POLICE DEPARTMENT					
DOJ JAG grant #2017-JAGD-1741 and DOJ JAG grant #2018- JAGD	Funds from both DOJ Jag Grants should be available soon.	Fifty-seven thousand dollars	2020	Waiting for funds to be available, upon approval of the grant	Equipment upgrades and training equipment will be purchased as needed with approval from the City Manager.
School Safety Liaison Program	The School Safety Liaison Program will start back up at Fletcher Senior High, Neptune Beach Elementary and Beaches Chapel K-12 on August 10th, 2021. school year.	No cost, all officers involved are on duty during this program	February 21st, 2017	This program will continue through school year 2021-2022.	On going through school year 2021-2022.
Covid-19 (2021 resurgence)	Although many Covid restrictions have been changed during the resurgence, we will continue monitoring Local, State and Federal Governments. The Police Department will continue to take all precautions necessary to keep all City Employees and the public out of harms way and healthy.	Covid-19 testing is the only cost for the Police Department at this time.	February 2020.	All P.D. employees have been offered the vaccine.	On Going
Capital Improvements	Three police vehicles which were approved in the Capital Improvements Budget have arrived. Two of the vehicles will be delayed entering service due to unfitting equipment being Covid delayed.	Funds provided from the Capital Improvements account.	Mid-August 2020, the Police Department started working on the 2020-2021 Budget with the City Manager.	The vehicles have been delivered to the city. However we are still waiting for unfitting equipment to arrive.	The vehicles should be in service within thirty to sixty day.
The Police Department has received a Service Station Dog from K-9s For Warriors.	Service Animals have been proven to relive stress and raise moral within the Law Enforcement Community.	There is no impact to the Department's Budget for the cost of the dog. The Agency will be responsible for food and grooming costs.	Winter, 2020	The Service Dog (on loan from K-9s For Warriors) has become a welcome member of the agency.	On going

Agenda Item 6A Proposed Ordinance

CITY OF NEPTUNE BEACH CITY COUNCIL MEETING STAFF REPORT

- AGENDA ITEM:** PROPOSED ORDINANCE 2021-An Ordinance Creating Section 7-29, Article II, Chapter 7 (Beaches and Waterways); Governing Use of Certain Personal Vehicles on the City's Beaches; Creating Section 22-8, Article I, Chapter 22 (Traffic and Motor Vehicles); Governing Use of Certain Personal Vehicles on the City Streets and Sidewalks; Providing for Severability; Providing an Effective Date.
- SUBMITTED BY:** Mayor Elaine Brown and Vice Mayor Fred Jones
- DATE:** August 11, 2021
- BACKGROUND:** The City Attorney and Police Department drafted the proposed ordinance regulating e-bikes, bicycles and other mobility devices on City Streets and on the beach. This came as a result of hearing concerns from residents during City Council workshops in late 2020 and early 2021.
- BUDGET:** N/A
- RECOMMENDATION:** Consider the proposed ordinance and consent to move to first read
- ATTACHMENT:** 1. Ordinance - Bicycle Restrictions (00984484x9CBC3)

INTRODUCED BY:

ORDINANCE NO. 2021-____

**MAYOR ELAINE BROWN AND
VICE MAYOR FRED JONES**

A BILL TO BE ENTITLED

AN ORDINANCE CREATING SECTION 7-29, ARTICLE II, CHAPTER 7 (BEACHES AND WATERWAYS); GOVERNING USE OF CERTAIN PERSONAL VEHICLES ON THE CITY'S BEACHES; CREATING SECTION 22-8, ARTICLE I, CHAPTER 22 (TRAFFIC AND MOTOR VEHICLES); GOVERNING USE OF CERTAIN PERSONAL VEHICLES ON THE CITY STREETS AND SIDEWALKS; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE.

WHEREAS, pursuant to Section 1.03 of the City Charter, the City is vested with all governmental, corporate, and proprietary powers to enable it to conduct municipal government, perform municipal functions, and render municipal services, and may exercise any power for municipal purposes except as expressly prohibited by law or the City Charter; and

WHEREAS, pursuant to Fla. Stat. §316.008(h) and §316.20655(1), the City has right to regulate the operation of bicycles and electric bicycles with respect to streets and highways under its jurisdiction and within the reasonable exercise of the police powers; and

WHEREAS, pursuant to Fla. Stat. §316.008(s), the City has right to regulate the operation of skates, coaster, and other toy vehicles with respect to streets and highways under its jurisdiction and within the reasonable exercise of the police powers; and

WHEREAS, the City also has the right to regulate conduct on the beaches under the City's jurisdiction;

WHEREAS, the City has received complaints from members of the public regarding the reckless use of bicycle, electric bicycles, skateboards, scooters, roller skates, and personal mobility devices on the City's beaches, sidewalks, and streets;

WHEREAS, the unsafe use of bicycles, electric bicycles, skateboards, scooters, and other personal transportation devices on the City's beaches, sidewalks, and streets presents an imminent and present danger to the health, safety, and welfare of those using the beaches for recreation;

WHEREAS, the City Council for the City of Neptune Beach, Florida finds and declares that this ordinance is in the best interest of the public health, safety and welfare of the citizens and residents of the City, that it advances a significant and important governmental interest, and that it furthers the City's performance of municipal functions and rendering of municipal services.

