Councilor John Jolly
Councilor Eric Pardee
City Attorney Christopher White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Lt. Adam Militello
Director of Public Safety David Sembach
Deputy City Clerk Karla Strait, CMC

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked City Attorney White to lead the Pledge of Allegiance.

AWARDS / PRESENTATIONS/ RECOGNITION OF GUESTS

Mayor Pruette presented a Proclamation to the Ish Brant Beautification Committee in recognition of "National Invasive Species Awareness Week."

APPROVAL OF MINUTES

Moved by Jolly, seconded by Tucker.

Minutes

Motion: **APPROVE THE FOLLOWING MINUTES AS AMENDED:**

JANUARY 3, 2011, REGULAR CITY COUNCIL MEETING
JANUARY 10, 2011, SPECIAL CITY COUNCIL MEETING
JANUARY 24, 2011, WORKSHOP CITY COUNCIL MEETING
JANUARY 24, 2011, SPECIAL CITY COUNCIL MEETING

Councilor Pardee made the following amendment to the January 24, 2011, workshop meeting: 1) Page 1, Building Official Don Ford will be out on leave for several weeks due to health issues. A ~~licensed contractor~~ contracted building inspector has been hired to conduct building inspections in his absence. 2) Page 2, He explained the terms "all votes cast" would mean 50% plus one vote. He felt this should be amended to read "majority of

all the votes cast.”

City Clerk Volpe stated the typos pointed out by Councilor Jolly prior to the meeting had been corrected.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

ORDINANCES

Ord. No. 2011-03 ORDINANCE NO. 2011-03, AMENDING CHAPTER 27, ARTICLE IV, LAND USE, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, 27-225 USES EXPRESSLY PROHIBITED WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance would prohibit internet cafes.

Mayor Pruette read Ord. No. 2011-03 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2011-03 ON FIRST READ AND PUBLIC HEARING.**

Councilor Jolly made the following amendment: Section 2. Chapter 27 Unified Land Development Regulations shall be amended to add the following ~~definitions~~ prohibitions:

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette

Noes: 1 – Pardee

MOTION CARRIED

City Clerk Volpe stated due to advertising requirements the earliest Ordinance No. 2011-03 could be forwarded to second read would be on Thursday, February 17, 2011.

Consensus: **TO HOLD THE SECOND READ FOR ORDINANCE NO. 2011-03 ON FEBRUARY 17, 2011.**

Councilor Jolly asked if the February workshop meeting would be moved from February 28, 2011, to February 17, 2011. Mayor Pruette stated the City Attorney interviews would be conducted at the February 17, 2011 meeting. City Clerk Volpe added the February workshop meeting would remain as scheduled on February 28, 2011.

Ord. No. 2011-02 **ORDINANCE NO. 2011-02, AMENDING CHAPTER 27, SECTION 27-225, LAND USE, AND TABLE 27-226-1, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE I, IN GENERAL, SECTION 27-15 DEFINITIONS, AND ARTICLE IV, LAND USE, 27-225 USES EXPRESSLY PROHIBITED WITHIN ZONING DISTRICTS AND TABLE 27-226-1 PERMISSIBLE USE AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained Ordinance No. 2011-02 would allow two internet cafes by special exception in the C-2 and C-3 districts.

Mayor Pruette read Ordinance No. 2011-02 by title only and opened the public hearing.

Michael Aston, 1523 Summer Sands Drive, opposed the internet café. He measured 21 feet from the location of the proposed internet café in Tradewinds Plaza to the Summer Sands property line and 25 feet from the back of the residential property.

There being no further comments from the public, the public hearing was closed.

Mayor Pruette explained Council had the following three options:

- 1) If no one makes a motion the ordinance fails.
- 2) If a motion is made and no one seconds the motion, the motion will fail.
- 3) If a motion is made and receives a second, the Ordinance can be voted up or down.

Moved by Pardee.

Motion: **TO ADOPT ORDINANCE NO. 2011-02 ON SECOND READ AND PUBLIC HEARING.**

MOTION FAILED FOR LACK OF A SECOND.

Ord. No. 2011-04 **ORDINANCE NO. 2011-04, REFERENDUM AMENDING SECTION 2.02, SECTION 3.05, AND SECTION 3.06, FIRST READ: AN ORDINANCE CALLING FOR A REFERENDUM TO AMEND SECTION 2.02 ELECTION AND TERMS, SECTION 3.05 SCHEDULE AND NOTICE OF ELECTIONS AND SECTION 3.06 CITY CANVASSING BOARD OF THE CHARTER, AND ESTABLISHING AN EFFECTIVE DATE.**

City Manager Jarboe stated this Ordinance would allow the County to hold runoff elections for Neptune Beach along with the State and Federal elections.

City Clerk Volpe suggested the following amendment: Section 2.02(d) In the event that a candidate does not receive a majority of all the votes cast in the primary election, then the names of the candidates placing first and second shall be placed on the ballot in the general election.

Councilor Jolly corrected the following errors: 1) Section 1. An election is hereby called for May 17th, 2011, to hold a referendum to amend Section 2.02 of the Charter of the City of Neptune Beach to read as follows: 2) and Section 3.05 Schedule and notice of elections. (d) All elections held pursuant to this charter shall have at least 30 days notice of election or referendum by publication in a local newspaper. The publication shall be made at least twice, once in the fifth week and once in the third week ~~prior to~~ prior to the beginning of qualifying or referendum is to be held.

Councilor Pardee questioned why the Mayor allowed discussion on Ordinance 2011-04 before a motion was made. He indicated that he wanted to discuss the previous Ordinance 2011-03 but was not allowed because his motion was not seconded. Mayor Pruette stated the Council did not always follow procedure.

Moved by Tucker, seconded by Jolly.

Motion: **TO PASS ORDINANCE NO. 2011-04 ON FIRST READ.**

MOTION CARRIED

SE11-01
Sliders
218 First St.

SE11-01, SPECIAL EXCEPTION, 218 FIRST STREET, SLIDERS / OUTDOOR SEATING;

Mayor Pruette stated the Community Development Board recommended approval of the special exception in two parts.

The motion for part one was “There will be no siding, no walls, no hard siding and drop siding be allowed as canvas or vinyl for temporary wind protection, also allow for overhead fans for enhancement of natural ventilation.”

Councilor Pardee added Slider’s should also be required to comply with all ADA requirements as well as all building code issues.

For the Record Mayor Pruette stated for the record: “The increased occupancy load to 150 seats for Sliders shall meet all requirements in the Florida Building Code and the Florida Fire Protection Code.” She felt vinyl or canvas wind protection could be a life safety factor.

City Manager Jarboe explained whatever the Council approves will not affect the Building Code or Life Safety issues. He added any outdoor heaters used would have to be approved by the Fire Marshall.

Moved by Pardee, seconded by Tucker.

Motion: **TO APPROVE SE11-01 SPECIAL EXCEPTION FOR OUTDOOR SEATING.**

City Clerk Volpe asked if Council was going to approve the Special Exception two parts.

Friendly Amendment: **TO APPROVE SE11-01 SPECIAL EXCEPTION FOR OUTDOOR SEATING PART ONE.**

Mayor Pruette was concerned about vinyl or canvas being used temporarily for wind protection.

Councilor Arthur questioned if Slider’s would be required to bring the restrooms into ADA compliance. Community Development Director Askew responded the issue of ADA requirements would be addressed by the Building Official based on the Florida Building Code.

City Manager Jarboe added the Building Official and the Fire Marshall would also address Mayor Pruette’s concern regarding the use of vinyl or canvas for temporary wind protection.

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

Mayor Pruette stated the Community Development Board motion for part two of the special exception was “to add the seating not to exceed 150 seats combined interior and exterior.”

For the Record Mayor Pruette stated for the record “The increased occupancy load to 150 seats for Sliders shall meet all requirements of the Florida Building code and the Florida Fire Protection.”

Moved by Pardee, seconded by Tucker.

Motion: **TO APPROVE SE11-01, PART TWO.**

Roll Call Vote:

MOTION CARRIED

Wireless
Network

APPROVAL OF LOWEST BID / REPLACEMENT OF EXISTING WIRELESS NETWORK THAT SUPPORTS CITY-WIDE ACCESS CONTROL AND VIDEO SURVEILLANCE SOFTWARE: City Manager Jarboe stated this would replace the existing access control and video surveillance system.

Lt. Adam Militello explained a grant was received to provide replacement of the wireless portion of the security surveillance for critical infrastructure. The system provides video surveillance of critical infrastructure sites as well as building access control and building access badges for employees.

Councilor Pardee asked if this was State or Federal requirement. City Manager Jarboe responded cities have been required to secure all water and solid waste facilities since 9/11.

Councilor Pardee questioned if the lowest bidder was qualified. Lt. Militello replied Haste's Communications was already familiar with the system. They currently did repair work on the existing city wide radio system. They were also the contractor for the Jacksonville Fire and Rescue Department, Jacksonville Sheriff's Office, and Jacksonville Electric Authority.

Councilor Pardee asked if the equipment would be compatible with those of JFRD, JSO, and JEA. Lt. Militello responded that was correct and added that Jacksonville Beach used the same technology to replace their system.

Moved by Pardee, seconded by Tucker.

Motion: **TO APPROVE HASTE'S COMMUNICATIONS BID OF \$16,015.68.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

MOTION CARRIED

City Attorney

CITY ATTORNEY SELECTION PROCESS: City Manager Jarboe asked each council member to use the matrix provided in the agenda packet to vote for their choices of candidates to interview. He and City Clerk Volpe would collect the sheets, tally the votes and announce the candidates that have been chosen to be interviewed.

Mayor Pruette asked the Council how many candidates they would like to interview.

Consensus: **TO INTERVIEW FIVE (5) CANDIDATES FOR CITY ATTORNEY.**

Mayor Pruette called for a recess while the votes were being tallied.

Mayor Pruette reconvened the meeting.

City Clerk Volpe announced the top 4 candidates that were chosen based on the number of votes each received.

<u>Candidate</u>	<u>Number of Votes Received</u>
Jeb Branham	5
Patrick Krachowski	5
Michael McCabe	4

Tim Franklin

3

City Clerk Volpe stated if the Council wanted to interview a fifth candidate they would need to choose between the three that received 2 votes each. They were Lewis, Longman, & Walker, Richard Keene, and Barry Ansbacher.

Consensus: **TO INTERVIEW THE TOP FOUR CANDIDATES.**

City Clerk Volpe asked Council if they wanted to conduct the interviews on February 17, 2011.

Consensus: **TO INTERVIEW THE CANDIDATES FOR CITY ATTORNEY ON THURSDAY, FEBRUARY 17, 2011.**

City Manager Jarboe asked Council to make a motion for a roll call vote regarding how many attorneys they wished to interview.

Mayor Pruette stated they would be interviewing the following candidates: Jeb Branham, Tim Franklin, Patrick Krachowski, and Michael McCabe.

Moved by Jolly, seconded by Tucker.

Motion: **TO INTERVIEW THESE FOUR (4) ATTORNEYS.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

City Clerk Volpe stated she would contact the attorneys and notify them that they were chosen to be interviewed and inform them of the date and time.

Discussion ensued regarding the process of interviewing the candidates.

City Manager Jarboe suggested beginning the process by asking each candidate to come forward and introduce themselves and explain why they felt they were qualified to fill the position of City Attorney. After the introductions each Council member could ask one question of each candidate.

Councilor Pardee questioned how the salary should be negotiated. City Manager Jarboe stated a Resolution was included in the agenda packet for Council to determine the retainer as well as an hourly fee for litigation. The salary should include everything except litigation.

Councilor Pardee questioned how the candidates would be ranked based on their interviews. He felt the ranking process should be decided before interviews were conducted.

COUNCIL COMMENTS

Councilor Arthur asked Councilor Pardee to comment on the problem he had with the procedure regarding Ordinance 2011-02. Councilor Pardee explained he wanted to make a comment as to why he supported Ordinance No. 2011-02 over Ordinance No. 2011-03. He felt he was not able to speak because there was not a second to his motion. However, when the next agenda item, Ordinance 2011-04, was announced, the Mayor allowed

comments and discussion before a motion was made.

Mayor Pruette explained she usually conducts meetings adhering to Roberts Rules of Order. However, the Council at one time decided they did not always want to use Robert Rules of Order. She further explained, when a motion is not seconded, the motion is lost.

Councilor Arthur stated he would like to hear the comments Councilor Pardee wanted to make earlier in regards to Ordinance 2011-02.

Councilor Pardee stated at the January 3, 2011, regular Council meeting City Attorney White advised that ordinances adopted on an emergency basis were subject to being legally challenged. Mr. White added that emergency ordinances should only be adopted when referring to the health, welfare and safety of the public and should not be adopted for zoning issues. Based on City Attorney White's advice he felt it would better serve the City to adopt Ordinance No. 2011-02 which allowed internet cafes by special exception. He felt Ordinance No. 2011-02 was less likely to be legally challenged.

Mayor Pruette asked City Manager Jarboe to consider maintaining a Facebook page for the City. She added Facebook pages have been set up for the Neptune Beach Senior Activity Center and the Public Safety Department.

City Manager Jarboe stated he would consider the idea. He added that information regarding City business was already posted on the City website.

Adjournment

There being no further business, the meeting adjourned at 7:02 p.m.

ATTEST:

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held January 24, 2011 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Eric Pardee
Councilor Richard Arthur
Councilor John Jolly
City Attorney Chris White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Director of Public Safety David Sembach

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The nitrogen project is 50% complete.
- Building Official Don Ford will be out on leave for several weeks due to health issues. A licensed contracted building official has been hired to conduct building inspections in his absence.

Mayor Pruette questioned the status of the solar power system for City Hall. City Manager Jarboe replied both grants had been approved.

PUBLIC COMMENTS

Mayor Pruette advised she would be opening a separate public hearing for anyone wishing to speak to "internet cafes."

David Baker, 1102 First Street, stated there was a problem along First Street with dog owners not cleaning up after their dogs. He suggested the City have new

property owners and tenants sign a document acknowledging they were informed of the animal control laws. He further suggested pet owners be required to register their pets with the City.

PROPOSED ORDINANCES

Election
Referendum

ORDINANCE NO. 2011-XX, ELECTION: AN ORDINANCE CALLING FOR A REFERENDUM TO AMEND SEC. 2.02 ELECTION AND TERMS, SECTION 3.05 SCHEDULE AND NOTICE OF ELECTIONS AND SECTION 3.06 CITY CANVASSING BOARD OF THE CHARTER; AND ESTABLISHING AN EFFECTIVE DATE.

Jerry Holland, Duval County Supervisor of Elections, explained the referendum would change the dates of the city election to coincide with other districts within the county. This would allow the City to hold an election in August, only if there were more than two candidates running for a Council seat. The two candidates with the most votes in the August election would then be placed on the November election ballot along with the candidates for the State and Federal election. The City would save money by eliminating the need to hold a separate runoff election after the November general election because the County would absorb the entire cost.

City Clerk Volpe stated the need for a runoff would cost the City between \$4,000 and \$5,000. She would also like to include in the referendum changing the time of the swearing in of new council members from 8:00 p.m. to 6:00 or 7:00 p.m.

Mayor Pruette asked City Attorney White if he had reviewed and approved the ordinance and referendum. City Attorney White responded "yes" he has reviewed the ordinance and referendum.

Mayor Pruette stated Council would need to pass this Ordinance on first read at the February 7, 2011, regular council meeting and adopt it on second read at the March 7, 2011 regular meeting in time for it to be placed on the ballot.

Councilor Pardee pointed out there were differences in Section 2.02 Election and terms. Whereas, what was stricken from (c) ~~The candidate or nominee receiving the clear "majority of votes for each seat" at such general election shall be declared elected.~~ was different from the new language being placed in (d) In the event that a candidate does not receive a "majority of the votes cast" in the primary election, then the names of the candidates placing first and second shall be placed on the ballot in the general election. It was his understanding the language "majority of votes for each seat" was different from the language "the majority of the votes cast." He explained the terms "all votes cast" would mean 50% plus one vote. He felt this should be amended to read "majority of all the vote's casts."

City Clerk Volpe stated she would amend Section 2.02 (d) to read 50% plus 1.

Consensus: **TO CHANGE THE LANGUAGE IN SECTION 2.02(d) TO 50 % PLUS ONE OF ALL VOTES CAST.**

Councilor Jolly was concerned about the differences in Section 3.05 Schedule and notice of elections (d) Public notice. ~~All elections held pursuant to this charter shall have at least 30 days' notice of election or referendum by publication in a local newspaper. The publication shall be made at least twice, once in the fifth week and once in the third week prior to the week in which the election or referendum is to be held.~~ Notice of General election should be noticed 30 days prior to the beginning of qualifying (3rd week and 5th week. Referendum election shall be noticed 30 days prior to the election also 3rd week and 5th week. He felt the old language was clearer.

City Attorney White advised the wording was clearer in the old form and recommended leaving the language in the original form.

Consensus: **TO LEAVE THE LANGUAGE IN SECTION 3.05(d) IN ITS ORIGINAL FORM.**

City Clerk Volpe asked Council if they wanted to change the time for swearing in new candidates. Mayor Pruette stated changing the time from 8:00 p.m. to 7:00 p.m. would be appropriate. Ms. Volpe did clarify that present council's terms would be one hour shorter.

Consensus: **TO CHANGE TIME OF SWEARING IN NEW CANDIDATES FROM 8:00 P.M. TO 7:00 P.M.**

Consensus: **FORWARD TO THE FEBRUARY 7, 2011 REGULAR COUNCIL MEETING FOR FIRST READ.**

Election
Ordinance

ORDINANCE NO. 2011-XX, AMENDING CHAPTER 9, ELECTIONS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING THE CODE OF ORDINANCES CHAPTER 9 ELECTIONS SECTION 9-2 SCHEDULE OF ELECTIONS; SEC. 9-3 PUBLIC NOTICE OF ELECTIONS; SEC. 9-5 QUALIFYING OF CANDIDATES; SEC. 9-6 CAMPAIGN FINANCES; SEC. 9-8 REGISTRATION BOOKS; SEC. 9-9 ELECTION ADMINISTRATION AND PROVIDING AN EFFECTIVE DATE.

City Clerk Volpe explained this Ordinance could not be passed until after the vote on the referendum. Once the referendum was voted on and the Charter is amended this Ordinance would amend the Code to coincide with the Charter.

Councilor Pardee stated he had the same concern with this ordinance regarding Section 2.02(d). City Clerk Volpe stated she would amend Section 2.02(d) to coincide with the referendum.

Mayor Pruette asked what would happen if the citizens did not approve the referendum. Jerry Holland responded if the citizens did not approve the referendum the county would conduct the elections as usual and the city would have to pay the cost for a runoff if one was necessary, as has been in the past. As Supervisor of Elections he could require the City to conduct its own elections separate from the county but it was not his intent or desire to do that.

Amendment to the
Referendum

Supervisor of Elections Jerry Holland stated he would like to make the following change: Section 3.05 Schedule and notice of elections. (d) Public notice. Notice of General election should be noticed 30 days prior to the beginning of qualifying. (3rd week and the week). Referendum election shall be noticed 30 days prior to the beginning of qualifying election.

Consensus: **TO AMEND THE LANGUAGE IN SECTION 3.05 SCHEDULE AND NOTICE OF ELECTIONS (d) AS SUGGESTED BY MR. HOLLAND AS FOLLOWS TO READ AS FOLLOWS: PRIOR TO THE BEGINNING OF QUALIFYING ELECTION.**

Councilor Pardee questioned if the following change was something that was changed by the State: Section 9-6 Campaign Finances. (c) Any individual making independent expenditures in a city election as defined in F.S. 106.011(5), in the amount of ~~one hundred~~ five thousand dollars (~~\$100.00~~ \$5,000.00) or more shall be subject to, and

comply with, F.S. 106.071.

Beth Fleet, Candidate and Records Director for the Supervisor of Elections Office, explained Section 9-6(c) was in reference to political committees not an individual candidate.

City Clerk Volpe stated she would double check the Section.

Consensus: **FORWARD TO THE FEBRUARY WORKSHOP FOR DISCUSSION.**

City Manager Jarboe stated this Ordinance could not be adopted until the referendum to change the Charter was voted on and approved by the citizens.

Internet Cafés

ADULT ARCADE ORDINANCE – OPTIONS A, B, & C:

Mayor Pruette opened the public hearing.

Darryl Grubbs, 1919 Nightfall Drive, stated he visited a few local internet cafes. He would consider them social gathering places rather than an opportunity for criminal activity. He explained "internet cafés" sold internet time for customers wanting to check e-mail, surf the internet, or play computer games. They also offered a number of sweepstakes games at no charge. He added the City of Jacksonville ordinance, limiting the number of internet cafés, was prompted because they felt internet cafes were competition for local dog track poker rooms. The ordinance was not prompted due to any criminal activity. He reviewed the 170 pages of crime statistics reported to the Council by Chief Sembach. Out of the 170 pages, he found only 46 actual crime related incidents over a two year period. The owners of the internet café donate 5% of their gross revenues to charities and they would offer to donate some of those proceeds to a local charity such as the senior center.

Mr. Grubbs referenced Section 5-33(b) of Option A regarding "Each location (for an internet café) must be more than eight hundred (800) feet from another permitted location, worship facility, residential district, and establishment for the sale of alcoholic beverage for consumption on premises, hotel/motel, school or park. He asked Council to consider relaxing that stipulation because it would eliminate the location in Tradewinds Plaza.

Mr. Grubbs referenced Section 5.37(a)&(b) of Option A, regarding Business Tax Receipt and Machine Registration Fees. He felt this total annual fee of \$17,000 to operate the internet café was too much. He also did not feel it was necessary to require an armed security guard on the premises during all operating hours.

Mr. Grubbs asked the Council to consider grandfathering in his tenant because the City did not begin the process to prohibit or allow internet cafés by special exception only, until after his tenant signed a lease agreement and tried to obtain a business tax receipt. He added that he would be the first to react if there were any problems or concerns in Tradewinds Plaza.

Michael Aston, 1523 Summer Sands Drive, voiced concern about a gambling establishment being within 500 feet of the Summer Sands subdivision. He did not want a gambling establishment at his backdoor. He distributed information to the Council regarding other cities and counties that are having problems with internet cafés. He asked Council to protect the citizens of Neptune Beach by prohibiting "internet cafés"

Kerry Chin, 227A Margaret Street, Vice Chair of the Community Development Board, explained the Community Development Board recommended Council approve Option B, Section 27-225 prohibited internet cafés. The Board further recommended amending 27-225(5) that internet cafés and other related businesses be isolated in (5) and adding (6) to group the remaining prohibited uses.

Mr. Chin added it was his interpretation that Section 27-226-1, Table of Permissible Uses currently did not allow internet cafés. There was an argument that "internet cafés" were similar to "arcades." He felt that was a false association. It was his interpretation that "arcades" were establishments that utilized coin-operated amusement games while "internet cafés" utilized desktop computers for which people were buying time to surf the internet. He felt there was a huge difference between the two terms.

Mr. Chin further added it had been argued "internet cafés" fell under the definition of a "video game parlor" as described in Section 5-26, an establishment or store which has a coin or token operated video game, pinball machine or other recreational machine or device available for operation by the public. It was his interpretation an "internet café" did not fall under this definition. He felt allowing internet cafés would do the community more harm than good.

There being no further comments from the public, the public hearing was closed.

City Manager Jarboe explained Council had three options to consider: A) regulation of internet cafés, B) prohibit internet cafés, or C) allow internet cafés by special exception only. He recommended whatever option Council chose that they forward it to the following special meeting for emergency read and adoption. He explained options B & C could not be adopted as an emergency because changes to the land use code had to be advertised to the public. Therefore, he suggested Council consider adopting Option A as an emergency.

Chief Sembach stated according to statistics from the Jacksonville Sheriff's Office there are between 40 and 50 internet cafés in Jacksonville. He quoted statistics of criminal activities and felt the regulation for armed security guards should remain.

Mayor Pruette asked each Councilor what option they would like to see adopted.

Option A

Councilor Pardee was concerned about Section 5-37(a) notwithstanding any other provision of the Ordinance Code, and in accordance with Chapter 205 Florida Statutes, the exclusive annual business tax receipt for each license center shall be \$40.00 per day of operation, payable by the licensee on or before October 1 of each year for the flowing one (10 year operational period beginning on October 1). He felt \$40.00 a day was an excessive amount and questioned if it coincided with Chapter 205 Florida Statute.

Councilor Pardee questioned Section 5-33 Permitting and Fees (b) Permits Limited. Each location must be more than eight hundred (800) feet from another permitted location, worship facility, residential district, and establishment for the sale of alcoholic beverage for consumption on premises, hotel/motel, school or park. He questioned if an "internet café" would be allowed within the City at all if that requirement was enacted.

Councilor Arthur agreed the City needed to adopt regulations for "internet cafés" at the minimum. He was concerned about the timeline and did not wish to place any hardships on a business after it had been established.

Vice Mayor Tucker agreed the City needed to at least have an Ordinance to regulate "internet cafés." She was also concerned about the timeline since there was a business at stake.

Councilor Jolly also agreed the City needed to have an Ordinance in place to at least regulate "internet cafés" if they are not prohibited. He presented a list of suggested amendments to Option A for Council to consider. He further suggested Council adopt Option A tonight and work on adoption Option B with the proper advertisements.

Mayor Pruette asked if the requirement that the location for an internet café be 800 feet away from the places listed in Section 5-33(b) would prohibit any locations within the City.

Community Development Director Askew replied Section 5-33 was modeled after Chapter 4 Alcohol Sales, Section 4.4 Location of establishments. The distance is measured by following the shortest route of ordinary pedestrian travel along the public thoroughfares from the main entrance of the proposed place of business to the other main entrance. Under this condition she was not sure whether or not an internet café would be allowed in Tradewinds Plaza.

City Attorney White advised Neptune Beach was still under the scope of the City of Jacksonville ordinance. Until that ordinance is amended by a vote of the Jacksonville City Council internet cafes are not allowed in the City. Whatever Neptune Beach does during that interim will go into effect once the beaches are excluded from the county wide ordinance.

Mayor Pruette was concerned once the beaches were excluded from the City of Jacksonville ordinance, if the city did not have an ordinance in place, internet cafes would migrate to Neptune Beach. Therefore, she felt an ordinance needed to be in place to protect the City.

Mayor Pruette stated she did not understand why internet cafes were not already defined in the Code or the land use table. City Attorney White explained there were different opinions on that depending on the different interpretations.

City Attorney White advised State law required four favorable votes to adopt an ordinance on an emergency basis.

Mayor Pruette asked if Council had any other questions considering Options A, B, or C.

Consensus: **TO FORWARD OPTION A, TO THE SPECIAL MEETING IMMEDIATELY FOLLOWING THE WORKSHOP FOR EMERGENCY READ AND ADOPTION.**

Option B

ORDINANCE NO. 2011-XX, AMENDING ARTICLE IV, LAND USE: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, 27-225 USES EXPRESSLY PROHIBITED WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe suggested forwarding Option B to first read in February.

City Clerk Volpe stated because Option B amended the Land Use Code it would have to be advertised for first read in February. However, if Council chose Option C they could forward it to tonight's special meeting for first read and the second reading

would be at the February 7th regular meeting.

City Attorney White added there was a timing issue with Option B because it would have to be properly advertised. The decision Council needed to make was to move forward with either Option B which would prohibit internet cafes, or Option C which would allow internet cafes by special exception limiting them to two.

City Clerk Volpe stated Council has already decided to forward Option A regarding rules and regulations for internet cafes. She explained if the Council did not want internet cafes they should move forward with Option B. If the Council wanted to allow internet cafes by special exception only and limit them to two, then they should chose to move forward with Option C.

Mayor Pruette asked each Council member to comment on the option they preferred.

Councilor Pardee voiced concern that Option B also prohibited other establishments as follows: Section 27-225(5) All zoning districts: it also adds other establishments, indoor and outdoor firing ranges other than for governmental purposes, indoor and outdoor flea markets, vendors on public rights-of-ways or public property including the beach, adult arcade amusement center, electronic game promotions, internet cafes, game centers, arcades, tattoo or body artists, pawn shops, bingo halls, billiard or pool halls, gaming video poker establishments, computer game centers, games played on individual machines or computer including any type of card token or coin operated video or simulated games, or similar activities or machines which are played for any type of compensation or reward, carriage, jitney, rickshaw or similar devices non-motorized or motorized used to transport passengers for any form of compensates.

Councilor Pardee stated he would support Option B if it were amended to strike out everything not pertaining to "internet cafes."

Mayor Pruette asked Community Development Director Askew to comment on Section 27-225(5).

Mrs. Askew explained she included the additional establishments in Section 27-225(5) because technically they were prohibited; however, they were not listed in the Table of Uses Chart.

Mayor Pruette questioned why Council was considering Option B, if these establishments were technically already prohibited by Code.

Community Development Director Askew cited Section 27-226(a)&(b). (a) All uses shall conform to the standards for each district as provided for in Table 27-226-1. Table of Permissible Uses. and (b) Because the list of permissible uses cannot include every conceivable type of activity, those uses that are listed shall be interpreted by the city manager or designee to include other uses that have similar impacts to the listed uses. She explained the uses are technically not allowed but because they were not included in the Table of Permission Uses it was not clear. If they are included in the Table of Permission Uses it will make it clearer instead of based a question of interpretation.

Mrs. Askew further explained the Community Development Board recommended Council approve Option B, with the stipulation that the establishments outlined in Section 27-225(5) that did not relate to internet cafes be removed from (5) and included in a new subparagraph (6).

Councilor Pardee agreed he would consider Option B if it only included establishments dealing specifically with internet cafes, such as, arcade amusement center and electronic game promotions.

Councilor Jolly felt the ordinance for Option B should also include definitions for those establishments in Section 27-225(a).

Vice Mayor Tucker stated she would support Option B with the amendments as well as adding the definitions. She was concerned about the timeline and the effect the pending ordinances would have on the current application made by the tenant in Tradewinds Plaza.

City Attorney White explained it was the applicant's responsibility to be aware of pending city ordinances in regards to how it would affect his application.

Mayor Pruette asked if there was a consensus to vote on the emergency read for Option A at the following special meeting. Forward Option B adding the amendments for the establishments suggested by Councilor Pardee and the definitions as suggested by Councilor Jolly.

Consensus: **FORWARD OPTION B AS AMENDED TO THE FEBRUARY 7, 2011, REGULAR COUNCIL MEETING FOR FIRST READ.**

City Clerk Volpe asked if there was a consensus to forward Option C to the special meeting for first read.

Councilor Pardee suggested moving forward with Option B and Option C.

Consensus: **FORWARD OPTION C TO THE FOLLOWING SPECIAL MEETING FOR FIRST READ. IF OPTION C FAILS THEN FORWARD OPTION B TO BE ADVERTISED FOR FIRST READ FEBRUARY 7, 2011.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT / NONE

COUNCIL COMMENTS

Mayor Pruette thanked everyone who participated in the Bowl-a-Thon. She stated the sign made by resident Kerry Chin was voted 'Best Sign' and the Neptune Beach team was 2nd to raise the most money for Dial-a-Ride.

Mayor Pruette stated she would be placing the issue of Ethics Reform on the February workshop meeting agenda.

Adjournment

There being no further business, the meeting adjourned at 7:30 pm.

Harriet Pruette, Mayor

Attest:

Lisa Volpe, CMC, City Clerk

MINUTES
SPECIAL CITY COUNCIL MEETING
JANUARY 24, 2011 AT 7:30 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Special Meeting of the City Council of the City of Neptune Beach was held January 24, 2011 at 7:30 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Kara Tucker
Councilor Richard Arthur
Councilor John Jolly
Councilor Eric Pardee
City Attorney Chris White
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Director of Public Safety David Sembach

Order Call

Mayor Pruette called the special meeting to order at 7:35 p.m.

Ord. No. 2011-01

ORDINANCE NO. 2011-11, AMENDING CHAPTER 5, AMUSEMENTS, EMERGENCY READ & PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 5 AMUSEMENTS AND ENTERTAINMENTS, ARTICLE II. VIDEO GAME PARLORS AND PROVIDING AN EFFECTIVE DATE.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT OPTION A, ORDINANCE NO. 2011-01 ON EMERGENCY READ.**

Mayor Pruette read Ordinance 2011-01 by title only and opened the public hearing.

Mr. Daryl Grubbs, 1919 Nightfall Drive, stated there were two types of machines. There are games of skill and games of chance. The Jacksonville ordinance requires \$4,500 for 50 games of chance machines and \$17,000 for the games of skill. He asked council to consider lowering the fees and amending the required distance from residential districts, and establishments for the sale of alcoholic beverage for consumption on premises,

There being no further comments from the public, the public hearing was closed.

Councilor Jolly stated he would like to amend Ordinance 2011-01 to include the amendments he presented in writing.

Mayor Pruette explained Councilor Jolly presented 13 pages of amendments before tonight's meeting and the Council has not had time to consider them.

Vice Mayor Tucker asked if the Ordinance could be amended after tonight's vote. City Attorney Chris White stated if the Ordinance is adopted tonight on an emergency basis it will be adopted in its current version.

Councilor Jolly stated he would sponsor the ordinance.

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette

City Manager James Jarboe
City Clerk Lisa Volpe, CMC

None

ABSENT:

Councilor Eric Pardee

Roll Call

Mayor Pruette called the special meeting to order and announced the purpose of the meeting was to consider replacing the resigning city attorney.

Mayor Pruette stated City Attorney White has given the City Council a letter of resignation. She respected his decision and wished him every future success.

For the Record

Mayor Pruette stated for the record "Mr. White has honorably and faithfully served the Council and the City of Neptune Beach for the past thirteen years. He has provided dedicated and sound legal advice in a dignified and professional manner and deserves many thanks."

Mayor Pruette stated the City Attorney position is critical and City Council needed to act quickly to find a replacement because his resignation would be effective on February 28, 2011.

Moved by Jolly, seconded by Tucker.

Motion: **TO APPROVE FOR DISCUSSION THE PROCESS FOR HIRING A NEW CITY ATTORNEY.**

MOTION CARRIED

Public Comments

PUBLIC COMMENTS / NONE

Mayor Pruette opened the public hearing.

There being no comments from the public, the public hearing was closed.

Agenda
Amendment

Mayor Pruette stated she was amending the agenda to move the variance appeal forward due to a schedule conflict.

Appeal V10-09
Linda Altman
1810 Fourth St.

APPEAL FOR V10-09, LINDA ALTMAN, 1810 FOURTH STREET: Appeal by Linda Altman for a decision of the Community Development Board denying three variance requests.

Mayor Pruette stated in accordance with Section 27-153 Procedure for Appeal, the Code states no new evidence may be presented unless it pertains to events or circumstances which have substantially changed since the Community Development Board's meeting. She asked Jeb Branham, Attorney and Representative for Linda Altman, if there was any new evidence that had substantially changed since the Board's decision. Mr. Branham responded he was not aware of any new evidence. Mayor Pruette stated if Council had any questions she would call on him to provide the information. She stated the Council's responsibility was to affirm, modify, or reverse the decision of the Board. The decision must be based on the information provided in the packet that was presented to the Community Development Board and to determine if the Board's decision was supported by competent substantial evidence and testimony.

City Attorney White explained when hearing an appeal Council was acting as a body in an appellant basis similar to an appellant court. An appellant court is not allowed to retry a case. The Council was not to rehear the variance but to determine from the record whether there was competent substantial evidence to support the decision of the Board.

Mayor Pruette stated the Council would take each appeal separately and vote on each one separately.

V10-09-01
Fence Height

The first variance request appeal was V10-09-01 for the fence height. Mayor Pruette asked each Councilor to state whether or not they believed the decision of the CDB was supported by competent substantial evidence and testimony.

Councilor Pardee stated he felt the decision of the CDB was not supported by competent substantial evidence. He felt there was confusion among the Board as to which side of the lot was the front and which side of the lot was the side. He agreed Mr. Branham was correct in his interpretation of Section 27-147. He interpreted the front of yard as facing Myra Street and the side yard facing Fourth Street. The Code did not state the smallest side of a corner lot should be considered the front yard. He felt the Board was given deficient evidence from staff, that the front yard faced Myra Street, and thereby based their decision on incompetent evidence. He supported reversing the decision of the Board and approving the variance request.

Councilor Arthur felt there was sufficient evidence to support the decision of the Board. He felt whether the side yard in question was the front or the side yard, the fence would still have a four foot height limitation.

Councilor Jolly also felt the Board had enough evidence to determine their decision. The Code was clear that you could not have more than a four foot fence on either side of a corner.

Councilor Tucker agreed the Board had enough information to support their decision.

Mayor Pruette stated she agreed with the decision of the Board.

Moved by Jolly, seconded by Arthur.

For the Record

Jeb Branham stated for the record that he would like an opportunity to address the Council or have the record reflect that he was not given the opportunity.

Mayor Pruette invited Mr. Branham to speak and reminded him that new evidence could not be heard.

Mr. Jeb Branham explained why he felt the variance requests met the criteria of the seven finding of facts.

- 1) The property was unique because there were telecommunication facilities adjacent to what he considered the side yard of the property. Because of the way the property was configured the only usable exterior space was the side yard. The rear yard is three feet wide and virtually an alley.
- 2) There was no usable exterior space on the parcel other than the side yard and it is reasonable to have some degree of privacy on the side yard.
- 3) There were no neighbors or adjacent property owners opposing the variance request. There was no indication that it would diminish property values. If anything it would increase property values. The fence would not be any higher than the one that was there before.
- 4) It would not have an adverse affect on property values or adjacent properties.
- 5) He did not see anything in the ULDC that prevented the placement of the fence. There were a number of six foot fences in the area including one directly across the street from this property.
- 6) The need for the variance is created by the presence of the telecommunications facilities and the configuration of the lot.
- 7) The variance would not confer any special privileges.

Mr. Branham felt the findings of facts had been met. He did not see any evidence in the seven findings of facts to support the decision of the Community Development Board to deny the variance requests.

Motion: **TO AFFIRM THE DECISION OF THE COMMUNITY DEVELOPMENT BOARD FOR V10-09-1, FENCE HEIGHT.**

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette

Noes: 1 – Pardee

MOTION CARRIED

V10-09-02
Accessory
Structure

The second variance request appeal was V10-09-02 for the accessory structure.

Mayor Pruette asked Mr. Branham if he would like to speak to the second variance appeal.

Mr. Jeb Branham explained the accessory structure and the outside stairway were both to be located in what he considered to be the side yard of the lot. The issue of the request is "what is the side yard." There is nothing in the Code that supports staff's interpretation that the side yard should be on Fourth Street. The accessory structure and the stairs would be allowed without a variance in a side yard. Section 27-235-5 stated that outside stairways could extend up to four feet from a building into a required yard. The proposed stairs would extend three feet from the building and should not require a variance under any circumstances.

Mayor Pruette asked each councilor to state their opinion.

Councilor Jolly affirmed the decision of the Board.

Councilor Tucker stated she also affirmed the decision of the Board.

Councilor Arthur believed the Community Development Board had competent substantial evidence to support their decision.

Councilor Pardee agreed with Mr. Branham that the Board did not have competent substantial evidence. He felt anyone driving by the house would agree the front of the house faced Fourth Street.

Mayor Pruette also felt evidence was present to support the decision of the Board.

Moved by Jolly, seconded by Tucker.

Motion: **TO AFFIRM THE DECISION OF THE COMMUNITY DEVELOPMENT BOARD FOR V10-09-2, ACCESSORY STRUCTURE.**

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette

Noes: 1 – Pardee

MOTION CARRIED

V10-09-03
Outside Stairway

The third variance request appeal was V10-09-03 for the outside stairway.

Mr. Branham added, regardless of how you configure the home the stairs should be allowed under Section 27-235-5 which allows stairways to be built four feet off of a building.

Councilor Pardee stated his position on this request was the same as his position for the first two.

Councilor Arthur felt the staff and the Community Development Board had competent evidence.

Councilors Tucker and Jolly agreed with the decision of the Community Development Board.

Moved by Jolly, seconded by Tucker.

Motion: **TO AFFIRM THE DECISION OF THE COMMUNITY DEVELOPMENT BOARD FOR V10-09-3, OUTSIDE STAIRWAY.**

Roll Call Vote:

Ayes: 4 – Arthur, Jolly, Tucker, Pruette

Noes: 1 – Pardee

MOTION CARRIED

For the Record Mayor Pruette stated for the record Council received, in their agenda packet, a verbatim of the Community Development Board meeting along with photos and other evidence that was presented to the Board.

COMMUNICATIONS AND CORRESPONDENCE

Councilors Pardee, Arthur, and Jolly disclosed they had spoken previously with Mr. Daryl Grubbs regarding internet cafés.

Mayor Pruette stated she also spoke with Mr. Grubbs.

City Manager Jarboe recommended deferring Ordinances 2011-01 and 2011-02 to the workshop meeting for discussion.

CITY MANAGER REPORT

City Manager Jarboe stated the holiday decorations that were stolen from Town Center had been recovered and the thief was captured by Atlantic Beach police.

ORDINANCES

Ord. No. 2010-22 ORDINANCE NO. 2010-22, AMENDING CHAPTER 13, NOISE, SECTION 13-5, NOISE PROHIBITED, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE CODE ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA CHAPTER 13 NOISE, SECTION 13-5 NOISE PROHIBITED; UNNECESSARY NOISE STANDARD; STATEMENT OF INTENT; SWORN COMPLAINT REQUIRED; PROPERTY OWNER RESPONSIBILITY AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette agreed to sponsor the Ordinance.

Mayor Pruette read Ordinance No. 2010-22 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Jolly, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2010-22 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

MOTION CARRIED

- Ord. No. 2011-01 ORDINANCE NO. 2011-01, AMENDING CHAPTER 5: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 54 AMUSEMENTS AND ENTERTAINMENT, ARTICLE II. VIDEO GAME PARLORS AND PROVIDING AN EFFECTIVE DATE.
- Ord. No. 2011-02 ORDINANCE NO. 2011-02, AMENDING CHAPTER 27: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE I, IN GENERAL , SECTION 27-15 DEFINITIONS, AND ARTICLE IV, LAND USE, TABLE 27-226-1 PERMISSIBLE USE AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated if there were no objections she would like to forward Ordinances 2011-01 and 2011-02 to the January workshop.

Mayor Pruette invited Mr. Daryl Grubbs, owner of Tradewinds Plaza, to address the Council regarding his prospective tenants request to open an internet café.

Mr. Daryl Grubbs, 1919 Nightfall Drive, owner of Tradewinds Plaza, Atlantic Boulevard, explained he had a tenant that wanted to establish an internet café in Tradewinds Plaza. He was informed the City of Jacksonville adopted an ordinance limiting internet cafes, but that the ordinance did not affect the beaches, so he agreed to sign a lease agreement with the tenant. When the tenant tried to obtain a Business Tax Receipt, to open the business, he was informed by the City of Neptune Beach that the COJ ordinance did pertain to the Beaches' districts. Mr. Grubbs then contacted City of Jacksonville Councilman Dick Brown who agreed the ordinance should not have affected the Beach cites and stated he would introduced a new ordinance for the City of Jacksonville to consider that would exempt the beach cites. His concern now is the two proposed Neptune Beach ordinances that are being considered that would not allow internet cafes. Mr. Grubbs asked Council to support him in allowing the internet café to be established.

Mayor Pruette stated the Council would be considering the ordinances at the January 24th workshop meeting.

Mr. Grubbs questioned if his tenant would be issued a Business Tax Receipt to open the business if the City of Jacksonville adopted the new ordinance before Neptune Beach adopted proposed Ordinances 2011-01 and 2011-02. City Manager Jarboe responded if the City of Jacksonville adopted the ordinance exempting the Beaches' districts at the January 11, 2011 meeting the tenant would be eligible to obtain a permit as long as he met all other requirements for a license.

Discussion ensued regarding the City of Jacksonville enacting ordinances affecting the Beach cities without giving the required seven day notice.

City Manager Jarboe stated the City of Jacksonville had a right to adopt countywide ordinances with the exception of zoning issues. However, they were required to give the districts within the county a seven day notice. Mayor Pruette wrote a letter to Jacksonville City Councilman Dick Brown requiring that the seven day notice be mandatory.

Councilor Jolly suggested Mayor Pruette compose a letter to the Jacksonville City Council requesting they delay action on the new ordinance. This would allow Neptune Beach time to adopt our own ordinances governing internet cafes.

Mayor Pruette stated she would consider writing the letter.

City Attorney White explained ordinances passed on emergency basis were subject to being challenged. He advised that emergency ordinances should only refer to the health, safety, and general welfare of the public and should not be used for zoning issues. He advised if the City of Jacksonville adopted the ordinance excluding the Beaches from their existing ordinance which allows internet cafes and Neptune Beach does not have an ordinance in place disallowing internet cafes then the tenant is eligible to apply for and be granted permission to open an internet café. The only way to avoid that is if the City of Jacksonville did not adopt the ordinance to exclude the Beaches until Neptune Beach has something in place.

Councilor Pardee suggested the new Council abide by Section 2-46 requiring that ordinances be sponsored by a council member and reviewed by the city attorney.

Consensus: **FORWARD ORDINANCES 2011-01 AND 2011-02 TO THE JANUARY 24, 2011 WORKSHOP MEETING.**

City Attorney White stated the City of Jacksonville is required to notify the districts within the Interlocal Agreement when an ordinance would apply to the entire county. However, there was language included that "their failure to do so does not invalidate the application of the ordinance". He felt that particular language needed to be removed.

Mayor Pruette asked Chief David Sembach if he had any comments regarding internet cafes.

Chief David Sembach stated internet cafes were illegal until the City of Jacksonville made them legal by adopting the ordinance. The term "internet café" is misleading in that they are not places people go to have coffee and work on the internet. They were actually gambling parlors where people sit and play machines. He felt internet cafes would breed crime. As Chief of Police it was his duty to prevent crime and he did not want internet cafes in Neptune Beach.

MOTION CARRIED

City Manager Jarboe suggested the City Clerk advertise the position in the Florida Times Union. The advertisement would ask interested attorney's to provide a resume and salary requirements. Experience in code enforcement, land use, and litigation were important issues to consider. He suggested Council review the resumes at the February 7, 2011, meeting and select three or four candidates to be interviewed at the February 28, 2011 meeting. A special meeting could be held to make a selection.

City Attorney White stated he would not be involved in the selection process and felt it would be unfair for him to make recommendations. If anyone had any questions regarding the process they could call him at his office. He advised the budget for legal services would most likely increase because the City would be charged more on an hourly basis. He felt Council should consider a figure for a retainer that would cover attendance at meetings and day to day business along with an hourly rate to cover litigation, administrative proceedings, and other legal services. He suggested looking for someone who is well versed in municipal law and could litigate land use issues. He cautioned against hiring a large firm.

Vice Mayor Tucker agreed the new attorney should have experience in litigation and land use. She also agreed with selecting three or four top candidates to interview. She thanked Mr. White for his service and stated she had enjoyed working with him.

City Attorney White questioned how the candidates would be narrowed down for an interview. City Manager Jarboe replied each council member would receive copies of all the resumes that were submitted. The top candidates would be selected at the February 7, 2011 by use of a number ranking system. The top candidates would be interviewed by the Council at the February 28, 2011 meeting.

Councilor Jolly asked City Attorney White what information and qualifications the city should request in the advertisement. City Attorney White replied the advertisement should request a detailed professional biography with emphasize on experience in municipal land use law and related litigation.

City Manager Jarboe stated Council should not procrastinate and leave the city without legal counsel. City Attorney White responded as a professional obligation he would work with his successor on litigation issues that were pending.

Councilor Arthur questioned what Council should expect to pay as a retainer and hourly fee. City Attorney White replied if Council wanted an attorney to attend meetings, the attorney should have a retainer as well as an hourly fee for other legal services. He cautioned choosing the attorney with the lowest retainer because hourly fees could be billed to make up the difference. He suggested reviewing the contracts of attorneys in similar cities.

Councilor Arthur asked if Council should consider salary requests before conducting interviews. City Attorney White stated salary requests should be submitted with the resumes. City Manager Jarboe felt Council should consider the person and then negotiate a salary.

City Attorney White stated Council could make a selection and then negotiate a salary. If salary negotiations did not work out with the first candidate they could negotiate a salary with the second.

Mayor Pruette stated she would like candidates to submit salary requirements with their resumes. Councilor Arthur agreed. City Attorney White stated the City should ask in the advertisement that candidates provide their salary requirements along with resumes.

City Clerk Volpe stated there was a three day deadline to place an advertisement in the Florida Times Union. If she sent in the advertisement tomorrow it could be in the paper on Friday. She suggested setting a deadline for receiving resumes for 12:00 p.m., January 28, 2011. This would allow Council a full ten days to review them before the meeting on February 7th.

City Attorney White advised some applicants may want to telephone council members with questions. He felt questions should be directed to the City Clerk or City Manager. Mayor Pruette stated she would prefer questions be directed to the City Manager. City Attorney White asked City Clerk Volpe to state in the ad that all questions be directed to the City Manager.

Councilor Arthur questioned who would draft the contract for the new City Attorney. City Manager Jarboe responded the candidate that is selected would provide a "letter of agreement" and Council could choose whether or not they wanted to add or delete any language.

City Attorney White stated Council could agree on the record to the terms and conditions of the contract and have it prepared after the person is hired. The contract would be simple. It would include compensation, termination, and whether or not there is a severance or if the person is serving at will.

Consensus: **MOVE FORWARD WITH THE SEARCH FOR A NEW CITY ATTORNEY.**

MINUTES
SPECIAL CITY COUNCIL MEETING
DECEMBER 7, 2010, AT 8:00 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Special Meeting of the City Council of the City of Neptune Beach was held December 7, 2010, at 8:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

The following Council members and staff were in attendance:

Mayor Harriet Pruette
Vice Mayor John Weldon
Councilor Eric Pardee
Councilor Kara Tucker
City Attorney Chris White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

STAFF:
Community Development Director Amanda Askew
Senior Activity Center Director Leslie Lyne
Director of Finance Steve Ramsey
Director of Public Safety Chief Sembach
Director of Public Services Leon Smith
Deputy City Clerk Karla Strait, CMC

Order call

Mayor Pruette called the special meeting to order at 8:00 p.m.

Invocation and Pledge

Mayor Pruette asked Councilor Weldon to lead the Pledge of Alliance.

Councilor Weldon asked the incoming Council to continue the effort to keep Neptune Beach a desirable place to live.

Mayor Pruette stated Councilor Weldon accomplished many things during his term including the following:

- Serving as Chairperson on the Planning of Development Review Board during the Land Use Code revisions
- Proposing the ordinance for the 35 foot height limit
- limiting commercial building size to 60,000 square feet
- development of the new Publix Shopping Center
- protecting the tree canopy, the marshlands, and the environment.

Mayor Pruette presented a plaque to Councilor Weldon in recognition and appreciation of his many years of service to the City.

Oaths of Office

OATHS OF OFFICE:

City Clerk Lisa Volpe administered the Oath of Office to Richard Arthur and John Jolly, whereupon they each, respectively, assumed the duties of their elected office.

**Presentation of
Certificate of Election**

PRESENTATION OF CERTIFICATE OF ELECTION: City Clerk Volpe presented a Certificate of Election to Councilor Arthur for Seat 4 and Councilor Jolly for Seat 5

Council Comments

Councilor Jolly thanked the voters and promised to do a good job.

