NEW BUSINESS

Dev. Agreement
Amendment

Discussion of First Amendment to Development Agreement between the City of Neptune Beach and Neptune Beach, FL Realty LLC.

City Attorney

City Attorney Zach Roth reported that following the Council meeting held on February 1, 2023, there were ideas or potential ways discussed to resolve the outstanding concerns with the water tank at the Publix site. This document is an effort to address those concerns. He worked on the document with Counsel for the property owner and the developer. A structure has been worked through to essentially get rid of the water tank. The structure consists of the City performing a hydraulic study. After the study, the City would commit to making a number of improvements to its infrastructure to see if it would restore flows at the property. If it does restore flows by June 30, 2024, the owner would be obligated to remove the tank within six months.

Mr. Roth explained that if that option is not available, then Option 2 would be to connect to Atlantic Beach solely for the purpose of fire suppression. The structure as currently provided would be that the property owner would pay the first \$50,000 of that cost. The City would bear any additional costs. Within six months of that happening, the tank would come down. He added that what is not included is the number if there is a commitment for the City paying something for the secondary connection to Atlantic Beach. This would be decided by Council.

Mr. Roth stated that the property owner wants to move on this quickly to be able to get the Publix open. The current proposal from the developer is to finalize something in order to publish a notice on Thursday, March 9 for a Special Meeting on the 16th and then a second reading on the 20th before the Council workshop.

He pointed out that the section entitled "Waiver" had been worked on quite a bit. This states that once this is signed, everything that has happened in the past is done. The City waives anything that the owner did and the owner waives anything that the City did and move forward.

Council Discussion

Mayor Brown reported that there was a meeting with Jacksonville Electric Authority (JEA) on Friday, March 3, 2023, to discuss the modeling for the hydraulic study which would show what type of suppression that the City could or couldn't provide. What the model is showing is that there would be options, which would include the hookup for Atlantic Beach to supply the suppression that was needed.

Mayor Brown clarified that the City would have the answers as we continue to move forward. This is the water for the fire suppression only. She is not clear on any costs for any of the options. She thanked JEA for their efforts.

Vice Mayor Chin expressed his concerns as there are so many variables. He is uncomfortable with the costs of the difference since we do not know what that is. He also would like more explanation on any improvements to the vegetative buffer. There were no Exhibits G and H included and there had been discussion with the residents.

Councilor Key stated that she had been speaking with the residents on Cherry Street and they had provided feedback regarding Exhibits G and H. They had received preliminary vegetation plans on February 14, provided feedback on February 17, and have not heard back. The residents are asking before anything is approved, they would like to see updated exhibits, especially since no deviations are indicated. She advised she would have to see updated Exhibits G and H before moving forward. She also questioned if the developer could receive the escrow funds before the tank removal.

Mr. Roth conveyed that his firm is holding a certain amount of money in escrow to complete the construction of the improvements. There is included in this document a provision about the return of that escrow. Community Development Director Heather Whitmore had advised by email that those improvements were not completed upon her inspection, which would mean they are not entitled to have the escrow returned yet. In terms of the funds not being returned until the tank is removed, would have to be agreed to by the property owner, as that is not the structure of the agreement.

Councilor Key questioned the six-month time frame for the removal of the tank. She also stated that the amount for the City to pay would need to be discussed. The structure of the agreement may change based on what we are hearing from JEA. Based on that, the feedback from the public may or may not be applicable. It would best to revisit those once we have a better idea from JEA of where we are going. She asked when the hydraulic study would be completed.

Mr. Roth stated that there is a meeting scheduled for Friday, March 10, for more formal feedback.

Mayor Brown advised that she has asked City staff to attend that meeting and she has requested an engineer who has consulted for the City to attend. JEA will present all of the data and modeling that has been completed.

Councilor Key inquired if anyone had contacted Atlantic Beach to see if connection was a viable option.

Deputy Public Works Director Colin Moore informed Council he had briefly communicated with Atlantic Beach City Engineer Steve Swann. Mr. Swann indicated they had the capacity. There has been no formal discussion.

Councilor Livingston questioned the timeline for getting all of this work done. Mr. Roth stated that the developer added the June 30, 2024 date. It is basically one year, but the developer could explain more.

Councilor Livingston stated that the waiver section is important. She wants everyone to be aware that if we are good on our word, they have to take the tank down.

Mr. Roth pointed out that there is a new subsection E. that states: "In no event shall the water storage tank be required to be removed unless and until after six (6) months of adequate, consistent water pressure meeting fire flow standards."

Councilor Messinger stated that we could get a fixed number on what it would cost to get a connection to Atlantic Beach for the fire suppression component. The developer has already done some cost estimates. He added it is important to know that there had been conversations for connection from Atlantic Beach to the adjoining 500 Atlantic development.

Andrew Greene, Neptune Beach, FL Realty LLC, explained he had circulated two landscape plan sheets showing the additional vegetative screening that would be placed in early January. After speaking with the residents on Cherry Street, the sheets were revised to include more vegetation along the south bank of the swale and circulated that on February 17. It would be his proposal to include that plan as circulated as the exhibit in the development agreement as one exhibit.

Mr. Greene addressed the timing of six months. He stated that was his proposal as once the water pressure has been implemented and solved, there would be a permit process, some underground infrastructure may need to be performed and they would need to engage the water tank manufacturer to disassemble the tank. They would be actively working throughout the six months.