NOW, THEREFORE, BE IT ENACTED BY THE CITY COUNCIL OF THE CITY OF NEPTUNE BEACH, FLORIDA, THAT:

Section 1. Creating Section 7-29, Beach personal vehicle regulations. Creating Section 7-29, Beach personal vehicle regulations, Article II, Chapter 7 (Beaches and Waterways), City of Neptune Beach Code of Ordinances as follows:

Sec. 7-29. – Beach personal vehicle regulations.

(a) Definitions.

(1) *Bicycle* shall mean as such term is defined in Fla. Stat. §316.003(4), as amended from time to time;

(2) *Electric bicycle* shall mean as such term is defined in Fla. Stat. §316.003(22), as amended from time to time;

(3) *Personal mobility device* shall mean all wheeled objects, coasters, toys, conveyances, or similar devices used for transportation or sport which are propelled by machine power except electric bicycles and any other motorized vehicle specifically regulated by Chapter 316, Florida Statutes, as amended from time to time;

(4) *Roller skates* shall mean any shoe, boot or other footwear, or device which may be attached to the foot or footwear, to which one or more wheels are attached, including wheels that are "in line," also known as "rollerblades";

(5) *Skateboard* shall mean all wheeled objects, coasters, toys, conveyances, or similar devices used for transportation or sport which are propelled by human power except bicycles, electric bicycles, or roller skates;

(6) *Reckless* shall mean

a. At a speed in excess of fifteen (15) miles per hour; or

b. In willful or wanton disregard for the safety of persons; or

- c. Operation in such a manner so as to cause an unreasonable risk of harm to person or property of others on the city's streets and sidewalks; or
 - d. Operation in a manner other than is reasonable and prudent under the conditions existing at the time, having regard to the actual and potential hazards then existing.
- (b) No bicycle, electric bicycle, skateboards, roller skates, or personal mobility device may be operated on the beaches within the city in a reckless manner.
- (c) Enforcement. Violations of this section shall be enforced as non-criminal infractions of the city's ordinances.
- (d) Penalties.
- (1) The amount of penalties for violations of this section shall be as provided for in in Fla. Stat. §318.18(3), as amended from time to time.

Section 2. Creating Section 22-8, Street and sidewalk personal vehicle regulations.
Creating Section 22-8, Street and sidewalk personal vehicle regulations, Article I, Chapter 22 (Traffic and Motor Vehicles), City of Neptune Beach Code of Ordinances as follows:

Sec. 22-8. – Street and sidewalk personal vehicle regulations.

- (a) Definitions.
- (1) *Bicycle* shall mean as such term is defined in Fla. Stat. §316.003(4), as amended from time to time;
- (2) *Electric bicycle* shall mean as such term is defined in Fla. Stat. §316.003(22), as amended from time to time;
- (3) *Personal mobility device* shall mean all wheeled objects, coasters, toys, conveyances, or similar devices used for transportation or sport which are propelled by machine power except electric bicycles and any other motorized vehicle specifically regulated by Chapter 316, Florida Statutes, as amended from time to time;
- (4) *Roller skates* shall mean any shoe, boot or other footwear, or device which may be attached to the foot or footwear, to which one or more wheels are attached, including wheels that are "in line," also known as "rollerblades";
- (5) *Skateboard* shall mean all wheeled objects, coasters, toys, conveyances, or similar devices used for transportation or sport which are propelled by human power except bicycles, electric bicycles, or roller skates;

(6) Reckless shall mean

- a. At a speed in excess of fifteen (15) miles per hour; or
- b. In willful or wanton disregard for the safety of persons; or
- c. Operation in such a manner so as to cause an unreasonable risk of harm to person or property of others on the city's streets and sidewalks; or
- d. Operation in a manner other than is reasonable and prudent under the conditions existing at the time, having regard to the actual and potential hazards then existing.

(b) No bicycle, electric bicycle, skateboards, roller skates, or personal mobility device may be operated on the streets or sidewalks within the city in a reckless manner.

(c) Enforcement. Violations of this section shall be enforced as non-criminal infractions of the city's ordinances.

(d) Penalties.

(2) The amount of penalties for violations of this section shall be as provided for in Fla. Stat. §318.18(3), as amended from time to time.

Section 2. Severability. If any section, sentence, clause, phrase, or word of this Ordinance is, for any reason, held or declared to be unconstitutional, inoperative or void, such holding or invalidity shall not affect the remaining portions of this Ordinance, and it shall be construed to be the legislative intent to pass this Ordinance without such unconstitutional, invalid or inoperative part therein.