Councilor Arthur stated he was excited and looking forward to being part of the solutions to problems facing our city. He felt there were a lot of opportunities to improve our City.

Councilor Pardee welcomed the new council members.

Councilor Tucker congratulated the new council members and stated she was looking forward to working with the new council.

Mayor Pruette also welcomed the new council members and was looking forward to working with them. She hoped the Council could reason and debate with one another and still remain friends outside the council chambers. She thanked City Manager Jarboe and all the staff for making the Councils job easier.

Jan. & Feb. 2011
Council Mtgs.

City Clerk Volpe asked if the workshop meetings for January and February could be held on the fourth Monday due to the third Monday's both falling on holidays.

Consensus: **TO HOLD THE JANUARY AND FEBRUARY 2011 WORKSHOP MEETINGS ON THE FOURTH MONDAY IN LIEU OF THE THIRD MONDAY.**

Appointment of
Vice- Mayor

ELECTION OF VICE-MAYOR: Pursuant to Section 2.04(b), City Charter, Mayor Pruette opened the floor for nominations for Vice Mayor.

Councilor Jolly nominated Councilor Tucker to serve as Vice Mayor.

There being no further nominations, Mayor Pruette closed the floor and asked City Clerk Volpe to call the roll.

Roll Call Vote to elect Councilor Tucker to serve as Vice Mayor:

Ayes: 5 – Arthur, Jolly, Pardee, Tucker, Pruette

Noes: 0

Results: **COUNCILOR TUCKER TO SERVE AS VICE MAYOR.**

CDB10-09
Seminole
Shoppes

CDB10-09, SPECIAL EXCEPTION FOR SEMINOLE SHOPPES, LLC, FOR OUTDOOR SEATING BETWEEN 626 ATLANTIC BOULEVARD AND 620 ATLANTIC BOULEVARD.

Mr. Michael Hirschberg, representative for Hurricane Wings and Grill, explained the Community Development Board recommended approval of the special exception for outdoor dining with the condition that there be no outdoor music acts or amplified activity. The applicant did not intent to establish a bar like atmosphere but they would like to be allowed to play low level music outdoors in an effort to drown out some of the noise from Atlantic Boulevard.

Councilor Pardee disclosed he had spoken with Mr. Hirschberg regarding the request prior

to the meeting.

Councilor Weldon asked if staff was agreeable to changing the condition to allow low level music outdoors. City Manager Jarboe suggested making the condition subject to the noise ordinance. Community Development Askew stated because the property did not abut residential property and staff was okay with low level music. Mayor Pruetto stated she would support it but if there were complaints the owners would be hearing from the city.

Moved by Pardee, seconded by Tucker.

Motion: **TO APPROVE CDB10-09, 626 TO 620 ATLANTIC BOULEVARD, SPECIAL EXCEPTION FOR OUTDOOR SEATING SUBJECT TO THE EXISTING NOISE ORDINANCE.**

Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There has been some confusion regarding the grant from the City of Jacksonville for the solar power. He hoped to have it settled this week.
- The construction of the package plant has begun but the City is waiting for a filter to arrive from Italy. It should be completed by April of 2012.

Mayor Pruette asked City Manager Jarboe if he had information concerning the trash compactors for the Southcoast development order. City Manager Jarboe replied on average it would cost Southcoast \$700.00 less per year for the trash compactors. Southcoast would need to rebuild and reinforce the existing concrete pads.

Councilor Weldon questioned if the information Council received from Southcoast for the development order was inaccurate. City Manager Jarboe replied the applicant did not have knowledge of the actual cost for the compactors at that time.

Councilor Weldon added if the facts had been presented at the meeting Council may have addressed the development order differently. City Manager Jarboe explained he would be meeting with Southcoast this week regarding the matter.

For the Record Councilor Weldon stated for the record "it is a really important priority that the compactors be part of the overall development and if the data presented was inaccurate and gave Council a poor basis for which to make a decision it may become necessary to reopen that development order." He asked Council to reconsider approval of the development order in light of the inaccurate information provided by Southcoast.

Mayor Pruette stated it would be beneficial to both Southcoast and Town Center for Southcoast to exchange the dumpsters for compactors.

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES

Sandwich Board
Signs

ORDINANCE NO. 2010-XX, SANDWICH BOARD SIGNS: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS AMENDING SECTION 27-576 DEFINITIONS AND ADDING SECTION 27-584 SANDWICH BOARD SIGNS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance would help the businesses. He suggested the following amendment: Sandwich board signs placed in violation of this section will result in immediate removal of the sign and ~~the business sandwich board sign permit~~ privileges will be denied shall be revoked for the remainder of that year.

Councilor Weldon added the amendment would make this Ordinance consistent with the Ordinance for outdoor sales.

Vice Mayor Lee asked if a warning would be given to violators before privileges were revoked. City Manager Jarboe replied a warning would be given by the Code Enforcement Officer before the violation was sent to the Code Enforcement Board.

Councilor Pardee suggested the business owners come in to City Hall to review the ordinance and sign a document agreeing to the terms.

Consensus: **TO FORWARD TO THE FOLLOWING SPECIAL MEETING AMENDED AS FOLLOWS: "SANDWICH BOARDS SIGNS PLACED IN VIOLATION OF THIS SECTION WILL RESULT IN IMMEDIATE REMOVAL OF THE SIGN AND THE SANDWICH BOARD SIGN PRIVILEGES SHALL BE REVOKED FOR THE REMAINDER OF THAT YEAR.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Outdoor Sales

Temporary Suspension of Outdoor Sales and / or ORDINANCE NO. 2010-20, OUTDOOR SALES: AN ORDINANCE AMENDING THE CODE OF ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS AMENDING SECTION 27-227, SPECIAL RESTRICTIONS AND CONDITIONS ON ALLOWABLE USES WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated outdoor sales could be permitted by approving a temporary suspension of outdoor sales or by adopting an ordinance.

City Manager Jarboe stated he would prefer the Council adopt an ordinance. He recommended approval of the ordinance with the following amendment: (5)a ~~events~~ by Neptune Beach general retail stores may have outside sales ~~be held~~ on the premises of their licensed store. (5)f needs to remain as follows: outdoor sales of fireworks are prohibited.

Councilor Pardee asked if the businesses would be required to obtain a permit for outdoor sales. Community Development Director Askew explained it was included in the ordinance that stores must apply for a yearly permit approved by the city manager or his designee.

Councilor Weldon stated he would prefer an ordinance to outdoor sales because it would provide for standards and regulations. He had concerns regarding poorly organized or non-regulated outdoor sales and felt outdoor sales should be regulated carefully.

Mayor Pruette questioned if Council should review the ordinance after a certain time period.

Vice Mayor Lee suggested a six month period with an annual review.

Councilor Pardee questioned (a)8 of the ordinance regarding tents. City Manager Jarboe explained this would avoid tents being placed in parking lots and taking up parking spaces that were required by the development order.

Consensus: **FORWARD TO THE FOLLOWING SPECIAL MEETING AS AMENDED.**

Youth Council

CREATION OF YOUTH CITY COUNCIL: Councilor Tucker stated she would like to table the request to create a Youth Council until she could gather more information.

Personnel Policy Change

PERSONNEL POLICY CHANGE: City Manager Jarboe explained during the union negotiations employees were concerned the definition of "family" did not include "brother-in-law" or "sister-in-law". He had suggested adding those terms to the personnel policy in lieu of the union contract.

City Clerk Volpe stated the amendment would have to be done through adoption of a Resolution. She would prepare the Resolution for the December regular meeting.

Consensus: **FORWARD RESOLUTION TO THE DECEMBER REGULAR MEETING.**

Resurrection Anglican Church

RESURRECTION ANGLICAN CHURCH – REQUEST FOR USE OF JARBOE PARK FOR CHRISTMAS MOVIE: City Manager Jarboe explained the Resurrection Anglican Church previously showed movies in Jarboe Park without complaints. He recommended approval and also suggested that Council allow the City Manager to approve such requests in the future.

Consensus: **TO APPROVE THE RESURRECTION ANGLICAN CHURCH TO HAVE A CHRISTMAS MOVIE IN JARBOE PARK AND ALLOW THE CITY MANAGER TO APPROVE FUTURE REQUESTS ON A CASE BY CASE BASIS.**

Finance Director Steve Ramsey
Director of Public Safety David Sembach

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

Ord. No. 2010-19

ORDINANCE NO.2010-19, AMENDING CHAPTER 23, UTILITIES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 23, UTILITIES, ARTICLE III. SEWERS AND SEWAGE DISPOSAL, SECTION 23-53 SAME RECOVERY OF CITY COSTS, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the City currently charges 8% interest on sewer connections. This Ordinance will lower the interest rate to prime plus 1 point.

Consensus: **FORWARD TO THE NOVEMBER REGULAR MEETING FOR FIRST READ.**

Res. No. 2010-12

RESOLUTION NO. 2010-12: A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF NEPTUNE BEACH, FLORIDA AUTHORIZING THE ISSUANCE OF NOT EXCEEDING \$2,400,000 INFRASTRUCTURE SURTAX REVENUE BONDS, SERIES 2010 TO PROVIDE FUNDS FOR SEWAGE TREATMENT PLANT IMPROVEMENTS AND REPLACEMENT OF IN-GROUND INFRASTRUCTURE OF THE CITY'S WATER AND SEWER UTILITY SYSTEM; APPROVING A FORM OF LOAN AGREEMENT AND AUTHORIZING EXECUTION AND DELIVERY OF THE LOAN AGREEMENT AND OTHER ACTION IN CONNECTION WITH THE DELIVERY OF SUCH BONDS; AUTHORIZING AWARD OF THE BONDS TO THE SUCCESSFUL BIDDER FOLLOWING SOLICITATION OF COMPETITIVE PROPOSALS; PLEDGING THE CITY'S SHARE OF HALF CENT INFRASTRUCTURE SALES SURTAX REVENUES AND CERTAIN GRANT REIMBURSEMENTS AND ALSO PROVIDING FOR PAYMENT FROM NON-AD VALOREM REVENUES; AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this is a bank loan which is considered a bond under Florida law.

Director of Finance Ramsey explained he received bids today at 2:00 p.m. and forwarded them to Dunlap & Associates Financial Advisors to calculate the best deal possible. The loan was divided into two separate loans. A \$700,000 loan will be paid through a grant from the St. Johns River Water Management District over a 3 three year term period at 1.88% interest. The remaining 1.7 will be for a ten year term period with a 2.66 % interest rate.

City Manager Jarboe explained for the audience the State has required all cities and counties on the upper St. Johns River to retrofit their sewer plant and clean up the nitrogen.

Consensus: **FORWARD TO THE NOVEMBER REGULAR MEETING.**

Sub-Grant
Agreement

SUB GRANT AGREEMENT BETWEEN THE CITY OF JACKSONVILLE AND THE CITY OF NEPTUNE BEACH: Building Official Don Ford explained this agreement was for a grant to install solar power on the City Hall building.

COMMUNICATIONS AND CORRESPONDENCE

Vice Mayor Lee was concerned about graffiti throughout the city and asked City Manager Jarboe to look into the problem.

Mayor Pruette voiced concerned regarding ants on the beach and asked City Manager Jarboe to look into the problem. City Manager Jarboe explained the sand dunes could not be sprayed with pesticides and putting out baits would be a problem for cats. Councilor Weldon stated the ant problem was related to the drought. He suggested waiting to see if they go away on their own before using any pest control on the beach. Mayor Pruette stated she was informed last year by staff, the ants were a result of too much rain.

City Clerk Volpe asked everyone to remember to vote tomorrow.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

He met with Town Center merchants last week regarding their business concerns. The merchants would like the city to allow them to use sign boards and have ongoing outdoor sales. He would prepare the proposed ordinances for Council to consider. He felt the city could also help the merchants by placing directional signs for businesses. He would also like to consider having a map of Town Center businesses created to mail out with Beaches Energy electric bills.

COMMENTS FROM THE PUBLIC

Lynda Padrta, 1113 First Street, thanked Councilor Weldon and Vice Mayor Lee for their service to the city. She stated she was looking forward to the outdoor Thanksgiving Day event.

PDRB 10-06
Replat
241 Atlantic Blvd.

PDRB 10-06, REPLAT FOR 241 ATLANTIC BOULEVARD, SOUTHCOAST BEACHES II, LLC & SOUTHCOAST CAPITAL PARTNERSHIP, LTD.

Mayor Pruette opened the public hearing.

There being no comments from the public, the public hearing was closed.

Lindley Tolbert, Representative for Southcoast Capital, explained they have made changes to the previously approved development order. The new development has been designed for two buildings with a courtyard in the center. The first floor will consist of two or three retail shops and a restaurant. The second floor will be used for office space by Southcoast Capital. The Replat request was to move the lot lines to accommodate the new development. The requested variances were similar to those of the previously approved development order. The special exception for parking is due to the parking requirements for the restaurant.

Mayor Pruette disclosed she spoke with Lindley Tolbert, Ed Jones, Richard Arthur, and Kerry Chin, regarding the development order.

Councilor Tucker disclosed she had spoken with Richard Arthur, Chairman of the Planning & Development Review Board, regarding the development order.

Mayor Pruette stated the Planning & Development Review Board recommended approval of the development order.

Councilor Weldon asked Ms. Tolbert if the garbage dumpsters located in the adjacent parking lot could be replaced by compactors.

Mayor Pruette stated Councilor Weldon's question should be addressed when Council discusses the variance request for parking. She felt it would be easier for Council to address each issue of the development order individually.

Councilor Weldon stated his vote on the Replat would depend upon the applicants response to his question and he would like to ask the question at this point.

Mayor Pruette felt Councilor Weldon's question at this point would be confusing for the Council and they should consider the Replat first before considering the variances. She asked if there was a consensus to discuss each issue individually.

Consensus: **TO DISCUSS EACH ISSUE INDIVIDUALLY.**

Mayor Pruette stated the consensus of the Council was to vote on the Replat first and then discuss the variances one by one and place stipulations if necessary.

Councilor Weldon argued that he had the floor. He disagreed with the consensus and asked for someone to make a motion if they wished to take the floor away from him.

Moved by Pardee, seconded by Tucker.

Motion: **TO TAKE THE FLOOR AWAY FROM COUNCILOR WELDON AND ADDRESS EACH ITEM ONE AT A TIME.**

Roll Call Vote:

Ayes: 3 – Pardee, Tucker, Pruette

V10-08
Variances
241 Atlantic Blvd.

V10-08, VARIANCES FOR 241 ATLANTIC BOULEVARD, SOUTHCOAST BEACHES II, LLC 7 SOUTHCOAST CAPITAL PARTNERSHIP, LTD.

Variance # 1

- (1) Section 27-229-1, a variance request of 1 foot to the minimum corner side yard (west) setback leaving 6 feet in lieu of the required 7 foot setback on the ground floor (building)

Mayor Pruette stated the Planning & Development Review Board recommended approval of V10-08 for the front yard second story balcony over Atlantic Boulevard with the condition of an indemnification agreement.

Moved by Lee, seconded by Tucker.

Motion: **TO APPROVE VARIANCE NO. 1**

Amended Motion: **TO INCLUDE INDEMNIFICATION AGREEMENT SATISFACTORY TO THE CITY.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

- Variance # 2 (2) Section 27-229-1, a variance request of 5 feet to the minimum corner side yard setback leaving 2 feet in lieu of the required 7 foot setback for the second story balcony (facing Section Street)

Mayor Pruette stated the Planning & Development Review recommended approval of variance request V10-08 for the side yard setback on the west side.

Councilor Weldon stated the landscape design showed palm trees would be planted in the rights-of-way. He asked if Southcoast Capital was committed to planting the palm trees. Ms. Tolbert agreed that they were committed to planting palm trees in the rights-of-way and the landscaping would match the current landscape in Town Center.

Moved by Lee, seconded Pardee.

Motion: **TO APPROVE V10-08 VARIANCE NO 2. FOR VARIANCE TO REQUEST ON THE WEST SIDE.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

- Variance # 3 (3) Section 27-299-1, a variance request of -5 feet to the minimum front yard setback leaving -5 feet in lieu of the required 0 foot setback for the second story balcony facing Atlantic Boulevard.

Mayor Pruette stated the Planning & Development Review Board recommended approval of V10-08 the variance request for side yard for second story balcony on Second Street with the condition that an indemnification agreement is in place.

Councilor Weldon stated he would like to see the unused ATM, currently located in the parking lot, be replaced with a bicycle and scooter parking area. Ms. Tolbert responded that property was owned by their parent company. The parent company intended to remove the ATM and create four parking spaces for motorcycles or scooters, bike racks and benches. That would be a separate project from this development order.

For the Record Mayor Pruette asked Mrs. Tolbert if she would state for the record the ATM would be removed and the motorcycle and scooter parking area would be created. Mrs. Tolbert replied "yes" the motorcycle and scooter parking area would be created.

Moved by Lee, seconded by Pardee

Motion: **TO APPROVE V10-08 NO. 3 FOR A SECOND STORY BALCONY ON SECOND STREET WITH THE CONDITION OF AN INDEMINIFICATION AGREEMENT TO THE CITY.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

- Variance # 4 (4) Section 27-229-1, a variance to increase the maximum lot coverage by 5% creating 90% in lieu of the 85% maximum lot coverage

Mayor Pruette stated the Planning & Development Review Board recommended approval of V10-08 allowance for maximum lot coverage with matching brick pavers.

Moved by Pardee, seconded by Tucker

Motion: **TO APPROVE V10-08 NO 4 FOR MAXIMUM LOT COVERAGE.**

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

Variance # 5

- (5) Section 27-540(a) a variance to reduce the minimum number of required parking to 25 spaces in lieu of the required 37 spaces

Mayor Pruette explained the Planning & Development Review Board recommended approval of V10-08 for required parking with the condition that no signage restricting parking spaces would be permitted. She asked City Attorney White to explain the parking restriction.

City Attorney White advised it was his opinion the condition to not allow signage to restrict parking spaces on private property was arbitrary and not reasonable. He felt it could be contested in court.

Lindley Tolbert explained they would be providing 14 parking spaces to the city. They would also deed a strip of land to the city, at no charge, for additional parking.

Councilor Weldon agreed restricting parking was a business issue and the government should not be involved. He complimented Ms. Tolbert for providing parking in Town Center.

Moved by Lee, seconded by Tucker

Motion: **TO APPROVE THE RECOMMENDATION OF THE PLANNING & DEVELOPMENT REVIEW BOARD AS TO V10-08 BUT TO NOT APPROVE THEIR RECOMMENDATION FOR THE PROHIBITION ON THE PARKING SIGN.**

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

Variance # 6

- (6) Section 27-563, a variance to not require a dumpster in lieu of the required dumpster

Mayor Pruette stated the Planning & Development Review Board recommended approval of V10-08 to remove the requirement of an onsite dumpster if a dumpster was provided offsite.

Mrs. Tolbert explained this variance request was also previously approved by Council for the last development order. They would like to use the extra dumpster pad in the adjacent parking lot. They were looking into eventually replacing all of the garbage dumpsters with trash compactors. There were negotiating with Waste Pro to provide service for the compactors.

City Manager Jarboe stated there was a tremendous odor and leakage problem with the current trash dumpsters and this has become a code enforcement issue. He suggested Mrs. Tolbert work out a service agreement with Waste Pro. Mrs. Tolbert replied she was working with Waste Pro regarding the installation of trash compactors. That issue was separate from the development order.

Councilor Weldon asked Mrs. Tolbert if she could guarantee the City, if the development order is approved, that they would install the trash compactors as long as the local trash collector accommodated pick up service for them. Mrs. Tolbert responded she did not want to commit to a contract with the waste management company until a reasonable agreement could be reached. She did not wish to tie the issue of the trash compactors to the approval of this development order.

Vice Mayor Lee felt the trash compactor issue should not be related to the approval of the development order. He felt the City should help them negotiate an agreement with the garbage contractor.

Councilor Tucker asked if this particular variance could be tabled until City Manager Jarboe had a chance to speak with the garbage contractor.

City Attorney White advised it would not be prudent to table one variance request when other variance requests were involved in the approval of a development order.

Vice Mayor Lee added due to code enforcement issues with the dumpsters it would be to their advantage to negotiate an agreement with Waste Pro for the trash compactors.

Moved by Lee, seconded by Tucker

Motion: **TO APPROVE SECTION 27-563 VARIANCE NOT TO REQUIRE A DUMPSTER IN LIEU OF THE REQUIRED DUMPSTER IF THE CORPORATION SOUTHCOAST BEACHES CAN WORK OUT A REASONABLE LEASING AGREEMENT ON THE COMPACTOR.**

Mrs. Tolbert stated the motion sounded as if she was being required to install compactors and work out a reasonable agreement with the trash collector.

City Attorney White questioned if the intent of the motion was to grant the variance contingent upon installing trash compactors.

Vice Mayor Lee stated the intention of his motion was to approve the variance and if Southcoast Capital could not negotiate a reasonable agreement with the garbage contractor the variance would still be granted to allow them use of the extra dumpster pad in the adjoining parking area.

Vice Mayor Lee withdrew his original motion.

Moved by Lee, seconded by Tucker

Amended Motion: **TO APPROVE THE VARIANCE APPROVAL BY THE PLANNING & DEVELOPMENT REVIEW BOARD CONTINGENT UPON THE PROPERTY OWNER OBTAINING A REASONABLE LEASE FOR THE COMPACTOR. IN THE EVENT THE PROPERTY DOES NOT OBTAIN A REASONABLE LEASE FOR THE COMPACTOR, NOT INCLUDING THE HAUL, THE VARIANCE STILL STANDS AND SHE IS ENTITLED TO USE THE AVAILABLE PAD RATHER THAN PLACING THE DUMPSTER AT THE NEW BUILDING.**

COUNCIL COMMENTS

Vice Mayor Weldon stated he objected to being censored for the second time by the Council. He added that vigorous debate is an essential part of any democracy and each Councilor represented the citizens of Neptune Beach. He felt the Council cutting off his right to speak was a dangerous precedent. He encouraged other Council members to think about that.

Mayor Pruette commented she would never censor anyone. As Mayor it was her duty to move the meetings along. The last time the Council was faced with a development order there were motions being made to the motions and it was extremely confusing. She added that Councilor Weldon had every right to speak on the individual variance requests and the meeting moved along as she had intended.

Adjournment

There being no further business, the meeting adjourned at 7:20 p.m.

Vice Mayor Fred Lee

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:05 p.m.

PRESENTATIONS

Mayor Pruette presented a Proclamation in recognition of "Junior Civitan Day."

Mayor Pruette announced the Neptune Beach Police Department recently received accreditation.

Barbara Jackson, Chairperson, Ish Brant Beautification Committee, President, Florida Native Plant Society, Florida Master Naturalist, and Duval County Master Gardener, gave a presentation on Invasive Plants.

Mayor Pruette announced the art work currently on display in the Council Chambers was the work of Fletcher High School art students.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- We have received grant money short of \$1,000 to provide solar power to the City Hall building. Building Official Don Ford will be in charge of the project.

PUBLIC COMMENTS

Mary Ann Padrta, 1030 Second Street, voiced concern regarding non-conforming properties not being allowed to maintain the existing non-conformity without having to apply for a variance.

Holly and Jeff Tyrrell, 702 First Street, were informed they could not request a variance because of their existing duplex. They asked Council to consider amending Section 27-146.

June Salaun, 1565 Park Terrace East, explained she was part of a group of University of Maryland alumni that met at Carribbee Key once a month. The group would like to request permission of the Council to place a sea turtle, painted with the University of Maryland logos, in Town Center.

Mayor Pruette suggested forwarding the request to a workshop meeting. She asked Mr. Salaun to provide City Manager Jarboe with the details before the meeting.

PROPOSED ORDINANCES / NONE

ISSUE DEVELOPMENT

Relay for Life

APPROVAL OF RELAY FOR LIFE EVENT TO BE HELD IN JARBOE PARK ON APRIL 16, AND APRIL 17, 2011: City Manager Jarboe explained this was a non-profit event that took place in Jarboe Park every year.

Consensus: **FORWARD TO THE NOVEMBER CONSENT AGENDA.**

Thanksgiving Day

APPROVAL OF OUTDOOR ALCOHOL FOR THANKSGIVING:

City Manager Jarboe explained Curtis Winters, Owner of Sun Dog Diner, and John Brocato, Owner of Sunny Carribbee, have requested their establishments be included this year, in the Thanksgiving Day celebration with Pete's Bar. He added if approved by the Council the additional establishments would also need to provide the city indemnity up to one million dollars, provide extra security, participate with the cleanup, and sign an agreement to the conditions.

Curtis Winter, Owner of Sun Dog Diner, stated he has wanted to participate in the event for quite some time now, He would be willing to hire an additional police officer to provide security and would help with the clean up.

Councilor Pardee asked Tom Wittingslow, owner of Pete's Bar, if this would place any additional rules on his establishment. Mr. Wittingslow responded this would not place any additional burden on his establishment. This would just expand the outdoor area to add the sidewalk and allow their customers to flow in and out of the area.

City Manager Jarboe stated this would allow the two establishments to participate in the event. The issue was that these two establishments agree to the conditions. Mr. Winter stated he would be responsible for the additional police officer.

Chief Sembach clarified the street was going to be closed off there would need to be a police officer at each street end and one police officer to work Sun Dog Diner and Sunny Caribbee. City Manager Jarboe replied that would be part of the conditions in the agreement.

Nancy Jenson, Owner of Pete's Bar, added an additional dumpster may be necessary for the cleanup.

Mayor Pruette stated she would like to make sure the streets were cleaned before everyone leaves. She recommended authorizing the City Manager to work out the details of the agreement.

Councilor Weldon stated he had no objections if the event was properly managed. However, as a citizen he will object if the event gets out of control.

Consensus: **TO FORWARD TO THE NOVEMBER CONSENT AGENDA.**

COUNCIL COMMENTS

Councilor Pardee stated the building official for the City of Jacksonville was currently negotiating with Atlantic Beach to provide service in the absence of their building official. He was asked to inquire as to whether or not Neptune Beach would be interested in having the City of Jacksonville provide inspection services in the absence of our building official.

City Manager Jarboe stated he would definitely be interested in negotiating with the City of Jacksonville to provide backup inspection service. He would inquire and report back to the Council.

Mayor Pruette presented a Proclamation proclaiming October 25, 2010 "John Weldon Day" in honor of his 60th birthday.

Adjournment

There being no further business, the meeting adjourned at 6:45 pm.

MOTION CARRIED

COMMUNICATIONS AND CORRESPONDENCE

Vice Mayor Lee voiced concern regarding graffiti throughout the city. He asked City Manager Jarboe for assistance in having it cleaned up.

Mayor Pruette thanked Director of Finance Steve Ramsey for filling in as City Manager during City Manager Jarboe's absence last week.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

The revenue for building permits has increased 8% and revenue for cash receipts has increased 18%.

The City has received a little over half of the money, through a grant, for solar powering the City Hall building. He has requested another grant for the remainder of the amount through the City of Jacksonville.

COMMENTS FROM THE PUBLIC

Mary Ann Padrta, 1030 Second Street, thanked City Manager Jarboe for allowing her to repair her sidewalk after she was denied a permit by Community Development Director Amanda Askew. She voiced concern regarding her daughter, Lynda Padrta, being denied a building permit to extend her deck because her property was non-conforming.

Councilor Kara Tucker
Councilor John Weldon
City Attorney Chris White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Finance Steve Ramsey
Director of Public Safety David Sembach

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:05 p.m.

PRESENTATIONS

Mayor Pruette announced today was Billy Jones' birthday and asked everyone to stand and sing Happy Birthday.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The Florida Times Union printed an article titled Neptune Facts.
- The Public Safety Department has been recertified by the Florida Group.

Councilor Weldon stated there were several places in the September 7, 2010, meeting minutes that stated the Waste Pro contract was only extended for three (3) years and it was extended for five (5) years. City Clerk Volpe stated she would correct the error.

PUBLIC COMMENTS

Scott Wiley, 723 Davis Street, felt it was not a good time to appoint a Special Magistrate in lieu of the Code Enforcement Board due to the economic situation.

PROPOSED ORDINANCES

CEB / Magistrate

ORDINANCE NO. 2010-XX, SPECIAL MAGISTRATE: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE VII. BOARDS AND COMMISSIONS, DIVISION 2 CODE ENFORCEMENT BOARD, AMENDING SEC. 2-436. INTENT, SEC. 2-437. IMPLEMENTATION OF F. S. CH. 162, SEC. 2-438. DEFINITIONS, SEC. 2-439. ORGANIZATION, SEC. 2-440. POWERS, SEC. 2-443. ADMINISTRATIVE FINES; LIENS, SEC. 2-445. APPEALS AND SEC. 2-446. SERVICE OF NOTICES AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this ordinance changes "Code Enforcement Board" to "Special Magistrate". He added the city would break even in costs because code violators would have to pay for the cost of the hearing.

Councilor Weldon stated the City pays an outside attorney to attend Code Enforcement Board meetings in some cases. City Attorney White explained an outside attorney is hired on rare occasions when the case is too complicated for staff to present.

Councilor Weldon asked if the City would still need to hire an outside attorney if cases were heard by a Special Magistrate. City Attorney White responded the City would still have to hire an outside attorney to present complicated cases to the Special Magistrate.

Mayor Pruette stated the City of Jacksonville Beach has to hire an attorney to defend certain cases. In those cases it costs the City not only for the Special Magistrate but also for the attorney.

Councilor Pardee asked if code enforcement case hearings could be held during the day. City Attorney Jarboe replied most board members have to work during the day.

Councilor Tucker felt it was not the right time for the City to switch from a Code Enforcement Board to a Special Magistrate. She would be willing to reconsider it in the future.

Councilor Weldon felt the City would save money by using a Special Magistrate because code enforcement cases would be handled more efficiently. A Special Magistrate would be more predictable and citizens would be more likely to solve issues before having to face a magistrate. He understood there was not enough support to forward this but hoped the Council would consider this again in the future.

Mayor Pruette felt the budget was too tight and the City should continue with the Code Enforcement Board. She also felt the Code Enforcement Board does a good job and she would prefer to wait.

Vice Mayor Lee was okay with delaying the decision.

Consensus: **TO DELAY SWITCHING FROM A CODE ENFORCEMENT BOARD TO A SPECIAL MAGISTRATE.**

CONTRACTS / AGREEMENTS / NONE**ISSUE DEVELOPMENT / NONE**

COUNCIL COMMENTS

Mayor Pruette stated there was an article in the newspaper regarding the City of Jacksonville increasing taxes for the beaches. She asked Finance Director Ramsey to explain the tax increase to the Council. Director of Finance Steve Ramsey explained last year Duval County did not charge enough taxes to beaches residents because they erred in setting their tax rate. According to the Interlocal Agreement the City of Jacksonville City Council is suppose to set their tax rate, subtract 3.2907 mills, and that is the rate they charge to beaches residents. The rate from the County last year should have been 5.982 but they only charged 5.448. This year they will be setting the tax rate correctly according to the Interlocal Agreement.

Adjournment

There being no further business, the meeting adjourned at 6:25 pm.

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 5:15 p.m.

**Waste Pro
Contract**

EXTENSION OF SOLID WASTE FRANCHISE WITH WASTE PRO: Mayor Pruette explained Waste Pro has requested a five year extension on their waste pick-up contract.

Mayor Pruette asked City Attorney White if there would be any legal issues with extending the Waste Pro contract. City Attorney White advised it would not be a legal problem.

City Manager Jarboe explained the current contract with Waste Pro was for \$17.24 per month for residential household waste pick-up. The extension of the contract would eliminate side yard pick-up service, provide curbside pick-up, and reduce the monthly rate to \$14.57. The extension would become effective immediately saving the City \$75,000 over the next nine months. The five year extension of the contract also provided that Waste Pro would not increase the rates until FY2013. The \$14.57 per month rate would be effective for three years saving the City a total of approximately \$543,000. This savings would be put into a reserve fund to be used for hurricane damage and tipping fee reserves.

Mr. Howard Burnett, Representative for Waste Pro, explained Waste Pro began servicing Neptune Beach when they were awarded the contract in 2006. He felt it was important to have a company that responded to the needs of the residents in a timely manner. He added that Neptune Beach is very important to Waste Pro and he felt they have earned the trust of the City. He stated the rate of \$14.57 for curbside service is within six cents of their 2006 bid. He added his company would assist in notifying customers of the switch to curbside service.

Councilor Pardee disclosed he met with Mr. Burnett prior to the meeting. He supported the contract extension because Waste Pro has done a great job for the city and the rate

would be locked in for three years.

Vice Mayor Lee disclosed he spoke with Mr. Burnett by telephone prior to the meeting. He asked if there was a possibility of combining the pick-up days for recycling, trash, and yard waste instead of having all of the pick-ups on different days of the week. He felt this would minimize the truck traffic east of Third Street.

Mr. Burnett replied that would not minimize the truck traffic because there were three separate trucks, one for each service. There would also be the same amount of wear and tear on the trucks. It would be impossible for them to collect all three services on the same day because they would need four trucks.

Councilor Tucker disclosed she met with Mr. Burnett and a representative for Advanced Disposal prior to the meeting.

Councilor Weldon questioned if the \$14.57 rate was based on a recent household count. Mr. Burnett replied he would suggest an updated count and suggested that a city employee and a representative for Waste Pro conduct a new house count.

Councilor Weldon stated he understood Waste Pro contributed to some of our social service funds and questioned if that would continue under the new extended contract. Mr. Burnett responded that was in the original contract and would continue.

Councilor Weldon wanted to ensure there would be no cost of living increase and no other changes to the contract until 2013. He asked if any requests for fuel surcharges would still be at the discretion of the Council. Mr. Burnett replied requests for fuel surcharges were not in the original agreement and would be at the discretion of the Council. The five year extension of the contract guaranteed the rate of \$14.57 starting September 1, 2010 until FY2013.

Councilor Weldon questioned if Waste Pro intended to convert to an automated service anytime during the five year contract. Mr. Burnett replied they did not intend to convert to an automated pick-up service.

Councilor Weldon asked to allow representatives of other trash collection companies to address the Council.

Mayor Pruette asked if anyone representing a waste pick-up company would like to speak.

Susan Wilburn, Representative for Republic Services, requested the Council consider other opportunities. She added Republic Services would offer competitive rates.

Jessica Deal, Representative for Advance Disposal Services, encouraged Council to consider other options. She added Advance Disposal Services rates were less now than they were four years ago.

Mayor Pruette asked Council members to comment on the consensus to either extend the Waste Pro contract or bid for a new contract.

Councilor Pardee supported extending the Waste Pro contract.

Vice Mayor Lee asked if this was considered a point of order for the Council because they arrived at a consensus at the last workshop meeting to bid out the contract. He added the numbers from Waste Pro were attractive but questioned if Council was confident other garbage collection companies would not be able to beat the prices.

Councilor Weldon stated he is reversing his decision from the previous consensus due to the new information being presented. He felt it would be very difficult for other

companies to beat the new rate being offered by Waste Pro. The City would also be saving \$75,000 over the next nine months and this would not be offered by any other garbage collection company. He also felt the money should be held in a reserve fund for tipping fees only and if it was not needed for tipping fees the money should be used to reduce the rates for the residents.

Mayor Pruette stated the tipping fees would be between \$150,000 and \$300,000. The City would also need extra money for attorney fees.

Councilor Tucker supported extending the Waste Pro contract based on the new information provided.

Vice Mayor Lee stated he wants to have in writing exactly how the reserves will be spent because he and Councilor Weldon would be leaving the Council this coming November.

Mayor Pruette stated she agreed to bid out the contract before receiving the new information and cost savings to the City. She added the City has had issues with Waste Pro in the past however, the company has made changes and resolved those issues. She felt it may be difficult to start over with a new company. She felt the overall savings was worth extending the contract for five years because the savings could be placed in a reserve fund for the \$150,000 to \$300,000 tipping fees the city could have next year.

Councilor Tucker questioned if there would be any legal issues if the Council changed the consensus to extend the Waste Pro contract instead of bidding it out. City Attorney White stated it was not a legal issue.

Consensus: **TO FORWARD THE FOLLOWING REGULAR MEETING FOR A VOTE.**

Ord. No. 2010-14 **ORDINANCE NO. 2010-14, COMBINING THE PLANNING AND DEVELOPMENT REVIEW BOARD:** Community Development Director Askew explained this ordinance would create a new Community Development Board by combining the Planning & Development Review Board and the Board of Appeals. The duties for approving variances and development orders would remain the same.

Vice Mayor Lee asked how many alternates member would serve on the Board. Ms. Askew replied the Board would consist of 7 regular members. Section 27-38(l) would need to be amended to reflect 3 alternates.

Consensus: **FORWARD TO THE FOLLOWING REGULAR MEETING FOR A SECOND READ AND PUBLIC HEARING.**

Adjournment There being no further business, the meeting adjourned at 5:49 pm.

APPROVAL OF MINUTES

Moved by Lee, seconded by Tucker.

Minutes

Motion: **TO APPROVE THE FOLLOWING MINUTES:**

AUGUST 2, 2010, WORKSHOP CITY COUNCIL MEETING
AUGUST 2, 2010, REGULAR CITY COUNCIL MEETING
AUGUST 16, 2010, WORKSHOP CITY COUNCIL MEETING

Councilor Pardee felt the August 2, 2010, Regular City Council Meeting minutes should be amended as follows: Councilor Pardee had forwarded an e-mail to the City Clerk requesting she pull up blogs and Mayor Pruette asked ~~Council~~ Councilor Pardee to consider staff time and copying costs when forwarding blogs to the City Clerk's office.

Mayor Pruette disputed the amendment and asked City Clerk Lisa Volpe to retrieve the verbatim of the discussion so it could be read for the record.

Councilor Pardee read the following from the verbatim:

Mayor Pruette: I want to bring up something. "You know last year during budget time we directed Lisa, the City Clerk, to do two sided copies and there for a while she was making two sided copies. We are not doing binders and we decided it was not really working for us and we told her we wanted to cut back with paperwork which we had to save money. And Eric, last week you sent Lisa an e-mail and asked her to read some blogs about a storey and in doing so what happens is Lisa has to make a copy of not only the e-mail because every time we send an e-mail to City Hall as a Councilor she has to make copies for staff, copies for press, and copies for the Council and it takes her time and effort to do it. I just fell like blogs are our own free choice of reading or not reading and it takes Lisa's time up for her to do this so I think we should be at least considerate of Lisa's time and remember that every time we send something we have to make copies of it. So if you would I would appreciate it."

Vice Mayor Lee withdrew his motion to approve the minutes as submitted.

Moved by Pardee, seconded by Lee.

Motion: **TO APPROVE THE MINUTES WITH THE CHANGES TO THE AUGUST 2, 2010 REGULAR COUNCIL MEETING CHANGING "ASKED COUNCIL" TO "ASKED COUNCILOR PARDEE" UNDER COUNCIL COMMENTS.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette stated there are some streets in the City that were in need of repairs. She suggested money be set aside in next year's budget for street repairs.

Mayor Pruette explained to the audience Council could not vote at workshop meetings. They could only discuss agenda items, agree to a consensus, and forward the items to a regular meeting for a vote.

City Clerk Lisa Volpe stated her office has received the Code book supplements. She requested Council members drop off their Code books so they could be updated.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

The State notified him last week of the possibility of receiving an additional \$250,000 in grant money for the nitrogen and green projects. The match would come from money the City has already spent on the nitrogen project.

He has sent information to the Florida Department of Transportation regarding grants for street repairs.

COMMENTS FROM THE PUBLIC

Jane Coleman, Representative for Waste Management Company, stated at the August workshop meeting the consensus of the Council was to request proposals for the waste collection contract. She sent a letter to the City Manager last week explaining Waste Management would be interested in responding to the request for proposals. She asked Council to consider requesting proposals because the market was a lot different today than it was four years ago when the city last asked for proposals.

Howard Burnett, Representative for Waste Pro, stated Waste Management Company did not bid for the contract when it was proposed four years ago. They submitted a one page letter outlining several reasons why they were unable to bid the contract. He was not aware of any changes with Waste Management as to why they would now be interested in residential garbage collection. He added that to his knowledge Waste Management did not have any residential contracts and walked away from the largest one they previously had with the City of Jacksonville.

Susan Wilburn, Representative for Republic Services, asked Council to consider requesting proposals. She felt the City may have an opportunity to save more money in the long run.

Mayor Pruette read Ordinance No. 2010-14 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Weldon, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2010-14 AS AMENDED WITH THE MINOR CHANGES SPECIFIED BY STAFF INCLUDING THREE ALTERNATES ON SECOND READ.**

Mayor Pruette stated she would support the Ordinance with the understanding Mr. Keene's suggested changes would be placed on the September workshop meeting.

Councilor Weldon stated he would support the Ordinance with the caveat that Council respects the contribution of all the individual members of the various boards that have participated and served and Council does their best to demonstrate the thanks they have for all the board members efforts during the process.

City Clerk Volpe questioned when the Ordinance would go into effect. City Attorney White suggested the Ordinance be effective November 1st. This would give Council enough time to appoint members to the new board.

Councilor Weldon amended the motion.

Amended Motion: **TO MAKE THE ORDINANCE EFFECTIVE NOVEMBER 1, 2010.**

Councilor Weldon stated he would like Council to appoint the new board members at the October regular meeting.

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

MOTION CARRIED

City Attorney asked that a copy of the title of the ordinance be filed with the minutes.

Ord. No. 2010-15 **ORDINANCE NO. 2010-15, INCREASING WATER AND SEWER RATES, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA CHAPTER 23 UTILITIES, ARTICLE IV WATER AND SEWER SERVICE CHARGES SECTION 23-84(B), (C) AND (D) TO INCREASE WATER RATES AND AMENDING SECTION 23-85(A), (B) AND (C) TO INCREASE SEWER RATES; AND ESTABLISHING AN EFFECTIVE DATE.**

Mayor Pruette read Ord. No. 2010-15 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Andy Burnham, Burton & Associates, gave a power point presentation on the Water and Sewer Rate Study they conducted for the City. They recommended two plans of

adjustments. This Ordinance would implement Plan 2, which was more moderate. They also recommended conducting a water and sewer rate study annually.

Vice Mayor Lee explained the City made adjustments three years ago to increase the negative Reserve Fund balance. However, due to the economic situation and water conservation efforts the fund did not increase. Vice Mayor Lee asked Mr. Burnham if he felt the city had reached the bottom of water conservation efforts. Mr. Burnham replied he was hesitant to state we had reached the very bottom. But he would say there was limited room for growth. The only thing that could affect consumption now would be loss of customers due to foreclosures and additional economic conditions.

Moved by Weldon, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2010-15 ON SECOND READ.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

NEW BUSINESS

Res. No. 2010-08

RESOLUTION NO. 2010-08: A RESOLUTION APPOINTING MEMBERS TO THE POLICE OFFICER'S RETIREMENT BOARD.

Mayor Pruette thanked Mr. Linger for his willingness to serve on the board and asked him to introduce himself to the council.

David Linger, CPA, 1817 Hopkins Creek Lane, introduced himself to the Council. He explained he had some expertise in the area of retirement pensions.

Councilor Weldon stated Mr. Linger was a Certified Public Accountant and did a lot of volunteer work in the community. He was the Chairman of Pablo Towers Board of Directors and has volunteered years of work of BEAM. He felt the City was privileged to have him serve on the Police Officers Retirement Fund board.

Vice Mayor Lee, Councilor Tucker and Councilor Pardee, thanked Mr. Linger for his willingness to serve on the Board.

Moved by Weldon, seconded by Tucker.

Motion: **TO ADOPT RESOLUTION NO. 2010-08**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

MOTION CARRIED

COUNCIL COMMENTS

Councilor Pardee explained the reason he wanted to amend the August 2, 2010, Regular Meeting minutes. He stated he sent an e-mail to the City Clerk with an attachment of an article that appeared in the Shorelines newspaper and requested that it be copied to the Council. The article was regarding the closing of P.J.s Sports Grill and the Village Inn in Neptune Beach. He thought Council might be interested in reading the article and comments that were written below the article. He felt he had the right to send the article and request that it be copied to Council. He donated a ream of paper to the City for copying purposes.

Adjournment

There being no further business, the meeting adjourned at 7:00 p.m.

City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach
Director of Finance Steve Ramsey
Director of Public Services Leon Smith

ABSENT:

Councilor Eric Pardee

Call to
Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m. City Clerk Volpe called the roll and stated Councilor Pardee was out sick.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There were recently two fires in the city, one happened in the 600 block of First Street and the other was at Bono's Bar-B-Que.
- The grand opening for the Seminole Shopping Center will be held on Saturday the 28th at 10:00 a.m.
- The city is looking into the possibility of installing solar cells on the City Hall building using stimulus money from a grant appropriated by the City of Jacksonville. This would reduce the electric bill by approximately \$600 to \$700 per month.
- The brick crosswalks have been installed at the major intersections on A1A. FDOT will be completing the stripping soon.
- The wastewater package plant has been cleaned out and the city will be reimbursed for the cost.

- The Notice to Proceed has been issued to the contractor for the TMDL improvements.
- A report indicated the nitrogen level has been reduced due to the in-pipe technology. The report showed an average reduction of 31%.

PUBLIC COMMENTS

Hal Elarbee, 411 Margaret Street, concerned about a code enforcement notice he received regarding storage of his boat on his property.

Travis Smith, 405 Margaret Street, also voiced concern regarding a code enforcement violation notice he received for a trailer that he stores on his property.

Richard Keene, 733 Bay Street, asked the Council to contact FDOT concerning the condition of the area between Fifth Street and Bay Street where the construction crews, doing the repaving of A1A, had been parking their vehicles. He also requested the Council hold an additional workshop meeting regarding the Ordinance that would combine the Planning & Development Review Board and the Board of Appeals.

Mary O Brian, 7915 Baymeadows Road, Suite 300, Advance Disposal Services, encouraged Council to ask for competitive bids for a new solid waste and recycling contract. She added Advance Disposal would bid on the contract responding with the best rates and service possible.

PROPOSED ORDINANCES / NONE

CONTRACTS / AGREEMENTS

Waste Pro

WASTE PRO – CONTRACT AMENDMENT AND EXTENSION: City Manager Jarboe explained he had been contacted by several garbage collection companies interested in bidding on our solid waste and recycling contract. The current contract with Waste Pro will expire in April or May of 2011. He added if the Council was interested in putting the contract out for bid he would need to give Waste Pro six months notice.

Mayor Pruette stated this item was originally placed on the agenda to discuss tipping fees. City Manager Jarboe replied it was possible that the City will have to pay tipping fees next year and it would be nice to have some money in the reserves in case that happens.

Mayor Pruette asked the City Manager for his recommendation. City Manager Jarboe stated it would be a good idea to request proposals. He would like to ask for bids on semi-automated pick up and completely automated pick-up to see what the difference would be. He added that some businesses were planning to switch from dumpsters to compactors.

Vice Mayor Lee stated he would like to put the solid waste and recycling out for a competitive bid.

Councilor Weldon felt it would be in the best interest of the citizens to have a competitive bid on the solid waste and recycling contract.

Councilor Tucker agreed the contract should be put out for a competitive bid.

Consensus: **TO BID OUT THE CONTRACT FOR SOLID WASTE AND**

RECYCLING AND HAVE THE CITY MANAGER GIVE SIX MONTHS NOTICE TO WASTE PRO AS REQUIRED IN THE CONTRACT.

ISSUE DEVELOPMENT

CEB
Magistrate

CODE ENFORCEMENT BOARD MAGISTRATE: City Manager Jarboe explained the Code Enforcement Board meetings cost the city \$120.00 per meeting for staff overtime. A magistrate meeting during the day would cost the city \$125.00 an hour.

He explained the actual cost of the hearings depended on the amount of cases each month. The Code Enforcement Officer is reactive rather than proactive and tries to work with violators to correct problems before sending them through to the Code Enforcement Board for action. He felt having a magistrate would bring in more revenue for fines which would offset the cost. He also stated the city may want to look into charging an administrative hearing fee of \$100.00 to violators which would also help offset the costs.

Mayor Pruette stated the two issues before the Council was whether or not the city wanted to charge an administrative hearing fee and to determine if they wanted to use a magistrate in lieu of the Code Enforcement Board.

Councilor Weldon felt a magistrate was the most efficient way to handle code enforcement. The issue was not only about cost it was also about what was more efficient and effective in terms of code enforcement. He felt there was a presumption by code violators that they could convince their neighbors sitting on the board to allow them another chance or forgive the violation completely. He added many small cities have gone to a code enforcement magistrate because they are trained professionals and would enforce the Code as it is written.

Councilor Tucker stated she knew that the City of Jacksonville Beach used a magistrate and that a magistrate would prevent pitting neighbors against neighbors. She was unsure, at this time, which way she felt would be best.

Vice Mayor Lee stated he thought Councilor Weldon had valid points and supported moving forward with the change.

Mayor Pruette stated there were both pros and cons either way. The Code Enforcement Board was doing a good job. She was concerned about the cost of a magistrate because the city was on a tight budget. She asked City Manager Jarboe to draft an ordinance for Council to workshop.

Councilor Weldon added using a magistrate could save money over time. There also may be less code enforcement actions because violators would not be able to delay action by speaking with their neighbor board member.

Consensus: **HAVE CITY MANAGER JARBOE AND CITY ATTORNEY WHITE DRAFT AN ORDINANCE TO WORKSHOP.**

PORF Board

POLICE OFFICERS RETIREMENT FUND BOARD APPLICANTS: Mayor Pruette stated applications have been received from David Linger, CPA and Barry Chandler, CPA, to serve on the Police Officers Retirement Fund Board. Mr. Chandler would not be available to serve for several months. Mr. Linger is available to start immediately. Another position on the Board is going to become available soon where Mr. Chandler will be considered.

Vice Mayor Lee stated the PORF Board played a critical role in the City. He is concerned about the amount of money the City has had to contribute to the pension plan. He liked

that both applicants were Certified Public Accountants.

Mayor Pruette stated she has known Mr. Linger for over 20 years and she highly recommended him.

Councilor Weldon stated he shares office space with Mr. Linger and he had encouraged him to submit his application to serve on the Board. He felt the City was lucky to have such a qualified candidate volunteer his service for this Board.

Councilor Tucker stated she knew both candidates and felt they both were qualified to serve on the Board. She felt Council should go ahead and appoint Mr. Linger to the Board.

Consensus: **FORWARD TO THE SEPTEMBER REGULAR MEETING.**

Finding of
Facts

FINDING OF FACTS: Councilor Weldon stated it was no longer a State requirement that board members use a "finding of facts" sheet when deciding whether or not to approve variance applications. He was concerned the finding of facts sheet would create too great of a workload for the new Community Development Board. He did feel it was important for board members to understand the guidelines to measure each application and suggested maybe the seven findings of facts be reviewed at the beginning of each meeting.

Mayor Pruette stated years ago the Board of Appeals only made recommendations to the Council for variance approvals and the Council only heard appeals based on decisions. She reviewed all the comments on the seven findings of facts for each variance appeal and felt it was helpful to know the insight for each board member's reasoning.

Vice Mayor Lee felt the finding of facts helped board members participate and stay focused.

Councilor Tucker felt the new board should be required to fill out the finding of facts. She also felt it was helpful and provided documentation for legal issues.

City Attorney White advised there is no legal mandate for cities to require findings of facts. The city does have to keep records on basis of the board's decisions on developments orders, variances, and exceptions. If the finding of facts is eliminated the city will run the risk of not providing evidence to back up board decisions.