Mr. Greene stated that it would be up to the City to make a reasonable decision on the solution for implementing the infrastructure based on many factors. He added that their desire was to create a logic and a game plan on how to move forward to resolve the tank issue, to get Publix open, while also committing to a plan that would lead to the eventual removal of the tank.

Mr. Greene clarified that they anticipated a connection being made to the south side of Atlantic Boulevard with Atlantic Beach. This would not be a part of this funding. The City would not put any money towards that extension. He added there were preliminary cost estimates to make just the connection for fire suppression service.

Councilor Messinger expressed that his concern is subsidizing a connection for the developer and asked for more clarity on what the connections looked like.

Mr. Greene confirmed to Councilor Key that a new exhibit for the landscaping would be circulated.

Mr. Roth summarized that the City needs to get the updated exhibit, run down the costs and meet with JEA to get the data. Once those all of that information is assembled, the City will be in a better position to refine the language for the development agreement in order to get the required notice and have the first public hearing.

Mayor Brown expressed that is important to everyone that we want this project completed, the green tank gone, and to do what is best for the City in the long run as to how we accomplish this.

City Hall Roof Repair

Consideration of Approval of City of Neptune Beach Bid No. 2023-02, City Hall Roof Repair. Project Manager Jason Lupson stated that he is requesting approval for the City Hall Roof bid. There is an estimated \$170,000 cost that includes metal roofing and removal and reinstallation of the solar-powered panels. The project should take approximately three to six months.

Councilor Key asked what portion of the roof is being replaced and the square footage. Mr. Lupson answered that the entire roof would be replaced and it was close to 5,000 square feet.

Councilor Key expressed that this cost seems high.

Councilor Livingston agreed that the cost seems high and asked was there any way to reduce the cost since our Public Works Department installed the solar panels in-house.

Mr. Lupson explained that these were estimates and there are areas where we could cut back.

Councilor Messinger clarified that this is more than just reroofing. There is structural reengineering. There is the removal, cleaning and servicing of the solar panels. The panels will now also be reinstalled to Code. There was not a lightning system previously on City Hall. For what we are getting, the cost is in line commercially. He did question the contingency of \$50,000. He added a 15% to 20% is more reasonable.

Mr. Lupson explained that the \$50,000 contingency is coming from protecting the City's assets.

Mr. Roth reminded everyone that the City reserves the right to reject all bids. Just because the City commits to putting the bid out, does not mean we are committing to accepting a bid.

Councilor Key asked if we have to do this during hurricane season. Mr. Lupson stated it is a risk, but the consultant had mapped out the project.

Made by Messinger, seconded by Key.

Consideration of Approval of Authority of Signature for Amended Consent Order OGC-Neptune Beach WWTF, OGC No. 20-0773. Mr. Roth explained that Council would need to authorize Interim City Manager Pike to sign the Amended Consent Order for the Wastewater Treatment Facility.

Deputy Public Works Director Colin Moore explained that the previous Public Works Director had negotiated the terms of this consent order. There is a \$250 fine for updating this as long as we don't exceed the levels. He confirmed Vice Mayor Chin's inquiry that we would have until April, 2024, to complete corrective actions.

Mayor Brown stated that the hooks up to Atlantic Beach would only be in case of a fire for the shopping center. A valve could be opened on the Atlantic Beach side if a fire occurred. The City of Neptune Beach will be supplying the daily water needs for the 572 Atlantic project. Call to Order/Roll Call Mayor Brown called the Special Meeting to order at 6:00 p.m. and led the Pledge of Allegiance.

First Public Hearing, Dev. Agreement Amendment FIRST OF TWO PUBLIC HEARINGS - First Amendment to Development Agreement between the City of Neptune Beach, Florida and Neptune Beach, FL Realty LLC entered into on March 1, 2021

Mayor Brown explained this is the first of two required hearings. The public hearing will only be on the subject of the meeting which is the Development Agreement Amendment.

Public Hearing Mayor Brown opened the first public hearing on the Development Agreement Amendment.

John Cicchino, 629 Cherry Street, Neptune Beach, stated he appreciated the due diligence work that has been completed regarding the options to adequately supply fire suppression requirement for the new Publix. He requested Council take the option of using the readily available water offered by Atlantic Beach and begin the process of removing the industrial tank.

Chuck McCue, 1908 3rd Street, Neptune Beach, stated the documents for the hiding of the tank, are sufficient. He stated he is speaking for 98-99% of the people of Neptune Beach. He added that we need to fix the infrastructure. That's the number one priority we need to concentrate on. He commended the Neptune Beach Police Department on a job well done during a recent incident.

Mayor Brown closed the public hearing.

City Attorney Zach Roth explained that at the last meeting there had been discussion of performing a hydraulic study and then performing certain improvements for a period of one year, and if that doesn't work, connecting to Atlantic Beach. Jacksonville Electric Authority (JEA) had completed the hydraulic study at no cost to the City. They found there are no solutions to put in place for the next year that would bring the water flows back. This simplifies the amendment to the Development Agreement. It states that within six months of when 500 Atlantic or Atlantic Beach brings that pipe over, it must be connected to and remove the tank.