Section 3. Effective Date. This Ordinance shall become immediately upon passage by the City Council.

August 10, 2021

TO: Chief Richard J. Pike
FROM: Commander Michael J. Key
RE: FY 2022 Budget

Sir,

After an in-depth review of the agency's essential budgetary requirements, the financial needs for fiscal year 2022 are listed below. This review includes refinements made after two internal meetings with the City Manager and Staff.

Of note, items #1-4 are multi-year continuation projects (indicated by **orange font**). Items #5-15 are new requirements for continued operations (indicated in **green font**)

Sincerely,

COMMANDER MICHAEL KEY

Public Safety

Item Number: 1 (Multi-Year): Computer Aided Dispatch Project – CAD (Year 2 of 2)	
Problem & Scope:	The PD began a project in FY20 to integrate with the county-wide computer aided dispatch (CAD) system. This system allows the immediate sharing of call information with other responding agencies. This project is under contractual obligation.
Budget Narrative:	\$55,000 for full implementation over 2 years. (YR1: \$20,000 / YR2: \$35,000)
Total:	\$35,000
Item Number: 2 (Multi-Year): TASER Refresh (Year 3 of 5)	
Problem & Scope:	The PD identified the need for a complete refresh of its TASER weaponry in FY19. In YR2, an additional 3 TASERs were purchased which slightly increased the cost. This project is under contractual obligation.
Budget Narrative:	'TASER 7' refresh broken-down into 5 payments for 5 years of \$16,850 per year (0% APR).
Total:	\$16,850
Item Number: 3 (Multi-Year): Patrol Rifle Refresh – 4 Rifles Per Year (Year 2 of 4)	
Problem & Scope:	The PD identified the need to refresh it's current patrol rifles, which were in excess of 15 years of age. While the rifles are inspected by armorers each year, they have surpassed their life expectancy for safe usage. A complete refresh of patrol rifles is needed over the course of 4 years.
Budget Narrative:	4 AR-15 Rifle and associated equipment: \$1,250.00
Total:	\$5,000
Item Number: 4 (Multi-Year): BWC & In-Car Camera/ALPR – (Year 3 of 5)	
Problem & Scope:	Prior to project initiation in FY21, the PD did not have a Body Worn Camera (BWC) or In-Car Camera/ALPR program. The investment increases officer safety and is beneficial for court proceedings. Implementation included the purchase of 4 devices (2 BWC & 2 ALPR) for each of the DUI Traffic Enforcement Officers. This project is under contractual obligation.
Budget Narrative:	BWC (AB3): \$2,756.00. In-Car Camera/ALPR ('Fleet3'): \$4,992.00
Total:	\$7,748.00
Total Multi-Year Items	
Subtotal:	\$64,598
Item Number: 5 (New Item): 2 Police Vehicles – Critical	
Problem & Scope:	Current assessment have identified the need to purchase two new police vehicles to keep up with an aging fleet. Aging fleets are both a risk to public safety and a cost liability. Repairs leave police vehicles down for extended periods of time and are often extremely expensive, especially without a City Mechanic which forces the agency to outsource repairs. Vehicle and equipment purchases will be made through government contracts and approved vendors.
Budget Narrative:	Projected Florida Sheriff's Association Contract costs: \$37,500. Upfitting Emergency Equipment Costs: \$15,500. Graphics: \$550. Police Radio: 3,900. Total per unit: \$57,450. Note: Each year, the vehicle rotation plan dictates at minimum three new vehicles and three vehicles being moved out-of-service. However, after receiving donated funds in FY21 to purchase a fourth vehicle, the upcoming budget year will only require two vehicles. .
Total:	\$114,900
Item Number: 6 (New Item): Forecasted Changes in Salaries ('Career Tracks' Program) – CONTRACT	
Problem & Scope:	Potential increase through the 'Career Tracks' program will increase the salary line item in budget.
Budget Narrative:	Forecasted increase in salary budget. (Increase: Ofc. Camacho \$21,221, Ofc. Carlson \$3,363, Ofc. Dzamko \$3,772, Ofc. Stucki \$3,772, Ofc. Torres \$3,636 = 35,764. Decrease: Ofc. Waldrep \$79,000 (retire), Ofc. Bounds \$61,000 (retire) less a new officer @ \$40k = 60,000)