Councilor Lee felt there should be a documentation process. He suggested getting feedback from board members.

Councilor Weldon stated there is a verbatim record of the board discussion on all appeals. He felt as long as the board was discussing the finding of facts the city would have evidence of how each member based their decision.

Mayor Pruette stated she would like to keep the finding of facts.

Councilor Weldon explained he was not suggesting eliminating the finding of facts. He would like to find a more efficient way other than requiring that each board member fill out a finding of facts sheet. He felt that was a lot of paperwork and may deter board volunteers.

City Attorney White suggested obtaining input from the board members regarding their opinion of keeping or eliminating the finding of facts.

Mayor Pruette stated the comments on the findings of facts were very helpful.

Richard Keene, Planning & Development Review Board Member, stated Section 27-147 required each board member to have a positive decision on each of the seven findings of facts if they were going to approve a variance. If a board member did not choose "yes" for each of the seven findings of fact the board member was required to deny the variance request application. The staff added a column to the sheet asking each member to provide a written statement on each finding. He felt the procedure could be simplified by eliminating the necessary written comments.

Mr. Keene stated he was a past Chairman of the Code Enforcement Board. He felt a Magistrate would increase situations where an attorney would be required to defend the city.

Mr. Keene questioned if the Council would have final decisions on all cases before the Community Development Board including both development orders and variances.

Mayor Pruette asked if the Planning & Development Review Board would be reviewing the ordinance to combine the boards at this month's meeting. City Clerk Volpe replied it was on the boards agenda to review the ordinance.

Councilor Weldon stated the Community Development Board Ordinance would have a distinction between commercial development orders which were only recommended to Council for approval and residential variances that would be approved at the board level and forwarded to Council only on appeal.

Mayor Pruette asked that Community Development Director Askew attend the next meeting to respond to questions regarding the Ordinance.

Consensus: **TO HAVE A WORKSHOP MEETING BEGINNING AT 5:15 P.M. BEFORE THE REGULAR SEPTEMBER MEETING TO REVIEW THIS ORDINANCE.**

Budget FY
2010-2011

BUDGET FY 2010-2011: Finance Director Steve Ramsey explained the budget was prepared based on the roll back rate of 3.1826 mills. This amounts to the same revenue received FY 2009-2010. The General Fund budget shows a decrease in expenditures of 1.06% for the fifth year.

The budget provided no salary increases for employees for the third year in a row. The employees have actually had a decrease of 3% with the cost of living expenses factored. In addition to no salary increases employee benefits have also been decreased this year for the second year in a row.

City Manager Jarboe stated the General Fund budget has decreased for the last five years in a row. Grants for Public Safety and Public Services have saved the city money.

Mayor Pruette stated the revenue was decreased by \$87,598. Finance Director Ramsey added the numbers were conservative based on the state projections. However, the state did not consider the effects of the oil spill when determining the amount we would receive.

Mayor Pruette stated the city may be required to pay tipping fees for solid waste to the City of Jacksonville next year and they would also be reviewing and possibly making changes to the Interlocal Agreement. She felt the City should put extra money in the City Attorney budget to cover his legal fees for having to negotiate with the City of Jacksonville on the Interlocal Agreement.

Mayor Pruette stated most of the percentage of Neptune Beach property taxes went to the City of Jacksonville. The City of Jacksonville receives 37.3% of the tax dollars whereas the City of Neptune Beach only receives 17%. She added that the City of Jacksonville did not provide Neptune Beach with Public Services, Public Safety or Animal Control. She asked City Manager Jarboe to compare these cost based on the City of Jacksonville providing these services for Neptune Beach.

Vice Mayor Lee explained to the audience that each Council member had met individually with the City Manager and Finance Director to go over the budget prior to the meeting. He thanked them for taking a conservative approach by using the roll back rate. He asked Finance Director Ramsey if it was correct that no employee has received a raise in the past three years. Mr. Ramsey replied that was correct.

Vice Mayor Lee stated the employee health insurance was reviewed the last two years and the total benefit compensation for each employee has decreased. Mr. Ramsey replied that was correct.

Vice Mayor Lee stated staff has been reduced by 15 to 16% in the past four years. Mr. Ramsey replied that was correct.

Vice Mayor Lee asked Finance Director Ramsey if he felt Neptune Beach has hit bottom for assessed value or if they would go lower. Mr. Ramsey replied it was possible the assessed property values could decrease in the next year or two.

Vice Mayor Lee asked if the millage rate for Neptune Beach was higher or lower than the neighboring beach cities. Mr. Ramsey replied it was less than Jacksonville Beach and possibly a little higher than Atlantic Beach. City Manager Jarboe stated the City of Atlantic Beach may raise the millage rate to the roll back rate which would make there millage rate higher than ours.

Vice Mayor Lee questioned if the stormwater and sanitation fees were still being supplemented by the General Fund. Mr. Ramsey replied the Council took action to raise the stormwater and sanitation fees to make those two funds whole and they were no longer being supplemented by the general fund.

City Manager Jarboe voiced concern regarding businesses sharing dumpsters and beginning to use trash compactors. He felt this would lower revenue for the city. Finance Director Ramsey added tipping fees would be a major expense if required next year by the City of Jacksonville.

Councilor Tucker felt the city should be thankful the employees were willing to work with city lowering benefits and not giving them salary or cost of living increases for the past three years. She agreed the additional money needed to be placed in the City Attorney budget for legal fees connected with the City of Jacksonville Interlocal Agreement. She added it was great that city departments continued to apply and use grant money.

Finance Director Ramsey stated the Public Safety Department has received grants for new vehicles. The Public Services Department has not received a new vehicle in the past three years and they would be needed one in the near future.

City Manager Jarboe stated the first meeting on the budget was scheduled to be held on September 7th and the second was scheduled for September 20th.

Consensus: **TO HOLD THE FIRST BUDGET MEETING ON SEPTEMBER 7TH**

AND THE SECOND BUDGET MEETING ON SEPTEMBER 20TH.**COUNCIL COMMENTS**

Councilor Weldon stated there were just as many if not more people opposed to having to boats and recreational vehicles parked on properties as there were people who would like to parked on their property. He asked Council not to fall prey to the objections regarding parking of boats and recreational vehicles on residential properties. He felt this was an essential part of making neighborhoods livable for everyone.

Mayor Pruette stated she was happy the city was working with the property owners regarding parking of boats and recreational vehicles by allowing them time to seek other options.

Councilor Weldon felt complainants should not have to be named. He could understand why neighbors in conflict with another neighbor would not want to be identified.

City Manager Jarboe stated parking boats and recreational vehicles visibly on residential properties lowered property values in the neighborhood.

Mayor Pruette stated several years ago Council was receiving e-mails and letters anonymously. Councilor Weldon stated the City Attorney advised the letters and e-mails did not have to be signed.

Councilor Tucker stated she would be attending the Florida League of Cities conference in Hollywood, Florida next week. She would be using her personal money.

Councilor Weldon stated historically the city paid for all members of the Council to attend the annual Florida League of Cities Conference. The city has given that up as a cost saving measure and he apologized that Councilor Tucker had to pay for this herself.

Mayor Pruette stated the city also used to pay to better educate the board members.

Adjournment There being no further business, the meeting adjourned at 7:50 pm.

Call

Mayor Pruette called the meeting to order at 6:00 p.m.

Water and Sewer
Rates

WATER AND SEWER RATES: City Manager Jarboe stated there were two choices for water and sewer rate increases. Plan 1 would increase 20% in the first year and then small amounts for the rest and Plan 2 would increase approximately 7% each year.

Each councilor felt that it would be better to increase at a lower rate each year than to have one large increase in the first year.

Consensus: **FORWARD TO 2010-15 PLAN 2 THE FOLLOWING AGENDA.**

Town Center
Holiday
Decorations

TOWN CENTER HOLIDAY DECORATIONS: City Manager Jarboe stated the town center agency had \$50,000 to buy more holiday decorations. This money would be given to the city for the city to purchase the items. The agency hoped to make Town Center a holiday destination for shoppers and diners.

Consensus: **FORWARD TO THE FOLLOWING CONSENT AGENDA**

EXPIRATION OF CONCURRENCY CERTIFICATE. AND SEC. 27-363. PROCEDURE FOR APPEAL. AND SEC. 27-407. ESTABLISHMENT OF SPECIAL FLOOD HAZARD DISTRICTS, COASTAL HIGH HAZARD DISTRICTS, AND SHALLOW FLOODING DISTRICTS. AND SEC. 27-413. PROCEDURE FOR APPEAL. AND SEC. 27-446. PERMIT APPLICATION PROCEDURES. AND SEC. 27-448. CHAMPION AND HERITAGE TREES. AND SEC. 27-449. TREE PRESERVATION DURING DEVELOPMENT AND CONSTRUCTION. AND SEC. 27-453. PROCEDURE FOR APPEAL. AND SEC. 27-457. LANDSCAPING REQUIREMENTS FOR VEHICULAR USE AREAS. AND SEC. 27-476. STREET DESIGN STANDARDS. AND SEC. 27-538. EXEMPTIONS. AND SEC. 27-539. SUBMISSION OF PLANS. AND SEC. 27-540. OFF-STREET PARKING REQUIREMENTS. AND SEC. 27-544. MOTORCYCLE PARKING REQUIREMENTS. AND SEC. 27-545. DEFERRAL OF PARKING REQUIREMENTS. AND SEC. 27-546. REDUCTION FOR MIXED OR JOINT USE OF PARKING SPACES. AND SEC. 27-547. SPACES REQUIRED FOR OFF-STREET LOADING. AND SEC. 27-548. DESIGN STANDARDS FOR OFF-STREET PARKING AND LOADING AREAS. AND SEC. 27-596. ART PROJECT. AND SEC. 27-609. PROCEDURE FOR APPEAL. AND SEC. 27-626. DEFINITIONS. AND SEC. 27-627. APPLICATION REQUIREMENTS FOR NOMINATION. AND SEC. 27-628. PROCEDURE FOR DESIGNATING A LANDMARK AND HISTORIC DISTRICT. AND SEC. 27-629. CONDITIONS FOR NOT DESIGNATING A NOMINATED LANDMARK OR HISTORIC DISTRICT. AND SEC. 27-633. IDENTIFICATION OF

LANDMARKS AND HISTORIC DISTRICTS. AND SEC. 27-635. EXCEPTIONS. AND SEC. 27-636. APPLICATION REQUIREMENTS FOR CERTIFICATE OF APPROPRIATENESS. AND SEC. 27-637. PROCEDURE FOR APPLYING FOR AND ISSUING A CERTIFICATE OF APPROPRIATENESS. AND SEC. 27-642. PROCEDURE FOR APPEAL. AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance combined the Planning and Development Review Board and the Board of Appeals into one board to do both functions.

Mayor Pruette read Ordinance No. 2010-14 by title only and asked if any one had any comments.

There were no comments from the public.

Councilor Weldon asked the City Council to consider removing the finding of facts in this ordinance. City Manager Jarboe stated that would need to be put in a different ordinance. Council decided to workshop this issue.

Mayor Pruette felt, with the new board, an extra alternate would be a good idea. This could also be discussed at the workshop.

Moved by Pardee, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2010-14 ON FIRST READ.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Ord. No. 2010-15

ORDINANCE NO. 2010-15, INCREASING WATER AND SEWER RATES, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA CHAPTER 23 UTILITIES ARTICLE IV WATER AND SEWER SERVICE CHARGES SECTION 23-84(B), (C) AND (D) TO INCREASE WATER RATES AND AMENDING SECTION 23-85(A), (B) AND (C) TO INCREASE SEWER RATES; AND ESTABLISHING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance raised the water and sewer rates according to Plan 2 which raised them by approximately 7% each year.

Moved by Weldon, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2010-15 ON FIRST READ.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

OLD BUSINESS

Waste Pro

WASTE PRO CONTRACT: City Manager Jarboe stated this would eliminate side yard pick up but the garbage contractor wanted a five year commitment.

Councilor Weldon stated he was not prepared to give them a five year extension. Councilor Pardee felt it would be a good idea to lock in the next five years at today's prices.

Consensus: **TO WORKSHOP THE ENTIRE CONTRACT AT THE NEXT WORKSHOP MEETING.**

NEW BUSINESS

PDRB10-05
327 Atlantic Blvd.

PDRB10-05 – NEPTUNE PLAZA LLC 327 ATLANTIC BLVD. STARBUCKS APPLICATION FOR COVERED TERRACE: City Manager Jarboe stated this would add a covered canopy to the outdoor dining.

Councilor Weldon questioned Stanley Hill, representative for Starbucks whether they intended to enclose the entire area in the future. He said they probably would in the future.

Councilor Pardee reminded them to keep the area clean.

Moved by Weldon, seconded by Lee.

Motion: **TO APPROVE PDRB10-05 AS THE PLANNING BOARD RECOMMENDED.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

COUNCIL COMMENTS

Councilor Pardee had forwarded an email to the City Clerk requesting she pull up blogs and Mayor Pruette asked Councilor Pardee to consider staff time and copying costs when forwarding blogs to the City Clerk's office. She felt that was more of a personal preference if someone chose to read them.

Adjournment

There being no further business, the meeting adjourned at 6:45 p.m.

Harriet Pruette, Mayor

ATTEST:

Lisa Volpe, CMC, City Clerk

Approved:

**MINUTES
WORKSHOP CITY COUNCIL MEETING
JULY 19, 2010, AT 6:00 P.M.
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held July 19, 2010 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
Councilor John Weldon
City Attorney Chris White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Public Safety David Sembach
Community Development Director Amanda Askew
Director of Finance Steve Ramsey
Director of Public Services Leon Smith

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

FMIT

TOM CONLEY – FLORIDA MUNICIPAL INSURANCE TRUST: Mr. Tom Conley stated he was present only to thank the city for purchasing insurance through Florida Municipal Insurance Trust. He explained Florida Municipal Insurance Trust was a non-profit insurance trust administered by the Florida League of Cities. They return money to cities if no major storms occur during the year and they would be sending a check to Neptune Beach for approximately \$26,000 this year. City Manager Jarboe asked Mr. Conley how much money they returned to the City last year. Mr. Conley replied they refunded the City \$23,000 last year.

Councilor Weldon asked if they only provided property damage insurance. Mr. Conley replied they also provided general liability for public officials, police liability, auto, property, medical and workers compensation.

**Water & Sewer
Rate Study**

BURTON & ASSOCIATES – WATER & SEWER RATE STUDY: City Manager Jarboe stated a representative from Burton and Associates was here to give a presentation on the Water & Sewer Rate Study.

Mr. Andy Burnham, Senior Vice President & Project Manager explained the last time the water and sewer rate study was conducted was in 2007. At that time the Council adopted a three year rate adjustment the last of which was effective this current fiscal year.

The purpose of the rate study was to evaluate the financial status and performance of the water and sewer enterprise fund. The objective was to develop a financial management plan that would; 1) satisfy operating and capital cost requirements, 2) ensure financial solvency and regulatory compliance, 3) Establish and maintain adequate operating reserves, and 4) minimize rate increases to customers.

He estimated the cost of capital improvement requirements from 2010 to 2020 would amount to \$8.9 million dollars. This included the following:

- Nitrogen removal solution - \$1.9 million
- Future sewer line replacement – \$2.6 million
- Future water line replacement - \$1.9 million
- Other infrastructure, sewer and reuse projects - \$0.8 million
- Renewal, replacement, and rehabilitation projects - \$1.7 million

He explained there was a negative operating reserve balance at the end of fiscal year 2009 of \$660,000. The City should have a target balance of \$480,000 to cover three months of operating and maintenance expenses. The City is currently \$1.1 to \$1.2 million dollars from where it should be on an operating reserve point.

He stated water consumption has declined due to the current economic conditions, conservation awareness and other factors. This resulted in reduced revenues of an estimated \$2.8 million.

The goals of the study were to establish and maintain operating reserves equal to three months of operating and maintenance by fiscal year 2014, fund the capital improvement plan and develop a plan of annual rate adjustments.

He presented the following rate adjustment plans to the Council:

1. Plan 1: A one-time rate adjustment of 20.5% in fiscal year 2011 followed by inflationary adjustments of 2.5% beginning fiscal year 2012 through fiscal year 2015.
2. Plan 2: A level multi-year plan of adjustments – increasing the rate 7.8% in 2011, 7.8% in 2012, 7.9% in 2013, 7.9% in 2014 and 2.5% in 2015.

The conclusions were that the current rates did not meet certain critical financial requirements and without the rate adjustments the reserve balance would become increasing negative and the City would be in default of the State Revolving Loan Agreement.

The recommendation was to implement either of the two plans of annual rate adjustments and to update the revenue sufficiency analysis annually to verify or modify rate adjustments plan based upon economic conditions.

Mayor Pruette stated the previous auditors had noted the water and sewer funds were deteriorating. She asked Council if they had any questions or comments.

Councilor Tucker commented that she would like to see a comparison of water rates to other similar cities.

Councilor Weldon asked Mr. Burnham if they had any samples of similar size communities in Florida that were charging similar rates. Mr. Burnham replied the rate adjustment plans were comparable to other small communities.

Vice Mayor Lee stated the reserve funds were in the negative before the previous water and sewer rate study and those three rate adjustments were going to build up the three months of operating reserves. He questioned if the decrease in consumption was why the reserves were still negative. Mr. Burnham responded that was correct in addition to the unoccupied homes and commercial buildings. Vice Mayor Lee questioned if the operation of the water and sewer system was efficient. Mr. Burnham replied the operating cost have been reduced and the reduction in water usage was the sole cause of the revenue difference.

Councilor Pardee clarified the operating reserve funds were used in case of emergencies. Mr. Burnham replied the reserves were intended for liquidity purposes, monthly variances and cash flow due to weather patterns and seasonal demands also the timing of writing checks verses when the revenue was received. The reserves are also used for unanticipated operating expenses associated with a natural disaster. Councilor Pardee asked how much the City was short on reserves. Mr. Burnham replied the reserve funds were a negative \$700,000. Councilor Pardee asked if he was correct in the explanation that Plan 1 would increase the reserves by 2012 and Plan 2 would increase the reserves by 2014. Mr. Burnham responded under Plan 2 the reserves would break even at a zero reserve.

Mayor Pruette added if the water consumption changed and people started using more water the reserves could increase faster. She also said that once people got used to conserving they would continue to conserve. Mr. Burnham stated if that was to happen the City could evaluate the rate adjustment plan.

Mayor Pruette thanked Mr. Burnham for an excellent presentation and asked Council if they wanted to forward the water and sewer rate adjustment to the August workshop meeting.

City Manager Jarboe stated an Ordinance would need to be prepared in order to adjust the water and sewer rates. The Ordinance would require two readings and a public hearing to notify the rate payers. Mr. Burnham added the process would need to be started at least 30 in advance of the public hearing.

Mayor Pruette stated she would call a Special Meeting prior to the regular August meeting for discussion.

Consensus: **FORWARD TO A SPECIAL MEETING PRIOR TO THE REGULAR AUGUST MEETING.**

FIND Island

JOHN DAVIS – JTA – F.I.N.D. MITIGATION SITE SCHEDULE: Mr. John Davis distributed copies of the Mitigation Site Schedule to Council. The schedule is as follows:

- June 15, 2010 – SJRWMD and ACOE permit applications submitted
- July 20, 2010 – Release Request for Proposals (RFP) for spoil material removal
- September 2010 – Receive Technical Proposals for spoil removal
- January 2011 – Receive SJRWMD and ACOE permit approvals
- February 2011 – Receive Price Proposal for spoil removal
- February 2011 – Award contract for spoil removal

- March 2011 – Execute contract for spoil removal
- April – July 2011 – Removal of spoil

Council members thanked Mr. Davis for the update and his efforts to assist.

Beaches Trolley

Mayor Pruette presented a contribution check for \$1,000 to Mr. Mike Miller, JTA, for the operation of the Beaches Trolley. Mr. Miller thanked Council for the contribution. He added this was the third year of the Trolley operation and he hoped it lasted for many more.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- We received a Green Grant for \$57,000 to use towards making the City Hall green. He did not have permission to expend the funds from the Green Grant yet. The City also received a grant for approximately \$3,700 to use towards the purchase of a green vehicle. There was also approximately \$15,000 to use towards an energy audit.
- He would provide Council a copy of the preliminary budget before the end of the week.
- He will propose a property tax in the near future.
- The new Publix Shopping Center should be completed the second week of August.
- Public Services has completed the sewer crossover ditch at Fletcher High School.

PUBLIC COMMENTS

Cynthia Key, 225 Myra Street, voiced concern regarding a major dirt issue with the properties that abutted hers. She asked the Council if they could help her with the problem. City Manager Jarboe responded the City could not require the property owners to do anything.

Lynda Padrta, 1113 First Street, stated the water and sewer rate study was great adding that the reduction in water usage has a far more impact than only Neptune Beach. She was concerned about combining the Board of Appeals and the Planning & Development Review Board because of the differences in responsibilities. She did not see how the City would save money by having a Magistrate in lieu of the Code Enforcement Board.

PROCEDURE FOR APPLYING FOR AND ISSUING A CERTIFICATE OF APPROPRIATENESS. AND SEC. 27-642. PROCEDURE FOR APPEAL. AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette asked Community Development Director Amanda Askew to come forward to respond to questions from the Council.

Councilor Pardee asked if there were changes to the Ordinance other than only the names of the Board.

Community Development Director Askew replied the function of the Board of the Appeals and the Planning & Development Review Board will remain the same with the new Community Development Board. She also changed that plans be submitted to the Building Department or Community Development Director instead of to the Building Official.

Councilor Pardee was concerned combining the Boards may extend the length of the meetings. Mrs. Askew stated it would not because there was usually only one item on the agenda. She added that there was an item for a Board of Appeals meeting this month but it had to be postponed due to lack of a quorum.

Vice Mayor Lee questioned how much money it would save the city to combine the Boards. City Manager Jarboe stated a memo was previously sent out to the Council explaining the City would save approximately \$3,900 per year. City Clerk Volpe stated the savings would be in advertising and staff cost.

Councilor Weldon added that in addition to cost saving this would also create a larger pool of qualified citizens willing to volunteer. The Community Development Board would approve residential variance requests and recommend approval or denial to Council regarding commercial developments, variances and special exceptions.

Councilor Weldon asked how the findings of facts would be used. Mrs. Askew replied the Code reads that the Board of the Appeals and the Planning & Development Review Board must complete the findings of facts for variance request. However, the Council is not required to complete the findings of facts. Council would still be required to review the recommendations of the Community Development Board for commercial variances, development orders and special exceptions.

Councilor Weldon felt combining the Boards would save the City a reasonable amount of money, streamline the process for applicants, and allow for a larger pool of volunteers qualified to serve on the Board.

Councilor Tucker stated she supported combining the Boards. She questioned how many members would serve on the Board. Mrs. Askew replied there would be 7 regular members and 2 alternate members.

Mayor Pruette felt the Board members needed more training and the city could not afford it.

Vice Mayor Lee asked how many members there were currently serving on both boards. City Clerk Volpe replied the Board of Appeals currently had 5 regular members and one alternate. The Planning & Development Review Board has 2 regular members that would be termed out by the end of this year.

City Clerk Volpe suggested keeping the regular members currently serving until their terms expired.

Vice Mayor Lee asked Mrs. Askew to find out which members wished to serve on the new Board and work out the details. Mayor Pruette stated she was the one that placed members on the Board and she would get with Mrs. Askew.

Mayor Pruette stated she appreciated all the Board volunteers. She felt the City had to look at every way to save money and this was one way the city could save money.

Consensus: **FORWARD TO THE AUGUST REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

CEB

CODE ENFORCEMENT MAGISTRATE: Councilor Pardee stated he liked having a Code Enforcement Board because it allowed citizens of the community to participate in code enforcement issues within the community. He felt a Special Magistrate would not have the same community involvement. He also did not see how this would save the city money because a Special Magistrate would be paid \$175.00. He asked to see a cost comparison.

Vice Mayor Lee agreed with Councilor Pardee that he would like to see a cost comparison. He was also concerned that a special magistrate would delay the process.

Councilor Tucker also agreed she would like to see a cost comparison. She voiced concern regarding the Code Enforcement Board being composed of citizens was controversial because it pitted neighbors against neighbors.

Mayor Pruette added that it is hard for some citizens to look a neighbor in the eye and tell them you are going to fine them.

Councilor Weldon stated the Code Enforcement Board had a history of being inconsistent making legally damaging decisions. He added that many of the citizens serving on the board did not have the training to apply the law consistently. He felt the board also had a history of trying to moderate what the Council has dictated in the Code. He felt there was no other consistent way to enforce the Code than using a Special Magistrate who is removed from the community and would apply the Code as it is written. He added the Jacksonville Beach has been very satisfied using a Special Magistrate.

Mayor Pruette stated it was easier to get members to volunteer for the Code Enforcement Board than any of the other boards. She would also like to see a cost saving comparison.

City Manager Jarboe stated a Special Magistrate would cost more money.

Consensus: **GET A COST ANALYSIS AND FORWARD TO THE AUGUST WORKSHOP MEETING.**

PORF

POLICE OFFICERS RETIRMENT FUND BOARD: Mayor Pruette stated the Council appointed two of the members to this five member board and those members had to live in the City. One of those appointees, Mr. Donald Padgett was forced to resign because he moved out of the city and the Council needed to appoint another member.

Assistant Chief Tony Carrillo, Chairman of the Police Officers Retirement Fund Board, stated Don Padgett was no longer interested in serving on the board and the Council needed to appoint a new member.

Mayor Pruette stated the appointment should be a person with a background in insurance, an attorney, or a CPA. She asked Council to let her know if they knew anyone in the community that would be interested in serving on the Board. The next PORF Board meeting was in August.

Vice Mayor Lee asked if there was job description for the board members. Mr. Carrillo replied the board made decisions based on advice from the Board's attorney and financial advisors. City Clerk Volpe responded the Code of Ordinances describes the duties of the Board.

Mayor Pruette read the following aloud from the May 20, 2010, PORF Board meeting: "actually they have to approve it. They don't even have to say. They have to rubber stamp it. So right, the City does not take action on that, but they can't say we don't like your choice. They have to appoint him to the Board. The other two are their appointments and they appoint anybody who lives in the City". She asked Assistant Chief Carrillo to pass the following information to Mr. Christian: We want to work together with the Board in a collective way, because it is an important issue we want the right person that will help the city. This Council does not rubber stamp anybody. We never have.

Hurricane
Preparedness

HURRICANE PREPAREDNESS INFORMATION: City Manager Jarboe explained Director of Public Safety, Chief Sembach acts as the City's coordinator for civil defense as well as disaster related activities.

Chief Sembach explained there were some changes in hurricane forecasting this year. Forecasting has become more precise. They are able to predict landfall much better. Also instead of 36 hours notice for a hurricane watch we now have 48 hours. Also instead of 24 hours for a hurricane warning we now have 36. This gives us an extra 12 hours to prepare. The ability to narrow the point of landfall which means fewer people will have to be evacuated. They also changed the S? Simpson Hurricane Scale so that the storm surge and the category number are separate.

If the City were to get hit with a category 2 or category 3 hurricane the barrier island would be underwater and a mandatory evacuation would be required. The mandatory evacuation would be a strong recommendation, however, they could not force people to evacuate.

The beaches will work as a team and evacuees will not be able to re-enter the barrier island until all three beaches were deemed safe. He would be working with together with the county at the emergency operation center with Mayor Pruette as the representative for the City. Duval County will have four complexes set up and one of those will be at the beach.

The department spent \$10,000 of stimulus money this year on hurricane supplies and equipment. They now have 60 portable stop signs, two large generators, air compressors, helmets and gloves and they are well prepared for a natural disaster.

Mayor Pruette stated she went to a hurricane preparedness workshop a few weeks ago and she was informed that citizens would be able to reenter the barrier island by showing a drivers license with a current beach address. She was also learned that no one could reenter until all three beach cities were safe.

City Manager Jarboe added that all requisition request go through the State to FEMA then back down to the County level.

Mayor Pruette stated she also learned FEMA would purchase an entire gas station to provide gas for city vehicles. Chief Sembach replied they would requisition tanker trucks and drive them to Neptune Beach, that was part of the master plan.

Councilor Tucker asked if the Chief needed any information from the Council regarding their whereabouts after evacuation. Chief Sembach stated the Council could evacuate to where ever they wanted but Mayor Pruette had to go the emergency operations center downtown.

Chief Sembach added there would be a hotel available for city employees to evacuate to.

Local Mitigation

RESOLUTION 2010-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH CITY COUNCIL ACCEPTING THE LOCAL HAZARD MITIGATION STRATEGY DOCUMENT.

This is a revised edition of a previously adopted Resolution that allows the City to be eligible for funding for reimbursement from FEMA.

Consensus: **FORWARD TO THE AUGUST CONSENT AGENDA.**

Sewer Impr. Loan

LOAN FOR SEWER IMPROVEMENTS UP TO 2.4 MILLION: City Manager Jarboe stated this would allow him to request proposals for the loan for the nitrogen, retrofit of the sewer plant, and the reuse project. The additional over the 1.9 million would be for contingencies as recommended by the engineer.

Vice Mayor Lee asked if the interest would decrease with the principal when half of the loan was paid back. Finance Director Steve Ramsey replied as the principal amount decreases the interest payment will also decrease.

Vice Mayor Lee asked if there would be penalty to transfer the loan to a State Revolving Fund. Mr. Ramsey replied "no" that was one of the conditions that would be placed on the loan.

COUNCIL COMMENTS

Councilor Weldon asked when the elimination of side yard pick-up would be effective. City Manager Jarboe explained he was still negotiating with Waste Pro and would have the final details for the next workshop meeting. Councilor Weldon stated there needed to be at least one month notice to residents. City Manager Jarboe replied the alert system, website, and door hangers would be used to notify residents.

Adjournment

There being no further business, the meeting adjourned at 8:00 pm.

Director of Public Services Leon Smith

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 5:30 p.m.

TMDL

TMDL – IMPROVEMENTS – BIDS: City Manager Jarboe stated this project would reduce the nitrogen entering the Intracoastal. This is an unfunded State mandate. There were a total of four bids submitted. The low bidder was WPC, Industrial Contractors. City Attorney White has reviewed the contract and recommended approval.

Councilor Weldon asked Michael Hershey, engineer for the project to address the Council regarding the four bids that were received. Councilor Weldon also questioned if WPC, Industrial Contractors were responsible.

Michael Hershey, P.E. Vice President, Applied Technology & Management, explained he worked with WPC on two previous projects and both projects turned out well. Mr. Hershey added WPC was short for Water Processing Company.

Councilor Weldon questioned if Mr. Hershey was confident WPC would execute the contract without additional change orders. Mr. Hershey stated he could not guarantee there would not be any change orders. He suggested the City create a contingency allowance to cover any change orders that may arise.

Councilor Weldon asked Mr. Hershey if he was confident that all four of the bidders bid on the same specifications. Mr. Hershey replied all the bids were within ten to

fifteen percent which is an indication that the bidders all had a fairly common understanding of the project would entail.

Councilor Weldon asked Mr. Hershey if he was confident the new technology would work and if the contractor would guarantee the work.. Mr. Hershey responded the contractors and the equipment manufactures would stand behind the project. He was confident the project would exceed the expectations required by the Department of Environmental Protection.

Councilor Weldon was concerned because Jacksonville Beach and Atlantic Beach were building new sewer plants verses this new technology. Mr. Hershey replied he was looking forward to doing a comparison of the total cost for the beach cities. He felt the City would be pleasantly surprised at the cost savings.

Mayor Pruette was concerned about rainfall overflow. Mr. Hershey replied the package plant would be kept in service as backup to supplement the treatment of the new system.

Councilor Weldon asked City Attorney White if he was comfortable with the contract. City Attorney White responded he was comfortable with the contract.

Consensus: **FORWARD TO THE FOLLOWING CONSENT AGENDA.**

Employee
Insurance

EMPLOYEE HEALTH INSURANCE: City Manager Jarboe explained the cost of employee health insurance for the same program as last year increased 30%. The new plan offered by Avmed would not increase costs for the City but would increase deductibles and the maximum out of pocket amount for employees. The new plan includes three options for employees to choose from. There was a base plan a buy up plan and a premium plan.

Consensus: **FORWARD TO THE FOLLOWING CONSENT AGENDA**

Waste Pro

WASTE PRO CONTRACT – SIDE YARD PICK – UP: City Manager Jarboe stated he was in the process of negotiating the possibility of eliminating side yard pick up. This would save the City approximately \$80,000. The savings would be placed in reserves to help offset the landfill tipping fees that may be required next year by the City of Jacksonville. He would need Council approve to negotiate a new contract.

Mayor Pruette asked when the Waste Pro contract expired. City Manager Jarboe replied the contract expired next year and we had the option to continue the contract or receive bids from other companies.

Mayor Pruette questioned how Waste Pro would assist the city in reemphasizing the importance of recycling to residents. She questioned if all the recycling material was properly disposed of or if some was taken to the dump, which would add more weight going into the landfill and therefore adding to the tipping fee charges. City Manager Jarboe explained Waste Pro would assist the city in a recycling promotion and education program that would increase participation in curbside recycling which would help decrease the volume of waste entering the landfill. Mayor Pruette asked if the tipping fees were based on weight. City Manager Jarboe responded the tipping fees would be based on poundage.

Councilor Pardee asked if there was a plan to notify the residents of the elimination of side yard pick up. City Manager Jarboe explained residents would be notified by the phone alert system, the website, newspaper, and door hangers. The change will not affect elderly and handicap residents.

Vice Mayor Lee asked if there would still be two day week pick up. City Manager Jarboe replied the two day a week pick up would remain in place.

Vice Mayor Lee asked City Manager Jarboe to try to negotiate a better contract with Waste Pro. He wanted the citizens to be aware the City was being proactive and that the money saved would be put into a reserve fund to help offset the cost of the future tipping fees.

Councilor Weldon was concerned that eliminating the curb side service would make residents believe that the rate would be decreased which is not the case.

City Manager Jarboe explained with Council approval the savings would be placed in the budget under a special reserve fund for sanitation.

Councilor Weldon encouraged the City maintain the twice a week trash collection in the future.

Councilor Tucker stated she supported eliminating the side yard trash pickup.

Consensus: **FORWARD TO THE FOLLOWING CONSENT AGENDA.**

St. Johns River

2010 LOWER ST. JOHNS RIVER TRIBUTARIES BASIN MANAGEMENT ACTION PLAN II: City Manager Jarboe explained this is an agreement dealing with cleaning the fecal matter and nitrogen gas entering Hopkins Creek. Council previously authorized \$25,000 in the budget to monitor the fecal matter in the creek.

Vice Mayor Lee asked if this cost would be shared with residents. City Manager Jarboe stated the property owners using septic tanks would be responsible. He hoped a grant would cover half the cost.

Vice Mayor Lee asked how many septic tanks were in the City. City Manager Jarboe replied there were approximately 60 that were still located in the City.

Consensus: **FORWARD TO THE FOLLOWING CONSENT AGENDA.**

Budget Meetings

City Manager Jarboe stated the first budget hearing was scheduled for Tuesday, September 7th and second hearing was scheduled for Monday, September 20th.

Adjournment

There being no further business, the meeting adjourned at 6:15 pm.

COMMUNICATIONS AND CORRESPONDENCE

July 4th Celebration Mayor Pruette asked Chief Sembach to report on the July 4th Holiday activities. Chief Sembach explained the activities in the city this past 4th of July has improved. The Jacksonville Sherriff's Office supplied 5 horses, 6 patrol officers and 1 sergeant. There was one big party on the 400 block of Lora Street and there was about 400 people in the street. They only had to make five arrests. There were five loud party citations issued. There was only one fight, four thefts and no house burglaries were reported.

Councilor Tucker brought up an e-mail regarding the JSO horses defecating on the beach. City Manager Jarboe stated that was a minor issue and the issue will be part of the planning for next year.

Mayor Pruette thanked Councilor Tucker for calling JTA regarding a complaint from a citizen about a bus going off route and dropping an inebriated person into a residential neighborhood.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- He has been in negotiations with the two unions.
- A 30 day notification is required for the draft permit for operation of the sewer plant.
- There was a concern regarding arsenic showing up in the fluid in the sewer plant that turned out to be a problem with the lab testing.
- The Village Inn and PJ's Sports Grill have closed.

Councilor Tucker stated Danail Durbec with Clean it up Green it Up Jacksonville, would be photographing her at the part of Florida Boulevard that she adopted on Monday, July 19th. If any other Council members would like to be included in the photo, they were welcome to come.

Mayor Pruette stated City Manager Jarboe would be giving information regarding the upcoming hurricane season at the next workshop meeting.

City Clerk Lisa Volpe stated the September Regular Meeting will be on Tuesday, September 7th, due to the Labor Day Holiday.

COMMENTS FROM THE PUBLIC / NONE**CONSENT AGENDA**

- JTA Beaches Trolley – \$1,000 Contribution

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- He will be forwarding a Resolution to the July regular meeting regarding funding from FDOT for maintenance on A1A from FDOT.
- The new Publix Super Market should be open by mid August.
- The Florida Department of Transportation continues to work on repaving Third Street and Atlantic Boulevard.
- Finance Director Steve Ramsey is coming into the office three half days per week.
- The State has not released the guidelines for the 2030 Plan.
- Starbucks has a development application for an overhang going before the Planning & Development Review Board.
- The in pipe technology is working extremely well.
- Public Services is working on the force main from Bal Harbour to the main on Florida Boulevard.
- Public Services is working on the sewer crossover near Fletcher high School.

be closed. She suggested moving the meeting to July 12, 2010.

Consensus: **TO HOLD THE JULY REGULAR MEETING ON MONDAY, JULY 12, 2010.**

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The 2nd Annual Beaches Challenge 5K Run and 2.5 K Walk, to benefit the Senior Activity Center, will be held Saturday, June 19, 2010 at 8:30 a.m.
- The contractor has been asked to clean up the debris along Third Street from the repaving.
- The new Publix would be opening within approximately six weeks.
- There has not been a final resolution between the property owners as to the construction of a roadway between the shopping centers.
- He would not be issuing any permits allowing bands on private properties during the 4th of July celebration.
- Finance Director Steve Ramsey is coming into the office twice a week and working from his home on 2010/2011 FY budget.

Vice Mayor Lee asked if the City had outlined a plan for cleaning up any oil that may wash ashore due to the oil spill in the Gulf of Mexico. City Manager Jarboe stated the Department of Environmental Protection had control over the situation. However, the city would be monitoring the beaches.

ORDINANCES

Ord. No. 2010-10

ORDINANCE NO. 2010-10, ADD DAY SPAS, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE I, IN GENERAL, SECTION 27-15, DEFINITIONS, ARTICLE IV, LAND USE, TABLE 27-226-1 PERMISSIBLE USE AND TABLE 27-540-1 OFF-STREET PARKING REQUIREMENTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance would allow upscale salons in the C-1 district by special exception.

Mayor Pruetto read the Ordinance by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Lee, seconded by Pardee.

Motion: **TO PASS ORDINANCE NO. 2010-10 ON FIRST READ AND PUBLIC HEARING.**

Councilor Weldon questioned if the parking requirements would be adequate. City Manager Jarboe explained the parking requirements for day spas were the same as shopping centers.

Councilor Pardee explained the applicant had informed him that there would be no overnight stays for medical procedures and procedures would be by appointment only.

Roll Call Vote;

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruetto

Noes: 0

Mayor Pruette stated she would sponsor the Ordinance.

MOTION CARRIED

Ord. No. 2010-11 **ORDINANCE NO. 2010-11, AMENDING ARTICLE IV. WATER AND SEWER CHARGES, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING ARTICLE IV. WATER AND SEWER CHARGES, SECTION 23-88 ADDITIONAL CHARGE FOR DELINQUENT PAYMENT, AND SECTION 23-89 NOTICE OF PROPOSED TERMINATION OF SERVICE; ADMINISTRATIVE HEARING; DISCONNECTING SERVICE OF FAILURE TO PAY CHARGES; RECONNECTING FEE; SECTION 23-90 IMPACT FEE REVENUE RESTRICTIONS AND SECTION 223-105 BILLING AND PAYMENT AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe stated this Ordinance would eliminate the requirement to send out second notices for water and sewer non payments.

Moved by Lee, seconded by Pardee.

Motion: **TO PASS ORDINANCE NO. 2010-11 ON FIRST READ.**

Vice Mayor Lee asked how many customers would be affected by the Ordinance. City Manager Jarboe stated this would affect about 100 to 200 customers per month which was approximately 7% of all utility accounts. This would save the city money in staff time.

Councilor Weldon stated this was an issue regarding the level of service provided by the city and historically customers were given a second notice before their water and sewer was cut off. He wanted to debate the issue.

Mayor Pruette stated the Ordinance would be forwarded to the June workshop meeting for further discussion before the second read.

Councilor Weldon protested not being able to discuss the Ordinance at a regular meeting.

MOTION CARRIED

Councilor Weldon stated the grant to replace these vehicles came with the requirement that the Public Safety Department pursue more aggressive DWI enforcement. City Manager Jarboe stated he would have that placed in the Cast-a-Line Newsletter.

Movies in the Park **MOVIES IN THE PARK:** City Manager Jarboe explained the Resurrection Anglican Church has requested permission to show movies in Jarboe Park. He was not in favor of allowing the showing of the movies in the park due to noise ordinance concerns.

Moved by Pardee, seconded by Lee.

Motion: **TO APPROVE THE MOVIES IN THE JARBOE PARK.**

Vice Mayor Lee was also concerned there would be noise complaints because the movies would not be over until after 11:00 p.m.

City Manager Jarboe previously suggested they ask the Girl Scouts if they could use the Girl Scout building inside the park to show the movies.

Mayor Pruette asked if Councilor Pardee wanted to withdraw the motion and make another or if the Council wanted to vote on the motion as is.

City Manager Jarboe stated the city has had this issue with other events in the park. If there is a noise complaint the police are required to ask them to cease and desist or issue a citation.

Councilor Pardee stated he would be favor of allowing them the opportunity.

Mayor Pruette stated they have been warned that if there was a noise complaint they would have to shut down.

Vice Mayor Lee stated as long as they knew there was a chance of being shut down he would be in favor of giving them the opportunity.

City Attorney White suggested, due to the nature of a religious group showing movies on public property, the city inquire as to what movies they intended to show.

Roll Call Vote:

Ayes: 3 – Lee, Pardee, Tucker

Noes: 2 – Weldon, Pruette

MOTION CARRIED**COUNCIL COMMENTS**

Councilor Pardee was concerned the new DUI enforcement would affect the traffic patrol. He asked Chief Sembach if there was a station closer to the beach where DUI offenders could be booked. Chief Sembach responded DUI offenders had to be taken downtown to Jacksonville by the arresting officer because they had to be present when the breathalyzer test was administered. Chief Sembach added that other beach patrols would provide back up assistance if needed.

Councilor Weldon asked what the citizens should expect. Chief Sembach explained the grant specifies the new vehicles had to be marked as police vehicles. He intended to have the markings placed on the sides. They would not be marked in the front or the rear. They would not have lights on the top and they would not have a yellow city tag. They would have a lot of lights for safety purposes and would be equipped with cameras on both the front and the rear. Perpetrators would not be able to identify the police car until they passed it or approached

either side.

Mayor Pruette stated she went before the JTA Board last week and they assured her they were working on a solution to have the dirt mound in the intracoastal removed and they may need our help in securing the permit.

City Attorney White advised the new State law effective October 1, 2009 allowed municipalities to allow outdoor doggie dining. There were some new requirements in effect. City Manager Jarboe explained our permit application would have to be amended to adhere to the new State requirement. City Attorney White advised information on dog dining permits would have to be furnished to the State.

Vice Mayor Lee thanked City Manager Jarboe and staff for cleaning the graffiti off of the fence by the Church.

Adjournment

There being no further business, the meeting adjourned at 6:50 p.m.

Harriet Pruette, Mayor

ATTEST:

Lisa Volpe, CMC, City Clerk

Approved:

Councilor Weldon asked if the monument sign being installed at Blockbusters had been approved for a permit. City Manager Jarboe replied the monument sign was part of the development order.

Councilor Weldon questioned why the manhole covers disappeared on A1A. City Manager Jarboe explained FDOT has to come back and do them. They basically used satellite technology to figure where the manholes are and they are required to do that. We actually paid for that, it was approved last year. One of the problems of why it is so slow right now is someone went into the yard they were using on Atlantic Boulevard and stole all the manhole covers. The company that stored them will have to pay for them. There were about 15 of them. The thief was caught. They would be installing new manhole covers.

Councilor Pruette confirmed with City Manager Jarboe that the FDOT would clean up the property around the water plant where they have torn up the landscaping and put back as it was before they tore it up.

Vice Mayor Lee stated he read somewhere the DCA budget was cut by the State. City Manager Jarboe replied the DCA budget sunsetted and it was not reauthorized by the State.

Vice Mayor Lee asked if the construction crews would be cleaning up the storage sites around the Water Plant. City Manager Jarboe answered yes. He has met with the FDOT in relation to the issue.

Councilor Weldon asked when the new crosswalks would be installed. City Manager Jarboe explained once the repaving is complete on A1A the new crosswalks will be installed.

PUBLIC COMMENTS

Ed Jones, 200 First Street, President of the Town Center Agency, stated the Town Center Agency Board approved a contribution of \$3,250.00 to JTA towards the operation of the Trolley.

Consensus: **TO FORWARD THE FDOT RESOLUTION TO THE JULY CONSENT AGENDA.**

PROPOSED ORDINANCES

Ord. No. 2010-11

ORDINANCE NO. 2010-11, AMENDING WATER AND SEWER CHARGES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING ARTICLE IV. WATER AND SEWER CHARGES, SECTION 23-88 ADDITIONAL CHARGE FOR DELINQUENT PAYMENT, AND SECTION 23-89 NOTICE OF PROPOSED TERMINATION OF SERVICE; ADMINISTRATIVE HEARING; DISCONNECTING SERVICE OF FAILURE TO PAY CHARGES; RECONNECTING FEE; SECTION 23-90 IMPACT FEE REVENUE RESTRICTIONS AND SECTION 23-105 BILLING AND PAYMENT AND PROVIDING AN EFFECTIVE DATE.

Councilor Weldon stated he is concerned about shutting off utilities without giving notice.

Vice Mayor Lee stated second notices were just now being sent out. City Manager Jarboe explained he came across the issue in the Code about six weeks ago and implemented the second notices. Since the second notices have been sent out there

has been less late payments.

Mayor Pruette stated the bill used to be printed on a little card and now the bills are printed and stuffed into an envelope along with a return envelope. She question if it would save the City money to go back to using the card. City Manager Jarboe stated the new bills were generated from the new software system and card were easily lost by the post office.

Councilor Pardee suggested continuing to do so for a while longer before considering a change to the Ordinance.

Consensus: **TO CONTINUE SENDING OUT SECOND NOTICES AND NOT SEND TO ORDINANCE 2010-11 SECOND READ.**

Immobilizing
Vehicles

ORDINANCE NO. 2010-XX, ADDING SECTION 22-5 IMMOBILIZING OF VEHICLES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADDING SECTION 22-5 IMMOBILIZING OF VEHICLES AND AMENDING 22-26 SCHEDULE OF STREETS, DISTRICT AND ZONES AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this ordinance would allow the Police Department to place an immobilizing device on vehicles with three or more outstanding parking tickets.

Mayor Pruette questioned if officers were legally able to enter private property if necessary. Chief Sembach stated he did not think officers could legally enter private property to place the immobilizing device on a vehicle. City Attorney White suggested if Council approves the ordinance it should be an enforcement issue for the Chief of Police.

Vice Mayor Lee questioned if unpaid parking tickets was a major concern. Chief Sembach replied unpaid parking tickets were not a huge problem in the city however there is a problem on First Street. Currently there is no recourse to collect on unpaid parking tickets.

Mayor Pruette asked how much the immobilizing device would cost. Chief Sembach responded the most expensive one is \$700.00 and it would pay for itself in a matter of time.

Councilor Pardee stated the immobilizing devices were used in downtown Jacksonville. He asked if there was a time period that vehicles would be towed if the owner did not pay to have the device removed.

Councilor Tucker stated she has seen this system in place at the university and downtown.

Councilor Weldon agreed to sponsor the ordinance.

Consensus: **FORWARD TO JULY REGULAR MEETING FOR FIRST READ.**

Drive Thru
Windows

ORDINANCE NO. 2010-XX, AMENDING SECTION 27-227 SPECIAL RESTRICTIONS AND CONDITIONS, DRIVE THRU WINDOWS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, SECTION 27-227 SPECIAL RESTRICTIONS AND CONDITIONS ON ALLOWABLE USES WITHIN ZONING DISTRICTS, ARTICLE IV,

LAND USE, TABLE 27-226-1 PERMISSIBLE USE AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette explained this ordinance suggested adding language that would clear up any discrepancies in the Code regarding drive thru windows. There was questions at the last council meeting by council about this.

Vice Mayor Lee stated the interpretation of the Code regarding "Drive Thru Windows" created a question regarding the orientation of a building.

Mayor Pruette added that some members of council felt there were questions from members of the Planning & Development Review Board. She did not but thought it needed to be discussed. She introduced Chairman of the Planning and Development Board Kerry Chin and asked if he wanted to speak.

City Manager Jarboe recommended amending Section 27-227(4)f as follows: Drive thru windows shall be located to towards the rear of the building, ~~facing away from~~ not facing the principal abutting thoroughfare.

Vice Mayor Lee stated there was confusion because on some buildings the "drive thru" was not located on the back of the building. Mayor Pruette responded the Code did not say the drive thru window had to be in the back, the Code says it has to be to the rear. City Manager Jarboe stated that it why it needed to be clarified.

Mayor Pruette added drive thru windows should be by special exception only.

Councilor Weldon felt the focus should be on "the adjacent thoroughfare" not "what is considered the rear of the building". The rear of the building can vary depending on the design. The issue is that we do not want traffic backing up at a drive thru window into a main thoroughfare. He did not object to allowing drive thru windows on the side of buildings as long as there was sufficient distance from the main highway.

Councilor Pardee suggested the following amendment: "drive thru windows shall be located facing away from the principle abutting thoroughfare to the rear of the building."

Mayor Pruette clarified the issue with a quote from an e-mail sent out from Councilor Pardee. "After I and Vice Mayor Lee questioned the planning chair we found out they denied it because they were not sure and wanted the council to help decide. They voted 6 to 1 to deny it. If you do not think that something fits our community you need to have that put into the code before you enforce it on someone not after. Our code allows liquor stores and it allows drive thrus. To make a case that this should come under fast food and that it should be restricted to the back of the building and no other currently or previously approved project is like that is just not valid. Safety issues are also a concern. After the motion was made the Assistant Police Chief gave a report there were no concerns". Mayor Pruette stated she would like to clean up the language so that some of the issues Councilor Pardee brought up can be addressed.

Councilor Weldon suggested the following amendment: All drive thru facilities shall be located to the side or rear of the building away from the principal abutting thoroughfare.

Councilor Pardee asked City Attorney White for his opinion on the amendment. City Attorney White stated that language would work.

City Manager Jarboe recommended adding that the final decision on the placement of the drive thru window will be made at the approval of the development order by the

Council. City Attorney White replied that language was not necessary.