Mr. Roth clarified that 500 Atlantic or Atlantic Beach or the developer is making separate arrangements to bring water across Atlantic Boulevard. This amendment is a commitment to tying into what is being brought across Atlantic Boulevard. The City, under this arrangement, is committing to paying up to \$60,000 just for that connection. The City would have no maintenance responsibility.

Mr. Roth pointed out that there is a provision that if the extension is not completed in 12 months, then the developer and the City will work together to find a resolution. He added that he does not like a provision that is that open-ended. Unfortunately, the City does not know why it would not be completed. It is very difficult to put something in that is more specific. It is still a duty to cooperate.

Mr. Roth remarked that the vegetative buffer is unaltered from the last version. He added that it is a new buffer requirement in the Development Agreement. The vegetation would remain even after the tank is removed.

Mr. Roth concluded that what is being asked of Council is to pass on the first read, move to a second read an agreement where the City commits to pay up to \$60,000 to connect to the water pipe brought across from Atlantic Beach and the tank be removed.

Vice Mayor Chin clarified, from confusion evidenced from emails, that this agreement is solely for 572 Atlantic Boulevard and has nothing to do with 500 Atlantic. This is just for fire suppression.

Vice Mayor Chin remarked that Neptune Beach does not know how Atlantic Beach would bring the water source across.

Mr. Roth commented that there have been discussions of bringing it over in two locations, one by McDonald's and one closer to Seminole Road. He also pointed out that developer would pay dollar for dollar for the connection.

Vice Mayor Chin stated that it seems Neptune Beach is limited by the capacity of the City water tank.

Public Works Director Deryle Calhoun remarked that JEA built the model and would anticipate just over 700,000 gallons per minute at a hydrant and the developer's engineer has 471,000 gallons per minute. The discrepancy had been pointed out and is being looked at by the engineer.

Councilor Key questioned how long would it take to make the connection. Mr. Calhoun stated explained it has to go through permitting and get a contractor. He does not know for a fact the timeframe.

Councilor Key asked if we have written explicit permission that Atlantic Beach is willing to connect from their system.

Mr. Calhoun stated he does not have anything in writing but he has spoken with Atlantic Beach City Engineer Steve Swann who has expressed interest in the connection.

Mr. Roth commented that there are conceptual designs put it place to show the connections.

Councilor Key expressed that she wants to make sure we don't go through this process and Atlantic Beach not want to make the connection. It is important to have an agreement. The Cherry Street neighbors are concerned with not filling the tank. She is hearing that they have to fill the tank to open while this is figured out.

Mr. Roth reported that for Publix to open, the tank has to be full to have the fire suppression requirement.

Councilor Key asked if there was a cost for lowering the tank and is that a possibility.

Andrew Greene, Neptune Beach, FL Realty LLC, answered that that he understood that the neighbors want the tank gone. There is not a practical path to lower the tank.

Councilor Key stated she asks because of the discrepancy in what the developer's engineer and what other engineers are saying the size of the tank should be.

Mr. Roth pointed out that as currently drafted, the development agreement amendment includes a return of the escrow money that is being held to ensure completion. He suggested that we ensure that it is complied with the agreement before we finalize and agree to release the escrow.

Councilor Livingston stated that she would like to see something more in-depth as far as a plan and timeline about Atlantic Beach before the second read. She also would like to see something more formal regarding filling the tank.

Mr. Roth advised that based on Council's decision on the agreement, his recommendation would be to modify the stop work order to permit filling of the tank subject to certain conditions.

Mayor Brown commented that there has not been anything formally asked of Atlantic Beach.

Councilor Key expressed that she would feel more comfortable moving forward if there was something in writing that Atlantic Beach agreed to the connection for 572 Atlantic. She added that there was confusion between the 500 and 572 Atlantic. We are discussing 572 Atlantic.

Vice Mayor Chin remarked that Council would like to have some letter or official assurance from Atlantic Beach that they are interested in moving forward. He asked if Atlantic Beach is waiting on communication from Neptune Beach. He added that the City of Neptune Beach needs to generate official communication.

Mayor Brown conveyed that the communication should be drafted, in writing, saying what we need. We also need to know what the process is after that.

Mr. Roth clarified that the first read of this agreement is tonight. It has to be published again for seven days and then there would be a second read. The earliest the notice could be published is Monday, March 27, for the second read at the April 3 Regular Council meeting. There is time to get that confirmation from Atlantic Beach.

Councilor Livingston stated she is comfortable moving forward with the first read understanding what has been discussed and answers that Council wants.

Councilor Key clarified that this first read is moving forward with the process. Council has the opportunity to stop the process should items not be finished.

Stop Work Order Stop Work Order. Mr. Roth reported that the status of the stop work order is that it has been amended to permit all work up to putting water into the tank. The developer cannot fill the tank or use the tank. They are asking for further modification to permit them to fill the tank halfway with conditions.

Mr. Roth informed Council that these conditions were volunteered to be placed by the developer.

Councilor Key asked what unfilling the tank would look like.

Mr. Greene reported there is a release valve as part of the pump mechanism. The water would drain toward the rear swale. They are putting landscaping in the back at this time and emptying the tank would be done in a way that would not cause erosion.

Councilor Key requested a five-minute recess to speak with the Cherry Street residents present before voting on the modification to the stop work order.

Mayor Brown announced a five-minute recess at 6:50 p.m.

Mayor Brown resumed the meeting at 6:55 p.m.