Total:	\$24,236
Item Number: 7 (New Item): I.T. Upgrades: Server and VPN – Mandatory CJIS Requirement*	
Problem & Scope:	In FY21, the PD conducted a required technical audit as mandated by FDLE. The current NBPD server is out of compliance and must be updated to a newer model. Further, the current configuration of our system does not include an internal Virtual Private Network (VPN) to function within a secure manner. Current discussions are taking place with the JSO and a VPN vendor used by that organization to determine if the current server can be upgraded or an entire new system is required.
Budget Narrative:	Active / Pending Quotes
Total:	TBD / Likely to be from \$5,000 to \$25,000 depending upon variables
Item Number: 8 (New Item): Services Division – Salary Increases	
Problem & Scope:	Non-sworn member's salaries are no longer competitive amongst other municipalities and unlike police officers, are not able to participate in the Career Tracks Program. These employees are members of the collective bargaining agreement, therefore salary changes are contingent on contract negotiations.
Budget Narrative:	Pending Contract Negotiations
Total:	TBD
Item Number: 9 (New Item): Life Scan	
Problem & Scope:	LifeScan Wellness Programs provide an integrated medical approach to providing annual on-site lifesaving examinations to public safety personnel. With cancer and cardiovascular disease so prevalent in public safety, this program is essential to keep our police officers healthy. Ultimately, the cost may be offset by diagnostically identifying an underlying illness in the early stages, thus limiting the cost of sick leave, or backfilling personnel shortages caused by an illness. Many municipal insurance carriers offer lower premiums for wellness programs. The program offers the following: Public Safety Physicals, Early Detection Ultrasound Screening, Cardiopulmonary and Fitness Exam.
Budget Narrative:	\$430 ea. x23 = \$9,890
Total:	\$9,890
Item Number: 10 (New Item): Protective Equipment: Helmet Shields, Gas Masks, OC Crowd Canisters	
Problem & Scope:	Current societal changes and issues have forced the agency to examine equipment to deal with large crowds and/or riots. NBPD Officers currently have ballistic helmets, therefore the project would include purchasing retrofit face shields and rails for them to mount to the helmet to protect officers. Each officer would be outfitted with large crowd-control canisters of OC spray (pepper spray)
Budget Narrative:	Gas Masks x25 @ \$650 ea.= \$16,250. Retrofit Face Shields x25 @ \$130 ea.= \$3,250. Retrofit Helmet Rails x25 @ \$125 ea. = \$3,125. Crowd Canister OC Spray x25 @ \$45 ea.= \$1,125
Total:	\$23,750
Item Number: 11 (New Item): Protective Equipment: Outer Carriers	
Problem & Scope:	The outer carrier vest is designed to have the appearance of a uniform shirt however incorporates the officers ballistic vest and the ability to carry multiple pieces of equipment. Officers who carry most of their equipment – which often weighs close to 30 pounds – on vests rather than duty belts experience significantly less hip and lower-back pain, the studies have found. While it is impossible to eliminate all the health-related challenges that police officers face, the vest does address issues with lower-back pain, which is among the most common health problem reported by officers, especially patrol officers. Not every officer may want to take the opportunity to acquire this piece of equipment, however with that said, officers who are issued the outer carrier vest will be required to wear it. Officers will wear duty belts, but they will hold only guns and TASERS. The radio, handcuffs, flashlight and other equipment will be carried on the vests thus eliminating substantial weight on the officer's hips and back.
Budget Narrative:	\$550 ea. X 16 = \$8,800
Total:	\$8,800
Item Number: 12 (New Item): Increase in Budget Line: Uniforms - Ballistic Vests	

Problem & Scope:	Ballistic vests expired after 5 years of service. Each year, we average 5 ballistic vest purchases to replace those that have expired. This would increase our budget line in Uniforms to accommodate for these expected purchases. Peripherals= \$500.
Budget Narrative:	Ballistic vest x5 @ \$900 ea.= \$4,500
Total:	\$5,000
Item Number: 13 (New Item): New Position: Dispatcher	
Problem & Scope:	The addition of one full-time dispatcher will assist in filling in shift gaps due to sick leave, personal leave or an employee leaving the agency. This would greatly help reduce the need to have a sworn Police Officer cover dispatch shifts during leave and openings due to an employee leaving the agency. This will also reduce the need to have a dispatcher work overtime during special events. The creation of a new dispatch position would be on a floating schedule used to cover unexpected vacancies.
Budget Narrative:	Salary & benefits
Total:	\$55,000
Item Number: 14 (New Item): NBOR Pay Increase	
Problem & Scope:	NBOR currently has 26 positions and the starting salary is less than the new proposed minimum wage. They have filled 23 of those positions this year and are still struggling to fill the rest. They are in competition with all forms of employment, including fast food, and other Lifeguard agencies who pay more during the summer season. Having a competitive wage has always been a long-term goal. Lifeguarding agencies are in a unique position because employees are seasonal, and most are either college or high school students.
Budget Narrative:	Proposal to increase minimal starting salary to \$14.25 hourly.
Total:	Pending
Item Number: 15 (New Item): NBOR Building Renovation	
Problem & Scope:	The condition of the lifeguard station from a structural and practical standpoint is in desperate need of rehabilitation. Plans should include determining is a new building is appropriate or to simply renovate the current structure. Space is needed to hold a UTV and PWC with a dedicated first aid room for medical situations. Two years ago there were plans designed with this in mind but the plans never went into motion. Those plans are still maintained by this agency.
Budget Narrative:	TBD
Total:	Pending