Councilor Weldon suggested the final amendment read as follows: All drive thru facilities shall be located to the side or rear of the building away from the principle abutting thoroughfares by special exception.

Consensus: **TO MAKE THE FINAL RECOMMENDED CHANGES AND FORWARD TO JULY REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Budget Concerns

BUDGET CONCERNS: City Manager Jarboe stated he had a number of suggestions to reduce the City budget and enhance revenue. Some of those suggestions have already been implemented by the Council. The remaining suggestions include;

- 1) Combine the Planning & Development Review Board with the Board of Appeals. This would save approximately \$3,000.
- 2) Moving the Code Enforcement Board meetings to a daytime hour and having a magistrate. This would save approximately \$1,200.
- 3) Implement a charge right-of-way permits.
- 4) Implement a Utility Tax on electricity.
- 5) Renegotiate cost of uniforms for public service employees.
- 6) Dropping the motorcycle contract saving \$2,000.
- 7) Reduce city services by cutting staff.
- 8) Install a solar farm behind the K-mart Shopping Center.

Councilor Weldon voiced concern regarding public service employees not being clearly identified so they did not threaten residents. City Manager Jarboe replied instead of a full uniform they would wear a city t-shirt and/or a city jacket.

Councilor Weldon stated the only responsible way to substantially reduce revenues is to consider what minimum level of service the City is willing to accept. Once that is determined the city needed to respond with ideas to increase revenue. He felt the utility tax was a good source because it would spread the cost to renters, not just property owners. He also felt combining the boards would reduce cost as well as increasing the pool of qualified individuals to fill the positions.

Councilor Tucker stated she would agree to combine the boards. She did not like the idea of moving the Code Enforcement Board meeting to the day. She would consider allowing flexible hours for employees so the city would not have to pay for overtime.

Councilor Pardee felt combining the boards was a good idea. He agreed with implementing a right-of-way permit fee. He opposed a utility tax. He felt reducing the costs of public service employee uniforms was a good idea.

Councilor Pardee asked if the city could discontinue paying the annual employee safety bonuses. City Manager Jarboe responded that would be a consideration at the union negotiating meeting.

Vice Mayor Lee asked City Manager Jarboe to verify the timeline for the budget. City Manager Jarboe responded the State should verify the property tax revenue on July 1st. Each department will give him their budget and he in turn will present a budget to the Council and a budget meeting will be noticed.

Vice Mayor Lee asked City Manager Jarboe what he thought the difference would be

between revenue and expenditures. City Manager Jarboe responded the water and sewer fund revenue was down \$500,000. Water and sewer revenue will also be lower due to the number of unoccupied apartments and houses and water conservation. State revenues would also be lower due to a 5% decrease in property appraisals. There will be a decrease in revenue from Jacksonville Beach based on billable hours on electricity. The City of Jacksonville has implemented a tipping fee that will amount to approximately \$200,000.

Vice Mayor Lee agreed the city should determine a minimum service level. He suggested reconsidering the sanitation service contract.

Councilor Weldon suggested directing staff to provide an updated list of considerations and the Council could determine what is essential and the amount of decrease in services they are willing to accept. City Manager Jarboe stated he would need to wait until he received the revenue figures. He added that the only two items that would have an impact on the budget were implementing a Utility Tax or reducing staff.

Vice Mayor Lee stated the Jacksonville tipping fee would also have a big impact on the budget.

Mayor Pruette felt there was a consensus for combining the Planning & Development Review boards and considering a magistrate for the Code Enforcement Board. She would place in on the July workshop meeting for further discussion.

City Manager Jarboe stated he would draft an ordinance for discussion.

Consensus: **FORWARD TO THE JULY WORKSHOP.**

Process of Debate

PROCESS OF DEBATE OF DEVELOPMENT ISSUES: Councilor Pardee did apologize for making it personal in his emails and voiced concern regarding motions being made immediately after the introduction of an agenda item. He felt applicants for development orders and appeals should be given time to speak before a motion is made by Council.

Mayor Pruette stated when a recommendation is made for a development order Roberts Rules of Order calls for a motion, whether it be a positive or negative recommendation to be laid on the floor, and seconded, before discussion. The applicants were able to speak after the motion and conversation was carried on for over thirty minutes. She added for the record that she would never deny anyone the ability to speak.

Councilor Weldon felt it put the applicant or appellant under a lot of pressure when a motion is made before they get to present their case. He felt it was courteous to allow the applicant or appellant to introduce a presentation.

City Attorney White stated if the applicant is allowed to make a presentation a dialogue commences between the Council and that person and the Council is engaging in a discussion. If that happens before the motion that would not follow Robert's Rules of Order.

Councilor Weldon stated in the past we have allowed the applicant or appellant to speak and the Council to ask questions before a motion has been made and it has worked well.

Councilor Pardee agreed it is a matter of courtesy to allow the applicant to speak

before making a motion to approve the recommendation of the Planning & Development Review Board.

Mayor Pruette stated she has worked to follow the Roberts Rules of Order since the Council adopted them a year and a half ago. She will call on the applicant first if that is the desire of the Council.

Councilor Weldon stated he appreciated Mayor Pruette paying attention to the organization of meetings. It makes the meetings shorter and more efficient. But he would like the applicant to speak first. Mayor Pruette stated she would call on the applicant before a motion is put on the table.

Pardee stated he did not realize the council was under the Robert's Rules of Order. Mayor Pruette reminded him it was he that wanted to adopt the rules and it was the Mayor that sponsored the ordinance.

JTA Trolley

JTA BEACHES TROLLEY: Jacksonville Transportation Authority has requested a contribution of \$2,500 to maintain the trolley service. Jacksonville Beach has contributed \$4,000 and Atlantic Beach has contributed \$2,500. Mayor Pruette felt Neptune Beach should make a small donation to show support.

Councilor Tucker explained the money would come out of the Special Event Fund and she would agree to a donation between \$500 and \$1,000.

Councilor Weldon supported a contribution of \$1,000. He felt any less than that amount would be trivial.

Vice Mayor Lee stated he was comfortable with a \$1,000 contribution.

Councilor Pardee stated it was his understanding the trolley did not stop anywhere in Town Center. He would not support giving J.T.A. a contribution for the Trolley if there was not a stop in Town Center.

Councilor Weldon stated they could make the donation and insist the trolley stop in Town Center.

Councilor Pardee supported a \$500 donation.

Mayor Pruette stated she would support between \$500 and \$600 and Councilor Tucker said she would support between \$500 to \$1,000. Councilor Weldon stated Councilor Tucker was the swing vote.

City Manager Jarboe explained the money would not come out of property taxes. The Special Event Fund was money given to us by the sanitation company to be used for special event.

Vice Mayor Lee, Councilor Weldon and Councilor Tucker agreed to a \$1,000 contribution.

Consensus: **TO CONTRIBUTE \$1,000 TO THE JTA TROLLEY.**

PORF Board

POLICE OFFICERS RETIREMENT BOARD: City Manager Jarboe explained Donald Padgett, CPA, had recently moved out of the city and resigned from the Police Officers Retirement Fund Board. The Police Officers Pension Board consists of five members. Two of the members are appointed by the City Council, two are elected by the police officers and the fifth is selected by the Board. The member that is

selected by the Board is not required to live in Neptune Beach. Therefore the Board has requested the Council appoint Carl Hashey. He would resign as the member selected by the board thus allowing the Board to select Donald Padgett.

Mayor Pruette asked how long Donald Padgett has been a member on the Board. City Clerk Volpe stated Donald Padgett has served on the PORF Board since 1990.

City Attorney White advised the member at large is elected by the board members and did not have to be a resident of Neptune Beach. There is no cap on how long a member could serve on the Board.

Councilor Weldon felt this was a good opportunity for Council to focus some attention on the pension board and recognize the liability the City has in the pension plan.

Consensus: **FORWARD TO THE JULY REGULAR MEETING AND APPOINT
CARL HASHEY TO THE PORF BOARD.**

COUNCIL DISCUSSION

Councilor Pardee stated he spoke with fireman Skip and he supports allowing the flag to remain in the marsh area after the spoil hill has been removed.

Mayor Pruette stated she was going to prepare a letter to the Army Corp of Engineers to expedite the permitting process for JTA.

Councilor Tucker questioned if the JTA Beaches Trolley was going to be year round. City Manager Jarboe replied the Beaches Leader did an article on the issue and JTA was considering a year round Trolley.

Vice Mayor Lee congratulated Senior Activity Center Director Leslie Lyne on the success of the Beaches 5K Run.

Adjournment

There being no further business, the meeting adjourned at 8:00 pm.

Harriet Pruette, Mayor

MOTION CARRIED

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette stated the agenda item for approval for the church to show movies in Jarboe Park would be added at the end of the agenda. It was mistakenly left off the agenda although it shows in the minutes it was to be voted on.

City Clerk Volpe stated the July regular meeting would fall on July 5, 2010 and City Hall would

be closed. She suggested moving the meeting to July 12, 2010.

Consensus: **TO HOLD THE JULY REGULAR MEETING ON MONDAY, JULY 12, 2010.**

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The 2nd Annual Beaches Challenge 5K Run and 2.5 K Walk, to benefit the Senior Activity Center, will be held Saturday, June 19, 2010 at 8:30 a.m.
- The contractor has been asked to clean up the debris along Third Street from the repaving.
- The new Publix would be opening within approximately six weeks.
- There has not been a final resolution between the property owners as to the construction of a roadway between the shopping centers.
- He would not be issuing any permits allowing bands on private properties during the 4th of July celebration.
- Finance Director Steve Ramsey is coming into the office twice a week and working from his home on 2010/2011 FY budget.

Vice Mayor Lee asked if the City had outlined a plan for cleaning up any oil that may wash ashore due to the oil spill in the Gulf of Mexico. City Manager Jarboe stated the Department of Environmental Protection had control over the situation. However, the city would be monitoring the beaches.

ORDINANCES

Ord. No. 2010-10 **ORDINANCE NO. 2010-10, ADD DAY SPAS, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING THE CODE OF ORDINANCES CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE I, IN GENERAL, SECTION 27-15, DEFINITIONS, ARTICLE IV, LAND USE, TABLE 27-226-1 PERMISSIBLE USE AND TABLE 27-540-1 OFF-STREET PARKING REQUIREMENTS AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained this Ordinance would allow upscale salons in the C-1 district by special exception.

Mayor Pruette read the Ordinance by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Lee, seconded by Pardee.

Motion: **TO PASS ORDINANCE NO. 2010-10 ON FIRST READ AND PUBLIC HEARING.**

Councilor Weldon questioned if the parking requirements would be adequate. City Manager Jarboe explained the parking requirements for day spas were the same as shopping centers.

Councilor Pardee explained the applicant had informed him that there would be no overnight stays for medical procedures and procedures would be by appointment only.

Roll Call Vote;

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

Mayor Pruette stated she would sponsor the Ordinance.

MOTION CARRIED

Ord. No. 2010-11

ORDINANCE NO. 2010-11, AMENDING ARTICLE IV. WATER AND SEWER CHARGES, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING ARTICLE IV. WATER AND SEWER CHARGES, SECTION 23-88 ADDITIONAL CHARGE FOR DELINQUENT PAYMENT, AND SECTION 23-89 NOTICE OF PROPOSED TERMINATION OF SERVICE; ADMINISTRATIVE HEARING; DISCONNECTING SERVICE OF FAILURE TO PAY CHARGES; RECONNECTING FEE; SECTION 23-90 IMPACT FEE REVENUE RESTRICTIONS AND SECTION 223-105 BILLING AND PAYMENT AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated this Ordinance would eliminate the requirement to send out second notices for water and sewer non payments.

Moved by Lee, seconded by Pardee.

Motion: **TO PASS ORDINANCE NO. 2010-11 ON FIRST READ.**

Vice Mayor Lee asked how many customers would be affected by the Ordinance. City Manager Jarboe stated this would affect about 100 to 200 customers per month which was approximately 7% of all utility accounts. This would save the city money in staff time.

Councilor Weldon stated this was an issue regarding the level of service provided by the city and historically customers were given a second notice before their water and sewer was cut off. He wanted to debate the issue.

Mayor Pruette stated the Ordinance would be forwarded to the June workshop meeting for further discussion before the second read.

Councilor Weldon protested not being able to discuss the Ordinance at a regular meeting.

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

NEW BUSINESS

Surplus

SURPLUS POLICE VEHICLES: City Manager Jarboe explained the police department had the following vehicles to surplus:

2003 Chevy Impala VIN # 2G1WF55KX39410324

2003 Chevy Impala VIN # 2G1WF55KX39225142

2003 Chevy Impala VIN # 2G1WF55K739217970

2004 Chevy Impala VIN # 2G1WF55K149227126

Moved by Weldon, seconded by Lee.

Motion: **TO SURPLUS THE ITEMS LISTED.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

Councilor Weldon stated the grant to replace these vehicles came with the requirement that the Public Safety Department pursue more aggressive DWI enforcement. City Manager Jarboe stated he would have that placed in the Cast-a-Line Newsletter.

Movies in the Park **MOVIES IN THE PARK:** City Manager Jarboe explained the Resurrection Anglican Church has requested permission to show movies in Jarboe Park. He was not in favor of allowing the showing of the movies in the park due to noise ordinance concerns.

Moved by Pardee, seconded by Lee.

Motion: **TO APPROVE THE MOVIES IN THE JARBOE PARK.**

Vice Mayor Lee was also concerned there would be noise complaints because the movies would not be over until after 11:00 p.m.

City Manager Jarboe previously suggested they ask the Girl Scouts if they could use the Girl Scout building inside the park to show the movies.

Mayor Pruette asked if Councilor Pardee wanted to withdraw the motion and make another or if the Council wanted to vote on the motion as is.

City Manager Jarboe stated the city has had this issue with other events in the park. If there is a noise complaint the police are required to ask them to cease and desist or issue a citation.

Councilor Pardee stated he would be favor of allowing them the opportunity.

Mayor Pruette stated they have been warned that if there was a noise complaint they would have to shut down.

Vice Mayor Lee stated as long as they knew there was a chance of being shut down he would be in favor of giving them the opportunity.

City Attorney White suggested, due to the nature of a religious group showing movies on public property, the city inquire as to what movies they intended to show.

Roll Call Vote:

Ayes: 3 – Lee, Pardee, Tucker

Noes: 2 – Weldon, Pruette

MOTION CARRIED**COUNCIL COMMENTS**

Councilor Pardee was concerned the new DUI enforcement would affect the traffic patrol. He asked Chief Sembach if there was a station closer to the beach where DUI offenders could be booked. Chief Sembach responded DUI offenders had to be taken downtown to Jacksonville by the arresting officer because they had to be present when the breathalyzer test was administered. Chief Sembach added that other beach patrols would provide back up assistance if needed.

Councilor Weldon asked what the citizens should expect. Chief Sembach explained the grant specifies the new vehicles had to be marked as police vehicles. He intended to have the markings placed on the sides. They would not be marked in the front or the rear. They would not have lights on the top and they would not have a yellow city tag. They would have a lot of lights for safety purposes and would be equipped with cameras on both the front and the rear. Perpetrators would not be able to identify the police car until they passed it or approached

either side.

Mayor Pruette stated she went before the JTA Board last week and they assured her they were working on a solution to have the dirt mound in the intracoastal removed and they may need our help in securing the permit.

City Attorney White advised the new State law effective October 1, 2009 allowed municipalities to allow outdoor doggie dining. There were some new requirements in effect. City Manager Jarboe explained our permit application would have to be amended to adhere to the new State requirement. City Attorney White advised information on dog dining permits would have to be furnished to the State.

Vice Mayor Lee thanked City Manager Jarboe and staff for cleaning the graffiti off of the fence by the Church.

Adjournment

There being no further business, the meeting adjourned at 6:50 p.m.

Councilor John Weldon
City Attorney Chris White

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:18 p.m. and stated for the record that a quorum was present.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There have been a number of complaints regarding traffic on Atlantic Boulevard due to the construction work.
- The Publix Shopping Center has begun the construction of the outparcels.
- There have also been complaints regarding the work by Florida Department of Transportation in the Third Street rights-of-way.
- He is working with the Department of Environmental Protection on issues regarding the sewer plant.
- He will be meeting with representatives of the City of Jacksonville regarding the new tipping fees.

Vice Mayor Lee questioned when the repaving of Third Street would begin. City Manager Jarboe replied the repaving on Third Street would most likely begin once the Florida Department of Transportation has completed repaving Atlantic Boulevard and a portion of Third Street in Jacksonville Beach.

Mayor Pruette stated the annual "Dancin' in the Street" event was a huge success.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, urged Council to keep pressure on Jacksonville Transportation Authority to remove the dirt pile in the Intracoastal. She asked Council to review the process of the Planning & Development Review Board due to the misunderstanding of a Council member.

PROPOSED ORDINANCES

ORDINANCE NO. 2010-XX, AMENDING ARTICLE IV. WATER AND SEWER CHARGES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING ARTICLE IV. WATER AND SEWER CHARGES, SECTION 23-88 ADDITIONAL CHARGE FOR DELINQUENT PAYMENT, AND SECTION 23-89 NOTICE OF PROPOSED TERMINATION OF SERVICE; ADMINISTRATIVE HEARING; DISCONNECTING SERVICE OF FAILURE TO PAY CHARGES; RECONNECTING FEE; SECTION 23-90 IMPACT FEE REVENUE RESTRICTIONS AND SECTION 23-105, BILLING AND PAYMENT AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance will eliminate having to place door hangers or other notices for late payments in addition to the first notice.

Vice Mayor Lee questioned how many late payments the City received each month. City Manager Jarboe responded they varied from 150 to 400 per month.

City Manager Jarboe stated he would be meeting with representatives of Burton and Associates regarding utility rate study.

Consensus: **FORWARD TO THE JUNE REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS

Restrictive
Covenant

LEMON STREET RIGHT-OF-WAY RESTRICTIVE COVENANT: City Manager Jarboe stated the documents have been prepared. He asked Council to defer approval until the property has been cleaned up.

William Finger, Attorney for COH Jacksonville, Florida, stated he would have the contractor clean up the property.

Consensus: **TO ALLOW CITY MANAGER JARBOE TO DECIDE WHEN TO PLACE ON THE COUNCIL AGENDA DUE TO THE PROPERTY NEEDING TO BE CLEANED UP.**

ISSUE DEVELOPMENT

Jarboe Park
Movies

RESURRECTION ANGLICAN CHURCH – MOVES IN JARBOE PARK – DAVID BALL: David Ball, Pastor for Resurrection Anglican Church, explained they would like permission to show movies in Jarboe Park beginning Friday, June 18th. The movies

would be free to the public and popcorn and drinks would be provided free of charge.

City Manager Jarboe voiced concern regarding the noise ordinance and the nearby residential properties. Due to the daylight the movies would not begin showing until after 9:00 p.m. and would not end until after 10:00 p.m.

Pastor Ball replied they would begin the movies right at sunset and would not have large speakers. They would be in the center of the park as far away as possible from residential housing. He agreed to shut down the movies if there were any noise complaints.

Councilor Tucker was also concerned about the noise because there have been noise complaints from previous events held in Jarboe Park. She was also concerned about the parking arrangements. Pastor Ball replied they would use the side of the Beaches Chapel for parking.

City Manager Jarboe suggested they ask the Girl Scouts if they could use the Girl Scout building in the park to show the movies.

Mayor Pruette suggested they show the movies on the Beaches Chapel property. Pastor Ball stated the noise ordinance would remain an issue even if the movies were shown on the Church property. He felt the event would attract more people if it were held in the park because some people may not feel comfortable going to a church.

Vice Mayor Lee suggested putting those conditions in writing. City Manager Jarboe stated once Council approved the event he would prepare an agreement.

Consensus: **TO HAVE CITY MANAGER JARBOE WORK OUT THE DETAILS AND FORWARD TO THE JUNE REGULAR MEETING FOR APPROVAL.**

750 Third St.

DISCUSSION FOR ALLOWING AN UPSCALE SALON – 750 THIRD STREET: Mayor Pruette asked Mr. Jim Smith, owner of the property at 750 Third Street, to address the Council

Mr. Jim Smith, owner of the Secure One Building, 750 Third Street, explained he had a tenant interested in renting the upstairs space of the building which is 2,600 square feet. The tenant would like to have an upscale salon that would include cosmetic services. He was requesting the City change the permissible use table to allow this type of business by special exception.

City Manager Jarboe stated Council would have to change the Code and amend the Ordinance to allow this use by special exception. The request would first need to go to the Planning & Development Review for recommendation to the Council. After the Planning & Development Review Board makes their recommendation to the Council the Council would still need to have two readings of the Ordinance before its official adoption.

Mayor Pruette stated she placed this on the agenda to find out if Council would be willing to change the Code.

Vice Mayor Lee questioned why salons were not allowed in C-1 zoning district. City Manager Jarboe stated the C-1 zoning district was for professional services.

Mayor Pruette felt the upscale salon would fit into the C-1 district.

City Manager Jarboe explained if the Council opted to change the Code to allow the salon it would not be approved until the July regular Council meeting.

Consensus: **FORWARD TO THE JUNE REGULAR MEETING FOR FIRST READ.**

COUNCIL DISCUSSION

Mayor Pruette thanked Vice Mayor Lee and Councilor Tucker for donating door prizes for the Florida League of Cities Dinner meeting that was hosted by the Beach cities. She also thanked Vice Mayor Lee for attending the budget meeting with Jacksonville Mayor John Peyton.

Vice Mayor Lee stated he attended the Jacksonville budget meeting with Mayor Peyton that was held at the Jacksonville Beach Community Center. He stated it was a good process whereas departments were broken up into groups and priorities were determined.

Councilor Tucker stated she was unable to attend the Jacksonville budget meeting because she and Mayor Pruette were representing Neptune Beach at the Florida League of Cities dinner meeting. She thanked City Clerk Lisa Volpe for attending the dinner meeting.

Councilor Tucker stated she adopted Florida Boulevard as part of the Keep Jacksonville Beautiful plan. She invited the Council to become her friends and help clean up the area.

Adjournment

There being no further business, the meeting adjourned at 6:45 pm.

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette stated the three beach cities would be sponsoring the Florida League of Cities Dinner Meeting this month. She asked for donations of door prizes.

Mayor Pruette stated she would not be available to attend the budget meeting of City of Jacksonville Mayor Peyton and asked Vice Mayor Lee if he would attend in her absence. Vice Mayor Lee agreed to attend the meeting.

Mayor Pruette stated she received a letter from Mr. Blaylock, Jacksonville Transportation Authority, which indicated they were looking at different options to remove the dirt mound in the intracoastal.

City Clerk Volpe asked Council for a consensus to hold the May Workshop meeting on the 24th.

Consensus: **TO HOLD THE MAY WORKSHOP MEETING ON MAY 24, 2010.**

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- Director of Finance Steve Ramsey is still recuperating from his surgery. He is expected to return to work at the end of May.
- Chief Sembach is on vacation.
- The Florida Department of Transportation has almost completed installing the new traffic signals on Third Street and Atlantic Boulevard. Once the new traffic signals have been installed they would begin the repaving.
- Construction of the new Publix is moving forward and should be expected to open in the middle of August. The Blockbuster video store will remain open and there may be a restaurant built on one of the outparcels.

Councilor Pardee asked City Manager Jarboe to update the Council on the grant for Jarboe Park improvements being provided by Wal-mart and Kellogg's. City Manager Jarboe stated the grant may not be accepted because they wanted indemnity from the City.

COMMENTS FROM THE PUBLIC / NONE

CONSENT AGENDA

- 3RD Annual Neptune Beach Surf Camp – June 14 – July 16
- Neptune Beach Senior Activity Center – Second Annual Beaches 5K Run & 2.5K Walk – June 19
- RESOLUTION 2010-04: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA OPPOSING CREATION OF STATEWIDE WATER AUTHORITY, WEAKENING CHAPTER 373 AS RELATED TO "LOCAL SOURCES FIRST" POLICY, OR TO MAKE ANY OTHER CHANGE TO CHAPTER 373 THAT COULD PUT NORTH FLORIDA'S SURFACE WATERS OR THE FLORIDA AQUIFER AT RISK BY THE TRANSFER OF NORTH FLORIDA WATER TO CENTRAL OR SOUTH FLORIDA.

Moved by Weldon, seconded by Tucker.

Motion: **TO APPROVE THE CONSENT AGENDA.**

NEW BUSINESS

PDRB10-03

PDRB10-03, PRELIMINARY DEVELOPMENT ORDER FOR SHIVAM NEPTUNE, LLC / DAYS INN, 1401 ATLANTIC BOULEVARD: The purpose of the development order is to add a drive-thru window to the existing liquor store.

Bobby Shivam, 351 Way East, Jacksonville, Shawn Lenoble, 702 9th Avenue South, Jacksonville Beach, Days Inn Operations Manager, explained Golden Ox Liquors was a family owned business and has been in business for over 15 years in the Jacksonville area. They have a joint venture with the Days Inn at this location. The development order was a request for a drive thru window for the liquor store to be located on the north side of the Days Inn building. There would not be a menu board or a loud speaker. There would be 90 feet from the drive thru window to Atlantic Boulevard. If necessary they would be willing to install directional arrows and barricades to guide traffic safely around the building.

Councilor Pardee asked there would be food sold through the drive thru window. Mr. Lenoble replied there would not be any food sold through the window.

Councilor Pardee asked City Manager Jarboe if there were any other businesses in the city with drive thru windows located on the front of the building. City Manager Jarboe replied “no” with the exception of Pete’s Bar.

Councilor Pardee asked Kerry Chin, Chairman of the Planning & Development Review Board, if the board denied the development order based on the Code. Mr. Chin responded the Code required drive thru windows to be located on the rear of buildings. The code did not address liquors stores being allowed in any specific zoning district. The Board was also concerned about traffic.

Mayor Pruette stated the Planning & Development Review Board recommended denial of the development order with a 6 to 1 vote.

Vice Mayor Lee stated he listened to the tape recording of the Planning & Development Review meeting. The board members were concerned because the Code did not clearly state any requirements for liquor stores. There was also not a clear definition in the Code regarding what would be considered the front of the Days Inn building. The City Manager informed him this afternoon that Chief Sembach did not consider the drive thru to cause an issue with traffic. He asked if the development order should be forwarded to the May workshop to address the Code issues.

Councilor Weldon felt the Code was completely clear that drive thru windows were not to be adjacent to the main arterial immediately in front of the building. He felt vehicles backed up at the drive thru would create a traffic issue.

Councilor Tucker was concerned about the traffic and the crime rate in the area. She asked Assistant Police Chief Tony Carrillo to report on crime rate. Assistant Chief Carrillo reported there were 31 police calls to the Days Inn in 2008, 34 in 2009, and as of today there have been 6 police calls for 2010.

For the Record Councilor Pardee stated for the record it was intention to follow the Code and hear all the facts before making his decision.

Vice Mayor Lee asked the applicant if they had the flexibility to relocate the drive thru window. Mr. Lenoble replied they had considered all options and it was most feasible to place the drive thru window on the north side. Vice Mayor Lee stated he would consider the front of the building to be on the side of the building that the entrance was facing. In this case it would be the east side, therefore if the Code allows drive thru windows on the side of buildings then the application meets the Code.

Mayor Pruette asked City Attorney White to give his opinion on what should be considered the front of the building. City Attorney White stated Chapter 27-227 of the Code of Ordinances states the drive thru window has to be on the located to the rear of the building facing away from the principle abutting thoroughfare. In this instance there is room for interpretation because logic dictates the front of the building is the side where the entrance is located.

Moved by Pruette, seconded by Weldon.

Motion: **TO UPHOLD THE PLANNING & DEVELOPMENT REVIEW BOARD'S DECISION TO DENY PDRB10-03.**

Roll Call Vote:

Ayes: 3 – Tucker, Weldon, Pruette

Noes: 2 – Lee, Pardee

MOTION CARRIED

Vice Mayor Lee stated he would like to place this Code issue on a future workshop agenda for discussion.

OPEN DISCUSSION

Pardee stated last week he was misquoted in the Beaches Leader and the Folio newspapers.

Adjournment

There being no further business, the meeting adjourned at 6:55 p.m.

Harriet Pruette, Mayor

MINUTES
WORKSHOP CITY COUNCIL MEETING
APRIL 19, 2010, AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held April 19, 2010 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
Councilor John Weldon
City Attorney Chris White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Senior Activity Director Leslie Lyne
Deputy City Clerk, Karla Strait, CMC
Director of Public Safety David Sembach

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Chief Sembach presented the 2009 "Officer of the Year" award to Brian Waldrep.

Mayor Pruette presented a Proclamation to Ruth Carrin proclaiming Saturday, April 24, 2010 a "Day of Service" for "Helping Hands and Linking Arms" to fill the blood and food banks.

Mayor Pruette presented a Proclamation to City Clerk Lisa Volpe recognizing April 20, 2010 as the 40th anniversary of her birth.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The air conditioning for the Publix building was recently jointly inspection by the City of Jacksonville and the City of Neptune Beach. The construction should be completed this September.
- New traffic signals were being installed in preparation for the repaving of Third Street.
- Finance Director Steve Ramsey had surgery and should return to work by

June 1st.

PUBLIC COMMENTS

Michael Aston, 1523 Summer Sands Drive, stated he wrote a letter to Mr. Blaylock, Jacksonville Transportation Authority Chairman, regarding the dirt mound in the intracoastal. He urged Council to do whatever they could to have the dirt mound removed.

PROPOSED ORDINANCES / NONE

CONTRACTS / AGREEMENTS

Waste Pro

WASTE PRO CONSUMER PRICE INDEX ADJUSTMENT: City Manager Jarboe explained Waste Pro was requesting a 2.3% increase based on the (CPI) Consumer Price Index. He met with City Attorney White and it was determined the increase was not mandatory due to conflicting language in the contract.

City Attorney White explained based on the ambiguity of the contract the question to the Council was whether or not they felt Waste Pro deserved a 2.3% increase

Councilor Weldon stated he supported the decision of the City Manager and City Attorney. He felt the rate should remain as is.

Councilor Tucker agreed the rate should remain as it is currently.

Vice Mayor Lee stated he had an issue with the contract from the beginning. He did not see any reason to allow the increase.

Councilor Pardee stated he has not had any problems with the service. However, he would go along with the majority to have the rate remain as is.

Mayor Pruette stated she heard a lot of good comments and quite a few negative comments regarding the service provided by Waste Pro. She would go along with the consensus for the rate to remain as is.

Consensus: **NOT TO MOVE FORWARD.**

ISSUE DEVELOPMENT

Surf Camp

3rd ANNUAL NEPTUNE BEACH SURF CAMP – JUNE 14 – JULY 16: Mayor Pruette explained this would be the 3rd Annual Neptune Beach Surf Camp which has raised money for the Senior Center.

Councilor Weldon asked Senior Activity Center Director Leslie Lyne if the center made any money from the event. Ms. Lyne responded the event raised approximately \$2,000 each year.

Consensus: **FORWARD TO THE MAY CONSENT AGENDA.**

Beaches 5K Run

NEPTUNE BEACH SENIOR ACTIVITY CENTER – SECOND ANNUAL BEACHES 5K RUN & 2.5K WALK – JUNE 19: Mayor Pruette stated this was a great event that also raised money for the Senior Activity Center.

Consensus: **FORWARD TO THE MAY CONSENT AGENDA.**

McCall's Site

MCCALL'S SITE – ENVIRONMENTAL ISSUE: City Attorney White explained the Council previously adopted a Resolution designating the old McCall's property on Atlantic Boulevard a Brownsfield. The Brownsfield designation allows for state funds to be used to remediate the contaminated property. The final agreements were being prepared and the remediation work will begin once the agreements are signed.

Mr. White recommended the City sign a 'Restrictive Covenant' related to the Lemon Street right-of-way. The Restrictive Covenant would require the property owner to incur any expenses related to soil removal in the right-of-way.

Council Weldon questioned if the City should not be more concerned about the soil contamination. City Manager Jarboe responded the City had to rely on the Department of Environmental Protection regarding the soil contamination.

Consensus: **TO ALLOW THE CITY ATTORNEY AND THE CITY MANAGER TO MOVE FORWARD AND BRING THE FINAL DOCUMENTS BACK TO THE COUNCIL.**

Agenda Order

AGENDA DISCUSSION: Mayor Pruette explained she had been allowing Council members to make comments at the end of the Council meetings. She felt the public should be notified that there would be comments at the end of the meetings and asked to place "Council Comments" as an item at the end of the meeting agendas.

City Clerk Volpe stated it may be necessary to adopt a Resolution regarding the order of the agenda and she would prepare one if necessary.

City Attorney White cautioned the Council not to allow comments to become a discussion or debate because it would not have been considered properly noticed as an agenda item.

Consensus: **TO ADD COUNCIL COMMENTS AT THE END OF EACH MEETING AGENDA.**

Water Resolution

RESOLUTION 2010-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA OPPOSING CREATION OF STATEWIDE WATER AUTHORITY, WEAKENING CHAPTER 373 AS RELATED TO "LOCAL SOURCES FIRST" POLICY, OR TO MAKE ANY OTHER CHANGE TO CHAPTER 373 THAT COULD PUT NORTH FLORIDA'S SURFACE WATERS OR THE FLORIDA AQUIFER AT RISK BY THE TRANSFER OF NORTH FLORIDA WATER TO CENTRAL OR SOUTH FLORIDA.

Mayor Pruette read a letter that was received from the St. Johns River Keeper in support of the Resolution.

City Manager Jarboe stated he spoke with a representative of the St. Johns River Water Management District and they also supported the Resolution.

Councilor Pardee stated after doing research and reading Chapter 373, he would also support the Resolution.

Vice Mayor Lee supported the Resolution.

Consensus: **TO FORWARD THE RESOLUTION TO THE REGULAR MAY MEETING.**

F.I.N.D. Island

F.I.N.D. ISLAND: City Manager Jarboe explained two years ago the city received a lot of phone calls regarding the construction of a roadway on the marshland. Building Official Don Ford investigated the construction and placed a stop work order on the project because it had not been through the city's permitting process. Shortly thereafter it was discovered the project belonged to the Jacksonville Transportation Authority. It was then determined because JTA had a relationship with the Florida Department of Transportation and it was a highway project they did not need to go through the city's permitting process. However, the project was delayed because JTA did not have a permit to construct the roadway from the Army Corp of Engineers.

Because of the delay JTA did not have the funds to barge the dirt away and they were allowed to use half of the dirt for a marshland and build a 30 foot pile of dirt with the other half. JTA placed grass seed on the dirt mound however due to lack of water the grass did not grow. Shortly thereafter some firemen decided to place a 911 memorial with a flag on the top of the mound.

City Council members met with representatives of JTA regarding the city's concerns about the dirt mound. Another meeting was held four weeks later and JTA still did not have a plan of action for removing the dirt mound. They did offer some options for the removing the dirt mound but they did not have funding. During the meeting Michael Blaylock, indicated he would ask the Board to provide funding towards those options.

Councilor Pardee stated he was not aware that the dirt mound was a permanent structure until the Council meeting with JTA. He asked City Attorney White if the City was liable for the dirt mound. City Attorney White replied the City did not have any liability for the dirt mound. City Manager Jarboe stated even though it was not city property the city was still liable and a law suit would cost the city at least \$5,000 to defend. Councilor Pardee felt if JTA had been allowed to construct the roadway, as originally planned, the dirt mound would not be there and the City would not be in this predicament.

For the Record

City Manager Jarboe stated the Army Corp of Engineers was responsible for stopping the construction of the roadway.

Vice Mayor Lee stated having a 30 foot dirt mount in the intracoastal was not acceptable. He added it was not the original intent of JTA to build the dirt mound. He felt the City needed to cooperate with JTA to solve the problem. He questioned how this was allowed to take place without any notice or knowledge to our City.

Councilor Tucker agreed the City should continue to work with JTA to have the dirt mound removed.

Councilor Weldon stated the City should cooperate with JTA, however, JTA also needed to cooperate with the city. He felt the City of Neptune Beach needed to look at all legal recourses and the City Attorney needs to study exactly what the sequence of events was that led to our petition to stop or regulate the project being terminated. The city also needed to investigate the role of the Florida Inland Navigation District, the St. Johns River Water Management District, and the Army Corp of Engineers.

Mayor Pruette stated she would like the City Attorney to investigate if JTA and ACOE complied with public notice requirements regarding permits because the city was not notified about the project. She felt other agencies should communicate with the city when they were doing anything within our city. She asked City Manager Jarboe to draft a Resolution to the JTA

City of Jacksonville Councilman Art Graham introduced Michael Mesiano, the FIND representative and asked him to address the Council.

Michael Mesiano, Duval County Commissioner for the Florida Inland Navigation District, explained he explained FIND sold the property to JTA to use as mitigation for the salt marsh impact for the Wonderwood Expressway. Once a permit was issued JTA recognized it would be too expensive to remove the dirt so the permit was modified to allow them to build the dirt mound.

Mr. Mesiano added JTA was actively pursuing more salt marsh mitigation and this is good time for the city to put pressure on JTA to remove the dirt mound because the SJRWMD would give JTA creation credit if they remove the dirt.

Councilor Weldon asked Mr. Mesiano if he had ever seen mitigation end up as a dirt mound. Mr. Mesiano replied he has only seen this result in a forested setting on a temporary basis, where it was obscure.

Councilor Pardee asked Mr. Mesiano if a temporary road was built to the site, would they be able to remove the dirt and restore the site to its original state without damaging the marshland. Mr. Mesiano replied that could be done and if there was someone that needed the dirt for fill material that would be the best option for removing the dirt mound.

City of Jacksonville Councilor Art Graham stated he would be meeting with Michael Blaylock, Director of Jacksonville Transportation Authority, tomorrow and asked Council what they wanted him to convey to the JTA.

Consensus: **TO CONVEY TO JTA THAT THE NEPTUNE BEACH CITY COUNCIL WANTED THE DIRT MOUND REMOVED.**

Adjournment

There being no further business, the meeting adjourned at 7:25 pm.

MOTION CARRIED

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette thanked staff for their participation in the success of the "Spring in the Park" event that was held on Good Friday.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The Florida Department of Transportation has installed cameras above the traffic light at Atlantic Boulevard and Third Street that will allow them to monitor traffic and provide information for the 511 system. The cameras were not installed for the purpose of issuing traffic citations.
- The agreement for the \$950,000 grant from the St. Johns River Water Management District has been signed and accepted.
- The old water lines and sidewalks are being replaced on Third Street south of Florida Boulevard.
- A program has been set up to inspect the five private lift stations located in the city.

Mayor Pruette asked if Florida Department of Transportation owned the sidewalk along Third Street. City Manager Jarboe replied the sidewalk was owned by FDOT. The City is responsible for restoring the sidewalk after the installation of the new water lines.

2008/2009 Audit

Gary Hugget, Masters, Smith, and Wisby presented the September 30, 2009 Financial Report to the Council.

The Enterprise Funds had a negative change in assets of \$223,000 due to water and sewer rates. If the expenses remain consistent and the city continued to raise water and sewer fees, the fund should be in the back in the positive within the next couple of years.

Vice Mayor Lee questioned if any positive increase in the water and sewer rate fees would be allocated to increase the Reserve Fund. Mr. Hugget replied any increase would be allocated as a capital asset above and beyond the debt related liabilities and was not necessarily cash money.

Councilor Weldon questioned the current reserve level of the Enterprise Funds. Mr. Hugget responded there was currently no money in the enterprise reserve fund.

Vice Mayor Lee stated the City had a substantial reserve in the General Fund. Mr. Hugget replied he would not say the reserve fund was substantial.

Councilor Weldon questioned what the level of reserves should be in the Enterprise Fund. Mr. Hugget replied the standard minimum recommendation was for every city to have three months worth of operational expenses.

Councilor Weldon questioned whether the liability of \$1,165,094, within the Enterprise Funds, was money that was transferred from the General Fund. Mr. Hugget replied there was only one bank account and when one fund did not have enough money to pay out cash it would borrow from another fund.

Councilor Weldon asked what amount was transferred from the General Fund into the Enterprise Fund for the FY2008-2009. Mr. Hugget stated \$288,455 had actually been paid back into the general fund during FY2008-2009. Therefore, the Enterprise Fund did not consume monies from other sources throughout FY2008-2009.

Mr. Hugget reported in the overview of the Governmental Funds, the General Fund had a positive increase of \$245,000 and a decrease in net assets of \$575,000.

Councilor Weldon asked if the increased balance in the General Fund actually reflected the level of reserves. Mr. Hugget responded in this case the money was unreserved.

Councilor Weldon stated the City has been trying to increase the level of reserves. Mr. Hugget stated that was correct, however the increase is reflected in assets not actual cash money in the bank.

Councilor Weldon questioned if the numbers in the General Fund actually reflected the level of reserves. Mr. Hugget replied there were different ways to look at it. The money would be available should the city have the money or resources to go spend at its discretion.

Councilor Weldon asked Mr. Hugget to state the amount of reserves in the General Fund. Mr. Hugget replied the fund balance in the reserve was \$2,113.00. The unreserved fund within the General Fund was \$1,645,329.

Councilor Weldon asked what percentage of the General Fund was expended on an annual basis. Mr. Hugget replied the General Fund expends about \$343,000 per month. Therefore, the recommended three months of reserves would amount to approximately \$1,029,000.00. There was currently one month worth of cash operations within the reserve fund.

Councilor Weldon clarified for the audience that the positive numbers did not reflect available capital or an excess of collected taxes. He added the City did not have adequate reserves to operate the Enterprise Funds at present and the reserves needed to be replenished before the City could ever consider reducing revenue sources. Mr. Hugget stated that was correct.

Councilor Weldon was concerned if there was a major hurricane this season and the City sustained major damage what kind of funds would be available before the Federal Emergency Management Administration could deliver cash. Mr. Hugget stated the cash balance as of September 30, 2009 was \$833,759. City Manager Jarboe stated if necessary the City could take out an emergency loan to continue operations until money was received from FEMA.

Vice Mayor Lee stated the City recently made a decision to erase the deficits in the Enterprise Funds. This would allow the City to handle major emergency issues. City Manager Jarboe stated the City has been using Better Jacksonville funds to handle major emergency issues.

Vice Mayor Lee questioned the current percentage of the General Fund. Director of Finance Steve Ramsey responded the percentage of reserves in the General Fund was approximately 20%.

Vice Mayor Lee asked if the City could start adding money to the fund next year. Mr. Ramsey replied we were hoping to start adding to the fund next year or shortly after.

City Manager Jarboe stated the City has taken action to gradually build up the Reserve Fund.

Vice Mayor Lee asked if the Police Officers Pension Fund was fully funded. Mr. Hugget replied there was a pension asset of \$67,153 but that did not mean it was fully funded. The actuarial value of assets is \$5,188,000 with an accrued liability of \$7,000,000 and an unfunded amount of \$1,832,031. However the balance sheet shows a positive.

Councilor Weldon asked Mr. Hugget if he was confident that city staff was doing a good job in managing the financial affairs of the City and if the accounting conformed to standard accounting practice. Mr. Hugget replied his firm was not a financial analyst. They audited the numbers provided and verified their accuracy. They did not provide financial advice. The opinion letter stated they thought the city's financials were fairly presented.

Councilor Pardee questioned how the St. Johns River Water Management District rules would affect the City's revenue. Mr. Hugget stated the City may have to increase usage charges. His firm did not participate in water and sewer rate studies.

Mayor Pruette asked City Manager Jarboe when the Water and Sewer Rate Study would begin. City Manager Jarboe stated the study would begin in about a month.

City Manager Jarboe stated the only pension plan for the City was for the Police Officers. All other employees had a 401K. Mr. Hugget advised next year there would be a post employment benefit and cities would be required to start capturing insurance costs for those that have retired and are still carrying insurance coverage. Even though the retiree was paying their premium the extra group rate in the premiums would have to be picked up as a liability. He did not think this would have a huge impact on Neptune Beach. But it would be included in the 2010 Financial Statement.

Vice Mayor Lee questioned the amount of bonded debt and if decreases were made to that amount FY2008-09. City Manager Jarboe stated both the City Hall and the Public Safety Building had been paid off. However those were not bonded debt. Director of Finance Ramsey replied the total of bonded debt was 7.7 million with interest rates varying from 3.4 to 4.85 percent.

COMMENTS FROM THE PUBLIC

Lynda Padrta, 1113 First Street, felt the Audit Report was very clearly explained and the questions from the Council were excellent. The city should be proud of the financial state and is headed in the right direction. She supported the presentation of the Water Conservation Proclamation.

Allen Martin, 1113 First Street, wanted to make sure that the City of Jacksonville Beach was replacing the lights on the beach with cobra head lights.

CONSENT AGENDA

- Approval for Resurrection Anglican Church to hold an Easter Sunday Service in Jarboe Park

ORDINANCES

Ord. No. 2010-05

ORDINANCE NO. 2010-05, ADDING SECTION (D) TO SECTION 23-27 ADOPTING THE ST. JOHNS RIVER WATER MANAGEMENT CONSERVATION RULE, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING (D) TO SECTION 23-27 IN THE CODE OF ORDINANCES ADOPTING THE ST. JOHNS RIVER WATER MANAGEMENT DISTRICT'S WATER CONSERVATION RULE FOR LANDSCAPE IRRIGATION AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained adoption of this Ordinance is part of a requirement to receive a \$950,000 grant from St. Johns Water Management District. The City will have a consultation with violators on the first offense and on the second and third offense they will required to go before the Code Enforcement Board.

Mayor Pruette read Ordinance No. 2010-05 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Weldon, seconded by Lee.

Motion: **TO ADOPT ORDINANCE NO. 2010-05 ON SECOND READ AND PUBLIC HEARING.**

Vice Mayor Lee noted a typo in the top left hand corner of the first page of the Ordinance. Deputy City Clerk Strait stated the typo would be corrected before the Ordinance was signed.

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

Ord. No. 2010-06 **ORDINANCE NO. 2010-06. ADDING TO SECTION 2-447. AUTHORIZING ISSUE OF CITATIONS FOR CODE VIOLATIONS, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING TO SECTION 2-447 PROVISIONS OF DIVISION SUPPLEMENTAL IN THE CODE OF ORDINANCES AUTHORIZING THE CITY MANAGER AND HIS DESIGNEE TO ISSUE CITATIONS FOR VIOLATIONS OF THE CITY'S CODE AS HE DEEMS NEEDED AND PROVIDING AN EFFECTIVE DATE.**

City Manager Jarboe explained the normal code enforcement process can take up to 60 days to bring compliance. This Ordinance would allow the City Manager designee to issue a citation for a code violation.

Mayor Pruette agreed to sponsor the Ordinance.

Moved by Lee, seconded by Pardee.

Motion: **TO PASS ORDINANCE 2010-06 ON FIRST READ.**

Roll Call Vote;

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

MOTION CARRIED

Ord. No. 2010-08 ORDINANCE NO. 2010-08, AMENDING SECTION 2-362 SERVICE FEE FOR DISHONORED CHECKS, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLOIRDA, AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE VI. FINANCE, SECTION 2-362, SERVICE FEE FOR DISHONORED CHECKS.

City Manager Jarboe explained this would raise the fee for returned checks from \$20.00 to \$30.00 and would generate revenue to help cover the costs.

Vice Mayor Lee questioned how many dishonored checks the City received per month. City Manager Jarboe replied during a bad month there are probably 50 returned checks and there are quite a few water cut offs each month.

Moved by Weldon, seconded by Tucker.

Motion: **TO PASS ORDINANCE NO. 2010-08 ON FIRST READ.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

WATER AND SEWER CHARGES, SECTION 23-81(D) NEW CONNECTIONS; WATER AND SEWER TAP-INS, SECTION 23-83(A) SECURITY DEPOSIT'S AND SECTION 23-89 NOTICE OF PROPOSED TERMINATION OF SERVICE; ADMINISTRATIVE HEARING; DISCONNECTING SERVICE OF FAILURE TO PAY CHARGES; RECONNECTING FEE AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained raising the utility deposit from \$75.00 to \$150.00 and the reconnection charge from \$50.00 to \$75.00 would generate revenue to help cover the costs.

Councilor Weldon asked City Manager Jarboe if it was his intent to increase the charge of reconnects fees outside of normal business hours and not to increase the reconnect charges during regular business hours. City Manager Jarboe replied that was correct. It cost the City money in overtime to reconnect shut offs during after business hours.

Moved by Weldon, seconded by Lee.

Motion: **TO PASS ORDINANCE NO. 2010-09 ON FIRST READ.**

PDRB10-02
Seagate Shores5

PDRB10-02 REPLAT OF JARRETT POINT UNIT 1 (A.K.A. SEAGATE SHORES SUBDIVISION) LOCATED AT THE END OF SEAGATE AVENUE: City Manager Jarboe stated the replat was required by the City of Jacksonville Beach due to the drainage design.

Tom Rogers, representative for the owners of the plat, stated the replat included the information requested by the City of Jacksonville Beach.

Councilor Weldon asked Mr. Rogers what the owners had planned for the project. Mr. Rogers stated they planned to install curbing and drainage culverts. They planned to sell the property as individual lots.

Councilor Weldon voiced concern regarding the preservation of the tree canopy on the island. He encouraged the owners to cooperate with the City in trying to preserve the natural beauty of the site.

Mayor Pruette stated there was a City easement with access to the March on the property that should be available to citizens and should not be made to look private. Mr. Rogers stated the owners understood the public had the right to access the marsh via a driveway on the right of way.

Councilor Weldon questioned if each individual lot would need Council approval. City Manager Jarboe replied yes that they would have to submit building plans. Councilor Pardee stated they would not need Council approval; they would only need approval from the Building Department. Councilor Weldon asked if the previous variance granted by the Council for the dock was still effective. City Manager Jarboe stated the dock permit has expired. The other variances granted for the property have not expired.

Moved by Weldon, seconded by Lee.

Motion: **TO APPROVE THE REVISE PLAT FOR JARRETT POINT.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

MOTION CARRIED

OPEN DISCUSSION

Mayor Pruette had adjourned the meeting but several Council members wanted to make comments. Mayor Pruette stated she would allow the Council members to make comments this time. She did not want to get into the habit of conducting city business without it being on the agenda. She felt these comments should have taken place earlier in the meeting during Council correspondence. She added that there would be an item called "open discussion" on the April workshop meeting agenda. This would allow Council to vote on whether or not to allow comments at the end of each meeting.

Councilor Pardee suggested replacing the 13" television located in the conference room that was used during emergency situations with a 32" LCD television.

Mayor Pruette stated he could place the subject on a workshop meeting.

There were no further comments from the Council.

Adjournment

There being no further business, the meeting adjourned at 7:30 p.m.

Harriet Pruette, Mayor

Mayor Harriet Pruette
Vice Mayor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
City Attorney Chris White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Finance Steve Ramsey
Deputy City Clerk, Karla Strait, CMC

ABSENT:

Councilor John Weldon

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The nitrogen grant was signed by the City and sent to the St. Johns River Water Management District on March 5, 2010.
- The City applied for a \$60,000 solar grant and a tree grant for Florida Boulevard.
- The Public Safety Department has received many grants.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, suggested the City continue to work with Jacksonville Transportation Authority to have the dirt mound removed from the marsh.