Councilor Key reported that some of the residents have reservations but the majority feel comfortable with the stop work order modifications.

Made by Key, seconded by Livingston.

FIRST AMENDMENT TO DEVELOPMENT AGREEMENT

THIS FIRST AMENDMENT TO DEVELOPMENT AGREEMENT (the “First Amendment”) is made and entered into as of the _____ day of _____, 2023 by and between the **CITY OF NEPTUNE BEACH, FLORIDA**, a municipal corporation of the State of Florida (the “City”) and **NEPTUNE BEACH, FL REALTY LLC**, a Florida limited liability company (together with its successors and assigns “Developer”).

RECITALS

WHEREAS, a Development Agreement was entered into on March 1, 2021 and recorded in the Clerk of Court for Duval County Official Records Book 19662, Page 1438 (the “Development Agreement”); and

WHEREAS, after entering into the Development Agreement and beginning the store design process, Developer discovered the City’s current water infrastructure provided insufficient fire flow to the Property for fire protection; and

WHEREAS, to meet fire flow test standards for fire protection approval, Developer constructed and installed an external fire pump and water storage tank; and

WHEREAS, building permit numbers 202200015 and 202201360 are hereby ratified and work may continue as approved; and

WHEREAS, the underlying issue of the City’s water system improvements remains unaddressed; and

WHEREAS, Developer and City have agreed to amend and modify certain provisions contained in the Development Agreement to include water system improvements, as more particularly set forth below; and

WHEREAS, an extension of City of Atlantic Beach utility service to the south side of Atlantic Boulevard between Pine Street and Sherry Drive has been identified as alternative source of sufficient fire flow (the “COAB Extension”); and

WHEREAS, the City conducted a hydraulic study to evaluate the underlying issues described above and determine possible means of addressing such issues sufficient to restore required flow levels; and

WHEREAS, the results of the study demonstrated that no short-term improvements to the water system will result in restoration of sufficient flows and that any solutions will require long-term planning and implementation; and

WHEREAS, the study demonstrated that the most cost-effective and time-effective method for ensuring sufficient water flows to permit the removal of the water tank is to connect to the COAB Extension; and

WHEREAS, Developer and City believe it is in their mutual best interest to provide a process for causing such connection and desire to memorialize same; and

WHEREAS, at the conclusion of two noticed public hearings, the City approved this First Amendment and authorized the Mayor of the City to execute it on behalf of the City.

NOW, THEREFORE, for and in consideration of the mutual promises and covenants contained herein and other good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

Section 1. **Incorporation of Recitals.** The above recitals are true and correct and are incorporated into and made a part of this First Amendment. Capitalized terms not defined herein shall have the meanings ascribed to such terms in the Development Agreement.

Section 2. **Amendment.** Section 32 is hereby added to the Development Agreement, as follows:

Section 32. Water System Improvements. To eliminate the need for a water storage tank on the Property, the City and Developer commit to the following:

- A. Developer will install a connection to the COAB Extension within six (6) months of the completion of the COAB Extension, subject to the City of Atlantic Beach permitting said connection. The City agrees to permit, allow, and cooperate with the City of Atlantic Beach to extend water service and sewer service to the south side of Atlantic Boulevard. Developer and City agree to use commercially reasonable efforts to timely facilitate such connection.
- B. Developer and the City agree to evenly share the construction costs of installing the connection to the COAB Extension. Notwithstanding the foregoing, the City's contribution shall not exceed sixty thousand (\$60,000) dollars. Developer is responsible for all costs which exceed one-hundred twenty thousand (\$120,000) dollars. The City agrees to

reimburse Developer for the City's portion of the cost within sixty (60) days of receipt of an invoice. Reimbursement of any costs must be sought by Developer within six (6) months of the completion of the connection to the COAB Extension. The responsibilities in this subsection are limited to the connection to the COAB Extension; in no event shall this First Amendment require the City or Developer to construct or contribute funds towards the COAB Extension itself. The City shall have no other monetary obligations regarding these matters except as to the construction of the initial connection.

- C. Prior to the commencement of construction for the connection to the COAB Extension, the City may elect to implement water system improvements to increase the water pressure and flow to the Property and surrounding area. Upon such election, the City shall notify Developer in writing. The City's election to implement water system improvements is in lieu of Developer connecting to the COAB Extension.
- D. Developer shall use commercially reasonable efforts to remove the water storage tank within six (6) months after connection to the COAB Extension or completion of the City's water system improvements provided the applicable water system supplies adequate water pressure and flows to meet required fire flow standards. In no event shall the water storage tank be required to be removed unless and until after six (6) months of adequate water pressure and flows meeting fire flow standards.
- E. If the COAB Extension is not completed within twelve (12) months of this First Amendment, Developer and City mutually agree to cooperate to determine an alternative plan to cause the removal of the water tank.

Section 3. **Amendment.** Section 4 of the Development Agreement is hereby amended, by adding the following:

C. **Enhanced Vegetative Buffer Improvements.** To better serve the privacy needs of the neighboring property owners, Developer has committed to providing enhanced vegetative buffer improvements at the rear of the Property, as depicted in Exhibit G (the "Enhanced Improvements"). No deviation from Exhibit G shall be permitted except by Amendment to this Agreement recorded in the public records of Duval County, Florida; however, the City Manager may approve minor deviations that, in his/her sole judgment and discretion, are not material and that do not relate to landscaping. All improvements must be maintained in a commercially reasonable manner and to reasonably minimize any cost to the City.