WASTEWATER DEPARTMENT (FUND 401 / DEPARTMENT 4335)

	Capital Asset Requested	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Notes	Ref. Doc.	Account #
1	WWTF Improvements to address Consent Order		800,000	400,000						
2	Professional Services for design and permitting of WWTF improvements to address Consent Order		220,000							
3	Forcemain					750,000		at capacity		
3	WWTP plant upgrades					4,000,000		Plant capacity upgrades		
4	Professional Services for design and permitting of WWTF upgrades				750,000					
5	sewer dept truck replacement				30,000			Normal Replacement		
6	Sewer line replacement	350,000	350,000	725,000	350,000	350,000		Lines in back yards, no access to work on		
7	Belt press replacement		250,000					1994 equipment - key piece of equipment		
8	Influent Screens rehab		100,000							
9	Influent pump repairs	20,000	25,000	25,000	40,000	\$40,000		Over 20 years old/need replacement -essential equipment		
10	Grit System replacement		100,000					Essential piece - beyond outdated, refurbished several times already		
11	RAS Pump	7,000	20,000					Over 20 years old - need replacement		
12	Plant 2 air line header replacement		200,000					Airline has had hole for years we have been patching, needs to be replaced.		
13	Blower replacements		15,000							
14	Clarifier repairs and rehab		200,000	200,000	200,000			Need extra motor cannot operate plant without		
15	Anoxic Mixer	20,000						Refrubished 1 mixer this year, we were without it for 6 months - essential piece of equipmeent, plant cannot operate without		
16	PW Buidling Maintenance, repairs and painting		6,500	6,500	6,500	6,500	6,500	No maintenance done since building built		
17	PW roof Replacement		25,000					2004 original - patched several times already split with public works, water, and storm		
18										
19	Septic to sewer (South Of Kings bridge)						2,000,000	Need to get residents off Septic tanks		
20	Manhole rehabilitation		100,000	100,000	100,000	100,000	100,000			
21	Lift station rehabilitation/repairs		70,000	50,000	50,000	50,000	50,000			
22	Professional services to rank and prioritize future sewer projects		60,000					Split the total mount of \$120,000 with water		
23	Professional services to plan to eliminate WWTFsurface water discharges		80,000					Evaluate nonbeneficial surface water discharges, ecological or public water supply benefits, review finacial feasibility and preapre a plan for reomvng surface water discharges to submit to the FDEP as required by SB 64.		
24	Beaches combined outfall improvements by COAB		40,000					CONB share is 13.7% of the total cost		
25	WWTF Generator replacement			125,000				Replace old obsolete generator that is hard to get parts		
26	Truck			50,000				Replace old vehicles		
27	Tank inspections, cleaning, and rehab		150,000							
28

Agenda Item # 8B CRA Discussion

CITY OF NEPTUNE BEACH CITY COUNCIL MEETING STAFF REPORT

- AGENDA ITEM:** Establishing a CRA Discussion
- SUBMITTED BY:** Community Development Director Kristina Wright
- DATE:** August 11, 2021
- BACKGROUND:** Throughout the 2040 Neptune Beach Community Vision Plan, the critical need for the creation of substantial implementation methodology was revealed.
- Under Florida Law (Chapter 163, Part III), local governments are able to create a Community Redevelopment Area (CRA) where certain conditions exist.
- This first rough draft of the required Finding of Necessity takes into consideration data and analysis to determine if those conditions exist.
- BUDGET:** N/A
- RECOMMENDATION:** Review and discuss the roughdraft of the Finding of Necessity Report
- ATTACHMENT:** 1. CRA Report

Neptune Beach Community Redevelopment Area (CRA) *Finding of Necessity 2021*

August 2021

Kristina L. Wright, MAURP, FRA-RA, Community Development Director

Neptune Beach CRA

Overview

The citizens of Neptune Beach have collaborated and created a New Vision Plan, Comprehensive Plan, and Land Development Code. As a result of this meaningful public engagement and the innovative and responsive policies that this in-depth conversation has revealed, the City of Neptune Beach has been presented with a 2021 Award of Excellence from the American Planning Association- Florida Chapter in Miami, Florida.

The critical need for the creation of substantial implementation methodologies was revealed through the community visioning process which further emphasized our considerable needs in terms of significant infrastructure needs to better manage stormwater, water, and wastewater in addition to advanced safety, street and lighting design to further address much needed safety and traffic calming needs.