PROPOSED ORDINANCES

Water & Sewer
Charges

ORDINANCE NO. 2010-XX, AMENDING ARTICLE IV, WATER AND SEWER CHARGES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING ARTICLE IV. WATER AND SEWER CHARGES, SECTION 23-81(D) NEW CONNECTIONS; WATER AND SEWER TAP-INS, SECTION 23-83(A) SECURITY DEPOSITS AND SECTION 23-89 NOTICE OF PROPOSED TERMINATION OF SERVICE; ADMINISTRATIVE HEARING; DISCONNECTING SERVICE OF FAILURE TO PAY CHARGES; RECONNECTING FEE AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained raising the utility deposit from \$75.00 to \$150 and the reconnection charge from \$50.00 to \$75.00 would generate revenue to help cover the costs.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR FIRST READ.**

Vice Mayor Lee agreed to sponsor this Ordinance.

Dishonored Check
Fee

ORDINANCE NO. 2010-XX, AMENDING SECTION 2-362 SERVICE FEE FOR DISHONORED CHECKS: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE VI. FINANCE, SECTION 2-362, SERVICE FEE FOR DISHONORED CHECK, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained raising the fee for returned checks from \$20.00 to \$30.00 would generate revenue to help cover the costs.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR FIRST READ.**

Councilor Tucker agreed to sponsor this Ordinance.

Citations for Code
Violations

ORDINANCE NO. 2010-XX, ADDING TO SECTION 2-447, AUTHORIZING ISSUE OF CITATIONS FOR CODE VIOLATIONS: AN ORDINANCE OF THE CITY OF NEPTUNE, FLORIDA ADDING TO SECTION 2-447 PROVISIONS OF DIVISION SUPPLEMENTAL IN THE CODE OF ORDINANCES AUTHORIZING THE CITY MANAGER AND HIS DESIGNEE TO ISSUE CITATIONS FOR VIOLATIONS OF THE CITY'S CODE AS HE DEEMS NEEDED AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the normal code enforcement process can take up to 50 days to bring compliance. This Ordinance would allow the City Manager designee to issue a citation for a code violation.

Councilor Pardee felt the designee should be the Building Official or the Code Enforcement Officer. He would like that language to be inserted into the Ordinance.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR FIRST READ.**

Mayor Pruette agreed to sponsor the Ordinance.

Traffic & Motor
Vehicles

ORDINANCE NO. 2010-XX, AMENDING SECTION 22-26 SCHEDULES OF STREETS, DISTRICTS AND ZONES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA, AMENDING CHAPTER 22, TRAFFIC AND MOTOR VEHICLES, ARTICLE II. PARKING,

STOPPING AND STANDING, SECTION 22-26, SCHEDULES OF STREETS, DISTRICTS AND ZONES, AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated this Ordinance would raise the fee for parking violations from \$25.00 to \$35.00.

Councilor Pardee agreed to sponsor the Ordinance.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS

Community
Garden

REVOCABLE CONDITIONAL USE AGREEMENT WITH BEACHES LOCAL FOOD NETWORK / COMMUNITY GARDEN: Terri Methein, representative for the Community Garden explained the Beaches Local Food Network was a non-profit organization. She would provide a copy of the financials to the Council if requested.

Councilor Pardee stated he would like to review the financials and make sure the organization was following the rules set forth in the lease agreement.

Consensus: **FORWARD TO THE APRIL REGULAR MEETING**

ISSUE DEVELOPMENT

Statewide Water
Authority

RESOLUTION NO. 2010-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA OPPOSING CREATION OF STATEWIDE WATER AUTHORITY, WEAKENING CHAPTER 373 AS RELATED TO "LOCAL SOURCES FIRST" POLICY, OR TO MAKE ANY OTHER CHANGE TO CHAPTER 373 THAT COULD PUT NORTH FLORIDA'S SURFACE WATER OR THE FLORIDA AQUIFER AT RISK BY THE TRANSFER OF NORTH FLORIDA WATER TO CENTRAL OR SOUTH FLORIDA.

Mayor Pruette introduced the Resolution and stated Neptune Beach had a proven history of support to protect the River and could be proud of that.

Vice Mayor Lee was concerned the adoption of the Resolution may jeopardize the City's chances of receiving the nitrogen grant from the St. Johns Water Management District.

Councilor Pardee stated he would not support the Resolution. He said the council was becoming an activist Council.

Councilor Tucker questioned if our sister cities had adopted a similar Resolution. Mayor Pruette responded that about 11 cities in the Northeast Florida Regional Planning District have adopted similar Resolutions.

City Manager Jarboe stated he would do some research to clarify if the St. Johns River Water Management District was for or against this Resolution and report back to the Council

Consensus: **TO FORWARD TO THE APRIL WORKSHOP AND HAVE THE CITY MANAGER PROVIDE ADDITIONAL INFORMATION REGARDING THE NITROGEN GRANT IS PROVIDED BY THE CITY MANAGER.**

Jarboe Park
Easter Service

APPROVAL FOR RESURRECTION ANGLICAN CHURCH TO HOLD AN EASTER SUNDAY SERVICE IN JARBOE PARK: City Manager Jarboe explained Reverend David Ball, Resurrection Anglican Church, has asked for permission to hold an Easter Sunday Service in Jarboe Park. They normally meet in the Old Chapel at 5:00 p.m. However, they were not able to use the Old Chapel on Sunday mornings.

Vice Mayor Lee questioned if allowing this would give the Church a privilege over other organizations or events requesting use of the park.

City Manager Jarboe replied the Church would have to provide an insurance rider naming the City just like any other organization or event coordinator.

City Clerk Volpe advised the Council this request would need to be approved before the April 5, 2010 regular meeting because Easter Sunday was April 4th.

City Attorney White advised the Council could grant the City Manager permission to the grant the request and ratify the action at the April 5, 2010 regular meeting.

Consensus: **TO ALLOW THE CITY MANAGER TO GRANT PERMISSION FOR THE CHURCH TO USE THE PARK FOR EASTER SUNDAY SERVICE AND HAVE THE COUNCIL RATIFY THE APPROVAL AT THE APRIL REGULAR MEETING.**

FY 2010-2011
Budget

FY 2010-2011 BUDGET: City Manager Jarboe stated the Council had asked him to provide information on possible ways for the city to save money. He explained the following was a list of suggestions from department heads. He added for the record that these were only suggestions, not recommendations. He will make recommendations when the proposed revenues are received from the County and the State and when he presents the budget to Council.

- Combing PDRB & BOA Meetings / Move to Day
- Day meeting for CEB / Magistrate
- Tree Permit Charge
- Right-of-way Permit Charge @ \$25.00
- Parking Fine Increase
- Utility Tax on Electric
- Renegotiate and Reduction in Public Works Uniforms
- City Buildings Mat Service Reductions
- Drop Motorcycle Contract
- No Lawn Maintenance (Police & Public Works Bldgs)
- Reduce Service by Cutting Staff
- Solar from behind K-mart
- Increase Millage Rate
- Eliminate Safety Bonuses
- Combine Council Regular and Workshop Meetings
- Reduce level of Services
- Meter Re-reads @ \$20.00
- Increase after hour charge from \$50.00 to \$75.00
- Deposit Increase from \$75.00 to \$150.00
- Increase fee for dishonored Checks from \$20.00 to \$30.00

Vice Mayor Lee stated he was interesting in hearing ideas from citizens on city cost saving ideas. He wanted to have one or two meetings that would include public suggestions.

City Manager Jarboe stated a public suggestion meeting could be held as part of a budget workshop meeting.

Mayor Pruette asked that the meeting for public suggestions be advertised on the website and in the monthly newsletter.

Councilor Pardee stated he would like to hear cost saving ideas from Board members as well as citizens.

Councilor Tucker was concerned if Board meetings were held during the day many citizens would not participate.

Adjournment

There being no further business, the meeting adjourned at 7:00 pm.

Attest:

MOTION CARRIED

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette asked if the City Manager had any information regarding the flags that were recently stolen on Florida Boulevard. City Manager Jarboe responded the police had not received any information. Vice Mayor Lee stated some flag poles were found behind the fence at Neptune Beach Elementary School.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- He is working with the Department of Environmental Protection on the location of the monitoring stations.
- The Code Enforcement Officer has been responding to complaints of banner signs and issuing citations for junk cars.
- The Building Official has been busy with inspections for the new Publix Shopping Center. As a result the Building Department has received \$20,000 in revenue.
- He was working with the Department of Environmental Protection regarding plans for the construction and operation of the nitrogen retro fit.
- He was in the process of reviewing the garbage contract which would expire in less than one year.
- He was waiting to hear from the St. Johns Water Management District regarding the finalization of the \$950,000 grant.
- Burton and Associates would begin the water and sewer rate study this month.

Mayor Pruette stated in reference to Resolution No. 2010-01, the city has been told the roadway between the shopping center is in the design phase. City Manager added the contract has been issued for the engineers to design the road.

Councilor Tucker stated she received a telephone call from a citizen regarding the sidewalk on Florida Boulevard at Third Street. City Manager Jarboe advised the Department of Transportation is in replacing the traffic light. The new traffic light pole is in the middle of the sidewalk. Once the traffic light is installed a new sidewalk will be constructed.

COMMENTS FROM THE PUBLIC

Lee Hope, 324 Driftwood Road, voiced concern regarding Ordinance No. 2010-03. City Manager Jarboe stated he would speak with Mr. Hope after the meeting.

CONSENT AGENDA

- Approval of 911 Contract
- RESOLUTION NO. 2010-01: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA REQUESTING THAT REGENCY PROPERTIES, OWNERS OF SEMINOLE SHOPS, AND NEPTUNE BEACH REALTY CORP., OWNERS OF NEPTUNE PLAZA, CONSIDER CONSTRUCTING A PASS THROUGH BETWEEN THEIR TWO SHOPPING CENTERS.

JOHNS RIVER WATER MANAGEMENT CONSERVATION RULE, FIRST READ: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING (D) TO SECTION 23-27 IN THE CODE OF ORDINANCE ADOPTING THE ST. JOHNS RIVER WATER MANAGEMENT DISTRICT'S WATER CONSERVATION RULE FOR LANDSCAPE IRRIGATION AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained adoption of this Ordinance is part of a requirement to receive a \$950,000 grant from St. Johns Water Management District.

Mayor Pruette asked City Manager Jarboe to explain this has nothing to do with the consumptive use permit. City Manager Jarboe explained the consumptive use permit was a different issue.

Councilor Weldon stated it has become necessary for the St. Johns Water Management District to require small municipalities to comply because there is a serious water shortage in Florida. He feels these conservation measures will increase and become more stringent as time progresses.

Moved by Weldon, seconded by Lee.

NEW BUSINESS

PDRB10-01
P.J.'s Bar & Grill
240 Third Street

PRELIMINARY DEVELOPMENT ORDER FOR ROBERTA R. ROBSON – P.J.'S BAR AND GRILL, 240 THIRD STREET: The applicant is proposing to build a roof extending 12 feet front the front of the building over the patio area.

Jhon Jaimes, representative for P.J.'s Bar & Grill approached the podium to respond to questions from the Council.

Councilor Weldon asked Mr. Jaimes the purpose of the extension of the roof. Mr. Jaimes replied the extended roof would protect outdoor diners from the weather.

Councilor Weldon asked if alcohol would be served in the outdoor seating area. Mr. Jaimes replied alcohol will be served in the outdoor seating area but the extension of the roof had nothing to do with serving alcohol.

Councilor Tucker questioned if there were future plans to enclose the outdoor seating area. Mr. Jaimes replied they had no plans to enclose the area.

Mayor Pruette stated the Planning & Development Review Board recommended approval of the development order.

Moved by Tucker, seconded by Pardee.

Motion: **TO APPROVE THE RECOMMENDATION OF THE PLANNING & DEVELOPMENT REVIEW WITH THE CONDITION THAT THERE WILL BE NO AMPLIFIED OUTDOOR MUSIC.**

Councilor Weldon stated he would like to abstain from the vote due to his financial interest in the adjacent property. He felt the city should not engage in this form of piecemeal development. He asked Mr. David Linger to address the Council.

David Linger, 1817 Hopkins Creek Lane, opposed the development. He felt the development did not fit in with the character of the neighborhood. He also felt the developer needed the outdoor seating area in order to obtain a liquor license.

Mayor Pruette asked Mr. Jaimes, representative for the development, if they planned to enclose the outdoor seating area in the future. Mr. Jaimes replied the owners were not present, however, he was not aware of any future plans to completely enclose the outdoor seating area.

Mayor Pruette asked Community Development Director Askew if the Planning & Development Review Board had any concerns regarding the roof extension. Ms. Askew responded the vote to recommend approval was not unanimous. The Board discussed future options but the applicant did not make any commitments.

Councilor Weldon was concerned that over time a new tenant may request to have the area completely enclosed. He felt this type of piecemeal development was very poor zoning and development management and was a disservice to adjacent businesses. He also felt the city should have a predictable consistent zoning and development process.

Vice Mayor Lee asked Kerry Chin, Chairman of the Planning & Development Review Board to address the Council.

Mr. Chin stated the Board did not find a legal reason to deny the request. He added that the Central Business District had less setback restrictions and they would be able to enclose the outdoor seating area if they chose.

Councilor Pardee stated the Council has approved less extensive developments in the Central Business District.

Councilor Weldon stated he objects to the development because the property did not have adequate parking. In order for the business to succeed, their customers would have to park in the parking lot next door.

FIND Island **F.I.N.D. ISLAND UPDATE:** City Manager Jarboe explained he and Mayor Pruette recently met with representatives of Jacksonville Transportation Authority. They provided him with information and copies of the permits. Mayor Pruette asked J.T.A. if they would hold an open public meeting at Neptune Beach City Hall to discuss possible remedies for the island.

Public Records **PUBLIC RECORDS:** Mayor Pruette asked City Attorney White to address the Council regarding public records generated through e-mails and the use of personal computers.

City Attorney White advised Council to use caution when using their personal computer for official city business. He explained that any city business generated on a personal computer is considered public record and open for inspection to the public. He further advised if anyone created a document on their personal computer that was official city business they needed to provide a copy of the document to the City Clerk, otherwise they will be responsible for the disposition of the record in accordance with state requirements. However, if the City Clerk has been provided a copy of the document they would not be responsible for its disposal. Furthermore, all city records should be maintained by the City Clerk.

**Call to Order/Roll
Call**

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Mayor Pruette announced the artwork displayed in the Council Chambers was the work of local artist Ms. Linda Olsen.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The \$900,000 grant from the St. Johns River Water Management District was in the approval stage. This will help with the unfunded mandate from the Department of Environmental Protection and the Environmental Protection Agency.
- Grants for solar power and the retrofit of the Sewer Plant were also in process.

Councilor Pardee asked if grants for 'green' vehicles were available. City Manager Jarboe stated there were grants for \$3,000 available for vehicles. He did not think \$3,000 was enough money to help the city purchase vehicles. He added the City did not purchase any vehicles last year and did not plan to purchase vehicles this year except for those purchased through police grants.

Councilor Pardee questioned if battery powered vehicles could be used on the beach. City Manager Jarboe stated battery operated vehicles would not have enough power use on the beach.

Vice Mayor Lee asked City Manager Jarboe to comment on the Hopkins Creek Contamination Study. City Manager Jarboe explained the Department of Environmental Protection found a fecal count in Hopkins Creek. A study was being conducted to determine where the contamination originated.

Mayor Pruette asked City Manager Jarboe to comment on the status of the repairs of the railings on the Kings Road Bridge. City Manager Jarboe explained a driver swerved to miss an animal and hit the railing on the Kings Road Bridge. The railing was repaired Friday afternoon.

Councilor Weldon reminded the Council they had originally agreed to place a pedestrian walkway across the King Road bridge. City Manager Jarboe stated now that the bridge was complete he would submit an application for funding to the Inland Navigation District.

PUBLIC COMMENTS

Ann Von Thron, 1012 Oceanfront, supported extending the parking hours on First Street to 9:30 or 10:00 p.m.

Vita Hope, 324 Driftwood, supported extending the parking hours on First Street to 10:00 or 10:30 p.m.

John Underwood, 110 Magnolia Street, supported extending the parking hours on First Street.

Kerry Chin, 227 Margaret Street, supported extending the parking hours on First Street to 9:30 p.m.

David Baker, 1102 First Street, supported extending the parking hours on First Street to 9:30 p.m.

Todd Bosco, 135 Cherry Street, supported extending the parking hours on First Street to 9:30 p.m.

PROPOSED ORDINANCES

Water
Conservation

ORDINANCE NO. 2010-XX, WATER CONSERVATION: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING (d) TO SECTION 23-27 IN THE CODE OF ORDINANCES ADOPTING THE ST. JOHNS RIVER WATER MANAGEMENT DISTRICT'S WATER CONSERVATION RULE FOR LANDSCAPE IRRIGATION.

City Manager Jarboe explained the St. Johns River Water Management District has encouraged counties and cities to enforce their water conservation rules. The city is required to adopt the Ordinance in order to be eligible for grants through the SJRWMD.

Vice Mayor Lee felt if the SJRWMD was willing to help, the City should also do our part by enforcing their water conservation rules.

Councilor Pardee felt the rules were very restrictive and would be hard for the city to enforce. City Manager Jarboe explained this Ordinance would implement only the two day rules that are outlined in the Ordinance.

Councilor Pardee was also concerned about having to raise water rates due to less water consumption.

Mayor Pruette asked that all Council members sponsor this Ordinance.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Road Connecting
Shopping Centers

RESOLUTION NO. 2010-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA REQUESTING THAT REGENCY PROPERTIES, OWNERS OF SEMINOLE SHOPS, AND NEPTUNE BEACH REALTY CORP., OWNERS OF NEPTUNE PLAZA, CONSIDER CONSTRUCTING A PASS THROUGH BETWEEN THEIR TWO SHOPPING CENTERS.

City Manager Jarboe explained the City could not construct the road because the property was private property abutting Proctor Ace Hardware and the new Publix. A negotiation for the roadway construction was underway between the two property owners.

Councilor Weldon felt this was a very important public safety issue. He questioned if the Resolution was aggressive enough and suggested sending a stronger message to the property owners.

Mayor Pruette stated as Mayor she would write a letter using stronger language to send to the property owners along with the Resolution.

Councilor Pardee felt the roadway between the shopping centers would remove the traffic impact on Atlantic Boulevard. He would support the Resolution but he felt using stronger language and putting pressure on the property owners would have a negative impact.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING FOR APPROVAL.**

Restrictive
Covenant

DISCUSSION OF RESTRICTIVE COVENANT: City Manager Jarboe explained the restrictive covenant was for the old McCall's site which was an old pesticide storage facility. The restrictive covenant would mean there could never be residential buildings on the property. City Attorney White would be working with the attorney for McCall's.

Mayor Pruette asked if this would any cost to the City. City Manager Jarboe replied this would not be any cost to the City.

Vice Mayor Lee asked City Attorney White if the City would be liable for any damages in the future. City Attorney White replied the city would not face any liability. There would be indemnification language in the subordination agreement between the city and property owner.

Consensus: **TO GIVE THE CITY MANAGER AUTHORITY TO MOVE FORWARD AND BRING BACK THE ISSUE TO THE COUNCIL.**

Plant Sale

City Manager Jarboe stated the Community Garden was requesting permission to have a plant sale to raise money for their educational program. The policy for large events held in Jarboe Park was that they needed approval from the Council.

Laurie Clark, 420 South Street, a coordinator for the Community Garden, explained they would like to hold fall and spring fundraisers to raise money for upkeep, maintenance, and educational programs.

Consensus: **FORWARD TO THE MARCH CONSENT AGENDA.**

Forfeiture Funds

EXPENDITURES FROM POLICE FORFEITURE FUNDS: City Manager Jarboe stated the forfeiture fund came from confiscated property of felony offenders. Finance Director Steve Ramsey explained there was currently \$60,000 in the Fund. Chief Sembach was requesting expenditures in the amount of \$11,998.

Consensus: **FORWARD TO THE MARCH CONSENT AGENDA.**

First Street
Parking

EXTENDING PARKING HOURS ON FIRST STREET: City Manager Jarboe stated there have been recent requests to extend the parking on First Street to 9:30 or 10:00 p.m. The Police Chief has the authority to change the hours, however, because the current "no parking signs" have been in place for many years, he thought it was appropriate to seek approval from the Council.

Mayor Pruette read the following from the Code of Ordinances: Section 22-27: Authority to prohibit. The chief of police of the city hereby is authorized and empowered to designate such areas within which motor vehicles may not be parked or left unattended as he may deem necessary to promote fire safety and patrol security.

Councilor Pardee felt parking on First Street should be allowed to 10:00 p.m.

Vice Mayor Lee stated he would like to see the parking on First Street extended to 9:30 p.m.

Councilor Tucker stated she would support extending the hours to either 9:30 or 10:00 p.m.

Councilor Weldon supported extending the parking to 10:00 p.m. He did not feel a half an hour would make much difference.

Mayor Pruette supported extending the parking to 9:30 p.m. She asked Police Chief Sembach to consistently enforce the no parking hours and report back to the Council January 2011.

Consensus: **TO AUTHORITY THE CITY MANAGER AND THE POLICE CHIEF TO EXTEND THE PARKING HOURS ON FIRST STREET.**

Discussion

Councilor Weldon voiced concern regarding the spoil island placed in the intracoastal waterway by the Jacksonville Transportation Authority. The concern was that J.T.A. did not properly complete the project. City Manager Jarboe suggested the Mayor write a letter encouraging J.T.A. to landscape the spoil island.

Adjournment

There being no further business, the meeting adjourned at 7:00 pm.

Harriet Pruetto, Mayor

Attest:

Lisa Volpe, CMC, City Clerk

COMMUNICATIONS AND CORRESPONDENCE

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The \$950,000 grant for nitrogen and reuse should be approved next week by the St. Johns River Water Management District.
- The design for the nitrogen retrofit at the plant is 60% complete.
- The garbage service has improved since they were fined.
- The audit was close to completion. He was waiting on information from the audit to begin study for nitrogen process.
- He is in the process of developing requests for proposals for banks.

COMMENTS FROM THE PUBLIC

Jeffrey Buckholz, 2061 Felch Avenue, Jacksonville, felt an off duty police officer working at Sun Dog was not impartial when he arrested him for trespassing, drunk and disorderly conduct and resisting an officer without violence. He felt there needed to be an outside investigation into the Neptune Beach Police Department. He also felt the city should adopt a policy for off duty policemen working for private establishments.

CONSENT AGENDA / NONE**VARIANCES / NONE****ORDINANCES**

Ord. No. 2010-01 ORDINANCE NO. 2010-01, AMENDING SECTION 27-548, DESIGN STANDARDS FOR OFF-STREET PARKING AND LOADING, FIRST READ: AN ORDINANCE AMENDING THE CODE ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING ARTICLE XIII, OFF STREET PARKING AND LOADING, SECTION 27548 DESIGN STANDARDS FOR OFF-STREET PARKING AND LOADING SECTION 27-548(B)(1) AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the surrounding cities have lowered their parking requirements.

Vice Mayor Lee agreed to sponsor Ordinance No. 2010-01.

Moved by Lee, seconded by Pardee

Motion: **TO PASS ORDINANCE NO. 2010-01 ON FIRST READ.**

Roll Call Vote:

MOTION CARRIED

Ord. No. 2010-03

ORDINANCE NO. 2010-03, AMENDING SECTION 27-581, PROHIBITED SIGNS, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING ARTICLE XV ADVERTISING, CHAPTER 27, SECTION 27-581, PROHIBITED SIGNS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance further defines that snipe signs are not allowed in public rights-of-way or on private property. This does not change the situation for personal expression signs on private property, political signs, or garage sale signs.

Mayor Pruette was concerned this would be more restrictive on private property rights. She questioned if someone would be able to place a sign on their property to advertise something for sale. City Manager Jarboe stated this does not change the Code; it just further defines the Code. That right is covered under personal expression signs.

Councilor Pardee agreed to sponsor Ordinance No. 2010-03.

Moved by Pardee, seconded by Tucker

Motion: **TO PASS ORDINANCE NO. 2010-03**

Call

Mayor Pruette called the meeting to order at 6:06 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The St. Johns River Water Management District will consider approval of nitrogen grant at their February meeting.
- The city was trying to secure a grant to provide solar power to the City Hall and Public Services buildings.
- A water and sewer rate study will begin in February after the audit is completed.
- The recent cold weather caused several water breaks.

PUBLIC COMMENTS / NONE

PROPOSED ORDINANCES

- Parking SECTION 22-3. CERTAIN MOTOR VEHICLES PROHIBITED FROM PARKING IN COMMERCIAL DISTRICTS: City Manager Jarboe explained this proposed ordinance would limit parking for non-delivery trucks to 3 consecutive hours.
- Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING FOR FIRST READ.**
- Special Exception Permits SECTION 27-163. EXPIRATION OF SPECIAL EXCEPTION PERMIT: City Manager Jarboe explained currently there was no expiration on building permits for special exceptions. Under the proposed ordinance building permits for special exceptions will expire after twelve months if construction has not commenced.
- Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING FOR FIRST READ.**
- Off Street Parking and Loading SECTION 27-548. DESIGN STANDARDS FOR OFF-STREET PARKING AND LOADING AREAS: City Manager Jarboe explained the proposed ordinance would decrease the size of the standard parking spaces.
- Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING FOR FIRST READ.**
- Prohibited Signs SECTION 27-581. PROHIBITED SIGNS: City Manager Jarboe explained clarified that snipe signs are prohibited unless otherwise exempted or expressly authorized.
- Consensus: **FORWARD TO THE FEBRUARY REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE**ISSUE DEVELOPMENT**

- Montessori Tide MONTESSORI TIDES CHILDREN'S FOUNDATION (MTCF) – CHILDREN'S FESTIVAL AT JARBOE PARK: City Manager Jarboe explained he had the authority to approve of the festival and the item could be removed from the Council agenda.
- February 2010 Meetings FEBRUARY 2010 MEETINGS: City Clerk Volpe stated the February workshop meeting would fall on Presidents Day and the City Hall would be closed. She asked Council if they would prefer to hold the workshop meeting on February 8th or February 22nd.
- Consensus: **TO HOLD THE FEBRUARY WORKSHOP MEETING ON FEBRUARY 8TH.**
- Discussion Councilor Pardee voiced concern regarding vehicles jumping curbs and running inside of buildings. He suggested adding language to the Code that would require restaurants to provide barricades to prevent vehicles from running into buildings.
- Vice Mayor Lee invited everyone to attend a Bowl-a-thon to benefit Dial-a-Ride.
- Adjournment There being no further business, the meeting adjourned at 6:15 pm.

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette thanked staff for Christmas in the Park.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The Jacksonville Sheriff's Office and the Department of Environmental Protection were investigating the dumping behind the Penman Plaza shopping center.
- The Public Service Department was working on the nitrogen issue.
- The Public Service Department was working with the Code Enforcement Officer conducting inspections to prevent grease from entering the sewer system.
- The Town Center Christmas Tree Lighting and Christmas in the Park events were a success.
- The Ish Brant Beautification Committee was working with the City of Jacksonville to beautify Florida Boulevard.

COMMENTS FROM THE PUBLIC

Rick Duncan, 407 McCollum Circle, favored Resolution No. 2009-18, designating Ish Brant Park.

Susan Moore, 401 McCollum Circle, favored Resolution No. 2009-18, designating Ish Brant Park.

Kerry Chin, 227A Margaret Street, Chair of the Planning and Development Review Board, explained the reasoning of the Planning and Development Review Board in relation to the variances requested by Penman Plaza.

CONSENT AGENDA / NONE**VARIANCES**

V09-13
Penman Plaza

V09-13, VARIANCE REQUEST FOR PENMAN PLAZA, 1209, 1223 AND 1301 ATLANTIC BOULEVARD: The request is for the Penman Plaza Shopping Center expansion to vary Sections 27-229, Lot Coverage Requirements, Section 27-455, Minimum Landscape Requirements, Section 27-457 Landscaping Requirements for Vehicular Use Areas, Section 27-540 Off Street Parking, and Section 27-459 Landscaping Buffer.

Carlos Asensio, 3715 Northside Parkway, Atlanta, Georgia, Flagler Construction Management, Penman Plaza Manager, introduced himself to the Council and responded to the Council.

Councilor Weldon questioned why the applicant was asking for changes to the variances that were previously approved by the Council last year.

Mr. Asensio replied the site plan was revised after it was presented to prospective tenants. The changes were due to a strong need for additional parking on the westside of the site. The site plan was also reevaluated and the percentages of landscape area were different from the previously approved variance request.

Councilor Weldon asked Mr. Asensio if the developer would consider relocating the landscape area from the western side to the eastern portion of the property.

Mr. Asensio stated relocating the landscape to the eastern side would create a problem due to the Winn Dixie lease. The Winn Dixie lease was signed in 1986 before the new ordinances were in place.

Councilor Weldon was concerned about the request to reduce the landscape buffer along Atlantic Boulevard from six feet to three feet. This would further decrease the required green space and increase the impervious surface on the site.

Mr. Asensio explained they did not want to disrupt the asphalt parking area that was currently in place nor did they want to disrupt the traffic pattern. They felt the landscaping design for the three foot buffer would be sufficient.

Councilor Weldon asked if the proposed parking areas would be impervious.

Mr. Asensio responded they shifted them from pavers to asphalt because they were concerned that truck traffic would destroy the pavers creating an operational maintenance problem for the owners.

Councilor Weldon asked if they could place the pavers in lieu of asphalt in a different location on the site.

Mr. Asensio stated they could place pavers for 20 parking spaces towards the Tire Kingdom site.

Mayor Pruette stated the Planning & Development Review Board recommended denial of the variance request to reduce the landscape area. The Board recommended approval for the parking with the condition that the parking spaces be pervious.

Councilor Tucker questioned where the handicap spaces would be located on the site.

Mr. Asensio replied the two handicap spaces and the ramp that were currently in place would remain.

Councilor Tucker was concerned how the trucks would be entering and exiting the center.

Mr. Asensio explained they envisioned the trucks entering along the back of the site off of Penman Road and exiting onto Atlantic Boulevard.

Councilor Pardee asked Mr. Asensio if the owner and developer would consider the recommendations and the stipulations placed on the variance requests by the Planning & Development Review Board.

Mr. Asensio stated the owner would like to maintain the existing three feet buffer on Atlantic Boulevard. He added when the center was purchased in 1980 the site was complete asphalt.

Councilor Pardee asked if there were plans for additional buildings on the site. Mr. Asensio replied "no."

Mayor Pruette stated she agreed with the Board's decision to deny the variance request to reduce the six foot perimeter landscape to three foot.

Vice Mayor Lee asked if the owner would consider making other parking spaces on the site pervious material in exchange for the asphalt parking spaces on the west side of the site.

Councilor Weldon added the city was being asked to sacrifice green space as well as a substantial increase in impervious surface in exchange for nothing from the owner.

Vice Mayor Lee stated the city would be getting a vibrant shopping center in return.

City Manager Jarboe stated that a motion needed to be on the table before discussion.

Mayor Pruette suggested the Council consider each variance request separately.

Councilor Pardee asked Community Development Director Askew to explain each variance request to the Council.

Variance Request
for Lot Coverage

Mr. Askew explained this request was to increase the maximum lot coverage. The Council previously approved a variance request to increase the maximum lot coverage to 80.9% in lieu of 75%. This request was not as intrusive because they were now proposing a maximum lot coverage of 79.6%.

Moved by Weldon, seconded by Lee.

Motion: **TO APPROVE THE RECOMMENDATION OF THE PLANNING & DEVELOPMENT REVIEW BOARD RELATED TO SECTION 27-229-1 VARIANCE TO INCREASE THE MAXIMUM LOT COVERAGE RESULTING IN A 79.6% TOTAL LOT COVERAGE FOR THE PROJECT.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

Variance Request
for Gross
Landscape Area

Mayor Pruette stated the Planning & Development Review Board recommended approval of the variance request to reduce the gross landscape by 2.7%.

Mr. Askew explained this request was to reduce the gross landscape area to 17.3% in lieu of the required 20%. The Council previously granted a variance to allow a reduction to 16.4%. This was also an improvement from the previously granted variance request.

Moved by Pardee, seconded by Lee.

Motion: **TO APPROVE THE RECOMMENDATION OF THE PLANNING & DEVELOPMENT REVIEW BOARD AND APPROVE THE SECOND VARIANCE FOR SECTION 27-44(b) GROSS LANDSCAPE AREA.**

Roll Call Vote:

Ayes: 4 – Lee, Pardee, Tucker, Pruette

Noes; 1 – Weldon

MOTION CARRIED

Variance Request
for Signage

Mayor Pruette stated the Planning & Development Review Board recommended approval of the additional monument sign provided that the two existing non-conforming signs are brought into compliance prior to construction of the new sign.

Mrs. Askew explained this request was for an additional sign. The site has two existing signs, one on Atlantic Boulevard and one on Penman Road. The Code only allows one sign per development.

Moved by Weldon, seconded by Lee.

Motion: **TO DENY THE PLANNING & DEVELOPMENT REVIEW BOARD RECOMMENDATION ON VARIANCE FOUR RELATED TO THE ADDITIONAL MONUMENT SIGNS.**

Councilor Pardee asked how many parcels were included in this development.

Mrs. Askew replied there are three separate parcels. The Tire Kingdom has its own separate

parcel and they are allowed a sign. The Sonic is on a separate parcel and they are allowed a sign. The remainder of the property is one large lot.

Councilor Weldon stated there would also be signage on the building which could be viewed from the street. In fact the developer has requested replacing the hardwood trees with palm trees so the building signs could be better seen from Atlantic Boulevard. He found the request reasonable and would agree with the recommendation of the Planning & Development Review Board.

Mayor Pruette asked Councilor Weldon to withdraw his previous motion and state a new one with the stipulations recommended by the Planning & Development Review Board.

Moved by Weldon, seconded by Lee.

Motion: **TO APPROVE THE RECOMMENDATION OF THE PLANNING & DEVELOPMENT REVIEW BOARD WITH THE FOLLOWING EXCEPTIONS, TO APPROVE TWO MONUMENT SIGNS, ONE ON PENMAN ROAD, AND ONE ON ATLANTIC BOULEVARD AND BOTH OF THOSE SIGNS MUST BE BROUGHT INTO COMPLIANCE WITH THE EXISTING SIGN ORDINANCE.**

Councilor Pardee stated there was a potential for the building to become a two story in the future which would increase the need for additional signage. He asked City Attorney White how this would fit into the current sign ordinance.

City Attorney White advised the question before the Council was a request for a variance. A variance is to offer relief from the Code. If this building became two stories and needed additional signage they would need to request a variance.

Vice Mayor Lee suggested forwarding the subject of signage to a workshop meeting to discuss the issue of signage for a shopping center with fifty stores verses a shopping center with only five stores.

City Manager Jarboe clarified the Planning & Development Review Board has asked that the existing signs come into compliance with the Code before the additional monument sign is erected.

Roll Call Vote:

Ayes: 3 – Lee, Weldon, Pruette

Noes: 2 – Pardee, Tucker

MOTION CARRIED

Variance Request
for Landscape
Area

Mayor Pruette stated this variance request was to reduce the perimeter landscape area to three feet from six feet. The Planning & Development Review Board has recommended Council deny the variance.

Mrs. Askew explained the Code requires a nine foot perimeter landscape area. The applicant was previously granted a variance from the Council to reduce the perimeter landscape area from nine feet to six feet. This request would reduce the perimeter landscape area from six feet to three feet.

Moved by Weldon, seconded by Lee.

Motion: **TO ENDORSE THE RECOMMENDATION OF THE PLANNING & DEVELOPMENT REVIEW BOARD TO DENY THE VARIANCE TO REDUCE THE PERIMETER OF THE LANDSCAPE AREA TO THREE FEET FROM THE AGREED SIX FEET.**

Councilor Weldon felt this variance request was an effort to reduce to the overall cost of redesigning the shopping center. He felt this was not adequate justification to vary the Code.

Councilor Pardee felt it was unfair to make the developer change the perimeter landscape area because the shopping center was existing and was approved by the City in the 1980's. He felt, if they were demolishing the entire building and rebuilding from the ground, they should have to come into compliance with the Code.

Moved by Weldon, seconded by Lee.

Amended Motion: **TO AMEND THE MOTION TO CLARIFY THAT THEY ARE NOT REQUIRING THE APPLICANT TO DEFAULT TO THE REQUIRED NINE FEET OF LANDSCAPE BUFFER AREA. THEY ARE ONLY REQUIRING THEM TO COMPLY WITH THE PREVIOUSLY EXISTING VARIANCE WHICH WAS SIX FEET OF LANDSCAPE BUFFER ALONG ATLANTIC BOULEVARD.**

City Manager Jarboe stated the Council had to vote on the amendment before voting on the previous motion as amended.

Roll Call Vote for the amendment:

Ayes: 4 – Lee, Tucker, Weldon, Pruette

Noes: 1 – Pardee

MOTION CARRIED

Roll Call Vote on the Motion as Amended:

MOTION CARRIED

Variance Request for Parking Spaces

Mayor Pruette explained this variance was for parking spaces. The Planning & Development Review Board has recommended approval to increase the maximum number of parking spaces to 56 with the condition that these parking spaces be pervious material with a friendly amendment to have the new parking spaces south of the Tire Kingdom made of pervious materials.

Moved by Weldon, seconded by Pardee.

Motion: **TO APPROVE VARIANCE #5 TO SECTION 27-540 TO INCREASE THE MAXIMUM NUMBER OF PARKING SPACES TO 56 OVER THE MINIMUM REQUIREMENT IN LIEU OF 30 SPACES OVER THE MINIMUM REQUIREMENT WITH THE STIPULATION THAT AN EQUIVALENT NUMBER OF SPACES OR AN EQUIVALENT SQUARE FOOTAGE OF PARKING AREA BE PAVED WITH PERVIOUS MATERIALS SO THAT WE END UP WITH THE SAME AMOUNT OF PERVIOUS VERSES IMPERVIOUS SURFACE.**

Councilor Weldon requested stated the pervious parking spaces be placed in the front of the shopping center. Mr. Asensio whether they were placed in the front or the rear of the property they would still be pervious. He felt it would not make a difference because it would still increase the pervious pavement on the site.

Vice Mayor Lee asked Mr. Asensio if he would agree to Councilor Weldon's stipulations.

Mr. Asensio replied they would accommodate 21 pervious parking spaces in the front of the parcel.

City Manager Jarboe stated the Planning & Development Review Board recommended a total of 36 parking spaces be pervious.

Mr. Asensio explained the asphalt pavement was already in place. They would have to tear out the existing pavement in order to put pavers in the front. He would agree to that if that was the motion.

Vice Mayor Lee asked if the Council was really going to make the developer tear out existing pavement.

Councilor Pardee felt this could be resolved by allowing them to get a certain amount of pervious parking spaces at any location on the site.

Councilor Weldon stated if an effort to move forward he would to agree to allow the pervious parking spaces to be placed anywhere on the site.

Moved by Weldon.

Amended Motion: **TO ALLOW THE PERVIOUS SPACES TO BE LOCATED ANYWHERE ON SITE.**

City Manager asked Vice Mayor Lee to withdraw the second to the original motion so that it would fail for lack of second and asked Councilor Weldon state a new motion.

Vice Mayor Lee withdrew his second to the original motion.

Moved by Weldon, seconded by Pardee.

Motion: **TO APPROVE THE FIFTH REQUESTED VARIANCE SECTION 27-540 INCREASING THE MAXIMUM NUMBER OF PARKING SPACES TO 56 SPACES OVER THE MINIMUM REQUIREMENT IN LIEU OF 30 SPACES OVER THE MINIMUM REQUIREMENT WITH THE STIPULATION THAT AN EQUIVALENT AMOUNT OF PAVEMENT TO THE 36 SPACES IN QUESTION WILL BE PAVED WITH PERVIOUS MATERIALS ANYWHERE ON THE PROPERTY.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

Mayor Pruette called a recess at 7:25 p.m. and reconvened the meeting at 7:30 p.m.

PDRB09-18
Penman Plaza

PDRB09-18, DEVELOPMENT ORDER FOR PENMAN PLAZA ASSOCIATES, 1209, 1223, AND 1301 ATLANTIC BOULEVARD:

Moved by Lee, seconded by Tucker.

Motion: **TO APPROVE PDRB09-18 PENMAN PLAZA ASSOCIATES BASED ON VARIANCES AS APPROVED.**

Councilor Pardee suggested that Council workshop the sign ordinance. He felt this was a unique situation because the shopping center was located on a corner lot and had three entrances.

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

ORDINANCES

Ord. No. 2009-13 ORDINANCE NO. 2009-13, CHAPTER 18, ABANDONING OR PRIVATE USE OF PUBLIC PROPERTY, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING CHAPTER 18 SECTION 18-5 ABANDONING OR PRIVATE USE OF PUBLIC PROPERTY.

Mayor Pruette read Ordinance No. 2009-13 by title only and opened the public hearing.

Michael Aston, 1523 Summer Sands Drive, favored the ordinance.

There being no further comments from the public, the public hearing was closed.

Councilor Weldon stated he and Mayor Pruette would like to reinsert the language regarding a "super majority vote" back into the ordinance.

Moved by Weldon, seconded by Pruette.

Substitute **TO APPROVE ORDINANCE 2009-13 AMENDING THE CODE OF**
Motion: **ORDINANCES OF THE CITY OF NEPTUNE BEACH ADDING CHAPTER 18**
 SECTION 18-5 ABANDONING OR PRIVATE USE OF PUBLIC PROPERTY
 INCLUDING THE ORIGINAL LANGUAGE OF THE ORDINANCE THAT IS
 CURRENTLY STRICKEN IN THE EXAMPLE WE HAVE IN FRONT OF US
 READING "THEREFORE LEGISLATION AUTHORIZING THE
 ABANDONMENT, CLOSURE OR VACATING OF CITY PROPERTY OR
 RIGHTS OF WAY SHALL REQUIRE A SUPER MAJORITY VOTE OF THE
 CITY COUNCIL. THE THIRD PARAGRAPH AS WELL THIS SECTION
 SHALL NOT APPLY TO THE LEASING OF PUBLIC PROPERTY OR
 RIGHTS OF WAY NOT TO APPROVALS BY THE CITY MANAGER OF
 RESIDENTIAL DRIVEWAY ACCESS TO PUBLIC STREETS.

City Manager Jarboe stated that would be substitute motion whether than an amendment. Vice Mayor Weldon asked that his motion be made a substitute motion.

Vice Mayor Lee was concerned that a super majority vote would allow two Council members the ability to deny a motion.

Councilor Weldon stated the State of Florida required matters relating to money and public resources be subject to a super majority vote. He felt the same should apply to all public resources which included rights of way and public property.

Vice Mayor Lee suggested amending the Ordinance adding language that it would also take a "super majority vote" to reverse the decision.

Moved by Weldon, seconded by Lee.

Amendment: **TO AMEND ORDINANCE 2009-13 TO INCLUDE BOTH PARAGRAPHS**
 PREVIOUSLY STRICKEN AND TO MODIFY THE SECOND PARAGRAPH
 WHICH CURRENTLY READS "THEREFORE LEGISLATION
 AURTHORIZING THE ABANDONMENT, CLOSURE, OR VACATING OF
 CITY PROPERTY OR RIGHTS OF WAY SHALL REQUIRE A SUPER
 MAJORITY VOTE OF THE COUNCIL IN ORDER TO REVERSE THIS
 DECISION ON THE PART OF THE CITY COUNCIL A SUPER MAJORITY
 VOTE IS REQUIRED.

City Attorney White recommended inserting the following change: "Any change to the voting requirements would have to be done by a super majority vote."

Moved by Weldon, seconded by Lee.

Amendment to the amendment: **THE SECOND SENTENCE WOULD READ "ANY CHANGES TO THE VOTING REQUIREMENTS OF THIS ORDINANCE WOULD REQUIRE A SUPER MAJORITY VOTE."**

Roll Call Vote on the two Amendments:

Ayes: 4 – Lee, Tucker, Weldon, Pruette

Noes: 1 – Pardee

City Attorney Chris White

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:15 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Mediation is currently in process between the Environmental Protection Agency and the St. Johns River Keeper regarding a requirement to decrease the nitrogen levels to as low as 1.7. The current required level is 5.7 and our sewer plant renovations were designed to maintain a nitrogen level of 3.2. If the 1.7 requirement passes this could double or triple the water and sewer rates for residents of Neptune Beach.

Mayor Pruette asked City Manager Jarboe if the City should postpone the upcoming Water and Sewer Rate Study until the mediation was settled. City Manager Jarboe responded the Water and Sewer Rate Study could not be conducted until the Audit was complete later in the year and he would have more information at that time.

PUBLIC COMMENTS

Ann Von Thron, 1012 Oceanfront, supported extending the permitted parking hours on First Street.

Sybil Ansbacher, 2008 Strand Street, favored the super majority vote on Ordinance 2009-13.

Vita Hope, 324 Driftwood Road, supported the super majority vote on Ordinance 2009-13.

Kerry Chin, 227-A Margaret Street, favored the spirit of Ordinance 2009-13. But opposed abandoning of public property for the sole benefit of a private person or cooperation. He supported the Ordinance with the super majority vote requirement.

Chris Chin, 227-A Margaret Street, supported Ordinance No. 2009-13 with the super majority vote requirement included.

PROPOSED ORDINANCES

Ord. No. 2009-13

ORDINANCE NO. 2009-13, CHAPTER 18, ABANDONING OR PRIVATE USE OF PUBLIC PROPERTY: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING CHAPTER 18 SECTION 18-5 ABANDONING OR PRIVATE USE OF PUBLIC PROPERTY.

Vice Mayor Lee stated he was concerned about the "super majority vote" because future Council's could easily change the Ordinance. He felt the "super majority vote" reversed the voting criteria because instead of needed three votes to adopt an Ordinance it would take only two votes to deny an Ordinance.

Councilor Pardee agreed with Vice Mayor Lee on the "super majority vote" language.

Councilor Tucker agreed with Vice Mayor Lee and Councilor Pardee.

Councilor Weldon felt "super majority votes" should be limited to specific issues. Currently the State mandates a super majority vote on budgetary issues and he felt because public property also has monetary value therefore a super majority vote was appropriate. In an effort to ease concerns of other Council members he suggested adding language "that it would take a "super majority vote" to reserve the ordinance".

Mayor Pruette requested the following paragraph in Section 18-5 to be reinserted: This section shall not apply to the leasing of public property or rights-of-way, nor to approvals by the City Manager of residential driveway access to public streets.

Councilor Weldon felt the "super majority vote" was important because members of Council could be strongly influenced by well meaning members of the public.

Vice Mayor Lee agreed to reinsert the "super majority vote" requirement in an effort to move the Ordinance forward.

Councilor Pardee stated the "super majority vote" was stricken from the first read of the Ordinance. He questioned if the entire Ordinance would need to go back to first read if the language was reinserted.

City Clerk Volpe stated the Ordinance could be amended on second read and would

not need to go back to first read.

Consensus: **REINSERT ALL LANGUAGE AND FORWARD TO SECOND READ AS AMENDED.**

City Manager Jarboe they would have to vote on the amendment to undelete at the regular meeting before voting for the second read.

Chapter 6 Animals

CHAPTER 6, ANIMALS: City Manager Jarboe explained an Animal Ordinance Committee was created to recommend amendments to the animal ordinance. The recommendations have been reviewed by the staff and were now before the Council. He felt some of the proposed changes did not apply to our small city due to the size of our staff and the cost.

City Manager Jarboe recommended deleting the following proposed changes:

Section 6-13, definition of Potentially Dangerous Dogs. He felt it was too subjective, open to interpretation, hard to enforce and would not hold up in court.

Section 6-3, Licensing Required for Dogs and Cats. He stated the City stopped licensing dogs and cats and depended on the rabies tag to make sure they were licensed. He added only 10 to 15% of owners actually registered their animals. It also required a lot of staff time and only brought in \$1,500 per year.

City Manager Jarboe recommended reinserting the following proposed change.

The defendant may exercise their option on a penalty by paying a specific fine at the Public Safety Department within 10 days before having to appear in court.

He felt the remainder of the recommended proposed changes presented by the Animal Ordinance Committee should be considered.

Councilor Weldon stated the committee also recommended the Council appoint an Animal Board to oversee and enforce the Ordinance. City Manager Jarboe responded he also recommended deleting that proposed change.

Councilor Weldon agreed the city should not reinstate the licensing requirement. The city did not have the staff or financial resources to support an Animal Board. He suggested the City Attorney rewrite the definition of Potential Dangerous Dogs so that it would be less open to interpretation and hold up in Court.

Councilor Tucker stated she supported the changes as recommended by the City Manager and the Animal Ordinance committee. She also felt all three beach cities should have similar animal ordinances.

Councilor Pardee agreed with the proposed changes by the committee and the City Manager. He asked City Manager Jarboe to review the changes with the City Attorney and the Board once more and prepare a clean copy with the proposed changes for the Council.

Vice Mayor Lee stated the issue of the dog committee began over an aggressive dog. He agreed with Councilor Weldon's suggestion to have the City Attorney revise the language of the Potentially Dangerous Dog so that it would hold up in a Court.

City Manager Jarboe stated he would prepare a clean Ordinance to present to the Council for the January workshop meeting.

Councilor Weldon questioned the proposed change of hours allowing dogs on the beach. He asked a committee member to approach the podium and address the issue.

City Manager Jarboe stated it was not a task of the Animal Ordinance Committee to change the hours that dogs were allowed to be on the beach.

Mr. Hammerfer, Professional Dog Trainer, and Member of the Animal Ordinance Committee, explained the reasoning for the Potentially Dangerous Animals definition was to allow the owner the opportunity to seek training and revise the way they handled an animal before someone was hurt.

City Clerk Volpe stated the Code as follows: It is unlawful for any person who shall own, keep, harbor, or be in control of a dog to allow the dog upon the Atlantic Ocean beach in the city except during the hours of 5:00 p.m. to 9:00 a.m. during daylight savings time and 4:00 p.m. to 10:00 p.m. during eastern standard time.

Nichole Hahl, Attorney, and member of the Animal Ordinance Committee, explained there was a State law definition of Potentially Dangerous Dogs and cities could not make the law less restrictive but were allowed to make the law stricter. The purpose was to recognize the potential of a dog to become aggressive and make sure the dog received training and attention before it actually became dangerous. The Potential Dangerous Dog definition has been successfully used and upheld in other cities throughout Florida.

Sandy Golding, Member of the Animal Ordinance Committee, stated their definition of Potentially Dangerous Dog was modeled after the Humane Society of the United States legislation.

Mayor Pruette asked Director of Public Safety Sembach for his opinion on the proposed changes.

Chief Sembach felt the Animal Ordinance Committee was created due to an overreaction to an isolated incident involving a dog attack. He added there has not been a report of a dog bite to a human in over a year. There will always be isolated incidents. He felt the current Ordinance was comprehensive and complete and did not require any changes.

Consensus: **CITY MANAGER JARBOE AND CITY ATTORNEY TO RESEARCH CASE LAW ON POTENTIALLY DANGEROUS DOGS PROVIDE A CLEAN COPY TO COUNCIL AND COMMITTEE MEMBERS AND FORWARD TO THE JANUARY OR FEBRUARY WORKSHOP MEETING.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Res. No. 2009-XX **RESOLUTION NO. 2009-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH HONORING ISH BRANT AND DECLARING A NAMESAKE PARK.**

Councilor Weldon stated he coincidentally uncovered the fact that the Ish Brant Park located behind the K-mart was never officially designated by Resolution. The Resolution was suppose to have been adopted in 1998. Due to an administrative error the Resolution was never placed on the Council agenda. Therefore he would like to

correct the error and have Council adopt the Resolution.