Section 4. **Amendment.** Section 4. B. of the Development Agreement is hereby amended, by adding the following:

7. **Return of Escrow.** Pursuant to Section 4. B. 1., the Improvements are deemed complete and escrow funds in the amount of \$1,365,000.00 shall be returned to Developer within thirty (30) days of the date of this First Amendment.

Section 5. **Recording of this First Amendment.** The City Clerk shall, no later than fourteen (14) days after this First Amendment is fully executed, cause this First Amendment to be recorded with the Clerk of Court for Duval County. The Developer shall bear the expense of recording this First Amendment.

Section 6. **Waiver.** This First Amendment is entered as a compromise of a disputed claim regarding the approval and construction of a water storage tank (“Disputed Claim”). The parties, including assignees, agree to waive any and all rights arising out of the Disputed Claim. In the event of a breach of the First Amendment provisions, all parties reserve the right to pursue all available legal remedies.

Jason,

Les and I reviewed these in some detail, and I have attached some thoughts and comments. I also spoke with Jeremy Calloway who felt like the pricing is about correct between line items 62 and 74.

I also attached the February 2022 opinion of probable costs. We anticipated \$483K *before* contractor general conditions and allowances. With all of these, it was close to \$623K.

- TSG Construction: \$463,305 (74.3% of OPCC)
- *Opinion of Probable Costs: \$623,535 anticipated*
- EB Morris: \$690,460 (110.7% of OPCC)

I would suggest that the City keep the landscape within the scope of work, but the City might want to consider doing the irrigation. Typically a landscape contractor wants to control both pieces for a warranted landscape. It also keeps responsibility on the contractor to bring everything to conclusion.

If the references all look good, it seems like TSG Construction has bid this very favorably for the City of Neptune Beach. We'd recommend making sure there is not an error on their side, but if the price is correct, this appears to be advantageous.

Please review, and let me know if you have any questions.

Many thanks,

Jeremy

Jason,

After the bid(s) are read, would you like to jump on a call to discuss? I am not sure I can attend in person, but Gavin and/or I can be available via phone. I can hopefully patch in Les and/or Jeremy Calloway as needed.

Based on information and belief, the statement that I have marked below is true in relation to the entity submitting the sworn statement. **[Indicate which statement applies by initialing.]**

Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity, has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

HOWEVER, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. **[Attach a copy of the final order.]**

CONSENT ORDER

This Consent Order (“Order”) is entered into between the State of Florida Department of Environmental Protection (“Department”) and City of Neptune Beach (“Respondent”) to reach settlement of certain matters at issue between the Department and Respondent.

The Department finds and Respondent admits the following:

1. The Department is the administrative agency of the State of Florida having the power and duty to protect Florida’s air and water resources and to administer and enforce the provisions of Chapter 403, Florida Statutes (“Fla. Stat.”), and the rules promulgated and authorized in Title 62, Florida Administrative Code (“Fla. Admin. Code”). The Department has jurisdiction over the matters addressed in this Order.
2. Respondent is a person within the meaning of Section 403.031(5), Fla. Stat.
3. Respondent is the owner and is responsible for the operation of Neptune Beach Wastewater Treatment Facility (WWTF) a domestic wastewater treatment facility that consists of two biological treatment plants, a common influent/headwork system, and effluent disposal system (Facility”). The Facility operates under Department Wastewater Permit No. FL0020427, which was issued on May 1, 2019, and will expire on April 30, 2024. The Facility is located at 2010 Forest Avenue, Neptune Beach, Florida, in Duval County with coordinates 30° 18' 56.07" N, 81° 25' 12.25" W (“Property”). The City of Neptune Beach owns the Property on which the Facility is located.

4. On September 20, 2021, and September 22, 2021, the Department was notified by the State Watch Office (“SWO”) that the Facility had two unpermitted sanitary sewer overflows (“SSO”). One released approximately 100,000 gallons while the other released approximately 300,000 gallons as seen in Table 1. This is a violation of Chapter 403, Fla. Stat., and Chapter 62-620, Fla. Admin. Code, which prohibits unauthorized discharges.

Table 1 - Sanitary Sewer Overflows

Incident Date	SWO	Volume Released
9/22/2021	2021-5372	300,000
9/20/2021	2021-5322	100,000

Having reached a resolution of the matter Respondent and the Department mutually agree and it is

ORDERED:

5. This Order constitutes a mutual agreement between parties that will be administratively closed five (5) years from the effective date of this document unless both parties mutually agree, in writing, to extend the duration of the agreement.