Section 1: Introduction

1.1 History and Purpose

This report serves to provide the analysis needed as part of the Finding of Necessity process required for the creation and implementation of a Community Redevelopment Area (CRA) within the State of Florida for the City of Neptune Beach. The City of Neptune Beach serves one of 3 oceanfront communities that serve as the beach for the City of Jacksonville, a consolidated city-county government. While the property values within the City of Neptune Beach are relatively high in comparison to other Florida oceanfront communities, the City of Neptune Beach only receives about 18% of ad valorem taxes collected citywide. From critical safety needs, street reclassifications, and complete streets projects desperately needed to ensure the safety of our residents to the astounding financial cost to replace stormwater laterals and culverts to prevent flooding and protect public and private property while addressing coastal vulnerability and resiliency, considerable work is critical to ensure optimum levels of public health, safety, and welfare of all Neptune Beach residents. This critical need for

an implementation strategy was uncovered throughout our award-winning community vision plan process. Further, the creation of a CRA was reinforced within this community created plan as the most critical implementation strategy for these realizations of significant public health and life safety needs.

Exhibit 1.1 below illustrates the proposed City of Neptune Beach CRA boundary. The area is generally bounded by the private parcels east of 3rd to the inclusion of the public ROW along Atlantic Boulevard to the marsh over to Forest Avenue then northeast along Kinds Road over to Florida Boulevard and reconnecting to the private parcels on the east side of 3rd Street/A1A.

Exhibit 1.1 Proposed for the Neptune Beach CRA

1.2 Methodology

In accordance with Florida Statutes, Chapter 163, Part III, the Finding of Necessity takes into consideration data and analysis to determine if the conditions of slum and blight exists. As such, this analysis examines the presence and prevalence of each criteria found within the proposed CRA Boundary and make a determination as to the existence and the extent of each criterion.

The identification of three major issue areas: Critical infrastructure needs, Pedestrian, Vehicular and Life Safety, and Critical Flooding and Stormwater Improvements has set the stage for an intensive existing conditions analysis within the proposed Neptune Beach CRA Boundary. Data has been collected from the City's Public Works Department, Parsons Engineering, Neptune Beach Community Vision Plan, and Crash Heat Maps provided by the Police Department in addition to other federal, state, regional, and local data to inform and best describe the presence as well as the extent of blight and slum, economic underutilization,

as well as life, safety, and public health concerns within the proposed CRA Boundary. More specifically, photographs were taken throughout the proposed CRA District and collected from the City’s Public Works Department to begin to illustrate the frequency and extent of the water line breaks due to substandard, aged lines on lines that do not provide adequate pressure or service to both existing commercial development and residential areas. Further, the Crash “Heat” Maps demonstrate the pedestrian and cyclist safety concerns as well as vehicular traffic events to begin to advance the level and quality of safety within the community. Each of the criteria for slum and blight will be discussed separately and the data sources used for the analysis will be described further within each section.

1.3 Legal Requirements

To create a CRA, it is necessary to produce a Finding of Necessity. The criteria for the Finding of Necessity are outlined within F.S. Chapter 163, part III to address the criteria for determine the existence of slum and blight as these constitute an economic and social liability” that burdens and decrease the tax base and reduce tax revenues... aggravates traffic problems, and substantially hampers the elimination of traffic hazards and the improvement of traffic facilities” since the elimination of slum and blight is “a matter of state policy and state concern in order that the state and its counties and municipalities shall not continue to be endangered by areas which are focal centers... (that) consume an excessive proportion of its revenues because of the extra services required for police, fire, accident, hospitalization, and other forms of public protection, services, and facilities” (Sections 163.335(1). Slum and blight are further described as follows:

Blight Determination 163.340(8)

“Blighted Area” is defined as an area in which there are a substantial number of deteriorated, or deteriorating structures, in which conditions, as indicated by government-maintained statistics or other studies, are leading to economic distress or endanger life or property, and in which two or more of the following factors are present:

- A) Predominance of defective or inadequate street layout, parking facilities, roadways, bridges, or public transportation facilities;

-
- B) Aggregate assessed values of real property in the area for ad valorem tax purposes have failed to show any appreciable increase over the 5 years prior to the finding of such conditions;
 - C) Faulty lot layout in relation to size, adequacy, accessibility, or usefulness;
 - D) Unsanitary or unsafe conditions;
 - E) Deterioration of site or other improvements;
 - F) Inadequate and outdated building density patterns;
 - G) Falling lease rates per square foot of office, commercial, or industrial space compared to the remainder of the county or municipality;
 - H) Tax or special assessment delinquency exceeding the fair value of the land;
 - I) Residential and commercial vacancy rates higher in the area than in the remainder of the county or municipality;
 - J) Incidence of crime in the area higher than in the remainder of the county or municipality;
 - K) Fire and emergency medical service calls to the area proportionately higher than in the remainder of the county or municipality;
 - L) A greater number of violations of the Florida Building Code in the area than the number of violations recorded in the remainder of the county or municipality;
 - M) Diversity of ownership or defective or unusual conditions of title which prevent the free alienability of land within the deteriorated or hazardous area; or
 - N) Governmentally owned property with adverse environmental conditions caused by a public or private entity.