City Manager Jarboe stated this error was an oversight by the Council in 1998 and it was always assumed the park had been designated.

Councilor Pardee suggested exploring alternate uses for property that would benefit the city monetarily before declaring the property as a park. He also asked for staff to explore the possibility of the city reclaiming the Lemon Street right-of-way to allow vehicles access to the park.

Mayor Pruette felt it would be difficult for the city to reclaim the right-of-way. She also asked Council to consider that the property has been a park for the past ten years.

City Manager Jarboe stated if a road was provided to the park there would still not be access to the park because vehicles would have to travel through the K-mart property to access the roadway into the park.

Councilor Weldon strongly encouraged council to forward the Resolution to the Regular Council meeting and adopt the Resolution as originally intended.

City Manager Jarboe stated he would contact the three owners of the adjacent property in an effort to reclaim the right-of-way.

Consensus: **FORWARD TO THE DECEMBER REGULAR COUNCIL MEETING.**

PDRB09-17, SPECIAL EXCEPTION FOR OUTDOOR DINING, 309 ATLANTIC BOULEVARD, ATOMIC FLYING FISH: Mayor Pruette asked Mr. Buckley Baranic to approach the podium for questions from the Council.

Councilor Pardee was concerned about the Sprint customers loitering and drinking store bought beer on their premises. He asked if this would be monitored. Mr. Baranic replied they would be monitoring the area and there would only be seating for sixteen customers. The dining would be casual with beer and wine served. The entrance to the outdoor dining area would be located at the front of the store.

Vice Mayor Lee asked Mr. Baranic if he was familiar with the new outdoor dining guidelines that have imposed. Mr. Baranic replied he has reviewed them and was comfortable with the new guidelines. Vice Mayor Lee voiced concern regarding grease from restaurants entering the city sewer system. Mr. Baranic stated he would be monitoring the disposal of the grease.

Councilor Weldon asked Mr. Baranic if the outdoor seating area would be covered. Mr. Baranic replied he may desire to place a canopy top over the outdoor dining area in the future and he would obtain any permits necessary at that time. Councilor Weldon asked Mr. Baranic to make sure the outdoor dining area met all the handicap requirements.

City Manager Jarboe stated his greatest concern was sewer nitrogen and the amounts of grease entering the city sewer system. This is also a concern with all restaurants.

Moved by Lee, seconded by Weldon.

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette stated Vice Mayor Weldon tendered his resignation as Vice Mayor. She would like Council to discuss the issue under new business.

Mayor Pruette stated she was working with staff to have a barrier placed along the hazardous curve on Florida Boulevard.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- He was working with the County to have a barrier placed on Florida Boulevard.
- Currently an accident involving one fatality is being investigated on Atlantic Boulevard in front of the K-mart Shopping Center.
- There were eleven arrests made throughout the Georgia / Florida football game weekend.
- There will be a ground breaking for Seminole Shoppes Wednesday, November 4, 2009 at 2:00 p.m. The old building has been demolished and all previous code enforcement action has been terminated.

COMMENTS FROM THE PUBLIC

Scott Wiley, Davis Street, felt Ordinance No. 2009-13 outlining guidelines for abandoning public property did not need to be supported by a super majority vote of the Council.

Lynda Padrta, 1113 First Street, supported Ordinance No. 2009-13 because it defined guidelines for Council to follow when considering the abandonment of city property.

Director of Finance Steve Ramsey explained this Ordinance amended the operating budget FY 08/09 to include an increase in revenue of \$94,000 and a decrease in the State revenue of \$65,500.

Mayor Pruetto read Ordinance No. 2009-12 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Pardee, seconded by Tucker.

Motion: **TO PASS ORDINANCE 2009-12 ON FIRST READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruetto

MOTION CARRIED

Ord. No. 2009-13

ORDINANCE NO. 2009-13, CHAPTER 18, ABANDONING OR PRIVATE USE OF PUBLIC PROPERTY, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA ADDING CHAPTER 18 SECTION 18-5 ABANDONING OR PRIVATE USE OF PUBLIC PROPERTY.

City Manager Jarboe explained this Ordinance provided guidelines for the abandonment of public property.

Moved by Weldon, seconded by Lee.

Vice Mayor Weldon felt it was important that the abandonment of public property be by a super majority vote.

Councilor Lee was concerned about the ramifications of the super majority vote as far as setting precedence for requiring super majority votes on other ordinances..

Mayor Pruetto felt the super majority vote would protect the City.

Councilor Pardee agreed with Councilor Lee's concern regarding setting precedence for requiring super majority votes.

Councilor Lee was also concerned this Ordinance would not prevent future Councils from abandoning public properties because they would be able to change the Ordinance.

Motion: **TO PASS ORDINANCE NO. 2009-13 ON FIRST READ.**

Roll Call Vote:

Ayes: 2 – Weldon, Pruette

Noes: 3 – Lee, Pardee, Tucker

MOTION FAILED

Moved by Weldon, seconded by Lee.

Motion: **TO PASS ORDINANCE NO. 2009-13 ON FIRST READ STRIKING THE SECOND AND THIRD PARAGRAPH OF SECTION 18-5. TAKING OUT THE SUPER MAJORITY REQUIREMENT AND THE LAST PARAGRAPH WHICH APPLYS TO THE SUPER MAJORITY REQUIREMENT. LEAVING ONLY THE DESCRIPTION OF THE PERMANENT ABANDONMENT ISSUE AND FORWARD TO THE NOVEMBER WORKSHOP DISCUSSION.**

PDRB09-15
1585-1589 Atlantic
Blvd.

PDRB09-15, SPECIAL EXCEPTION FOR OUTDOOR DINING AT 1585-1589 ATLANTIC BOULEVARD, TRADEWINDS PLAZA: City Manager Jarboe explained at the request of the Council he has provided rules for outdoor seating on private property similar to the guidelines for outdoor seating on public property. He asked Council to add the new policy in the motion when approving the outdoor seating for the following properties.

Councilor Pardee requested the requirement that the outdoor lighting be white in color be stricken from the policy.

City Manager Jarboe stated the policy was consistent with the guidelines for outdoor seating on public property.

Moved by Lee, seconded by Tucker.

Motion: **TO APPROVE THE OUTDOOR SEATING WITH THE POLICY AS AMENDED.**

Vice Mayor Weldon asked the owner to consider the rights of non-smokers to be able to dine outside. Mr. Darryl Grubbs, property owner, replied that he would speak with the restaurant

owner regarding the smoking conditions.

Mr. Grubbs requested a copy of the new policy for outdoor dining. City Clerk Volpe stated she provide him with a copy.

Councilor Pardee asked if a barricade would be provided to prevent vehicles from accidentally entering the area. Mr. Grubbs stated there would be a railing surrounding the area to prevent vehicle entry. He added parking was arranged parallel to the side of the area.

Moved by Lee, seconded by Pardee.

Motion: **TO APPROVE PDRB09-17 WITH THE SPECIAL EXCEPTION RULES.**

Vice Mayor Weldon voiced concern regarding there being more seating outside than there would be inside. He added outdoor dining was usually approved on the basis of the interior space being able to support the business. Mr. Gerard Vermay, architect for the restaurant, explained the restaurant was mostly take-out.

Councilor Lee was concerned about the sale of alcohol on the premises.

City Manager Jarboe suggested deferring approval until the owner was able to address the concerns of the Council.

City Attorney White asked Councilor Lee to withdraw his motion. Councilor Lee withdrew his motion.

City Clerk Volpe stated the item could be placed on the special meeting before the November 16, 2009 workshop meeting.

Consensus: **TO DEFER UNTIL NOVEMBER 16, 2009.**

Vice Mayor

Mayor Pruette stated Vice Mayor Weldon resigned as Vice Mayor and Council needed to elect a new Vice Mayor.

City Attorney White stated Council had to vote for someone to fill the position.

Mayor Pruette asked Vice Mayor Weldon if he had any comments. Vice Mayor Weldon stated he has enjoyed being Vice Mayor and appreciated the honor. Mayor Pruette opened the floor for nominations.

Vice Mayor Weldon nominated Councilor Fred Lee.

Senior Activity Center Director Leslie Lyne
Director of Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Services Leon Smith

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- There was a water break on the site of the new Publix and the city was working on the repair.
- A ground breaking ceremony for the new Publix will be held in November.
- The paving of Third Street has slowed down and will pick up after the first of the year.
- The contractor for the Florida Department of Transportation will be leveling the manholes on Third Street.
- The development order for Beaches Chapel will go before the Board of Appeals due to a request for a variance in a residential area. Following the Board of Appeals decision the development order will go before the Planning & Development Review Board for recommendation. It should be before Council in

January.

Councilor Lee questioned if the Florida Department of Transportation started the preparations for paving Third Street. City Manager Jarboe replied preparations have begun for the installation of street and traffic lights.

Councilor Lee questioned if FDOT would be correcting any ADA issues along Third Street. City Manager Jarboe replied yes.

Mayor Pruette questioned if the fence along Florida Boulevard was going to be replaced after having been damaged three times by out of control vehicles. City Manager Jarboe stated he was working with the City of Jacksonville to have a reflective barricade installed.

PUBLIC COMMENTS

Daryl Grubbs, 1919 Nightfall Drive, felt rights-of-way usage should be considered on a case-by-case basis. He added Florida Statutes allows rights-of-way to be abandoned to adjoining property owners if the city did not have a need for them.

PROPOSED ORDINANCES

PORF Ord.

ORDINANCE NO. 2009-XX, CHAPTER 2, ADMINISTRATION, ARTICLE V, EMPLOYEE BENEFITS, DIVISION 4, SECTIONS 2-345 THROUGH 2-349.25; AN ORDINANCE OF THE CITY OF NEPTUNE BEACH AMENDING CHAPTER 2, ADMINISTRATION, ARTICLE V, EMPLOYEE BENEFITS, DIVISION 4, POLICE OFFICERS' RETIREMENT SYSTEM, SECTIONS 2-345 THROUGH 2-349, INCLUSIVE, OF THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH; PROVIDING FOR CODIFICATION; PROVIDING FOR SEVERABILITY OF PROVISIONS; REPEALING ALL ORDINANCES IN CONFLICT HERewith AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained after reviewing the ordinance he would like to remove the non-mandatory items. He asked to have the pension board investment advisor address the non-mandatory items at a future Council meeting. He advised Council to move forward with the Ordinance regarding only the state mandated items.

Consensus: **REMOVE THE NON-MANDATORY ITEMS AND FORWARD TO THE NOVEMBER REGULAR MEETING FOR FIRST READ.**

Budget Ord.

ORDINANCE NO. 2009-XX, AMENDING THE OPERATING BUDGET FY 2009; AN ORDINANCE AMENDING THE OPERATING BUDGET FOR THE CITY OF NEPTUNE BEACH, FLORIDA FOR FISCAL YEAR 2009, BEGINNING OCTOBER 1, 2008, AND ENDING SEPTEMBER 30, 2009.

Director of Finance Ramsey explained this Ordinance amended the operating budget for year 2009/2010 to reflect additional revenue received from FEMA, funding received for the Kings Road Bridge, and a loss of state revenue.

City Manager Jarboe added the Ordinance was necessary for the city to be prepared for the annual audit.

Consensus: **FORWARD TO THE NOVEMBER REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE**ISSUE DEVELOPMENT**

Rights-of-Way

USE OF PUBLIC RIGHTS-OF-WAY: City Manager Jarboe stated the agenda packet included a complete list of properties the city has abandoned throughout the years. He has submitted a proposed policy outlining guidelines to abandon rights-of-ways, which included having a unanimous vote of the Council.

Vice Mayor Weldon felt public rights-of-way belonged to the community and before the City abandoned any rights-of-way it should be the result of an overriding public interest. The policy included guidelines for the Planning & Development Review Board and the Board of Appeals. The policy also included a statement advised by the City Attorney that public property shall only be abandoned to promote public welfare, not for benefit of a private person or corporation. He felt Council should consider amending the language to a "super majority of votes", meaning 4 out of 5, in lieu of "a unanimous vote of the Council".

Mayor Pruette agreed the Council should consider amending the language to "super majority of votes".

Vice Mayor Weldon added people that are genuinely interested in asking the city to abandon property should be willing to pay the value for the property.

Councilor Lee stated he would like Council to maintain the ability to lease rights-of-way. He added the current sidewalk leases for outdoor seating have benefited restaurant owners and produced a small revenue stream for the City.

Councilor Pardee was concerned about the language and wanted to ensure that the City would not be forced to sell a right-of-way just because someone offered the assessed value. He felt having guidelines for the Boards to follow was a good idea.

Vice Mayor Weldon stated the policy could be amended to read "The Council can either require that the abandoning of a right-of-way be of public interest and that the city is compensated in a material way equal to the current value."

Councilor Pardee also felt leasing rights-of-way were a benefit to property owners and the City. He also agreed with amending the language to a super majority vote.

City Attorney White asked Vice Mayor Weldon if he would be willing to amend the last paragraph to replace the word "requirement" with "exception." Vice Mayor Weldon agreed.

City Attorney White stated he would meet with City Manager Jarboe to amend the language in Section 27-478 dealing with rights-of-way.

Vice Mayor Weldon felt Council should be aware that allowing someone to build a structure on public property was effectively abandoning that property whether it is intended or not.

Consensus: **FORWARD TO THE NOVEMBER MEETING FOR FIRST READ.**

City Manager Jarboe stated he and City Attorney White would amend the policy and have it prepared for first read at the November regular meeting.

OPEN DISCUSSION

Vice Mayor Weldon stated he would like Council to correct paperwork errors regarding the Ish Brant Park behind the K-mart Shopping Center. He asked staff to prepare a Resolution and have the property surveyed to determine if the deed matched the plat.

Councilor Pardee requested the Ish Brant Park Resolution be placed on the November workshop meeting agenda.

Adjournment

There being no further business, the meeting adjourned at 6:30 pm.

COMMUNICATIONS AND CORRESPONDENCE

City Clerk Lisa Volpe stated she was nominated to be arrested and raise \$3,200 by November 5th for the Muscular Dystrophy Association. She asked for donations.

City Manager Jarboe received an agreement from the City of Jacksonville for the 2009 Sea and Sky Spectacular. They were not requesting funding from the city this year. He asked Council to allow him permission to sign the agreement after it was reviewed by the City Attorney.

Consensus: **TO ALLOW THE CITY MANAGER TO SIGN THE CONTRACT FOR THE SEA AND SKY SPECTACULAR ONCE CITY ATTORNEY WHITE HAS REVIEWED IT.**

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The old Food Lion building would be demolished by the end of the month. The ground breaking ceremony was scheduled for November 5th.
- Construction of P.J.s Sports Bar was underway.
- The Beaches Chapel development order for expansion would be before the Planning and Development Review Board in November and would come before Council in December.

COMMENTS FROM THE PUBLIC

Chris Chin, 227 Margaret Street, was concerned about how police calls were reported. She stated on Saturday night seven different phone calls were made to the Police Department regarding three separate incidents on Margaret Street, however only one phone call was documented.

Call to Order/Roll
Call

Mayor Pruette called the meeting to order at 6:12 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The City would be receiving a \$950,000 grant from the St. Johns River Water Management District.
- Police grant of about \$370,000 is in the works.

Councilor Lee stated for the benefit of the audience that the \$950,000 grant would be used to solve the nitrogen issue and water reuse.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, felt the sanitation fees were not fair to those who did not generate much trash. She suggested the City consider the possibility of having citizens pay for trash by the bag. She opposed smoking in outdoor dining areas. She also opposed the City abandoning or allowing use of public rights-of-ways.

Tim Slater, 573 Magnolia Street, felt public property should be preserved.

PROPOSED ORDINANCES

Alcoholic Beverages

ORDINANCE NO. 2009-XX, CHAPTER 4, ALCOHOLIC BEVERAGES: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA DELETING CHAPTER 4 ALCOHOLIC BEVERAGES, SECTION 4-7 PERSONS NOT HOLDING AN ALCOHOLIC BEVERAGES LICENSE AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the Ordinance needed to be amended as follows for clarification purposes. Section 4-7. Persons no holding an alcoholic beverage license. It shall be unlawful for any person(s) or business operating for profit, but not licensed to sell alcoholic beverages within the city, to sell, serve, give away or dispense alcoholic beverages or allow the same to be consumed upon any business. ~~Premises between the hours of 2:00 a.m. and 7:00 am. all days of the week.~~

Vice Mayor Weldon stated he would sponsor the ordinance.

Consensus: **FORWARD TO THE OCTOBER REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Use of Public Rights of Way

USE OF PUBLIC RIGHTS-OF-WAY: Councilor Pardee stated he would like to hear the opinion of the City Attorney on use of the city rights-of-way.

Mayor Pruette stated she requested a legal opinion from City Attorney White.

City Attorney White advised rights-of-ways were held in trust for the use of the public. There was a difference between the use of a right-of-way and abandonment of a right-of-way. Abandonment is the conveyance of the right-of-way to a third party for whatever reason. The city has the authority to adopt an Ordinance preventing the use of rights-of-way or Council could allow uses on a case by case basis. The city has the authority to allow reasonable use of rights-of-way but not to the extent that the rights-of-way are closed off from all public access or use.

Councilor Pardee questioned if it was legal for the City to lease rights-of-way. He felt leasing rights-if-way that were adjacent to private property could be a benefit to the city.

Vice Mayor Weldon felt rights-of-way belong to the citizens. He agreed Council should review requests for uses on a case by case basis. He also felt there should be justification that the use is in the best interest of the community before the city allows the use of or abandoned any city property. He added that just because a citizen owned property adjacent to the right-of-way did not give that give person any better claim to the property.

Councilor Tucker agreed the Council needed legal advice from the City Attorney before allowing further uses of City rights-of-ways.

City Attorney White stated he would prepare an overview to present to Council showing what Florida law has allowed and disallowed relating to use of public property.

Consensus: **HAVE THE CITY ATTORNEY PREPARE AN OVERVIEW.**

Councilor Lee asked City Attorney White to review how the City handled public rights-of-way in the past.

Councilor Pardee stated the Planning and Development Review Board has asked Council for direction on the issue.

Outdoor Seating

OUTDOOR SEATING: City Manager Jarboe explained the owners of Sun Dog Diner and Caribbee Key have requested that the outdoor dining areas remain open until 2:00 a.m. They were currently closed at 12:00 a.m. Director of Public Safety Sembach advised Council he was okay with allowing the outdoor dining to remain open until 2:00 as long as there was an off duty police officer present on weekends and during large events.

Vice Mayor Weldon stated he was not opposed to allowing the outdoor dining areas to remain open until 2:00 a.m. as long as they agreed to have security as requested by Chief Sembach. He also asked the owners to treat the area as they would the inside and have a last call at 1:30 a.m.

Mayor Pruette asked the owners about the non-smoking issue and cleaning up the cigarette butts from the fronts of the restaurants. Mr. Brocato, owner of Caribbee Key replied his employees clean the sidewalk when they open the restaurant at 9:00 a.m. He stated he would also add the Ordinance No. to the no smoking signs on the tables.

Mr. Winter, owner of Sun Dog Diner, stated due to security reasons, he also cleaned the sidewalks in the morning.

Councilor Pardee stated he would agree to support extending the hours until last call at 1:30 a.m. He felt the smokers outside on the sidewalk were not necessarily the responsibility of the restaurant owners.

Consensus: **FORWARD TO THE OCTOBER REGULAR MEETING.**

Community Development Director Askew stated this would change Chapter 27.

Councilor Pardee was concerned about the effect of the changes to Chapter 27 on other outdoor dining areas.

City Manager Jarboe stated the hours of operation would be changed in the lease agreements.

Councilor Weldon stated the Council could not control outdoor dining on private property. City Manager Jarboe stated the Council could control outdoor dining hours because it is only permitted by exception.

Res. No. 2009-13

RESOLUTION NO. 2009-13: A RESOLUTION IN SUPPORT OF BEACHES VETERAN SERVICE ORGANIZATION'S "ARMED FORCES COMMUNITY COVENANT" PROGRAM.

Consensus: **FORWARD TO THE OCTOBER REGULAR MEETING.**

Agenda Packets

Vice Mayor Weldon asked the Council to give City Clerk Volpe direction on preparing the Council agenda packets.

Consensus: **TO GO BACK TO THE OLD WAY OF PREPARING AGENDA PACKETS USING ONE SIDED COPIES WITH DIVIDING TABS**

BETWEEN AGENDA ITEMS, AND BIND USING THE BLUE COVER.

Adjournment

There being no further business, the meeting adjourned at 6:54 pm.

SPECIAL CITY COUNCIL MEETING
SEPTEMBER 21, 2009 AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Special Meeting of the City Council of the City of Neptune Beach was held September 21, 2009 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Weldon
Councilor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
City Attorney Chris White
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Senior Center Director Leslie Lyne
Director of Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Services Leon Smith
Deputy City Clerk Karla Strait, CMC

Order Call

Mayor Pruette called the special meeting to order at 6:00 p.m.

Ord. No. 2009-08

ORDINANCE NO. 2009-08, ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES, SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2009, AND ENDING SEPTEMBER 30, 2010; SETTING FORTH CERTAIN INFORMATION REGARDING "ROLLED-BACK RATES"; DIRECTING THE CITY MANAGER TO ADJUST THE ADOPTED MILLAGE RATES IN THE EVENT OF CHANGES IN THE ASSESSMENT ROLL AND TAXABLE VALUE; PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read the following for the record: "The taxing authority is the City of Neptune Beach USD4, the roll back rate is 2.8612, the percentage increase over the roll back rate is 6.63% and the millage rate to be levied is 3.0510."

Mayor Pruette read Ordinance No. 2009-08 by title only and opened the public hearing.

Vita Hope, 324 Driftwood Road, supported the millage rate increase. She thanked the Council for doing the right thing for the City.

There being no further comments from the public, the public hearing was closed.

Mayor Pruette stated for the record, she appreciates and commends the hard work that staff has put into the budget and their efforts to reduce expenses and minimize the effect of revenue shortfalls. It is not easy for any of us to sit up here tonight and raise taxes and fees. But in order to provide the services our residents expect and protect the financial wellbeing of our City we have no other effective or responsible choice. Our City Manager and Finance

Director have strongly recommended this action be taken. I agree with their assessment and hope that you are all in agreement to adopt the proposed budget and the proposed millage.

Moved by Weldon, seconded by Lee

Motion: **TO ADOPT ORDINANCE NO. 2009-08 ON SECOND AND FINAL READ.**

Ord. No. 2009-09 **ORDINANCE NO. 2009-09, ADOPTING A FINAL BUDGET AND APPROPRIATING FUNDS FOR THE FISCAL YEAR 2009/2010. SECOND READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING A FINAL BUDGET AND APPROPRIATING FUNDS FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2009, AND ENDING SEPTEMBER 30, 2010; PROVIDING AN EFFECTIVE DATE.**

Mayor Pruette read Ordinance No. 2009-09 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Lee seconded by Pardee

Motion: **TO ADOPT ORDINANCE NO. 2009-09 ON SECOND AND FINAL READ.**

Councilor Lee reiterated that in order for him to vote favorably for this budget he wants to hold a workshop meeting to review the city vehicle policy. He would also like to review the sanitation contract, work with the Senior Activity Center to help it become self sufficient, and start the 2010/2011 budget process earlier in the year.

Mayor Pruette stated it was her understanding that if taxes were raised the City would not cut any services. She liked the idea of placing the Cast-a-Line on the internet. However, she asked the City Manager to mail the newsletter to citizens at their request.

Consensus: **TO HAVE THE CITY MAIL THE CAST-A-LINE AT THE REQUEST OF CITIZENS.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

MINUTES
REGULAR CITY COUNCIL MEETING
SEPTEMBER 9, 2009 AT 6:00 P.M.
CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Regular Meeting of the City Council of the City of Neptune Beach was held September 9, 2009 at 6:00 p.m., in the City Hall Council Chambers, 116 First Street, Neptune Beach, Florida.

Attendance

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Weldon
Councilor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
City Attorney Christopher White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Director of Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Service Leon Smith

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Councilor Tucker to lead the Pledge of Allegiance.

Ord. No. 2009-08

ORDINANCE NO. 2009-08, ADOPTING FINAL MILLAGE RATES, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA, ADOPTING FINAL MILLAGE RATES AND LEVYING AD VALOREM TAXES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2009, AND ENDING SEPTEMBER 30, 2010; SETTING FORTH CERTAIN INFORMATION REGARDING "ROLLED-BACK RATES"; DIRECTING THE CITY MANAGER TO ADJUST THE ADOPTED MILLAGE RATES IN THE EVENT OF CHANGES IN THE ASSESSMENT ROLL AND TAXABLE VALUE; PROVIDING AN EFFECTIVE DATE.

Mayor Pruette stated she respected and appreciated the Council's diligent and thoughtful deliberation regarding how best to address the city's revenue shortfall. She also appreciated and commended the hard work city staff put into the budget and their efforts to reduce the effect of the revenue shortfall.

City Manager Jarboe explained staff faced a challenge this year of reducing the budget to cover the \$338,000 shortfall of state revenue and property tax and an additional \$83,000.

Mayor Pruette read Ordinance No. 2009-08 by title only and opened the public hearing.

Lee Hope, 324 Driftwood Road, supported an increase in the millage rate and felt Council should vote on the budget as proposed.

William Jones, 506 Rosebud Lane, a retired Neptune Beach Police Officer, supported an increase in the millage rate.

Scott Wiley, 723 Davis Street, supported an increase in the millage rate. He encouraged Council to support the budget unanimously.

There being no further comments from the public, the public hearing was closed.

Councilor Pardee asked Finance Director Ramsey what the proposed millage rate would be if the sanitation and stormwater fees were not included in property taxes. Mr. Ramsey replied if the stormwater and sanitation fees were not included in property taxes the proposed millage rate of 3.22 could be lowered to 3.0510. The Council would need to adopt a Resolution to increase the stormwater and sanitation fees \$2.00 each at the next Budget meeting.

City Manager Jarboe was concerned that next year the State would cap the millage rate on all Florida cities. This could hurt Neptune Beach if the millage rate was not increased to 3.22.

Mayor Pruette was concerned taxes would have to be raised again in the near future if the Council voted for the lower 3.0510 millage rate. She felt stormwater and sanitation fees should be addressed during this budget process.

City Manager Jarboe stated the issue of raising the stormwater and sanitation fees or including them in property taxes was a policy issue to be determined by the Council not the staff.

Vice Mayor Weldon suggested Council agree to increase the millage rate to 3.0510 and adopt a Resolution implementing a \$2.00 increase in both the sanitation fee and stormwater fee.

Councilor Tucker stated she was against raising taxes but at this point she would support the lower millage rate of 3.0510.

Councilor Lee explained his strategy was to make sure the city had reduced expenses as much as possible before raising the millage rate. He would support the 3.0510 millage rate if Council agreed to the following conditions: 1) the sanitation and stormwater fee would not be included in the property tax rate, 2) Council will commit to reviewing the sanitation contract within the next two months, 3) a study to be conducted on city vehicle usage and the efficiency of those vehicles prior to next budget season, 4) Council begin the next year budget process three months earlier, and 5) the Senior Center to become financially self sufficient and phased out of the city budget within two years.

Mayor Pruette stated she would like to hold a budget meeting in January 2010 to brainstorm ideas that would increase city revenue. She agreed with reviewing the sanitation contract.

Councilor Pardee agreed with Councilor Lee's suggestions. He felt the stormwater and sanitation fees should not be included in property taxes. By not including these fees in property taxes each citizen would pay the same flat rate. These fees could also be changed by Resolution if necessary.

Moved by Pardee, seconded by Weldon.

Motion: **TO SET THE MILLAGE RATE FOR 2009/10 FY AT 3.0510 AND ALSO IMMEDIATELY ADDRESS A RESOLUTION TO ADJUST THE STORMWATER AND SANITATION FEES TO COMPENSATE FOR THE SHORTFALLS AND TO PASS ORDINANCE NO. 2009-08 ON FIRST READ.**

Mayor Pruette suggested including the increased amount of stormwater and sanitation fees in the motion. City Attorney White stated these fees must be raised by Resolution.

City Manager Jarboe stated Council needed to schedule a meeting for the second read of the ordinance. City Clerk Volpe stated the meeting for second read is scheduled for September 21, 2009.

For the Record Vice Mayor Weldon stated for the record the Resolution increasing stormwater and sanitation fees will be presented at the next meeting.

Roll Call Vote:

Ayes: 3 - Lee, Pardee, Weldon

Noes: 2 - Tucker, Pruette

MOTION FAILED

City Manager Jarboe stated the motion failed because at least 4 positive votes were necessary to increase the millage rate. The rate would automatically defer to the roll-back rate of 2.8 unless an opposing member presented a new motion.

Vice Mayor Weldon stated the Council had a responsibility to the entire community to act in a fiscally prudent manner. He felt for council members to oppose the motion without an explanation or suggestion was not prudent. He asked Mayor Pruette for her recommendation.

Mayor Pruette stated the Council had no other choice but to raise taxes and explained her reason. If you increase the millage rate to 3.2260 on a property assessed for \$350,000 the monthly increase would amount to \$9.12. But if you increase the millage to 3.0510 on the same home the increase would amount to \$4.75. Then when you add the \$4.00 increase in stormwater and sanitation fees the increase becomes \$8.75 which is only a .37 cent difference. She felt increasing the fee was simply another way of increasing taxes. She felt increasing the millage to 3.22 would be reasonable in case the State decides to cap city millage rates.

Vice Mayor Weldon asked Mayor Pruette if she would support raising the millage rate to 3.2260 if it included the stormwater and sanitation fees. Mayor Pruette replied she would support the 3.2260 if it included stormwater and sanitation fees.

Vice Mayor Weldon asked Councilor Tucker what she would propose. Councilor Tucker responded she heard from citizens who did not want a tax increase. She agreed the sanitation contract needed to be reviewed. She would support the lower millage rate increase of 3.0510.

Mayor Pruette added if the stormwater and sanitation fees were included in the property taxes they could be deducted from the Federal Income Tax.

Vice Mayor Weldon stated there was now 4 in favor of the 3.0510 millage rate. He encouraged the Council to support the original motion.

Councilor Lee stated he wanted a commitment from Council that the sanitation contract and the stormwater fees will be reviewed. He felt it was important for the citizens to understand the city has been supplementing the sanitation and stormwater. He believed once these fees were removed from the budget the Council would have the ability to see what department heads have actually cut from their budgets. He added one department within the General Fund budget was showing a 2% reduction in their budget. This was only because they did not receive a grant for this budget year. He felt that was not a cost savings to the city and the department could be more efficient.

Mayor Pruette stated she would support the 3.0510 millage rate increase.

City Attorney White advised someone on the opposing side needed to make a motion to reconsider the vote of the original motion.

Moved by Mayor Pruette, seconded by Weldon.

Motion: **TO RECONSIDER THE VOTE OF THE ORIGINAL MOTION.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette
Noes: 0

MOTION CARRIED

Moved by Pardee, seconded by Weldon

Motion: **SUBMIT THE MOTION AGAIN AS PREVIOUSLY STATED WITH THE INTENT THAT THE COUNCIL DO ITS BEST TO TRY TO REDUCE THE STORMWATER AND SANITATION FEES.**

MOTION CARRIED

Ord. No. 2009-09

ORDINANCE NO. 2009-09, ADOPTING A FINAL BUDGET, FIRST READ AND PUBLIC HEARING: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA ADOPTING A FINAL BUDGET AND APPROPRIATING FUNDS FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2009, AND ENDING SEPTEMBER 30, 2010; PROVIDING AN EFFECTIVE DATE.

Mayor Pruette read Ordinance No. 2009-09 by title only and opened the public hearing.

Scott Wiley, 723 Davis Street, felt it was necessary for the city to increase the millage rate. He agreed the city could find areas to reduce fees in the sanitation contract.

There being no comments from the public, the public hearing was closed.

Mayor Pruette voiced concern that the reserve fund was way too low and needed to be increase to 25% of operating expenses in case there is a major disaster. She felt the city needed to work harder to increase that fund. If there is a disaster, she felt all non-essential funding should be placed into the reserve fund.

Moved by Weldon, seconded by Pardee.

Motion: **TO PASS ORDINANCE NO. 2009-09 ON FIRST READ APPROVING THE CITY BUDGET AS SUBMITTED BY STAFF BASED ON A 3.0510 MILLAGE RATE.**

Councilor Lee agreed the Reserve Fund needed to be increased from 21% of operating cost to 25%. He stated the stormwater and sanitation fees will be removed from the General Fund which could help the reserve fund. He added the budget also reflected that all employees would not be receiving a pay increase this fiscal year.

Councilor Pardee felt budget cuts should be given back to the tax payers instead of being placed in the reserve fund.

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette
Noes: 0

MOTION CARRIED

Mayor Pruette stated the next budget meeting would be held on September 21st at 6:00 p.m.

Mayor Pruette recessed the meeting at 6:50 p.m. The meeting reconvened at 6:55 p.m.

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette disclosed she spoke with Daryl Grubbs and Curtis Winter regarding the Pine Street right-of-way.

Mayor Pruette stated as Mayor she would like her agenda to be one sided and have tabs. However, she liked receiving the e-mails and other correspondence double sided and felt the double sided copies saved the city money.

Councilor Pardee stated he also spoke with Mr. Grubbs regarding the Pine Street right-of-way. He preferred having his e-mail forwarded to him. He did not have a preference to how his agenda was put together.

Vice Mayor Weldon also disclosed he spoke with Mr. Grubbs and Mr. Wiley regarding the Pine Street right-of-way.

Councilor Tucker stated she also spoke with Mr. Grubbs regarding the Pine Street right-of-way.

Councilor Lee also disclosed he spoke with Mr. Grubbs.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- He would be working with the City of Jacksonville regarding Green Grants.
- The In-Pipe Technology has lowered the nitrogen and reduced a lot of the fat in certain lift stations. It also has reduced the amount of bugs in the system.

COMMENTS FROM THE PUBLIC

John Holmes, 914 Forest Street, opposed allowing parking on the Pine Street right-of-way.

Michael Harrigan, 910 Forest Street, opposed any additional parking on Pine Street. He felt it

would have a serious impact on the abutting residential property.

Robert Harding, 839 Forest Street, opposed the request to use the Pine Street right-of-way for parking. He presented a petition signed by neighbors opposing the request.

Theresa Zirkle, 843 Fourth Street, opposed the request to use the Pine Street right-of-way for commercial parking.

OLD BUSINESS / NONE

NEW BUSINESS

PDRB-09-10

PDRB-09-10, PINE STREET RIGHT-OF-WAY:

Pine Street R-O-W

Councilor Lee explained due to a conflict of interest he would like to abstain from the vote. City Attorney White advised Councilor Lee to also abstain from the discussion.

Mr. Daryl Grubbs explained the primary objection of the Planning and Development Review Board was no public access to the parking area. He distributed a modified plan that added a driveway to provide direct public access to the parking area from Third Street. He felt the additional parking would not create more business for the office park but would make it easier and safer for the occupants of the building to park. The parking area would not create a drainage issue because it would be constructed of gravel. It would not be a noise problem because cars would primarily park there from 9:00 a.m. to 5:00 p.m. The trees and shrubs would be relocated to the north side of the property. The new parking area could also be used for a Trolley station and would count toward additional funding for the Beach Renourishment Project with no cost to the City.

Mayor Pruette asked Mr. Grubbs if he had received approval from the Florida Department of Transportation. Mr. Grubbs replied he would have to seek approval from the FDOT if it approved by the Council.

Moved by Weldon, seconded by Tucker.

Motion: **TO ACCEPT THE RECOMMENDATION OF THE PLANNING AND DEVELOPMENT REVIEW BOARD TO DENY THE REQUEST.**

Vice Mayor Weldon stated he has consistently disagreed with abandonment of right-of-ways. He opposed the proposal because he did not see a genuine hardship or good enough reason to sacrifice the public right-of-way.

Councilor Pardee stated he could see both sides of proposal. He felt the parking lot would serve the city well but he was also considering the opposition from the neighbors.

Roll Call Vote:

Ayes: 4 – Pardee, Tucker, Weldon, Pruette

PDRB-09-11
Sun Dog
207 Atlantic Blvd.

PDRB-09-11, EXPANSION OF SPECIAL EXCEPTION FOR SUN DOG OUTDOOR DINING, 207 ATLANTIC BOULEVARD: Community Development Director Amanda Askew explained the application for the Special Exception was for sixteen additional outdoor seats to be placed on the west side of the restaurant between the building and the parking lot.

Mayor Pruette stated the Planning and Development Review Board recommended approval of the additional outdoor seating as long as it was a non-smoking area.

Mr. Curtis Winter, owner of the Sun Dog Restaurant added the new outdoor seating will be consistent with the existing outdoor seating in the front of the building.

Mayor Pruette requested that Mr. Winter install cigarette butt containers.

Moved by Weldon, seconded by Lee.

Motion: **TO APPROVE PDRB 09-11, EXPANSION OF SPECIAL EXCEPTION FOR SUN DOG OUTDOOR DINING, 207 ATLANTIC BOULEVARD.**

MOTION CARRIED

TMDL Grant

LANDSCAPE IRRIGATION ORDINANCE AND COST SHARING AGREEMENT FOR REUSE AND TMDL GRANT: City Manager Jarboe explained the Cost Sharing Agreement was for a \$950,000 Grant through the St. Johns River Water Management District. They agreed to match the city with a \$700,000 grant for the rehabilitation of the sewer plant for TMDL and \$250,000 for reuse. A requirement for the grant was the city would have to implement their rules and regulations regarding water conservation.

Moved by Lee, seconded by Pardee.

Motion: **TO APPROVE THE COST SHARING AGREEMENT FOR REUSE AND TMDL GRANT.**

For the Record

Vice Mayor Weldon stated for the record he would like to remind the public this would mean the city would have to comply with the St. Johns River Water Management District watering limitations. This would radically limit the amount of water that could be applied to your lawn.

City Manager Jarboe stated currently everyone in the lower St. Johns River area was required to abide with the regulations. The St. Johns River Water Management District would continue to enforce these regulations. However, the city would also be required to take code enforcement action if a complaint was received.

Councilor Pardee felt the consequence of the watering requirement was worth the cost sharing agreement.

Roll Call Vote:

BUDGET WORKSHOP MEETING
August 17, 2009, AT 6:05 P.M.
CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Preliminary Budget Workshop Meeting of the City Council of the City of Neptune Beach was held August 17, 2009 at 6:05 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

Mayor Harriet M. Pruette
Vice Mayor John Weldon
Councilor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

STAFF:

Community Development Director Amanda Askew
Senior Center Director Leslie Lyne
Director of Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Services Leon Smith

ABSENT:

City Attorney Chris White

Call to Order/Roll Call

The Mayor called the meeting to order at 6:05 p.m.

SPECIAL REVENUE FUNDS & ENTERPRISE FUNDS: City Manager Jarboe explained Special Revenue Funds were special sources of revenue that could only be used for an intended purpose.

City Manager Jarboe recommended Council direct questions to Finance Director Steve Ramsey.

Councilor Pardee stated he did not have any questions.

Councilor Lee stated he asked Finance Director Ramsey to provide Council with information regarding the percentages of decreases and expenses in the budget over the past five years. He felt this information would aid in explaining to citizens why the millage rate needed to be increased.

Councilor Lee had also had asked Mr. Ramsey to provide Council information regarding profit and losses from the Stormwater and Sanitation Fund. He felt the majority of the problem was that the stormwater and sanitation fees billed to residents were not high enough to meet the actual cost of services. Therefore, the cost of stormwater and sanitation has been supplemented through the General Fund. He felt these service fees needed to be increased in the future.

Councilor Lee also asked Mr. Ramsey to provide information regarding the City's contractual obligation to annually supplement the losses in the Police Pension Plan.

Councilor Lee felt it was interesting that according to State law if Council did not vote to raise the millage rate, the city tax revenue automatically reverted to the Roll Back Rate.

Director of Finance Ramsey explained the State Statute referred to the Roll Back Rate in order to guarantee the City would have the same revenue it received in the prior year. However, because property values have declined the Roll Back Rate has actually increased to guarantee last year's revenue.

Mayor Pruette questioned how many positive votes were needed to adopt the Roll Back Rate. Mr. Ramsey replied a simple majority of 3 to 2 was required to adopt the Roll Back Rate. To increase the millage rate a 4 to 1 vote would be necessary. However, to increase the millage rate above 3.2, a 5 to 0 vote would be necessary.

Councilor Lee stated he also asked Mr. Ramsey to provide Council a list of grants the city has received over the last couple of years. Mr. Ramsey responded that material has already been distributed.

City Manager Jarboe stated Council asked him to provide information comparing the millage rates of surrounding Counties. He explained that in comparison, even with an increase in our millage rate, ours would still be lower than surrounding cities.

Councilor Tucker was concerned about the employees keeping their jobs and making sure the City had enough money for future needs.

Vice Mayor Weldon felt the shortfall in Sanitation and Sewer Funds was the fault of previous Councils not increasing the rates when necessary. He agreed these fees should be "pay as you go" and not paid by hiding the losses and increasing the city debt in the General Fund.

Councilor Weldon suggested the City create a matrix showing the maximum amount of debt it could incur and the lowest amount of reserves that could be tolerated without considering millage rate increases or increases in service fees. He stated the City currently pays a little over a million dollars per year in debt service which is a significant amount of overall expenses. He was aware that raising the millage rate was an unpopular political decision but he did not know what else to do and still remain prudent and focused on the long term financial health of the community.

Mayor Pruette was concerned about the shortfalls in the Reserves Fund. She stated this Budget would only increase the Reserves Fund by \$2,000.00. She felt Council should go through the Budget once more to see if there was anything else that could be cut. Mr. Ramsey replied the Reserves Fund should normally contain enough money to operate the city for three months, without outside assistance, should a major disaster occur. This would amount to 25% of overall operating expenses. The Reserves Fund currently held 21%. An additional \$300,000 would be needed to increase the Reserves Fund to 25%.

Councilor Lee suggested the City save money by putting the monthly newsletter on the website and implementing a membership fee for the Senior Activity Center.

Councilor Pardee asked if the stormwater and sanitation fees were based on consumption. Mr. Ramsey replied the stormwater and sanitation fees were a flat rate for all residents.

Councilor Pardee asked how much of the proposed increased millage rate was based on sanitation and sewer shortfalls. Mr. Ramsey replied that portion of the proposed millage rate increase was .175.

Councilor Pardee stated he would like Council to consider having residents pay the same flat rate fee for these services in lieu of including the cost in property taxes. He felt this was unfair to tax payers because owners with higher property values ended up paying more for these services than average. If these fees were not included in property taxes the millage rate would only need to be increased by .125 instead of .3.

Councilor Weldon explained a benefit to the sanitation and stormwater fees being included in property taxes was that the property owner could deduct them from their Federal Income Taxes.

Mr. Ramsey stated if Council wanted they could adopt a Resolution increasing both the sanitation fee and stormwater fee \$2.00. This would decrease the proposed millage rate from .3 to .175.

For the Record Councilor Weldon stated for the record Council approved a new rate structure for water and sewer that went into effect early 2008. Council recognized at that time those rates were not adequately structured to pay both the debt in the Enterprise Funds and maintain the necessary service levels. This fall another rate study will be conducted to determine if the projections were accurate and they can be adjusted accordingly. He reviewed the various capital outlay, staffing projections, and work level projections for the Enterprise Funds and found them reasonable. If anything more was cut from the budget there would be outages and maybe worse problems in our water and sewer service. He believed Council should accept the Enterprise Fund budget as presented.

Mayor Pruette questioned how long it would be before an improvement would be seen in the Reserves Fund. Mr. Ramsey replied it would take two to three years before improvements would be seen in the Fund.

Mayor Pruette questioned how the City could increase the Reserves Fund. Mr. Ramsey replied the only way to increase the fund would be to raise the millage rate.

Mayor Pruette asked if funds from the City Attorney and the Senior Activity Center budgets could be placed in the Reserves Fund and later adjusted if needed.

Councilor Lee questioned if the City would be able to borrow the money, if we needed it, and did not have it in the Reserves Fund. Mr. Ramsey stated if that was the case, the City would have to borrow money against the General Fund.

Mayor Pruette suggested the Council hold a Budget Workshop meeting in January to begin discussion of the 2010-2011 FY Budget.

Vice Mayor Weldon stated he would be amenable to transferring the \$15,000 from the City Attorney budget into a Contingency Fund. He did not agree the \$20,000 from the Senior Activity Center should be transferred. Mr. Ramsey explained the money for the Senior Activity Center would remain in the General Fund, and would not be transferred to the Senior Center, unless it was needed.

Mayor Pruette explained money from the Operating Budget was never intended to be used for the Senior Activity Center. However, \$75,000 was transferred in 2007, \$45,000 was transferred in 2008, and \$25,000 was transferred in 2009. This Budget included \$20,000 of operating funds being transferred into the Senior Activity Center.

Mayor Pruette suggested Council decrease their monthly salary by \$100.00 to save the City \$6,000.

Councilor Tucker felt because we were a small City the only source of revenue had to come from property taxes. Mayor Pruette responded some citizens could not afford a property tax increase.

Mayor Pruette asked how many additional budget meetings were planned before the Council had to vote on the Budget. City Manager Jarboe stated no further workshop meetings were planned. There would be two more meetings to vote on the millage and the budget. He advised Council to inform staff if they wanted to adjust the budget.

Vice Mayor Weldon stated he supported the budget as submitted and was prepared to vote to increase the millage rate. He felt the citizens needed to recognize that a 3.17 millage rate was a reasonable rate under the circumstances. If a majority of the Council agreed another meeting would not be necessary.

Mayor Pruette felt more money should be placed into the Reserves Fund. Vice Mayor Weldon suggested if additional monies were available at the end of the year that money could be placed in the Reserves Fund.

Councilor Pardee was not comfortable moving forward with the budget with the sanitation and stormwater fees being included in the property tax. He felt these fees should be "pay as you go".

Councilor Pardee suggested selling the property on First Street that housed City Hall and putting the money from the sale in the Reserves Fund. He was not prepared to vote on the budget as presented.

Councilor Lee stated he would be comfortable voting on the budget with the following amendments: 1) save \$3,000 by placing the newsletter on the website, 2) it would be a personal choice of each Councilmember to donate part of their salary to the City, 3) it would need to be decided if the sanitation and stormwater fees should be increased in the future and not supplemented from the General Fund, and 4) have citizens decide by referendum if they would like to sell the First Street property / City Hall building.

City Manager Jarboe stated he needed a consensus of the Council on whether they wanted to increase the sanitation and stormwater fees or supplement them from the General Fund.

Vice Mayor Weldon did not want to delay voting on the budget based on the sanitation / stormwater issue. He objected to selling the First Street property / City Hall building.

Councilor Tucker stated she supported having additional workshop meetings to discuss the sanitation and stormwater fee issue. She agreed each Councilmember had the personal choice to donate part or all of their salary back to the community. She did not support selling the First Street property / City Hall building.

Councilor Pardee felt a flat rate fee should be charged for sanitary and stormwater fees. They should not be included in the property taxes.

Vice Mayor Weldon suggested Council review the sanitary and stormwater fees next budget year.

Finance Director Ramsey stated Council could either increase the sanitation and stormwater fees beginning October 1, 2009 or increase the millage rate.

Councilor Tucker stated she would like to see a comparison between a sanitation and stormwater fee increase and/or a millage rate increase.

Vice Mayor Weldon advised the State was considering placing a cap on municipal government millage rates. Therefore, he felt the millage rate should be set at a reasonable level. He added 3.17 mills was almost level with Atlantic Beach millage rate and was 3 mills lower than Jacksonville Beach.

Councilor Lee wanted to ensure that the City would look at stormwater and sanitation fees being "paid as you go" and not continue to cover the cost by reducing the General Fund.

Councilor Pardee asked for a comparison of sanitation and stormwater fees of Atlantic Beach and Jacksonville Beach.

Consensus: **TO VOTE ON THE BUDGET AS IT STANDS**

Finance Director Ramsey stated the next budget meeting would be for the first read on the millage rates and the budget.

PUBLIC COMMENTS

Scott Wiley, 723 Davis Street, felt the low millage rate was limiting the city. He voiced concern regarding the City's ability to obtain money for future projects and suggested hiring a grant writer.

Mayor Pruette asked Mr. Wiley to speak with City Manager Jarboe after the meeting regarding grants.

City Manager Jarboe added he was recently informed the State Revenue has decreased an additional \$18,000. The City may have two more reductions in State revenues this budget year.

Michael Aston, 1523 Summer Sands Drive, stated he would prefer the sanitation and storm water fees being included in the property tax so they could be deducted from his Federal Income Tax. He suggested the City erect a communication tower as a source of revenue. He also felt the First Street property / City Hall building should not be sold.

Lynda Padrta, 1113 First Street, opposed selling the First Street property / City Hall building and opposed a tax increase.

Adjournment

COMMUNICATIONS AND CORRESPONDENCE

The Town Center group wants to place restrooms at the end of Atlantic Blvd. and they may have some money to pay for it. The Mayor indicated it would be closed when the life guards left for the day. The yearly maintenance cost would be \$3,500. Town Center has fund raisers to be able to contribute to this. The businesses do not want beach goers using their restrooms. When Town Center receives more information it will go on a workshop. Councilor Pardee commented they make really nice port-o-let. The City Manager was concerned about the maintenance.

CITY MANAGER REPORT

- He had citizen concern over repairing potholes instead of repaving roads. He had to explain the budget shortfalls.
- Take home cars actually reduces cost so the city does not have to pay stand by pay.

Ord. No 2009-06

ORDINANCE NO. 2009-06, AMENDING CHAPTER 13, NOISE PROHIBITED, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 13, SECTION 13-5 NOISE PROHIBITED; UNNECESSARY NOISE STANDARD; STATEMENT OF INTENT; SWORN COMPLAINT REQUIRED; PROPERTY OWNER RESPONSIBILITY AND SECTION 13-6 VIOLATION; PENALTIES AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette opened the public hearing.

Steve Coyote, co-owner of a duplex 213/215 Margaret Street, wanted to know if he would be financially responsible for the tickets given to his tenants. City Manager Jarboe said he would not but if the same tenant was given two tickets he would be called before the Code Enforcement Board.

Mayor Pruette closed the public hearing.

Councilor Pardee asked to hold this ordinance to include the problems in apartment complexes. Mr. Jarboe stated chief Sembach explained the apartments were very accommodating when there were problems. Council members felt Councilor Pardee's concerns could be addressed in a separate ordinance.

Mayor Pruette agreed to sponsor this ordinance.

Moved by Vice Mayor Weldon, seconded by Councilor Lee.

Motion: **TO ADOPT ORDINANCE 2009-06 ON SECOND READ AND PUBLIC HEARING.**

OLD BUSINESS / NONE

NEW BUSINESS

V09-07
696 Atlantic Blvd.
Aqua East

V09-07 / VARIANCE REQUEST FOR AQUA EAST SURF SHOP, 696 ATLANTIC BOULEVARD: Community Development Director Amanda Askew stated it was a variance to reduce the rear yard set back in the C3 zoning district. The applicant is proposing a 2016 square foot building that is not attached to the main structure.

Terry Simmons, Fishers and Simmons Architect, in 2004 the store asked for a much larger variance but due to economic times it is on a much smaller scale today.