6. Within 60 days of the effective date of this Consent Order, Respondent shall provide to the Department a Sanitary Sewer Overflow Response Plan (SORP). The SORP shall include the following components:

a. The steps staff shall follow upon discovery of an unauthorized discharge, with the goal of immediately limiting the threat to public health and the environment by stopping the discharge, limiting the extent of impacts, and controlling public access to impacted areas;

b. Where and how staff may rapidly access information regarding the locations of pipes, valves, pumps, and other components of the system for purposes of responding to an unauthorized discharge;

c. Who has authority to direct a response, including acquiring equipment or materials, mobilizing and directing staff and contractors, and initiating required notifications;

d. How internal communications will be conducted, beginning with notification of the person authorized to direct the response when an unauthorized discharge is discovered;

e. How and when sampling of surface waters will be conducted, who will collect samples and how the samples will be handled and transported to a certified laboratory, and what parameters will be analyzed, with analyses to include E. coli for Class III fresh waters and Class I potable water supplies, Enterococci for Class III marine waters, and fecal coliform and Enterococci for Class II shellfish harvesting waters, Total Nitrogen and Total Phosphorus. Sampling locations should be selected to reflect background conditions not receiving effluent or sewage and an area within 10 meters of the point in which the effluent or sewage entered the waterbody.

f. Where and how equipment or materials may be obtained, how staff may be dispatched, and how contractors may be mobilized to respond to the discharge and to repair the damage or correct the problem that resulted in the discharge;

g. How and when the required notifications will be made and updates provided to the Department, other regulatory agencies, and the public, including

1) Oral notification of the department for all incidents within 24 hours of discovery and/or the State Watch Office at (800) 320-0519, for unauthorized discharges greater than 1,000 gallons or that may endanger public health or the environment within 24 hours of discovery;

2) Respondent shall report all noncompliance events related to sanitary sewer overflows or bypass events to the Department electronically using the Department's Business Portal at <http://www.fldepportal.com/go/> (via "Submit" followed by "Report" or "Registration/Notification").

3) The Department's Public Notice of Pollution may also be report through the Business Portal webpage above or at <http://prodenv.dep.state.fl.us/DepPNP/user/pnpRequest> for unauthorized discharges greater than 1,000 gallons or that may endanger public health or the

environment within 24 hours of discovery, and;

4) A written report submitted to the Department within 5 days of discovery to include the following information:

- i. What is the final spill volume of the SSO?
- ii. Did the SSO reach surface waters?
- iii. How much of the SSO's volume reached surface waters, if any?
- iv. How much volume of the SSO was recovered?
- v. How much volume of the SSO was not recoverable?
- vi. Describe what happened to cause the SSO;
- vii. Describe the actions taken to remediate the SSO; and
- viii. Describe the actions taken, or to be taken, to prevent future SSOs of this nature.

h. How discharge volumes will be estimated, basing calculations on such factors as pipe size, pressure, size of opening, and any other applicable information;

i. How the event will be documented and tracked, and how the information will be incorporated into Respondent's management of the sanitary sewer system.

7. Within 365 days of the effective date of this Consent Order, Respondent shall complete and submit an initial Capacity, Management, Operations and Maintenance and Asset Management Program (CMOM and AM Program) assessment of the existing condition of all force mains, gravity mains, connections, isolation or control valves, air release valves, pump stations, and manholes in the collection system. The assessment shall be based on age, materials, estimated remaining life span under actual environmental and usage conditions, the maintenance and surveillance history, the capacity and actual loading of mains and pump stations, and any other information that bears on potential for failures. The assessment shall be done in sufficient detail that the resulting information can be used to prioritize and schedule improvements and preventive maintenance.

a. Respondent shall submit to the Department a report summarizing the results of the assessment, identifying areas of highest vulnerability for failure resulting in unauthorized discharges, and outlining Respondent's plan to repair, rehabilitate, or replace the most vulnerable components of the system.

b. The CMOM and AM Program shall be consistent with the United States Environmental Protection Agency's guidance contained in the references below:

1) EPA's CMOM Program Self-Assessment Checklist

8. Every calendar quarter after the effective date of this Consent Order, and continuing until all corrective actions have been completed, Respondent shall submit in writing to the Department a report containing information concerning the status and progress of projects being completed under this Order, information as to compliance or noncompliance with the applicable requirements of this Order including construction requirements and effluent limitations, and any reasons for noncompliance. These reports shall also include a projection of the work to be performed pursuant to this Order during the 12-month period which will follow the report. Respondent shall submit the reports to the Department within 30 days of the end of each quarter.

9. Respondent's completion of all corrective actions required by paragraph 5-7 within the respective deadlines specified thereunder shall constitute full compliance with Rule 62-620, Fla. Admin. Code.

10. Within 30 days of the effective date of this Order, Respondent shall pay the Department \$14,271.00 in settlement of the regulatory matters addressed in this Order. This amount includes \$13,771.00 for administrative penalties and \$500.00 for costs and expenses incurred by the Department during the investigation of this matter and the preparation and tracking of this Order. The administrative penalty in this case includes 1 violation of Rule 62-620, Fla. Admin. Code, that warrants a penalty of \$2,000.00 or more.

11. Respondent agrees to pay the Department stipulated penalties in the amount of \$100.00 per day for each and every day Respondent fails to timely comply with any of the requirements of paragraph(s) 5-7 of this Order. The Department may demand stipulated penalties at any time after violations occur. Respondent shall pay stipulated penalties owed within 30 days of the Department’s issuance of written demand for payment, and shall do so as further described in paragraph 13, below. Nothing in this paragraph shall prevent the Department from filing suit to specifically enforce any terms of this Order. Any stipulated penalties assessed under this paragraph shall be in addition to the civil penalties agreed to in paragraph 10 of this Order.