Slum Determination 163.340(7)

“Slum area” is defined as an area having physical or economic conditions conducive to disease infant mortality, juvenile delinquency, poverty, or crime because there is a predominance of buildings or improvements, whether residential or nonresidential, which are impaired by reason of dilapidation, deterioration, age, or obsolescence, and exhibit one or more of the following factors:

- A) Inadequate provision for ventilation, light, air, sanitation, or open spaces;

-
- B) High density of population, compared to the population density of adjacent areas within the county or municipality; and overcrowding, as indicated by government-maintained statistics or other studies and the requirements of the Florida Building Code; or
 - C) The existence of conditions that endanger life or property by fire or other causes.

Section 2: Conditions of Blight Analysis

2.1 Analysis of Blight Conditions

According to Florida Statutes, a blighted area is defined as an area where there are “a substantial number of deteriorated or deteriorating structures, in which conditions, as indicated by government-maintained statistics or other studies, are leading to economic distress or endanger life or property.”

For this report blight has been indicated not only through photographic evidence, but also through GIS and hand drawn maps to begin the process to digitize our substantial and critical infrastructure needs. Further, field observations and testimonials have provided historical assessments of infrastructure and safety needs from the past 30 years of patching, repair, and replacement through key senior public works professionals. As such, Figures 2.1 through 2.XX are indicative of the conditions within the proposed CRA area. Other photographs and supporting documentation are in the Appendix.

To satisfy the requirement of meeting two or more of the following factors to demonstrate the achievement of blight as indicated in Section 1 of this study, the evidence has revealed the achievement of the following three (3) blight determination criteria:

1. Predominance of defective or inadequate street layout, parking facilities, roadways, bridges, or public transportation facilities;
2. Unsanitary or unsafe conditions;
3. Deterioration of site or other improvements;

Faulty, Aged, and Deficient Infrastructure; Life Safety Hazards and Economic Underutilization

More specifically, the majority of infrastructure within the proposed CRA Boundary is either cast iron or asbestos concrete and many of these lines have been patched multiple times throughout the city's 90 years of incorporation. Most of the lines are 8" lines, but there are even 2-inch lines in some cases. The water pressure within the community is severely substandard to the point where a major grocery retail chain that is moving into an existing grocery store shell is having to implement a tank and pump system to achieve water pressure for fire safety purposes. Whereas a minimal standard for commercial water pressure is at the very least above 1,500 gal/min., the current pressure is below 1,000 gal/min for commercial and residential areas. The inadequacy of water pressure and few critical backup measures severely restricts the economic utility of parcels within the proposed CRA Boundary. Improvements to ensure the sustainability of the utility and life safety of our community would be improved through a looped system of 12" mains within easements and public rights-of-way instead of through private lots with substandard, even 2" PVC lines. Currently, there is only one supply line to the elevated water storage tower tank that runs behind Beaches Chapel. The next priority would be to loop the 12" lines and tie into existing 8" lines down Atlantic to set the stage for replacement lines in the future, matching 12" diameter within the easements along Atlantic Boulevard. The timing of these upgrades will ensure the coordination of improvements prior to any streetscaping and safety improvements indicated within Neptune Beach Community Vision Plan.

Further, the terra cotta sewer lines cross 3rd ST/A1A at only one point, which is another critical vulnerability in the City's water and sewer system. Any repairs to this critical connection would entail significant and costly pumping and the closure of segments of a critical state-owned collector. As such, another connection is not only necessary, it is critical.

Flooding, Safety, and Stormwater Management Deficiencies

Additionally, as noted in **Table x.x**, the proposed Community Redevelopment Area has millions of dollars of critical infrastructure needs to address the dire conditions of the existing stormwater management system. Innovative policies are being developed to recapture pervious surface area will help; however, a stormwater culvert on Oleander Avenue alone will be approximately \$4 Million. While we have strong property values in most areas within the

city, these critical needs coupled with the fact that the City of Neptune Beach only currently receives about 18% of COJ/Duval consolidated ad valorem taxes has been the basis for cheap patching and getting by as best as possible throughout the City's 90 year incorporation. The following pictures illustrate the frequency and severity of flooding events as even King Tide events and substantial rains cause flooding east of 3rd even without more severe events, such as tropical storms and hurricanes.

Pedestrian and Cyclist Safety: Sidewalks, Trails, and Alternative Parking Solutions

As indicated by the Traffic Crash Heat Maps, there are significant improvements needed to the current transportation network. Additionally, the implementation of an extension of Lemon Street would greatly aid the City in the reclassification and improvements that would connect east and west of 3rd Street/A1A while also assisting in the future removal of lanes due to advanced networks established at the most critical intersection of the City of Neptune where catastrophic vehicle crashes have occurred often at high rates of speed where Atlantic Boulevard suddenly interjects into the community's prized pedestrian-oriented Beaches Town Center. As such, the designation of deteriorated structure is not limited to buildings and includes infrastructure elements such as roadways, sidewalks, drainage canals, barriers, and drainage aprons. As such, critical upgrades are needed near Jarboe Park, the Schools, along the commercial corridor along the canal to make connections to the library and the schools along a safer transit route for all residents, including our schoolchildren. Further the flyover presents, not only significant safety concerns but also a highly neglected "gateway" to the City of Neptune Beach where commercial development is significantly underutilized.