Vice Mayor Weldon was supportive but wanted to know why there were no windows. Mr. Simmons stated since objects would be stacked up windows would not be necessary for display. Both agreed it would be retail and not storage. Mr. Jarboe asked if there would be bathrooms. Mr. Simmons said the ones in the old store would be used. Mr. Jarboe said he should meet with the Building Official to be sure this is allowed.

Councilor Pardee brought up Ordinance 2009-05 where the city defined a hardship. He asked if the retail space could be built without the variance and where was the hardship. The architect stated it was due to financial times and if you stick to that exact definition there would be no hardships. City Attorney White stated it was up to City Council to determine if there is a hardship. Mayor Pruette pointed out the board recommended approval.

Moved by Vice Mayor Weldon

Motion: **TO APPROVE V09-07 696 ATLANTIC BLVD.**

Mayor Pruette asked for a second. Motion died due to lack of a second.

Moved by Councilor Pardee

Motion: **TO DENY V09-07 696 ATLANTIC BLVD.**

City Attorney White said this motion was not necessary the variance had already had been denied due no second for the motion to approve.

Councilor Pardee withdrew his motion.

Vice Mayor Weldon told Councilor Pardee that he could hold the Council to every little thing in the code but the next time he was pro business he would remind him of this.

PDRB09-09
696 Atlantic Blvd.

PDRB09-09 / DEVELOPMENT ORDER FOR AQUA EAST SURF SHOP, 696 ATLANTIC BOULEVARD

Discussion ensued over whether this could be voted on if the variance had not been passed. City Attorney White and Community Development Director Askew agreed that they could approve with conditions.

Moved by Vice Mayor Weldon, seconded by Councilor Lee.

Motion: **TO APPROVE THE DEVELOPMENT ORDER SUBJECT TO FOLLOWING THE REAR YARD SET BACK.**

BUDGET WORKSHOP MEETING

August 3, 2009, AT 5:45 P.M.

**CITY HALL, 116 FIRST STREET,
NEPTUNE BEACH, FLORIDA**

Pursuant to proper notice a Preliminary Budget Workshop Meeting of the City Council of the City of Neptune Beach was held August 3, 2009 at 5:45 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

Mayor Harriet M. Pruette
Vice Mayor John Weldon
Councilor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
City Manager James Jarboe
City Clerk Lisa Volpe, CMC

STAFF:
Community Development Director Amanda Askew
Director of Finance Steve Ramsey
Director of Public Services Leon Smith
Lt. Adam Militello

Call to Order/Roll Call The Mayor called the meeting to order at 5:45 p.m.

Mayor Pruette announced the meeting was to look at the City Manager's General Fund Budget. There would be two or three more budget workshops after this one.

Mayor Pruette made the statement that the City has lost a large amount of revenue to the amount of \$315,000 and the budget deficient is \$83,363 which indicates that the staff is cutting fat. Due to the loss of revenue and the cuts already made the City Manager has said that any more cuts would result in loss of services and a small millage raise is the only way not to cut services. The audit stated the City's financials have deteriorated due to loss of revenue particularly in the proprietary funds. Mayor Pruette stated the City Council and staff must work to find ways to cut more and save more to bring revenues and other funds up. She thanked Mr. Jarboe and the staff for their multitasking and good work in saving the City money. She turned the meeting over to the City Manager and Finance Director.

City Manager Jarboe explained the General Fund is the operating budget for the City minus the Utilities and the Special Revenue funds. It includes the City Manager's Office, City Clerk's Office, the Building Department and the Police Department. The other funds will be reviewed at the August City Council Workshop. The proposed millage rate that will be sent to taxpayers from the Tax Assessor's office will be higher than staff is actually proposing. Staff is proposing a 3.1612 millage rate. This rate is smaller than our neighbor cities who have revenue from utilities outside the City. Fernandina Beach is 4.484, Orange Park is 6.0156, and St. Augustine is 7.5.

The City lost \$315,000 in the revenue which included an unfunded mandate from the State, in reference to the fecal leak in the creek. If the leak is found to be coming from Neptune Beach, we will be required to fix it. We are working on grants to replace septic tanks in the City. The City should get a \$700,000 grant for nitrogen removal. The Stormwater and

Sanitation funds also have a short fall. The Electric Franchise fee is down and the Police Pension fund has a 12% shortfall. All State taxes and property taxes are down.

Mr. Jarboe continued to explain that staff has been able to cut out \$70,000 from the budget. Over the last four years the City has reduced staff by 15%. The City has received grants for the police and hired a part time engineer to save money. There is a list in the agenda packet of at least thirty ways the City has saved money.

Director of Finance Steve Ramsey said he would answer any questions the council had concerning the budget. He mentioned the extra \$25,000 homestead cost the City \$135,000.

Councilor Pardee thanked staff for their hard work and for their sacrifices. Councilor Pardee suggested cutting the Legal Professional Services budget by \$15,000. Director of Finance Ramsey stated this line item was mainly used for insurance deductibles. Although this year the fund had not been used too much, he did not believe it was over funded. Mr. Jarboe reminded Council that the City Attorney was on retainer and only if he had to go to court for litigation did the City pay him out of this fund. Mr. Jarboe explained if the budget item was decreased and there was a short fall, then it would have to come from reserves. Vice Mayor Weldon stated the legal budget has already been reduced by 15% in the last two years. Vice Mayor Weldon and the Mayor suggested putting the money into contingency instead of taking it out completely.

Councilor Pardee also suggested cutting the overtime for the City Clerk's office by not making the Deputy City Clerk attend workshop meetings. City Clerk Volpe stated this could cut some of the overtime but the Deputy City Clerk still attends Board of Appeals meetings.

Councilor Lee felt the City Council needed to understand that some citizens were in financial difficulty and a small raise in taxes could hurt them. The Council should be fiscally responsible and show the public where cuts were made and why taxes need to be raised. He felt the public should be invited to make input on the budget before the final passing in September. He also felt it was Council's responsibility to get people to come to the meetings and understand the budget process. He went over the information Mr. Ramsey had given about the millage rate and budget for the last five years. Councilor Lee wanted citizen input as to what to cut out of the budget.

Mayor Pruette asked what were essential services. City Manager Jarboe stated they were police and water and sewer services. If essential services were cut, an example would be not being able to fix pot holes.

Vice Mayor Weldon stated he was satisfied with the budget as it was. He wanted to thank staff for cutting all the fat out of the budget. He stated the biggest cost is personnel. He did not want to direct layoffs, if not absolutely necessary. The unions indicated they are willing to accept no increases which shows they understand the City's financial problems. He felt the Council owed the employees another year of support. Next year, layoffs may be necessary. The City has reduced the amount of positions by 15% by retirement and voluntary leaving. The City could cut small things such as Cast a Line. These will not dig us out of the hole that we are facing. He felt that raising taxes to cover stormwater and sanitation fees is better because they could be deducted from taxes instead of raising enterprise fund fees. Staff has made every effort to tighten the budget, the Council owes it to staff to maintain employment for one more year. We can accomplish this by raising the millage to 3.1612. This would raise taxes for a \$200,000 house about fifty dollars per year. This is a small impact on individual homeowners and is lower than most area cities. Financial prudence says the City needs to maintain reserves and nurture a cooperative workforce. The State Legislature has threatened to put a property tax cap on cities next year. This will hurt us unless we have a stable rate to support us.

Councilor Tucker commented it was a difficult time to start her term on Council. Staff has done a great job. There are a couple places that she thought could be cut. Mayor Pruette asked where. Councilor Tucker commented on using technology instead of making as many paper copies. She also wanted the City to work on getting more grants. She agreed with Councilor Lee that the Council should look for public input.

Mayor Pruette said we will have to raise taxes due to the loss of revenues. There are citizens who are hurting financially. The transfer of funds to the Senior Center can be put in the contingency fund. Ms. Lyne has done a great job finding funds and she said she is confident she can find the necessary funds, however, it would be in the contingency fund if she needed it. Animal Control could be cut to twenty hours a week, since reports show only seven tickets a month are written. Jacksonville could be used for Fire Marshall services as Atlantic Beach does and our employee could be used in animal control. Council could make a small cut. Everyone needs to help with the small cuts.

Mayor Pruette suggested using the police call out system to invite people to the budget meetings for input. Vice Mayor Weldon disagreed with using the call out system. He stated that no one wants their taxes raised and all the Council will hear is negative feedback. He cautioned using negative feedback to base decisions on. Elected officials need to use their prudent judgment for the financial stability of the community. Discussion ensued over education of the public about the financial situation the City was in.

Mayor Pruette reiterated what the audit said that the City should be more active in collecting money owed us. City Manager Jarboe said with the help of Jacksonville Beach, the city is already doing this without hiring our own consultant.

Councilor Pardee elaborated on the three items he felt were important to citizens during his term on Council. The first being Animal Control, the second being Code Enforcement and third being the Senior Center. These items should not be cut. He felt citizens need to do things in their own lives to cut costs. He also felt the City could sell City Hall and transfer the employees out to the Public Services Facility in order to help with the budget. Mayor Pruette did not agree with selling City Hall and felt Animal Control did not generate enough tickets for an almost \$70,000 budget. She commended Leslie Lyne on the Senior Center and had confidence that she would raise the money she needed or it would be in the contingency fund for her use.

Mayor Pruette asked any members of the public for their input.

Scott Wiley, 723 Davis Street, felt the City Council had the financial responsibility to raise the millage rate to keep the reserves up and encouraged them to do so. Next year will not be much better therefore the City needed to do what it could do now.

Lynda Padrta, 1113 First Street, felt the City should realize that a tax increase would hurt citizens. She felt the City could stop cutting grass on First Street and to look for more money out of the interlocal agreement. She also attended the meeting where it was said that no money out of the General Fund would be used for the Senior Center.

Michael Aston, 1532 Summer Sands Drive, stated he is always impressed by the job the Neptune Beach City Council does.

Alan Martin, 1113 First Street, felt the City has to be proactive. He commented on stopping take home vehicles.

Adjournment

There being no further business, the meeting adjourned at 7:10 p.m.

Director of Public Services Leon Smith
Deputy City Clerk Karla Strait, CMC

ABSENT:

City Attorney Christopher White

Call to
Order/Roll Call

Mayor Pruette called the meeting to order at 6:15 p.m.

PRESENTATIONS

Fletcher High

Mayor Pruette and Councilor Kara Tucker presented a Proclamation of Congratulations to the Fletcher High School Athletic Department for having an outstanding season.

Mayor Pruette recognized City of Jacksonville Councilman Art Graham, who was present for the meeting.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- Labor union negotiations were in progress.
- There was a water main break at Fifth Street and Florida Boulevard.
- He was working with St. Johns Water Management District regarding grants.
- He would provide information regarding the nitrogen removal at the next meeting.
- He was waiting to hear from FDOT regarding the stamped crosswalks.

Councilor Pardee stated the community garden in Jarboe Park was in disarray. City Manager Jarboe replied he has asked the organizers of the garden to have the weeds cleaned up. Councilor Pardee asked City Manager Jarboe to stay on top of the situation.

Vice Mayor Weldon questioned the progress of the crosswalk enhancements. City Manager Jarboe stated he has not received a reply to a letter he sent FDOT over a month ago. He would send a new letter.

City Manager Jarboe announced the Beaches Challenge 5K Run would take place on August 15th at 8:30 a.m. on the beach. The proceeds would benefit programs offered at the Neptune Beach Senior Activities Center.

PUBLIC COMMENTS

Lynda Padrta, 1113 First Street, felt the City could save money by eliminating the maintenance of the First Street right-of-way. She also voiced support for the noise ordinance.

Margaret St.
Noise

ORDINANCE NO. 2009-06, AMENDING CHAPTER 13, SECTION 13-5 NOISE PROHIBITED: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 13 NOISE, SECTION 13-5 NOISE PROHIBITED; UNNECESSARY NOISE STANDARD; STATEMENT OF INTENT; SWORN COMPLAINT REQUIRED; PROPERTY OWNER RESPONSIBILITY AND SECTION 13-6 VIOLATION PENALTIES; AND PROVIDING AN EFFECTIVE DATE.

Councilor Pardee was concerned that most of the noise complaints were from residents of Margaret Street. He asked if there were other areas of the city with noise concerns. City Manager Jarboe replied there were also complaints from other streets but the main problem area was Ocean Oaks Apartments on Seagate Avenue. Councilor Pardee stated the city should also focus on ways to reduce noise from Ocean Oaks Apartments. City Manager Jarboe suggested Council direct him to draft a separate ordinance concentrating on ways to reduce the noise from Ocean Oaks Apartments.

Consensus: **TO HAVE THE CITY MANAGER START THE PROCESS WITH THE CITY ATTORNEY TO DRAFT AN ORDINANCE CONCENTRATING ON REDUCING THE NOISE FROM OCEAN OAKS APARTMENTS.**

Consensus: **FORWARD THE NOISE ORDINANCE TO THE AUGUST REGULAR MEETING FOR SECOND READ.**

Vending
Machines

ORDINANCE NO. 2009-XX, AMENDING CHAPTER 26, VENDING MACHINES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 26 VENDING MACHINES, SECTION 26-1 DEFINITION AND ADDING SECTION 26-7 OUTDOOR MACHINES AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated the reason vending machines were not allowed was because they created blight and were subject to vandalism. He added if vending machines were allowed by special exception only, the Council would have the opportunity to deny or approve each specific request.

Councilor Pardee stated the ordinance amendment was initiated when citizens complained that the city asked Winn Dixie and Walgreens to remove the Red Box / DVD Rental Vending Machines from the front of their stores.

Mayor Pruette felt vandalism would not be an issue with Red Box / DVD Rental Machines because they did not accept cash.

Councilor Lee stated he would support the ordinance if Council had control by special exception.

Vice Mayor Weldon felt Red Box / DVD Rental Vending Machines should not be allowed by special exception because this would open the door for other types of vending machines.

Mayor Pruette felt vending machines should be allowed by special exception because they provided profit to local businesses.

Vice Mayor Weldon stated he also supported small businesses but he did not want to endanger the long range vision, or quality of life standards, in Neptune Beach.

Councilor Tucker supported the ordinance by special exception only.

Councilor Pardee asked if the existing vending machines throughout the city would be grandfathered. He also questioned why they existed if they were not allowed by Code.

City Manager Jarboe responded the city has not received any complaints regarding any of the existing vending machines. He added the city has been reactive, in lieu of proactive, regarding code enforcement action. He would have the existing vending machines removed if instructed by Council.

Councilor Lee suggested forwarding the ordinance to a future workshop.

Consensus: **FORWARD TO A FUTURE WORKSHOP.**

Uses / Zoning

ORDINANCE NO. 2009-XX, AMENDING CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, SECTION 27-227 SPECIAL RESTRICTIONS AND CONDITIONS ON ALLOWABLE USES WITHIN ZONING DISTRICTS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, SECTION 27-227 SPECIAL RESTRICTIONS AND CONDITIONS ON ALLOWABLE USES WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

Consensus: **FORWARD TO A FUTURE WORKSHOP.**

Alcoholic
Beverages

ORDINANCE 2009-XX, ALCOHOLIC BEVERAGES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA DELETING CHAPTER 4 ALCOHOLIC BEVERAGES, SECTION 4-7 EMPLOYEES AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the current Ordinance was adopted to help enforce State law requiring restaurant/bar owners to conduct background checks on all employees.

Vice Mayor Weldon added he introduced this ordinance amendment because several restaurant owners received code enforcement violations for noncompliance. He felt since this was a State requirement it was not necessary for the city to enforce it.

Councilor Tucker agreed this requirement should be enforced by the State.

Councilor Lee questioned if the city received revenue for the code violations. Finance Director Steve Ramsey replied the city might receive \$5.00 per background check.

City Manager Jarboe added the restaurant/bar owners could be fined or possibly lose their license if they did not comply with this State law.

Councilor Pardee asked that staff remind restaurant/bar owners of this State requirement annually when they renewed their business license.

Consensus: **FORWARD TO THE AUGUST REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Res. No. 2009-xx

RESOLUTION NO. 2009-XX: A RESOLUTION OF THE CITY OF NEPTUNE BEACH CITY COUNCIL ACCEPTING THE DUVAL COUNTY LOCAL HAZARD MITIGATION STRATEGY DOCUMENT.

City Manager Jarboe stated this Resolution required the city to participate with the Emergency Operations Center. It also would allow the city to receive funding for hazardous events.

Consensus: **FORWARD TO THE AUGUST REGULAR MEETING FOR APPROVAL.**

Jarboe Park 501(c)3

JARBOE PARK DEVELOPMENT OF 501(C)3: Councilor Lee stated he originally suggested developing a 501(c)3 for Jarboe Park donations. He was asking to amend that suggestion and instead of developing a 501(c)3, have the City Manager and Finance Director set up an account to receive donations for Jarboe Park improvements.

Consensus: **TO HAVE THE CITY SET UP AN ACCOUNT TO RECEIVE DONATIONS FOR JARBOE PARK.**

DISCUSSION

Vice Mayor Weldon asked Council for a consensus to have the City Manager draft a Resolution supporting funding for the Sulzbacher Center.

Councilor Lee voiced concern that more groups would be requesting our support.

Mayor Pruette suggested the City Manager draft a Resolution in support of all beach related concerns affected by the City of Jacksonville budget cuts.

Vice Mayor Weldon felt the Sulzbacher Center deserved a separate Resolution of support because it assisted the city's most vulnerable people.

Councilor Tucker felt the Resolution should also include support funding for the Neptune Beach Library.

Consensus: **TO HAVE THE CITY MANAGER DRAFT A RESOLUTION ADDRESSING BEACH RELATED CONCERNS TO THE CITY OF JACKSONVILLE.**

Councilor Pardee did not agree with the consensus.

City of Jacksonville Councilman Art Graham stated he would address our concerns, regarding the stamped crosswalks, with the Florida Department of Transportation.

Adjournment There being no further business, the meeting adjourned at 7:00 pm.

Community Development Director Amanda Askew
Senior Activities Center Director Leslie Lyne
Director of Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Services Leon Smith

Call to Order/Roll Call Mayor Pruette called the meeting to order at 5:45 p.m.

ISSUE DEVELOPMENT

San Pablo Island

SAN PABLO ISLAND: Mayor Pruette explained Atlantic Beach Mayor John Meserve intended to introduce a Resolution to the Atlantic Beach Commission supporting the use of the term "San Pablo Island" when referring to Atlantic Beach, Neptune Beach, and Jacksonville Beach. She asked other Council members how they felt about the suggestion.

Councilor Tucker felt it was a good concept to name the island. She was unsure about the name "San Pablo" and felt the name should be considered by the citizens.

Vice Mayor Weldon stated San Pablo was the original name of the island. He felt it was a great idea and former Jacksonville Mayor Delaney deserved credit for the suggestion.

Councilor Pardee disagreed with the use of the term "San Pablo Island" unless the beaches' cities were considering becoming a separate County from Jacksonville. He felt people were familiar with the location of Jacksonville and would not recognize where San Pablo Island was located. He also felt part of Neptune Beaches' identity was associated with the Jacksonville Beaches, Duval County and the Jacksonville Jaguars.

Councilor Lee felt it was a viable idea that should be taken into account carefully. He agreed there should be public input.

Consensus: **FORWARD TO THE JULY OR AUGUST WORKSHOP.**

Nitrogen

NITROGEN REDUCTION OVERVIEW AND RECOMMENDATIONS: City Manager Jarboe explained a joint study with Atlantic Beach was conducted to determine if they could jointly handle the nitrogen reduction requirements mandated by DEP at a shared cost. The study concluded this was not feasible due to the daily limitation of 1,000,000 gallons of sewer acceptance for Atlantic Beach.

The consulting engineers have recommended the use of a "fixed film media" process to reduce nitrogen levels. This would be the least expensive method to meet the Department of Environmental Protection's required level of nitrogen reduction.

Councilor Lee asked City Manager Jarboe to reconfirm that the request for proposals would include a guarantee that the project would work. City Manager Jarboe stated "yes" and it would probably be bonded.

Councilor Lee was concerned about the cost of the project and questioned if grants would be pursued. City Manager Jarboe responded he has already been in contact with the local government affairs concerning grants. The cost was now 1.5 with a 20% contingency fund for unexpected costs.

Councilor Pardee agreed the "fixed film media" method was the best option. He was concerned there would be more unfunded State mandates in the future.

Councilor Tucker also supported the "fixed film media" method.

Mayor Pruette thanked City Manager Jarboe and the engineers for taking time to speak individually with Council members.

For the Record

Vice Mayor Weldon asked Mr. Hershey, the contract engineer for the project, to confirm that he was confident that the system was the most cost effective method. Mr. Hershey replied that was correct. He added Neptune Beach was fortunate to have excess tank capacity to work with.

Vice Mayor Weldon questioned if the upgrade to the sewer and wastewater system would be covered by the increased utility rate structure currently in effect or if it would require an additional rate increase. City Manager Jarboe replied the upgrade should be covered by the current rate. However, a new utility rate study would be conducted for the upcoming budget.

Vice Mayor Weldon asked Mr. Hershey if he was confident the existing infrastructure was adequate to sustain the new upgrade for at least twenty years. Mr. Hershey responded "yes", however, some piping and equipment improvements would be necessary.

Consensus: **FORWARD TO THE FOLLOWING REGULAR CITY COUNCIL MEETING.**

Adjournment

There being no further business, the meeting adjourned at 6:05 pm.

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette thanked the Public Service Department and Public Safety Department for doing a good job during the July 4th Holiday.

Mayor Pruette asked Council to direct City Manager Jarboe on how they wanted to review the budget process for the fiscal year 2009-2010.

Councilor Pardee stated the City of Jacksonville regulated vending machines in the Historic Springfield District but did not regulate them in other areas of the city.

Councilor Pardee stated the city website now allowed citizens to search Council meeting minutes for specific subjects.

CITY MANAGER REPORT

- There were no major incidents reported during the Fourth of July Holiday.
- There would be a short delay preparing the water bills this month because the Meter Reader has been out sick.
- Senior Activity Center Director Leslie Lyne was organizing a Beaches Challenge 5K Run.

Senior Activities Center Director Leslie Lyne explained the Beaches Challenge 5K Run would take place on August 15th at 8:30 a.m. on the beach. The proceeds would benefit programs offered at the Neptune Beach Senior Activities Center.

COMMENTS FROM THE PUBLIC

ORDINANCES

Ord. No. 2009-06

ORDINANCE NO. 2009-06, AMENDING CHAPTER 13, NOISE, FIRST READ: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 13, SECTION 13-5 NOISE PROHIBITED; UNNECESSARY NOISE STANDARD; STATEMENT OF INTENT; SWORN COMPLAINT REQUIRED; PROPERTY OWNER RESPONSIBILITY AND SECTION 13-6 VIOLATION; PENALTIES AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the Ordinance was designed to quiet certain sections of the city. This would allow police officers the discretion to ticket the defendant on the first offense instead of giving a warning. It also allowed code enforcement action to be taken after two violations instead of three.

Moved by Weldon, seconded by Lee.

Motion: **TO APPROVE ORDINANCE 2009-06 ON FIRST READ.**

Councilor Pardee disagreed with allowing code enforcement action to be taken against the property owner after only two violations. He felt this would not be fair to absentee property owners.

Councilor Lee stated he has received numerous complaints from citizens regarding noise and he supported the ordinance.

Vice Mayor Weldon supported the ordinance. He felt if the property owners did not take responsibility for their tenants the noise problem would never be solved.

Councilor Tucker also voiced support for the ordinance.

Roll Call Vote:

Director of Public Safety David Sembach
Deputy City Clerk Karla Strait, CMC

Call to Order/Roll Call Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Green Market

GREEN MARKET – ONE YEAR UPDATE: Gretchen Ferrell gave a presentation regarding the success of the Green Market and Community Garden.

Ms. Ferrell explained the Green Market began one year ago and attracts an estimated 800 to 1,000 customers per week. There are 25 vendor spots on a weekly basis. Items for sale include produce, eggs, chicken, beef, honey, fresh cut flowers, hand crafted natural soaps, body products, cleaning products, pest control, salsa, hot sauces, tea, sandwiches, organic shaved ice, granola, coffee, all natural dog treats, breads, pastries, etc. Another feature of the market are booths for non-profit such as the Breast Cancer Marathon, No More Homeless Pets, Sea Turtle Awareness, and the Beaches Library Card Membership Drive. There is also a Local Business Spotlight where a local business can advertise if they are doing something positive for the environment or the community. Collection jars were also present at booths for donations to help improve Jarboe Park.

Throughout the first year problems occurred regarding parking, vendors parking on the basketball court, and vendors using the neighbor's dumpsters. All of these issues have been resolved.

Ms. Ferrell explained the Community Garden began one year ago with a meeting at Fletcher High School. The garden has twenty-four plots and a waiting list for others wanting to garden a plot. There is also a children's garden, a toddler's garden and an educational plot. The Community Garden is open to the community from 12:30 p.m. to 5:00 p.m. every Saturday. They have guided tours with hands on tasting and smelling of foods and herbs. They also have Outreach Programs with classes in plant propagation,

organic fertilizations, pest control, seed saving, and composting. These classes average 20 students per class. This summer there will also be classes for canning, pickling, and pot making.

During the first year there was a problem with vandalism and a complaint regarding the appearance of the compost. Native Sun helped to raise over \$600.00 to help them with the damages from the vandalism and they have placed a screen around the compost pile so that it cannot be seen from the street. They also cleaned out the plants in the ditch to provide a better flow and were working on options to plant erosion control native plants in the ditch.

Mayor Pruette stated Ms. Ferrell was doing an excellent job and has made Neptune Beach very proud. She felt it was good that Ms. Ferrell worked in partnership to resolve issues regarding the Community Garden and the Green Market.

Vice Mayor Weldon also complimented Ms. Ferrell on a job well done.

Councilor Lee felt as long as the city and volunteers could continue to work together on any problems that may arise, the Community Garden and the Green Market would continue to be successful.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The income level for Neptune Beach was too high for the city to qualify for stimulus money.
- Florida Highway Patrol was investigating an accident that occurred on Penman Road at Atlantic Boulevard over the weekend.
- Jacksonville Transportation Authority was working on a project on the south side of the Intracoastal on Atlantic Boulevard.
- The Public Service Department was working with the City of Atlantic Beach and engineers to complete the nitrogen study.

PUBLIC COMMENTS

- Marsha Coker, 206 Margaret Street, was concerned about disruptive noise on Margaret Street.

PROPOSED ORDINANCES

Vending Machines

ORDINANCE NO. 2009-XX. AMENDING CHAPTER 26. VENDING MACHINES: AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 26 VENDING MACHINES, SECTION 26-1 DEFINITION AND ADDING SECTION 26-7 OUTDOOR MACHINES AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance defined vending machines as any unattended machine operated by coin, currency, credit card, slug, token, coupon or similar device, which dispenses food, beverages or other items of tangible personal property, except any such machine exempt from the payment of a local business tax receipt by state law.

Consensus: **HAVE THE CITY ATTORNEY AND THE CITY MANAGER GATHER MORE INFORMATION AND FORWARD TO THE JULY WORKSHOP MEETING.**

Uses / Zoning

ORDINANCE NO. 2009-XX, AMENDING CHAPTER 27-227 SPECIAL RESTRICTIONS AND CONDITIONS ON ALLOWABLE USES WITHIN ZONING DISTRICTS: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE IV, LAND USE, SECTION 27-227 SPECIAL RESTRICTIONS AND CONDITIONS ON ALLOWABLE USES WITHIN ZONING DISTRICTS AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained this Ordinance would allow outdoor vending machines as outlined in Chapter 26, subsection 26-7. He suggested amending the ordinance to allow outdoor vending machines by special exception only.

Councilor Pardee felt there was no rush on the issue and more time should be allotted for public input. He would agree to discuss allowing vending machines by special exception.

Vice Mayor Weldon stated he would be reluctant to allow outdoor vending machines because he felt they would degrade the appearance of the community. He would agree to discuss allowing them by special exception.

Mayor Pruette felt Red Box Movie Rentals would be a convenience to the community. She felt vandalism would not be an issue because they did not accept cash. She would also agree to support allowing vending machines by special exception.

Councilor Lee felt allowing vending machines in general would be opening a Pandora's box. He would be open to discuss allowing them as a special exception.

City Attorney White advised, under the 1st Amendment, restrictions could not be imposed on vending machines containing any type of publications.

Consensus: **HAVE THE CITY ATTORNEY AND THE CITY MANAGER GATHER MORE INFORMATION AND FORWARD TO THE JULY WORKSHOP MEETING.**

CONTRACTS / AGREEMENTS / NONE**ISSUE DEVELOPMENT**

Margaret Street

MARGARET STREET NOISE: City Manager Jarboe stated the Public Safety Department has received eight noise complaints on Margaret Street since January 1st. He felt, due to the number of multifamily homes and tenants on the street, the issue would only worsen with the upcoming summer season. He suggested amending the Three Strike Ordinance to allow police officers the discretion to ticket the defendant on the first offense instead of giving a warning. He also suggested changing the Three Strike Ordinance to a Two Strike Ordinance in an effort to correct the problem sooner.

City Attorney White stated the City of Fernandina Beach was in the process of adopting a similar ordinance and once it was passed he would circulate a copy to the Council.

Consensus: **FORWARD TO THE JULY REGULAR MEETING FOR FIRST READ.**

Crafternoon

CRAFTERNOON – USE OF JARBOE PARK FOR EVENT: City Manager Jarboe stated the Crafternoon event has taken place in Jarboe Park for the past three years without incident. Any money received from the event would be donated to charity.

Consensus: **FORWARD TO THE JULY CONSENT AGENDA.**

DISCUSSION

Councilor Lee questioned the progress of the creation of a non-profit status for Jarboe Park improvements.

City Manager Jarboe replied Council has not approved the creation of a nonprofit status for Jarboe Park.

Mayor Pruette suggested reviewing the tape and minutes of the meeting to determine previous Council action and placing the issue on the July workshop meeting.

Consensus: **TO PLACE NON-PROFIT STATUS FOR JARBOE PARK ON THE JULY WORKSHOP AGENDA.**

Adjournment

There being no further business, the meeting adjourned at 6:56 pm.

MOTION CARRIED

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette stated she received a letter from the United States Post Office informing her they would be installing a drive-thru drop off mail box at the new Jacksonville Beach location.

Mayor Pruette felt Waste Pro was not using the proper equipment to help eliminate odors from the dumpsters located behind City Hall. She was also concerned Waste Pro was not taking precautions to prevent trash from falling out of the trucks.

City Manager Jarboe stated he spoke with a representative for Waste Pro and they admitted there were holes in some of their trucks. He explained the representative agreed to spray a deodorizer at the location behind city hall. He would also speak with the users of the dumpsters and ask them to keep the tops of the dumpsters closed.

CITY MANAGER REPORT

- The Duval County Beaches were recognized with an award for being one of the seven best beaches in the United States. Mayor Pruette was present at the event last Friday to speak on behalf of Neptune Beach.
- The Public Safety Department was looking into receiving a grant.

COMMENTS FROM THE PUBLIC

Barbara Jackson, Chairperson for the Ish Brant Beautification Committee, urged the Council to support the committee in applying for 501(c) 3 and non-profit status.

CONSENT AGENDA

SUN DOG DINER SIDEWALK LEASE AGREEMENT: City Manager Jarboe stated the Sun Dog Diner would like to install a retractable awning over the outdoor seating area. He felt this would enhance the appearance and provide more comfort for the outdoor diners. It would have to pass Florida Building Code requirements.

ISH BRANT BEAUTIFICATION COMMITTEE – 501(C)3 STATUS: The committee felt it would be beneficial, with Council approval, to pursue a non profit status and become a 501(c)3 in order to receive donations of money, plants, planting materials, etc.

Moved by Weldon, seconded by Tucker

City Attorney Chris White suggested the word “any” that was previously stricken should remain in the ordinance.

Vice Mayor Weldon agreed the word “any” needed to be reinserted. He further suggested the language in paragraph read as follows: A hardship generally occurs when the physical characteristics of a property are such that it cannot be used for any purposes permitted by Codes. A hardship may be created by the surroundings, shape or topographical conditions particular to that specific property. However, the hardship cannot be created by, or be the result of, property owner’s own action, or be granted solely for the personal comfort, or convenience of the property owner or for relief from financial circumstances.

Mayor Pruette read Ordinance No. 2009-05 by title only and opened the public hearing.

Kerry Chin, Chairperson of the Planning & Development Board, questioned using the word “granting” verses “creating.”

City Attorney White stated the word “granted should be used.

There being no further comments from the public, the public hearing was closed.

Moved Weldon, by seconded by Lee.

PDRB 09-07 – REPLAT – 912 OCEANFRONT – HAYCOOK: The applicant is requesting a Replat of one beach front lot into two beach front lots. This would create one lot facing Azalea Place and a vacant lot facing Bay Street.

Vice Mayor Weldon stated he spoke with Mrs. Askew prior to the meeting and she assured

him the Replat would not cause the Bay Street access to be smaller than any other street end access.

Moved by Lee, seconded by Weldon.

Motion: **TO APPROVE PDRB 09-07 AS RECOMMENDED BY THE PLANNING AND DEVELOPMENT REVIEW BOARD**

Councilor Pardee questioned if the application addressed the responsibility of establishing utilities. City Manager Jarboe suggested stating the issue as part of the motion.

Moved by Lee, seconded by Weldon.

Amended Motion: **TO APPROVE PDRB 09-07 AS RECOMMENDED BY THE PLANNING AND DEVELOPMENT REVIEW BOARD AND CLARIFY THE EXTENSION OF THE UTILITIES WILL BE THE RESPONSIBILITY OF THE DEVELOPER / LAND OWNER.**

Mrs. Loretta Haycook, 912 Oceanfront, stated she has been informed that they, as the property owners, would be responsible for any cost related to extending the Bay Street to meet the ingress and egress.

Mayor Pruette asked Mrs. Haycook to work together to protect the street end.

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

OPEN DISCUSSION

Mayor Pruette asked if anyone had any further comments.

Councilor Pardee suggested reviewing the section of the Code regarding sales in parking lots and vending machines.

Mayor Pruette recommended placing the issue of outdoor sales and vending machines on the June workshop agenda.

Adjournment

There being no further business, the meeting adjourned at 6:50 p.m.

WORKSHOP CITY COUNCIL MEETING
MAY 18, 2009, AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held May 18, 2009 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Weldon
Councilor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
City Attorney Christopher White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Director of Finance Steve Ramsey
Director of Public Safety David Sembach

Call to Order/Roll Call Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

IBBC

ISH BRANT BEAUTIFICATION COMMITTEE / NON PROFIT STATUS: Barbara Jackson, Chairperson for the Ish Brant Beautification Committee, explained the purpose of the committee was to beautify Neptune Beach which they have done through many projects. They previously received small contributions from the city. However, they have not received any funding from the city in over a year. The committee felt it would be beneficial, with Council approval, to pursue a non profit status and become a 501(c)3 in order to receive donations of money, plants, planting materials, etc.

City Manager Jarboe explained there are a number of organizations that will not donate to government agencies but they will donate to a private 501(c)3.

Vice Mayor Weldon asked if Council would still be responsible for appointing members to the committee. Mrs. Jackson stated that would not change.

CONSENSUS: TO PLACE ON THE JUNE CONSENT AGENDA.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- He was communicating with Florida Department of Transportation regarding the cross walks.
- He was meeting with Atlantic Beach regarding the wastewater.
- Gateway Center has applied for a permit for a medical center.
- Penman Plaza has passed inspection for piling in their new expansion area.

- The former Taco Bell has a group proposing to operate a sports bar and grill.
- Building plans have not been submitted for the location of the old Neptune Mall.
- Regency Center has six weeks to approve the plans for the Publix.
- The Island Girl Cigar Bar will open for business Friday.
- Dancin' in the Streets had an extremely large crowd. There were no incidents reported.

PUBLIC COMMENTS

PROPOSED ORDINANCES/ NONE

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Brant Blvd. MAINTENANCE OF BRANT BOULEVARD / SUMMER SANDS: Mayor Pruette stated this item has been settled between the City Manager and the Summer Sands Homeowners' Association.

Sun Dog Diner SUN DOG DINER / SIDEWALK LEASE AGREEMENT: City Manager Jarboe stated the Sun Dog Diner would like to install a retractable awning over the outdoor seating area. He felt this would enhance the appearance and provide more comfort for the outdoor diners. It would have to pass Florida Building Code requirements. He suggested placing this on the June consent agenda for approval.

Consensus: **FORWARD TO THE JUNE CONSENT AGENDA.**

Animal Ordinance Committee ANIMAL ORDINANCE COMMITTEE REPORT / PROPOSED AMENDMENTS TO THE CODE: Mayor Pruette stated she would like Council to ask the committee questions regarding their recommendations and have an open discussion with the committee members.

Vice Mayor Weldon supported the recommended changes as a concept. However, he asked Mrs. Shedden, Chairperson and Executive Director of the Jacksonville Humane Society, to respond to the following questions: 1) Why they recommended licensing of animals, 2) why they recommended Council appoint a board to oversee the animal ordinance, and 3) why they recommended extending the hours allowing dogs on the beach.

Mrs. Shedden stated the committee appreciated the opportunity to review the animal ordinance. She felt all the recommendations should be discussed and considered. She stated that each member of the committee had different expertise and ideas and spent a lot of time considering and implementing those ideas into the existing ordinance. She added the recommended changes were modeled after the Humane Society of the United States.

She felt licensing all pets would help to establish a database of dogs and cats living in the City and would help monitor incidents occurring within the City limits.

Vice Mayor Weldon questioned if there was another means in place for monitoring incidents. Mrs. Shedden felt the old monitoring system used by the Public Safety Department was inaccurate. She felt those that did not license their animals should be subject to a serious fine.

Vice Mayor Weldon questioned how the database would be monitored.

Mrs. Shedden explained if the city implemented a database it would record and document

occurring incidents. This would also allow the City to be aware of what animals are in the City, how they are being supported by their owner, and what problems, if any, they are creating.

Sandy Golding, member of the Animal Ordinance Committee, added animals that are spayed or neutered would pay a lesser fee for licensing. This would encourage owners to spay or neuter their pets. Also male dogs that are spayed or neutered have a tendency to be less aggressive. It would also help prevent procreation of aggressive dogs.

Mary Cleary, Veterinarian, asked City Attorney White if the city was liable for not being proactive by requiring animals within its boundaries to be vaccinated against rabies.

City Manager Jarboe responded it was a State requirement to have animals licensed for rabies. It was the owner's responsibility, not the city or county. The cities and county also enforce State law licensing for rabies therefore a city license is not necessary. Animal Control enforces this law if they approach an animal that does not have a tag. The owner is then given a ticket for not having the dog licensed.

Councilor Lee asked what would classify a dog as "dangerous" or "potentially dangerous" and how would the city deal with a dog that did not live within city limits.

Mrs. Shedden replied when an incident occurs with an animal inside city limits it is tried in Neptune Beach. Then the animal would be identified and the city could be proactive and give the owner an opportunity to correct the behavior and eliminate the danger to the community. She added the Humane Society did not identify specific breeds of animals as dangerous. The committee would also like the entire county to adopt the same ordinance in order to be consistent.

Bob Hammesfahr, Veteran Dog Trainer, felt there were no dangerous dogs, only irresponsible owners.

Mrs. Golding added Neptune Beach police officers are able to ticket speeders in the city that do not live in Neptune Beach, and they should also be able to handle a situation with an animal that does not live in the city limits.

City Manager Jarboe replied Animal Control has always and continues to issue tickets to people for dogs that do not live in the city.

Mrs. Shedden stated the ultimate goal is to prevent an animal from being classified as potentially dangerous before the fact. This would prevent the owner from the need to purchase liability insurance and also save animals from having to be euthanized.

Mary Cleary, member of the committee and veterinarian, stated education was the key factor. If an animal is euthanized the owner does not learn anything.

City Manager Jarboe stated the Public Safety Department now has the software available to set up a database system to track animal incidents.

Mrs. Shedden explained the City of Jacksonville is now allowing veterinarians to license animals. She felt it would be in the best interest of the beach cities to also allow Veterinarian's to license animals so there is no confusion.

City Manager Jarboe felt allowing veterinarians to license animals would solve the need for the city to hire additional staff. However, someone would need to create the program and enter the data. He added that animal control was technically the responsibility of the county.

Councilor Pardee supported veterinarian's handling the licensing. He did not think the City

should be involved in licensing. He asked City Attorney White to review the recommendations of the committee.

Mayor Pruette questioned the difference between a "dangerous dog" and "dangerous breed."

Mr. Hammesfahr replied there were no dangerous breeds of dogs. The difference was the education of the owner.

Mayor Pruette stated the Code requires owners to be in control of dogs at all times. She questioned how someone could be in control of an animal if the person was on a skateboard or bicycle. City Attorney White stated it would be difficult to determine whether or not someone was in control of an animal. For example, there could be a strong young man on a bicycle or skateboard and an elderly person holding onto a large dog on a leash which would make it difficult to determine which one had more control.

Mrs. Golding stated the committee recommended adding the following language: "such leash must be attached to a fixed object or specifically held by a person capable of controlling the animal."

Mayor Pruette suggested the Council review the proposal.

Councilor Tucker felt a lot of the issues could be resolved by working together with the county and sister beaches cities.

City Manager Jarboe stated a county wide approach would make it easier to enforce and asked if the Humane Society could help lobby the point.

Vice Mayor Weldon questioned why the committee recommended a board to oversee the ordinance.

Mrs. Golding replied the committee's thought was having a veterinarian, an animal trainer, and a lawyer on a board, the city would have a better legal opportunity to make decisions regarding whether a specific animal was potentially dangerous.

Mr. Hammesfahr felt the different backgrounds provided the experience to make a proper decision medially, legally, and behaviorally.

Mrs. Shedden added a Board would lend credibility to the animal control officer.

Vice Mayor Weldon suggested appointing a panel of advisors to the Animal Control Department.

Mayor Pruette questioned if the panel would have to adhere to the sunshine laws.

City Manager Jarboe stated if the panel made recommendations and was not a fact finding committee or board it would not be held to Sunshine Law.

Vice Mayor Weldon felt the prospective dangerous dog component was most valuable. He recommended Council and staff review the proposed amendments and forward it as an agenda item to incorporate into the Code.

Councilor Weldon questioned why the committee recommended extending the hours of allowing dogs on the beach.

Mrs. Shedden replied the hours should be consistent throughout the beaches to avoid confusion. The committee felt dogs should be allowed on the beach during all hours from October to May.

Mayor Pruette stated one problem was Neptune Beach did not the staff time to do anything other than what we were already doing.

Mrs. Golding stated it would not mean less staff time. If dogs were allowed on the beach during non peak times an officer would have to police the beach.

Mrs. Shedden suggested the consideration of a 90 day trial period.

Councilor Lee supported the licensing and registration of animals on the county level at the veterinarian's office.

Mr. Hammesfahr felt lack of enforcement should not be a reason to prohibit dogs on the beach.

Councilor Pardee felt the Council needed more input from the public regarding dogs being allowed on the beach. He felt licensing was unnecessary because it could not be enforced by the city.

Consensus: **HAVE STAFF TAKE A LOOK AT THE ORDINANCE AND COME UP WITH RECOMMENDATIONS TO INCORPORATE.**

City Manager Jarboe stated he would work with Leona Shedden on the proposed recommendations.

Mayor Pruette opened the floor for public comments.

David Baker, First Street, felt the fine for first offenses should be \$100.00, second offenses should be \$200.00, and third offenses \$500.00. He also felt a 12 foot leash should be required in lieu of a 16 foot leash. He felt there should be a law against pulling a dog on a skateboard or bicycle and dogs over a certain weight should be required to have training.

Lynda Padrta, 1113 First Street, agreed the County and the veterinarians should control licensing of pets. She would also like for people filling out applications for utilities to sign an affidavit stating they are aware of the animal ordinance. She felt the three cities should work together to avoid confusion. She did not support extending the hours to allow dogs on the beach.

JoAnne Waddill, 1816 Strand Street, felt the hours of allowing dogs on the beach should not be extended.

Alan Martin, 1113 First Street, hoped the city was abiding the state statutes regarding dangerous dogs and felt dog owners should be more responsible.

Pete Duffy, 123 Bowles Street, service dog owner, felt the countywide veterinarian licensing made sense. He suggested allowing dogs on the beach Monday through Friday when the beaches were not that crowded.

DISCUSSION

Councilor Lee asked if there was any way the city could allocate money to place doggie poop bag stations along First Street. City Manager Jarboe stated the bags only worked if people used them. Mayor Pruette asked staff to review the request.

Adjournment

There being no further business, the meeting adjourned at 7:50 pm.

Director of Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Service Leon Smith

Order Call/Pledge

Mayor Pruette called the meeting to order at 6:00 p.m. and asked Vice Mayor Weldon to lead the Pledge of Allegiance.

AWARDS / PRESENTATIONS / RECOGNITION OF GUESTS

Mayor Pruette announced former Mayor Richard Brown's art work was being displayed on the art wall in the Council Chambers.

PRESENTATION OF CITY AUDIT / MASTERS, SMITH & WISBY: Gary Hugget, Representative for Masters, Smith & Wisby, presented the financial report for the year ending September 30, 2008. Mr. Hugget explained the assets of the Enterprise Fund decreased by \$488,000, the General Fund increased by \$133,099, and the Special Revenue Fund decreased \$25,886. There was also a small deficit in net assets. He felt the city needed to increase net assets in order to strengthen the financial health of the city.

Mayor Pruette stated unfortunately rates needed to be raised. She felt the city needed to implement a plan to collect payment for unpaid utility bills.

Councilor Lee asked Finance Director Ramsey how many years it would take to build up the funds. Mr. Ramsey replied he hoped to build the funds up by 2011.

Councilor Pardee felt new development of vacant commercial properties would help increase revenue.

Vice Mayor Weldon asked Mr. Hugget to give his general opinion of the overall condition of the city's finances. Mr. Hugget responded there was room for improvement. The city should strive to build up three months of operating expenses in the Reserve Fund.

Councilor Weldon asked Mr. Hugget for his opinion of the overall accounting procedures of the City. Mr. Hugget replied there were some small scratches and bruises that needed fixing, but an overall good job.

COMMUNICATIONS AND CORRESPONDENCE

CITY MANAGER REPORT

- Due to summer crowds the Public Services Department was using a lot of overtime to keep the beach clean during weekends.
- The Public Services Department received the street sweeper last week.
- A study of the nitrogen issue was being conducted to determine if it would be feasible to unite the waste water with the City of Atlantic Beach.
- FEMA money for reimbursement of clean up after Tropical Storm Fay still has not been received.
- The City of Jacksonville Beach presented a check for \$50,000 and the State of Florida contributed \$100,000 towards the King Road Bridge repairs.
- Many new commercial developments were in progress.

Mayor Pruette questioned the progress of the development order that was approved for the Mexican Restaurant at the old Taco Bell site. City Manager Jarboe replied they decided not to proceed with those plans. However, another party was interested in opening a sports bar on the site.

COMMENTS FROM THE PUBLIC

T. R. Seman, 242 Windswept Circle, Treasurer of the Summer Sands Homeowners Association, asked Council to place the irrigation of Brant Avenue on a workshop agenda. Mayor Pruette stated she would place the issue on the May workshop agenda.

Mr. John King, 111 Florida Boulevard, suggested filling in the drainage ditch between the shopping centers on Atlantic Boulevard to provide easier access to shopping.

PDRB 09-03
400 Penman Rd.

PDRB 09-03 – SPECIAL EXCEPTION – CHRIST UNITED METHODIST CHURCH – 400 PENMAN ROAD: City Manager Jarboe explained the special exception was for a nonprofit private school. The Unified Land Development Regulations require a special exception for schools in residential zoning districts.

Vice Mayor Weldon was concerned about the condition of the old building. He asked if the building would be upgraded to meet current code standards for children. Ms. Miller replied the building would be upgraded.

Councilor Lee clarified the Church currently operated a pre-school and kindergarten the special exception would expand the school to operate through grade 12.

Councilor Pardee questioned if the surrounding neighbors were notified and if there was opposition during the public hearings. Community Development Director Askew replied all property owners within 300 feet were noticed and a sign was posted on the property.

V09-05 NINE VARIANCES, PDRB 09-04 REPLAT, AND PDRB 09-06 DEVELOPMENT ORDER FOR REGENCY CENTER SEMINOLE SHOPPE – 630 ATLANTIC BOULEVARD:

Moved by Weldon, seconded by Lee

Motion: **TO APPROVE THE RECOMMENDATIONS OF THE PLANNING & DEVELOPMENT REVIEW BOARD FOR ALL NINE VARIANCES V09-05, THE REPLAT PDRB 09-04 AND THE DEVELOPMENT ORDER PDRB 09-06.**

Tom Fleming, Representative for Regency Centers, explained Regency Center, a company based in Jacksonville, is the managing partner for redevelopment of the site. He explained the first phase of the development would be Publix, the anchor tenant, and the connected retail. The second phase will be an anticipated bank at the current Blockbuster location. The remaining development would be driven by the market.

Once the project is approved by the Council they will immediately begin drawing the construction plans to obtain the building permit. This would take approximately four months. Once the building permit is obtained they will begin demolishing the existing building. By late summer or early fall the first phase of the project should begin. They expect to begin construction on the second phase of the development in the third or fourth quarter of 2010.

Vice Mayor Weldon was concerned about the traffic flow and asked Mr. Fleming if he would agree to support the construction of a drive through to the K-mart Shopping Center. Mr. Fleming responded that they could not make a commitment however; he felt it would make sense to pursue it in the future.

Vice Mayor Weldon also voiced concern regarding the intersection modifications. Mr. Fleming advised they were currently working with Florida Department of Transportation regarding the improvements of the intersections.

Councilor Lee was also concerned about traffic flow and asked Mr. Fleming to help in any way possible. Mr. Fleming stated he was aware of the traffic situation and they would do whatever they could to improve the situation.

Councilor Lee asked if the Neptune Mall signs would be removed. Mr. Fleming replied "yes" those signs would be removed.

Councilor Pardee asked if Publix had executed the lease agreement. Mr. Fleming replied the lease was contingent upon approval of the development order by the Council.

Councilor Pardee was concerned what would happen if the plans for the development did not go through. He felt if Council approved the site for a Publix it would also make the site available to any other anchor store.

Councilor Pardee asked if there would be two Publix stores for any time period. Mr. Fleming stated from his experience there is normally a transition using the existing staff and management and that may take a week or two.

Councilor Pardee asked if it was correct that the one parcel would be subdivided into three parcels. Mr. Fleming stated that was correct. Councilor Pardee asked how many total property owners there would be. Mr. Fleming stated there would be two different owners, maybe three.

Councilor Pardee asked who would be responsible for the drainage area behind the shopping center. Mr. Fleming stated the drainage area would be the responsibility of the master development under a separate agreement of the property owners.

Councilor Pardee asked Community Development Director Askew if the developer would be required to erect a fence or barrier behind the shopping center between the commercial and residential properties. Ms. Askew replied the Code required a solid wall or a ten foot landscape buffer. The southside of the retention pond currently has a buffer that is already

landscaped. The plans included adding more live oak trees and this would meet the intent of the Code.

Councilor Pardee asked if a barrier was necessary to decrease noise at the loading zone. Ms. Askew replied "no" a wall was not required. The Code required that the loading docks not be visible from the public right-of-way. If a noise issue arose it would be dealt with through Code Enforcement procedures.