12. Upon the effective date of this Order, Respondent shall pay the Department stipulated penalties for any unauthorized discharges from any part of the Respondent’s wastewater collection systems or wastewater treatment and disposal facilities as outlined in the Table 2 below:

a. Table 2 - Stipulated Penalties for SSOs

Amount per Day per Discharge or Amount per Day per Water Quality Violation	Discharge Volume
\$1,000.00	up to 5,000 gallons
\$2,00.00	5,001 to 10,000 gallons
\$5,000.00	10,001 to 25,000 gallons
\$10,000.00	25,001 to 100,000 gallons
\$15,000.00	in excess of 100,000 gallons

Under this Paragraph the term “day” shall mean each successive 24-hour period subsequent to the commencement of the unauthorized discharge. Each unauthorized discharge shall be considered to have ceased when the release from the collection/transmission system or facility has ceased.

b. These unauthorized discharges will be evaluated by the Department on a case-by-case basis. The Department may decide not to collect or may decide to reduce or increase the stipulated penalty amount. An evaluation will determine if the spill was beyond the Respondent’s reasonable control, or if the utility is exercising prudent wastewater utility practices to eliminate wastewater spills, or if the Respondent took aggressive actions to reduce the environmental impact of the spill. Respondent shall not be held liable for stipulated penalties under subparagraph 12.a., if Respondent demonstrates that the discharge was caused by an Act of God or vandalism.

c. The Department will increase the stipulated penalties identified above for unauthorized discharges to surface waters that result in multi-day surface water quality violations. In such cases, there will be a stipulated penalty amount for water quality violations in addition to the stipulated penalty amount for the discharge(s) described above. The additional stipulated penalty amount for discharges that result in water quality violations shall be the amount of the stipulated penalty for the discharges, as described in this Paragraph multiplied by the number of days of water quality violations.

13. Respondent shall make all payments required by this Order by cashier's check, money order or on-line payment. Cashier’s check or money order shall be made payable to the “Department of Environmental Protection” and shall include both the OGC number assigned to this Order and the notation “Water Quality Assurance Trust Fund.” Online payments by e-check can be made by going to the DEP Business Portal at: <http://www.fldepportal.com/go/pay/>. It will take a number of days after this order becomes final, effective and filed with the Clerk of the Department before ability to make online payment is available.

14. Except as otherwise provided, all submittals and payments required by this Order shall be sent to Northeast District, Department of Environmental Protection, 8800 Baymeadows Way West, Suite 100, Jacksonville, Florida, 32256.

15. In lieu of making cash payment of the amount stated in paragraph 10, the Department, at its discretion, may allow Respondent to off-set this amount by implementing an in-kind project, which must be approved by the Department. An in-kind project must be either an environmental enhancement, environmental restoration or a capital/facility improvement project. The Department may also consider the donation of environmentally sensitive land as an in-kind project. The value of the in-kind penalty project shall be one and a half times, \$20,656.50, the portion of the stipulated penalty amount for which the approved project off-sets. The Respondent shall request consideration of applying stipulated penalties toward an in-kind project within 15 days of notification by the Department that stipulated penalties are being assessed under paragraph 12. If acceptable, the Respondent shall comply with all the requirements and timeframes in Exhibit A, entitled In-Kind Projects. If not acceptable, the Respondent will pay the stipulated penalties within 30 days of receipt of the Department's notification that applying the stipulated penalties to an in-kind project is not acceptable.

16. In the event that Respondent elects to off-set civil penalties including stipulated penalties by implementing an in-kind penalty project which is approved by the Department, during the period that this Order remains in effect or during the effective date of any Department issued Permit to Respondent whichever is longer (Prohibited Transfer Duration), Respondent shall not transfer or use funds obtained by the Respondent from the collection of sewer rates for any purpose not related to the management, operation, or maintenance of the Sewer System or to any capital improvement needs of the Sewer System (hereinafter, Prohibited Transfer). Respondent shall annually certify to the Department using the Annual Certification Form located on Exhibit A to this Order that no Prohibited Transfer has occurred. In the event of any Prohibited Transfer, the In-Kind project option shall be forfeited, and entire

civil penalty shall immediately become due and owing to the Department irrespective of any expenditures by the Respondent in furtherance of the In-Kind project.

17. Respondent shall allow all authorized representatives of the Department access to the Facility and the Property at reasonable times for the purpose of determining compliance with the terms of this Order and the rules and statutes administered by the Department.

18. In the event of a sale or conveyance of the Facility or of the Property upon which the Facility is located, if all of the requirements of this Order have not been fully satisfied, Respondent shall, at least 30 days prior to the sale or conveyance of the Facility or Property, (a) notify the Department of such sale or conveyance, (b) provide the name and address of the purchaser, operator, or person(s) in control of the Facility, and (c) provide a copy of this Order with all attachments to the purchaser, operator, or person(s) in control of the Facility. The sale or conveyance of the Facility or the Property does not relieve Respondent of the obligations imposed in this Order.

