

## City of Neptune Beach

**It's a Toilet, NOT a Trash Can! Never flush the following items. Toss them in the trash instead.**

### **Only flush the 3 P's – Pee, Poop and (toilet) Paper**

Please help your City of Neptune Beach utility staff by only flushing human waste and toilet paper, and never put cooking grease down the drain. By doing so, you prevent potentially costly stoppages within your pipes and those maintained by the city. Staff routinely remove wipes, rags and other non-biodegradable materials at our pump stations. Any stoppage brings the risk of a sanitary sewer overflow. Hazardous/toxic chemicals introduced into the sanitary sewer system interfere with the wastewater treatment process.

- Baby/Facial/Cleaning Wipes (even “flushable” wipes have the potential bind with grease & cause stoppages)
- Fats, Oils & Grease
- Food/Trash/Non-Biodegradables
- Cleaning Products/Chemicals
- Rags/Towels/Rubber Items
- Cotton Swabs/Balls Dental Floss
- Feminine Products (including applicators)
- Disposable Diapers/ Disposable Gloves
- Hair/Hair Weave
- Medications/Pharmaceuticals/Syringes/Needles/Bandages
- Plastic Bags/ Candy/Food Wrappers
- Cigarette Butts
- Kitty Litter/ Aquarium Gravel