Councilor Pardee stated the previous Winn Dixie development was required to bring the entire parking lot to Code in order to for a small addition. He asked if Regency Center was receiving credits for existing parking spaces or landscaping requirements. Community Development Director Askew explained because the development was starting from ground zero they were not receiving credits for parking spaces or landscaping. The development met the requirement of a landscape island for every 10 parking spaces.

Councilor Pardee asked if the neighbors had been notified. Community Developer Askew replied all property owners within three hundred feet were sent a letter regarding the variances. A sign was posted on the property. The notice was also on the website, in the Beaches Leader community newspaper, and posted in the City Hall building.

Councilor Pardee noted only one property owner was present at the PDRB.

For the Record Mayor Pruetto stated for the record she received an opinion letter from City Attorney and quoted the following portion of the letter: "As you are no longer employed by Publix Supermarkets there is no real conflict or an appearance of conflict of interest to you that would exempt you from voting on the proposed Regency Center Seminole Shoppe."

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruetto

Noes: 0

MOTION CARRIED

Mayor Pruetto encouraged Regency Center to begin construction as soon as possible.

OPEN DISCUSSION

Mayor Pruetto asked if anyone had anything to add.

Mrs. Golding added Neptune Beach police officers are able to ticket speeders in the city that do not live in Neptune Beach, and they should also be able to handle a situation with an animal that does not live in the city limits.

City Manager Jarboe replied Animal Control has always and continues to issue tickets to people for dogs that do not live in the city.

Mrs. Shedden stated the ultimate goal is to prevent an animal from being classified as potentially dangerous before the fact. This would prevent the owner from the need to purchase liability insurance and also save animals from having to be euthanized.

Mary Cleary, member of the committee and veterinarian, stated education was the key factor. If an animal is euthanized the owner does not learn anything.

City Manager Jarboe stated the Public Safety Department now has the software available to set up a database system to track animal incidents.

Mrs. Shedden explained the City of Jacksonville is now allowing veterinarians to license animals. She felt it would be in the best interest of the beach cities to also allow Veterinarian's to license animals so there is no confusion.

City Manager Jarboe felt allowing veterinarians to license animals would solve the need for the city to hire additional staff. However, someone would need to create the program and enter the data. He added that animal control was technically the responsibility of the county.

Councilor Pardee supported veterinarian's handling the licensing. He did not think the City

should be involved in licensing. He asked City Attorney White to review the recommendations of the committee.

Mayor Pruette questioned the difference between a "dangerous dog" and "dangerous breed."

Mr. Hammesfahr replied there were no dangerous breeds of dogs. The difference was the education of the owner.

Mayor Pruette stated the Code requires owners to be in control of dogs at all times. She questioned how someone could be in control of an animal if the person was on a skateboard or bicycle. City Attorney White stated it would be difficult to determine whether or not someone was in control of an animal. For example, there could be a strong young man on a bicycle or skateboard and an elderly person holding onto a large dog on a leash which would make it difficult to determine which one had more control.

Mrs. Golding stated the committee recommended adding the following language: "such leash must be attached to a fixed object or specifically held by a person capable of controlling the animal."

Mayor Pruette suggested the Council review the proposal.

Councilor Tucker felt a lot of the issues could be resolved by working together with the county and sister beaches cities.

City Manager Jarboe stated a county wide approach would make it easier to enforce and asked if the Humane Society could help lobby the point.

Vice Mayor Weldon questioned why the committee recommended a board to oversee the ordinance.

Mrs. Golding replied the committee's thought was having a veterinarian, an animal trainer, and a lawyer on a board, the city would have a better legal opportunity to make decisions regarding whether a specific animal was potentially dangerous.

Mr. Hammesfahr felt the different backgrounds provided the experience to make a proper decision medially, legally, and behaviorally.

Mrs. Shedden added a Board would lend credibility to the animal control officer.

Vice Mayor Weldon suggested appointing a panel of advisors to the Animal Control Department.

Mayor Pruette questioned if the panel would have to adhere to the sunshine laws.

City Manager Jarboe stated if the panel made recommendations and was not a fact finding committee or board it would not be held to Sunshine Law.

Vice Mayor Weldon felt the prospective dangerous dog component was most valuable. He recommended Council and staff review the proposed amendments and forward it as an agenda item to incorporate into the Code.

Councilor Weldon questioned why the committee recommended extending the hours of allowing dogs on the beach.

Mrs. Shedden replied the hours should be consistent throughout the beaches to avoid confusion. The committee felt dogs should be allowed on the beach during all hours from October to May.

Mayor Pruette stated one problem was Neptune Beach did not the staff time to do anything other than what we were already doing.

Mrs. Golding stated it would not mean less staff time. If dogs were allowed on the beach during non peak times an officer would have to police the beach.

Mrs. Shedden suggested the consideration of a 90 day trial period.

Councilor Lee supported the licensing and registration of animals on the county level at the veterinarian's office.

Mr. Hammesfahr felt lack of enforcement should not be a reason to prohibit dogs on the beach.

Councilor Pardee felt the Council needed more input from the public regarding dogs being allowed on the beach. He felt licensing was unnecessary because it could not be enforced by the city.

Consensus: **HAVE STAFF TAKE A LOOK AT THE ORDINANCE AND COME UP WITH RECOMMENDATIONS TO INCORPORATE.**

City Manager Jarboe stated he would work with Leona Shedden on the proposed recommendations.

Mayor Pruette opened the floor for public comments.

David Baker, First Street, felt the fine for first offenses should be \$100.00, second offenses should be \$200.00, and third offenses \$500.00. He also felt a 12 foot leash should be required in lieu of a 16 foot leash. He felt there should be a law against pulling a dog on a skateboard or bicycle and dogs over a certain weight should be required to have training.

Lynda Padrta, 1113 First Street, agreed the County and the veterinarians should control licensing of pets. She would also like for people filling out applications for utilities to sign an affidavit stating they are aware of the animal ordinance. She felt the three cities should work together to avoid confusion. She did not support extending the hours to allow dogs on the beach.

JoAnne Waddill, 1816 Strand Street, felt the hours of allowing dogs on the beach should not be extended.

Alan Martin, 1113 First Street, hoped the city was abiding the state statutes regarding dangerous dogs and felt dog owners should be more responsible.

Pete Duffy, 123 Bowles Street, service dog owner, felt the countywide veterinarian licensing made sense. He suggested allowing dogs on the beach Monday through Friday when the beaches were not that crowded.

DISCUSSION

Councilor Lee asked if there was any way the city could allocate money to place doggie poop bag stations along First Street. City Manager Jarboe stated the bags only worked if people used them. Mayor Pruette asked staff to review the request.

Adjournment

There being no further business, the meeting adjourned at 7:50 pm.

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette reminded everyone of the Easter Egg Hunt on Friday, April 10th, in Jarboe Park. She passed out a resolution for the April Workshop agenda asking the Tax

Collector's Office to remain at the Beaches.

Councilor Tucker thanked the Mayor for getting the resolution together so fast.

Councilor Pardee stated JTA will be funding the deficit of the trolley. Councilor Lee stated he will forward the internet link containing a trolley update. The trolley fee will be fifty cents per person. Councilor Tucker asked if there would be season passes. Councilor Lee stated he would look into that.

Councilor Lee informed everyone the school board had begun stenciling in the school zone in front of Neptune Beach Elementary.

CITY MANAGER REPORT

- DOT will start the road work on Third Street later this year. The streetlights will be moved to the side of the road and Jacksonville Beach will be maintaining them.
- The Kings Road Bridge will be sprayed with the epoxy sealant on Wednesday or Thursday and the city will have a ribbon cutting ceremony to open the bridge.
- The city received the \$100,000 from DOT and is waiting for the \$50,000 from Jacksonville Beach for the Kings Road Bridge.
- The Island Girl Cigar Bar is going in next to Mezza Luna. It will be following the State Code.
- Lakeshore/Regency Centers is on the next Planning and Development Review Board. They will be tearing down the old building and rebuilding.
- Gateway has construction on the third floor of the building. Doctors will be leasing the building.
- The FEMA money has not been received yet.
- Still working on the DOT crosswalks.

MOTION CARRIED

Town Center Art Sculpture

TOWN CENTER ART SCULPTURE: Mayor Pruette stated the Council had a workshop meeting and a joint meeting was also held with the Atlantic Beach Commission to discuss the art sculpture "Pathfinder". The Council also received many e-mails from citizens regarding their opinion on the placement of the art sculpture in the Town Center roundabout.

Councilor Weldon asked Michael Dunlap to approach the podium and give an update on the agreements with Atlantic Beach regarding the maintenance of the sculpture and the escrow fund to cover the costs.

Michael Dunlap explained Atlantic Beach approved placement of the "Pathfinder" in the roundabout with the condition that an escrow account be set up to cover the cost of maintenance for 20 years past the date of completion. However, an amount was not specified. Mr. Dunlap felt the amount needed to be determined by the Town Center Agency Board and both cities.

Vice Mayor Weldon clarified that tax payer money would not be used to cover the cost of the sculpture or the maintenance of the sculpture for the first 20 years. Michael Dunlap replied the project would be privately funded with no cost to the city.

Mr. Dunlap summarized the Town Center Agencies response to the Council's previous concerns. The base was lowered to 12 inches, the coating would be good for 10 to 15 years and the expense for recoating would be included in the escrow account. The bearings were upgraded to steel for minimal maintenance. He felt there was no opposition from the art community. It was recommended for approval by the Planning & Development Review Board. It was also approved by the City of Atlantic Beach. He encouraged the Council to support the "Pathfinder".

Vice Mayor Weldon stated the main concern from the citizens was that the sculpture would block the view of the ocean from Atlantic Boulevard. Mr. Dunlap responded that one of the conditions of the competition for the art project was that the selected art object would not block the view of the ocean. He believed that it was difficult to imagine that the "Pathfinder" would block the view of the ocean from the intersection.

Vice Mayor Weldon stated other complaints were that the sculpture was inappropriate for a beach community. He asked the artist, Jay Shoots, to give his opinion on the subject.

Jay Shoots, Artist and Designer of Pathfinder, explained he designed the Pathfinder to work in harmony with the beaches weather conditions. It did not represent anything specific. He felt it was up to the individual viewing the art to determine its meaning.

Mayor Pruette and each Council Member disclosed they spoke with one or all of the following prior to the meeting: Michael Dunlap, Kelly Elmore, and Jay Shoots.

Councilor Lee questioned, because the art sculpture would be placed on public property, if it would automatically become city property and if so who would be responsible for the liability insurance. City Attorney White stated if the art sculpture was on public property the city would be responsible for the liability insurance. City Manager Jarboe replied the liability would be covered under the umbrella of the city insurance policy or the Council could ask the Town Center Agency to escrow for the insurance if the project was approved.

Moved by Weldon, seconded Lee.

Motion: **TO APPROVE THE PATHFINDER SCULPTURE FOR THE TOWN CENTER ROUNDABOUT.**

Vice Mayor Weldon felt the roundabout was originally designed and intended for public art. He did not want to dismiss the idea of art being placed there in the future. He felt this was a great opportunity for the city to become part of a larger movement of public art throughout the world. He encouraged Council to support his motion.

Councilor Pardee referred to an accident report that happened when a vehicle ran through the roundabout and crashed. He also stated Section 27-576 of the Code was recently created for proposed art projects in commercial districts. He felt the city should follow the Code for this art project request. He added that the city has not received an application, plans or engineering for the project.

Mayor Pruetto opened the floor for comments from public.

Kelly Elmore, 1650 Beach Avenue, Atlantic Beach, past Chairman for Town Center Agency, supported the Pathfinder and asked Council for their approval. He felt that over time the "Pathfinder" would become an iconic element.

Laura Patronik, 1520 Leeward Lane, opposed the Pathfinder. She felt it would be better placed in a different location.

Mary Ann Padrta, 1030 Second Street, also opposed the Pathfinder being placed in the roundabout. She also felt it would be a liability to the city.

Joe Quest, 960 Hagler Drive, opposed the Pathfinder. He also felt the roundabout was not the best location for the sculpture.

Steve Kuti, 1132 Linkside Drive, Atlantic Beach, opposed the Pathfinder. He felt it would be a huge maintenance responsibility.

There being no further comments from the public, the public hearing was closed.

Roll Call Vote:

Ayes: 1 – Weldon

Noes: 4 – Lee, Pardee, Tucker, Pruetto

Director of Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Services Leon Smith

Call to Order/Roll Call Mayor Pruette called the meeting to order at 6:35 p.m.

PRESENTATIONS

Donald Padgett, Trustee, Police Officers Pension Fund Board, gave a presentation relating to investments, management and funding of the Police Officers Pension Fund. He explained the funds were down 12.3 % as of September 30, 2008. It appeared through March 31, 2009 that the fund will decrease another 10.3 % in investments. The actuarial assumption in projection for next year is to increase the funding for the city to 20.4 %, last year the funding for the city was 17.4%, which is roughly \$30,000. It looks like it will cost the city approximately \$30,000 to \$35,000 for the next budget year. He invited Council to attend the next Board meeting on May 21, 2009 where the investment manager and monitoring agent will be present to answer any questions.

Councilor Lee questioned what percentage the amount would be of the general fund. Director of Finance Ramsey replied it would amount to a little less than 1% of the general fund.

Vice Mayor Weldon stated for the benefit of the Council for the next fiscal year the city would have to contribute \$35,000 toward the pension fund. But the next year after that, if the markets did not improve, it could be a substantial amount.

City Manager Jarboe stated the city was required by state law to make the pension fund whole. The only caveat was it did not have to be all in one year. He felt the board had good financial advisors.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The new street sweeper should arrive tomorrow after 3:00 p.m. Staff will be training this week with factory representatives.
- The opening and ribbon cutting ceremony for the Kings Road Bridge occurred last Friday.
- An accident occurred over the weekend in the Town Center roundabout.
- Last week when the storm came through several trees were knocked down throughout the city.
- The FEMA fund check should be in the mail. He and Mayor Pruette met with Congressman Ander Crenshaw last week and spoke with him regarding why it was taking so long to receive the check.

Councilor Pardee suggested future art projects follow the Code.

PUBLIC COMMENTS

Michael Dunlap, 225 Oak Street, supported the non-conforming development ordinance, however, he felt the word "hardship" should be stricken from the findings.

Lynda Padrta, 1113 First Street, supported both proposed ordinances.

PROPOSED ORDINANCES

Non-conforming
Development

ORDINANCE NO. 2009-XX: AN ORDINANCE AMENDING SECTION 27-706, NON-CONFORMING DEVELOPMENT.

Community Development Director Askew explained this ordinance would allow the Building Department to issue building permits on non-conforming properties, as long as what they are proposing to do meet all the setbacks.

Vice Mayor Weldon asked Ms. Askew to consider other ideas to upgrade and improve existing homes without encouraging rebuilding on the small parcels east of Third Street.

Consensus: **FORWARD TO FIRST READ AND PUBLIC HEARING IN MAY.**

Required Findings

ORDINANCE NO. 2009-XX: AN ORDINANCE AMENDING SECTION 27-147, REQUIRED FINDINGS NEEDED TO ISSUE A VARIANCE.

Community Development Director Askew stated there was a correction in the proposed ordinance and should be corrected as follows: "#1) A hardship generally occurs when the physical characteristics of a property are such that it cannot be used for any purpose permitted by codes. A hardship may be created by the surroundings, shape or topographical conditions particular to that specific property. However, the hardship cannot be created by or be the result of any property owners own action."

Vice Mayor Weldon asked Community Development Askew if a small piece of property would be considered a "hardship." Mrs. Askew replied the Code allows, for non-conforming lots, to build a structure however, that structure still had to meet all setbacks. Vice Mayor Weldon was concerned about the wording. He asked Mrs. Askew to think about the concept that if someone has a parcel that is too small to build a little house without exceeding the setbacks, would that be considered a hardship.

Mayor Pruette asked Mrs. Askew to obtain a copy of the finding of facts from Atlantic Beach. Mrs. Askew stated she would obtain copies of the finding of facts from both Atlantic Beach and Jacksonville Beach for the Council to review.

Christine Chin, Chairperson, Board of Appeals, stated the entire Board of Appeals supported both proposed ordinances. She did not agree with Mr. Dunlap's suggestion to remove the word "hardship" from the finding of facts.

Consensus: **FORWARD TO FIRST READ AND PUBLIC HEARING IN MAY.**

Mayor Pruette stated she removed the "Water Conservation Ordinance" from the agenda. She wanted to carefully review the proposed ordinance and consider it at a later date.

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Forfeiture Fund

FORFEITURE FUND EXPEDITURES: Chief Sembach explained the forfeiture fund could only be used for non-budgeted items. There was currently approximately \$60,000 in the fund. It will be mandated next budget year by the State to reprogram every portable and car radio. The request was to use the fund to purchase the following:

• Asset Forfeiture Training Conference	\$1,123.00
• Motorcycle Helmet & Wireless Microphones	1,002.97
• Carry-All bags for SWAT Team Members	319.92
• Magazines for the AR-15 Rifle	<u>359.00</u>
	\$ 2804.89

Consensus: **FORWARD TO THE MAY CONSENT AGENDA.**

DISCUSSION

Councilor Tucker stated Fletcher High School's Girl's Softball team and the Fletcher High Football team were undefeated this season. Mayor Pruette asked Councilor Tucker to provide information for a proclamation to the City Clerk's Office.

Adjournment

There being no further business, the meeting adjourned at 7:19 pm.

Ord. No. 2009-01

ORDINANCE NO. 2009-01, AMENDING CHAPTER 27, ARTICLE 1 ADMINISTRATIVE AND ENFORCEMENT BODIES, FIRST READ AND PUBLIC HEARING; AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE II ADMINISTRATIVE AND ENFORCEMENT BODIES, DIVISION 2 PLANNING AND DEVELOPMENT REVIEW BOARD, SECTION 27-41 VOTING AND QUORUM AND DIVISION 3 BOARD OF APPEALS, SECTION 27-50 VOTING AND QUORUM AND PROVIDING AN EFFECTIVE DATE.

Mayor Pruette agreed to sponsor this Ordinance.

Mayor Pruette opened the public hearing. There being no comments from the public, the public hearing was closed.

Moved by Pardee, seconded by Lee

Motion: **TO PASS ORDINANCE NO. 2009-01 ON FIRST READ.**

Roll Call Vote:

Ayes: 4 – Lee, Pardee, Weldon, Pruette

Noes: 0

MOTION CARRIED

Ord. No. 2009-02 ORDINANCE NO. 2009-02, AMENDING THE OPERATING BUDGET FOR 2009 FIRST READ: AN ORDINANCE AMENDING THE OPERATING BUDGET FOR THE CITY OF NEPTUNE BEACH, FLORIDA FOR FISCAL YEAR 2009, BEGINNING OCTOBER 1, 2008 AND ENDING SEPTEMBER 30, 2009.

City Manager Jarboe stated the Ordinance would create a contingency fund, using reimbursement money from FEMA, allocating \$2,500 to the Beaches Trolley, \$1,500 to Dial-A-Ride, and \$2,500 to the Beaches Resource Center.

Mayor Pruette agreed to sponsor this Ordinance.

Moved by Lee, seconded by Weldon

Councilor Pardee stated he would vote “no” because he was uncomfortable allocating the money before it was received. He was concerned that something more important may arise that the city may need to use the money for.

Councilor Weldon questioned if the entire \$7,800 amount of the reimbursement from FEMA would be dedicated to the contingency fund. City Manager Jarboe replied the money allocated for the fund was \$6,500. Councilor Weldon responded it was his impression the \$6,500 would be allocated but that the entire amount would be placed in the fund. Councilor Lee stated that was his recollection as well and suggested listening to the tape recording of the workshop meeting.

For the Record Councilor Weldon stated for the record he felt the allocations in the contingency fund were valid and important activities, particularly the Beaches Resource Center and Dial a Ride. He also felt the Beaches Trolley was a very valuable contribution to the community. He felt they were worthy allocations of tax payer resources. He would support the Ordinance because he felt those three allocations were critical in the community. But for future reference when speaking about a certain number he would appreciate it if the numbers were not shifted. All he was talking about at the workshop meeting was the amount that would be allocated at one particular time, not that the amount of the overall contingency fund would be reduced. He felt there was confusion about the overall amount.

Motion: **TO PASS ORDINANCE NO. 2009-02 ON FIRST READ.**

Roll Call Vote:

Ayes: 3 – Lee, Weldon, Pruette

Noes: 1 – Pardee

OLD BUSINESS / NONE

NEW BUSINESS

V09-01 & VARIANCE REQUEST, 110 PENMAN ROAD PDRB 09-01, PRELIMINARY
PDRB 09-01 DEVELOPMENT ORDER AND V09-01: Mr. Ryan Verney, representative for Verney architects.

Councilor Weldon stated the plan presented would double the space of the existing building. He questioned what the space would be used for. Mr. Verney stated it was his client’s intention to have a Jiu-Jitsu Studio Upstairs.

Councilor Weldon questioned if the existing parking would accommodate the use. Mr. Verney replied "Yes".

Councilor Weldon was concerned the property owner would request another variance for parking in the future in order to utilize the space for something more intensive.

Councilor Lee questioned if the owner was willing to comply with the replacement of the current sign. Mr. Verney replied "yes".

Councilor Lee questioned if the monument sign would reduce the amount of parking spaces required for the usage. City Manager Jarboe replied if there was not enough room for the monument sign without the removal of a parking space the sign would have to be placed on the building.

Mayor Pruette asked where the sign would be placed on the property. Mr. Verney replied the sign would be placed within property boundaries and it would be a monument sign as required by the Code.

Mayor Pruette was concerned the monument sign would create a problem with traffic visibility. Community Development Director Amanda Askew stated the sign would have to sit back far enough on the property as to not create a hazard or the sign would need to be placed on the building itself. The maximum combined total of building signage would be 30 square feet.

Kelly Beech, property and business owner, 110 Penman Road, stated she would like to have as much signage as the Code allowed and they were willing to conform to the Code.

Moved by Weldon, seconded by Lee

Motion: **TO AFFIRM THE DECISION OF THE PLANNING AND DEVELOPMENT REVIEW BOARD SUPPORTING VARIANCE V09-01 FOR MS. KELLY BEACH AT 110 PENMAN ROAD WITH THE PROVISION THAT SIGNAGE WILL CONFORM TO EXISTING CODE AND THAT NO ADDITIONAL PARKING SPACES WILL BE GRANTED FOR USES NOT ANTICIPATED IN THIS APPLICATION.**

Councilor Pardee suggested in the future that all problems and issues relating to development orders be resolved before the Council meetings so the applicants could provide any additional information prior to the meeting.

MOTION CARRIED

PDRB 09-02

PDRB 09-02, 1935 ATLANTIC BOULEVARD, SPECIAL EXCEPTION: The applicants, Mr. Mike Hesford, Vice President of Florida Cabinet Distributors, and Stephen Suss, President of Florida Cabinet Distributors introduced themselves to the Council.

Councilor Lee asked the applicants if they would be willing to remove the septic tank system and hook up to city water and sewer. Mr. Hesford stated they would like to have city water and sewer but they did not own the property.

Mayor Pruette asked City Manager Jarboe to clarify if city water and sewer was available in that area. City Manager Jarboe stated he was under the impression that city water and sewer was available and would follow up with the Public Services Department.

Councilor Pardee questioned if the applicants would be relocating their current spray booth from Atlantic Beach to the new location. Mr. Hesford replied "yes" the automotive spray booth would be inspected and meet all Code requirements.

Councilor Pardee stated he was a mechanical inspector for the City of Jacksonville and advised the applicant to have the booth inspected before relocating it to ensure that it would meet the code requirement and fit into the new space.

City Manager Jarboe advised the applicants that it would not be an easy task to relocate the spray booth. He suggested the applicants meet with the Building Official because he would be responsible for the inspection.

Mayor Pruette asked the applicant why they decided to relocate the spray booth now from the Atlantic Beach location to the Neptune Beach location. The applicants stated the business would be more efficient without having to move the cabinets from one location to the other.

Vice Mayor Weldon stated it was clear when the special exception was granted for the applicant to build prefabricated cabinets that there would not be a spray booth because he was concerned about it backing up to residential property. He asked the applicant why he felt he should now change his mind. The applicant responded they originally planned to sell prefabricated cabinets however prefabricated cabinet sales have gone down and they are now doing more custom work.

Vice Mayor Weldon asked the applicants to address his concerns regarding the residential neighborhood. The applicant explained the spray booth would be enclosed and the fumes would exit the building through a roof exhaust fan. All of the chemicals would be inside the building.

Vice Mayor Weldon felt allowing the spray booth would create a light industrial area next to a residential areas and he would vote "no" for that reason.

Mayor Pruette asked if the Fire Marshall would be inspecting the property on a regular basis. City Manager Jarboe replied the applicant would have to obtain a building permit. The spray booth would be governed by Florida Statutes not city code.

Mayor Pruette stated the Planning and Development Review Board recommended approval and asked Council if there was a motion.

Moved by Pardee, seconded by Lee

Vice Mayor Weldon asked the Council to clarify if a tie would mean an approval or a denial of the motion. The Council clarified that a tie vote would be considered a denial of the motion unless another motion was made after the original motion.

Motion: **TO ACCEPT PDRB 09-02.**

Roll Call Vote:

Ayes: 3 – Lee, Pardee, Pruette.

Noes: 1 – Weldon

WORKSHOP CITY COUNCIL MEETING
MARCH 16, 2009, AT 6:00 P.M
CITY HALL, 116 FIRST STREET
NEPTUNE BEACH, FLORIDA

Pursuant to proper notice a Workshop Meeting of the City Council of the City of Neptune Beach was held March 16, 2009 at 6:00 p.m., in the Council Chambers, City Hall, 116 First Street, Neptune Beach, Florida.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Weldon
Councilor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Senior Center Director Leslie Lyne
Director of Finance Steve Ramsey
Director of Public Safety David Sembach
Director of Public Services Leon Smith
Deputy City Clerk Karla Strait, CMC

ABSENT:

City Attorney Christopher White

Call to Order/Roll Call Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS

Mayor Pruette presented a plaque to Mr. Fred Cattar for his service on the Board of Appeals and the Planning & Development Review Board.

Mayor Pruette presented a Proclamation, to Mr. Ellis P. and Mary Elizabeth Pope Day, proclaiming April 1st as "Mr. Ellis Pope and Mary Elizabeth Pope Day" in honor of their 65th Wedding Anniversary.

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The city did not have any ready projects to qualify for stimulus money. We have requested \$12,000,000 for road, water and sewer improvements.
- The Kings Road Bridge project is nearing completion.

PUBLIC COMMENTS

Bryan MacDonald, 107 North Street, voiced concern regarding people not picking up after their dogs and offered to provide a poop station. Mayor Pruette suggested Mr. MacDonald meet with City Manager Jarboe regarding the placement.

PROPOSED ORDINANCES

Rules of Debate

ORDINANCE NO. 2009-XX, RULES OF DEBATE: AN ORDINANCE OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 1 ADMINISTRATION, ARTICLE II CITY COUNCIL, AMENDING SECTION 2-35 RULES OF DEBATE AND PROVIDING AN EFFECTIVE DATE

Councilor Pardee stated the Council required the City boards to adopt Robert's Rules of Order. Because it would require a referendum for the Council to adopt "Robert's Rules of Order" he approved the addition of the following language to Chapter 2, Section 2-35 Rules of Debate: (8) In all cases involving points of parliamentary law, "Robert's Rules of Order" shall be the book of reference, and its rules, so far as they are applicable and not in conflict with the provisions of the city's Charter, this Code or other city ordinances, shall be the rules of the City Council.

Mayor Pruetto agreed to sponsor the Ordinance.

Consensus: **FORWARD TO THE APRIL MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS / NONE

ISSUE DEVELOPMENT

Identity Theft
Prevention Program

IDENTITY THEFT DETECTION AND PREVENTION PROGRAM: City Manager Jarboe advised the adoption of the Identity Theft Detection and Prevention Program Policy was required by the Federal Government to protect our citizens.

Councilor Lee asked if the employees would be trained on the policy. Finance Director Ramsey advised employees that handle confidential information of citizens would be trained and informed. Councilor Lee questioned what the ramifications would be to an employee who violated the policy. Finance Director Steve Ramsey replied any employee who violated the policy would be terminated.

Consensus: **FORWARD TO THE APRIL CONSENT AGENDA.**

Board of Appeals /
Variances

BOARD OF APPEALS / VARIANCES: Mayor Pruetto thanked all members of the Board of Appeals for their attendance and asked them to come forward and be seated at the table in front of the Council.

Community Development Director Amanda Askew stated she compiled statistics on decisions made by the Board of Appeals from 2005 to 2008 which showed an approval rate of 91%. She felt the board members had difficulties deciding on finding of facts, particularly "what is a hardship." The purpose of the Board is to grant relief from the Code on variance applications provided the findings of fact are met by the applicant. In some cases the Board will modify the original request to lessen the amount of the encroachment.

Councilor Lee stated he brought forward the discussion in an effort to assist and support the Board of Appeals. He wanted to hear, from board members, how the Council could help the board and minimize variance appeals being overturned by the Council.

Councilor Pardee felt it would be fair for the Board to vote on the applicant's original presentation before modifying and recommending amendments to the application. Then if the motion for the original presentation was denied a new motion could be brought forward.

Councilor Tucker also asked the Board how Council could assist and support the Board

Councilor Weldon stated it was his perception, based on the information provided by the Community Development Director, that the Board was approving too many variances. He was concerned about the long range impact this would have on the R-3 and R-4 zoning districts. He stated Council revised the Land Development Regulations in 2004 in an effort to reduce the amount of variance requests. He agreed the Code should be flexible but was concerned about inconsistencies in the way variances are approved.

Mayor Pruette stated the Land Development Regulations were revised in an effort to prevent "McMansions." The setbacks were also revised to reduce the number of variances.

Chris Chin, Chair of the Board of Appeals, stated the statistics did not include that most of the variances approved had been modified by the Board. She felt Council could aid the Board by providing a clear definition of "hardship." She also suggested the city provide each member of the board four mock variance requests to be compared and discussed at a future meeting; one of which should be a clear approval, one being a clear denial and two of them being in gray areas. She felt Community Development Director Askew should meet with each new board member to explain what legally constitutes a "hardship."

Board Member Reeve felt the Council was giving the Board mixed signals by overturning requests denied by Board. He felt new evidence should not be allowed to be introduced such as written correspondence on an appeal. Mayor Pruette stated a letter, which was new evidence, was placed in front of the Council one night before an appeal.

Mayor Pruette explained on variance appeals the Council was to determine if competent substantial evidence to support the Board's decision. She stated City Attorney White had advised more than once the Council to look at the appeal not the variance request.

Councilor Lee felt it was a good suggestion for the city to provide mock variance requests with different scenarios and work through each response with City Attorney White at a workshop meeting.

Board Member Baker questioned whose responsibility it was to challenge new evidence or incorrect information that was inappropriately presented to the Council.

Councilor Lee agreed the only speakers on an appeal should be those that were present and spoke "on the record" during the Board of Appeals meeting.

Mayor Pruette stated she would meet with City White regarding the consequences of those presenting or introducing new evidence.

Councilor Pardee stated City Attorney White should take a proactive role and speak up when something the Council allows is not legal. Mayor Pruette stated City Attorney White has warned Council many times not to allow speakers on appeals.

City Clerk Volpe stated the person appealing the Board's decision had to complete an application explaining the reason for the appeal.

Board Member Reeve stated if the applicant for the appeal was able to explain their side of the argument, a representative of the Board should also be allowed to explain their argument on behalf of the Board's decision. City Clerk Volpe stated the Council does receive a full verbatim of the Board of Appeals meeting.

City Manager Jarboe stated Section 27-153(c)(3) of the Code allowed new evidence to be introduced if the new evidence is due to substantial changes in the circumstances.

Board Member Franklin stated other cities allowed each side to give an oral argument and present a memorandum noting the reason for the appeal. He agreed new speakers and

new evidence should not be allowed.

Community Development Director Amanda Askew stated the statistics included approvals for existing non-conformities. She suggested amending the Code to allow staff to approve variance requests for existing non-conformities.

Mayor Pruette asked Mrs. Askew to draft an ordinance to have variance requests for existing non-conformities approved at the staff level.

Councilor Pardee felt public speakers should not be allowed to allot their five minutes to another speaker. He suggested amending the code to not allow public speakers on variance appeals.

Vice Mayor Weldon stated other cities sent variance appeals directly to the circuit court. He felt the determination of a "hardship" was not difficult. A "hardship" is a characteristic of the property that was not fair to the owner. He added the Land Use Code was revised in 2004 to reduce the number of variance requests. He felt approvals of variances requests undermined the revised Code and they should not be approved for the convenience of the property owner.

Board Member MacDonald felt Community Development Director Askew should educate applicants on the definition of a "hardship."

City Manager Jarboe suggested amending the Code to allow speakers on variance appeals to speak after the appeal vote has been taken.

Board Member Baker felt the Board of Appeals was not taken seriously when the Council overturns their decisions.

Board Member Baines stated the Board would suggest amendments to variance request when it was obvious the original request would not be approved. This prevented the applicant from having to apply and pay another fee for another variance. She added most applicants agree to the Board's recommendations.

Chair Chin stated the Board would discuss whether or not to suggest amendments to applicants before voting on the original requests.

Mayor Pruette asked City Manager Jarboe and Community Development Director Askew to bring back information to the Council for review.

Consensus: **TO HAVE COMMUNITY DEVELOPMENT DIRECTOR ASKEW BRING BACK INFORMATION FOR COUNCIL REVIEW AND DETERMINE IF THE CODE NEEDED TO BE REVISED.**

DISCUSSION

Mayor Pruette encouraged Mr. John Reeve to remain on the Board of Appeals for a second regular three year term and he stated he would like to do so.

Councilor Tucker advised the Council and the assembly she was recently appointed to the Human Relation Board by Governor Christ.

Mayor Pruette asked if there were any other comments from Council or staff before she adjourned the meeting.

Adjournment

There being no further business, the meeting adjourned at 7:30 pm.

Harriett Pruetto, Mayor

MOTION CARRIED

COMMUNICATIONS AND CORRESPONDENCE

Mayor Pruette disclosed she spoke with Angela Oesterreicher, P.K. Breeding and Christine Chin regarding the variance appeal.

City Clerk Volpe reminded the Council the February workshop meeting would be held on February 23, 2009.

City Manager Jarboe stated at the request of Curtis Winter, owner of Sun Dog Diner, the sidewalk lease agreement was postponed and forwarded to the February workshop meeting.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- Public Services made a temporary repair to a sewer manhole break in the 900 block of Penman Road. Further repairs were necessary and by piggybacking off an Atlantic Beach contract it would cost the city approximately \$8,000.
- The Kings Road bridge repairs should be completed in the next couple of weeks.
- He was concerned about pipe breakage during the upcoming cold weather.

COMMENTS FROM THE PUBLIC / NONE**CONSENT AGENDA**

Res. No. 2009-02 RESOLUTION NO. 2009-02: A RESOLUTION ESTABLISHING FEES TO BE CHARGED FOR COPY OF PUBLIC RECORDS, CERTIFIED COPY OF PUBLIC RECORD; VARIOUS APPLICATIONS, BAR CARDS, CITY CODE BOOK, LIEN LETTERS, BUSINESS TAX RECEIPT LIST, ZONING MAP, AND SERVICE CHARGE FOR EXTENSIVE USE OF CITY PERSONNEL TO COMPLY WITH PUBLIC RECORD REQUESTS.

Res. No. 2009-03 RESOLUTION NO. 2009-03: A RESOLUTION OF THE CITY OF NEPTUNE BEACH, FLORIDA RECOGNIZING THE "BUILDING CITIZENSHIP IN THE COMMUNITY; BACK TO BASICS" INITIATIVE OF THE FLORIDA LEAGUE OF CITIES, INC., AND PLEDGING SUPPORT FOR THIS STATEWIDE EFFORT.

MOTION CARRIED

VARIANCES

V09-02 VARIANCE APPEAL FOR V09-02 – 401 LORA STREET – ANGELA OESTERREICHER:
401 Lora Street The applicant is seeking a variance of 10 feet to the minimum rear yard setback leaving 15
Oesterreicher feet in lieu of the required 25 foot setback. The applicant is proposing to add a covered
 porch to the north side of the house (along Lora Street). The proposed porch encroaches
 into the rear yard setback.

City Attorney White explained the Board of Appeals vote to approve the variance ended in a tie. Council could consider the tie vote to be a denial and hear the appeal of the applicant or send it back to the Board of Appeals. He recommended the Council go ahead

and hear the appeal in order to save the applicant time. He added the Code should be amended to add language in Section 27-150 that would specifically state that a tie vote be considered a denial.

Moved by Lee, seconded by Weldon

Motion: **TO HEAR THE VARIANCE APPEAL.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Noes: 0

MOTION CARRIED

City Attorney White stated the appeal was based on the record of the Board of Appeals meeting which was included in the agenda packet. He recommended Council not solicit additional comments from the public, the board, or the applicant.

Councilor Pardee questioned why the Board of Appeals did not make an alternate motion to break the tie vote. City Attorney White stated the Council has already voted to hear the appeal and it would be inappropriate to send it back to the Board for further motions.

Councilor Pardee stated he would not have a problem reversing the decision of the Board of Appeals because the french doors on the front of the house were not protected by an awning or roof.

Councilor Weldon questioned why the variance referred to the rear yard when the house fronted Lora Street. Community Development Director Askew explained the front yard was actually on Third Street, the corner side yard faced Lora Street and the rear yard was considered the western side of the lot.

Councilor Weldon stated the applicants were not asking for anything other than the same rear yard setback that was previously approved by the Board of Appeals. Granting this would only extend the previously approved variance.

Councilor Weldon asked if Christine Chin, Chair of the Board of Appeals, could address the Council. Mayor Pruette replied if the Council allowed Mrs. Chin to speak they would also have to allow the applicant to speak and they were supposed to rely on the record and not hear any new evidence.

Council Weldon stated he did not see this as a big expansion of the original variance that was approved by the Board. He wanted to ask Mrs. Chin if the Board would have approved this portion had it been included in the original request.

Councilor Lee asked the Council to consider placing variance requests on the March workshop meeting to discuss the duties of the Board of Appeals and the Code. He felt Council should review the Code because of the percentage of approvals on variance requests.

Councilor Pardee asked the Council to keep in mind this appeal was requested by the original applicant and was not appealed by a neighbor.

Mayor Pruette stated the Council could confirm, modify or reverse the decision of the Board of Appeals and asked for a motion.

Moved by Pardee, seconded by Tucker

Motion: **TO REVERSE THE DECISION OF THE BOARD OF APPEALS FOR V09-02, 401 LORA STREET.**

MOTION CARRIED

DISCUSSION

Mayor Pruette asked if anyone had any brief comments before the meeting was adjourned.

Councilor Lee requested placing the issue of variances on the March workshop meeting. He felt the Code was not doing its job if 95% of variance requests were being approved by the Board of Appeals.

Councilor Weldon agreed to place the issue on the March workshop meeting. However, he felt nothing was wrong with the Code or the required setbacks. He felt the Council should be more interactive with the Board of Appeals so the members understood their task,

which was to provide variances only when true hardship is demonstrated.

Mayor Pruette stated the issue would be placed on the March workshop meeting.

Adjournment

There being no further business, the meeting adjourned at 6:40 p.m.

Attendance:

IN ATTENDANCE:

STAFF:

Mayor Harriet Pruette
Vice Mayor John Weldon
Councilor Fred Lee
Councilor Eric Pardee
Councilor Kara Tucker
City Attorney Christopher White
City Manager Jim Jarboe
City Clerk Lisa Volpe, CMC

Community Development Director Amanda Askew
Senior Center Director Leslie Lyne
Director of Public Safety David Sembach
Director of Public Services Leon Smith
Deputy City Clerk Karla Strait, CMC

Call to Order/Roll Call Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The State was forwarding a FEMA check to reimburse the city for expenses incurred during and after tropical storm Fay.
- State inspectors have approved the repairs for the Kings Road Bridge.
- The Penman Road crosswalk was near completion.
- The nitrogen study should be completed by April. The permitting process was underway for the sewer plant.

PUBLIC COMMENTS

Art Graham, City of Jacksonville Councilman, stated he established a Task Force Committee for the Beaches Trolley. The committee was requesting contributions in order for the Trolley to operate this year. He felt if the Trolley did not operate this year that it would never again be considered.

Michael Aston, 1523 Summer Sands, encouraged Council to financially support the Beaches Trolley.

Hayes Bishop, 1443 Spindrift Circle East, Summer Sands, encouraged Council to support the Trolley and requested the route be extended down Atlantic Boulevard.

Lynda Padrta, 1113 First Street, opposed smoking in public outdoor dining areas, felt the proposed artwork for the roundabout would be difficult for the city to maintain, and supported a contribution for the Beaches Trolley.

PROPOSED ORDINANCES

Ord. No. 2009-XX

ORDINANCE NO. 2009-XX, AMENDING VOTING & QUORUM FOR THE PLANNING & DEVELOPMENT REVIEW BOARD AND THE BOARD OF APPEALS; AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF NEPTUNE BEACH, FLORIDA AMENDING CHAPTER 27 UNIFIED LAND DEVELOPMENT REGULATIONS, ARTICLE II ADMINISTRATIVE AND ENFORCEMENT BODIES, DIVISION 2 PLANNING AND DEVELOPMENT REVIEW BOARD, SECTION 27-41 VOTING AND QUORUM AND DIVISION 3 BOARD OF APPEALS, SECTION 27-50 VOTING AND QUORUM AND PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe explained the Ordinance clarified that a tie vote on a motion made by the Board of Appeals and the Planning & Development Review Board would be considered a denial of the motion.

Councilor Pardee suggested adding the language that the Boards consider the applicants request without making changes to their proposal.

Councilor Weldon suggested removing "final action" from the language.

City Manager Jarboe recommended leaving the language "final action" and adding "unless another motion is made".

Consensus: **FORWARD TO THE MARCH REGULAR MEETING FOR FIRST READ.**

CONTRACTS / AGREEMENTS

Sundog Diner

SUN DOG DINER – SIDEWALK LEASE AGREEMENT: City Manager Jarboe explained the only change to the lease agreement was to allow the City Manager to extend the agreement on an annual basis.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING CONSENT AGENDA.**

ISSUE DEVELOPMENT

Speaker Request

SPEAKER REQUEST: Councilor Pardee felt the five minutes given to the public to address the Council should be enforced and one person should not be allowed to allot their given time to another speaker.

City Attorney White stated this would not require any changes to the Code. However the rule needed to be enforced on those who were abusing the system.

Contingency Fund

CONTINGENCY FUND: City Manager Jarboe asked the Council if they would like Finance Director Steve Ramsey to establish a Contingency Fund using the anticipated reimbursement check from FEMA. He explained once the funds were received the Council could allocate the money to various organizations.

Councilor Weldon stated he would support contributions to Beaches Resource Center, Dial-A-Ride, and the Beaches Trolley.

Councilor Lee agreed he would like to support the organizations.

Councilor Weldon suggested Council allocate \$2,500 to the Beaches Trolley, \$1,500 to Dial-A-Ride, and \$2,500 to the Beaches Resource Center.

Councilor Pardee felt the money should not be allocated until it was received by the City.

Mayor Pruette suggested making the commitment contingent on receiving the funds.

For the Record

Councilor Lee stated for the record if the money was not received it would not be allocated.

Councilor Pardee stated he was not comfortable making the commitment to the organizations without first receiving the money.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING.**

Street Sweeper

LEASE / PURCHASE STREET SWEEPER: City Manager Jarboe stated the city was in the position to purchase a street sweeper for \$28,000 to be paid for over a three year period. This would save the city money because the maintenance would occur in house by public services and it would allow the city credit toward reduction in nitrogen.

Consensus: **FORWARD TO THE MARCH REGULAR MEETING CONSENT AGENDA.**

DISCUSSION

Mayor Pruette asked if there were any other comments from Council or staff before she adjourned the meeting.

Councilor Lee stated the Beaches Trolley Task Force Committee would be meeting on Wednesday. Their goal was to extend the trolley service down Atlantic Boulevard to Seminole Road.

Councilor Weldon reminded Council of the February 24, 2009 joint meeting with Atlantic Beach Commissioners to discuss the proposed art work for the Town Center Roundabout.

Councilor Pardee commended the Board of Appeals and the Planning & Development Review Board for adopting Roberts Rules of Order. He suggested Council do the same and asked to place the issue on the March workshop agenda.

City Manager Jarboe stated no public comments would be allowed at the joint meeting with Atlantic Beach.

Hayes Bishop, 1443 Spindrift Circle East, Summer Sands, stated she did not want the view of the ocean at the end of Atlantic Boulevard blocked by the proposed art work.

Adjournment

There being no further business, the meeting adjourned at 6:50 pm.

Noes: 0

MOTION CARRIED**COMMUNICATIONS AND CORRESPONDENCE**

Mayor Pruette commented that she appreciated City Manager Jarboe and Director of Finance Steve Ramsey for providing information to the citizens regarding the property tax distribution.

City Clerk Lisa Volpe stated the dates for both the January and February workshop meeting fell on holidays and asked the Council if they would like to move those to the fourth Monday of the month.

Consensus: **TO HOLD THE JANUARY WORKSHOP ON JANUARY 26, 2009 AND THE FEBRUARY WORKSHOP ON FEBRUARY 23, 2009.**

Councilor Lee stated the special session started today in Tallahassee and encouraged everyone to pay attention to how their decisions would affect Neptune Beach.

CITY MANAGER REPORT

City Manager Jarboe reported the following:

- The decision made by the state legislation may affect our budget.
- The Kings Road Bridge project was underway. Most of the sheet piling was finished. There was another water break today and it has been repaired. A boil water notice will be effect for the next few days.
- He was looking at options regarding the possibility of saving money by going into the street sweeping business. He would hopefully bring that to Council at the next workshop meeting.
- City Hall was slow during the Christmas break.
- There were questions regarding the low water level in Jarboe Park.
- There were also questions from the public regarding the Golden Ox Liquor Store. He explained that it did meet all requirements of Chapter 27.

COMMENTS FROM THE PUBLIC / NONE**CONSENT AGENDA / NONE****VARIANCES / NONE****ORDINANCES**

Ord. No. 2008-16

ORDINANCE NO. 2008-16, AMENDING THE PUBLIX SCHOOL FACILITY PLANNING AGREEMENT, SECOND READ AND PUBLIC HEARING: AN ORDINANCE AMENDING THE INTERLOCAL AGREEMENT FOR PUBLIC SCHOOL FACILITY PLANNING BETWEEN THE CITY OF JACKSONVILLE, THE CITY OF ATLANTIC BEACH, THE TOWN OF BALDWIN, THE CITY OF JACKSONVILLE BEACH, THE CITY OF NEPTUNE BEACH AND THE DUVAL COUNTY SCHOOL BOARD TO CONFORM SECTION 5.4.1.4(B) TO STATE LAW AS REQUESTED BY THE STATE OF FLORIDA DEPARTMENT OF COMMUNITY AFFAIRS (DCA); AUTHORIZING THE MAYOR AND CITY MANAGER TO EXECUTE THE INTERLOCAL AGREEMENT FOR PUBLIC SCHOOL FACILITY PLANNING AS AMENDED HEREIN; AUTHORIZING SETTLEMENT AGREEMENTS AS NECESSARY BETWEEN THE STATE OF FLORIDA DEPARTMENT OF COMMUNITY AFFAIRS AND THE CITY OF JACKSONVILLE TO RESOLVE DOAH CASE NO. 08-3216GM AND ANY PENDING STATE OF FLORIDA ADMINISTRATIVE MATTER RELATED TO SECTION 5.4.1.4 (B); PROVIDING AN EFFECTIVE DATE.

City Manager Jarboe stated this amendment would prevent the City of Jacksonville from being sued by the Department of Community Affairs and would not in any way affect the City of Neptune Beach.

Mayor Pruette read Ordinance No. 2008-16 by title only and opened the public hearing.

There being no comments from the public, the public hearing was closed.

Moved by Lee, seconded by Tucker.

Motion: **TO ADOPT ORDINANCE NO. 2008-16 ON SECOND READ AND PUBLIC HEARING.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

911 Agreement

911 INTERLOCAL AGREEMENT – AMENDMENT NUMBER THREE: City Manager Jarboe explained this was an ongoing contract with the City of Jacksonville that allowed Neptune Beach to receive 911 User Fee funding which helps to pay the salary of the dispatchers.

Moved by Pardee, seconded by Tucker.

Motion: **TO APPROVE THE 911 INTERLOCAL AGREEMENT – AMENDMENT NUMBER THREE.**

Roll Call Vote:

MOTION CARRIED

Res. No. 2009-01

RESOLUTION NO. 2009-01, APPOINTING BOARD MEMBERS: Mayor Pruette stated the Resolution reappointed Amy Cole and Paulette Adler as regular members and Todd Russell and Mr. McLeroy to serve as alternate members on the Planning and Development Review Board.

Mr. Russell introduced himself to the Council and stated he worked in the design and construction field for The Haskell Company and he felt he could give back to the community by serving on the Board.

Mr. McLeroy introduced himself to the Council and stated he has been a general contractor for the last 25 years and he looked forward to serving on the Board.

Councilor Pardee stated he felt both applicants' construction background would give them more insight while serving on the boards.

Due to the absence of Mr. Treffinger, City Clerk Volpe suggested forwarding his appointment to the February meeting.

Moved by Weldon, seconded by Lee.

Motion: **TO ADOPT RESOLUTION NO. 2009-01 AS AMENDED.**

Roll Call Vote:

Ayes: 5 – Lee, Pardee, Tucker, Weldon, Pruette

Mayor Pruette called the meeting to order at 6:00 p.m.

PRESENTATIONS / NONE

CITY MANAGER'S ACTION LIST

City Manager Jarboe reported on the following:

- The Kings Road Bridge repairs were 75% complete as of today. After the bridge is completed the Public Services Department will install two speed humps. The bridge will also be asphalted. He would be applying for the \$100,000 through Jacksonville from the Federal Department of Transportation for the bridge. The City of Jacksonville Beach has agreed to pay \$50,000 towards the bridge once the work is completed.
- Community Development Director Amanda Askew was working on the Inland Navigational District Grant Cycle. The grant has to be turned in by April.
- He has been working with Jacksonville Beach to get the electric metal plates over the street fixed up on the Strand.
- There is a little graffiti on First Street and he was trying to get a hold of the telephone company so they could paint over it.
- There are two major developments being worked on and hopefully there will be good news coming soon.

PUBLIC COMMENTS

Jim Moore, 401 McCollum Circle, supported the request for a police officer to direct traffic at Neptune Beach Elementary.

Michelle Kogan, 714 Second Street, also supported the request for a police officer to direct traffic Neptune Beach Elementary.

Susie Moore, 401 McCollum Circle, supported having a police officer direct traffic at Neptune Beach Elementary.

ISSUE DEVELOPMENT

N. B. Elementary

SCHOOL TRAFFIC – NEPTUNE BEACH ELEMENTARY: Neptune Beach Elementary School has requested the city assign a police officer to direct traffic at the entrance to the school during morning drop off and afternoon pick up hours. The request states there is significant traffic congestion on Florida Boulevard during those time periods which impedes ingress and egress from the school, and that the traffic situation poses risks to pedestrians and vehicular traffic.