19. If any event, including administrative or judicial challenges by third parties unrelated to Respondent, occurs which causes delay or the reasonable likelihood of delay in complying with the requirements of this Order, Respondent shall have the burden of proving the delay was or will be caused by circumstances beyond the reasonable control of Respondent and could not have been or cannot be overcome by Respondent's due diligence. Neither economic circumstances nor the failure of a contractor, subcontractor, materialman, or other agent (collectively referred to as "contractor") to whom responsibility for performance is delegated to meet contractually imposed deadlines shall be considered circumstances beyond the control of Respondent (unless the cause of the contractor's late performance was also beyond the contractor's control). Upon occurrence of an event causing delay, or upon becoming aware of a potential for delay, Respondent shall notify the Department by the next working day and shall, within seven calendar days notify the Department in writing of (a) the anticipated length and cause of the delay, (b) the measures taken or to be taken to prevent or minimize the delay, and (c) the timetable by which Respondent intends to implement these measures. If the parties can agree that the delay or anticipated delay has been or will be

caused by circumstances beyond the reasonable control of Respondent, the time for performance hereunder shall be extended. The agreement to extend compliance must identify the provision or provisions extended, the new compliance date or dates, and the additional measures Respondent must take to avoid or minimize the delay, if any. Failure of Respondent to comply with the notice requirements of this paragraph in a timely manner constitutes a waiver of Respondent's right to request an extension of time for compliance for those circumstances.

20. The Department, for and in consideration of the complete and timely performance by Respondent of all the obligations agreed to in this Order, hereby conditionally waives its right to seek judicial imposition of damages or civil penalties for the violations described above up to the date of the filing of this Order. This waiver is conditioned upon Respondent's complete compliance with all of the terms of this Order.

21. This Order is a settlement of the Department's civil and administrative authority arising under Florida law to resolve the matters addressed herein. This Order is not a settlement of any criminal liabilities which may arise under Florida law, nor is it a settlement of any violation which may be prosecuted criminally or civilly under federal law. Entry of this Order does not relieve Respondent of the need to comply with applicable federal, state, or local laws, rules, or ordinances.

22. The Department hereby expressly reserves the right to initiate appropriate legal action to address any violations of statutes or rules administered by the Department that are not specifically resolved by this Order.

23. Respondent is fully aware that a violation of the terms of this Order may subject Respondent to judicial imposition of damages, civil penalties up to \$15,000.00 per day per violation, and criminal penalties.

24. Respondent acknowledges and waives its right to an administrative hearing pursuant to sections 120.569 and 120.57, Fla. Stat., on the terms of this Order. Respondent also acknowledges and waives its right to appeal the terms of this Order pursuant to section 120.68, Fla. Stat.

25. Electronic signatures or other versions of the parties' signatures, such as .pdf or facsimile, shall be valid and have the same force and effect as originals. No modifications of the terms of this Order will be effective until reduced to writing, executed by both Respondent and the Department, and filed with the clerk of the Department.

26. The terms and conditions set forth in this Order may be enforced in a court of competent jurisdiction pursuant to sections 120.69 and 403.121, Fla. Stat. Failure to comply with the terms of this Order constitutes a violation of section 403.161(1)(b), Flat. Stat.

27. This Consent Order is a final order of the Department pursuant to section 120.52(7), Fla. Stat., and it is final and effective on the date filed with the Clerk of the Department unless a Petition for Administrative Hearing is filed in accordance with Chapter 120, Flat. Stat. Upon the timely filing of a petition, this Consent Order will not be effective until further order of the Department.

28. Respondent shall publish the following notice in a newspaper of daily circulation in Duval County, Florida. STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF CONSENT ORDER

The Department of Environmental Protection ("Department") gives notice of agency action of entering into a Consent Order with Neptune Beach Wastewater Treatment Facility pursuant to section 120.57(4), Florida Statutes. The Consent Order addresses the sanitary sewer overflows on September 20, 2021, and September 22, 2021, at 2010 Forest Avenue, Neptune Beach, Florida. The Consent Order is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection at 8800 Baymeadows Way W, Suite 100, Jacksonville, Florida 32256.

Persons who are not parties to this Consent Order, but whose substantial interests are affected by it, have a right to petition for an administrative hearing under sections 120.569 and 120.57, Florida Statutes. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition concerning this Consent Order means that the Department's final action may be different from the position it has taken in the Consent Order.

The petition for administrative hearing must contain all of the following information:

- a) The name and address of each agency affected and each agency's file or identification number, if known;
- b) The name, address, any e-mail address, any facsimile number, and telephone number of the petitioner, if the petitioner is not represented by an attorney or a qualified representative; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- c) A statement of when and how the petitioner received notice of the agency decision;
- d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;
- f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

The petition must be filed (received) at the Department's Office of General Counsel, 3900 Commonwealth Boulevard, MS# 35, Tallahassee, Florida, 32399-3000, or received via electronic correspondence at Agency_Clerk@floridadep.gov, within 21 days of receipt of this notice. A copy of the petition must also be mailed at the time of filing to the District Office at

8800 Baymeadows Way West, Suite 100, Jacksonville, Florida, 32256. Failure to file a petition within the 21-day period constitutes a person's waiver of the right to request an administrative hearing and to participate as a party to this proceeding under sections 120.569 and 120.57, Florida Statutes. Before the deadline for filing a petition, a person whose substantial interests are affected by this Consent Order may choose to pursue mediation as an alternative remedy under section 120.573, Florida Statutes. Choosing mediation will not adversely affect such person's right to request an administrative hearing if mediation does not result in a settlement. Additional information about mediation is provided in section 120.573, Florida Statutes and Rule 62-110.106(12), Florida Administrative Code.

Apologies for the slight delay after Spring Break to respond.

Hi Steve

Hope you are doing well. I wanted to follow up on the items WastePro was going to prepare. Do you have an idea when we can expect them? I believe we were advised they would be ready a week after the meeting we had, but that was some time ago.