Section 3: Conditions of Slum Analysis

Slum Determination 163.340(7)

While the City of Neptune Beach proposed Community Redevelopment Area achieves three (3) of the criteria needed to establish a CRA, the determination of “slum” has

“Slum area” is defined as an area having physical or economic conditions conducive to disease infant mortality, juvenile delinquency, poverty, or crime because there is a predominance of buildings or improvements, whether residential or nonresidential, which are impaired by reason of dilapidation, deterioration, age, or obsolescence, and exhibit one or more of the following factors:

- A) Inadequate provision for ventilation, light, air, sanitation, or open spaces;
- B) High density of population, compared to the population density of adjacent areas within the county or municipality; and overcrowding, as indicated by government-maintained statistics or other studies and the requirements of the Florida Building Code; or
- C) The existence of conditions that endanger life or property by fire or other causes.

3.1 Analysis of Slum Conditions

The ability to provide sanitation is vulnerable and limited but currently needs are being met; however, conditions that endanger life or property by fire or other causes would include flooding and our significant and critical stormwater needs as well as the City’s dire condition of water provision for the fire safety due to insufficient water pressure within the existing, age, and substandard water system.

The conditions of inadequate housing can be categorized through the determination of “Unsafe Structures” as determined by the Florida Building Code. Data collected from the Neptune Beach Community Development Department include the findings obtained through the following Divisions: Building, Fire and Floodplain Management, and Code Divisions indicate that the proposed CRA area has unsafe structures within its borders. As indicated in the following Images:

Additionally, these large commercial properties are severely economically underutilized with one property being vacant for more than a decade within a quarter mile of the Atlantic Ocean and the Beaches Town Center. Without penalty, this property has been left vacant and unsealed from damage by vandals and vagrants. Further, landscaping upkeep is such that it is less expensive to collect the fines for lack of maintenance than it is to pay to have the work performed. Further this is a significant loss to Duval/COJ

These citations cover the full range of conditions including inadequate ventilation, substandard housing, and improper maintenance of the buildings. Additionally, Exhibit 2-1, on the next page, shows the water and sanitary sewer customers in the proposed CRA. The map shows that more than one-half of the proposed CRA does not have adequate infrastructure in terms of stormwater, sewer, water, and pedestrian safety facilities. These factors contribute to significant health, safety, and public welfare concerns within the proposed CRA boundary.

Substandard water pressure in residential and commercial per hydrant testing... 1000 gal/min. new Publix must tie into the back. It is inadequate to meet flow demands required today. Tank and pump to meet fire flow demands for the sprinkler system. Tank and pump are not standard or a best practice. Build infrastructure to meet demands (new water mains and such to meet at least 1000 (should be at least 2000 gal/min). More plastics (higher BTUs than wood) requires more water flow for fire safety.

*Types of construction are based on NFPA 220.
[†]Measured at 20 psi (139.9 kPa).

covered and maintained tight enough to ensure against ignition from external fire sources and the scattering of burning and combustible debris that can come in contact with ignition sources.

19.1.8.2 Transporting burning waste or refuse shall be prohibited.

19.1.8.3 Trucks or automobiles, other than mechanical handling equipment and approved industrial trucks as listed in NFPA 505, *Fire Safety Standard for Powered Industrial Trucks Including Type Designations, Areas of Use, Conversions, Maintenance, and Operations*, shall not enter any fiber storage room or building but shall be permitted to be used at loading platforms.

19.2 Combustible Waste and Refuse.

19.2.1 Rubbish Containers.

19.2.1.1 General. Rubbish containers kept outside of rooms or vaults shall not exceed 40.5 ft³ (1.15 m³) capacity.

19.2.1.1.1 Containers exceeding a capacity of 5¹/₃ ft³ [40 gal (0.15 m³)] shall be provided with lids.

1. The existence of conditions that endanger life or property by fire or other causes.

A review of the data from the COJ Fire Rescue Department reveals that in 2014, the proposed CRA area had a total of xxx emergency calls. Based on the population of 7,000, this equates to Calls per one thousand population. For the entire service area of Consolidated Jacksonville/Duval Fire Rescue during the same time, the population of 7,000 generated xxxx calls for emergencies, which is xxxx calls per one thousand population, per the 2014-2015 COJ JFRD Fire Rescue Business Plan.

3.2 Results of Analysis

The proposed area meets aspects of two (2) of the three (3) criteria (1 and 3) of Section 163.340(7) of the State Statutes.
